

QUESTAR CORP  
Form 10-Q  
April 30, 2014

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.

For the quarterly period ended March 31, 2014

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934. For the transition period from \_\_\_\_ to \_\_\_\_

(Exact name of registrant as specified in its charter)	Commission File Number:	(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)
Questar Corporation	001-08796	Utah	87-0407509
Questar Gas Company	333-69210	Utah	87-0155877
Questar Pipeline Company	000-14147	Utah	87-0307414

333 South State Street, P.O. Box 45433, Salt Lake City, Utah 84145-0433

(Address of principal executive offices)

Registrants' telephone number, including area code (801) 324-5900

Web site <http://www.questar.com>

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Questar Corporation Yes  No

Questar Gas Company Yes  No

Questar Pipeline Company Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Questar Corporation Yes  No

Questar Gas Company Yes  No

Questar Pipeline Company Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. Do not check non-accelerated filer if a smaller reporting company (Check one).

Questar Corporation	Large accelerated filer <input checked="" type="checkbox"/>	Accelerated filer <input type="checkbox"/>	Non-accelerated filer <input type="checkbox"/>	Smaller reporting company <input type="checkbox"/>
Questar Gas Company	Large accelerated filer <input type="checkbox"/>	Accelerated filer <input type="checkbox"/>	Non-accelerated filer <input checked="" type="checkbox"/>	Smaller reporting company <input type="checkbox"/>
Questar Pipeline Company	Large accelerated filer <input type="checkbox"/>	Accelerated filer <input type="checkbox"/>	Non-accelerated filer <input checked="" type="checkbox"/>	Smaller reporting company <input type="checkbox"/>

Edgar Filing: QUESTAR CORP - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Questar Corporation Yes [ ] No [X]

Questar Gas Company Yes [ ] No [X]

Questar Pipeline Company Yes [ ] No [X]

Indicate the number of shares outstanding of each of the issuers' classes of common stock, as of March 31, 2014.

Questar Corporation without par value 175,145,913

Questar Gas Company \$2.50 per share par value 9,189,626

Questar Pipeline Company \$1.00 per share par value 6,550,843

Questar Gas Company and Questar Pipeline Company, as wholly-owned subsidiaries of a reporting company, meet the conditions set forth in General Instruction H(1)(a) and (b) of Form 10-Q and are therefore filing this form with the reduced disclosure format.

## Edgar Filing: QUESTAR CORP - Form 10-Q

This Quarterly Report on Form 10-Q is a combined report being filed by three separate registrants: Questar Corporation (Questar or the Company), Questar Gas Company and Questar Pipeline Company. Questar Gas Company and Questar Pipeline Company are wholly-owned subsidiaries of Questar Corporation. Separate financial statements for Wexpro Company have not been included since Wexpro is not a registrant. See Note 9 to the accompanying financial statements for a summary of operations by line of business. Information contained herein related to any individual registrant is filed by such registrant solely on its own behalf. Each registrant makes no representation as to information relating exclusively to the other registrants.

Item 1 of Part I of this Quarterly Report on Form 10-Q includes separate financial statements (i.e. statements of income, statements of comprehensive income, balance sheets and statements of cash flows, as applicable) for Questar Corporation, Questar Gas Company and Questar Pipeline Company. The notes accompanying the financial statements are presented on a combined basis for all three registrants. Management's Discussion and Analysis of Financial Condition and Results of Operations included under Item 2 of Part I is presented by line of business.

## PART I—FINANCIAL INFORMATION

QUESTAR CORPORATION  
QUESTAR GAS COMPANY  
QUESTAR PIPELINE COMPANY  
NOTES ACCOMPANYING THE FINANCIAL STATEMENTS  
(Unaudited)

The notes accompanying the financial statements apply to Questar Corporation, Questar Gas Company and Questar Pipeline Company unless otherwise noted.

Note 1 - Nature of Business

Questar Corporation is a Rockies-based integrated natural gas company with three principal complementary and wholly-owned lines of business:

• Questar Gas Company (Questar Gas) provides retail natural gas distribution in Utah, Wyoming and Idaho.

• Wexpro Company (Wexpro) develops and produces natural gas from cost-of-service reserves for Questar Gas customers.

• Questar Pipeline Company (Questar Pipeline) operates interstate natural gas pipelines and storage facilities in the western United States and provides other energy services.

Questar is headquartered in Salt Lake City, Utah. Shares of Questar common stock trade on the New York Stock Exchange (NYSE:STR).

Note 2 - Basis of Presentation of Interim Financial Statements

The interim financial statements contain the accounts of Questar and its wholly-owned subsidiaries. The financial statements were prepared in accordance with U.S. generally accepted accounting principles (GAAP), the instructions for Quarterly Reports on Form 10-Q and SEC Regulations S-X and S-K. All significant intercompany accounts and transactions have been eliminated in consolidation.

The financial statements reflect all normal, recurring adjustments and accruals that are, in the opinion of management, necessary for a fair presentation of financial position and results of operations for the interim periods presented. Interim financial statements do not include all of the information and notes required by GAAP for audited annual financial statements. These financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

The preparation of financial statements and notes in conformity with GAAP requires that management make estimates and assumptions that affect the amounts of revenues, expenses, assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from estimates. The results of operations for the three and 12 months ended March 31, 2014, are not necessarily indicative of the results that may be expected for the year ending December 31, 2014.

Certain reclassifications were made to prior year information to conform to the current year presentation. Questar and Questar Gas reclassified amounts received from customers for the cost of plant removal from accumulated depreciation to a regulatory liability for the prior year. In addition, there were reclassifications on the Questar Condensed Consolidated Statements of Comprehensive Income and Condensed Consolidated Balance Sheets to reflect revised accounting for reclassifications out of accumulated other comprehensive loss related to the Company's pension and other postretirement benefit plans. These reclassifications did not impact net income or cash flows. The Company does not believe these changes are material to prior year financial statements.

Questar uses the equity method to account for its investment in an unconsolidated affiliate where it does not have control, but has significant influence. White River Hub, LLC is a limited liability company and FERC-regulated transporter of natural gas. Questar Pipeline owns 50% of White River Hub, LLC and is the operator. Generally, the investment in White River Hub, LLC on the Company's balance sheets equals the Company's proportionate share of equity reported by White River Hub, LLC. The investment is assessed for possible impairment when events indicate that the fair value of the investment may be below the Company's carrying value. When such a condition is deemed to be other-than-temporary, the carrying value of the investment is written down to its fair value, and the amount of the write-down is included in the determination of net income.

