INDEPENDENT AUDITORS' REPORT

The Occidental Petroleum Corporation  
Pension and Retirement Plan Administrative Committee:

We have audited the accompanying statements of net assets available for benefits of the Occidental Petroleum Corporation Savings Plan (the Plan) as of December 31, 2002 and the related statement of changes in net assets available for plan benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit. Other auditors, who have ceased operations, were engaged to audit the financial statements of the Plan as of December 31, 2001 whose report dated May 13, 2002 expressed an unqualified opinion on those statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and

Edgar Filing: OCCIDENTAL PETROLEUM CORP /DE/ - Form 11-K

perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2002 and the changes in its net assets available for benefits for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purpose of forming an opinion on the 2002 basic financial statements taken as a whole. The supplemental schedule, schedule H - line 4i - schedule of assets (held at end of year) is presented for the purposes of additional analysis and is not a required part of the 2002 basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the 2002 basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the 2002 basic financial statements taken as a whole.

OCCIDENTAL PETROLEUM CORPORATION  
SAVINGS PLAN

Notes to Financial Statements

December 31, 2002 and 2001

(1) DESCRIPTION OF THE PLAN

The following description of the Occidental Petroleum Corporation Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) GENERAL

The Plan is a defined contribution plan generally available to certain employees of Occidental Petroleum Corporation (OPC, Oxy, or the Employer), a Delaware corporation, and participating subsidiaries (collectively, the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

(b) PLAN ADMINISTRATION

The Plan is administered by the OPC Pension and Retirement Trust and Investment Committee (PARTAIC) as to investment decisions and by the OPC Pension and Retirement Plan Administrative Committee (PARPAC) as to all matters except investment decisions (these two committees are herein referred to collectively as the Committees). Members of the Committees are selected by the board of directors of OPC. The Committees have been given all powers necessary to carry out their respective duties, including, but not limited to, the power to administer and interpret the Plan and to answer all questions affecting eligibility of participants. The Northern Trust Company (the Trustee) is the trustee and custodian of a trust fund, which holds all of the assets of the Plan.

(c) CONTRIBUTIONS

PARTICIPANT CONTRIBUTIONS - Participants may contribute up to 15% of compensation (as defined) to the Plan on a before- or after-tax basis, or in any combination thereof, subject to certain Internal Revenue

## Edgar Filing: OCCIDENTAL PETROLEUM CORP /DE/ - Form 11-K

Code (IRC) limitations. Effective June 1, 2002, this deferral percentage was increased to 34% for participants whose annual compensation is less than \$85,000.

EMPLOYER CONTRIBUTIONS - For non-collective bargaining employees, the Company contributed 100% of a participant's contribution up to the first 6% of compensation. For collective bargaining employees, the Company contributed 50%, 75%, or 100% as negotiated by their respective unions, of the first 6% of eligible compensation that a participant contributed to the Plan. All Employer contributions are invested in the Occidental Petroleum Corporation Common Stock Fund (the Oxy Stock Fund).

### (d) PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings, and charged with an allocation of administrative expenses and investment losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4

(Continued)

## OCCIDENTAL PETROLEUM CORPORATION SAVINGS PLAN

### Notes to Financial Statements

December 31, 2002 and 2001

### (e) VESTING

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Generally, a participant is 20% vested for each year of service and is 100% vested after five years of credited service.

### (f) PARTICIPANT LOANS

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of: (i) \$50,000 reduced by the highest outstanding loan balance during the preceding 12 months, (ii) 50% of their account balance, or (iii) a loan amount which would require payroll deductions for repayment equal to 25% of the participant's base compensation. Loan terms range from 1 to 5 years for general-purpose loans and 6 to 10 years for primary residence loans. The loans are secured by the balance in the participant's account and bear interest at a fixed rate equal to the Western Federal Credit Union's loan rate for a loan secured by a member's deposit account at the time the loan is approved. Interest rates ranged from 3.5% to 7.0% on loans outstanding as of December 31, 2002. Principal and interest is paid ratably through monthly payroll deductions.

