REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Plan Administrator of The General Motors Personal Savings Plan for  
Hourly-Rate Employees in the United States

We have audited the accompanying statements of assets available for benefits of  
The General Motors Personal Savings Plan for Hourly-Rate Employees in the United  
States (the "Plan") as of December 31, 2005 and 2004, and the related statement  
of changes in assets available for benefits for the year ended December 31,  
2005. These financial statements are the responsibility of the Plan's  
management. Our responsibility is to express an opinion on these financial  
statements based on our audits.

We conducted our audits in accordance with standards of the Public Company  
Accounting Oversight Board (United States). Those standards require that we plan  
and perform the audit to obtain reasonable assurance about whether the financial  
statements are free of material misstatement. The Plan is not required to have,  
nor were we engaged to perform, an audit of its internal control over financial  
reporting. Our audits included consideration of internal control over financial  
reporting as a basis for designing audit procedures that are appropriate in the  
circumstances, but not for the purpose of expressing an opinion on the  
effectiveness of the Plan's internal control over financial reporting.  
Accordingly, we express no such opinion. An audit also includes examining, on a  
test basis, evidence supporting the amounts and disclosures in the financial  
statements, assessing the accounting principles used and significant estimates  
made by management, as well as evaluating the overall financial statement  
presentation. We believe that our audits provide a reasonable basis for our  
opinion.

Edgar Filing: GENERAL MOTORS CORP - Form 11-K

In our opinion, such financial statements present fairly, in all material respects, the assets available for benefits of the Plan as of December 31, 2005 and 2004, and the changes in assets available for benefits for the year ended December 31, 2005 in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2005, is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. Such supplemental schedule has been subjected to the auditing procedures applied in our audit of the basic 2005 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

THE GENERAL MOTORS PERSONAL SAVINGS PLAN  
FOR HOURLY-RATE EMPLOYEES IN THE UNITED STATES

NOTES TO FINANCIAL STATEMENTS  
AS OF DECEMBER 31, 2005 AND 2004 AND  
FOR THE YEAR ENDED DECEMBER 31, 2005

A. THE PLAN

Following is a brief description of the Plan that is provided for general informational purposes only. Participants should refer to the Plan document and prospectus for a complete description of the Plan's provisions.

GENERAL - General Motors Corporation (the "Corporation" or "GM") and certain unions have established The General Motors Personal Savings Plan ("PSP") for Hourly-Rate Employees in the United States (the "Plan"), a defined contribution plan. Generally, eligible hourly-rate full-time and part-time employees may participate and accumulate savings under the Plan on the first day of the first pay period following the attainment of seniority, as defined in the Plan. Except for purposes of investment of Plan assets, the Investment Funds Committee of the Corporation's Board of Directors acts as the Plan fiduciary and, along with various officers, employees, and committees, with authority delegated from the Plan fiduciary, controls and manages the non-investment operation and administration of the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). This plan is subject to the provisions of ERISA.

PARTICIPANT CONTRIBUTIONS - An eligible participant employed by the Corporation ("an Eligible Employee") may elect to contribute to the Plan as follows in accordance with provisions and within the applicable Federal

## Edgar Filing: GENERAL MOTORS CORP - Form 11-K

limits.

- o On a pre-tax basis ("Deferred Savings"), an amount of Eligible Earnings which is the lesser of (1) \$14,000 for 2005 or (2) up to 60% for 2005 of the Employee's Eligible Earnings for a calendar year.
- o On an after-tax basis ("After-Tax Savings"), up to 60% for 2005 of an Employee's Eligible Earnings as defined in the Plan.
- o In lieu of receiving a distribution from The General Motors Profit Sharing Plan for Hourly-Rate Employees in the United States, an Employee may elect to have the Corporation contribute, as Deferred Savings to the extent permissible under tax law, up to 100%, in 1% increments, of any such amount, which vests immediately.
- o In lieu of receiving a Suggestion Award Payment from the Corporation, an Employee may elect to have the Corporation contribute up to 100%, in 1% increments, of their Suggestion Award Payment as Deferred Savings and/or After-Tax Savings to the extent permissible under tax law.
- o An Eligible Employee age 50 or older, or who will attain age 50 by the end of the calendar year, is eligible to make catch-up contributions to their account. A catch-up contribution may only be made on a "pre-tax" basis up to the annual limit (\$4,000 in 2005) set forth by the Internal Revenue Service (the IRS), and only after a tax law limit has been reached, such as the 401(k) annual contribution limit (\$14,000 in 2005).