Questar Gas obtains the majority of its gas supply from Wexpro's cost-of-service production and pays Wexpro an operator service fee based on the terms of the Wexpro Agreement. Questar Gas also obtains transportation and storage services from Questar Pipeline. These intercompany revenues and expenses are eliminated in the Questar Consolidated Statements of Income

by reducing revenues and cost of sales. The underlying costs of Wexpro's production and Questar Pipeline's transportation and storage services are disclosed in other categories in the Consolidated Statements of Income, including operating and maintenance expense and depreciation, depletion and amortization expense. During the second and third quarters of the year, a significant portion of the natural gas from Wexpro production is injected into underground storage. This gas is withdrawn from storage as needed during the heating season in the first and fourth quarters. The cost of natural gas sold is credited with the value of natural gas as it is injected into storage and debited as it is withdrawn from storage. The reported balance in consolidated cost of sales may be a negative amount during the second and third quarters because of the entries to record injection of gas into storage and the elimination of intercompany transactions. The details of Questar's consolidated cost of sales are as follows:

	3 Months Ended		12 Months Ended	
	March 31,		March 31,	
	2014	2013	2014	2013
	(in millions)			
Questar Gas

Other cost of sales	0.1	—	0.2	—
Total cost of sales	\$148.2	\$199.7	\$234.4	\$239.3

### Note 3 - Earnings Per Share

Basic earnings per share (EPS) is computed by dividing net income by the weighted-average number of common shares outstanding during the reporting period, which includes vested undistributed restricted stock units (RSUs). Diluted EPS includes the potential increase in the number of outstanding shares that could result from the exercise of in-the-money stock options, the vesting of RSUs with forfeitable dividends and the distribution of performance shares that are part of the Company's Long-Term Stock Incentive Plan (LTSIP), less shares repurchased under the treasury stock method. Restricted shares and RSUs with nonforfeitable dividends are participating securities for the computation of basic earnings per share. The application of the two-class method had an insignificant impact on the calculation of both basic and diluted EPS. A reconciliation of the components of basic and diluted shares used in the EPS calculation follows:

	3 Months Ended		12 Months Ended	
	March 31,		March 31,	
	2014	2013	2014	2013
	(in millions)			
Weighted-average basic common shares outstanding	175.7	175.3	175.6	175.6
Potential number of shares issuable under the Company's LTSIP	0.4	0.8	0.5	0.9
Weighted-average diluted common shares outstanding	176.1	176.1	176.1	176.5

Note 4 - Other Comprehensive Income

Comprehensive income, as reported in Questar's Condensed Consolidated Statements of Comprehensive Income, is the sum of net income as reported in the Questar Consolidated Statements of Income and net other comprehensive income (loss) (OCI). OCI includes recognition of the under-funded position of pension and other postretirement benefit plans, interest rate cash flow hedges, changes in the fair value of long-term investment, and the related income taxes. Income or loss is recognized when the pension and other postretirement benefit (OPRB) costs are accrued, as the Company records interest expense for hedged interest payments and when the long-term investment is sold or otherwise realized.

Details of the changes in the components of consolidated accumulated other comprehensive income (loss) (AOCI), net of income taxes, as reported in Questar's Condensed Consolidated Balance Sheets, are shown in the tables below. The tables also disclose details of income taxes related to each component of OCI.

	Pension and OPRB	Interest rate cash flow hedges	Long-term invest.	Total	Pension and OPRB	Interest rate cash flow hedges	Long-term invest.	Total
	3 Months Ended March 31, 2014 (in millions)				3 Months Ended March 31, 2013			
AOCI at beginning of period	\$(119.0)	\$(22.9 )	\$ 0.1	\$(141.8)	\$(223.2)	\$(23.2 )	\$ 0.1	\$(246.3 )
Reclassified from AOCI <sup>(1)</sup>	4.3	0.2	—	4.5	7.8	0.2	—	8.0
Income taxes								
Reclassified from AOCI <sup>(2)</sup>	(1.7 )	(0.1 )	—	(1.8 )	(2.9 )	(0.1 )	—	(3.0 )
Net other comprehensive income	2.6	0.1	—	2.7	4.9	0.1	—	5.0
AOCI at March 31,	\$(116.4)	\$(22.8 )	\$ 0.1	\$(139.1)	\$(218.3)	\$(23.1 )	\$ 0.1	\$(241.3 )

	Pension and OPRB	Interest rate cash flow hedges	Long-term invest.	Total
	12 Months Ended March 31, 2014 (in millions)			
AOCI at beginning of period	\$(218.3)	\$(23.1 )	\$ 0.1	\$(241.3 )
OCI before reclassifications	135.8	—	(0.1 )	135.7
Reclassified from AOCI <sup>(1)</sup>	29.5	0.5	—	30.0
Income taxes				
OCI before reclassifications	(51.9 )	—	0.1	(51.8 )
Reclassified from AOCI <sup>(2)</sup>	(11.5 )	(0.2 )	—	(11.7 )
Total income taxes	(63.4 )	(0.2 )	0.1	(63.5 )
Net other comprehensive income	101.9	0.3	—	102.2
AOCI at March 31,	\$(116.4)	\$(22.8 )	\$ 0.1	\$(139.1 )

<sup>(1)</sup> Interest rate cash flow hedge amounts are included in their entirety as charges to interest expense on the Consolidated Statements of Income.

<sup>(2)</sup> Income tax reclassifications related to interest rate cash flow hedge amounts are included in their entirety as credits to income taxes on the Consolidated Statements of Income.

Pension and other postretirement benefit AOCI reclassifications are included in the computation of net periodic pension and postretirement benefit costs. See Note 10 for additional details.

Comprehensive income, as reported in Questar Pipeline's Condensed Consolidated Statements of Comprehensive Income, is the sum of net income as reported in the Questar Pipeline Consolidated Statements of Income and net OCI. OCI includes interest rate cash flow hedges and the related income taxes. Income or loss is recognized as the company records interest expense for hedged interest payments. Disclosures above regarding interest rate cash flow hedges, including related income taxes and income statement reclassification effects, apply to Questar Pipeline.

#### Note 5 - Asset Retirement Obligations

Questar records an asset retirement obligation (ARO) along with an increase to the carrying value of the related property, plant and equipment when there is a legal obligation associated with the retirement of a tangible long-lived asset. Questar's AROs apply primarily to abandonment costs associated with gas and oil wells, production facilities and certain other properties. The Company has not recorded AROs on a majority of its long-lived transportation and distribution assets because the Company does not have a legal obligation to restore the area surrounding abandoned assets. The fair value of retirement costs is estimated by Company personnel based on abandonment costs of similar properties available to field operations and depreciated over the life of the related assets. Revisions to estimates result from material changes in the expected timing or amount of cash flows associated with AROs. Income or expense resulting from the settlement of ARO liabilities is included in net gain (loss) from asset sales on the Consolidated Statements of Income. The ARO liability is adjusted to present value each period through an accretion calculation using a credit-adjusted risk-free interest rate. Changes in Questar's AROs from the Condensed Consolidated Balance Sheets were as follows:

	3 Months Ended March 31,	
	2014	2013
	(in millions)	
AROs at beginning of year	\$67.7	\$67.2
Accretion	0.8	0.8
Liabilities incurred	0.4	0.4
Revisions in estimated cash flows	0.4	(6.8)
Liabilities settled	(0.7)	(0.4)
AROs at March 31,	\$68.6	\$61.2

Wexpro collects from Questar Gas and deposits in trust certain funds related to AROs. The funds are recorded as other noncurrent assets and used to satisfy retirement obligations as the properties are abandoned. The accounting treatment of reclamation activities associated with AROs for properties administered under the Wexpro Agreement is defined in a guideline letter between Wexpro and the Utah Division of Public Utilities and the staff of the Wyoming Public Service Commission.

#### Note 6 - Fair Value Measurements

Questar complies with the accounting standards for fair value measurements and disclosures. The standards establish a fair value hierarchy. Level 1 inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability. The Company had no assets or liabilities measured using Level 3 inputs at March 31, 2014, March 31, 2013 or December 31, 2013. Fair value accounting standards also apply to certain nonfinancial assets and liabilities that are measured at fair value on a nonrecurring basis. Questar did not have any such assets or liabilities at March 31, 2014, March 31, 2013 or December 31, 2013.

