We are offering to exchange 6 % senior notes due 2014 that we have registered under the Securities Act of 1933 (the “exchange notes”) for all outstanding 6 % senior notes due 2014 (the “outstanding notes”). In this prospectus we refer to the exchange notes and the outstanding notes collectively as the notes.

We hereby offer to exchange all outstanding notes that are validly tendered and not withdrawn for an equal principal amount of exchange notes which are registered under the Securities Act of 1933.

*

The exchange offer will expire at 5:00 p.m. New York City time, on June 3, 2004, unless extended.

The exchange notes are substantially identical to the outstanding notes, except that some of the transfer restrictions and registration rights relating to the outstanding notes will not apply to the exchange notes.

We will not receive any proceeds from the exchange offer.

*

No public market currently exists for the exchange notes.

Investing in the exchange notes involves risks that we describe in the **Risk Factors section beginning on page 8.**

Each broker-dealer that receives exchange notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such exchange notes. The letter of transmittal states that by so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act of 1933. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of exchange notes received in exchange for outstanding notes where such outstanding notes were acquired by such broker-dealer as a result of market-making activities or other trading activities. We have agreed that, for a period of 180 days after the date the exchange offer expires, we will make this prospectus available to any broker-dealer for use in connection with any such resale. See Plan of Distribution.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved the exchange notes or passed on the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is May 3, 2004.

We have not authorized anyone to give any information or represent anything to you other than the information in this prospectus. You must not rely on any unauthorized information or representations. We are not making an offer to sell the exchange notes in any jurisdiction where the offer or sale is not permitted.

SUMMARY

This summary highlights selected information we have included in or incorporated by reference into this prospectus. It does not contain all information that may be important to you. More detailed information about the notes, our business and our financial and operating data is contained elsewhere in this prospectus. We encourage you to read this prospectus, including the section entitled Risk Factors, and the financial statements and notes thereto incorporated by reference in this prospectus, in their entirety before making an investment decision.

Company Overview

We are one of the world's largest copper and gold mining and production companies in terms of reserves and production. We are also one of the lowest cost copper producers in the world, after taking into account credits for related gold and silver production. Our principal asset is the Grasberg mine, which we discovered in 1988. Grasberg contains the largest single gold reserve and one of the largest copper reserves of any mine in the world.

Our principal operating subsidiary is PT Freeport Indonesia, a limited liability company organized under the laws of the Republic of Indonesia and incorporated as a corporation in Delaware. We own approximately 90.64 percent of PT Freeport Indonesia, and the Government of Indonesia owns the remaining approximate 9.36 percent. PT Freeport Indonesia mines, processes and explores for ore containing copper, gold and silver. It operates in the remote highlands of the Sudirman Mountain Range in the province of Papua (formerly Irian Jaya), Indonesia, which is on the western half of the island of New Guinea. PT Freeport Indonesia markets its concentrates containing copper, gold and silver worldwide.

PT Freeport Indonesia conducts its operations pursuant to an agreement, called a Contract of Work, with the Government of Indonesia. The Contract of Work allows us to conduct extensive mining, production and exploration activities in a 24,700-acre area that we call Block A, which contains the Grasberg mine, and governs our rights and obligations relating to taxes, exchange controls, royalties, repatriation and other matters. The Contract of Work also allows us to explore for minerals in an approximately 500,000 acre area that we call Block B. Exploration activities in Block B have been suspended since 2000. The term of our Contract of Work expires in 2021, but we can extend it for two 10-year periods subject to Indonesian government approval, which cannot be withheld or delayed unreasonably.

Another of our operating subsidiaries, PT Irja Eastern Minerals, which we refer to as Eastern Minerals, holds an additional Contract of Work in Papua covering approximately 1.2 million acres and conducts exploration activities (which have been suspended since 2000) under this Contract of Work. We have a 100 percent ownership interest in Eastern Minerals.

