PART III - NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

Kulicke & Soffa Industries, Inc. (the "Company") has determined that is unable to file its Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2018 (the "Form 10-Q") by May 10, 2018, the original due date for such filing. The Company is conducting an internal investigation, with the assistance of outside advisors, of matters related to unauthorized transactions by a senior finance employee of the Company that were discovered following the end of the fiscal quarter. In the course of this investigation, the Company discovered that certain warranty accruals in prior periods were accounted for incorrectly and therefore misstated. The Board of Directors of the Company has therefore determined that the Company's previously issued consolidated financial statements for the year ended September 30, 2017 can no longer be relied upon due to the misstated warranty accruals. Accordingly, all earnings releases and similar prior communications issued by the Company as well as other prior statements made by or on behalf of the Company relating to the periods covered by those financial statements should also not be relied upon. The Company intends to file restated consolidated financial statements for the year ended September 30, 2017 as soon as practicable. As the Company's investigation is ongoing, the Company is not currently in a position to determine whether any restatements will be required regarding matters other than the misstated warranty accruals and whether the consolidated financial statements for any other prior periods will need to be restated. Management is currently evaluating the impact of the restatement on the Company's internal control over financial reporting. If the cause of the restatement is determined to represent a material weakness, the Company will conclude that its disclosure controls and procedures and internal control over financial reporting were not effective as of September 30, 2017. As a result, the Company is not currently in a position to issue unaudited financial information for the quarterly period ended March 31, 2018 or to file with the Securities and Exchange Commission its Form 10-Q for such period. However, the Company does not believe that the unauthorized transactions noted above or the incorrect warranty accruals has had any material adverse impact on the Company's operations or business prospects. The Company is working toward filing the Form 10-Q as soon as practicable, but does not expect to be in a position to file it within five calendar days following the prescribed due date. Similarly, the Company is working toward filing the above-referenced restated consolidated financial statements as soon as practicable. At this time, however, the Company cannot predict with certainty when the preparation of those restated consolidated financial statements will be completed. The restated consolidated financial statements will reflect any additional accounting adjustments that arise as a result of the efforts described above.

#### Forward-Looking Statements

Certain statements in this filing are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to future events or the Company’s future financial performance and involve known and unknown risks, uncertainties and other factors that may cause the actual results, levels of activity, performance or achievements of the Company or its industry to be materially different from those expressed or implied by any forward-looking statements. In some cases, forward-looking statements can be identified by terminology such as “may,” “will,” “could,” “would,” “should,” “expect,” “plan,” “anticipate,” “intend,” “believe,” “estimate,” “potential” or the negative of those terms or other

comparable terminology. The Company has based these forward-looking statements on its current expectations, assumptions, estimates and projections. While the Company believes these expectations, assumptions, estimates and projections are reasonable, such forward-looking statements are only predictions and involve known and unknown risks and uncertainties, many of which are beyond the Company's control. In addition, there can be no assurance that the Company will be able to file its Form 10-Q within the five calendar day extension provided by Rule 12b-25, or that the Company may not identify one or more material weaknesses in its internal control over financial reporting. Furthermore, the ongoing investigation may reveal other accounting errors, and the Company may conclude that investors should no longer rely upon other previously issued financial statements. These and other important factors, including those discussed under "Risk Factors" in the Company's Form 10-K for the year ended September 30, 2017, as well as the Company's subsequent filings with the United States Securities and Exchange Commission, may cause actual results, performance or achievements to differ materially from those expressed or implied by these forward-looking statements. The forward-looking statements in this filing are made only as of the date hereof, and unless otherwise required by applicable securities laws, the Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