## Questar

The following table discloses the carrying amount, estimated fair value and level within the fair value hierarchy of certain financial instruments not disclosed in other notes to Questar's financial statements in this Quarterly Report on Form 10-Q:

	Hierarchy Level of Fair Value Estimates	Carrying	Estimated	Carrying	Estimated	Carrying	Estimated
		Amount	Fair Value	Amount	Fair Value	Amount	Fair Value
		Mar. 31, 2014		Mar. 31, 2013		Dec. 31, 2013	
		(in millions)					
Financial assets							
Cash and cash equivalents	1	\$5.6	\$5.6	\$7.2	\$7.2	\$16.0	\$16.0
Long-term investment	1	15.3	15.3	16.1	16.1	17.3	17.3
Financial liabilities							
Short-term debt	1	157.0	157.0	202.0	202.0	276.0	276.0
Long-term debt, including current portion	2	1,246.6	1,357.5	1,100.5	1,260.1	1,247.1	1,310.8

The carrying amounts of cash and cash equivalents and short-term debt approximate fair value. The long-term investment is recorded at fair value and consists of money market and short-term bond index mutual funds held in Wexpro's trust (see Note 5). The fair value of the long-term investment is based on quoted prices for the underlying funds. The fair value of fixed-rate long-term debt is based on the discounted present value of cash flows using the Company's current credit risk-adjusted borrowing rates.

## Questar Gas

The following table discloses the carrying amount, estimated fair value and level within the fair value hierarchy of certain financial instruments not disclosed in other notes to Questar Gas's financial statements in this Quarterly Report on Form 10-Q:

	Hierarchy Level of Fair Value Estimates	Carrying	Estimated	Carrying	Estimated	Carrying	Estimated
		Amount	Fair Value	Amount	Fair Value	Amount	Fair Value
		Mar. 31, 2014		Mar. 31, 2013		Dec. 31, 2013	
		(in millions)					
Financial assets							
Cash and cash equivalents	1	\$1.4	\$1.4	\$2.8	\$2.8	\$8.8	\$8.8
Notes receivable from Questar	1	30.6	30.6	—	—	—	—
Financial liabilities							
Notes payable to Questar	1	—	—	132.3	132.3	17.7	17.7
Long-term debt, including current portion	2	534.5	588.9	386.5	460.0	534.5	568.0

The carrying amounts of cash and cash equivalents approximate fair value. The carrying amounts of notes receivable from and payable to Questar approximate fair value because of their short maturities and market-based interest rates. The fair value of fixed-rate long-term debt is based on the discounted present value of cash flows using Questar Gas's current credit risk-adjusted borrowing rates.

### Questar Pipeline

The following table discloses the carrying amount, estimated fair value and level within the fair value hierarchy of certain financial instruments not disclosed in other notes to Questar Pipeline's financial statements in this Quarterly Report on Form 10-Q:

	Hierarchy Level of Fair Value Estimates	Carrying	Estimated	Carrying	Estimated	Carrying	Estimated
		Amount	Fair Value	Amount	Fair Value	Amount	Fair Value
		Mar. 31, 2014		Mar. 31, 2013		Dec. 31, 2013	
		(in millions)					
Financial assets							
Cash and cash equivalents	1	\$4.9	\$4.9	\$5.4	\$5.4	\$2.7	\$2.7
Notes receivable from Questar	1	46.6	46.6	33.1	33.1	29.4	29.4
Financial liabilities							
Long-term debt	2	458.8	509.4	458.9	537.3	458.9	486.0

The carrying amounts of cash and cash equivalents approximate fair value. The carrying amounts of notes receivable from Questar approximate fair value because of their short maturities and market-based interest rates. The fair value of fixed-rate long-term debt is based on the discounted present value of cash flows using Questar Pipeline's current credit risk-adjusted borrowing rates.

### Note 7 - Derivatives and Hedging

Questar and its subsidiaries may enter into derivative instruments to manage exposure to changes in current and future market interest rates. Questar Pipeline entered into forward starting swaps totaling \$150.0 million in the second and third quarters of 2011 in anticipation of issuing \$180.0 million of notes in December 2011. Settlement of these swaps required payments of \$37.3 million in the fourth quarter of 2011 because of declines in interest rates. These swaps qualified as cash flow hedges and the settlement payments are being amortized to interest expense over the 30-year life of the debt. See the Condensed Consolidated Statements of Comprehensive Income and Note 4 for details regarding reclassifications of AOCI related to deferred interest rate cash flow hedge losses to interest expense for the three and 12 months ended March 31, 2014 and March 31, 2013.

Reclassifications into earnings of amounts reported in AOCI will continue while interest expense is recorded for the hedged interest payments through maturity in 2041. Pre-tax net losses of \$0.5 million are expected to be reclassified from AOCI to the Consolidated Statements of Income in the next 12 months. As of March 31, 2014, the Company was not hedging any exposure to variability in future cash flows of forecasted transactions. There were no derivative assets or liabilities outstanding at March 31, 2014, March 31, 2013 or December 31, 2013.

### Note 8 - Share-Based Compensation

Questar may issue stock options, restricted shares, RSUs and performance shares to certain of its officers, employees and non-employee directors under the LTSIP. Questar recognizes expense over time as the stock options, restricted shares, RSUs and performance shares vest. Total share-based compensation expense amounted to \$3.2 million for the first quarter of 2014 compared to \$3.1 million in 2013. Deferred share-based compensation, representing the unvested value of restricted share and RSU awards, amounted to \$10.9 million at March 31, 2014. For the first quarter, cash flow from income tax benefits in excess of recognized compensation expense amounted to \$0.5 million in 2014 compared to \$1.4 million in 2013. There were 4,037,945 shares available for future grants at March 31, 2014.

There were no unvested stock options at March 31, 2014. No stock options were granted, exercised or forfeited in the first quarter of 2014. Stock option balances under the terms of the LTSIP are summarized below:

Options Outstanding			Options Exercisable		
Range of exercise prices	Number outstanding at March 31, 2014	Weighted-average remaining term in years	Weighted-average exercise price	Number exercisable at March 31, 2014	Weighted-average exercise price
\$7.84 - \$11.40	404,174	1.6	\$10.52	404,174	\$10.52
13.10 - 17.35	313,666	2.3	13.54	313,666	13.54
	717,840	1.9	\$11.84	717,840	\$11.84

Restricted share grants typically vest in equal installments over a three-year period from the grant date. Several grants vest in a single installment after a specified period. The weighted-average remaining vesting period of unvested restricted shares at March 31, 2014, was 9 months. No restricted shares were granted or forfeited in the first quarter of 2014. Transactions involving restricted shares under the terms of the LTSIP are summarized below:

	Restricted Shares Outstanding	Price Range	Weighted-Average Price
Balance at December 31, 2013	392,327	\$15.22 - \$21.53	\$ 18.28
Vested	(212,530 )	15.98 - 21.53	18.60
Balance at March 31, 2014	179,797	\$15.22 - \$21.53	\$ 17.91

Questar may grant RSUs to certain of its officers, employees and non-employee directors under the LTSIP. One share of Questar common stock will be distributed for each RSU at the time of vesting. RSU grants typically vest in equal installments over a three-year period from the grant date. Several grants vest in a single installment after a specified period. The weighted-average remaining vesting period of unvested RSUs at March 31, 2014, was 21 months.

