NEWS RELEASE

FOR RELEASE WEDNESDAY, JULY 24, 2003

AT&T Announces Second Quarter 2003 Earnings;
Board of Directors States its Intention to Increase the Dividend by 27%
and Authorizes the Repurchase of up to \$2 Billion in Debt

- o Second quarter earnings per diluted share from continuing operations of \$0.68
- o Consolidated revenue of \$8.8 billion
- o Operating income of \$1.0 billion

BEDMINSTER, N.J. -- AT&T (NYSE: T) today reported income from continuing operations of \$536 million, or earnings per diluted share of \$0.68, for the second quarter of 2003. The company's current quarter income from continuing operations compares to income of \$603 million, or earnings per diluted share of \$0.80, in the second quarter of 2002. AT&T's overall net income of \$536 million, compares to a loss of \$12.8 billion for the second quarter of 2002, which included a significant loss from discontinued operations.

"AT&T's second quarter results reflect our relentless focus on managing costs and driving share gains in key areas of our business despite ongoing economic weakness and increased competitive pressures," said AT&T Chairman and Chief Executive Officer David W. Dorman. "We continue to leverage our industry-leading scale and global networking expertise to widen our competitive advantages and position AT&T for the eventual economic turnaround."

AT&T reported second quarter 2003 consolidated revenue of \$8.8 billion, which included \$6.4 billion from AT&T Business Services and \$2.4 billion from AT&T Consumer Services. This represents a consolidated revenue decline of 8.2 percent versus the second quarter of 2002, primarily due to continued declines in long distance (LD) voice revenue, partially offset by the continued success of AT&T Consumer Services' bundled local and LD offering, as well as growth in several key markets of AT&T Business Services.

AT&T's second quarter 2003 operating income totaled \$1.0 billion, resulting in a consolidated operating margin of 11.7 percent. AT&T Business Services posted operating income of \$597 million, yielding a margin of 9.3 percent, while AT&T Consumer Services generated operating income of \$489 million, yielding a margin of 20.6 percent.

AT&T also announced that its Board of Directors has stated its intention to increase the company's quarterly per share cash dividend by \$0.05, to \$0.2375, beginning with AT&T's third quarter dividend payable in November. Additionally, the company announced that the Board has authorized management to repurchase up

Edgar Filing: AT&T CORP - Form 8-K

to \$2 billion of debt, subject to market conditions and other relevant considerations.

"AT&T continues to generate strong earnings and cash flow while carefully managing its costs and capital spending," said AT&T Chief Financial Officer Thomas W. Horton. "Today's announcement of a change in dividend policy, coupled with our plan to repurchase additional debt, demonstrates our ongoing commitment to returning value to our investors while maintaining our overall financial flexibility and balance sheet strength."

AT&T UNIT HIGHLIGHTS

AT&T Business Services

- o Revenue was \$6.4 billion, a decline of 5.0 percent from the prior year second quarter. The unit's revenue performance reflects pricing pressure, weakness in retail demand and overall telecommunications spending, partially offset by strong growth in local voice, wholesale LD voice and IP&E-services revenue.
- o Long distance voice revenue declined 10.9 percent on a quarter-over-quarter basis, driven by continued pricing pressure, partially offset by volume growth. Volumes grew approximately 12 percent on a quarter-over-quarter basis, driven by strong wholesale growth, which more than offset the decline in retail volumes.
- o Local voice revenue grew approximately 39 percent from the prior year second quarter. Local access lines totaled over 4.2 million at the end of the current period, representing an increase of nearly 135,000 lines from the first quarter of 2003.
- o IP&E-services revenue grew 13.1 percent, while data services revenue declined 4.1 percent from the prior year quarter.
- o The managed component of total data services and IP&E-services revenue grew more than 6 percent from the prior year second quarter and now comprises approximately 31 percent of this revenue total.
- o Operating income totaled \$597 million. Operating margin was 9.3 percent, compared with 12.7 percent in the prior year second quarter. The decline is primarily due to pricing pressure, weak retail demand resulting from a soft economy, and a mix shift from higher margin retail LD voice service to lower margin wholesale, data and IP&E services.

AT&T Consumer Services

- o Revenue was \$2.4 billion, a decline of 18.4 percent versus the prior year second quarter, driven by the continued impact of competition, wireless and Internet substitution, and customer migration to lower priced products and calling plans. The revenue decline was partially offset by growth in bundled revenue, which nearly doubled compared to the prior year second quarter and now represents over 19 percent of total AT&T Consumer Services' revenue.
- o Operating income totaled \$489 million, yielding an operating margin of 20.6 percent, compared with 27.0 percent in the prior year second quarter. The year-over-year decline reflects the impact of substitution, mix shift and competition.

