ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the fiscal year ended December 31, 2016

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
1934

Commission file number: 000-09165

STRYKER CORPORATION

(Exact name of registrant as specified in its charter)

Michigan

38-1239739

(State of incorporation)

(I.R.S. Employer Identification No.)

2825 Airview Boulevard, Kalamazoo, Michigan 49002

(Address of principal executive offices)

(Zip Code)

(269) 385-2600

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Common Stock, \$.10 par value New York Stock Exchange

(Title of each class)

(Name of each exchange on which registered)

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities

Act. YES NO

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the

Act. YES NO

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities and Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90

days. YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES NO

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. [

]

Edgar Filing: STRYKER CORP - Form 10-K

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer Small reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). YES NO

Based on the closing sales price of June 30, 2016, the aggregate market value of the voting stock held by non-affiliates of the registrant was approximately \$41,635,988,124. The number of shares outstanding of the registrant's common stock, \$.10 par value, was 372,878,298 on January 31, 2017.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the proxy statement to be filed with the U.S. Securities and Exchange Commission relating to the 2017 Annual Meeting of Shareholders (the 2017 proxy statement) are incorporated by reference into Part III.

STRYKER CORPORATION 2016 Form 10-K

PART I

ITEM 1. BUSINESS.

Making healthcare better is at the heart of what Stryker does. We do this by collaborating with our customers to develop innovative products and services that ultimately improve patients' lives. Our core values guide our behaviors and actions and are fundamental to how Stryker executes its mission.

We are a global leader in medical technology with 2016 net sales of \$11,325 and net earnings of \$1,647. Our products include implants used in joint replacement and trauma surgeries; surgical equipment and surgical navigation systems; endoscopic and communications systems; patient handling, emergency medical equipment and intensive care disposable products; neurosurgical, neurovascular and spinal devices; as well as other products used in a variety of medical specialties.

Stryker was incorporated in Michigan in 1946 as the successor company to a business founded in 1941 by Dr. Homer H. Stryker, a prominent orthopaedic surgeon and the inventor of several orthopaedic products. In the United States most of our products are marketed directly to doctors, hospitals and other healthcare facilities. Our products are sold in over 100 countries through company-owned sales subsidiaries and branches as well as third-party dealers and distributors.

As used herein, and except where the context otherwise requires, "Stryker," "we," "us," and "our" refer to Stryker Corporation and its consolidated subsidiaries.

Business Segments and Geographic Information

We segregate our operations into three reportable business segments: Orthopaedics, MedSurg and Neurotechnology and Spine. Financial information regarding our reportable business segments and certain geographic information is included under "Results of Operations" in Item 7 of this report and Notes 10 and 13 to our Consolidated Financial Statements.

Net Sales by Reportable Segment

	2016			2015			2014		
Orthopaedics	\$4,422	39	%	\$4,223	43	%	\$4,153	43	%
MedSurg	4,894	43		3,895	39		3,781	39	
Neurotechnology and Spine	2,009	18		1,828	18		1,741	18	
Total	\$11,325	100	%	\$9,946	100	%	\$9,675	100	%

Orthopaedics

Orthopaedics products consist primarily of implants used in hip and knee joint replacements and trauma and extremity surgeries. We bring patients and physicians advanced implant designs and specialized instrumentation that make orthopaedic surgery and

recovery simpler, faster and more effective. We support surgeons with the technology and services they need as they develop new surgical techniques. In 2015 we received clearance by the Food and Drug Administration (FDA) for our Mako total knee application. This expands our Mako product offerings of partial knee and total hip applications to provide a comprehensive solution in the robotic arm-assisted reconstructive surgery line. We anticipate the full commercial launch of our Mako total knee application in 2017.

Stryker is one of four leading global competitors for joint replacement and trauma products; the other three being Zimmer Biomet Holdings, Inc. (Zimmer), DePuy Synthes (a Johnson & Johnson company) and Smith & Nephew plc (Smith & Nephew).

Composition of Orthopaedics Net Sales

	2016			2015			2014		
Knees	\$1,490	34	%	\$1,403	33	%	\$1,396	34	%
Hips	1,283	29		1,263	30		1,291	31	
Trauma and Extremities	1,364	31		1,291	31		1,230	30	
Other	285	6		266	6		236	5	
Total	\$4,422	100	%	\$4,223	100	%	\$4,153	100	%

In 2012 we voluntarily recalled our Rejuvenate and ABG II Modular-Neck hip stems and terminated global distribution of these hip products. In November 2014 we entered into a settlement agreement to compensate eligible United States patients who had surgery to replace their Rejuvenate and ABG II Modular-Neck hip stems prior to November 3, 2014, and in December 2016 the settlement program was extended to patients who had revision surgery prior to December 19, 2016. To date we have recorded charges to earnings totaling \$1,968 (\$2,200 before \$232 of insurance recoveries) representing the actuarially determined low end of the range of probable loss to resolve this entire matter globally. Refer to Note 6 to our Consolidated Financial Statements.

MedSurg

MedSurg products include surgical equipment and surgical navigation systems (Instruments), endoscopic and communications systems (Endoscopy), patient handling, emergency medical equipment and intensive care disposable products (Medical), reprocessed and remanufactured medical devices (Sustainability) and other medical device products used in a variety of medical specialties.

Stryker is one of five leading global competitors in Instruments; the other four being Zimmer, Medtronic plc., Johnson & Johnson and ConMed Linvatec, Inc. (a subsidiary of CONMED Corporation). In Endoscopy we compete with Smith & Nephew, ConMed Linvatec, Arthrex, Inc., Karl Storz GmbH & Co., Olympus Optical Co. Ltd. and STERIS plc. and our primary competitors in Medical are Hill-Rom Holdings, Inc., Zoll Medical Corporation and Koninklijke Philips N.V.

Composition of Medsurg Net Sales

	2016		2015		2014
Instruments	\$1,55332	%	\$1,46638	%	\$1,42438 %
Endoscopy	1,470	30	1,390	36	1,382 37
Medical	1,633	33	823	21	766 20
Sustainability	238	5	216	5	209 5
Total	\$4,894100%		\$3,895100%		\$3,781100%

In 2016 we completed the acquisition of Sage Products, LLC (Sage) for total consideration of approximately \$2,875. Sage develops, manufactures and distributes intensive care disposable products.

In 2016 we completed the acquisition of Physio-Control International, Inc. (Physio) for total net consideration of approximately \$1,299. Physio develops, manufactures and markets monitors/defibrillators, AEDs and CPR-assist devices, along with data management and support services.

Dollar amounts in millions except per share amounts or as otherwise specified. 1

STRYKER CORPORATION 2016 Form 10-K

In 2016 we completed the acquisition of the Synergetics neuro portfolio (Synergetics). The acquired portfolio of Synergetics includes the Malis generator, Spetzler Malis disposable forceps, and our existing Sonopet tips and RF generator.

In 2016 Instruments launched Neptune 3, the next generation of its surgical waste management system, which includes an interactive touch screen and an expanded suction range. Medical launched the Performance-LOAD manual cot fastener, which helps ensure caregiver and patient safety. Endoscopy launched a 4K surgical display component to the 1588 AIM Platform, which enables surgeons to optimize surgical visualization.

In 2015 we completed the acquisition of CHG Hospital Beds, Inc. (CHG). CHG designs, manufactures and markets low-height hospital beds and related accessories.

Neurotechnology and Spine

Neurotechnology and Spine products include both neurosurgical and neurovascular devices. Our neurotechnology offering includes products used for minimally invasive endovascular techniques; a comprehensive line of products for traditional brain and open skull based surgical procedures; orthobiologic and biosurgery products, including synthetic bone grafts and vertebral augmentation products; and minimally invasive products for the treatment of acute ischemic and hemorrhagic stroke. Our spinal implant offering includes cervical, thoracolumbar and interbody systems used in spinal injury, deformity and degenerative therapies.

Stryker is one of five leading global competitors in Neurotechnology; the other four being Medtronic, Johnson & Johnson, Terumo Corporation and Penumbra, Inc. Stryker is one of five leading competitors globally in Spine; the other four being Medtronic Sofamor Danek, Inc. (a subsidiary of Medtronic), DePuy Synthes, Nuvasive, Inc. and Globus Medical, Inc.

Composition of Neurotechnology and Spine Net Sales

	2016	2015	2014
Neurotechnology	\$1,255.62 %	\$1,088.60 %	\$1,001.57 %
Spine	754 38	740 40	740 43
Total	\$2,009.100 %	\$1,828.100 %	\$1,741.100 %

In 2015 the New England Journal of Medicine released results of a study finding that intra-arterial treatment to remove stroke-causing blood clots provides better outcomes than using a clot dissolving drug. One of the devices used in this study was our Trevo™ Retriever. Medical professionals in the field believe that the study's results will change the practice of acute stroke treatments. Stryker's Trevo™ Retriever is a leading device in the market that allows physicians to visualize blood clot interaction during treatment. In 2016 the FDA expanded the indication for the Trevo™ Retriever as a front-line treatment to reduce paralysis, speech difficulties and other stroke disabilities in patients experiencing acute ischemic stroke. Trevo™ is the first thrombectomy device to receive this expanded indication.

Geographic Areas

In 2016 approximately 73% of our net sales were generated from customers in the United States. Additional geographic information is included under "Results of Operations" in Item 7 of this report and Note 13 to our Consolidated Financial Statements.

Raw Materials and Inventory

Raw materials essential to our business are generally readily available from multiple sources; however, certain of our raw materials are currently sourced from single suppliers. Substantially all products we manufacture are stocked in inventory, while certain MedSurg products are assembled to order. The dollar amount of

backlog orders at any given time is not meaningful to an understanding of our business taken as a whole.

Patents and Trademarks

Patents and trademarks are significant to our business to the extent that a product or an attribute of a product represents a unique design or process. Patent protection of such products restricts competitors from duplicating these unique designs and features. We seek to obtain patent protection on our products whenever appropriate for protecting our competitive advantage. On December 31, 2016 we owned approximately 2,184 United States patents and approximately 3,454 international patents.

Seasonality

Our business is generally not seasonal in nature; however, the number of orthopaedic implant surgeries is typically lower in the summer months, and sales of capital equipment are generally higher in the fourth quarter.

Competition

In each of our product lines we compete with local and global companies. Competition exists in all product lines without regard to the number and size of the competing companies involved. The development of new and innovative products is important to our success in all areas of our business. Competition in research involving the development and improvement of new and existing products and processes is particularly significant. The competitive environment requires substantial investments in continuing research and maintaining sales forces.

We believe our commitment to innovation, quality and service and our reputation differentiate us in the highly competitive product categories in which we operate and enable us to compete effectively. We believe that our competitive position in the future will depend to a large degree on our ability to develop new products and make improvements to existing products.

Product Development

Most of our products and product improvements were developed internally at research facilities in the United States, France, Germany, India, Ireland, Puerto Rico, Sweden and Switzerland. We also invest through acquisitions in technologies developed by third parties that have the potential to expand the markets in which we operate. We maintain close working relationships with physicians and medical personnel in hospitals and universities who assist us in product development efforts. The total costs of research, development and engineering activities were \$715, \$625 and \$614 in 2016, 2015 and 2014.

Regulation

Our businesses are subject to varying degrees of governmental regulation in the countries in which we operate, and the general trend is toward increasingly stringent regulation.

In the United States the Medical Device Amendments of 1976 to the Federal Food, Drug and Cosmetic Act and its subsequent amendments and the regulations issued and proposed thereunder provide for regulation by the FDA of the design, manufacture and marketing of medical devices, including most of our products. Many of our new products fall into FDA classifications that require notification submitted as a 510(k) and review by the FDA before we begin marketing them. Certain of our products require extensive clinical testing, consisting of safety and efficacy studies, followed by pre-market approval (PMA) applications for specific surgical indications.

The FDA's Quality System regulations set forth standards for our product design and manufacturing processes, require the maintenance of certain records and provide for inspections of our

Dollar amounts in millions except per share amounts or as otherwise specified. 2

STRYKER CORPORATION 2016 Form 10-K

facilities by the FDA. There are also certain requirements of state, local and foreign governments that must be complied with in the manufacture and marketing of our products.

The member states of the European Union (EU) adopted the European Medical Device Directives, which form a single set of medical device regulations for all EU member countries. These regulations require companies that wish to manufacture and distribute medical devices in EU member countries to meet certain quality system requirements and obtain CE marking for their products. We have authorization to apply the CE marking to substantially all of our products. In addition, we comply with the unique regulatory requirements of each of the countries in Europe and other countries in which we market our products.

Initiatives sponsored by government agencies, legislative bodies and the private sector to limit the growth of healthcare expenses generally and hospital costs in particular, including price regulation and competitive pricing, are ongoing in markets where we do business. It is not possible to predict at this time the long-term impact of such cost containment measures on our future business. In addition, business practices in the healthcare industry are scrutinized, particularly in the United States, by federal and state government agencies, and the resulting investigations and prosecutions carry the risk of significant civil and criminal penalties.

Employees

On December 31, 2016 we had approximately 33,000 employees globally. The number of employees increased from 2015 largely due to our Sage and Physio acquisitions. Certain international employees are covered by collective bargaining agreements. We believe that we maintain positive relationships with our employees globally.

Executive Officers on January 31, 2017

Name	Age	Title	First Became an Executive Officer
Kevin A. Lobo	51	Chairman and Chief Executive Officer	2011
Yin C. Becker	53	Vice President of Communication and Public Affairs	2016
William E. Berry Jr.	51	Vice President, Corporate Controller and Principal Accounting Officer	2014
Glenn S. Boehnlein	55	Vice President, Chief Financial Officer	2016
Lonny J. Carpenter	55	Group President, Global Quality and Business Operations	2008
M. Kathryn Fink	47	Vice President, Chief Human Resources Officer	2016
David K. Floyd	56	Group President, Orthopaedics	2012
Michael D. Hutchinson	46	General Counsel	2014
Graham A. McLean	52	President, Asia-Pacific	2017
Katherine A. Owen	46	Vice President, Strategy and Investor Relations	2007
Bijoy S.N. Sagar	48	Vice President, Chief Information Officer	2014
Timothy J. Scannell	52	Group President, MedSurg and Neurotechnology	2008

Each of our executive officers was elected by our Board of Directors to serve in the office indicated until the first meeting of the Board of Directors following the annual meeting of shareholders in 2017 or until a successor is chosen and qualified or until his or her resignation or removal. Each of our executive officers held the position above or served Stryker in various executive or administrative capacities for at least five years, except for Ms. Fink and Mr. Sagar. Prior to joining Stryker in October 2013, Ms. Fink held a variety of senior level human resources roles for the previous six years at Johnson & Johnson, most recently as the Worldwide Vice President, Human Resources of Ethicon. While at Stryker, Ms. Fink held two different senior level Human Resource roles. Prior to

joining Stryker in May 2014, Mr. Sagar served as the Chief Information officer for Merck Millipore, and before that as Global Head of Information Systems and a member of the divisional board for the chemicals division of Merck KGaA. Mr. McLean was appointed to the position of President, Asia-Pacific, effective January 1, 2017. Prior to this role, Mr. McLean held a variety of senior level leadership roles at Stryker since 2005.

