LINCOLN NATIONAL CORP Form 10-Q November 03, 2016

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended September 30, 2016

OR

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the transition period from to

Commission File Number: 1-6028

LINCOLN NATIONAL CORPORATION

(Exact name of registrant as specified in its charter)

| Indiana | 35-1140070 |
|--|---------------------|
| (State or other jurisdiction of | (I.R.S. Employer |
| incorporation or organization) | Identification No.) |
| 150 N. Radnor Chester Road, Suite A305, Radnor, Pennsylvania | 19087 |
| (Address of principal executive offices) | (Zip Code) |

(484) 583-1400

(Registrant's telephone number, including area code)

Not Applicable

(Former name, former address and former fiscal year, if changed since last report.)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of October 31, 2016, there were 228,560,352 shares of the registrant's common stock outstanding.

LINCOLN NATIONAL CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Nature of Operations and Basis of Presentation

Nature of Operations

Lincoln National Corporation and its majority-owned subsidiaries ("LNC" or the "Company," which also may be referred to as "we," "our" or "us") operate multiple insurance businesses through four business segments. See Note 13 for additional details. The collective group of businesses uses "Lincoln Financial Group" as its marketing identity. Through our business segments, we sell a wide range of wealth protection, accumulation and retirement income products and solutions. These products include fixed and indexed annuities, variable annuities, universal life insurance ("UL"), variable universal life insurance ("VUL"), linked-benefit UL, indexed universal life insurance ("IUL"), term life insurance, employer-sponsored retirement plans and services, and group life, disability and dental.

Basis of Presentation

The accompanying unaudited consolidated financial statements are prepared in accordance with United States of America generally accepted accounting principles ("GAAP") for interim financial information and with the instructions for the Securities and Exchange Commission ("SEC") Quarterly Report on Form 10-Q, including Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by GAAP for complete financial statements. Therefore, the information contained in the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015 ("2015 Form 10-K"), should be read in connection with the reading of these interim unaudited consolidated financial statements.

Certain GAAP policies, which significantly affect the determination of financial position, results of operations and cash flows, are summarized in our 2015 Form 10-K.

In the opinion of management, these statements include all normal recurring adjustments necessary for a fair presentation of the Company's results. Operating results for the nine month period ended September 30, 2016, are not necessarily indicative of the results that may be expected for the full year ending December 31, 2016. All material inter-company accounts and transactions have been eliminated in consolidation.

2. New Accounting Standards

Adoption of New Accounting Standards

The following table provides a description of our adoption of new Accounting Standard Updates ("ASUs") issued by the Financial Accounting Standards Board ("FASB") and the impact of the adoption on our financial statements:

| e | Description This standard clarifies that when considering the nature of e the host contract in a hybrid financial instrument issued i dthe form of a share; an entity must consider all of the stated and implied substantive terms of the hybrid instrument, including the embedded derivative feature that is being considered for separate accounting from the host contract. | n2016 | Effect on Financial Statements or Other Significant Matters The adoption of this ASU did not have an effect on our consolidated financial condition or results of operations. |
|---|---|--------------------------|---|
| ASU 2015-02, Amendments to the Consolidation Analysis | This standard addresses consolidation accounting guidance related to limited partnerships, limited liability companies and securitization structures. The new standard includes changes to existing consolidation models that eliminates the presumption that a general partner should consolidate a limited partnership, clarifies when fees paid to a decision maker should be a factor in the variable interest entities ("VIEs") consolidation evaluation and reduces the VIE consolidation models from two to one by eliminating the indefinite deferral for certain investment funds. | | The adoption of this ASU did not have an effect on our consolidated financial condition or results of operations. We have provided additional financial statement disclosures related to our limited partnerships in Note 3. |
| ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs | Debt issuance costs were previously recognized as a deferred charge in the balance sheet. This amendment requires the presentation of debt issuance costs in the balance sheet as a direct deduction from the carrying amount of that debt. This standard does not change the recognition and measurement requirements related to deb issuance costs. Retrospective application of the amendments in this ASU is required. | January 1, 2016 ot | We have retrospectively reclassified approximately \$29 million of our debt issuance costs from other assets to long-term debt on the Consolidated |

| A SU 2015 05 | This standard clarifies the accounting maninements for | Iomuomi 1 | Balance Sheets as of December 31, 2015. See ASU 2015-15 for debt issuance costs associated with line-of-credit arrangements. |
|-------------------------|---|--------------------|---|
| ASU 2015-05, | This standard clarifies the accounting requirements for | January 1, 2016 | The adoption of this ASU did not |
| Customer's Accounting | recognizing cloud computing arrangements. Software licenses purchased through cloud computing | 2010 | have an effect on |

| | deferred debt issuance costs ratably over the term of | | |
| | the line-of-credit arrangement. | | |

Future Adoption of New Accounting Standards

The following table provides a description of future adoptions of new accounting standards that may have an impact on our financial statements when adopted:

| | | | Effect on Financial |
|-----------------------|---|----------------|--------------------------|
| | | Projected Date | e Statements or Other |
| Standard | Description | of Adoption | Significant Matters |
| ASU 2014-09, | This standard establishes the core principle of | January 1, | We will adopt the |
| Revenue from | recognizing revenue to depict the transfer of promised | 2018 | accounting guidance in |
| Contracts with | goods and services. The amendments define a five-step | | this standard for |
| Customers & ASU | process that systematically identifies the various | | non-insurance related |
| 2015-14, Revenue | components of the revenue recognition process, | | products and services |
| from Contracts with | culminating with the recognition of revenue upon | | and are currently |
| Customers; Deferral | satisfaction of an entity's performance | | evaluating the impact |
| of the Effective Date | obligation. Retrospective application is required. After | | of adoption on our |
| | performing extensive outreach, the FASB decided to | | consolidated financial |
| | delay the effective date of ASU 2014-09 for one | | condition and results of |
| | year. Early application is permitted but only for annual | | operations. |
| | reporting periods beginning after December 15, 2016. | | |
| ASU 2015-09, | This standard enhances the disclosure requirements | Annual | We are currently |
| Disclosures about | related to short-duration insurance contracts. The new | periods | evaluating these |
| Short-Duration | disclosure requirements focus on providing users of | beginning | disclosure changes and |
| Contracts | financial statements with more transparent information | January 1, | will provide the |
| | about an insurance entity's (1) initial claims estimates an | | - |
| | subsequent adjustments to those estimates, (2) | • | disclosures if we |
| | methodologies and judgments in estimating claims, and | • | s determine they are |
| | (3) timing, frequency and severity of claims. Early | beginning | material to our |
| | application of this standard is permitted, and | January 1, | financial statements. |

retrospective application is required for each comparative 2017 period presented, except for those requirements that apply only to the current period. These amendments require, among other things, the fair January 1,

ASU 2016-01, Recognition and Measurement of Financial Liabilities

value measurement of investments in equity securities 2018 and certain other ownership interests that do not result in Financial Assets and consolidation and are not accounted for under the equity method of accounting. The change in fair value of the impacted investments in equity securities must be recognized in net income. In addition, the amendments include certain enhancements to the presentation and disclosure requirements for financial assets and financial liabilities. Early adoption of the ASU is generally not permitted, except as defined in the ASU. The amendments should be adopted in the financial statements through a cumulative effect adjustment to the beginning balance of retained earnings.