In 1996, we established joint ventures with Rio Tinto plc, which is an international mining company with headquarters in London, England. Rio Tinto conducts mining operations in North America, South America, Asia, Europe and southern Africa. One of our joint ventures with Rio Tinto covers PT Freeport Indonesia's mining operations in Block A. This joint venture gives Rio Tinto, through 2021, a 40 percent interest in certain assets and in production above specified levels from operations in Block A and, after 2021, a 40 percent interest in all production in Block A. Under our joint venture arrangements, Rio Tinto also has a 40 percent interest in PT Freeport Indonesia's Contract of Work and Eastern Minerals' Contract of Work. In addition, Rio Tinto has the option to participate in 40 percent of any of our future exploration projects in Papua. To date, Rio Tinto has elected to participate in all exploration projects, including PT Nabire Bakti Mining.

Under another joint venture agreement through PT Nabire Bakti Mining, we conduct exploration activities (which have been suspended since 2000) in an area covering approximately 0.5 million acres in five parcels contiguous to PT Freeport Indonesia's Block B and one of Eastern Minerals' blocks.

At December 31, 2003, PT Freeport Indonesia's share of proven and probable recoverable reserves totaled 39.7 billion pounds of copper and 46.6 million ounces of gold, all of which are located in Block A. Our approximate 90.64 percent equity share of those proven and probable recoverable reserves totaled 36.0 billion pounds of copper and 42.2 million ounces of gold. In this prospectus, we refer to (1) aggregate reserves, which means all reserves for the operations we manage, (2) PT Freeport Indonesia's share of reserves, which means the reserves net of Rio Tinto's interest under our joint venture arrangements and which are the reserves reported as those of our operations in our consolidated financial statements and (3) our equity share of reserves, which means PT Freeport Indonesia's share net of the 9.36 percent

interest that the Government of Indonesia owns.

In July 2003, we acquired the 85.7 percent ownership interest in PT Puncakjaya Power owned by affiliates of Duke Energy Corporation. Puncakjaya Power is the owner of assets supplying power to PT Freeport Indonesia's operations, including the 3x65 megawatt coal-fired power facilities.

We also smelt and refine copper concentrates in Spain and market the refined copper products through our wholly owned subsidiary, Atlantic Copper, S.A. In addition, PT Freeport Indonesia has a 25 percent interest in PT Smelting, an Indonesian company that operates a copper smelter and refinery in Gresik, Indonesia. These smelters play an important role in our concentrate marketing strategy, as approximately one-half of PT Freeport Indonesia's concentrate production has been sold to Atlantic Copper and PT Smelting over the last several years.

For further information regarding the Contracts of Work, our reserves, our joint venture agreements, our smelting and refining operations, and other aspects of our operations, we refer you to the section of our annual report on Form 10-K for the year ended December 31, 2003 entitled "Business and Properties," which is incorporated by reference in this prospectus.

Our principal executive offices are located at 1615 Poydras Street, New Orleans, Louisiana 70112 and our telephone number is (504) 582-4000. Our web site is www.fcx.com. The information on our web site is not part of this prospectus.

| The Initial Offering of Outstanding Notes | We sold the outstanding notes on February 3, 2004 to J.P. Morgan Securities Inc., Merrill Lynch, Pierce, Fenner & Smith Incorporated, Bear, Stearns & Co. Inc., Banc One Capital Markets, Inc., Hibernia Southcoast Capital, Inc., HSBC Securities (USA) Inc. and Scotia Capital (USA) Inc. We collectively refer to those parties in this prospectus as the Initial Purchasers. The Initial Purchasers subsequently resold the outstanding notes to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended, and to non-U.S. Persons within the meaning of Regulation S under the Securities Act. |
| Registration Rights Agreement | Simultaneously with the initial sale of the outstanding notes, we entered into a registration rights agreement for the exchange offer. In the registration rights agreement, we agreed, among other things, to use our reasonable best efforts to complete a registered exchange offer for the outstanding notes or cause to become effective a shelf registration statement for resales of the outstanding notes. The exchange offer is intended to satisfy your rights under the registration rights agreement. After the exchange offer is complete, you will no longer be entitled to any exchange or registration rights with respect to your outstanding notes. |
| The Exchange Offer | We are offering to exchange the exchange notes which have been registered under the Securities Act for your outstanding notes. In order to be exchanged, an outstanding note must be properly tendered and accepted. All outstanding notes that are validly tendered and not validly withdrawn will be exchanged. Resales