An employee's contributions will be invested at the Employee's direction, in 10% increments, in any of the Plan's investment options with the exception of those funds which are restricted from new contributions as described in the Plan. As such, Participants are permitted to self-direct 100% of Employee contributions in any of the Plan's investment options.

6

### THE GENERAL MOTORS PERSONAL SAVINGS PLAN FOR HOURLY-RATE EMPLOYEES IN THE UNITED STATES NOTES TO FINANCIAL STATEMENTS - Continued

An Employee also may elect to combine the first two contribution methods disclosed above (pre-tax and after-tax contributions), provided that the sum of these contributions does not total more than 60% of Eligible Earnings for any calendar year. The sum of all five of the above described methods of contributions are considered "employee contributions". Employee contributions may only exceed 60% of Eligible Earnings by an amount equal to any combination of (1) the payout under the Profit Sharing Plan, (2) the Suggestion Award Payment, and (3) the catch-up contributions.

EMPLOYER CONTRIBUTIONS - For certain employees hired on or after January 1, 1994, the Corporation may contribute an amount equal to a certain percent (based on local units competitive hire agreements) of eligible weekly earnings to such participants' accounts in the form of the Corporation's \$1-2/3 par value common stock. Such participants must be in the Plan for at least three years to be vested in assets acquired with employer contributions, at which time the participant may transfer such assets to other available investment options. Forfeitures, if any, are used to offset

## Edgar Filing: GENERAL MOTORS CORP - Form 11-K

future employer contributions. There were no employer contributions made in 2005.

VESTING - Assets derived from employee contributions vest immediately upon allocation to the employee's account.

FUND EXCHANGES - Participants may exchange funds between investment options on any business day on which the New York Stock Exchange is open ("Business Day").

REDEMPTION FEES - From time to time, certain funds within the Plan may impose a redemption fee if an investment is held for less than a stated period. If applicable, these fees are disclosed in the individual mutual fund prospectuses as well as the Plan prospectus which contains additional information about each fund. The redemption fees are paid to the respective funds and help protect the funds' performance and shareholders by discouraging frequent trading in response to short-term market fluctuations.

PARTICIPANT LOANS - Participants may borrow once per year from both their pre-tax savings and after-tax savings and any related earnings. The amount and terms of the loans are limited under the Plan. The loan interest rate will be established once each quarter at a rate equal to the prime lending rate as of the previous quarter-end established by the Wall Street Journal and will apply to all new loans issued. Loan repayments are generally made through after-tax payroll deductions and are invested in the same investment options that the participant originally selected for their savings contributions. Interest paid on a Plan loan is credited back to the borrowing employee's account in the Plan. Partial and total prepayment of loans is permitted at any time, without penalty. Loans not repaid within the loan term are deemed to be distributions from participant's accounts. Balances of participant loans were \$428 million and \$426 million as of December 31, 2005 and 2004, respectively.

PARTICIPANT WITHDRAWALS - A participant may withdraw Deferred Savings in their account at any time after attaining age 59-1/2. Prior to age 59-1/2, After-Tax Savings may be withdrawn at any time, however, Deferred Savings may only be withdrawn because of termination of employment, retirement, death, total and permanent disability, or financial hardship. Prior to receiving a withdrawal for financial hardship, a participant previously must have taken all available asset distributions, withdrawals, and loans under all applicable plans maintained by the Corporation. The amount that may be withdrawn for a financial hardship is limited as defined in the Plan. The reason for a hardship distribution must conform to conditions required by the IRS. A participant who receives a hardship distribution shall have his or her contributions to the Plan suspended for 12 months following the distribution.

PAYMENT OF BENEFITS - Upon termination of employment, a participant may elect to leave his or her assets in the plan or take a distribution in accordance with plan provisions equal to the value of the participant's vested assets in his or her account.

PLAN ADMINISTRATION - The Corporation pays certain costs of Plan administration.

## Edgar Filing: GENERAL MOTORS CORP - Form 11-K

INVESTMENT OPTIONS - An Employee's contributions will be invested at the Employee's direction, in 1% increments, in any of the investment options available in the Plan, of which there are approximately 70.