We are currently evaluating the impact of adopting this ASU on our consolidated financial condition and results of operations.

| | | U U | Effect on Financial |
|-----------------------|--|------------|---------------------------------------|
| | | Date of | Statements or Other |
| Standard | Description | Adoption | Significant Matters |
| ASU 2016-02, | This standard establishes a new accounting model for | - | We are currently |
| Leases | leases. Lessees will recognize most leases on the balance as a | 2019 | evaluating the impact |
| | right-of-use asset and a related lease liability. The lease liability | r | of adopting this ASU |
| | is measured as the present value of the lease payments over the | | on our consolidated |
| | lease term with the right-of-use asset measured at the lease | | financial condition |
| | liability amount and includes adjustments for certain lease | | and results of |
| | incentives and initial direct costs. Lease expense recognition | | operations. |
| | will continue to differentiate between finance leases and | | |
| | operating leases resulting in a similar pattern of lease expense | | |
| | recognition as under current GAAP. This ASU permits a | | |
| | modified retrospective adoption approach that includes a | | |
| | number of optional practical expedients that entities may elect | | |
| | upon adoption. Early adoption is permitted. | | |
| ASU 2016-05, | The amendments clarify that a change in the counterparty to a | • | We are currently |
| | derivative instrument identified in a hedging relationship in and | 2017 | evaluating the impact |
| | of itself does not require dedesignation of that hedging | | of adopting this ASU |

liability accounting. Finally, the amendments permit entities to make a one-time accounting policy election to account for forfeitures as they occur. Specific adoption methods depend on the issue being adopted and range from prospective to retrospective adoption. Early adoption is permitted; however, all amendments must be adopted in the same period.

| Standard ASU 2016-10, Identifying Performance Obligations and Licensing | Description These amendments clarify, among other things, the accounting guidance in ASU 2014-09 regarding how an entity will determine whether promised goods or services are separately identifiable, which is an important consideration in determining whether to account for goods or services as a separate performance obligation. Transition requirements are consistent with ASU 2014-09. | Date of Adoption January 1, | Effect on Financial Statements or Other Significant Matters We are currently evaluating the impact of adopting this ASU, in coordination with ASU 2014-09, on our consolidated financial condition and results of operations. |
|--|--|-----------------------------------|---|
| ASU 2016-12, Narrow Scope Improvements and Practical Expedients | The standard update amends the revenue recognition guidance in ASU 2014-09 related to transition, collectability, noncash consideration and the presentation of sales and other similar taxes. The amendments clarify that, for a contract to be considered completed at transition, substantially all of the revenue must have been recognized under current GAAP. The amendments also clarify how an entity should evaluate the collectability threshold and when an entity can recognize nonrefundable consideration received as revenue if an arrangement does not meet the standard's contract criteria. Transition requirements are consistent with ASU 2014-09. | 2018 | - |
| ASU 2016-13, Measurement of Credit Losses on Financial Instruments | These amendments adopt a new model to measure and recognize credit losses for most financial assets. The method used to measure estimated credit losses for available-for-sale ("AFS") del securities will be unchanged from current GAAP; however, the amendments require credit losses to be recognized through an allowance rather than as a reduction to the amortized cost of those debt securities. The amendments will permit entities to recognize improvements in credit loss estimates on AFS debt securities by reducing the allowance account immediately through earnings. The amendments will be adopted through a cumulative effect adjustment to the beginning balance of retained earnings as of the first reporting period in which the amendments are effective. Early adoption is permitted for annual periods beginnin after December 15, 2018, and interim periods therein. | 2020 pt | We are currently evaluating the impact of adopting this ASU on our consolidated financial condition and results of operations. |
| ASU 2016-15, Classification of Certain Cash Receipts and Cash Payments | These amendments clarify the classification of eight specific cash | January 1, 2018 | We are currently evaluating these disclosure requirements and will amend classifications in our Consolidated Statement of Cash Flows upon adoption |

Flows upon adoption as applicable.

3. Variable Interest Entities

Consolidated VIEs

See Note 4 in our 2015 Form 10-K for a detailed discussion of our consolidated VIEs, which information is incorporated herein by reference.

⁽²⁾ Reported in other investments on our Consolidated Balance Sheets.

⁽³⁾ Reported in variable interest entities' liabilities on our Consolidated Balance Sheets.

For details related to the fixed maturity AFS securities underlying these VIEs, see Note 4.

As described more fully in Note 1 of our 2015 Form 10-K, we regularly review our investment holdings for other-than-temporary impairment ("OTTI"). Based upon this review, we believe that the AFS fixed maturity securities were not other-than-temporarily impaired as of September 30, 2016.

The gains (losses) for the consolidated VIEs (in millions) recorded on our Consolidated Statements of Comprehensive Income (Loss) were as follows:

For the Three For the Nine

| | Months Ended | | | Months Ended | | | | |
|---------------------------------|-----------------|---|----|-----------------|-----------|----|----|-----|
| | September | | | er | September | | | er |
| | 30, | | | | 30, | | | |

⁽¹⁾ Reported in realized gain (loss) on our Consolidated Statements of Comprehensive Income (Loss).

Unconsolidated VIEs

See Note 4 in our 2015 Form 10-K for a detailed discussion of our unconsolidated VIEs, which information is incorporated herein by reference.

Limited Partnerships and Limited Liability Companies

We invest in certain limited partnerships ("LPs") and limited liability companies ("LLCs"), including qualified affordable housing projects, that we have concluded are VIEs. We do not hold any substantive kick-out or participation rights in the LPs and LLCs, and we do not receive any performance fees or decision maker fees from the LPs and LLCs. Based on our analysis of the LPs and LLCs, we are not the primary beneficiary of the VIEs as we do not have the power to direct the most significant activities of the LPs and LLCs.

The carrying amounts of our investments in the LPs and LLCs are recognized in other investments on our Consolidated Balance Sheets and were \$1.3 billion and \$1.2 billion as of September 30, 2016, and December 31, 2015, respectively. Included in these carrying amounts are our investments in qualified affordable housing projects, which were \$40 million and \$47 million as of September 30, 2016, and December 31, 2015, respectively. We do not have any contingent commitments to provide additional capital funding to these qualified affordable housing projects. We receive returns from these qualified affordable housing projects in the form of income tax credits and other tax benefits, which are recognized in federal income tax expense (benefit) on our Consolidated Statements of Comprehensive Income (Loss) and were \$3 million and less than \$1 million for the nine months ended September 30, 2016 and 2015, respectively.

Our exposure to loss is limited to the capital we invest in the LPs and LLCs, and there have been no indicators of impairment that would require us to recognize an impairment loss related to the LPs and LLCs as of September 30, 2016.

4. Investments

AFS Securities

See Note 1 in our 2015 Form 10-K for information regarding our accounting policy relating to AFS securities, which also includes additional disclosures regarding our fair value measurements.