We believe that the exchange notes issued in the exchange offer may be offered for resale, resold and otherwise transferred by you without compliance with the registration and prospectus delivery provisions of the Securities Act provided that:

*

the exchange notes are being acquired in the ordinary course of your business;

*

you are not participating, do not intend to participate, and have no arrangement or understanding with any person to participate, in the distribution of the exchange notes issued to you in the exchange offer; and

*

you are not an affiliate of ours.

If any of these conditions are not satisfied and you transfer any exchange notes issued to you in the exchange offer without delivering a prospectus meeting the requirements of the Securities Act or without an exemption from registration of your exchange notes from these requirements, you may incur liability under the Securities Act. We will not assume, nor will we indemnify you against, any such liability.

Each broker-dealer that is issued exchange notes in the exchange offer for its own account in exchange for outstanding notes that were acquired by that broker-dealer as a result of market-making or other trading activities, must acknowledge that it will deliver a prospectus meeting the requirements of the Securities Act in connection with any resale of the exchange notes. A broker-dealer may use this prospectus for an offer to resell, resale or other retransfer of the exchange notes issued to it in the exchange offer.

Expiration Date

The exchange offer will expire at 5:00 p.m., New York City time, on June 3, 2004, unless we decide to extend the expiration date.

Conditions to the Exchange Offer

The exchange offer is subject to customary conditions, including that it does not violate applicable law or any applicable interpretation of the staff of the SEC.

| Risk Factors | <p>See Risk Factors and the other information in this prospectus for a discussion of the factors you should carefully consider before deciding to invest in the notes.</p> |

RISK FACTORS

You should carefully consider the risk factors set forth below, as well as the other information appearing in this prospectus and the documents to which we refer you, including those incorporated by reference in this prospectus, before making an investment decision with respect to the notes. Realization of any of the following risks could have a material adverse effect on our business, financial condition, cash flow and results of operations.

Risks Related to the Exchange Offer

Your notes will not be accepted for exchange if you fail to follow the exchange offer procedures and, as a result, your notes will continue to be subject to existing transfer restrictions and you may not be able to sell your notes.

We will not accept your outstanding notes for exchange if you do not follow the exchange offer procedures. We will issue exchange notes as part of this exchange offer only after a timely receipt of your outstanding notes, a properly completed and duly executed letter of transmittal and all other required documents. Therefore, if you want to tender your outstanding notes, please allow sufficient time to ensure timely delivery. If we do not receive your outstanding notes, letter of transmittal and other required documents by the expiration date of the exchange offer, we will not accept your outstanding notes for exchange. If there are defects or irregularities with respect to your tender of outstanding notes, we will not accept such notes for exchange. We are under no duty to give notification of defects or

irregularities with respect to the tenders of outstanding notes for exchange.

If you do not exchange your notes, your notes will continue to be subject to the existing transfer restrictions and you may not be able to sell your notes.

We did not register the outstanding notes, nor do we intend to do so following the exchange offer. Outstanding notes that are not tendered will therefore continue to be subject to the existing transfer restrictions and may be transferred only in limited circumstances under the securities laws. If you do not exchange your outstanding notes, you will lose your right to have such notes registered under the federal securities laws. As a result, if you hold outstanding notes after the exchange offer, you may not be able to sell your outstanding notes.

The reoffering and resale of the outstanding notes is subject to significant legal restrictions.

The outstanding notes have not been registered under the Securities Act of 1933, as amended, or any state securities laws. As a result, holders of outstanding notes may reoffer or resell outstanding notes only if:

*

there is an applicable exemption from the registration requirement of the Securities Act of 1933 and applicable state laws that applies to the circumstances of the offer and sale, or

*

we file a registration statement and it becomes effective.

Risks Related to the Notes

There is no public market in the United States for the exchange notes, and we cannot assure you that a market for the exchange notes will develop in the United States.