### DESCRIPTION OF THE COMPANY STOCK FUND:

General Motors \$1-2/3 Par Value Common Stock Fund - Under this investment option, the Trustee invests contributions primarily in General Motors common stock. Each unit represents a proportionate interest in all of the assets of the GM Common Stock Fund. The number of units credited to each participant's account within an applicable plan will be determined by the amount of the participant's contributions and the purchase price of a unit in the GM Common Stock Fund. The value of each participant's account is determined each Business Day by the number of units to the participant's credit, multiplied by the current unit value. The return on a participant's investment is based on the value of units, which, in turn, is determined by the market price of GM common stock, the amount of any dividends paid thereon, and by interest earned on short-term investments held by each fund.

Each participant directs the Trustee how to vote common stock shares allocated to his or her account. To the extent consistent with applicable law, the Trustee will not exercise voting rights with respect to those shares for which direction has not been received by the required deadline.

### B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies followed in the preparation of the accompanying financial statements are as follows:

- o The financial statements of the Plan are prepared under accounting principles generally accepted in the United States of America using the accrual method of accounting.
- o Investments are stated at fair value, except for benefit-responsive investment contracts, which are stated at contract value. Fair values are calculated by reference to published market quotations, where available; where not available for certain common & collective trusts, various bases, including cost, are used in determining estimates of fair values. Contract value represents contributions and withdrawals made under the investment contracts, plus credited earnings, that are net of expenses charged to synthetic contract.
- o Security transactions are recorded on the trade date.
- o Investment income is recognized as earned based on the terms of the investments and the periods during which the investments are owned by the Plan.
- o Distribution to participants are recorded upon distribution.

USE OF ESTIMATES - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Due to the inherent uncertainty involved in making estimates, actual results could differ from those estimates.

RISKS AND UNCERTAINTIES - The Plan and master trust utilize various investment instruments including U.S. Government Securities, corporate debt

## Edgar Filing: GENERAL MOTORS CORP - Form 11-K

instruments, and corporate stocks. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes, could materially affect the amounts reported in the financial statements.

8

### THE GENERAL MOTORS PERSONAL SAVINGS PLAN FOR HOURLY-RATE EMPLOYEES IN THE UNITED STATES NOTES TO FINANCIAL STATEMENTS - Continued

#### C. INVESTMENTS

All of the investments in the Plan are held in the General Motors Savings Plans Master Trust (the "Master Trust") as more fully described in Note D. The investment in the Master Trust is both participant-directed and non-participant directed.

The synthetic guaranteed investment contracts ("Contracts") owned by the Plan and held in the Master Trust are recorded at contract value and are fully benefit-responsive in accordance with the American Institute of Certified Public Accountants' Statement of Position 94-4, "Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined Contribution Pension Plans". The Contracts are included in the financial statements at contract value as reported to the Master Trust by the insurance company. Contract value represents contributions and withdrawals made under the investment Contracts, plus credited earnings, that are net of expenses charged to the synthetic contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value of such Contracts approximates fair value as of December 31, 2005 and 2004. Synthetic guaranteed investment contracts operate similarly to a separate account investment contract, except that the assets are placed in a trust (with ownership by the Master Trust) rather than a separate account of the contract issuer.

The Contracts provide for prospective crediting interest rate adjustments based on the interest earnings and fair value of the underlying trust assets. The crediting interest rates are reset quarterly and the Contracts include wrappers that provide that the crediting interest rates cannot be less than zero. The crediting rate of the synthetic investment contracts as of December 31, 2005 and 2004 was approximately 5.30% and 4.79%, respectively. The wrappers are entered into by the Master Trust to stabilize the income generation of the Fund.

The average yield for the synthetic investment contracts within the Promark Income Fund was approximately 4.7 % and 4.5% for the year ended December 31, 2005 and 2004, respectively. There are no reserves against the contract value for credit risk of the contract issuer or otherwise.

#### D. THE MASTER TRUST

The Corporation established the Master Trust pursuant to a trust agreement between the Corporation, and State Street Bank and Trust, as trustee of the funds, in order to permit the commingling of trust assets of several employee benefit plans for investment and administrative purposes. The assets of the Master Trust are held by State Street Bank and Trust.

Edgar Filing: GENERAL MOTORS CORP - Form 11-K

Employee benefit plans participating in the Master Trust as of December 31, 2005 include the following:

- o General Motors Savings-Stock Purchase Program for Salaried Employees in the United States
- o General Motors Personal Savings Plan for Hourly-Rate Employees in the United States
- o General Motors Income Security Plan for Hourly-Rate Employees

Each participating employee benefit plan has an undivided interest in the net assets and changes therein of each of the Master Trust investment options in which the respective plan participates.