Transactions involving RSUs under the terms of the LTSIP are summarized below:

	RSUs Outstanding	Price Range	Weighted-Average Price
Balance at December 31, 2013	316,268	\$22.17 - \$25.44	\$ 23.62
Granted	346,776	23.60 - 23.63	23.60
Vested	(119,014 )	22.71 - 25.44	23.66
Forfeited	(2,456 )	23.60 - 23.60	23.60
Balance at March 31, 2014	541,574	\$22.17 - \$24.26	\$ 23.60

Questar may grant RSUs with deferred share distributions (deferred RSUs) to certain of its non-employee directors under the LTSIP. Grants of deferred RSUs typically vest in equal installments over a three-year period from the grant date. Several grants vest in a single installment after a specified period. At March 31, 2014, Questar's outstanding deferred RSUs totaled 91,289 with a weighted-average price of \$17.25 per share. The weighted-average remaining vesting period of unvested deferred RSUs at March 31, 2014, was 11 months. The deferred RSU total includes 74,208 units with a weighted-average price of \$15.79 that were fully vested as of March 31, 2014. One share of Questar common stock will be distributed for each vested deferred RSU (including accrued reinvested dividend equivalents) at the time of the grantees' separation from service.

Questar may grant performance shares to certain of its officers under the terms of the LTSIP. The awards are designed to motivate and reward these officers for long-term Company performance and provide an incentive for them to remain with the Company. The target number of performance shares for each officer is subject to adjustment upward or downward based on the Company's total shareholder return relative to a specified peer group of companies over a three-year performance period. Each three-year performance period commences at the beginning of the year of grant.

Distributions of performance shares, if any, take place in the quarter following the conclusion of the performance period so long as such officer was employed by the Company or its affiliates as of the last day of the performance period.

For performance shares granted in 2012 and 2013, half of any award will be distributed in shares of Questar common stock and half in cash. Thereafter, any award will be distributed in shares, with no cash component. For share-settled performance share awards, the grant-date fair value of the awards is amortized to expense over the vesting period. The Monte Carlo simulation

method is used to estimate the grant-date fair value of the performance share awards. The liability associated with awards to be settled in cash is adjusted to its estimated fair value through earnings on a quarterly basis. Equity- and liability-based performance share compensation expense amounted to \$0.7 million in the first quarter of 2014 and \$0.8 million in the first quarter of 2013. The weighted-average remaining vesting period of unvested performance shares at March 31, 2014, was 21 months. Performance share transactions under the terms of the LTSIP are summarized below:

	Target Number of Performance Shares Outstanding	Grant-Date Fair Value Range	Weighted- Average Grant-Date Fair Value
Balance at December 31, 2013	387,879	\$18.23 - \$39.62	\$27.61
Granted	139,611	31.07 - 31.07	31.07
Payout adjustment <sup>(1)</sup>	(76,657)	) 18.23 - 18.23	18.23
Distributed <sup>(1)</sup>	(51,104)	) 18.23 - 18.23	18.23
Forfeited	(5,660)	) 25.42 - 39.62	33.06
Balance at March 31, 2014	394,069	\$25.42 - \$39.62	\$31.80

<sup>(1)</sup> Actual shares and cash distributed were determined by multiplying the target shares by 0.40 to reflect Questar's final total shareholder return ranking among the specified peer companies for the performance period from January 1, 2011 through December 31, 2013.

The above March 31, 2014 balance includes 6,475 vested target performance shares with a weighted-average grant-date fair value of \$30.08 and expected distribution dates ranging from the first quarter of 2015 through the first quarter of 2017.

Certain officers, employees and non-employee directors of former subsidiary QEP Resources held 251,098 Questar stock options with a weighted-average exercise price of \$11.33 per share and a weighted-average remaining life of 2.2 years at March 31, 2014.

#### Note 9 - Operations by Line of Business

Questar's three principal complementary lines of business include Questar Gas, which provides retail natural gas distribution in Utah, Wyoming and Idaho; Wexpro, which develops and produces natural gas from cost-of-service reserves for Questar Gas customers; and Questar Pipeline, which operates interstate natural gas pipelines and storage facilities. Line-of-business information is presented according to senior management's basis for evaluating performance and considering differences in the nature of products, services and regulation, among other factors.

Edgar Filing: QUESTAR CORP - Form 10-Q

Following is a summary of operations by line of business:

	3 Months Ended March 31,		12 Months Ended March 31,	
	2014	2013	2014	2013
	(in millions)			
Revenues from Unaffiliated Customers				
Questar Gas	\$396.3	\$418.3	\$963.2	\$912.0
Wexpro	12.3	10.3	47.1	37.2

Note 10 - Employee Benefits

The Company has a noncontributory defined benefit pension plan covering a majority of its employees and postretirement medical and life insurance plans providing coverage to less than half of its employees. Employees hired or rehired after June 30, 2010 are not eligible for the noncontributory defined benefit pension plan and employees hired or rehired after December 31, 1996, are not eligible for the postretirement medical plan and are not eligible to receive basic life insurance once they retire.

Questar is subject to and complies with minimum-required and maximum-allowed annual contribution levels for its qualified pension plan, as determined by the Employee Retirement Income Security Act and the Internal Revenue Code. The 2014 estimated net cost for the qualified pension plan is \$15.4 million.

The Company also has a nonqualified pension plan that covers a group of management employees in addition to the noncontributory qualified pension plan. The nonqualified pension plan provides for defined benefit payments upon retirement of the management employee, or to the spouse upon death of the management employee, above the benefit limit defined by the Internal Revenue Service for the qualified plan. The nonqualified pension plan is unfunded; claims are paid from the Company's general funds. The 2014 estimated net cost for the nonqualified pension plan is

\$3.7 million.

Components of the qualified and nonqualified net periodic pension cost are listed in the table below:

	3 Months Ended		12 Months Ended	
	March 31,		March 31,	
	2014	2013	2014	2013
	(in millions)			
Service cost	\$3.0	\$3.5	\$13.4	\$13.2
Interest cost	8.4	7.8	31.2	31.4
Expected return on plan assets	(10.6 )	(9.5 )	(39.2 )	(33.6 )
Prior service and other costs	0.1	0.3	0.9	1.1
Recognized net actuarial loss	3.9	6.8	26.0	26.3
Net pension cost	\$4.8	\$8.9	\$32.3	\$38.4

The Company currently estimates a \$2.8 million net cost for postretirement benefits other than pensions in 2014, before accretion of a regulatory liability. Net periodic postretirement benefit cost components are listed in the table below:

	3 Months Ended		12 Months Ended	
	March 31,		March 31,	
	2014	2013	2014	2013
	(in millions)			
Service cost	\$0.2	\$0.2	\$0.7	\$0.8

Net postretirement benefit cost	\$0.9	\$1.4	\$4.8	\$6.3

#### Note 11 - Questar Southern Trails Pipeline Eastern Segment Impairment

During the third quarter of 2013, Questar Pipeline updated its five-year forecast for the eastern segment of Southern Trails Pipeline, which resulted in revised projections of higher operating expenses including right-of-way and pipeline safety costs. Current and projected market rates for natural gas transportation between the San Juan Basin and California markets do not cover these increasing operating expenses. Because of changes in expected cash flows in the third quarter of 2013 and the lack of progress in selling or recontracting this pipeline, Questar Pipeline recorded a noncash impairment of its entire investment in the eastern segment of Southern Trails Pipeline of \$80.6 million, or \$52.4 million after income taxes. Questar Pipeline used a probability-weighted discounted cash flow analysis that included significant inputs such as Questar Pipeline's cost of capital and assumptions regarding future transportation rates and operating costs.