Although the outstanding notes are eligible for trading in the PORTAL market, the exchange notes will be a new class of securities for which there is no established public trading market in the United States, and no assurance can be given as to:

*

the liquidity of any such market that may develop;

*

the ability of holders of the notes to sell their notes; or

*

the price at which the holders of the notes would be able to sell their notes.

If such a market were to exist, the notes could trade at prices that may be higher or lower than their principal amount or purchase price, depending on many factors, including:

*

prevailing interest rates and the markets for similar securities;

*

the market price of our common stock;

*

general economic conditions; and

*

our financial condition, historic financial performance and future prospects.

The notes are unsecured and effectively subordinated to our existing and future secured indebtedness and the liabilities of our subsidiaries.

The notes are our senior unsecured obligations, junior in right of payment to all of our existing and future secured debt, to the extent of the collateral, including our obligations under our bank credit facilities. In addition, the notes will be effectively junior in right of payment to the indebtedness and other liabilities of our subsidiaries. For further information, see the section of this prospectus entitled "Description of the Notes - Ranking."

In the event that we are declared bankrupt, become insolvent or are liquidated or reorganized, any debt that ranks ahead of the notes will be entitled to be paid in full from our assets before any payment may be made with respect to the notes. Holders of the notes will participate ratably with all holders of our other senior unsecured indebtedness, based upon the respective amounts owed to each holder or creditor, in our remaining assets. In any of the foregoing events, we cannot assure you that there will be sufficient assets to pay amounts due on the notes. As a result, holders of notes may receive less, ratably, than holders of our secured indebtedness.

A financial failure by any entity in which we have an interest may hinder the payment of the notes.

A financial failure by any entity in which we have an interest could affect payment of the notes if a bankruptcy court were to substantively consolidate that entity with our subsidiaries and/or with us. If a bankruptcy court substantively consolidated an entity in which we have an interest with our subsidiaries and/or with us, the assets of each entity so consolidated would be subject to the claims of creditors of all entities so consolidated. This could expose our creditors, including holders of the notes, to potential dilution of the amount ultimately recoverable because of the larger creditor base. Furthermore, forced restructuring of the notes could occur through the "cram-down" provisions of the U.S. bankruptcy code. Under this provision, the notes could be restructured over the note holders' objections as to their general terms, primarily interest rate and maturity.

We may not have the ability to finance the change of control repurchase offer required by the indenture governing the notes.

Upon certain change of control events, as that term is defined in the indenture, including a change of control caused by an unsolicited third party, we will be required to make an offer in cash to repurchase all or any part of each holder's notes at a price equal to 101 percent of the principal amount thereof, plus accrued interest. The source of funds for any such repurchase would be our available cash or cash generated from operations or other sources, including borrowings, sales of equity or funds provided by a new controlling person or entity. We cannot assure you that sufficient funds will be available at the time of any change of control event to repurchase all tendered notes pursuant to this requirement. Our failure to offer to repurchase notes, or to repurchase notes tendered, following a change of control will result in a default under the indenture, which could lead to a cross-default under our bank credit facilities

and under the terms of our other indebtedness. In addition, our bank credit facilities prohibit us from making any such required repurchases. Prior to repurchasing the notes upon a change of control event, we must either repay outstanding indebtedness under our bank credit facilities or obtain the consent of the lenders under those facilities. If we do not obtain the required consents or repay our outstanding indebtedness under our bank credit facilities, we would remain prohibited from offering to repurchase the notes. For further information, see the section of this prospectus entitled "Description of the Notes - Repurchase at the Option of Holder."

Risks Related to our Business

Because our primary operating assets are located in the Republic of Indonesia, our business may be adversely affected by Indonesian political, economic and social uncertainties, in addition to the usual risks associated with conducting business in a foreign country.

Indonesia continues to face political, economic and social uncertainties, including separatist movements and civil and religious strife in a number of provinces. In particular, several separatist groups are opposing Indonesian rule over the province of Papua, where our mining operations are located, and have sought political independence for the province.