William R. Jellison retired from his role as Vice President, Chief Financial Officer effective April 1, 2016. Glenn S. Boehnlein, who served as Group Vice President, Chief Financial Officer for MedSurg & Neurotechnology since 2011,

was promoted to Vice President, Chief Financial Officer effective April 1, 2016. Before his role as Group Vice President, Chief Financial Officer for MedSurg & Neurotechnology, Mr. Boehnlein held a variety of senior finance roles in the MedSurg & Neurotechnology group.

Available Information

Our main corporate website address is www.stryker.com. Copies of our Quarterly Reports on Form 10-Q, Annual Reports on Form 10-K and Current Reports on Form 8-K filed or furnished to the United States Securities and Exchange Commission (SEC) will be provided without charge to any shareholder submitting a written request to our Corporate Secretary at our principal executive offices. All of our SEC filings are also available free of charge on our website within the "For Investors - SEC Filings & Ownership Reports" link as soon as reasonably practicable after having been electronically filed or furnished to the SEC. All SEC filings are also available at the SEC's website at www.sec.gov.

ITEM 1A. RISK FACTORS.

This report contains statements referring to us that are not historical facts and are considered "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements, which are intended to take advantage of the "safe harbor" provisions of the Reform Act, are based on current projections about operations, industry conditions, financial condition and liquidity. Words that identify forward-looking statements include words such as "may," "could," "will," "should," "possible," "plan," "predict," "forecast," "potential," "anticipate," "estimate," "expect," "project," "intend," "believe," "may impact," "on track," "goal," "strategy" and words and terms of similar substance used in connection with any discussion of future operating or financial performance, an acquisition or our businesses. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. Those statements are not guarantees and are subject to risks, uncertainties and assumptions that are difficult to predict. Therefore, actual results could differ materially and adversely from these forward-looking statements. Some important factors that could cause our actual results to differ from our expectations in any forward-looking statements include the risks discussed below.

Our operations and financial results are subject to various risks and uncertainties discussed below that could materially and adversely affect our business, cash flows, financial condition and results of operations. Additional risks and uncertainties not currently known to us or that we currently deem not to be material may also materially and adversely affect our business, cash flows, financial condition or results of operations.

LEGAL AND REGULATORY RISKS

Current economic and political conditions make tax rules in any jurisdiction subject to significant change: Proposals for broad reform of the existing United States corporate tax system are under evaluation by various legislative and administrative bodies.

Dollar amounts in millions except per share amounts or as otherwise specified. 3

STRYKER CORPORATION 2016 Form 10-K

We cannot predict the overall impact that such proposals may have on our business. In addition, further changes in the tax laws of foreign jurisdictions could arise, including as a result of the base erosion and profit shifting (BEPS) project undertaken by the Organisation for Economic Cooperation and Development (OECD). The OECD, which represents a coalition of member countries, has issued recommendations that, in some cases, would make substantial changes to numerous long-standing tax positions and principles. These contemplated changes, to the extent adopted by OECD members and/or other countries, could increase tax uncertainty and may adversely affect our provision for income taxes.

The impact of United States healthcare reform legislation on our business remains uncertain: In 2010 the Patient Protection and Affordable Care Act (ACA) was enacted. While the provisions of the ACA are intended to expand access to health insurance coverage and improve the quality of healthcare over time, other provisions of the legislation, including Medicare provisions aimed at decreasing costs, comparative effectiveness research, an independent payment advisory board and pilot programs to evaluate alternative payment methodologies, are having a meaningful effect on the way healthcare is developed and delivered and could have a significant effect on our business. Among other things, the ACA imposed a 2.3 percent excise tax on medical devices that applies only to United States sales, which are a majority of our medical device sales; however, Congress suspended the excise tax for 2016 and 2017. We are unable to predict whether the suspension will be continued beyond 2017. We also face uncertainties that might result from modification or repeal of any of the provisions of the ACA, including as a result of current and future executive orders and legislative actions. We cannot predict what other healthcare programs and regulations will ultimately be implemented at the federal or state level or the effect of any future legislation or regulation in the United States may have on our business.

We are subject to extensive governmental regulation relating to the manufacturing, labeling and marketing of our products: Our products are subject to extensive and evolving regulations and rigorous regulatory enforcement by the FDA and other governmental authorities in the United States and internationally. The process of obtaining regulatory approvals to market a medical device can be costly and time consuming and approvals might not be granted timely. We have ongoing responsibilities under the laws and regulations applicable to our products and facilities and are subject to periodic inspections by the FDA and other governmental authorities to determine compliance with the quality system and medical device reporting regulations and other requirements. Remediation costs can be significant. If we fail to fully comply with applicable regulatory requirements, we may be subject to a range of sanctions, including substantial fines, warning letters that require corrective action, product seizures, recalls, the suspension of product manufacturing, revocation of approvals, exclusion from future participation in government healthcare programs, substantial fines and criminal prosecution.

We are subject to federal, state and foreign healthcare regulations including anti-bribery and anti-corruption laws, and could face substantial penalties if we fail to fully comply with such regulations and laws: The relationships that we and our distributors and others that market our products have with healthcare professionals, such as physicians and hospitals, are subject to scrutiny under various state and federal laws often referred to collectively as healthcare fraud and abuse laws. In addition, the United States and foreign government regulators have increased the enforcement of the Foreign Corrupt Practices Act and other anti-bribery laws. We also must comply with a variety of other

laws that protect the privacy of individually identifiable healthcare information and impose extensive tracking and reporting related to all transfers of value provided to certain healthcare professionals. These laws and regulations are broad in scope and are subject to evolving interpretation and we could be required to incur substantial costs to monitor compliance or to alter our practices if we are found not to be in compliance. Violations of these laws may be punishable by criminal or civil sanctions, including substantial fines, imprisonment of current or former employees and exclusion from participation in governmental healthcare programs.

We may be adversely affected by product liability claims, unfavorable court decisions or legal settlements: We are exposed to potential product liability risks inherent in the design, manufacture and marketing of medical devices, many of which are implanted in the human body for long periods of time or indefinitely. We are currently defendants in a number of product liability matters, including those relating to our Rejuvenate and ABGII Modular-Neck hip stems discussed in Note 6 to our Consolidated Financial Statements. These matters are subject to many uncertainties

and outcomes are not predictable. In addition, we may incur significant legal expenses regardless of whether we are found to be liable. We are self-insured for product liability-related claims and expenses.

Intellectual property litigation and infringement claims could cause us to incur significant expenses or prevent us from selling certain of our products: The medical device industry is characterized by extensive intellectual property litigation and, from time to time, we are the subject of claims of infringement or misappropriation. Regardless of outcome, such claims are expensive to defend and divert management and operating personnel from other business issues. A successful claim or claims of patent or other intellectual property infringement against us could result in payment of significant monetary damages and/or royalty payments or negatively impact our ability to sell current or future products in the affected category.

Dependence on patent and other proprietary rights and failing to protect such rights or to be successful in litigation related to such rights may impact offerings in our product portfolios: Our long-term success largely depends on our ability to market technologically competitive products. If we fail to obtain or maintain adequate intellectual property protection, it could allow others to sell products that directly compete with proprietary features in our product portfolio. Also, our issued patents may be subject to claims challenging their validity and scope and raising other issues. In addition, currently pending or future patent applications may not result in issued patents.

MARKET RISKS

Macroeconomic developments could negatively affect our ability to conduct business in affected regions: Financial difficulties experienced by our customers, distributors and suppliers could result in product delays and inventory issues; risks to accounts receivable could also include delays in collection and greater bad debt expense.

We have exposure to exchange rate fluctuations on cross border transactions and translation of local currency results into United States Dollars: We report our financial results in United States Dollars and 27% of our net sales are denominated in foreign currencies, including the Euro, the British Pound and the Japanese Yen. Cross border transactions with external parties and intercompany relationships result in increased exposure to foreign currency exchange effects. While we use derivative instruments to manage the impact of currency exchange; our hedging strategies may not be successful, and our unhedged exposures continue to be subject to currency fluctuations. In addition, the weakening or

Dollar amounts in millions except per share amounts or as otherwise specified. 4

STRYKER CORPORATION 2016 Form 10-K

strengthening of the United States Dollar results in favorable or unfavorable translation effects when the results of our foreign locations are translated into United States Dollars.

Additional capital that we may require in the future may not be available to us or may only be available to us on unfavorable terms: Our future capital requirements will depend on many factors, including operating requirements, current and future acquisitions and the need to refinance existing debt. Our ability to issue additional debt or enter into other financing arrangements on acceptable terms could be adversely affected by our debt levels, unfavorable changes in economic conditions generally or uncertainties that affect the capital markets. Changes in credit ratings issued by nationally recognized credit rating agencies could also adversely affect our access to and cost of financing. Higher borrowing costs or the inability to access capital markets could adversely affect our ability to support future growth and operating requirements.

BUSINESS AND OPERATIONAL RISKS

We are subject to cost containment measures in the United States and other countries resulting in pricing pressures: Initiatives sponsored by government agencies, legislative bodies and the private sector to control healthcare costs, including price regulation and competitive pricing, are ongoing in markets where we do business. Pricing pressure has also increased due to continued consolidation among healthcare providers, trends toward managed care, the shift toward governments becoming the primary payers of healthcare expenses, reduction in reimbursement levels and medical procedure volumes and government laws and regulations relating to sales and promotion, reimbursement and pricing generally.

We operate in a highly competitive industry in which competition in the development and improvement of new and existing products is significant: The markets in which we compete are highly competitive. New products and surgical procedures are introduced on an ongoing basis and our present or future products could be rendered obsolete or uneconomical by technological advances by our competitors, who may respond more quickly to new or emerging technologies, undertake more extensive marketing campaigns, have greater financial, marketing and other resources or be more successful in attracting potential customers, employees and strategic partners.

We may be unable to maintain adequate working relationships with healthcare professionals: We seek to maintain close working relationships with respected physicians and medical personnel in hospitals and universities who assist in product research and development. We rely on these professionals to assist us in the development and improvement of proprietary products. If we are unable to maintain these relationships, our ability to develop, market and sell new and improved products could be adversely affected.

We are subject to additional risks associated with our extensive international operations: We develop, manufacture and distribute our products globally. Our international operations are subject to additional risks and potential costs, including changes in reimbursement, changes in regulatory requirements, differing local product preferences and product requirements, diminished protection of intellectual property in some countries, trade protection measures and import or export licensing requirements, difficulty in staffing and managing foreign operations, and political and economic instability. Our business could be adversely impacted if we are unable to successfully manage these and other risks of international operations in an increasingly volatile environment.

We may be unable to capitalize on previous or future acquisitions: In addition to internally developed products, we invest in new products and technologies through acquisitions. Such investments are inherently risky, and we cannot guarantee that any acquisition will be successful or will not have a material unfavorable impact on us. The risks include the activities required and resources allocated to integrate new businesses, diversion of management time that could adversely affect management's ability to focus on other projects, the inability to realize the expected benefits, savings or synergies from the acquisition, the loss of key personnel and exposure to unexpected liabilities of acquired companies. In addition, we cannot be certain that the businesses we acquire will become or remain profitable.

We may incur goodwill impairment charges related to one or more of our business units: We perform our annual impairment test for goodwill in the fourth quarter of each year, or more frequently if indicators are present or changes in circumstances suggest that impairment may exist. In evaluating the potential for impairment we make assumptions regarding revenue projections, growth rates, cash flows, tax rates and discount rates. These assumptions are uncertain and by nature may vary from actual results. A significant reduction in the estimated fair values could result in

impairment charges.

We could be negatively impacted by future changes in the allocation of income to each of the income tax jurisdictions in which we operate: We operate in multiple income tax jurisdictions both in the United States and internationally. Accordingly, our management must determine the appropriate allocation of income to each jurisdiction based on current interpretations of complex income tax regulations. Income tax authorities regularly perform audits of our income tax filings. Income tax audits associated with the allocation of income and other complex issues, including inventory transfer pricing and cost sharing, product royalty and foreign branch arrangements, may require an extended period of time to resolve and may result in significant income tax adjustments.

We could experience a failure of a key information technology system, process or site or a breach of information security, including a cybersecurity breach or failure of one or more key information technology systems, networks, processes, associated sites or service providers: We rely extensively on information technology (IT) systems to conduct business. In addition, we rely on networks and services, including internet sites, data hosting and processing facilities and tools and other hardware, software and technical applications and platforms, some of which are managed, hosted, provided and/or used by third-parties or their vendors, to assist in conducting our business. Numerous and evolving cybersecurity threats pose potential risks to the security of our IT systems, networks and services, as well as the confidentiality, availability and integrity of our data. While we have made investments seeking to address these threats, including monitoring of networks and systems, hiring of experts, employee training and security policies for employees and third-party providers, the techniques used in these attacks change frequently and may be difficult to detect for periods of time and we may face difficulties in anticipating and implementing adequate preventative measures. If our IT systems are damaged or cease to function properly, the networks or service providers we rely upon fail to function properly, or we or one of our third-party providers suffer a loss or disclosure of our business or stakeholder information due to any number of causes ranging from catastrophic events or power outages to improper data handling or security breaches and our business continuity plans do not effectively address these failures on a timely basis, we may be exposed to reputational, competitive and business harm as well as litigation and regulatory action.

Dollar amounts in millions except per share amounts or as otherwise specified. 5

STRYKER CORPORATION 2016 Form 10-K

An inability to successfully manage the implementation of our new global enterprise resource planning ("ERP") system could adversely affect our operations and operating results: We are in the process of implementing a new global ERP system. This system will replace many of our existing operating and financial systems. Such an implementation is a major undertaking, both financially and from a management and personnel perspective. Any disruptions, delays or deficiencies in the design and implementation of our new ERP system could adversely affect our ability to process orders, ship products, provide services and customer support, send invoices and track payments, fulfill contractual obligations or otherwise operate our business.

We may be unable to attract and retain key employees: Our sales, technical and other key personnel play an integral role in the development, marketing and selling of new and existing products. If we are unable to recruit, hire, develop and retain a talented, competitive work force, we may not be able to meet our strategic business objectives.