#### Note 12 - Wexpro Acquisition of Producing Properties and Inclusion in Wexpro II Agreement

On September 4, 2013, Wexpro completed the transaction announced in July 2013 to acquire an additional interest in natural gas-producing properties in the Trail Unit of southwestern Wyoming's Vermillion Basin (Trail acquisition). This acquisition was an addition to the company's existing Trail assets, which are governed by the 1981 Wexpro Agreement. In January 2014, the Public Service Commission of Utah and the Wyoming Public Service Commission (the Commissions) approved the inclusion of these properties in the Wexpro II Agreement, effective February 1, 2014. The Wexpro II Agreement is modeled after the terms of the original Wexpro Agreement. Under the Wexpro II Agreement, Wexpro may acquire gas development properties and Questar Gas may submit an application to the Commissions to treat these properties similar to the original Wexpro properties. If the Commissions approve the

applications, the gas will be developed for the benefit of Questar Gas customers. Wexpro will be entitled to a return on the acquisition costs based on Questar Gas's approved cost of capital. Future development investment will earn returns consistent with the original Wexpro Agreement.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following information updates the discussion of Questar's financial condition provided in its 2013 Form 10-K and analyzes the changes in the results of operations between the three and 12 months ended March 31, 2014 and 2013. For definitions of commonly used terms found in this Quarterly Report on Form 10-Q, please refer to the "Glossary of Commonly Used Terms" provided in Questar's 2013 Form 10-K.

### RESULTS OF OPERATIONS

Following are comparisons of net income (loss) by line of business:

	3 Months Ended Mar. 31,			12 Months Ended Mar. 31,		
	2014	2013	Change	2014	2013	Change
	(in millions, except per-share amounts)					
Questar Gas	\$39.6	\$37.0	\$2.6	\$55.4	\$49.2	\$6.2
Wexpro	31.8	26.3	5.5	116.1	105.9	10.2
Questar Pipeline <sup>(1)</sup>	15.7	15.8	(0.1 )	8.1	63.9	(55.8 )
Corporate and other	(2.0 )	(6.2 )	4.2	(6.2 )	(9.3 )	3.1
Net income	\$85.1	\$72.9	\$12.2	\$173.4	\$209.7	\$(36.3 )
Add: after-tax asset impairment charge <sup>(1)</sup>	—	—	—	52.4	—	52.4
Adjusted earnings	\$85.1	\$72.9	\$12.2	\$225.8	\$209.7	\$16.1
Earnings per share - diluted	\$0.48	\$0.41	\$0.07	\$0.98	\$1.19	\$(0.21 )
Add: diluted loss per share attributable to impairment <sup>(1)</sup>	—	—	—	0.29	—	0.29
Adjusted earnings per share - diluted	\$0.48	\$0.41	\$0.07	\$1.27	\$1.19	\$0.08
Weighted-average diluted shares	176.1	176.1	—	176.1	176.5	(0.4 )

<sup>(1)</sup> Impairment of the eastern segment of Questar Pipeline's Southern Trails Pipeline.

Management believes that the above non-GAAP financial measures, indicated by the word "Adjusted" in their captions, provide an indication of the Company's ongoing results of operations due to the one-time nature of the impairment (see Note 11).

### QUESTAR GAS

Questar Gas net income was \$39.6 million in the first quarter of 2014 compared to \$37.0 million in the first quarter of 2013. Net income was \$55.4 million in the 12 months ended March 31, 2014, compared to \$49.2 million in the year-earlier period. Questar Gas, because of the seasonal nature of its business, typically reports income in the first and fourth quarters of the year and losses in the second and third quarters of the year.

Edgar Filing: QUESTAR CORP - Form 10-Q

Following is a summary of Questar Gas financial and operating results:

	3 Months Ended Mar. 31,			12 Months Ended Mar. 31,

Customers at March 31, (in thousands)	953	937	16			

Margin Analysis

Questar Gas margin (revenues minus gas costs) increased \$13.7 million in the first quarter of 2014 compared to the first quarter of 2013, and increased \$22.6 million in the 12 months ended March 31, 2014, compared to the 12 months ended March 31, 2013.

Following is a summary of major changes in Questar Gas margin:

	3 Months 2014 vs. 2013 (in millions)	12 Months 2014 vs. 2013
Customer growth	\$1.7	\$4.2
Customers switching from sales to transportation service	0.8	2.2
Change in rates	2.8	3.1
Infrastructure-replacement cost recovery	0.7	5.2
Demand-side management cost recovery	7.8	8.9
Recovery of gas-cost portion of bad-debt costs	(0.2	) (1.0
Other	0.1	—
Increase	\$13.7	\$22.6

At March 31, 2014, Questar Gas served 952,516 customers, up 1.6% from 937,447 at March 31, 2013. Customer growth increased the margin by \$1.7 million in the first quarter of 2014 and \$4.2 million in the 12 months ended March 31, 2014.

Effective March 1, 2014, Questar Gas increased its rates in Utah by \$7.6 million as a result of a general rate case filed in Utah in July 2013. The order in this rate case authorized an allowed return on equity of 9.85%.

Questar Gas benefits from a conservation enabling (revenue decoupling) tariff. Under this tariff, Questar Gas is allowed to earn a specified revenue for each general service customer per month. Differences between the allowed revenue and the amount billed to customers are recovered from customers or refunded to customers through future rate changes. Because of this tariff, changes in usage per customer do not impact the company's margin. In addition, a weather-normalization adjustment of customer bills offsets the revenue impact of temperature variations.

Questar Gas has an infrastructure cost-tracking mechanism that allows the company to place into rate base and earn on capital expenditures associated with a multi-year natural gas infrastructure-replacement program, and do it upon the completion of each project. Questar Gas recognized \$0.7 million of increased margin due to the infrastructure cost-tracking mechanism in the first quarter of 2014 and \$5.2 million in the 12 months ended March 31, 2014.

Higher recovery of demand-side management (DSM) costs increased Questar Gas margin during the three- and 12-month periods ended March 31, 2014. DSM costs are incurred to promote energy conservation by customers. Changes in the margin contribution from DSM recovery revenues are offset by equivalent changes in program expenses.

#### Cost of Natural Gas Sold

Cost of natural gas sold decreased 12% in the first quarter of 2014, and increased 5% in the 12 months ended March 31, 2014, compared to the same periods of 2013. The decrease in the first quarter 2014 was primarily due to lower volumes resulting from warmer weather. The increase for the 12 months ended March 31, 2014 was due to higher gas prices and higher volumes resulting from customer growth. Questar Gas accounts for purchased-gas costs in accordance with procedures authorized by the Public Service Commission of Utah (PSCU) and the Wyoming Public Service Commission (PSCW). Purchased-gas costs that are different from those provided for in present rates are accumulated and recovered or credited through future rate changes. As of March 31, 2014, Questar Gas had a \$1.9 million over-collected balance in the purchased-gas adjustment account representing amounts recovered from customers in excess of costs incurred.