The amortized cost, gross unrealized gains and losses, OTTI and fair value of AFS securities (in millions) were as follows:

| | 1 | otember 30 dGross U | οττι | Fair | |
|---|-----------|------------------------|--------|---------|-----------|
| | Cost | Gains | Losses | (1) | Value |
| Fixed maturity securities: | | | | | |

⁽¹⁾ Includes unrealized gains and losses on impaired securities related to changes in the fair value of such securities subsequent to the impairment measurement date.

The amortized cost and fair value of fixed maturity AFS securities by contractual maturities (in millions) as of September 30, 2016, were as follows:

| | Amortized | Fair |
|--|-----------|-----------|
| | Cost | Value |
| Due in one year or less | \$ 2,600 | \$ 2,640 |
| Due after one year through five years | 18,821 | 20,082 |
| Due after five years through ten years | 18,024 | 19,120 |
| Due after ten years | 38,725 | 44,969 |
| Subtotal | 78,170 | 86,811 |
| Structured securities (ABS, MBS, CLOs) | 6,142 | 6,421 |
| Total fixed maturity AFS securities | \$ 84,312 | \$ 93,232 |

Actual maturities may differ from contractual maturities because issuers may have the right to call or pre-pay obligations.

The fair value and gross unrealized losses, including the portion of OTTI recognized in other comprehensive income (loss) ("OCI"), of AFS securities (dollars in millions), aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, were as follows:

| Total | \$ 1,852 | \$ 907 | \$ 17 | 219 | |

⁽¹⁾ We may reflect a security in more than one aging category based on various purchase dates.

We regularly review our investment holdings for OTTI. Our gross unrealized losses, including the portion of OTTI recognized in OCI, on AFS securities decreased by \$1.6 billion for the nine months ended September 30, 2016. As discussed further below, we believe the unrealized loss position as of September 30, 2016, did not represent OTTI as (i) we did not intend to sell the fixed maturity AFS securities; (ii) it is not more likely than not that we will be required to sell the fixed maturity AFS securities before recovery of their amortized cost; (iii) the estimated future cash flows were equal to or greater than the amortized cost of the debt securities; and (iv) we had the ability and intent to hold the equity AFS securities for a period of time sufficient for recovery.

Based upon this evaluation as of September 30, 2016, management believes we have the ability to generate adequate amounts of cash from our normal operations (e.g., insurance premiums and fees and investment income) to meet cash requirements with a prudent margin of safety without requiring the sale of our temporarily-impaired securities.

As of September 30, 2016, the unrealized losses associated with our corporate bond securities were attributable primarily to widening credit spreads and rising interest rates since purchase. We performed a detailed analysis of the financial performance of the underlying issuers and determined that we expected to recover the entire amortized cost for each temporarily-impaired security.

As of September 30, 2016, the unrealized losses associated with our mortgage-backed securities ("MBS") and ABS were attributable primarily to credit spreads. We assessed credit impairment using a cash flow model that incorporates key assumptions including default rates, severities and prepayment rates. We estimated losses for a security by forecasting the underlying loans in each transaction. The forecasted loan performance was used to project cash flows to the various tranches in the structure, as applicable. Our forecasted cash flows also considered, as applicable, independent industry analyst reports and forecasts, sector credit ratings and other independent market data. Based upon our assessment of the expected credit losses of the security given the performance of the underlying collateral compared to our subordination or other credit enhancement, we expected to recover the entire amortized cost of each temporarily-impaired security.

As of September 30, 2016, the unrealized losses associated with our hybrid and redeemable preferred securities were attributable primarily to wider credit spreads caused by illiquidity in the market and subordination within the capital structure, as well as credit risk of underlying issuers. For our hybrid and redeemable preferred securities, we evaluated the financial performance of the underlying issuers based upon credit performance and investment ratings and determined that we expected to recover the entire amortized cost of each temporarily-impaired security.

Changes in the amount of credit loss of OTTI recognized in net income (loss) where the portion related to other factors was recognized in OCI (in millions) on fixed maturity AFS securities were as follows:

For the Three For the Nine

| | Months | 5 | Months | | | |
|-------|--------|---------|---------------|--------|--|--|
| | Ended | | Ended | | | |
| | Septem | ber 30, | September 30, | | | |
| | 2016 | 2015 | 2016 | 2015 | | |
| eriod | \$ 431 | \$ 374 | \$ 382 | \$ 380 | | |

Balance as of beginning-of-pe Increases attributable to:

| Credit losses on securities for which an | | | | |
|--|-----------|-----------|--------|------|
| OTTI was not previously recognized | 6 | - | 67 | 16 |
| Credit losses on securities for which an | | | | |
| OTTI was previously recognized | 5 | 5 | 12 | 12 |
| Decreases attributable to: | | | | |
| Securities sold, paid down or matured | (6) | (1) | (25) | (30) |
| Balance as of end-of-period | \$ 436 \$ | \$ 378 \$ | 436 \$ | 378 |

During the nine months ended September 30, 2016 and 2015, we recorded credit losses on securities for which an OTTI was not previously recognized as we determined the cash flows expected to be collected would not be sufficient to recover the entire amortized cost of the debt security. The credit losses we recorded on securities for which an OTTI was not previously recognized were attributable primarily to one or a combination of the following reasons:

- · Failure of the issuer of the security to make scheduled payments;
- · Deterioration of creditworthiness of the issuer;
- · Deterioration of conditions specifically related to the security;
- · Deterioration of fundamentals of the industry in which the issuer operates; and
- $\cdot\,\,$ Deterioration of the rating of the security by a rating agency.

We recognize the OTTI attributed to the noncredit portion as a separate component in OCI referred to as unrealized OTTI on AFS securities.

Details of the amount of credit loss of OTTI recognized in net income (loss) for which a portion related to other factors was recognized in OCI (in millions), were as follows:

| | As of September 30, 2016 | | | | | | |

Mortgage Loans on Real Estate

See Note 1 in our 2015 Form 10-K for information regarding our accounting policy relating to mortgage loans on real estate.

Mortgage loans on real estate principally involve commercial real estate. The commercial loans are geographically diversified throughout the U.S. with the largest concentrations in California, which accounted for 20% and 21%, respectively, and Texas, which accounted for 11% and 10%, respectively, of mortgage loans on real estate as of September 30, 2016, and December 31, 2015.