### (g) DISTRIBUTIONS

## Edgar Filing: OCCIDENTAL PETROLEUM CORP /DE/ - Form 11-K

Generally, on termination of service for any reason other than death, participants with an account balance greater than \$5,000, may elect to receive the vested portion of their account under one of the following distribution options: (i) one lump sum payment, (ii) straight-life annuity, (iii) 10-year term certain annuity, (iv) joint and survivor annuity, (v) partial cash distribution, or (vi) deferral of payment with certain restrictions. Upon termination of service due to death, the beneficiary may elect to receive the vested interest in the form of (i), (ii), (iii), or (vi) only. A participant whose vested account balance is \$5,000 or less, may receive distributions only under options (i), (v), or (vi). Participants may elect to receive distributions from their account balance in the Oxy Stock Fund in cash or in shares of OPC common stock.

### (h) FORFEITED ACCOUNTS

Forfeited nonvested accounts are used to reduce Employer contributions. During 2002, Employer contributions were reduced by approximately \$286,000 from forfeited nonvested accounts. Unallocated forfeitures at December 31, 2002 were not significant to the financial statements.

### (i) INVESTMENT OPTIONS

The Plan offers various investment options which are managed by several outside investment managers. Upon enrollment in the Plan, participants may direct their contributions, in 1% increments, in any of the investment options offered at the time. Participants may change their investment options daily. Participants should refer to the Plan fund description pamphlet for a complete description of the investment options and for the detailed composition of each investment fund.

## OCCIDENTAL PETROLEUM CORPORATION SAVINGS PLAN

### Notes to Financial Statements

December 31, 2002 and 2001

### (j) PLAN AMENDMENTS

During 2001, the Plan was amended to reflect the various tax law changes enacted under the Uruguay Round Agreements Act, the Uniformed Services Employment and Reemployment Rights Act of 1994, Small Business Job Protection Act of 1996, Taxpayer Relief Act of 1997 and the IRS Restructuring Act and Reform Act of 1998 (GUST). The Plan was also amended to reflect the transfers of certain participant accounts from the Occidental Chemical Corporation Savings and Investment Plan to the Plan, as well as changes to Plan investment options.

Effective June 1, 2002, the Plan was amended to designate the Matching Account held under the Plan as an employee stock ownership plan and to allow participants the option to have dividends re-invested in the Oxy Stock Fund or distributed in the form of cash.

### (k) PLAN MERGERS

## Edgar Filing: OCCIDENTAL PETROLEUM CORP /DE/ - Form 11-K

Effective February 28, 2002, the Oxy Vinyls, LP Savings Plan was merged into the Plan. As a result of the merger, the Plan became a multiple employer plan.

### (2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### (a) BASIS OF ACCOUNTING

The financial statements of the Plan are prepared under the accrual method of accounting. Certain reclassifications have been made to the 2001 financial statements to be consistent with the current year presentation.

#### (b) USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

#### (c) INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's investments are stated at fair value except for the investments in guaranteed investment contracts, which are valued at contract value (notes 3 and 5). Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. The unit price of common or commingled trust funds is based on the current market values of the underlying assets of the fund. Participant loans are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Realized gains and losses on investments are based on the market value of the asset at the beginning of the year or at the time of purchase for assets purchased during the year and the related fair value on the day the investments are sold during the year. Unrealized gains and losses of investments are based on the market value of the assets at the beginning of the year or at the time of purchase for

### OCCIDENTAL PETROLEUM CORPORATION SAVINGS PLAN

assets purchased during the year, and the related fair value at the end of the year. Net realized and unrealized depreciation in fair value of investments is reflected in the accompanying statement of changes in net assets available for benefits as "net depreciation in

fair value of investments."

(d) PAYMENT OF BENEFITS

Benefits are recorded when paid.

(e) RISKS AND UNCERTAINTIES

The Plan invests in various types of investment securities, including mutual funds, actively managed funds, and the Oxy Stock Fund. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Additionally, many mutual funds invest in the securities of foreign companies, which involves special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than similar types of securities of comparable U.S. companies.

Derivative financial instruments are used by the Plan's equity and fixed income investment managers to remain fully invested in the asset class and to hedge currency risk. Leveraging of the Plan assets and speculation are prohibited.

As of December 31, 2002 and 2001, approximately 39% and 35% of total Plan investments, respectively, were invested in the Oxy Stock Fund.