#### Other Expenses

Operating and maintenance expenses increased 18% in the first quarter of 2014, and increased 7% in the 12 months ended March 31, 2014, compared to the same periods of 2013. These increases included higher DSM costs of \$7.8 million, and \$8.9 million for the three- and 12-month periods, respectively. The DSM costs are for the company's energy efficiency program and are recovered from customers through periodic rate changes. Excluding DSM costs, operating and maintenance expenses decreased 7% in the first quarter of 2014 and decreased 2% in the 12 months ended March 31, 2014, compared to the 2013 periods. General and administrative expenses increased 9% and 3% in the three and 12 months ended March 31, 2014, respectively, compared to the prior year periods due to higher corporate allocated costs. Operating, maintenance, general and administrative expenses per customer, exclusive of DSM costs, were \$142 in the 12 months ended March 31, 2014, compared to \$144 in the 12 months ended March 31, 2013.

Other taxes were essentially flat in the first quarter of 2014 and increased 5% in the 12 months ended March 31, 2014, compared to year-earlier periods due to increased property taxes.

Depreciation and amortization expense increased 9% in the first quarter of 2014 and 7% for the 12 months ended March 31, 2014, compared to the 2013 periods. The higher expense was caused by plant additions driven by customer growth and infrastructure replacements.

#### WEXPRO

Wexpro reported net income of \$31.8 million in the first quarter of 2014, compared to \$26.3 million in the first quarter of 2013, a 21% increase. Wexpro earned \$116.1 million for the 12 months ended March 31, 2014, compared to \$105.9 million for the year-earlier period. Following is a summary of Wexpro financial and operating results:

	3 Months Ended Mar. 31,			12 Months Ended Mar. 31,

Investment base at March 31, (in millions)	\$687.7	\$526.8	\$160.9			

#### Revenues

Wexpro earned a 19.3% after-tax return on its average investment base for the 12 months ended March 31, 2014. Wexpro 2014 operating results benefited from a higher average investment base compared to the prior year periods. Pursuant to the terms of the Wexpro Agreement, Wexpro recovers its costs and receives an after-tax return on its

investment base. Wexpro's investment base includes its costs of acquired properties and commercial wells and related facilities adjusted for working capital and

reduced for deferred income taxes and accumulated depreciation, depletion and amortization. The investment base grew by 31% in the 12 months ended March 31, 2014. The increase was due to investment in commercial wells and the addition of the Trail acquisition properties to the investment base in the first quarter of 2014, partially offset by additional deferred income taxes. Following is a summary of changes in the Wexpro investment base:

	12 Months Ended Mar. 31,	
	2014	2013
	(in millions)	
Beginning investment base	\$526.8	\$492.5
Property acquisitions	103.7	—
Successful development wells	161.8	126.1
Depreciation, depletion and amortization	(86.1	) (75.7
Change in deferred income taxes	(18.5	) (16.1
Ending investment base	\$687.7	\$526.8

Wexpro produced 18.5 Bcf of cost-of-service natural gas for Questar Gas during the first quarter of 2014, up 20% from the first quarter of 2013. Wexpro produced 62.3 Bcf of cost-of-service gas in the 12 months ended March 31, 2014, compared to 57.9 Bcf in the 12 months ended March 31, 2013. Wexpro natural gas production provides about 60% of Questar Gas's annual supply requirements.

Revenues from oil and natural gas liquids (NGL) sales decreased 6% in the first quarter of 2014 compared to the first quarter of 2013, and were up 5% in the 12 months ended March 31, 2014 over the year-earlier period. The decrease for the quarter was due to lower volumes of oil and NGL for which income is shared with Questar Gas customers pursuant to the Wexpro Agreement. The 12-month increase was due to higher prices of shared oil and NGL. Revenues from natural gas sales were primarily attributable to production from the Trail acquisition prior to its February 1, 2014 inclusion in the Wexpro II Agreement. See below and Note 12.

#### Expenses

Operating and maintenance expenses were up 3% in the first quarter of 2014, and 5% in the 12-month period ended March 31, 2014, compared to prior year periods. The increases were due largely to higher production. Lease operating expense per Mcfe was \$0.37 in the first quarter of 2014 compared to \$0.43 in the first quarter of 2013. General and administrative expenses were higher in the three- and 12-month periods ended March 31, 2014, compared to prior year periods. The increases were due to higher employee and corporate allocated costs.

Production and other taxes were higher in the three and 12 months ended March 31, 2014, compared to prior year periods. The variability in production and other taxes is due to changes in the production volumes and the prices of natural gas, oil and NGL.

Depreciation, depletion and amortization expense increased 28% in the first quarter of 2014 and increased 14% in the 12 months ended March 31, 2014, compared to the 2013 periods. The increases were due to higher production volumes and investment in natural gas properties, wells and facilities.

#### Wexpro II

Wexpro and Questar Gas have received approval of the PSCU and PSCW (the Commissions) for a Wexpro II Agreement to add properties under the cost-of-service pricing methodology for the benefit of Questar Gas customers. The agreement is modeled after the terms of the original Wexpro Agreement. Under the Wexpro II Agreement, Wexpro may acquire gas development properties and Questar Gas may submit an application to the Commissions to treat these properties similar to the original Wexpro properties. If the Commissions approve the applications, the gas will be developed for the benefit of Questar Gas customers. Wexpro will be entitled to a return on the acquisition costs based on Questar Gas's approved cost of capital. Future development investment will earn returns consistent with the

original Wexpro Agreement.

Acquisition of Producing Properties and Inclusion in Wexpro II

On September 4, 2013, Wexpro completed the transaction announced in July 2013 to acquire an additional interest in natural gas-producing properties in the Trail Unit of southwestern Wyoming's Vermillion Basin for \$104.3 million, after post-closing adjustments. In January 2014, the Commissions approved a stipulation for inclusion of these properties in the Wexpro II Agreement, effective February 1, 2014. As part of this stipulation, Wexpro agreed to a provision to manage the combined production from the original Wexpro properties and the Trail acquisition to 65% of Questar Gas's annual forecasted demand. Beginning in June 2015 through May 2016 and for each subsequent 12-month period, if the combined annual production

exceeds 65% of the forecasted demand and the cost-of-service price is greater than the Questar Gas purchased-gas price, an amount equal to the excess production times the excess price will be credited back to Questar Gas customers. Wexpro may also sell production to manage the 65% level and credit back to Questar Gas customers the higher of market price or the cost-of-service price times the sales volumes.

#### QUESTAR PIPELINE

Questar Pipeline reported first quarter 2014 net income of \$15.7 million compared with \$15.8 million in the first quarter of 2013. Questar Pipeline earned \$8.1 million in the 12 months ended March 31, 2014, compared to \$63.9 million in the 12 months ended March 31, 2013. The primary driver of the significant decrease in earnings for the 12 months ended March 31, 2014 was a \$52.4 million after-tax write-down of the eastern segment of Southern Trails Pipeline in the third quarter of 2013.