The following provides the current and past due composition of our mortgage loans on real estate (in millions):

| | As of | As of |
|--|-----------|----------|
| | September | December |
| | 30, | 31, |
| | 2016 | 2015 |
| Current | \$ 9,423 | \$ 8,677 |
| 60 to 90 days past due | 6 | - |
| Greater than 90 days past due | 2 | - |
| Valuation allowance associated with impaired mortgage loans on real estate | (3) | (2) |
| Unamortized premium (discount) | 2 | 3 |
| Total carrying value | \$ 9,430 | \$ 8,678 |

The number of impaired mortgage loans on real estate, each of which had an associated specific valuation allowance, and the carrying value of impaired mortgage loans on real estate (dollars in millions) were as follows:

| | As of | As of |
|---|-----------------------|---------------------|
| | Septembe | erDecember |
| | 30, | 31, |
| | 2016 | 2015 |
| Number of impaired mortgage loans on real estate | 3 | 2 |
| Principal balance of impaired mortgage loans on real estate Valuation allowance associated with impaired mortgage loans on real estate Carrying value of impaired mortgage loans on real estate | \$ 13 (3) \$ 10 | \$ 8 (2) \$ 6 |

The changes in the valuation allowance associated with impaired mortgage loans on real estate (in millions) were as follows:

| | For the | Three | For the Nine | | |
|-----------------------------------|---------------|-------|--------------|------|--|
| | Months | | Month | ns | |
| | Ended | | Endec | 1 | |
| | | | September | | |

| Interest income collected on impaired mortgage loans on real estate | - | - | - | 1 |

As described in Note 1 in our 2015 Form 10-K, we use the loan-to-value and debt-service coverage ratios as credit quality indicators for our mortgage loans, which were as follows (dollars in millions):

| As of September 30, 2016 | As of December 31, 2015 |
|--------------------------|-------------------------|
| Debt- | Debt- |
| Service | Service |

| | Carrying | % of | Coverage | Carrying | % of | Coverage |
|-------------------------------------|----------|--------|----------|----------|--------|----------|
| Loan-to-Value Ratio | Value | Total | Ratio | Value | Total | Ratio |
| Less than 65% | \$ 8,239 | 87.4% | 2.14 | \$ 7,718 | 88.9% | 2.06 |
| 65% to 74% | 954 | 10.1% | 1.84 | 653 | 7.5% | 1.60 |
| 75% to 100% | 227 | 2.4% | 0.93 | 301 | 3.5% | 0.83 |
| Greater than 100% | 10 | 0.1% | 1.10 | 6 | 0.1% | 1.05 |
| Total mortgage loans on real estate | \$ 9,430 | 100.0% | | \$ 8,678 | 100.0% | |

Alternative Investments

As of September 30, 2016, and December 31, 2015, alternative investments included investments in 198 and 190 different partnerships, respectively, and the portfolio represented approximately 1% of our overall invested assets.

Realized Gain (Loss) Related to Certain Investments

The detail of the realized gain (loss) related to certain investments (in millions) was as follows:

| | For the Three Months | | For the | Nine |

Determination of Credit Losses on Corporate Bonds and ABS

As of September 30, 2016, and December 31, 2015, we reviewed our corporate bond and ABS portfolios for potential shortfall in contractual principal and interest based on numerous subjective and objective inputs. The factors used to determine the amount of credit loss for each individual security, include, but are not limited to, near term risk, substantial discrepancy between book and market value, sector or company-specific volatility, negative operating trends and trading levels wider than peers.

Credit ratings express opinions about the credit quality of a security. Securities rated investment grade, that is those rated BBB- or higher by Standard & Poor's ("S&P") Rating Services or Baa3 or higher by Moody's Investors Service ("Moody's"), are generally considered by the rating agencies and market participants to be low credit risk. As of September 30, 2016, and December 31, 2015, 95% and 96%, respectively, of the fair value of our corporate bond portfolio was rated investment grade. As of September 30, 2016, and December 31, 2015, 95% and 96%.

bond portfolio rated below investment grade had an amortized cost of \$4.0 billion and \$3.6 billion, respectively, and a fair value of \$3.8 billion and \$3.3 billion, respectively. As of September 30, 2016, and December 31, 2015, 96% of the fair value of our ABS portfolio was rated investment grade. As of September 30, 2016, and December 31, 2015, the portion of our ABS portfolio rated below investment grade had an amortized cost of \$103 million and \$107 million, respectively, and a fair value of \$88 million and \$92 million, respectively. Based upon the analysis discussed above, we believe as of September 30, 2016, and December 31, 2015, that we would recover the amortized cost of each fixed maturity security.

Determination of Credit Losses on MBS

As of September 30, 2016, and December 31, 2015, default rates were projected by considering underlying MBS loan performance and collateral type. Projected default rates on existing delinquencies vary between approximately 10% to 100% depending on loan type and severity of delinquency status. In addition, we estimate the potential contributions of currently performing loans that may become delinquent in the future based on the change in delinquencies and loan liquidations experienced in the recent history. Finally, we develop a default rate timing curve by aggregating the defaults for all loans in the pool (delinquent loans, foreclosure and real estate owned and new delinquencies from currently performing loans) and the associated loan-level loss severities.

We use certain available loan characteristics such as lien status, loan sizes and occupancy to estimate the loss severity of loans. Second lien loans are assigned 100% severity, if defaulted. For first lien loans, we assume a minimum of 30% severity with higher severity assumed for investor properties and further adjusted by housing price assumptions. With the default rate timing curve and loan-level loss severity, we derive the future expected credit losses.

Payables for Collateral on Investments

The carrying value of the payables for collateral on investments (in millions) included on our Consolidated Balance Sheets and the fair value of the related investments or collateral consisted of the following:

| | As of September | | As of De | cember | |
|--|-----------------|----------|---------------|----------|--|
| | 30, 2016 | | 31, 2015 | | |
| | Carrying | Fair | Carrying Fair | | |
| | Value | Value | Value | Value | |
| Collateral payable for derivative investments (1) | \$ 2,382 | \$ 2,382 | \$ 1,387 | \$ 1,387 | |
| Securities pledged under securities lending agreements (2) | 239 | 230 | 242 | 231 | |
| Securities pledged under repurchase agreements (3) | 783 | 848 | 673 | 739 | |
| Investments pledged for Federal Home Loan Bank of | | | | | |
| Indianapolis ("FHLBI") (4) | 2,250 | 3,615 | 2,355 | 3,391 | |
| Total payables for collateral on investments | \$ 5,654 | \$ 7,075 | \$ 4,657 | \$ 5,748 | |

- (1) We obtain collateral based upon contractual provisions with our counterparties. These agreements take into consideration the counterparties' credit rating as compared to ours, the fair value of the derivative investments and specified thresholds that if exceeded result in the receipt of cash that is typically invested in cash and invested cash. See Note 5 for additional information.
- ⁽²⁾ Our pledged securities under securities lending agreements are included in fixed maturity AFS securities on our Consolidated Balance Sheets. We generally obtain collateral in an amount equal to 102% and 105% of the fair value of the domestic and foreign securities, respectively. We value collateral daily and obtain additional collateral when deemed appropriate. The cash received in our securities lending program is typically invested in cash and invested cash or fixed maturity AFS securities.
- ⁽³⁾ Our pledged securities under repurchase agreements are included in fixed maturity AFS securities on our Consolidated Balance Sheets. We obtain collateral in an amount equal to 95% of the fair value of the securities, and our agreements with third parties contain contractual provisions to allow for additional collateral to be obtained when necessary. The cash received in our repurchase program is typically invested in fixed maturity AFS securities.
- ⁽⁴⁾ Our pledged investments for FHLBI are included in fixed maturity AFS securities and mortgage loans on real estate on our Consolidated Balance Sheets. The collateral requirements are generally 105% to 115% of the fair value for fixed maturity AFS securities and 155% to 175% of the fair value of mortgage loans on real estate. The cash received in these transactions is primarily invested in cash and invested cash or fixed maturity AFS securities.