In response to demands for political independence, new Indonesian regional autonomy laws became effective January 1, 2001. However, the manner in which the new laws will be implemented and the degree of political and economic autonomy that they may bring to individual provinces, including Papua, is uncertain and is a current issue in Indonesian politics. Moreover, in Papua there have been sporadic attacks on civilians by separatists and sporadic but highly publicized conflicts between separatists and the Indonesian military. Social, economic and political instability in Papua could materially and adversely affect us if this instability results in damage to our property or interruption of our activities.

Maintaining a good working relationship with the Indonesian government is important to us because all of our mining operations are located in Indonesia and are conducted pursuant to Contracts of Work with the Indonesian government.

Accordingly, we are also subject to the usual risks associated with conducting business in and with a foreign country, including the risk of forced modification of existing contracts; changes in the country's laws and policies, including those relating to taxation, royalties, imports, exports and currency, and the risk of having to submit to the jurisdiction of a foreign court or arbitration panel or having to enforce the judgment of a foreign court or arbitration panel against a sovereign nation within its own territory. In addition, we are subject to the risk of expropriation, and our insurance does not cover losses caused by expropriation.

Our current credit ratings have an impact on the availability and cost of capital to us. Because our primary business operations are in Indonesia, reductions in the sovereign credit rating of Indonesia have historically had an adverse effect on our credit ratings, and we believe that this correlation is likely to continue.

Social, economic and political instability in Papua could materially and adversely affect us if this instability results in damage to our property or interruption of our activities.

On August 31, 2002, three people were killed and 11 others were wounded in an ambush by a group of unidentified assailants. The assailants shot at several vehicles transporting international contract teachers from our school in Tembagapura, their family members, and other contractors to PT Freeport Indonesia on the road near Tembagapura, the mining town where the majority of PT Freeport Indonesia's personnel reside. The identity of the assailants remains unknown. Some press reports have indicated that members of the military may be responsible for the attack, but military officials have denied these allegations. Other press reports have indicated that Papuan separatists may be responsible for the attack, but representatives of the separatists have denied these allegations. We, the U.S. government, the central Indonesian government, the Papuan provincial and local governments, and leaders of the local people residing in the area of our operations condemned the attack. Indonesian authorities and the U.S. Federal Bureau of Investigation continue to investigate the incident and we are supporting and cooperating fully with the investigations.

On October 12, 2002, a bombing killed over 200 people in the Indonesian province of Bali, which is 1,500 miles west of our mining and milling operations. Indonesian authorities arrested 35 people in connection with this bombing and 29 of those arrested have been tried and convicted. On August 5, 2003, 12 people were killed and over 100 others were injured by a car bomb detonated outside of the JW Marriott Hotel in Jakarta, Indonesia. A terror suspect will stand trial in Jakarta and face dual charges of involvement in this incident and the October 12, 2002 bombing. Press reports state that Indonesian police blame both attacks on international terrorist organizations. Our mining and milling operations were not interrupted by the August 31, 2002, October 12, 2002, or August 5, 2003 incidents.

We cannot predict whether there will be additional incidents similar to the recent shooting or bombings. If there were to be additional separatist, terrorist or other violence in Indonesia, it could materially and adversely affect our business and profitability in ways that we cannot predict at this time.

In addition to the usual risks encountered in the mining industry, we face additional risks because our operations are located on difficult terrain in a very remote area.

Our mining operations are located in steeply mountainous terrain in a very remote area in Indonesia. Because of these conditions, we have had to overcome special engineering difficulties and develop extensive infrastructure facilities. In addition, the area receives considerable rainfall, which has led to periodic floods and mudslides. The mine site is also in an active seismic area and has experienced earth tremors from time to time. In addition to these special risks, we are also subject to the usual risks associated with the mining industry, such as the risk of encountering unexpected geological conditions that may result in cave-ins and flooding of mine areas. Our insurance may not sufficiently cover an unexpected natural or operating disaster.