Edgar Filing: QUESTAR CORP - Form 10-Q

Following is a summary of Questar Pipeline financial and operating results:

	3 Months Ended Mar. 31,			12 Months Ended Mar. 31,

NGL average sales price (per bbl)	\$62.18	\$62.64	\$(0.46)	\$58.53	\$58.23	\$0.30

Revenues

As of March 31, 2014, Questar Pipeline had net firm transportation contracts of 5,068 Mdth per day, including 1,020 Mdth per day from Questar Pipeline's 50% ownership of White River Hub, compared with 5,119 Mdth per day as of March 31, 2013. Questar Pipeline earns more revenue from Questar Gas than from any other single customer, with contracts for 916 Mdth per day during the heating season and 841 Mdth per day during off-peak months. The majority of Questar Gas transportation contracts extend through mid-2017. Rockies Express Pipeline has leased capacity on the Questar Overthrust Pipeline for 625

Mdth per day through 2027. Wyoming Interstate Company has contracts on Questar Overthrust Pipeline for 544 Mdth per day with a weighted-average remaining life of 7.2 years. White River Hub's contracts have a weighted-average remaining life of 12.1 years.

Questar Pipeline owns and operates the Clay Basin underground storage complex in eastern Utah. This facility is 100% subscribed under long-term contracts. In addition to Clay Basin, Questar Pipeline owns and operates three smaller aquifer gas storage facilities. Questar Gas has contracted for 26% of firm storage capacity at Clay Basin with contracts expiring in 2017, 2019 and 2020 and 100% of the firm storage capacity at the aquifer facilities with the contracts extending through 2018. Storage revenue was essentially flat in the first quarter of 2014 compared to the first quarter of 2013 and fell 3% for the 12 months ended March 31, 2014 relative to the 2013 period due to an expired park-and-loan contract.

Questar Pipeline charges FERC-approved transportation and storage rates that are based on straight-fixed-variable rate design. Under this rate design, all fixed costs of providing service, including depreciation and return on investment, are recovered through the demand charge. About 95% of Questar Pipeline costs are fixed and recovered through these demand charges. Questar Pipeline's earnings are driven primarily by demand revenues from firm shippers.

Questar Pipeline has three primary sources of NGL revenue. These sources include two major regulated processing facilities (transportation NGL sales) and an unregulated subsidiary that provides third-party processing services (field services NGL sales).

Regulated processing facilities at Clay Basin condition gas to meet pipeline gas-quality specifications. These facilities are part of an agreement that allows Questar Pipeline to recover any shortfall between the NGL revenues and the cost of service for conditioning the gas. Other processing facilities on Questar Pipeline's transmission system are not subject to the Clay Basin gas processing agreement. NGL sales for the regulated operations were flat in the first quarter of 2014 and increased 10% in the 12 months ended March 31, 2014, compared to the prior year periods. The increase in the 12-month period was primarily driven by an 11% increase in volumes.

There were no NGL sales for the unregulated subsidiary in the first quarter of 2014 and sales decreased 85% in the 12 months ended March 31, 2014, compared to the prior year period due to upstream processing.

Energy services revenue was 7% lower in the first quarter of 2014 compared to the first quarter of 2013 and was 14% lower in the 12 months ended March 31, 2014 when compared to 2013 due to lower demand for products and services driven by lower drilling activity in the Rockies.

Periodically, Questar Pipeline sells natural gas to settle gas imbalances. Generally, revenue received from the sale of natural gas approximates cost; however Questar Pipeline realized a \$1.3 million gain on the sale of natural gas in the fourth quarter of 2012.

#### Expenses

Operating and maintenance expenses increased 9% in the first quarter of 2014, and decreased 2% in the 12 months ended March 31, 2014, compared to the corresponding 2013 periods. The increase for the quarter was largely driven by higher maintenance and communication expenses. The decrease in the 12-month period was driven by lower maintenance expense and lower processing product costs. General and administrative expenses decreased 7% in the first quarter of 2014, and decreased 9% in the 12 months ended March 31, 2014, compared to the 2013 periods. The first quarter decrease was due to lower employee costs. The 12-month decrease was primarily due to lower communication expense and consulting fees. Operating, maintenance, general and administrative expenses per dth transported were \$0.09 in the first quarter of 2014 compared to \$0.08 in the first quarter of 2013.

Depreciation and amortization expense decreased 4% in the first quarter and remained unchanged for the 12 months ended March 31, 2014, compared to the 2013 periods. The modest decrease in the first quarter and the flat expense for the 12 months ended March 31, 2014 resulted from lower property, plant and equipment due to the impairment of the eastern segment of Southern Trails Pipeline.

#### Questar Southern Trails Pipeline

Questar Pipeline extended its agreement with an affiliate of Spectra Energy Corp through 2014 to evaluate and potentially recommission the western portion of its Southern Trails Pipeline to its original purpose as a crude oil transport pipeline and to develop a rail terminal to offload crude into the pipeline for transportation to refineries in Southern California. This project continues in the marketing and engineering phase and a decision whether or not to proceed with the development is expected later in 2014. If the decision is made to proceed, the line could be placed in service by late 2016. Questar Pipeline's net book

value of the western segment of Southern Trails Pipeline is approximately \$22 million. Questar Pipeline has evaluated this asset for impairment and does not believe that it is impaired.

During the third quarter of 2013, Questar Pipeline updated its five-year forecast for the eastern segment of Southern Trails Pipeline, which resulted in revised projections of higher operating expenses including right-of-way and pipeline safety costs. Current and projected market rates for natural gas transportation between the San Juan Basin and California markets did not cover these increasing operating expenses over the forecast period. Because of changes in expected cash flows in the third quarter of 2013 and the lack of progress in selling or recontracting this pipeline, Questar Pipeline recorded a noncash impairment of its entire investment in the eastern segment of Southern Trails Pipeline of \$80.6 million, or \$52.4 million after income taxes.

#### Other Consolidated Results

##### Questar Fueling

Other consolidated results include losses from the start-up of Questar Fueling Company (Questar Fueling) operations of \$0.3 million in the first quarter of 2014, \$0.2 million in the first quarter of 2013, \$0.9 million in the 12 months ended March 31, 2014, and \$0.6 million in the 12 months ended March 31, 2013. Questar Fueling began its operation in mid-2012 to provide natural gas fueling infrastructure nationally, with specific focus on the medium- to heavy-duty vehicle market. Questar Fueling placed two facilities in service during 2013 and has contracts to develop several additional facilities.

##### Interest Expense

Consolidated interest expense was 9% higher in the first quarter of 2014 compared to the first quarter of 2013 due to higher long-term debt balances.

##### Income Taxes

Questar's effective combined federal and state income tax rate was 37.1% in the first quarter of 2014 compared to 39.7% in the first quarter of 2013. The higher rate in the first quarter of 2013 was due to adjustments to the 2013 state income taxes for the consolidated Questar return that were in excess of state income taxes calculated on a separate return basis for the operating companies.

##### Retirement Incentive

In 2012 Questar offered a retirement incentive to eligible employees of six months additional salary. Approximately 100 employees accepted this offer and retired in early 2013. The \$4.9 million incentive cost was recognized in the fourth quarter of 2012.