Increase (decrease) in payables for collateral on investments (in millions) consisted of the following:

| | For the Nine |
|---|---------------|
| | Months Ended |
| | September 30, |
| | 2016 2015 |
| Collateral payable for derivative investments | \$ 995 \$ 364 |
| Securities pledged under securities lending agreements | (3) 25 |
| Securities pledged under repurchase agreements | 110 319 |
| Investments pledged for FHLBI | (105) 180 |
| Total increase (decrease) in payables for collateral on investments | \$ 997 \$ 888 |
| | |

We have elected not to offset our repurchase agreements and securities lending transactions in our financial statements. The remaining contractual maturities of repurchase agreements and securities lending transactions accounted for as secured borrowings were as follows:

| | As of September 30, 2016 | | | | | | |
|--------------------------------|--------------------------|------------------|--------|---------|----------|--|--|

We accept collateral in the form of securities in connection with repurchase agreements. In instances where we are permitted to sell or re-pledge the securities received, we record the fair value of the collateral received and a related obligation to return the collateral in the financial statements. In addition, we receive securities in connection with securities borrowing agreements that we are permitted to sell or re-pledge. As of September 30, 2016, the fair value of all collateral received that we are permitted to sell or re-pledge was \$175 million. As of September 30, 2016, we have not sold or re-pledge this collateral.

Investment Commitments

As of September 30, 2016, our investment commitments were \$1.4 billion, which included \$727 million of LPs, \$503 million of mortgage loans on real estate and \$186 million of private placement securities.

Concentrations of Financial Instruments

As of September 30, 2016, and December 31, 2015, our most significant investments in one issuer were our investments in securities issued by the Federal Home Loan Mortgage Corporation with a fair value of \$1.7 billion and \$1.8 billion, respectively, or 2% of our invested assets portfolio, and our investments in securities issued by Fannie Mae with a fair value of \$1.2 billion, or 1% of our invested assets portfolio.

As of September 30, 2016, and December 31, 2015, our most significant investments in one industry were our investments in securities in the consumer non-cyclical industry with a fair value of \$14.4 billion and \$12.0 billion, respectively, or 13% and 12%, respectively, of our invested assets portfolio, and our investments in securities in the utilities industry with a fair value of \$14.0 billion and \$12.8 billion, respectively, or 13% and 12%, respectively, of our invested assets portfolio. These concentrations include both AFS and trading securities.

5. Derivative Instruments

We maintain an overall risk management strategy that incorporates the use of derivative instruments to minimize significant unplanned fluctuations in earnings that are caused by interest rate risk, foreign currency exchange risk, equity market risk, default risk, basis risk and credit risk. See Note 1 in our 2015 Form 10-K for a detailed discussion of the accounting treatment for derivative instruments. See Note 6 in our 2015 Form 10-K for a detailed discussion of our derivative instruments and use of them in our overall risk management strategy, which information is incorporated herein by reference. See Note 12 for additional disclosures related to the fair value of our derivative instruments and Note 3 for derivative instruments related to our consolidated VIEs.

We have derivative instruments with off-balance sheet risks whose notional or contract amounts exceed the related credit exposure. Outstanding derivative instruments with off-balance sheet risks (in millions) were as follows:

| | As of Septe | mber 30, 2 | 2016 | As of December 31, 2015 | | |

| Offset to realized gain (loss) | 4 - | 7 - | |
| Offset to interest and debt expense | (4) - | (6) 1 | |

As of September 30, 2016, \$(1) million of the deferred net gains (losses) on derivative instruments in AOCI were expected to be reclassified to earnings during the next 12 months. This reclassification would be due primarily to interest rate variances related to our interest rate swap agreements.

For the nine months ended September 30, 2016 and 2015, there were no material reclassifications to earnings due to hedged firm commitments no longer deemed probable or due to hedged forecasted transactions that had not occurred by the end of the originally specified time period.

Information related to our open credit default swaps for which we are the seller (dollars in millions) was as follows:

- ⁽¹⁾ Represents average credit ratings based on the midpoint of the applicable ratings among Moody's, S&P and Fitch Ratings, as scaled to the corresponding S&P ratings.
- ⁽²⁾ Broker quotes are used to determine the market value of these credit default swaps.
- (3) These credit default swaps were sold to a counterparty of the consolidated VIEs discussed in Note 4 in our 2015 Form 10-K.
- ⁽⁴⁾ Credit default swaps were entered into in order to generate income by providing default protection in return for a quarterly payment.
- ⁽⁵⁾ Sellers do not have the right to demand indemnification or compensation from third parties in case of a loss (payment) on the contract.

Details underlying the associated collateral of our open credit default swaps for which we are the seller if credit risk-related contingent features were triggered (in millions) were as follows:

| | SeptemberDecember | | | |
|---|-------------------|--------|--|--|
| | 30, | 31, | | |
| | 2016 | 2015 | | |
| Maximum potential payout | \$ 85 | \$ 103 | | |
| Less: Counterparty thresholds | - | - | | |
| Maximum collateral potentially required to post | \$ 85 | \$ 103 | | |

Certain of our credit default swap agreements contain contractual provisions that allow for the netting of collateral with our counterparties related to all of our collateralized financing transactions that we have outstanding. If these netting agreements were not in place, we would have been required to post less than \$1 million as of September 30, 2016.

Credit Risk

We are exposed to credit loss in the event of non-performance by our counterparties on various derivative contracts and reflect assumptions regarding the credit or non-performance risk ("NPR"). The NPR is based upon assumptions for each counterparty's credit spread over the estimated weighted average life of the counterparty exposure less collateral held. As of September 30, 2016, the NPR adjustment was less than \$1 million. The credit risk associated with such agreements is minimized by entering into agreements with financial institutions with long-standing, superior performance records. Additionally, we maintain a policy of requiring derivative contracts to be governed by an International Swaps and Derivatives Association ("ISDA") Master Agreement. We are required to maintain minimum ratings as a matter of routine practice in negotiating ISDA agreements. Under some ISDA agreements, our insurance subsidiaries have agreed to maintain certain financial strength or claims-paying ratings. A downgrade below these levels could result in termination of derivative contracts, at which time any amounts payable by us would be dependent on the market value of the underlying derivative contracts. In certain transactions, we and the counterparty have entered into a credit support annex requiring either party to post collateral when net exposures exceed pre-determined thresholds. These thresholds vary by counterparty and credit rating. The amount of such exposure is essentially the net replacement cost or market value less collateral held for such agreements with each counterparty if the net market value is in our favor. As of September 30, 2016, our exposure was \$4 million.

