DATA I/O REPORTS FOURTH QUARTER PROFITS

Redmond, Washington (February 20, 2003) -- Data I/O(R) Corporation (NASDAQ: DAIO) today announced a net income for the fourth quarter of 2002 of \$251,000, or \$0.03 per share, compared to a net loss of \$1.4 million, or (\$0.18) per share, for the fourth quarter of 2001. Revenues for the fourth quarter of 2002 were \$6.2 million, compared to \$6.0 million for the fourth quarter of 2001.

Gross margins increased in dollars and as a percentage of sales for the fourth quarter of 2002 compared with the same period of 2001, primarily due to reduced costs resulting from the Company's restructuring actions taken during the last year, unfavorable inventory reserves recorded in 2001 and the impact of the weakening US dollar versus the Euro. Operating expenses were significantly reduced due to the Company's restructuring actions partially offset by increases in rent expense, due to rate increases and the expiration of a sublease. Restructuring charges of \$135,000 in the fourth quarter of 2002 compared with \$252,000 in the fourth quarter of 2001 were each associated with workforce reductions.

"I am pleased to report success in managing Data I/O's return to profitability and improving our cash position. The Company remains in a strong financial position with a cash and short-term investment position of \$5.4 million and no debt at the end of the fourth quarter," stated Fred Hume, President and CEO. "I am pleased to see key manufacturing new product customers making repeat purchases of our products."

First Quarter 2003 Forward-Looking Statement: Management is committed to long-term profitable growth and has reason to believe that the financial results for the current quarter will be in line with the previous quarter. However, there are economic and political forces affecting the Company's customers that could impact the Company's financial performance. For this reason, the Company has decided not to provide specific earnings guidance.

Web-Cast Conference Call: The Company has scheduled a conference call for Thursday February 20, 2003 at 1:30 p.m. Pacific Time regarding its fourth quarter results and the outlook for the first quarter that will be broadcast on the web. Please see Data I/O Corporation's web site at "<http://www.data-io.com>" for details.

Forward-Looking Statements: Statements in this news release concerning future revenues, future results from operations, breakeven operations, financial position, economic conditions, and any other statement that may be construed as a prediction of future performance or events are forward-looking statements which involve known and unknown risks, uncertainties and other factors which may cause actual results to differ materially from those expressed or implied by such statements. These factors include uncertainties as to levels of orders, ability to record revenues based upon the timing of product deliveries and installations, market acceptance of new products, changes in economic conditions and market demand, pricing and other activities by competitors, and other risks including those described from time to time in the Company's filings on Forms 10K and 10Q with the Securities and Exchange Commission (SEC), press releases and other communications.

Corporate Information: Celebrating 30 years of innovative leadership in the

Edgar Filing: DATA I/O CORP - Form 8-K

device programming industry, Data I/O Corporation provides manual and automated device programming systems that specifically address the requirements of engineering and manufacturing customers. The Company, which is publicly traded (NASDAQ: DAIO), is headquartered in Redmond, Wash., and has sales and service offices worldwide. The Company's worldwide web address is <http://www.data-io.com>.