On October 9, 2003, a slippage of material occurred in a section of the Grasberg open pit, resulting in eight fatalities. On December 12, 2003, a debris flow involving a relatively small amount of loose material occurred in the same section of the open pit resulting in only minor property damage. All material involved in the affected mining areas has been removed. The events caused us to alter our short term mine sequencing plans, which is adversely affecting our near-term production. While we expect to resume normal production activities in the second quarter of 2004, no assurance can be given that these events will not adversely affect production over the longer term or that similar events will not occur in the future. As a result of the fourth quarter slippage and debris flow events, PT Freeport Indonesia notified its copper concentrate customers that it was declaring force majeure under the terms of its contracts as it would be unable to satisfy its annual sales and delivery commitments. No assurance can be given that any concentrate customers will not challenge the declaration of force majeure or assert claims for the failure to sell and deliver copper concentrates.

The terrorist attacks in the United States on September 11, 2001, the potential for additional future terrorist acts and other recent events have created economic and political uncertainties that could materially and adversely affect our business and the prices of our securities.

Terrorist attacks and other recent events have caused uncertainty in the world's financial and insurance markets and may significantly increase global political, economic and social instability, including in Indonesia. In addition to the Bali and the JW Marriott Hotel bombings, there have been anti-American demonstrations in certain sections of Indonesia reportedly led by radical Islamic activists. Radical activists have also threatened to attack foreign interests and have called for the expulsion of United States and British citizens and companies from Indonesia.

It is possible that further acts of terrorism may be directed against the United States domestically or abroad, and such acts could be directed against properties and personnel of companies such as ours. The attacks and the resulting

economic and political uncertainties, including the potential for further terrorist acts, have caused our insurance premiums to increase significantly. Moreover, while our property and business interruption insurance covers damages to insured property directly caused by terrorism, this insurance does not cover damages and losses caused by war.

Terrorism and war developments may materially and adversely affect our business and profitability and the prices of our securities in ways that we cannot predict at this time.

Our profitability can vary significantly with fluctuations in the market prices of copper and gold.

Our revenues are derived primarily from the sale of copper concentrates, which also contain significant quantities of gold and silver, and from the sale of copper cathodes, anodes, wire rod and wire. Although we sell most of our copper concentrates under long-term contracts, the selling price is based on world metal prices at or near the time of shipment and delivery.

Copper and gold prices fluctuated widely in 2002 and 2003. During 2002, the daily closing prices on the London spot market ranged from 64 cents to 77 cents per pound for copper and \$278 to \$349 per ounce for gold. During 2003, the daily closing prices on the London spot market ranged from 70 cents to \$1.05 per pound for copper and \$320 to \$417 per ounce for gold.

World copper prices have historically fluctuated widely and are affected by numerous factors beyond our control, including:

*

the strength of the United States economy and the economies of other industrialized and developing nations;

*

available supplies of copper from mine production and inventories;

*

sales by holders and producers of copper;

*

demand for industrial products containing copper; and

*

speculation.

World gold prices also have historically fluctuated widely and are affected by numerous factors beyond our control, including:

*

the strength of the United States economy and the economies of other industrialized and developing nations;

*

global or regional political or economic crises;

*

the relative strength of the United States dollar and other currencies;

*

expectations with respect to the rate of inflation;

*

interest rates;

*

sales of gold by central banks and other holders;

*

demand for jewelry containing gold; and

*

speculation.

Any material decrease in market prices of copper or gold would materially and adversely affect our results of operations and financial condition. See the section of our annual report on Form 10-K for the year ended December 31, 2003 entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations Disclosures about Market Risks - Commodity Price Risk" which is incorporated by reference in this prospectus for an analysis of the effect on our revenues and net income of changes in copper and gold prices.

Our Contracts of Work are subject to termination if we do not comply with our contractual obligations, and if a dispute arises, we may have to submit to the jurisdiction of a foreign court or arbitration panel.