The amounts recognized (in millions) by S&P credit rating of counterparty for which we had the right to reclaim cash collateral or were obligated to return cash collateral were as follows:

| | 1 , | | | As of December 31, 2015 | | | | , | |

6. Federal Income Taxes

The effective tax rate is the ratio of tax expense over pre-tax income (loss). The effective tax rate was 24% and 21% for the three and nine months ended September 30, 2016, respectively. The effective tax rate was 15% and 19% for the three and nine months ended September 30, 2015, respectively. The effective tax rate on pre-tax income from continuing operations was lower than the prevailing corporate federal income tax rate. Differences in the effective rates and the U.S. statutory rate of 35% were the result of certain tax preferred investment income, separate account dividends-received deductions, foreign tax credits and other tax preference items. The effective tax rate on the pre-tax income from continuing operations was higher for the three and nine months ended September 30, 2016, compared to the corresponding periods in 2015. This increase was due primarily to a higher level of pre-tax income that caused the tax preference items to have a less significant impact in 2016, partially offset by higher tax benefits primarily attributable to the release of reserves associated with prior tax years that closed in the third quarter of 2016.

7. Guaranteed Benefit Features

Information on the guaranteed death benefit ("GDB") features outstanding (dollars in millions) was as follows:

| | As of September 30, 2016 (1) | As of December 31, 2015 (1) |
|--|------------------------------------|-----------------------------------|
| Return of Net Deposits | | |
| Total account value | \$ 88,134 | \$ 85,345 |
| Net amount at risk (2) | 807 | 1,201 |
| Average attained age of contract holders | 63 years | 63 years |
| Minimum Return Total account value Net amount at risk (2) Average attained age of contract holders Guaranteed minimum return | \$ 107 22 75 years 5% | \$ 111 24 75 years 5% |
| Anniversary Contract Value Total account value Net amount at risk (2) Average attained age of contract holders | \$ 24,969 745 69 years | \$ 24,659 1,345 69 years |

⁽¹⁾ Our variable contracts with guarantees may offer more than one type of guarantee in each contract; therefore, the amounts listed are not mutually exclusive.

⁽²⁾ Represents the amount of death benefit in excess of the account balance that is subject to market fluctuations.

The determination of GDB liabilities is based on models that involve a range of scenarios and assumptions, including those regarding expected market rates of return and volatility, contract surrender rates and mortality experience. The following summarizes the balances of and changes in the liabilities for GDBs (in millions), which were recorded in future contract benefits on our Consolidated Balance Sheets:

| | For the Nine | | |
|---------------------------------|---------------|--------|--|
| | Months | | |
| | Ended | | |
| | September 30, | | |
| | 2016 | 2015 | |
| Balance as of beginning-of-year | \$ 115 | \$89 | |
| Changes in reserves | 22 | 59 | |
| Benefits paid | (31) | (17) | |
| Balance as of end-of-period | \$ 106 | \$ 131 | |

Variable Annuity Contracts

Account balances of variable annuity contracts, including those with guarantees, (in millions) were invested in separate account investment options as follows:

| | As of | As of |
|-----------------------------------|------------|--------------|
| | September | |
| | 30, | December 31, |
| | 2016 | 2015 |
| Asset Type | | |
| Domestic equity | \$ 50,974 | \$ 48,362 |
| International equity | 19,155 | 18,382 |
| Bonds | 29,022 | 26,492 |
| Money market | 10,774 | 13,057 |
| Total | \$ 109,925 | \$ 106,293 |
| | | |
| Percent of total variable annuity | | |
| separate account values | 99% | 99% |

Secondary Guarantee Products

Future contract benefits and other contract holder funds include reserves for our secondary guarantee products sold through our Life Insurance segment. These UL and VUL products with secondary guarantees represented 35% of total life insurance in-force reserves as of September 30, 2016, and December 31, 2015. UL and VUL products with secondary guarantees represented 35% and 33% of total sales for the three and nine months ended September 30, 2016, respectively, compared to 33% and 32% for the corresponding periods in 2015.

8. Contingencies and Commitments

Regulatory bodies, such as state insurance departments, the SEC, Financial Industry Regulatory Authority and other regulatory bodies regularly make inquiries and conduct examinations or investigations concerning our compliance with, among other things, insurance laws, securities laws, laws governing the activities of broker-dealers, registered investment advisors and unclaimed property laws.

LNC and its subsidiaries are involved in various pending or threatened legal or regulatory proceedings, including purported class actions, arising from the conduct of business both in the ordinary course and otherwise. In some of the matters, very large and/or indeterminate amounts, including punitive and treble damages, are sought. Modern pleading practice in the U.S. permits considerable variation in the assertion of monetary damages or other relief. Jurisdictions may permit claimants not to specify the monetary damages sought or may permit claimants to state only that the amount sought is sufficient to invoke the jurisdiction of the trial court. In addition, jurisdictions may permit plaintiffs to allege monetary damages in amounts well exceeding reasonably possible verdicts in the jurisdiction for similar matters. This variability in pleadings, together with the actual experiences of LNC in litigating or resolving through settlement numerous claims over an extended period of time, demonstrates to management that the monetary relief which may be specified in a lawsuit or claim bears little relevance to its merits or disposition value.

Due to the unpredictable nature of litigation, the outcome of a litigation matter and the amount or range of potential loss at particular points in time is normally difficult to ascertain. Uncertainties can include how fact finders will evaluate documentary evidence and the credibility and effectiveness of witness testimony, and how trial and appellate courts will apply the law in the context of the pleadings or evidence presented, whether by motion practice, or at trial or on appeal. Disposition valuations are also subject to the uncertainty of how opposing parties and their coursel will themselves view the relevant evidence and applicable law.

We establish liabilities for litigation and regulatory loss contingencies when information related to the loss contingencies shows both that it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated. It is possible that some matters could

require us to pay damages or make other expenditures or establish accruals in amounts that could not be estimated as of September 30, 2016.

While the potential future charges could be material in the particular quarterly or annual periods in which they are recorded, based on information currently known by management, management does not believe any such charges are likely to have a material adverse effect on LNC's financial condition.

For some matters, the Company is able to estimate a reasonably possible range of loss. For such matters in which a loss is probable, an accrual has been made. For such matters where a loss is believed to be reasonably possible, but not probable, no accrual has been made. Accordingly, the estimate contained in this paragraph reflects two types of matters. For some matters included within this estimate, an accrual has been made, but there is a reasonable possibility that an exposure exists in excess of the amount accrued. In these cases, the estimate reflects the reasonably possible range of loss in excess of the accrued amount. For other matters included within this estimation, no accrual has been made because a loss, while potentially estimable, is believed to be reasonably possible but not probable. In these cases, the estimate reflects the reasonably possible loss or range of loss. As of September 30, 2016, we estimate the aggregate range of reasonably possible losses to be up to approximately \$50 million.

For other matters, we are not currently able to estimate the reasonably possible loss or range of loss. We are often unable to estimate the possible loss or range of loss until developments in such matters have provided sufficient information to support an assessment of the range of possible loss, such as quantification of a damage demand from plaintiffs, discovery from other parties and investigation of factual allegations, rulings by the court on motions or appeals, analysis by experts and the progress of settlement negotiations. On a quarterly and annual basis, we review relevant information with respect to litigation contingencies and update our accruals, disclosures and estimates of reasonably possible losses or ranges of loss based on such reviews.