Interruption of manufacturing operations could adversely affect our business: We and our suppliers have manufacturing sites all over the world; however, the manufacturing of certain of our product lines is concentrated in one or more plants. Damage to these facilities or issues in our manufacturing arising from a failure to follow specific internal protocols and procedures, compliance concerns relating to the quality systems regulation, equipment breakdown or malfunction or other factors could adversely affect the availability of our products. In the event of an interruption in manufacturing, we may be unable to move quickly to alternate means of producing affected products to meet customer demand. In the event of a significant interruption, we may experience lengthy delays in resuming production of affected products due to the need for regulatory approvals. We may experience loss of market share, additional expense and harm to our reputation.

We use a variety of raw materials, components or devices in our global supply chains, production and distribution processes; significant shortages or price increases could increase our operating costs, require significant capital expenditures, or adversely impact the competitive position of our products: Our reliance on certain suppliers to secure raw materials, components and finished devices exposes us to product shortages and unanticipated increases in prices. In addition, several raw materials, components, and finished devices are procured from a sole-source due to the quality considerations, unique intellectual property considerations or constraints associated with regulatory requirements. If sole-source suppliers are acquired or were unable or unwilling to deliver these materials, we may not be able to manufacture or have available one or more products during such period of unavailability and our business could suffer. In certain cases we may not be able to establish additional or replacement suppliers for such materials in a timely or cost effective manner, largely as a result of FDA and other regulations that require, among other things, validation of materials and components prior to their use in our products.

Dividends declared per share of common stock	\$0.345	\$0.345	\$0.345	\$0.380
Market price of common stock:				
High	\$96.18	\$97.94	\$105.34	\$100.51
Low	\$89.81	\$90.19	\$91.73	\$90.30

Our Board of Directors considers payment of cash dividends at its quarterly meetings. On January 31, 2017 there were 2,988 shareholders of record of our common stock.

In 2016 shares repurchased at the end of 2015 totaling 135 thousand were settled at a cost of \$13. The manner, timing and amount of repurchases is determined by management based on an evaluation of market conditions, stock price and other factors and is subject to regulatory considerations. Purchases are made from time-to-time in the open market, in privately negotiated transactions or otherwise. On December 31, 2016 the total dollar value of shares that could be purchased under our authorized repurchase programs was \$1,870.

We issued 100 shares of our common stock in the fourth quarter of 2016 as a performance incentive award to an employee. These shares were not registered under the Securities Act of 1933 based on the conclusion that the awards would not be events of sale within the meaning of Section 2(a)(3) of the Act.

The following graph compares our total returns (including reinvestments of dividends) against the Standard & Poor's (S&P) 500 Index and the S&P 500 Health Care Index. The graph assumes \$100 (not in millions) invested on December 31, 2011 in our common stock and each of the indices.

STRYKER CORPORATION 2016 Form 10-K

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

ABOUT STRYKER

Stryker Corporation is a global leader in medical technology and offers a diverse array of innovative medical technologies including orthopaedic, medical and surgical, and neurotechnology and spine products to help people lead more active and satisfying lives.

Our goal is to achieve sales growth at the high-end of the medical technology (MedTech) industry and maintain our capital allocation strategy that prioritizes: (1) Acquisitions, (2) Dividends and (3) Share repurchases.

Overview of 2016

In 2016 we achieved reported sales growth of 13.9%. Excluding the impact of acquisitions, sales grew 6.4% in constant currency, in line with our ongoing goal to grow organic sales at the high-end of MedTech. We reported net earnings of \$1,647 in 2016 and achieved 15.1% growth in net earnings per diluted share⁽¹⁾. Excluding the impact of certain items, we achieved adjusted net earnings of \$2,194 and growth of 13.3% in adjusted net earnings per diluted share⁽¹⁾.

We continued our capital allocation strategy by investing \$4,332 in acquisitions, paying \$568 in dividends to our shareholders and using \$13 for share repurchases.

In 2016 we completed the acquisitions of Sage Products, LLC (Sage) for total consideration of approximately \$2,875, Physio-Control International, Inc. (Physio) for total net consideration of approximately \$1,299 and the Synergetics neuro portfolio (Synergetics). Sage develops, manufactures and distributes intensive care disposable products. Physio develops, manufactures and markets monitors/defibrillators, AEDs and CPR-assist devices along with data management and support services. The acquired Synergetics products include the Malis generator, Spetzler Malis disposable forceps and our existing Sonopet tips and RF generator. Refer to Note 5 to our Consolidated Financial Statements for further information.

In January 2017 we sold \$500 of senior unsecured notes, and in 2016 we sold \$3,500 of senior unsecured notes and repaid all \$750 of our senior unsecured notes that were due in September 2016. Refer to Note 9 to our Consolidated Financial Statements for further information.

Consolidated net sales in 2016 increased 13.9% as reported and 14.3% in constant currency, as foreign currency exchange rates negatively impacted net sales by 0.4%. Excluding the 7.9% impact of acquisitions, net sales increased in constant currency by 7.8% from increased unit volume partially offset by 1.4% lower prices. The unit volume increase was primarily due to higher shipments of knees, instruments, endoscopy, neurotechnology, trauma and extremities and medical products.

Consolidated net sales in 2015 increased 2.8% as reported and 7.0% in constant currency, as foreign currency exchange rates negatively impacted net sales by 4.2%. Excluding the 0.9% impact of acquisitions, net sales increased in constant currency by 7.6% from increased unit volume partially offset by 1.6% lower prices. The unit volume increase was led primarily by higher shipments of neurotechnology, trauma and extremities, medical and instruments products.

Orthopaedics Net Sales

Orthopaedics net sales in 2016 increased 4.7% as reported and 5.1% in constant currency, as foreign currency exchange rates negatively impacted net sales by 0.4%. Excluding the 0.3% impact of acquisitions, net sales increased in constant currency by 6.9% from increased unit volume partially offset by 2.1% lower prices. The unit volume increase was led primarily by higher shipments of knees and trauma and extremities products.

Orthopaedics net sales in 2015 increased 1.7% as reported and 6.7% in constant currency, as foreign currency exchange rates negatively impacted net sales by 5.0%. Excluding the 0.5% impact of acquisitions, net sales increased in constant currency by 8.6% from increased unit volume partially offset by 2.4% lower prices. The unit volume increase was led primarily by higher shipments of trauma and extremities products.

MedSurg Net Sales

Edgar Filing: STRYKER CORP - Form 10-K

MedSurg net sales in 2016 increased 25.6% as reported and 26.3% in constant currency, as foreign currency exchange rates negatively impacted net sales by 0.7%. Excluding the 19.1% impact of acquisitions, net sales increased in constant currency by 7.8% from increased unit volume partially offset by 0.6% lower prices. The unit volume increase was led primarily by higher shipments of instruments, endoscopy and medical products.

MedSurg net sales in 2015 increased 3.0% as reported and 6.2% in constant currency, as foreign currency exchange rates negatively impacted net sales by 3.2%. Excluding the 1.7% impact of acquisitions, net sales increased in constant currency by 4.8% from increased unit volume partially offset by 0.3% lower prices. The unit volume increase was led primarily by higher shipments of our medical and instrument products.

Neurotechnology and Spine Net Sales

Neurotechnology and Spine net sales in 2016 increased 9.9% as reported and 9.8% in constant currency, as foreign currency exchange rates positively impacted net sales by 0.1%. Excluding the 1.4% impact of acquisitions, net sales in constant currency increased by 9.8% from increased unit volume partially offset by 1.4% lower prices. The unit volume increase was led primarily by higher shipments of neurotechnology products.

Neurotechnology and Spine net sales in 2015 increased 5.0% as reported and 9.5% in constant currency as foreign currency exchange negatively impacted net sales by 4.5%. Excluding the 0.1% impact of acquisitions, net sales increased in constant currency by 11.6% from increased unit volume and changes in product mix partially offset by 2.3% lower prices. The unit volume increase was led primarily by higher shipments of neurotechnology products.

Gross Profit

Gross profit in 2016 as a percentage of net sales decreased to 66.2% from 66.4% in 2015 as the benefit from the suspension of the medical device excise tax and favorable productivity was more than offset by unfavorable mix, including the impact of acquisitions and the unfavorable impact of foreign currency exchange. Gross profit as a percentage of net sales increased to 66.4% in 2015 from 65.7% in 2014, primarily due to product mix and the favorable impact of foreign currency exchange rates offset by decreases in the selling prices of our products.

	Percent Net Sales					
	2016	2015	2014	2016	2015	2014

Dollar amounts in millions except per share amounts or as otherwise specified. 10

STRYKER CORPORATION 2016 Form 10-K

Research, Development and Engineering Expenses

Research, development and engineering expenses represented 6.3% of net sales in each of 2016, 2015 and 2014. Recent acquisitions, and spending on projects and investments in new technologies contributed to the spending levels reflecting our continued investment in internal innovation.

Selling, General and Administrative Expenses

Selling, general and administrative expenses as a percentage of net sales in 2016 increased to 36.5% from 36.3% in 2015. Excluding the impact of certain items in the table below, expenses as a percentage of net sales decreased to 34.8% in 2016 from 35.3% in 2015. This improvement reflects favorable leverage from the continued focus on operating expense improvement initiatives, cost containment efforts and business mix, including leverage from our recent acquisitions. Selling, general and administrative expenses as a percentage of net sales in 2015 decreased to 36.3% from 36.7% in 2014. Excluding the impact of certain items noted below, selling, general and administrative expenses increased in 2015 due to increased expenses related to our European regional headquarters, higher compensation costs, due in part to sales performance-related commissions, partially offset by disciplined expense management.

	Percent Net Sales					
	2016	2015	2014	2016	2015	2014
Reported	\$4,137	\$3,610	\$3,547	36.5 %	36.3 %	36.7 %
Other acquisition and integration-related	(95)	(28)	(75)	(0.8)	(0.3)	(0.8)
Restructuring-related charges	(110)	(125)	(116)	(1.0)	(1.2)	(1.2)
Regulatory and legal matters	12	53	—	0.1	0.5	—
Adjusted	\$3,944	\$3,510	\$3,356	34.8 %	35.3 %	34.7 %

Recall Charges, Net of Insurance Proceeds

Recall charges, net of insurance proceeds, were \$158, \$296 and \$761 in 2016, 2015 and 2014. Charges were primarily due to the previously disclosed Rejuvenate and ABGII Modular-Neck hip stems voluntary recalls. Refer to Note 6 to our Consolidated Financial Statements for further information.

Amortization of Intangible Assets

Amortization of intangible assets was \$319, \$210 and \$188 in 2016, 2015 and 2014. The increases were primarily due to acquisitions. Refer to Note 7 to our Consolidated Financial Statements for further information.

Other Income (Expense), Net

Other income (expense), net was (\$245), (\$126) and (\$86) in 2016, 2015 and 2014. The increase in 2016 was primarily driven by higher interest expense due to higher debt levels as a result of our March 2016 debt offering. Refer to Note 9 to our Consolidated Financial Statements for further information.

Income Taxes

The effective income tax rate on earnings was 14.3%, 17.1% and 55.6% for 2016, 2015 and 2014. The effective income tax rate for 2014 includes the tax impacts of the establishment of a European regional headquarters and the cash repatriation that affected 2014 but was executed in 2015. The establishment of the European regional headquarters contributed to the lower effective income tax rates in 2015 and 2016. We adopted ASU 2016-09 Compensation-Stock Compensation: Improvements to Employee Share-Based Payment Accounting on January 1, 2017 which will impact our effective tax rate in 2017.

Net Earnings

Net earnings in 2016 increased to \$1,647 or \$4.35 per diluted share from \$1,439 or \$3.78 per diluted share in 2015 and \$515 or \$1.34 per diluted share in 2014. The impact of foreign currency exchange rates reduced net earnings per diluted share by approximately \$0.11, \$0.26 and \$0.14 in 2016, 2015 and 2014.

Non-GAAP Financial Measures

We supplement the reporting of our financial information determined under accounting principles generally accepted in the United States (GAAP) with certain non-GAAP financial measures, including percentage sales growth in constant currency; percentage organic sales growth; adjusted gross profit; cost of sales excluding specified items; adjusted selling, general and administrative expenses; adjusted amortization of intangible assets; adjusted operating income; adjusted effective income tax rate; adjusted net earnings; and adjusted net earnings per diluted share (Diluted EPS). We believe that these non-GAAP measures provide meaningful information to assist investors and shareholders in understanding our financial results and assessing our prospects for future performance. Management believes percentage sales growth in constant currency and the other adjusted measures described above are important indicators of our operations because they exclude items that may not be indicative of or are unrelated to our core operating results and provide a baseline for analyzing trends in our underlying businesses. Management uses these non-GAAP financial measures for reviewing the operating results of reportable business segments and analyzing potential future business trends in connection with our budget process and bases certain management incentive compensation on these non-GAAP financial measures.

To measure percentage sales growth in constant currency, we remove the impact of changes in foreign currency exchange rates that affect the comparability and trend of sales. Percentage sales growth in constant currency is calculated by translating current year results at prior year average foreign currency exchange rates. To measure percentage organic sales growth, we remove the impact of changes in foreign currency exchange rates and acquisitions that affect the comparability and trend of sales. Percentage organic sales growth is calculated by translating current year results at prior year average foreign currency exchange rates excluding the impact of acquisitions.

To measure earnings performance on a consistent and comparable basis, we exclude certain items that affect the comparability of operating results and the trend of earnings. These adjustments are irregular in timing, may not be indicative of our past and future performance and are therefore excluded to allow investors to better understand underlying operating trends. The following are

Dollar amounts in millions except per share amounts or as otherwise specified. 11

STRYKER CORPORATION 2016 Form 10-K

examples of the types of adjustments that may be included in a period:

1. Acquisition and integration related costs. Costs related to integrating recently acquired businesses and specific costs related to the consummation of the acquisition process.
2. Amortization of purchased intangible assets. Periodic amortization expense related to purchased intangible assets.
3. Restructuring-related charges. Costs associated with workforce reductions and other restructuring-related activities.
4. Rejuvenate and other recall matters. Our best estimate of the minimum of the range of probable loss to resolve certain product recalls.
5. Regulatory and legal matters. Our best estimate of the minimum of the range of probable loss to resolve certain regulatory matters and other legal settlements.
6. Tax matters. Certain significant and discrete tax items and adjustments to interest expense related to the settlement of certain tax matters.

Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other

companies' non-GAAP financial measures having the same or similar names. These adjusted financial measures should not be considered in isolation or as a substitute for reported sales growth, gross profit, cost of sales, selling, general and administrative expenses, amortization of intangible assets, operating income, effective income tax rate, net earnings and net earnings per diluted share, the most directly comparable GAAP financial measures. These non-GAAP financial measures are an additional way of viewing aspects of our operations that, when viewed with our GAAP results and the reconciliations to corresponding GAAP financial measures at the end of the discussion of Results of Operations below, provide a more complete understanding of our business. We strongly encourage investors and shareholders to review our financial statements and publicly-filed reports in their entirety and not to rely on any single financial measure.

The weighted-average basic and diluted shares outstanding used in the calculation of non-GAAP earnings per share are the same as those used in the calculation of the reported per share amounts.

Reconciliation of the Most Directly Comparable GAAP Financial Measure to Non-GAAP Financial Measures

FINANCIAL CONDITION AND LIQUIDITY

	2016	2015	2014
Net cash provided by operations activities	\$1,812	\$899	\$1,782
Net cash (used in) provided by investing activities	(4,191)	1,956	(1,878)
Net cash provided (used in) financing activities	2,361	(1,141)	629
Effect of exchange rate changes	(45)	(130)	(77)
Change in cash and cash equivalents	\$(63)	\$1,584	\$456

We believe our financial condition continues to be of high quality, as evidenced by our ability to generate substantial cash from operations and ready access to capital markets at competitive rates.

Operating cash flow provides the primary source of cash to fund operating needs and capital expenditures. Excess operating cash is used first to fund acquisitions to complement our portfolio of businesses. Other discretionary uses include dividends and share repurchases. As necessary, we supplement operating cash flow with debt to fund our activities. Our overall cash position reflects our strong business results and a global cash management strategy that takes into account liquidity management, economic factors and tax considerations.

Operating Activities

Cash provided by operations was \$1,812, \$899, and \$1,782 in 2016, 2015 and 2014. The increase in cash from operations in 2016 was primarily due to lower Rejuvenate and ABG II recall-related payments compared to 2015, which was partially offset by higher levels of inventory in 2016. The net of accounts receivable, inventory and accounts payable resulted in the consumption of \$507, \$231, and \$249 of cash in 2016, 2015 and 2014.

Investing Activities

Cash (used in) provided by investing activities was (\$4,191), \$1,956 and (\$1,878) in 2016, 2015 and in 2014.

Acquisitions: Acquisitions resulted in cash consumption of \$4,332, \$153 and \$916 in 2016, 2015 and 2014. In 2016 we acquired Sage, Physio, Synergetics and certain other businesses and related assets. In 2015 the primary acquisition was CHG. In 2014 the primary acquisitions were Patient Safety Technologies, Inc., Pivot Medical Inc., Berchtold Holding, AG and Small Bone Innovations, Inc.

Purchases of Property, Plant and Equipment: Purchases of property, plant and equipment were \$490, \$270 and \$233 in 2016, 2015 and 2014. Capital expenditures in 2016 were primarily due to capital expenditures associated with our global ERP system and the construction of a dedicated additive manufacturing facility.

Marketable Securities, Net: Net cash provided by (used in) the sale of marketable securities was \$634, \$2,379, and (\$729) in 2016, 2015 and 2014. Cash provided by the sale of marketable securities in 2016 was used to repay all of our senior unsecured notes that were due in September 2016. Cash provided by sales of marketable securities in 2015 was primarily due to the sale of a portion of our marketable securities in 2015 used to make recall-related payments.

Financing Activities

Dividends and Share Repurchases: Dividends paid per common share increased 10.1% to \$1.52 per share in 2016 compared to \$1.38 per share in 2015, an increase of 13.1% from \$1.22 in 2014.

	2016	2015	2014
Dividends paid per common share	\$1.52	\$1.38	\$1.22
Total dividends paid to common shareholders	\$568	\$521	\$462
Total amount paid to repurchase common stock	\$13	\$700	\$100
Shares of repurchased common stock (in millions)	0.1	7.4	1.3

Borrowings and Repayments of Debt: We maintain debt levels that we consider appropriate after evaluating a number of factors, including cash flow expectations, cash requirements for ongoing operations, investment and financing plans (including acquisitions and share repurchase activities) and overall cost of capital.

Net proceeds from borrowings were \$2,912, \$48 and \$1,159 in 2016, 2015 and 2014. In 2016 the proceeds were primarily from the issuance of \$3,500 of senior unsecured notes in March 2016 partially offset by repayment of \$750 of our senior unsecured notes due in September 2016. In 2015 the proceeds were primarily from the public offerings of notes offset by the payment of certain notes due and paid in January 2015. Refer to Note 9 to our Consolidated Financial Statements for further information.

Liquidity

Cash, cash equivalents and marketable securities were \$3,384 and \$4,079, and our current assets exceeded current liabilities by \$4,713 and \$4,441 on December 31, 2016 and 2015. We anticipate being able to support our short-term liquidity and operating needs, including acquisitions and recall-related payments, from a variety of sources, including cash from operations, commercial paper and existing credit lines. We have raised funds in the capital markets and may continue to do so from time to time. As a result of the issuance of senior unsecured notes in March 2016, Moody's downgraded our unsecured note ratings to Baa1 from A3, and Standard & Poor's downgraded our corporate credit and long-term issue-level rating to A from A+ and our short-term rating to A-1 from A-1+. Nevertheless, we continue to have strong investment-grade short-term and long-term debt ratings that we believe should enable us to refinance our debt as needed.

We have existing credit facilities should additional funds be required. In August 2016 we increased the borrowing capacity available under our main credit facility by \$250 to a maximum of \$1,500. In September 2016 we increased the amount of commercial paper issuable under the commercial paper program by \$250 to a maximum of \$1,500. On December 31, 2016 approximately 84% of our consolidated cash, cash equivalents and marketable securities were held in locations outside the United States compared to 46% on December 31, 2015. The majority of our cash held in locations outside the United States is considered to be indefinitely reinvested. We intend to use this cash to expand operations organically and through acquisitions.

In January 2017 we sold \$500 of senior unsecured notes with an interest rate of 1.800% due on January 15, 2019.

Guarantees and Other Off-Balance Sheet Arrangements

We do not have guarantees or other off-balance sheet financing arrangements, including variable interest entities, of a magnitude that we believe could have a material impact on our financial condition or liquidity.

CONTRACTUAL OBLIGATIONS AND FORWARD-LOOKING CASH REQUIREMENTS

As further described in Note 6 to our Consolidated Financial Statements, in 2016 we recorded additional charges to earnings totaling \$144 related to the Rejuvenate and ABG II recalls. Based on the information received, the actuarially determined range of probable loss to resolve this matter was estimated to be approximately \$1,968 to \$2,224 (\$2,200 to \$2,456 before \$232 of third-party insurance recoveries). The final outcome of this matter is dependent on many variables that are difficult to predict. The ultimate cost to entirely resolve this matter may be materially different than the amount of the current estimate and could have a material adverse effect on our financial position, results of

Dollar amounts in millions except per share amounts or as otherwise specified. 13

STRYKER CORPORATION 2016 Form 10-K

operations and cash flows. We are not able to reasonably estimate the future periods in which payments will be made. As further described in Note 10 to our Consolidated Financial Statements, on December 31, 2016 we had a reserve for uncertain income tax positions of \$287. Due to uncertainties regarding the ultimate resolution of income tax audits, we are not able to reasonably estimate the future periods in which any income tax payments to settle these uncertain income tax positions will be made.

As further described in Note 11 to our Consolidated Financial Statements, on December 31, 2016 our defined benefit pension plans were underfunded by \$280, of which approximately \$271 related to plans outside the United States. Due to the rules affecting tax-deductible contributions in the jurisdictions in which the plans are offered and the impact of future plan asset performance, changes in interest rates and potential changes in legislation in the United States and other foreign jurisdictions, we are not able to reasonably estimate beyond 2017 the amounts that may be required to fund defined benefit pension plans.

Long-term Contractual Obligations

	Total	Under 1-3 1 year	1-3 years	3-5 years	After 5 years
Short-term and long-term debt	\$6,952	\$200	\$1,352	\$1,250	\$4,150
Unconditional purchase obligations	853	725	122	3	3
Operating leases	269	90	81	39	59
Contributions to defined benefit plans	20	20	—	—	—
Other	104	12	12	6	74
Total	\$8,198	\$1,047	\$1,567	\$1,298	\$4,286

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

In preparing our financial statements in accordance with accounting principles generally accepted in the United States, there are certain accounting policies that may require a choice between acceptable accounting methods or may require substantial judgment or estimation in their application. These include inventory reserves, income taxes, acquisitions, goodwill and intangible assets, and legal and other contingencies. We believe these accounting policies and the others set forth in Note 1 to our Consolidated Financial Statements should be reviewed as they are integral to understanding our results of operations and financial condition.

Inventory Reserves

We maintain reserves for excess and obsolete inventory resulting from the potential inability to sell certain products at prices in excess of current carrying costs. We make estimates regarding the future recoverability of the costs of these products and record provisions based on historical experience, expiration of sterilization dates and expected future trends. If actual product life cycles, product demand or acceptance of new product introductions are less favorable than projected by management, additional inventory write downs may be required, which could unfavorably affect future operating results.

Income Taxes

Our annual tax rate is determined based on our income, statutory tax rates and the tax impacts of items treated differently for tax purposes than for financial reporting purposes. Tax law requires certain items be included in the tax return at different times than the items are reflected in the financial statements. Some of these differences are permanent, such as expenses that are not deductible in our tax return, and some differences are temporary and reverse over time, such as depreciation expense. These temporary differences create deferred tax assets and liabilities.

Deferred tax assets generally represent the tax effect of items that can be used as a tax deduction or credit in future years for which we have already recorded the tax benefit in our income statement. Deferred tax liabilities generally represent tax expense recognized in our financial statements for which payment was deferred, the tax effect of expenditures for which a deduction was taken in our tax return but has not yet been recognized in our financial statements or assets recorded at fair value in business combinations for which there was no corresponding tax basis adjustment.

Inherent in determining our annual tax rate are judgments regarding business plans, tax planning opportunities and expectations about future outcomes. Realization of certain deferred tax assets is dependent upon generating sufficient

taxable income in the appropriate jurisdiction prior to the expiration of the carryforward periods. Although realization is not assured, management believes it is more likely than not that our deferred tax assets, net of valuation allowances, will be realized.

We operate in multiple jurisdictions with complex tax policy and regulatory environments. In certain of these jurisdictions, we may take tax positions that management believes are supportable but are potentially subject to successful challenge by the applicable taxing authority. These differences of interpretation with the respective governmental taxing authorities can be impacted by the local economic and fiscal environment. We evaluate our tax positions and establish liabilities in accordance with the applicable accounting guidance on uncertainty in income taxes. We review these tax uncertainties in light of changing facts and circumstances, such as the progress of tax audits, and adjust them accordingly. We have a number of audits in process in various jurisdictions. Although the resolution of these tax positions is uncertain, based on currently available information, we believe that it is more likely than not that the ultimate outcomes will not have a material adverse effect on our financial position, results of operations or cash flows.

Due to the number of estimates and assumptions inherent in calculating the various components of our tax provision, certain changes or future events, such as changes in tax legislation, geographic mix of earnings, completion of tax audits or earnings repatriation plans, could have an impact on those estimates and our effective tax rate.

Acquisitions, Goodwill and Intangibles, and Long-Lived Assets

Our financial statements include the operations of an acquired business starting from the completion of the acquisition. In addition, the assets acquired and liabilities assumed are recorded on the date of acquisition at their respective estimated fair values, with any excess of the purchase price over the estimated fair values of the net assets acquired recorded as goodwill.

Significant judgment is required in estimating the fair value of intangible assets and in assigning their respective useful lives. Accordingly, we typically obtain the assistance of third-party valuation specialists for significant items. The fair value estimates are based on available historical information and on future expectations and assumptions deemed reasonable by management but are inherently uncertain. We typically use an income method to estimate the fair value of intangible assets, which is based on forecasts of the expected future cash flows attributable to the respective assets. Significant estimates and assumptions inherent in the valuations reflect a consideration of other marketplace participants and include the amount and timing of future cash flows (including expected growth rates and profitability), the underlying product or technology life cycles, the economic barriers to entry and the discount rate applied to the cash flows. Unanticipated market or macroeconomic events and circumstances

Dollar amounts in millions except per share amounts or as otherwise specified. 14

STRYKER CORPORATION 2016 Form 10-K

may occur that could affect the accuracy or validity of the estimates and assumptions.

Determining the useful life of an intangible asset also requires judgment. With the exception of certain trade names, the majority of our acquired intangible assets (e.g., certain trademarks or brands, customer and distributor relationships, patents and technologies) are expected to have determinable useful lives. Our assessment as to the useful lives of these intangible assets is based on a number of factors including competitive environment, market share, trademark, brand history, underlying product life cycles, operating plans and the macroeconomic environment of the countries in which the trademarked or branded products are sold. Our estimates of the useful lives of determinable-lived intangibles are primarily based on these same factors. Determinable-lived intangible assets are amortized to expense over their estimated useful life.

In certain of our acquisitions, we acquire in-process research and development (IPRD) intangible assets. IPRD is considered to be an indefinite-lived intangible asset until such time as the research is completed (at which time it becomes a determinable-lived intangible asset) or determined to have no future use (at which time it is impaired). The value of indefinite-lived intangible assets and goodwill is not amortized but is tested at least annually for impairment. Our impairment testing for goodwill is performed separately from our impairment testing of indefinite-lived intangibles. We perform our annual impairment test for goodwill in the fourth quarter of each year. We consider qualitative indicators of the fair value of a reporting unit when it is unlikely that a reporting unit has impaired goodwill. In certain circumstances, we may also utilize a discounted cash flow analysis that requires certain assumptions and estimates be made regarding market conditions and our future profitability. In those circumstances we test goodwill for impairment by reviewing the book value compared to the fair value at the reporting unit level. We test individual indefinite-lived intangibles by reviewing the individual book values compared to the fair value. We determine the fair value of our reporting units and indefinite-lived intangible assets based on the income approach. Under the income approach, we calculate the fair value of our reporting units and indefinite-lived intangible assets based on the present value of estimated future cash flows. Considerable management judgment is necessary to evaluate the impact of operating and macroeconomic changes and to estimate future cash flows to measure fair value. Assumptions used in our impairment evaluations, such as forecasted growth rates and cost of capital, are consistent with internal projections and operating plans. We believe such assumptions and estimates are also comparable to those that would be used by other marketplace participants.