9

THE GENERAL MOTORS PERSONAL SAVINGS PLAN  
FOR HOURLY-RATE EMPLOYEES IN THE UNITED STATES  
NOTES TO FINANCIAL STATEMENTS - Continued

The net investment income of the commingled Master Trust investment funds is allocated by the trustee to each participating plan based on that plan's interest in each commingled Master Trust investment fund, as compared with the total interest of all the participating plans, in each commingled Master Trust investment fund at the beginning of the month. For all other investment options, the net investment income is separately earned by the respective employee benefit plan, and is thus recorded separately in the accounting records of the respective plan.

As of December 31, 2005 and 2004, the Plan had approximately 43% and 41% interest in the Master Trust, respectively.

10

Common and collective trusts	243,497
	-----
Total net depreciation	(586,316)
	-----
Total net investment loss	\$(68,475)
	=====

### E. TRANSFERS

On April 12, 1999, the GM Board of Directors approved the complete separation of Delphi by means of a spin-off, which was completed on May 28, 1999. Prior to the spin-off, GM established the Delphi Personal Savings Plan (the "Delphi Plan"), modeled after the GM Plan. On May 28, 1999, for those employees who elected to do so, assets representing Delphi participants' holdings in the GM Plan were transferred and reinvested under the corresponding investment options in the Delphi Plan. As a result of the separation, the Delphi Plan was separated from the GM Plan, and is now administered by Delphi as a separate plan. On a very limited basis, participants may elect to transfer their holdings between the Delphi and GM Plans.

### F. TERMINATION

Although it has not expressed any intent to do so, the Corporation has the right to terminate the Plan subject to the provisions of ERISA. Such Plan termination, if any, would not affect a participant's interest in assets already in the Plan.

### G. FEDERAL INCOME TAX STATUS

By letter dated August 15, 2005, the IRS has determined and informed the Corporation that the Plan is a tax-qualified employee benefit plan, meeting the requirements of Sections 401(a) and 401(k) and 4975(e) (7) of the Internal Revenue Code of 1986, as amended (the "Code"), and the Trust established thereunder was determined to be exempt from United States Federal income taxes under Section 501(a) of the Code. The Plan's fiduciary and tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the Code, and therefore no provision for income taxes has been included in the Plan's financial statements.

### H. RELATED PARTY TRANSACTIONS

The Plan and Master Trust enter into certain related party transactions. These generally include investments with trustees, fund managers, the Corporation and its subsidiaries. Such transactions are within the scope of the investment guidelines.

### I. NOTABLE EVENT

Effective December 15, 2005 the Delphi Common Stock fund was discontinued as

## Edgar Filing: GENERAL MOTORS CORP - Form 11-K

an investment option under the Plan, and any remaining assets in the Fund on that date were transferred to the Promark Income Fund. The Plan had a realized loss from the Delphi Common Stock fund of approximately \$35 million.

### J. SUBSEQUENT EVENTS

- o Effective January 1, 2006, the definition of acceptable reasons for Financial Hardship has been expanded by the Internal Revenue Service to include covered expenses for (1) funeral expenses for deceased parents, spouses, children, or dependents and (2) for repairs to a principal residence due to casualty loss (as provided under IRS regulations).
- o Effective February 7, 2006, the Board of Directors reduced the quarterly dividend on GM \$1 2/3 Par Value Common Stock by 50 percent from its prior level of 50 cents per quarter, or \$2 per year to 25 cents per quarter, or \$1 per year.
- o Effective July 1, 2006, all eligible hourly employees will have the opportunity to participate in the PSP Roth savings feature. The PSP Roth savings feature will allow participants to contribute after-tax dollars and make tax-free withdrawals including all Roth contributions and earnings thereon, if certain provisions are met. As a result of the PSP Roth savings feature, employees will have an additional choice on how their contributions may be allocated to their PSP account.
- o Effective March 30, 2007 the following four RESTRICTED FUNDS will be removed as investment options from the PSP. Any assets in these RESTRICTED FUNDS as of March 30, 2007 will be transferred automatically to the Promark Income Fund.
  - DIRECTV Group Common Stock Fund
  - News Corporation Non-Voting Common Stock Fund
  - Electronic Data Systems Corporation Common Stock Fund
  - Raytheon Company Common Stock Fund