## LIQUIDITY AND CAPITAL RESOURCES

### Operating Activities

Net cash provided by operating activities increased 3% in the first quarter of 2014 compared to the first quarter of 2013 due primarily to higher net income. Net cash provided by operating activities is presented below:

	3 Months Ended March 31,		
	2014	2013	Change
	(in millions)		
Net income	\$85.1	\$72.9	\$12.2
Noncash adjustments to net income	59.9	79.3	(19.4)
Changes in operating assets and liabilities	67.9	53.8	14.1
Net cash provided by operating activities	\$212.9	\$206.0	\$6.9

## Investing Activities

Capital expenditures for the first quarter of 2014 and 2013 and a forecast for calendar year 2014 are presented below:

	3 Months Ended March 31,		Forecast 12 Months Ending December 31,
	2014	2013	2014
	(in millions)		
Questar Gas	\$48.9	\$31.7	\$190
Wexpro	6.9	37.8	100
Questar Pipeline	8.5	14.1	120
Corporate and other	5.4	0.4	30
Total capital expenditures	\$69.7	\$84.0	\$440

Questar Gas's 2014 capital-spending forecast of about \$190 million includes investments to provide service to approximately 16,300 additional customers, distribution-system upgrades and expansions, and infrastructure replacements of about \$65 million. Wexpro expects to spend about \$100 million in 2014 for developmental gas drilling and property acquisitions. Questar Pipeline's 2014 capital-spending forecast is about \$120 million for system expansions and pipeline replacements.

## Financing Activities

In the first quarter of 2014, the Company reduced short-term debt by \$119.0 million from the excess of net cash provided by operating activities over net cash used in investing activities.

Questar issues commercial paper to meet short-term financing requirements. The commercial-paper program is supported by a five-year revolving credit facility with various banks that provides back-up credit liquidity. Credit commitments under the revolving credit facility totaled \$750.0 million at March 31, 2014, with no amounts borrowed. In April 2013, Questar increased the size of its revolving credit facility from \$500.0 million to \$750.0 million and extended its maturity to April 2018. Commercial paper outstanding amounted to \$157.0 million at March 31, 2014, compared with \$202.0 million a year earlier.

In December 2013, Questar Gas issued \$90 million of 30-year notes with an interest rate of 4.78% and \$60 million of 35-year notes with an interest rate of 4.83%. Proceeds from the debt issuance were used to repay existing indebtedness and for general corporate purposes.

The Company believes current credit commitments are adequate for its working capital and short-term financing requirements during 2014. The Company also believes it will have adequate access to long-term capital based on current credit markets and its investment-grade credit ratings.

At March 31, 2014, combined short-term debt, long-term debt and capital lease obligation were 53% and equity was 47% of total capital. The Company does not expect the ratio of debt in the capital structure to materially change over the next several years, except for seasonal variation in short-term debt for working capital requirements.

Questar has approval to repurchase up to 1 million shares of its common stock per year to offset share dilution from shares issued under Company incentive plans. Questar did not repurchase any shares under this program during the first quarter of 2014 or 2013.

## ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Information regarding quantitative and qualitative disclosures about market risk are disclosed in Part I, Item 1A and Part II, Item 7A of the Company's Annual Report on Form 10-K for the year ended December 31, 2013. During the quarter ended March 31, 2014, there were no material changes in quantitative and qualitative disclosures about market risk.

#### Forward-Looking Statements

This quarterly report may contain or incorporate by reference information that includes or is based upon "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements give expectations or forecasts of future events. You can

identify these statements by the fact that they do not relate strictly to historical or current facts. They use words such as "anticipate," "estimate," "expect," "project," "intend," "plan," "believe," and other words and terms of similar meaning in connection with a discussion of future operating or financial performance. In particular, these include statements relating to future actions, prospective services or products, future performance or results of current and anticipated services or products, development efforts, expenses, the outcome of contingencies such as legal proceedings, trends in operations and financial results.

Any or all forward-looking statements may turn out to be wrong. They can be affected by inaccurate assumptions or by known or unknown risks and uncertainties. Many such factors will be important in determining actual future results. These statements are based on current expectations and the current economic environment. They involve a number of risks and uncertainties that are difficult to predict. These statements are not guarantees of future performance. Actual results could differ materially from those expressed or implied in the forward-looking statements. Among factors that could cause actual results to differ materially are:

the risk factors discussed in Part I, Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2013;

- general economic conditions, including the performance of financial markets and interest rates;
- changes in energy commodity prices;
- changes in industry trends;
- actions of regulators;
- changes in laws or regulations; and
- other factors, most of which are beyond the Company's control.

Questar undertakes no obligation to publicly correct or update the forward-looking statements in this quarterly report, in other documents, or on the internet site to reflect future events or circumstances. All such statements are expressly qualified by this cautionary statement.

#### ITEM 4. CONTROLS AND PROCEDURES.

##### Evaluation of Disclosure Controls and Procedures.

The Chief Executive Officers and Chief Financial Officer of Questar, Questar Gas and Questar Pipeline have evaluated the effectiveness of the disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of March 31, 2014. Based on such evaluation, such officers have concluded that, as of March 31, 2014, Questar's, Questar Gas's and Questar Pipeline's disclosure controls and procedures are effective.

##### Changes in Internal Controls.

There were no changes in Questar's, Questar Gas's and Questar Pipeline's internal controls over financial reporting that occurred during the quarter ended March 31, 2014, that have materially affected, or are reasonably likely to materially affect, Questar's, Questar Gas's and Questar Pipeline's internal control over financial reporting.

## PART II—OTHER INFORMATION

## ITEM 1. LEGAL PROCEEDINGS.

Information regarding reportable legal proceedings is contained in Part I, Item 3 of Questar's Annual Report on Form 10-K for the year ended December 31, 2013, and is set forth in Note 9 to the financial statements included in Item 8 of Part II of that report. No legal proceedings became reportable during the quarter ended March 31, 2014, and there have been no material developments during such quarter regarding any previously reported legal proceedings, which have not been previously disclosed.

## ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

Questar had no unregistered sales of equity securities during the first quarter of 2014. The following table sets forth the Company's purchases of common stock registered under Section 12 of the Securities Exchange Act of 1934 that occurred during the quarter ended March 31, 2014:

Period	Total number of shares purchased <sup>(1)</sup>	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs <sup>(2)</sup>	Maximum number of shares that may yet be purchased under the plans or programs
Month #1 January 1, 2014 through January 31, 2014	—	\$—	—	1,000,000
Month #2 February 1, 2014 through February 28, 2014	—	\$—	—	1,000,000
Month #3 March 1, 2014 through March 31, 2014	118,591	\$23.80	—	1,000,000
Total	118,591	\$23.80	—	

<sup>(1)</sup> There were no share purchases in Month #1 and Month #2 and 118,591 shares purchased in Month #3 in conjunction with tax-payment elections under the Company's Long-term Stock Incentive Plan and rollover shares used in exercising stock options.

<sup>(2)</sup> Questar's Board of Directors authorized Questar to acquire, or cause to be acquired after January 1, 2013, up to 1 million shares of common stock, on an annual basis, in the name and on behalf of the Company in the open market and negotiated purchases from time to time, in accordance with all applicable Security and Exchange rules.

ITEM 6. EXHIBITS.

The following exhibits are being filed as part of this report:

Exhibits No. Exhibits

EXHIBIT 10 - MATERIAL CONTRACTS

Questar Corporation

- 10.1\* Questar Corporation Clawback Policy (Exhibit 10.1 to Questar Corporation's Current Report on Form 8-K filed February 14, 2014).
- 10.2\* Utah Public Service Commission Order approving settlement stipulation to include property under Wexpro II Agreement (Exhibit 99.1 to Questar Corporation's Current Report on Form 8-K filed March 24, 2014).
- 10.3\* Wyoming Public Service Commission Memorandum Opinion, Findings and Order approving settlement stipulation to include property under Wexpro II Agreement (Exhibit 99.2 to Questar Corporation's Current Report on Form 8-K filed March 24, 2014).