Edgar Filing: AT&T CORP - Form 8-K

- o At the end of the second quarter, AT&T Consumer provided local service to more than 3.1 million customers, an increase of more than 100 percent from the prior year second quarter. During the current reporting period, AT&T began offering service in the Indiana, Maryland, Virginia and Massachusetts. As of June 30, 2003, local service was available in 12 markets. The company expects to offer local service in as many as 22 markets by the end of 2003.

OTHER CONSOLIDATED FINANCIAL HIGHLIGHTS

- o Second quarter 2003 net income of \$536 million included a restructuring charge of \$66 million related to separation costs associated with the realignment of the company's management.
- o AT&T realized \$25 million of equity earnings, net of income taxes, during the second quarter of 2003 primarily due to the favorable settlement of Concert related items.
- o Other income in the second quarter primarily consisted of investment-related income, gains from sales of our investment in Time Warner Telecom and the mark-to-market impacts of financial instruments.
- o AT&T ended the quarter with net debt of \$10.8 billion. Net debt is defined as total debt of \$17.5 billion less cash of \$5.3 billion, restricted cash of \$0.5 billion and net foreign debt fluctuations of \$1.0 billion.
- o Free cash flow was \$1.4 billion for the second quarter. Free cash flow is defined as cash flow from operations of \$2.1 billion less cash used for capital expenditures of \$0.8 billion.
- o Capital expenditures for the second quarter were \$790 million.
- o The company stated that it had completed nearly two-thirds of the employee separations that it had taken charges for in 2002 by the end of the 2003 second quarter, and that it will continue to drive additional cost efficiencies going forward. This is expected to result in a charge similar to or slightly higher than the current quarter charge during the second half of 2003, the majority of which could occur in the third quarter of 2003.
- o The combined effect of AT&T's previously announced employee separations and its ongoing management redesign effort will result in up to a 9% reduction in the company's 2003 year-end headcount versus year-end 2002 levels, yielding an annualized cost savings of more than \$500 million in the first full year after completion of these efforts.
- o The Board of Directors has stated its intention to increase the quarterly dividend by \$0.05 per share, starting with the third quarter dividend payable in November 2003. The actual declaration of the third quarter dividend has not yet taken place and will be subject to the usual review of the financial condition of the Company and other relevant factors by the Board of Directors at the time of the declaration.
- o The Board of Directors has authorized the repurchase of up to \$2 billion in debt. The timing and method of any such repurchases have not yet been determined and will depend on various market conditions and all other relevant factors and may take the form of calls, tender

Edgar Filing: AT&T CORP - Form 8-K

offers or open market purchases.

DEFINITIONS and NOTES

AT&T Business Services

LD Voice - includes all of AT&T's domestic and international LD revenue, including Intralata toll when purchased as part of an LD calling plan.

Local Voice - includes all local calling and feature revenue, Intralata toll when purchased as part of a local calling plan, as well as Inter-carrier local revenue.

Data Services- includes bandwidth services (dedicated private line services through high-capacity optical transport), frame relay and asynchronous transfer mode (ATM) revenue for LD and local, as well as revenue for managed data services.

Internet Protocol & Enhanced Services (IP&E-services) - includes all services that ride on the IP common backbone or that use IP technology, including managed IP services, as well as application services (e.g., hosting, security).

Outsourcing, Professional Services & Other - includes complex bundled solutions primarily in the wide area/local area network space, AT&T's professional services revenue associated with the company's federal government customers, as well as all other Business Services revenue (and eliminations) not previously defined. Also includes revenue from AT&T Latin America prior to the first quarter of 2003.

Data, IP&E-Services - Percent Managed - managed services refers to AT&T's management of a client's network or network and applications including applications that extend to the customer premise equipment.

Data, IP&E-Services - Percent International - a data service that either originates or terminates outside of the United States, or an IP&E-service installed or wholly delivered outside the United States.

AT&T Consumer Services

Bundled Services - includes any customer with a local relationship as a starting point, and all other AT&T subscription-based voice products provided to that customer.

Standalone LD, Transactional & Other Services - includes any customer with solely a long distance relationship, non-voice products, or a non subscription-based relationship.

Local Customers - residential customers who subscribe to AT&T local service.

Bundled Households - number of households in targeted markets where there is general availability of AT&T local service.

Other Definitions and Notes

Restricted cash - \$0.5 billion of cash that collateralizes a portion of private debt and is included in "other assets" on the balance sheet.

Foreign currency fluctuations - represents mark-to-market adjustments, net of cash collateral collected, that increased the debt balance by approximately \$1.0 billion at June 30, 2003, on non-U.S. denominated debt of about \$4.0 billion. AT&T has entered into foreign exchange hedges that substantially offset the fluctuations in the debt balance. The offsetting mark-to-market adjustments of the hedges are included in "other assets" on the balance sheet.