Helen Hanks v. The Lincoln Life and Annuity Company of New York ("LLANY") and Voya Retirement Insurance and Annuity Company ("Voya"), filed in the U.S. District Court for the Southern District of New York, No. 16cv6399, is a putative class action that was served on LLANY on August 12, 2016. Plaintiff owns a universal life policy originally issued by Aetna (now Voya) and alleges that (i) Voya breached the terms of the policy when it increased cost of insurance ("COI") rates on plaintiff's policy; and (ii) LLANY, as reinsurer and administrator of Plaintiff's policy, engaged in wrongful conduct related to the COI increase, and was unjustly enriched as a result. Plaintiff seeks to represent all owners of Aetna life insurance policies that were subject to COI rate increases in 2016 and seeks damages on their behalf. We are vigorously defending this matter.

See Note 13 in our 2015 Form 10-K and Note 8 in our Form 10-Q for the quarters ended March 31, 2016, and June 30, 2016, for additional discussion of commitments and contingencies, which information is incorporated herein by reference.

9. Shares and Stockholders' Equity

Common Shares

The changes in our common stock (number of shares) were as follows:

| | For the Three Months Ende September 30 | d | For the Nine Months Ended September 30, | | |
|---|--|-------------|---|--------------|--|
| | 2016 | 2015 | 2016 | 2015 | |
| Common Stock | | | | | |
| Balance as of beginning-of-period | 232,784,691 | 250,918,893 | 243,835,893 | 256,551,440 | |
| Stock issued for exercise of warrants | 16,767 | 188,530 | 54,915 | 1,168,966 | |
| Stock compensation/issued for benefit plans | 46,267 | 40,031 | 716,409 | 2,028,913 | |
| Retirement/cancellation of shares | (4,318,438) | (3,682,523) | (16,077,930) | (12,284,388) | |
| Balance as of end-of-period | 228,529,287 | 247,464,931 | 228,529,287 | 247,464,931 | |
| Common Stock as of End-of-Period | | | | | |
| Basic basis | 228,529,287 | 247,464,931 | 228,529,287 | 247,464,931 | |
| Diluted basis | 231,277,156 | 251,220,934 | 231,277,156 | 251,220,934 | |
| | | | | | |

Our common stock is without par value.

Average Shares

A reconciliation of the denominator (number of shares) in the calculations of basic and diluted earnings (loss) per common share was as follows:

| | For the Three Months Ende September 30 | d | For the Nine Months Ended September 30, | | |
|---|--|----------------|---|----------------|--|
| | 2016 | 2015 | 2016 | 2015 | |
| Weighted-average shares, as used in basic calculation | 231,041,085 | 249,227,641 | 236,374,010 | 252,167,909 | |
| Shares to cover exercise of outstanding warrants | 1,088,717 | 1,219,729 | 1,096,356 | 1,476,038 | |
| Shares to cover non-vested stock | 1,110,342 | 1,229,031 | 1,057,199 | 1,314,445 | |
| Average stock options outstanding during the period | 2,405,396 | 2,646,184 | 2,107,456 | 3,388,172 | |
| Assumed acquisition of shares with assumed proceeds | | | | | |
| from exercising outstanding warrants | (247,909) |) (236,042) | (268,177 |) (275,928) | |
| Assumed acquisition of shares with assumed | | | | | |
| proceeds and benefits from exercising stock | | | | | |
| options (at average market price for the period) | (1,721,612) |) (1,870,146) | (1,525,970 |) (2,424,332) | |
| Shares repurchasable from measured but | | | | | |
| unrecognized stock option expense | (87,623) |) (33,847 | (42,368 |) (53,413) | |
| Average deferred compensation shares | - | 1,028,061 | 1,080,205 | 1,024,369 | |
| Weighted-average shares, as used in diluted calculation | 233,588,396 | 253,210,611 | 239,878,711 | 256,617,260 | |

In the event the average market price of LNC common stock exceeds the issue price of stock options and the options have a dilutive effect to our earnings per share ("EPS"), such options will be shown in the table above.

We have participants in our deferred compensation plans who selected LNC stock as the measure for the investment return attributable to all or a portion of their deferral amounts. For the nine months ended September 30, 2016, and the three and nine months ended September 30, 2015, the effect of settling this obligation in LNC stock ("equity classification") was more dilutive than the scenario of settling in cash ("liability classification"). Therefore, for our EPS calculation for these periods, we added these shares to the denominator and adjusted the numerator to present net income as if the shares had been accounted for under equity classification by removing the mark-to-market adjustment included in net income attributable to these deferred units of LNC stock. The amount of this adjustment was \$1 million for the nine months ended September 30, 2016, and \$7 million and \$6 million for the three and nine months ended September 30, 2015, respectively.

AOCI

The following summarizes the components and changes in AOCI (in millions):

| | For the Nine Months Ended September 30, 2016 2015 |
|--|--|
| Unrealized Gain (Loss) on AFS Securities | |

⁽¹⁾ See "Realized Gain (Loss) Related to Certain Investments" section in Note 4.

- (2) Represents changes in the fair values of certain derivative investments (not including those associated with our variable and indexed annuity and IUL contracts net derivatives results), reinsurance related embedded derivatives and trading securities.
- (3) Represents the net difference between the change in the fair value of the S&P 500 Index ® call options that we hold and the change in the fair value of the embedded derivative liabilities of our indexed annuity and IUL contracts along with changes in the fair value of embedded derivative liabilities related to index call options we may purchase in the future to hedge contract holder index allocations applicable to future reset periods for our indexed annuity products.
- ⁽⁴⁾ Includes the net difference in the change in embedded derivative reserves of our guaranteed living benefits ("GLB") riders and the change in the fair value of the derivative investments we own to hedge the change in embedded derivative reserves on our GLB riders and the benefit ratio unlocking on our GLB and GDB riders, including the cost of purchasing the hedging instruments.
- ⁽⁵⁾ See Note 3 in our 2015 Form 10-K for more information.

11. Stock-Based Compensation Plans

We sponsor stock-based compensation plans for our employees and directors and for the employees and agents of our subsidiaries that provide for the grant of stock options, performance shares (performance-vested shares as opposed to service-vested shares), stock appreciation rights ("SARs"), restricted stock units ("RSUs") and deferred stock units ("DSUs"). We issue new shares to satisfy option exercises.

LNC stock-based awards granted were as follows:

| | 30, | For the Nine Months Ended September 30, |
|---------------------------|-------|--|
| | 2016 | 2016 |
| 10-year LNC stock options | - | 776,895 |
| Performance shares | - | 291,298 |
| RSUs | - | 764,237 |
| Non-employee: | | |
| SARs | - | 63,807 |
| Agent stock options | 160 | 92,310 |
| Director DSUs | 9,642 | 31,233 |

12. Fair Value of Financial Instruments

The carrying values and estimated fair values of our financial instruments (in millions) were as follows:

| GLB reserves embedded derivatives (4) | (1,877 |) (1,877 |) (953 |) (953) |

⁽¹⁾ We have master netting agreements with each of our derivative counterparties, which allow for the netting of our derivative asset and liability positions by counterparty.

⁽²⁾ Includes credit default swaps in an asset position associated with consolidated VIEs.

