- Restricted Stock Unit vesting in four equal annual installments commencing on 3/10/2020. The number of RSUs to be awarded is a function of base pay, a long-term incentive (LTI) percentage and the fair value of an RSU. The fair value of an RSU is calculated as the
- (1) stock price as of the effective date less the present value of Company stock dividends over the vesting period. This calculation requires the input of certain assumptions, including the risk-free interest rate and the expected Company stock dividends. The formula for determining the number of RSUs granted is: number of RSUs = (base pay x LTI%) / RSU fair value.
- (2) The number of options granted is not known at this time. The number is calculated as a function of certain assumptions, including risk-free interest rate, volatility, dividend yield, and expected life. The formula for determining the number of options granted is: number of options = (base pay x LTI%)/option fair value. This Form 4 will be amended to report the number of options granted when that number

- (3) Granted under the issuer's 2010 Equity Incentive Plan, exercisable over four years, with 50% vesting on each of March 10, 2022 and March 10, 2023

Each Performance Share Unit (PSU) represents a contingent right to receive one share of the Company's common stock. The percentage

- (4) of PSUs granted that will actually be earned at the end of the three-year period is based upon the Company's free cash flow growth, earnings before interest and tax (EBIT) margin percent, and market share results over that same period.