We did not recognize any impairment charges for goodwill in the years presented, as our annual impairment testing indicated that all reporting unit goodwill fair values exceeded their respective recorded values. Future changes in the judgments, assumptions and estimates that are used in our impairment testing for goodwill and indefinite-lived intangible assets, including discount and tax rates and future cash flow projections, could result in significantly different estimates of the fair values. A significant reduction in the estimated fair values could result in impairment charges that could materially affect our results of operations.

We review our other long-lived assets for indicators of impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The evaluation is performed at the lowest level of identifiable cash flows, which is at the individual asset level or the asset group level. The undiscounted

cash flows expected to be generated by the related assets are estimated over their useful life based on updated projections. If the evaluation indicates that the carrying amount of the assets may not be recoverable, any potential impairment is measured based upon the fair value of the related assets or asset group as determined by an appropriate market appraisal or other valuation technique. Assets classified as held for sale, if any, are recorded at the lower of carrying amount or fair value less costs to sell.

Legal and Other Contingencies

We are involved in various ongoing proceedings, legal actions and claims arising in the normal course of business, including proceedings related to product, labor and intellectual property, and other matters that are more fully described in Note 6 to our Consolidated Financial Statements. The outcomes of these matters will generally not be known for prolonged periods of time. In certain of the legal proceedings, the claimants seek damages, as well as other compensatory and equitable relief, that could result in the payment of significant claims and settlements and/or the imposition of injunctions or other equitable relief. For legal matters for which management had sufficient information

to reasonably estimate our future obligations, a liability representing management's best estimate of the probable loss, or the minimum of the range of probable losses when a best estimate within the range is not known, for the resolution of these legal matters is recorded. The estimates are based on consultation with legal counsel, previous settlement experience and settlement strategies. If actual outcomes are less favorable than those projected by management, additional expense may be incurred, which could unfavorably affect future operating results. We are currently self-insured for product liability-related claims and expenses. The ultimate cost to us with respect to product liability claims could be materially different than the amount of the current estimates and accruals and could have a material adverse effect on our financial position, results of operations and cash flows.

NEW ACCOUNTING PRONOUNCEMENTS

Refer to Note 1 to our Consolidated Financial Statements for further information.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We sell our products globally and, as a result, our financial results could be significantly affected by factors such as weak economic conditions or changes in foreign currency exchange rates. Our operating results are primarily exposed to changes in exchange rates among the United States Dollar, European currencies, in particular the Euro, Swiss Franc and the British Pound, the Japanese Yen, the Australian Dollar and the Canadian Dollar. We develop and manufacture products in the United States, Canada, Turkey, China, France, Germany, Ireland, Mexico, Puerto Rico and Switzerland and incur costs in the applicable local currencies. This global deployment of facilities serves to partially mitigate the impact of currency exchange rate changes on our cost of sales. Refer to Notes 1, 3 and 4 to our Consolidated Financial Statements for information regarding our use of derivative instruments to mitigate these risks. A hypothetical 10% change in foreign currencies relative to the United States Dollar would change the December 31, 2016 fair value by approximately \$188.

Dollar amounts in millions except per share amounts or as otherwise specified. 15

STRYKER CORPORATION 2016 Form 10-K

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.
REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM ON CONSOLIDATED
FINANCIAL STATEMENTS

The Board of Directors and Shareholders of Stryker Corporation:

We have audited the accompanying consolidated balance sheets of Stryker Corporation and subsidiaries as of December 31, 2016 and 2015, and the related consolidated statements of earnings, comprehensive income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2016. Our audits also included the financial statement schedule listed in the Index at Item 15(a). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Stryker Corporation and subsidiaries at December 31, 2016 and 2015, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2016, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Stryker Corporation's internal control over financial reporting as of December 31, 2016, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated February 9, 2017 expressed an unqualified opinion thereon.

STRYKER CORPORATION 2016 Form 10-K

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations: Stryker Corporation (the "Company," "we," "us," or "our") is a global leader in medical technology. Our products include implants used in joint replacement and trauma surgeries; surgical equipment and surgical navigation systems; endoscopic and communications systems; patient handling, emergency medical equipment and intensive care disposable products; neurosurgical, neurovascular and spinal devices; as well as other medical device products used in a variety of medical specialties.

Basis of Presentation and Consolidation: The Consolidated Financial Statements include the Company and its subsidiaries. All significant intercompany accounts and transactions are eliminated in consolidation. We have no material interests in variable interest entities and none that require consolidation. Certain prior year amounts have been reclassified to conform with the presentation of our Consolidated Financial Statements in 2016.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities on the date of the financial statements and the reported amounts of net sales and expenses in the reporting period. Actual results could differ from those estimates.

Revenue Recognition: Sales are recognized when revenue is realized or realizable and has been earned. Our policy is to recognize revenue when title to the product, ownership and risk of loss transfer to the customer, which can be on the date of shipment, the date of receipt by the customer or, for most orthopaedics products, when we receive appropriate notification that the product has been used or implanted. A provision for estimated sales returns, discounts, rebates and other sales incentives is recorded as a reduction of net sales in the same period that the revenue is recognized. Shipping and handling costs charged to customers are included in net sales.

Cost of Sales: Cost of sales is primarily comprised of direct materials and supplies consumed in the manufacture of product, as well as manufacturing labor, depreciation expense and direct overhead expense necessary to acquire and convert the purchased materials and supplies into finished product. Cost of sales also includes the cost to distribute products to customers, inbound freight costs, warehousing costs and other shipping and handling activity.

Research, Development and Engineering Expenses: Research and development costs are charged to expense as incurred. Costs include research, development and engineering activities relating to the development of new products, improvement of existing products, technical support of products and compliance with governmental regulations for the protection of customers and patients. Costs primarily consist of salaries, wages, consulting and depreciation and maintenance of research facilities and equipment.

Selling, General and Administrative Expenses: Selling, general and administrative expense is primarily comprised of selling expenses, marketing expenses, administrative and other indirect overhead costs, amortization of loaner instrumentation, depreciation and amortization expense of non-manufacturing assets and other miscellaneous operating items.

Currency Translation: Financial statements of subsidiaries outside the United States generally are measured using the local currency as the functional currency. Adjustments to translate those statements into United States Dollars are recorded in other

comprehensive income (OCI). Transactional exchange gains and losses are included in earnings.

Cash Equivalents: Highly liquid investments with remaining stated maturities of three months or less when purchased are considered cash equivalents and recorded at cost.

Marketable Securities: Marketable securities consist of marketable debt securities, certificates of deposit and mutual funds. Mutual funds are acquired to offset changes in certain liabilities related to deferred compensation arrangements and are expected to be used to settle these liabilities. Pursuant to our investment policy, all individual marketable security investments must have a minimum credit quality of single A (Standard & Poor's and Fitch) and A2 (Moody's Corporation) at the time of acquisition, while the overall portfolio of marketable securities must maintain a minimum average credit quality of double A (Standard & Poor's and Fitch) or Aa (Moody's Corporation). In the event of a rating downgrade below the minimum credit quality subsequent to purchase, the marketable security investment is evaluated

to determine the appropriate action to take to minimize the overall risk to our marketable security investment portfolio. Our marketable securities are classified as available-for-sale and trading securities. Investments in trading securities represent participant-directed investments of deferred employee compensation.

Accounts Receivable: Accounts receivable consists of trade and other miscellaneous receivables. An allowance is maintained for doubtful accounts for estimated losses in the collection of accounts receivable. Estimates are made regarding the ability of customers to make required payments based on historical credit experience and expected future trends. Accounts receivable are written off when all reasonable collection efforts are exhausted.

Inventories: Inventories are stated at the lower of cost or market, with cost generally determined using the first-in, first-out (FIFO) cost method. For excess and obsolete inventory resulting from the potential inability to sell specific products at prices in excess of current carrying costs, reserves are maintained to reduce current carrying cost to market prices.

Financial Instruments: Our financial instruments consist of cash, cash equivalents, marketable securities, accounts receivable, other investments, accounts payable, debt and foreign currency exchange contracts. With the exception of our long-term debt, which is discussed in further detail in Notes 2 and 9, our estimates of fair value for financial instruments approximate their carrying amounts on December 31, 2016 and 2015.

All marketable securities are recognized at fair value. Adjustments to the fair value of marketable securities that are classified as available-for-sale are recorded as increases or decreases, net of income taxes, within accumulated other comprehensive income (AOCI) in shareholders' equity and adjustments to the fair value of marketable securities that are classified as trading are recorded in earnings. The amortized cost of marketable debt securities is adjusted for amortization of premiums and discounts to maturity computed under the effective interest method. Such amortization and interest and realized gains and losses are included in other income (expense), net. The cost of securities sold is determined by the specific identification method.

We review declines in the fair value of our investments classified as available-for-sale to determine whether the decline in fair value is an other-than-temporary impairment. The resulting losses from other-than-temporary impairments of available-for-sale marketable securities are included in earnings.

Derivatives: All derivatives are recognized at fair value and reported on a gross basis. We enter into forward currency exchange contracts to mitigate the impact of currency fluctuations on

Dollar amounts in millions except per share amounts or as otherwise specified. 21

STRYKER CORPORATION 2016 Form 10-K

transactions denominated in nonfunctional currencies, thereby limiting our risk that would otherwise result from changes in exchange rates. The periods of the forward currency exchange contracts correspond to the periods of the exposed transactions, with realized gains and losses included in the measurement and recording of transactions denominated in the nonfunctional currencies. All forward currency exchange contracts are recorded at their fair value each period.

Forward currency exchange contracts designated as cash flow hedges are designed to hedge the variability of cash flows associated with forecasted transactions denominated in a foreign currency that will take place in the future. These nonfunctional currency exposures principally relate to forecasted intercompany purchases of manufactured products and generally have maturities up to eighteen months. Changes in value of derivatives designated as cash flow hedges are recorded in AOCI on the Consolidated Balance Sheets until earnings are affected by the variability of the underlying cash flows. At that time, the applicable amount of gain or loss from the derivative instrument that is deferred in shareholders' equity is reclassified into earnings and is included in other income (expense), net or cost of goods sold in the Consolidated Statements of Earnings, depending on the underlying transaction that is being hedged. Cash flows associated with these hedges are included in cash from operations in the same category as the cash flows from the items being hedged.

Derivative forward contracts are used to offset our exposure to the change in value of specific foreign currency denominated assets and liabilities, primarily intercompany payables and receivables. These derivatives are not designated as hedges and, therefore, changes in the value of these forward contracts are recognized in earnings, thereby offsetting the current earnings effect of the related changes in value of foreign currency denominated assets and liabilities. The estimated fair value of our forward currency exchange contracts represents the measurement of the contracts at month-end spot rates as adjusted by current forward points.

We designated certain long-term intercompany loans payable and forward exchange contracts as net investment hedges of our investments in certain international subsidiaries that use the Euro as their functional currency. For derivative instruments that are designated and qualify as a net investment hedge, the effective portion of the derivative's gain or loss is recognized in OCI and reported as a component of AOCI. We use the forward method to measure ineffectiveness. Under this method the change in the carrying value of the Euro-denominated amounts due to remeasurement of the effective portion is reported as a component of AOCI. The remaining change in the carrying value of the ineffective portion, if any, is recognized in other income (expense), net. The gain or loss related to settled net investment hedges will be subsequently reclassified into net earnings when the hedged net investment is either sold or substantially liquidated.

Forward starting interest rate derivative instruments designated as cash flow hedges are used to manage the exposure to interest rate volatility with regard to future issuance and refinancing of debt. The effective portion of the gain or loss on a forward starting interest rate derivative instrument that is designated and qualifies as a cash flow hedge is reported as a component of AOCI. Beginning in the period in which the debt refinancing occurs and the related derivative instruments is terminated, the effective portion of the gains or losses is then reclassified into interest expense over the term of the related debt.

Interest rate derivative instruments designated as fair value hedges are being used to manage the exposure to interest rate movements and to reduce borrowing costs by converting fixed-rate debt into

floating-rate debt. Under these agreements, we agree to exchange, at specified intervals, the difference between fixed and floating interest amounts calculated by reference to an agreed-upon notional principal amount.

Property, Plant and Equipment: Property, plant and equipment is stated at cost. Depreciation is generally computed by the straight-line method over the estimated useful lives of three to 30 years for buildings and improvements and three to 10 years for machinery and equipment.

Goodwill and Other Intangible Assets: Goodwill represents the excess of purchase price over fair value of tangible net assets of acquired businesses at the acquisition date, after amounts allocated to other identifiable intangible assets.

Factors that contribute to the recognition of goodwill include synergies that are specific to our business and not available to other market participants and are expected to increase net sales and profits; acquisition of a talented workforce; cost savings opportunities; the strategic benefit of expanding our presence in core and adjacent markets;

and diversifying our product portfolio.

The fair values of other identifiable intangible assets are primarily determined using the income approach. Other intangible assets include, but are not limited to, developed technology, customer and distributor relationships (which reflect expected continued customer or distributor patronage) and trademarks and patents. Intangible assets with determinable useful lives are amortized on a straight-line basis over their estimated useful lives of four to 40 years. Certain acquired trade names are considered to have indefinite lives and are not amortized, but are assessed annually for potential impairment as described below.

In certain of our acquisitions, we acquire in-process research and development (IPRD), which is an indefinite-lived intangible asset. IPRD where research has been completed becomes a determinable-lived intangible asset and IPRD determined to have no future use becomes impaired.

Goodwill, Intangibles and Long-Lived Asset Impairment Tests: We perform our annual impairment test for goodwill in the fourth quarter of each year. We consider qualitative indicators of the fair value of a reporting unit when it is unlikely that a reporting unit has impaired goodwill. In certain circumstances, we may also utilize a discounted cash flow analysis that requires certain assumptions and estimates be made regarding market conditions and our future profitability. Indefinite-lived intangible assets are also tested at least annually for impairment by comparing the individual carrying values to the fair value.

We review long-lived assets for indicators of impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The evaluation is performed at the lowest level of identifiable cash flows. Undiscounted cash flows expected to be generated by the related assets are estimated over the asset's useful life based on updated projections. If the evaluation indicates that the carrying amount of the asset may not be recoverable, any potential impairment is measured based upon the fair value of the related asset or asset group as determined by an appropriate market appraisal or other valuation technique. Assets classified as held for sale are recorded at the lower of carrying amount or fair value less costs to sell.