(5) GUARANTEED INVESTMENT CONTRACTS

The Stable Value Fund includes deposits for guaranteed investment contracts (GICs) and synthetic GICs. The Plan's investments in GICs are included in the statements of net assets available for benefits at contract value (which represents contributions made under the contract plus earnings, less withdrawals and administrative expenses) because they are fully benefit responsive. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

8

(Continued)

OCCIDENTAL PETROLEUM CORPORATION  
SAVINGS PLAN

Notes to Financial Statements

December 31, 2002 and 2001

Withdrawals resulting from events initiated by the Company, such as Plan termination, are not typically considered participant-initiated transactions. With such an event, some of the contracts contain contingencies that could lead to withdrawal penalties. However, since no such events are being contemplated at this time or the withdrawals resulting from such an event will be funded outside the contracts' provisions, these "potential" limitations do not jeopardize the contract value reporting for these investments.

Contract value for the synthetic GICs is determined based on the fair value of the assets underlying the synthetic GICs. The difference between the fair value of the assets underlying the synthetic GICs and the contract value of the GICs is the value of the "wrapper" contract issued by a third party. The fair value for GICs varies based on the type of contract held (e.g., security-backed investments and general account investments). Fair value of the general account investment type GICs is derived by comparing the contract value, on a duration basis, to the yield curve. Fair value of the nonparticipating synthetic GICs is determined by comparing each contract, on a duration basis, to a Treasury yield curve at year end, plus 40 basis points. Fair value for security-backed investment contracts was derived from outside sources, based on the type of investment held.

GICs provide a fixed crediting interest rate and a financially responsible entity guarantees liquidity at contract value prior to maturity for any and all participant-initiated benefit withdrawals, loans, or transfers arising under the terms of the Plan, which allows access for all participants.

Synthetic GICs operate similarly to a separate account guaranteed investment contract, except that the assets are placed in a trust with ownership by the Plan rather than a separate account of the issuer and a financially responsible third party issues a wrapper contract that provides that participants can, and must, execute Plan transactions at contract value.

Edgar Filing: OCCIDENTAL PETROLEUM CORP /DE/ - Form 11-K

Inasmuch as trust assets are owned by the Plan, the wrapper contract and the assets in trust are separately valued and disclosed. The wrapper contract is valued at the difference between the fair value of the trust assets and the contract value attributable by the wrapper to such assets. When considered together, the trust assets and the wrapper contract are reported at the wrapper contract value because participants are guaranteed return of principal and accrued interest.

During 2002 and 2001, the average yield earned on amounts invested in the GICs was 5.52% and 6.35%, respectively. As of December 31, 2002 and 2001, the average crediting interest rate on such contracts was 4.97% and 6.10%, respectively. There were no valuation reserves recorded to adjust contract amounts during the Plan years. Crediting rate resets are applied to specific investment contracts, as determined at

the time of purchase. The reset values for security backed investment rates are a function of contract value, market value, yield, and duration. (6) INVESTMENT IN MASTER TRUST

The plan's investment assets include a convertible bond fund in which other plans also invest. This convertible bond fund is managed by Advent Capital Management and is one of the master trust investment accounts (Advent MTIA) in the OPC Master Retirement trust. At December 31, 2002 and 2001, the Plan's investment in the assets of the Advent MTIA represented an undivided interest of approximately 10% and 7%, respectively.

The following table presents the aggregate fair value of investments held by, and investment income earned by, the Advent MTIA, in which the Plan owns an undivided interest, as stated above (dollar amounts in thousands):

(7) RELATED-PARTY TRANSACTIONS

The Trustee and OPC are parties in interest as defined by ERISA. The Trustee invests certain plan assets in its Collective Short-Term Investment Fund and the Oxy Stock Fund. Such transactions qualify as party-in-interest

transactions permitted by the Department of Labor regulations. Expenses paid by the Plan to the Trustee for the year ended December 31, 2002 were insignificant.

(8) PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Employer contributions.

(9) TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated February 24, 2003, that the Plan and related trust are designed in accordance with applicable sections of the IRC. However, the Committees, using their judgment and based on the advice of their advisors, believe that the Plan is currently designed and operating in a manner that preserves its tax-qualified status.