(3)

The difference between the carrying value and fair value of short-term debt as of September 30, 2016, related to current maturities of long-term debt.

⁽⁴⁾ Portions of our GLB reserves embedded derivatives are ceded to third-party reinsurance counterparties. Refer to Note 5 for additional detail.

Valuation Methodologies and Associated Inputs for Financial Instruments Not Carried at Fair Value

The following discussion outlines the methodologies and assumptions used to determine the fair value of our financial instruments not carried at fair value on our Consolidated Balance Sheets. Considerable judgment is required to develop these assumptions used to measure fair value. Accordingly, the estimates shown are not necessarily indicative of the amounts that would be realized in a one-time, current market exchange of all of our financial instruments.

Mortgage Loans on Real Estate

The fair value of mortgage loans on real estate is established using a discounted cash flow method based on credit rating, maturity and future income. The ratings for mortgages in good standing are based on property type, location, market conditions, occupancy, debt-service coverage, loan-to-value, quality of tenancy, borrower and payment record. The fair value for impaired mortgage loans is based on the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's market price or the fair value of the collateral if the loan is collateral dependent. The inputs used to measure the fair value of our mortgage loans on real estate are classified as Level 2 within the fair value hierarchy.

Other Investments

The carrying value of our assets classified as other investments approximates fair value. Other investments includes primarily LPs and other privately held investments that are accounted for using the equity method of accounting and the carrying value is based on our proportional share of the net assets of the LPs. The inputs used to measure the fair value of our LPs and other privately held investments are classified as Level 3 within the fair value hierarchy. Other investments also includes securities that are not LPs or other privately held investments and the inputs used to measure the fair value of these securities are classified as Level 1 within the fair value hierarchy.

Other Contract Holder Funds

Other contract holder funds include remaining guaranteed interest and similar contracts and account values of certain investment contracts. The fair value for the remaining guaranteed interest and similar contracts is estimated using discounted cash flow calculations as of the balance sheet date. These calculations are based on interest rates currently offered on similar contracts with maturities that are consistent with those remaining for the contracts being valued. As of September 30, 2016, and December 31, 2015, the remaining guaranteed interest and similar contracts carrying value approximated fair value. The fair value of the account values of certain investment contracts is based on their approximate surrender value as of the balance sheet date. The inputs used to measure the fair value of our other contract holder funds are classified as Level 3 within the fair value hierarchy.

Short-Term and Long-Term Debt

The fair value of short-term and long-term debt is based on quoted market prices. The inputs used to measure the fair value of our short-term and long-term debt are classified as Level 2 within the fair value hierarchy.

Financial Instruments Carried at Fair Value

We did not have any assets or liabilities measured at fair value on a nonrecurring basis as of September 30, 2016, or December 31, 2015, and we noted no changes in our valuation methodologies between these periods.

The following summarizes our financial instruments carried at fair value (in millions) on a recurring basis by the fair value hierarchy levels described in "Summary of Significant Accounting Policies" in Note 1 of our 2015 Form 10-K:

| | As of September 30, 2016 | | | | | | |

- ⁽¹⁾ Derivative investment assets and liabilities presented within the fair value hierarchy are presented on a gross basis by derivative type and not on a master netting basis by counterparty.
- ⁽²⁾ Includes credit default swaps in an asset position associated with consolidated VIEs.

The following summarizes changes to our financial instruments carried at fair value (in millions) and classified within Level 3 of the fair value hierarchy. This summary excludes any effect of amortization of deferred acquisition costs ("DAC"), value of business acquired ("VOBA"), deferred sales inducements ("DSI") and deferred front-end loads ("DFEL"). The gains and losses below may include changes in fair value due in part to observable inputs that are a component of the valuation methodology.

⁽¹⁾ The changes in fair value of the interest rate swaps are offset by an adjustment to derivative investments (see Note 5).

(2) Transfers into or out of Level 3 for AFS and trading securities are displayed at amortized cost as of the beginning-of-period. For AFS and trading securities, the difference between beginning-of-period amortized cost and beginning-of-period fair value was included in OCI and earnings, respectively, in the prior period.

- (3) Amortization and accretion of premiums and discounts are included in net investment income on our Consolidated Statements of Comprehensive Income (Loss). Gains (losses) from sales, maturities, settlements and calls and OTTI are included in realized gain (loss) on our Consolidated Statements of Comprehensive Income (Loss).
- ⁽⁴⁾ The changes in fair value of the credit default swaps and contingency forwards are included in realized gain (loss) on our Consolidated Statements of Comprehensive Income (Loss).
- ⁽⁵⁾ Gains (losses) from sales, maturities, settlements and calls are included in realized gain (loss) on our Consolidated Statements of Comprehensive Income (Loss).

The following provides the components of the items included in issuances, sales, maturities, settlements and calls, net, excluding any effect of amortization of DAC, VOBA, DSI and DFEL and changes in future contract benefits, (in millions) as reported above:

Transfers into and out of Level 3 are generally the result of observable market information on a security no longer being available or becoming available to our pricing vendors. For the nine months ended September 30, 2016 and 2015, transfers in and out of Level 3 were attributable primarily to the securities' observable market information no longer being available or becoming available. Transfers into and out of Levels 1 and 2 are generally the result of a change in the type of input used to measure the fair value of an asset or liability at the end of the reporting period. When quoted prices in active markets become available, transfers from Level 2 to Level 1 will result. When quoted prices in active markets become unavailable, but we are able to employ a valuation methodology using significant observable inputs, transfers from Level 1 to Level 2 will result. For the nine months ended September 30, 2016, the transfers between Levels 1 and 2 of the fair value hierarchy were less than \$1 million for our financial instruments carried at fair value. For the nine months ended September 30, 2015, the transfers between Levels 1 and 2 of the fair value hierarchy were \$172 million for our financial instruments carried at fair value, which was attributable to quoted market prices being available.

The following summarizes the fair value (in millions), valuation techniques and significant unobservable inputs of the Level 3 fair value measurements as of September 30, 2016:

| | Fair | Valuation | Significant Unobservable | Assumption or | | |

- ⁽¹⁾ The liquidity/duration adjustment input represents an estimated market participant composite of adjustments attributable to liquidity premiums, expected durations, structures and credit quality that would be applied to the market observable information of an investment.
- (2) The lapse rate input represents the estimated probability of a contract surrendering during a year, and thereby forgoing any future benefits. The range for indexed annuity and IUL contracts represents the lapse rates during the surrender charge period.
- ⁽³⁾ The utilization of guaranteed withdrawals input represents the estimated percentage of contract holders that utilize the guaranteed withdrawal feature.
- ⁽⁴⁾ The utilization factors are applied to the present value of claims or premiums, as appropriate, in the GLB reserve calculation to estimate the impact of inefficient withdrawal behavior, including taking less than or more than the maximum guaranteed withdrawal.
- ⁽⁵⁾ The NPR input represents the estimated additional credit spread that market participants would apply to the market observable discount rate when pricing a contract.
- ⁽⁶⁾ The mortality rate input represents the estimated probability of when an individual belonging to a particular group, categorized according to age or some other factor such as gender, will die.