Share-Based Compensation: We use share based compensation in the form of stock options, restricted stock units (RSUs) and performance-based restricted stock units (PSUs). Stock options are granted under long-term incentive plans to certain key employees and non-employee directors at an exercise price not less than the fair market value of the underlying common stock, which is the quoted closing price of our common stock on the day prior to the

Dollar amounts in millions except per share amounts or as otherwise specified. 22

STRYKER CORPORATION 2016 Form 10-K

date of grant. The options are granted for periods of up to 10 years and become exercisable in varying installments. We grant RSUs to key employees and non-employee directors and PSUs to certain key employees under our long-term incentive plans. The fair value of RSUs is determined based on the number of shares granted and the quoted closing price of our common stock on the date of grant, adjusted for the fact that RSUs do not include anticipated dividends. RSUs generally vest in one-third increments over a three-year period and are settled in stock. PSUs are earned over a three-year performance cycle and vest in March of the year following the end of that performance cycle. The number of PSUs that will ultimately be earned is based on our performance relative to pre-established goals in that three-year performance cycle. The fair value of PSUs is determined based on the quoted closing price of our common stock on the day of grant.

Compensation expense is recognized in the Consolidated Statements of Earnings based on the estimated fair value of the awards on the grant date. Compensation expense recognized reflects an estimate of the number of awards expected to vest after taking into consideration an estimate of award forfeitures based on actual experience and is recognized on a straight-line basis over the requisite service period, which is generally the period required to obtain full vesting. Management expectations related to the achievement of performance goals associated with PSU grants is assessed regularly and that assessment is used to determine whether PSU grants are expected to vest. If performance-based milestones related to PSU grants are not met or not expected to be met, any compensation expense recognized associated with such grants will be reversed.

Income Taxes: Deferred income tax assets and liabilities are determined based on differences between financial reporting and income tax bases of assets and liabilities and are measured using the enacted income tax rates in effect for the years in which the differences are expected to reverse. Deferred income tax benefits generally represent the change in net deferred income tax assets and liabilities in the year. Other amounts result from adjustments related to acquisitions and foreign currency as appropriate.

We operate in multiple income tax jurisdictions both within the United States and internationally. Accordingly, management must determine the appropriate allocation of income to each of these jurisdictions based on current interpretations of complex income tax regulations. Income tax authorities in these jurisdictions regularly perform audits of our income tax filings. Income tax audits associated with the allocation of this income and other complex issues, including inventory transfer pricing and cost sharing, product royalty and foreign branch arrangements, may require an extended period of time to resolve and may result in significant income tax adjustments if changes to the income allocation are required between jurisdictions with different income tax rates.

New Accounting Pronouncements Not Yet Adopted

In January 2017 the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2017-01, Business Combinations: Clarifying the Definition of a Business, which revises the definition of a business under Accounting Standards Codification (ASC) 805 by providing a more robust framework to use in determining when a set of acquired assets and activities constitutes a business. We plan to adopt this update on January 1, 2018. We are still evaluating the impact that this update will have on our Consolidated Financial Statements.

In August 2016 the FASB issued ASU 2016-15, Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments, which eliminates diversity in practice related to how certain cash receipts and cash payments are presented and classified in the

Consolidated Statement of Cash Flows. We adopted this update on January 1, 2017 and the adoption of this update will not have a material impact on our Consolidated Financial Statements.

In March 2016 the FASB issued ASU 2016-09, Compensation-Stock Compensation: Improvements to Employee Share-Based Payment Accounting. This update simplifies the accounting for employee share-based payment transactions, including the accounting for income taxes, forfeitures and statutory tax withholding requirements, as well as simplifying classification in the Consolidated Statements of Cash Flow. We adopted this update on January 1, 2017. If we adopted this update on January 1, 2016, the impact on our Consolidated Statements of Earnings would have been a tax benefit of \$36 in 2016. The impact of adopting this update in 2017 on our Consolidated Financial Statements will depend on market factors, the timing and intrinsic value of future share-based compensation award vests and exercises.

In February 2016 the FASB issued ASU 2016-02, Leases. This update requires an entity to recognize assets and liabilities on the balance sheet for leases with lease terms greater than 12 months on the balance sheet. We plan to adopt this update on January 1, 2019. We are still evaluating the impact that this update will have on our Consolidated Financial Statements.

In May 2014 the FASB issued ASU 2014-09, Revenue from Contracts with Customers. This update outlines a single, comprehensive model for accounting for revenue from contracts with customers. We plan to adopt this update on January 1, 2018. The guidance permits two methods of adoption: retrospectively to each prior reporting period presented (full retrospective method), or retrospectively with the cumulative effect of initially applying the guidance recognized at the date of initial application (modified retrospective method). We anticipate adopting the standard using the modified retrospective method. There may be differences in timing of revenue recognition under the new standard compared to recognition under ASC 605 - Revenue Recognition.

No other new accounting pronouncements were issued or became effective in the period that had, or are expected to have, a material impact on our Consolidated Financial Statements.

NOTE 2 - FAIR VALUE MEASUREMENTS

Financial assets and liabilities carried at fair value are classified and disclosed in one of the following three categories:

- Level 1 Quoted market prices in active markets for identical assets or liabilities.
- Level 2 Observable market-based inputs or unobservable inputs that are corroborated by market data.
- Level 3 Unobservable inputs reflecting our assumptions or external inputs from active markets.

When applying the fair value principles in the valuation of assets and liabilities, we are required to maximize the use of quoted market prices and minimize the use of unobservable inputs. We calculate the fair value of our Level 1 and Level 2 instruments based on the exchange traded price of identical or similar instruments, where available, or based on other observable inputs taking into account our credit risk and that of our counterparties. Foreign currency exchange contracts and interest rate hedges are included in Level 2 as we use inputs other than quoted prices that are observable for the asset or liability. The Level 2 derivative instruments are primarily valued using standard calculations and models that use readily observable market data as their basis. Our Level 3 liabilities represent milestone payments for acquisitions. For certain Level 3 liabilities the Black-Scholes option pricing model was used to value the liabilities, while the fair value of other liabilities was estimated using a discounted cash flow technique. Significant unobservable inputs to this technique included our probability assessments

Dollar amounts in millions except per share amounts or as otherwise specified. 23

STRYKER CORPORATION 2016 Form 10-K

related to the occurrence of certain triggering events, appropriately discounted considering the uncertainties associated with the obligation, which we estimate to be near 100%. We remeasure the fair value of our assets and liabilities each reporting period. We record the changes in fair value within selling, general and administrative expense and the changes in the time value of money within other income (expense), net.

Assets and Liabilities Measured at Fair Value

	2016	2015
Cash and cash equivalents	\$3,316	\$3,379
Trading marketable securities	94	82
Level 1 - Assets	\$3,410	\$3,461
Available-for-sale marketable securities:		
Corporate and asset-backed debt securities	\$25	\$214
Foreign government debt securities	—	96
United States agency debt securities	9	120
United States treasury debt securities	16	264
Certificates of deposit	18	8
Total available-for-sale marketable securities	\$68	\$702
Foreign currency exchange forward contracts	45	69
Interest rate swap asset	57	15
Level 2 - Assets	\$170	\$786
Total assets measured at fair value	\$3,580	\$4,247

Deferred compensation arrangements	\$94	\$82
Level 1 - Liabilities	\$94	\$82
Foreign currency exchange forward contracts	\$18	\$10
Interest rate swap liability	—	4
Level 2 - Liabilities	\$18	\$14
Contingent consideration:		
Beginning balance	\$56	\$48
Additions	49	11
Change in estimate	(7)	—
Settlements	(12)	(3)
Balance at the end of the period	\$86	\$56
Level 3 - Liabilities	\$86	\$56
Total liabilities measured at fair value	\$198	\$152

Fair Value of Available for Sale Securities by Maturity

	2016	2015
Due in one year or less	\$ 36	\$588
Due after one year through three years	\$ 32	\$114

On December 31, 2016 the aggregate difference between the cost and fair value of available-for-sale marketable securities was nominal. Interest receivable was less than \$1 and \$2 in 2016 and 2015 related to our marketable security portfolio. The total of interest and marketable securities income was \$29, \$14, and \$28 in 2016, 2015, and 2014. The amounts were included in other income (expense), net.

Less than 1% of our investments in available-for-sale marketable securities had a credit quality rating of less than A2 (Moody's), A (Standard & Poor's) and A (Fitch). We do not plan to sell the investments, and it is not more likely than not that we will be required to sell the investments before recovery of their amortized cost basis, which may be maturity. We do not consider these investments to be other-than-temporarily impaired on December 31, 2016. On December 31, 2016 substantially all our investments with unrealized losses that were not deemed to be other-than-temporarily impaired were in a continuous unrealized loss position for less than twelve months, and the

losses were nominal.

Securities in a Continuous Unrealized Loss Position

	Number of Investments	Fair Value
Corporate and Asset-Backed	33	\$ 11
United States Agency	8	5
United States Treasury	19	15
Certificate of Deposit	5	2
Total	65	\$ 33

NOTE 3 - DERIVATIVE INSTRUMENTS

Foreign Currency Hedges

We use operational and economic hedges, foreign currency exchange forward contracts, net investment hedges (both long-term intercompany loans payable and forward exchange contracts) and interest rate derivative instruments to manage the impact of currency exchange and interest rate fluctuations on earnings and cash flow. We do not enter into derivative instruments for speculative purposes.

	Designated	Non-Designated	Total
2016			
Gross notional amount	\$ 1,058	\$ 2,841	\$3,899
Maximum term in days			548
Fair value:			
Other current assets	\$ 24	\$ 17	\$41
Other noncurrent assets	4	—	4
Other current liabilities	(9)	(7)	(16)
Other noncurrent liabilities	(2)	—	(2)
Total fair value	\$ 17	\$ 10	\$27
2015			
Gross notional amount	\$ 889	\$ 4,061	\$4,950
Maximum term in days			546
Fair value:

Other noncurrent assets	1	—	1
Other current liabilities	(6)	(3)	(9)
Other noncurrent liabilities	(1)	—	(1)
Total fair value	\$ 21	\$ 38	\$59

On December 31, 2016 the total after-tax amount in AOCI related to our designated net investment hedges was \$48. We evaluate the effectiveness of our net investment hedges quarterly and did not recognize any ineffectiveness in 2016.

We are exposed to credit loss in the event of nonperformance by counterparties on our outstanding derivative instruments but do not anticipate nonperformance by any of our counterparties. Should a counterparty default, our maximum exposure to loss is the asset balance of the instrument.

Net Currency Exchange Rate Gains (Losses)

Recorded in:	2016	2015	2014
Cost of sales	\$—	\$19	\$1
Other income (expense), net	(19)	(22)	(8)
Total	\$(19)	\$(3)	\$(7)

On December 31, 2016 pretax gains on derivatives designated as hedges that were recorded in AOCI are expected to be reclassified to earnings in the next 12 months were less than \$1 compared with \$17 on December 31, 2015. This reclassification is primarily due to the sale of inventory that includes previously hedged purchases. There were no ineffective portions of derivatives that resulted in gains or losses in any of the periods presented.

Dollar amounts in millions except per share amounts or as otherwise specified. 24

STRYKER CORPORATION 2016 Form 10-K

Interest Rate Hedges

On December 31, 2016 we had interest rate swaps with notional amounts of \$600 designated as forward starting interest rate swaps in anticipation of future debt issuances. The market value of outstanding interest rate swap agreements on December 31, 2016 was \$48, which was recorded in other long term assets with an offsetting amount recorded in AOCI. Upon the probable issuance of the debt, these amounts will be released to interest expense over the term of the debt. The cash flow effect of this hedge is recorded in cash flow from operations.

In 2016 we terminated multiple designated interest rate cash flow hedges, recognized \$7 in OCI related to hedges on our debt issuances and recognized a nominal amount of ineffectiveness in interest expense. The remaining amounts in AOCI will be reclassified to interest expense over the term of the debt. The cash flow effect of these hedges is recognized in cash flow from operations.

On December 31, 2016 we had interest rate swaps with gross notional amounts of \$500 designated as fair value hedges of underlying fixed rate obligations representing a portion of our \$600 senior unsecured notes due in 2024. There was no hedge ineffectiveness recorded as a result of these fair value hedges.

NOTE 5 - ACQUISITIONS

In April 2016 we completed the acquisition of Sage Products, LLC (Sage) for total consideration of approximately \$2,875. Sage develops, manufactures and distributes intensive care disposable products. This acquisition enhanced our product offerings within our MedSurg segment. Purchase price allocations for this acquisition were based on preliminary valuations. Our estimates and assumptions are subject to change within the measurement period.

In April 2016 we completed the acquisition of Physio-Control International, Inc. (Physio) for total net consideration of approximately \$1,299. Physio develops, manufactures and markets monitors/defibrillators, AEDs and CPR-assist devices along with data management and support services. This acquisition enhances our product offerings within our MedSurg segment. Purchase price allocations for this acquisition were based on preliminary valuations. Our estimates and assumptions are subject to change within the measurement period.

The Other acquisitions in 2016 include the acquisition of the Synergetics neuro portfolio (Synergetics). The Synergetics acquisition enhances our product offerings within our MedSurg segment. Purchase price allocations for the Other acquisitions were based on preliminary valuations. Our estimates and assumptions are subject to change within the measurement period.

The Other acquisitions in 2015 include the acquisition of certain assets of CHG Hospital Beds, Inc. (CHG). The CHG acquisition enhances our product offerings within our MedSurg segment. The measurement period for CHG is complete. Revisions to the original purchase price allocation were nominal.

Goodwill acquired with the Sage, Synergetics and CHG acquisitions is deductible for tax purposes. Supplemental pro forma combined statements of earnings have not been presented for the Sage and Physio acquisitions as the impact of their results of operations were not material to the Consolidated Statements of Earnings.

NOTE 6 - CONTINGENCIES AND COMMITMENTS

We are involved in various ongoing proceedings, legal actions and claims arising in the normal course of business, including proceedings related to product, labor, intellectual property and other matters that are more fully described below. The outcomes of these matters will generally not be known for prolonged periods of time. In certain of the legal proceedings, the claimants seek damages as well as other compensatory and equitable relief that could result in the payment of significant claims and settlements and/or the imposition of injunctions or other equitable relief. For legal matters for which management had sufficient information to reasonably estimate our future obligations, a liability representing management's best estimate of the probable loss, or the minimum of the range of probable losses when a best estimate within the range is not known, is recorded. The estimates are based on

Dollar amounts in millions except per share amounts or as otherwise specified. 25

STRYKER CORPORATION 2016 Form 10-K

consultation with legal counsel, previous settlement experience and settlement strategies. If actual outcomes are less favorable than those estimated by management, additional expense may be incurred, which could unfavorably affect future operating results. We are self-insured for product liability claims and expenses. The ultimate cost to us with respect to product liability claims could be materially different than the amount of the current estimates and accruals and could have a material adverse effect on our financial position, results of operations and cash flows.

In June 2012 we voluntarily recalled our Rejuvenate and ABG II Modular-Neck hip stems and terminated global distribution of these hip products. Product liability lawsuits relating to this voluntary recall have been filed against us. On November 3, 2014 we announced that we had entered into a settlement agreement to compensate eligible United States patients who had revision surgery to replace their Rejuvenate and/or ABG II Modular-Neck hip stem prior to that date and in December 2016 the settlement program was extended to patients who had revision surgery prior to December 19, 2016. We continue to offer support for recall-related care and reimburse patients who are not eligible to enroll in the settlement program for testing and treatment services, including any necessary revision surgeries. In addition, some lawsuits will remain and we will continue to defend against them. Based on the information that has been received, the actuarially determined range of probable loss to resolve this matter globally is currently estimated to be approximately \$1,968 to \$2,224 (\$2,200 to \$2,456 before \$232 of third-party insurance recoveries). In 2016 we recorded additional charges to earnings of \$144, representing the excess of the minimum of the range over the previously recorded reserves. The final outcome of this matter is dependent on many factors that are difficult to predict including the number of enrollees in the settlement program and the total awards to them, the number and costs of patients not eligible for the settlement program who seek testing and treatment services and require revision surgery and the number and actual costs to resolve the remaining lawsuits. Accordingly, the ultimate cost to resolve this entire matter globally may be materially different than the amount of the current estimate and accruals and could have a material adverse effect on our financial position, results of operations and cash flows.

In 2010 we filed a lawsuit in federal court against Zimmer Biomet Holdings, Inc. (Zimmer), alleging that a Zimmer product infringed on three of our patents. In 2013 following a jury trial favorable to us, the trial judge entered a final judgment that, among other things, awarded us damages of \$76 and ordered Zimmer to pay us enhanced damages. Zimmer appealed this ruling. In December 2014 the Federal Circuit affirmed the damages awarded to us, reversed the order for enhanced damages and remanded the issue of attorney fees to the trial court. In May 2015 the trial court entered a stipulated judgment that, among other things, required Zimmer to pay us the base amount of damages and interest, while the issues of enhanced damages and attorney fees continue to be pursued. In June 2015 we recorded a \$54 gain, net of legal costs, which was recorded within selling, general and administrative expenses. On June 13, 2016 the United States Supreme Court vacated the decision of the Federal Circuit that reversed our judgment for enhanced damages and remanded the case to the Federal Circuit to reconsider the issue. On September 12, 2016 the Federal Circuit issued an opinion that, among other things, remanded the issue of enhanced damages to the trial court. In April 2011 Hill-Rom Company, Inc. and affiliated entities (Hill-Rom) brought a lawsuit against us alleging infringement under United States patent laws with respect to nine patents related to electrical network communications for hospital beds. On March 31, 2015 the court granted the parties' joint motion to dismiss with

prejudice the claims and counterclaims associated with three of these patents. The case has been stayed with respect to the remaining six patents, which currently are under reexamination by the United States Patent Office. The ultimate resolution of this matter cannot be predicted and it is not possible at this time for us to estimate any probable loss or range of probable losses; however, the ultimate result could have a material adverse effect on our financial position, results of operations and cash flows.

Future Obligations

We have purchase commitments for materials, supplies, services and property, plant and equipment as part of the normal course of business. In addition, we lease various manufacturing, warehousing and distribution facilities, administrative and sales offices as well as equipment under operating leases. Rent expense totaled \$112, \$101, and \$103 in 2016, 2015 and 2014. Refer to Note 9 for more information on the debt obligations.

\$345 \$342 \$329 \$312 \$298

NOTE 8 - CAPITAL STOCK

In 2016 shares repurchased at the end of 2015 totaling 135 thousand were settled at a cost of \$13. The manner, timing and amount of repurchases is determined by management based on an evaluation of market conditions, stock price and other factors and is subject to regulatory considerations. Purchases are made from time-to-time in the open market, in privately negotiated transactions or otherwise. On December 31, 2016 the total dollar value of shares that could be purchased under our authorized repurchase programs was \$1,870.

Shares reserved for future compensation grants of our common stock were 11 million and 15 million on December 31, 2016 and 2015. We had 0.5 million authorized shares of \$1 par value preferred stock; none of which was outstanding on December 31, 2016.

Stock Options

We measure the cost of employee stock options based on the grant-date fair value and recognize that cost using the straight-line method over the period in which a recipient is required to provide services in exchange for the options, typically the vesting period. The weighted-average fair value per share of options is estimated on the date of grant using the Black-Scholes option pricing model.

Option Value and Assumptions

	2016	2015	2014
Weighted-average fair value per share	\$17.73	\$22.55	\$15.80

Assumptions:

Risk-free interest rate	1.3	% 1.8	% 2.1	%
Expected dividend yield	1.6	% 1.6	% 1.8	%
Expected stock price volatility	20.5	% 25.5	% 26.3	%
Expected option life (years)	6.1	7.3	7.1	

The risk-free interest rate for periods within the expected life of options granted is based on the United States Treasury yield curve in effect at the time of grant. Expected stock price volatility is based on the historical volatility of our stock. The expected option life, representing the period of time that options granted are expected to be outstanding, is based on historical option exercise and employee termination data.

2016 Stock Option Activity

	Shares (in millions)	Weighted Average Exercise Price	Weighted-Average Remaining Term (in years)	Aggregate Intrinsic Value
Outstanding January 1	14.9	\$ 65.85		
Granted	3.1	96.73		
Exercised	(2.6)	58.00		
Canceled	(0.5)	83.80		
Outstanding December 31	14.9	\$ 73.14	5.9	\$ 696.0
Exercisable December 31	7.8	\$ 60.30	4.0	\$ 464.4
Options expected to vest	6.5	\$ 86.75	7.9	\$ 215.1

The aggregate intrinsic value of options, which represents the cumulative difference between the fair market value of the underlying common stock and the option exercise prices, exercised was \$128, \$98, and \$113 in 2016, 2015 and 2014. Exercise prices for options outstanding ranged from \$38.71 to \$115.35 on December 31, 2016. On December 31, 2016 there was \$84 of unrecognized compensation cost related to nonvested stock options granted under the long-term incentive plans; that cost is

expected to be recognized over the weighted-average period of approximately 1.6 years.

Restricted Stock Units (RSUs) and Performance Stock
Units (PSUs) Activity

	Shares		Weighted Average Grant Date Fair Value	
	RSUs (in millions)	PSUs (in millions)	RSUs	PSUs
Nonvested on January 1	1.1	0.3	\$79.71	\$79.02
Granted	0.6	0.1	94.70	98.10
Vested	(0.5)	(0.1)	74.95	64.01
Canceled or forfeited	(0.1)	—	86.94	73.27
Nonvested on December 31	1.1	0.3	\$90.10	\$91.19

On December 31, 2016 there was \$53 of unrecognized compensation cost related to nonvested RSUs. That cost is expected to be recognized as expense over the weighted-average period of approximately one year. The weighted-average grant date fair value per share of RSUs granted was \$94.70 and \$88.47 in 2016 and 2015. The fair value of RSUs and PSUs vested in 2016 was \$40 and \$5. On December 31, 2016 there was \$12 of unrecognized compensation cost related to nonvested PSUs; that cost is expected to be recognized as expense over the weighted-average period of approximately one year.

Employee Stock Purchase Plans (ESPP)

Full- and part-time employees may participate in our ESPP provided they meet certain eligibility requirements. The purchase price for our common stock under the terms of the ESPP is defined as 95% of the closing stock price on the last trading day of a purchase period. We issued 159,329 and 157,931 shares under the ESPP in 2016 and 2015.

NOTE 9 - DEBT AND CREDIT FACILITIES

In January 2017 we sold \$500 of senior unsecured notes with an interest rate of 1.800% due on January 15, 2019. In September 2016 we repaid all \$750 of our senior unsecured notes that were due on September 30, 2016. In March 2016 we sold \$3,500 of senior unsecured notes.

In September 2016 we increased the amount of commercial paper issuable under our commercial paper program by \$250 to a maximum of \$1,500 outstanding with maturities up to 397 days from the date of issuance. On December 31, 2016 outstanding commercial paper totaled \$200, the weighted-average original maturity of the commercial paper outstanding was approximately 60 days and the weighted average annualized interest rate of short-term debt was approximately 0.9%.

We have lines of credit issued by various financial institutions that are available to fund our day-to-day operating needs. In August 2016 we entered into a new senior unsecured revolving credit facility that replaced our previous agreement dated August 29, 2014. The primary changes were to increase the aggregate principal amount of the commitments by \$250 to \$1,500 and extend the maturity date to August 19, 2021.

Certain of our credit facilities require us to comply with financial and other covenants. We were in compliance with all covenants on December 31, 2016.

Dollar amounts in millions except per share amounts or as otherwise specified. 27

4.100% 04/01/2043	391	390
4.375% 05/15/2044	395	394
4.625% 03/15/2046	979	—
Commercial paper	200	—
Other	30	22
Total debt	\$6,914	\$3,998
Less current maturities	228	768
Total long-term debt	\$6,686	\$3,230

Unamortized debt issuance costs	\$45	\$24
Available borrowing capacity under all existing facilities	\$1,551	\$1,236
Fair value of debt	\$6,762	\$4,009

The fair value of debt (excluding the interest rate hedge) was based on the quoted interest rates for similar types and amounts of borrowings. Substantially all of our debt was classified within Level 1 of the fair value hierarchy. The fair value of the debt was estimated using rates with identical terms and maturities based on quoted active market prices and yields that took into account the underlying terms of the debt instruments.

On January 1, 2016 we retrospectively adopted ASU 2015-03, Interest - Imputation of Interest: Simplifying the Presentation of Debt Issuance Costs. The adoption of this update resulted in the reclassification of \$24 of unamortized debt issuance costs, principally from other noncurrent assets to a reduction of long-term debt on the Consolidated Balance Sheet on December 31, 2015.

Interest expense, including required fees incurred on outstanding debt and credit facilities that were included in other expense, totaled \$228, \$108, and \$113 in 2016, 2015 and 2014.

NOTE 10 - INCOME TAXES

Our effective tax rate was 14.3%, 17.1% and 55.6% for 2016, 2015 and 2014. The effective income tax rate for 2014 includes the tax impacts of the establishment of a European regional headquarters and the cash repatriation that affected 2014 but was executed in 2015. The establishment of the European regional headquarters contributed to the lower effective income tax rates in 2015 and 2016.

Effective Income Tax Rate Reconciliation

	2016	2015	2014
United States federal statutory rate	35.0 %	35.0 %	35.0%
United States state and local income taxes, less federal deduction	1.7	2.1	2.2
Foreign income tax at rates other than 35%	(22.2)	(17.6)	4.9
Tax related to repatriation of foreign earnings	(0.3)	(3.9)	10.1

Total	\$1,921	\$1,735	\$1,160

Components of Income Tax Expense

	2016	2015	2014
Current income tax expense:			
United States federal	\$94	\$78	\$213
United States state and local	50	23	26
International	176	108	346
Total current income tax expense	\$320	\$209	\$585
Deferred income tax expense (benefit):			
United States federal	\$(17)	\$2	\$9
United States state and local	(12)	8	(16)
International	(17)	77	67
Total deferred income tax expense (benefit)	\$(46)	\$87	\$60
Total income tax expense	\$274	\$296	\$645

Interest and penalties included in other income (expense), net were \$(1), \$(4) and \$8 in 2016, 2015 and 2014. The United States federal deferred income tax expense (benefit) includes the utilization of net operating loss carryforwards of \$28, \$79 and \$78 in 2016, 2015 and 2014.

Deferred Income Tax Assets and Liabilities

	2016	2015
Deferred income tax assets:		
Inventories	\$583	\$513
Product related liabilities	115	116
Other accrued expenses	248	206
Depreciation and amortization	—	4
State income taxes	52	43
Share-based compensation	80	79
Net operating loss carryforwards	74	47
Other	117	143
Total deferred income tax assets	\$1,269	\$1,151
Less valuation allowances	(51)	(47)
Net deferred income tax assets	\$1,218	\$1,104
Deferred income tax liabilities:		
Depreciation and amortization	\$(871)	\$(586)
Undistributed earnings	(50)	(50)
Other	(50)	(26)
Total deferred income tax liabilities	\$(971)	\$(662)
Net deferred income tax assets	\$247	\$442
Reported as:		
Noncurrent assets—Other	\$302	\$477
Noncurrent liabilities—Other liabilities	(\$5)	(35)
Total	\$247	\$442

Accrued interest and penalties were \$34 and \$30, which was reported in accrued expenses and other liabilities, both current and noncurrent, on December 31, 2016 and 2015.

Net operating loss carryforwards totaling \$185 on December 31, 2016 are available to reduce future taxable earnings of certain domestic and foreign subsidiaries. United States loss carryforwards of \$160 expire through 2028.

International loss carryforwards of \$25 began to expire in 2016; however, some have no expiration. Of these

carryforwards, \$45 are subject to a full valuation allowance. We also have a tax credit carryforward of \$40 with a full valuation allowance. These credits have no expiration; however, we do not anticipate generating income tax in excess of the credits in the foreseeable future.

No provision was made for United States federal and state income taxes or international income taxes that may result from future remittances of the undistributed earnings of foreign subsidiaries that are determined to be indefinitely reinvested \$8,391 on December 31, 2016. Determination of the amount of any unrecognized deferred income tax liability on these is not practicable.

Dollar amounts in millions except per share amounts or as otherwise specified. 28

STRYKER CORPORATION 2016 Form 10-K

Uncertain Income Tax Positions

	2016	2015
Balance at beginning of year	\$313	\$315
Increases related to current year income tax positions	47	21
Increases related to prior year income tax positions	22	3
Decreases related to prior year income tax positions:		
Settlements and resolutions of income tax audits	(82)	(9)
Statute of limitations expirations	(9)	(6)
Foreign currency translation	(4)	(11)
Balance at end of year	\$287	\$313
Reported as:		
Current liabilities—Income taxes	\$—	\$9
Noncurrent liabilities—Other liabilities	287	304
Total	\$287	\$313

Our income tax expense would have been reduced by \$281 and \$304 on December 31, 2016 and 2015 had these uncertain income tax positions been favorably resolved. It is reasonably possible that the amount of unrecognized tax benefits will significantly change due to one or more of the following events in the next twelve months: expiring statutes, audit activity, tax payments, competent authority proceedings related to transfer pricing or final decisions in matters that are the subject of controversy in various taxing jurisdictions in which we operate, including inventory transfer pricing, cost sharing, product royalty and foreign branch arrangements. We are not able to reasonably estimate the amount or the future periods in which changes in unrecognized tax benefits may be resolved. Interest and penalties incurred associated with uncertain tax positions are included in other income (expense), net.

In the normal course of business, income tax authorities in various income tax jurisdictions both within the United States and internationally conduct routine audits of our income tax returns filed in prior years. These audits are generally designed to determine if individual income tax authorities are in agreement with our interpretations of complex income tax regulations regarding the allocation of income to the various income tax jurisdictions. Income tax years are open from 2012 through the current year for the United States federal jurisdiction. Income tax years open for our other major jurisdictions range from 2005 through the current year.

NOTE 11 - RETIREMENT PLANS

Defined Contribution Plans

We provide certain employees with defined contribution plans and other types of retirement plans. A portion of our retirement plan expense under the defined contribution plans is funded with Stryker common stock. The use of Stryker common stock represents a non-cash operating activity that is not reflected in our Consolidated Statements of Cash Flows.

	2016	2015	2014
Plan expense	\$166	\$148	\$132
Expense funded with Stryker common stock	22	20	18
Stryker common stock held by plan:			
Dollar amount	272	203	198
Shares (in millions)	2.3	2.2	2.1
Value as a percentage of total plan assets	11 %	11 %	11 %

Defined Benefit Plans

Certain of our subsidiaries have both funded and unfunded defined benefit pension plans covering some or all of their employees. Substantially all of the defined benefit pension plans have projected benefit obligations in excess of plan assets.

Discount Rate

The discount rates were selected using a hypothetical portfolio of high quality bonds on December 31 that would provide the necessary cash flows to match our projected benefit payments.

Effective January 1, 2017, in countries where it was possible, we elected to change the method to calculate the service cost and interest cost components of net periodic benefit costs for our defined benefit plans and will measure these costs by applying the specific spot rates along the yield curve of the projected cash flows for the respective plans. Our defined benefit plans previously utilized the yield curve approach to establish discount rates and we believe the new approach provides a more precise measurement of service and interest costs by improving the correlation between projected cash flows and the corresponding spot yield curve rates. The change does not affect the measurement of our total benefit obligations for those plans and is accounted for as a change in accounting estimate inseparable from a change in accounting principle, which is applied prospectively. The reductions in service and interest costs for 2017 associated with this change in estimate are nominal.

Expected Return on Plan Assets

The expected return on plan assets is determined by applying the target allocation in each asset category of plan investments to the anticipated return for each asset category based on historical and projected returns.

Components of Net Periodic Pension Cost

Net periodic benefit cost:	2016	2015	2014
Service cost	\$(33)	\$(36)	\$(26)
Interest cost	(11)	(10)	(13)
Expected return on plan assets	10	11	10
Amortization of prior service cost and transition amount	1	1	1
Recognized actuarial loss	(9)	(13)	(7)
Net periodic benefit cost	\$(42)	\$(47)	\$(35)

Changes in assets and benefit obligations recognized in OCI:

Net actuarial (loss) gain	\$(26)	\$26	\$(88)
Recognized net actuarial loss	9	13	7
Prior service cost and transition amount	1	(1)	4
Total recognized in OCI	\$(16)	\$38	\$(77)
Total recognized in net periodic benefit cost and OCI	\$(58)	\$(9)	\$(112)

Weighted-average rates used to determine net periodic benefit cost:

Discount rate	2.1 %	2.0 %	3.2 %
Expected return on plan assets	3.6 %	4.0 %	3.7 %
Rate of compensation increase	2.3 %	2.9 %	2.9 %
Weighted-average discount rate used to determine projected benefit obligations	1.8 %	2.1 %	2.0 %

Investment Strategy

The investment strategy for our defined benefit pension plans is to meet the liabilities of the plans as they fall due and to maximize the return on invested assets within appropriate risk tolerances.

	2016	2015
Fair value of plan assets	\$308	\$289
Benefit obligations	(588)	(529)
Funded status	\$(280)	\$(240)
Reported as:		
Current liabilities—accrued compensation	\$(1)	\$(1)
Noncurrent liabilities—other liabilities	(279)	(239)
Pre-tax amounts recognized in AOCI:		
Unrecognized net actuarial loss	(171)	(155)
Unrecognized prior service cost	11	13
Total	\$(160)	\$(142)

The estimated net actuarial loss for the defined benefit pension plans to be reclassified from AOCI into net periodic benefit cost is \$8 in 2017. We estimate that an immaterial amount of amortization of prior service cost and transition amount for the defined benefit

Dollar amounts in millions except per share amounts or as otherwise specified. 29

STRYKER CORPORATION 2016 Form 10-K

pension plans will be reclassified from AOCI into net periodic benefit cost in 2017.

Corporate debt securities	135	—	—	135
Other	19	9	31	59
Total	\$227	\$31	\$31	\$289

Our Level 3 pension plan assets (Refer to Note 2 for an explanation of our fair value hierarchy) consist primarily of guaranteed investment contracts with insurance companies. The insurance contracts guarantee us principal repayment and a fixed rate of return. The \$7 increase in Level 3 pension plan assets is primarily related to actual returns and acquired assets. We expect to contribute \$20 to our defined benefit pension plans in 2017.

NOTE 13 - SEGMENT AND GEOGRAPHIC DATA

We segregate our operations into three reportable business segments: Orthopaedics, MedSurg, and Neurotechnology and Spine. The Orthopaedics segment includes reconstructive (hip and knee) and trauma implant systems and other related products. The MedSurg segment includes surgical equipment and surgical navigation systems; endoscopic and communications systems; patient handling, emergency medical equipment, intensive care disposable products and reprocessed and remanufactured medical devices and other related products. The Neurotechnology and Spine segment includes neurovascular products, spinal implant systems and other related products.

The Corporate and Other category shown in the table below includes corporate and administration, central initiatives and share-based compensation, which includes compensation related to both employee and director stock option, restricted stock unit and performance stock unit grants.

Our reportable segments are business units that offer different products and services and are managed separately because each business requires different manufacturing, technology and marketing strategies. The accounting policies of the segments are the same as those described in the summary of significant accounting policies in Note 1 to our Consolidated Financial Statements.

We measure the financial results of our reportable segments using an internal performance measure that excludes acquisition and integration-related charges, restructuring related charges, reserves for certain product recall matters, reserves for certain legal and regulatory matters and a donation to an educational institution. Identifiable assets are those assets used exclusively in the operations of each business segment or allocated when used jointly. Corporate assets are principally cash and cash equivalents, marketable securities and property, plant and equipment.

Edgar Filing: STRYKER CORP - Form 10-K

The countries in which we have local revenue generating operations have been combined into the following geographic areas: the United States (including Puerto Rico); Europe, Middle East, Africa; Asia Pacific; and other foreign countries, which include Canada and countries in the Latin American region. Net sales are attributable to a geographic area based upon the customer's country of domicile.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

Not applicable.

ITEM 9A. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures—An evaluation of the effectiveness of the Company's disclosure controls and procedures on December 31, 2016 was carried out under the supervision and with the participation of the Company's management, including the Chairman and Chief Executive Officer and the Vice President, Chief Financial Officer (the Certifying Officers). Based on that evaluation, the Certifying Officers concluded that the Company's disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting—There was no change to our internal control over financial reporting in 2016 that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The management of Stryker Corporation and subsidiaries' is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Stryker Corporation and subsidiaries' internal control system was designed to provide reasonable assurance to the Company's management and Board of Directors regarding the preparation and fair presentation of published financial statements.

Stryker Corporation's management assessed the effectiveness of our internal control over financial reporting on December 31, 2016. In making this assessment, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in Internal Control-Integrated Framework (2013). Based on that assessment, management concluded that our internal control over financial reporting is effective.

The internal controls over financial reporting of an acquired business are eligible for a one-year exclusion as permitted by Securities and Exchange Commission Staff interpretive guidance. Accordingly, management's assessment of and conclusion on the effectiveness of internal control over financial reporting did not include the internal controls of Sage, Physio and other 2016 acquisitions, which are included in the December 31, 2016 consolidated financial statements of Stryker Corporation and subsidiaries. Assets and shareholders' equity excluded from management's assessment constitute 2.2% and 0.5% of total assets and shareholders' equity, respectively, on December 31, 2016 and 6.6% and (0.1%) of net sales and net earnings, respectively.

Stryker Corporation's independent registered public accounting firm, Ernst & Young LLP, has issued an attestation report on the effectiveness of our internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The Board of Directors and Shareholders of Stryker Corporation:

We have audited Stryker Corporation and subsidiaries' internal control over financial reporting as of December 31, 2016, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). Stryker

Corporation and subsidiaries' management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As indicated in the accompanying Management's Report on Internal Control Over Financial Reporting, management's assessment of and conclusion on the effectiveness of internal control over financial reporting did not include the internal controls of Sage, Physio and other 2016 acquisitions which are included in the December 31, 2016 consolidated financial statements of Stryker Corporation and subsidiaries and constituted 2.2% and 0.5% of total assets and shareholders' equity, respectively, as of December 31, 2016 and 6.6% and (0.1%) of net sales and net earnings, respectively, for the year then ended. Our audit of internal control over financial reporting of Stryker Corporation and subsidiaries also did not include an evaluation of the internal control over financial reporting of Sage, Physio and other 2016 acquisitions.

In our opinion, Stryker Corporation and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of December 31, 2016, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Stryker Corporation and subsidiaries on December 31, 2016 and 2015 and the related consolidated statements of earnings, comprehensive income,

Dollar amounts in millions except per share amounts or as otherwise specified. 32

STRYKER CORPORATION 2016 Form 10-K

shareholders' equity and cash flows for each of the three years in the period ended December 31, 2016 of Stryker Corporation and subsidiaries, and our report dated February 9, 2017 expressed an unqualified opinion thereon.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE.

Information regarding our executive officers appears under the caption "Executive Officers on January 31, 2017" in Part I, Item 1 of this report.

Information regarding our directors and certain corporate governance and other matters appearing under the captions "Information About the Board of Directors and Corporate Governance Matters," "Proposal 1—Election of Directors," and "Additional Information—Section 16(a) Beneficial Ownership Reporting Compliance" in the 2017 proxy statement is incorporated herein by reference.

The Corporate Governance Guidelines adopted by our Board of Directors, as well as the charters of each of the Audit Committee, the Governance and Nominating Committee and the Compensation Committee and the Code of Ethics applicable to the principal executive officer, principal financial officer and principal accounting officer or controller or persons performing similar functions are posted on the "Investors—Corporate Governance" section of our website at www.stryker.com. Print copies of such documents are available, free of charge, upon written request sent to the Corporate Secretary of Stryker Corporation at 2825 Airview Boulevard, Kalamazoo, Michigan 49002.

ITEM 11. EXECUTIVE COMPENSATION.

Information regarding the compensation of our management appearing under the captions "Compensation Discussion and Analysis," "Compensation Committee Report," "Executive Compensation" and "Compensation of Directors" in the 2017 proxy statement is incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.

The information under the caption "Stock Ownership" in the 2017 proxy statement is incorporated herein by reference.

On December 31, 2016 we had an equity compensation plan under which options were granted at a price not less than fair market value at the date of grant and under which awards of restricted stock units (RSUs) and performance stock units were made. Options and RSUs were also awarded under a previous plan. These equity compensation plans were previously submitted to and approved by our shareholders. Additional information regarding our equity compensation plans appears in Note 1 and Note 8 to our

Consolidated Financial Statements. On December 31, 2016 we also had a stock performance incentive award program pursuant to which shares of our common stock were and may be issued to certain employees with respect to performance. The status of these plans on December 31, 2016 is as follows:

Plan Category	Equity Compensation Plans Approved by Shareholders
Number of shares of common stock to be issued upon exercise of outstanding options	16.3
Weighted-average exercise price of outstanding options	\$ 67.12
Number of shares of common stock remaining available for future issuance under equity compensation plans (excluding shares reflected in the first row)	14.4

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE.

The information under the caption "Information About the Board of Directors and Corporate Governance Matters—Independent Directors" and "Information About the Board of Directors and Corporate Governance Matters—Certain Relationships and Related Party Transactions" in the 2017 proxy statement is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES.

The information under the caption "Proposal 2—Ratification of Appointment of Our Independent Registered Public Accounting Firm" in the 2017 proxy statement is incorporated herein by reference.

Dollar amounts in millions except per share amounts or as otherwise specified. 33

STRYKER CORPORATION 2016 Form 10-K

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES.

(a) 1. Financial Statements

The following Consolidated Financial Statements are set forth in Part II, Item 8 of this report.

Report of Independent Registered Public Accounting Firm on Financial Statements	16
Consolidated Statements of Earnings for 2016, 2015 and 2014	17

Consolidated Statements of Shareholders' Equity for 2016, 2015 and 2014	19
Consolidated Statements of Cash Flows for 2016, 2015 and 2014	20
Notes to Consolidated Financial Statements	21

(a) 2. Financial Statement Schedules

The Consolidated Financial Statement schedule of Stryker Corporation and its subsidiaries is: SCHEDULE II - VALUATION AND QUALIFYING ACCOUNTS

Description	Balance at Beginning of Period	Additions Charged to Costs & Expenses	Deductions		Balance at End of Period
			Uncollected Amounts Written Off, Net of Recoveries	Changes in Foreign Currency Exchange Rates	
DEDUCTED FROM ASSET ACCOUNTS					
Allowance for Doubtful Accounts:					
Year ended December 31, 2016	\$ 61	\$ 9	\$ 14	\$ 1	\$ 55
Year ended December 31, 2015	\$ 59	\$ 21	\$ 15	\$ 4	\$ 61
Year ended December 31, 2014	\$ 72	\$ (4)	\$ 8	\$ 1	\$ 59

All other schedules for which provision is made in the applicable accounting regulation of the U.S. Securities and Exchange Commission are not required under the related instructions or are inapplicable and, therefore, have been omitted.

(a) 3. Exhibits

A list of exhibits required to be filed as part of this report is set forth in the Exhibit Index, which immediately precedes such exhibits, and is incorporated herein by reference. These exhibits are available upon request to the Vice President, Corporate Secretary at 2825 Airview Boulevard, Kalamazoo, Michigan 49002.

(c) Financial Statement Schedules

The response to this portion of Item 15 is submitted as a separate section of this Report. See Item 15(a)(2) above.

ITEM 16. FORM 10-K SUMMARY.

Registrants may voluntarily include a summary of information required by Form 10-K under this Item 16. We have elected not to include such summary information.

Dollar amounts in millions except per share amounts or as otherwise specified. 34