PT Freeport Indonesia's Contracts of Work and other Contracts of Work in which we have an interest were entered into under Indonesia's 1967 Foreign Capital Investment Law, which provides guarantees of remittance rights and protection against nationalization. Our Contracts of Work can be terminated by the Government of Indonesia if we do not satisfy our contractual obligations, which include the payment of royalties and taxes to the government and the satisfaction of certain mining, environmental, safety and health requirements. Indonesian government officials have periodically raised questions regarding our compliance with Indonesian environmental laws and regulations and the terms of the Contracts of Work. In order to address these questions, the Indonesian government formed a fact-finding team in 2000 that reviewed our compliance with all aspects of PT Freeport Indonesia's Contract of Work. When or whether the Indonesian government will release any report on its investigation is uncertain. In addition, we cannot assure you that the Indonesian government's report, if and when it is released, will conclude that we are complying with all of the provisions of PT Freeport Indonesia's Contract of Work.

Moreover, in recent years, certain government officials and others in Indonesia have questioned the validity of contracts entered into by the Government of Indonesia prior to October 1999 (*i.e.*, during the Suharto regime), including PT Freeport Indonesia's Contract of Work, which was signed in December 1991. We cannot assure you that the validity of, or our compliance with the Contracts of Work will not be challenged for political or other reasons. PT Freeport Indonesia's Contracts of Work and our other Contracts of Work require that disputes with the Indonesian government be submitted to international arbitration. Notwithstanding that provision, if a dispute arises under the

Contracts of Work, we face the risk of having to submit to the jurisdiction of a foreign court or arbitration panel, and if we prevail in such a dispute, we will face the additional risk of having to enforce the judgment of a foreign court or arbitration panel against Indonesia within its own territory.

Any suspension of required activities under our Contracts of Work requires the consent of the Indonesian government.

Our Contracts of Work permit us to suspend certain contractually required activities, including exploration, for a period of one year by making a written request to the Indonesian government. These requests are subject to the approval of the Indonesian government and are renewable annually. If we do not request a suspension or are denied a suspension, then we are required to continue our activities under the Contract of Work or potentially be declared in default. Moreover, if a suspension continues for more than one year for reasons other than force majeure and the Indonesian government has not approved such continuation, then the government would be entitled to declare a default under the Contract of Work.

With the approval of the Indonesian government in 2001, we suspended our field exploration activities outside of Block A due to safety and security issues and uncertainty relating to a possible conflict between our mining and exploration rights in certain forest areas covered by the Contracts of Work and an Indonesian law enacted in 1999 prohibiting open-pit mining in forest preservation areas. We cannot predict when we will be able to resume our exploration activities in these areas. We expect to continue to seek renewals of these suspensions for each of the suspended areas if required.

Our mining operations create difficult and costly environmental challenges, and future changes in environmental laws, or unanticipated environmental impacts from our operations, could require us to incur increased costs.

Mining operations on the scale of our operations in Papua involve significant environmental risks and challenges. Our primary challenge is to dispose of the large amount of crushed and ground rock material, called tailings, that results from the process by which we physically separate the copper, gold and silver bearing materials from the ore that we mine. Our tailings management plan uses the river system near our mine to transport the tailings to the lowlands where the tailings and natural sediments are deposited in a controlled area contained within a levee system that will be reclaimed and revegetated. We incurred aggregate costs relating to tailings management of \$8.3 million in 2003, \$7.0 million in 2002 and \$9.7 million in 2001.

Another major environmental challenge is managing overburden, which is the rock that must be moved aside in the mining process in order to reach the ore. In the presence of air, water and naturally occurring bacteria, some overburden can cause acid rock drainage, or acidic water containing dissolved metals which, if not properly managed, can have a negative impact on the environment.

Certain Indonesian governmental officials have from time to time raised issues with respect to our tailings and overburden management plans, including a suggestion that we implement a pipeline system rather than our river deposition system for tailings disposal. Because our mining operations are remotely located in steep mountainous terrain and in an active seismic area, a pipeline system would be costly, difficult to construct and maintain, and more prone to catastrophic failure. For these reasons, we do not believe that a pipeline system is practical.

We anticipate that we will continue to spend significant financial and managerial resources on environmental compliance. In addition, changes in Indonesian environmental laws or unanticipated environmental impacts from our operations could require us to incur significant unanticipated costs.

The volume and grade of the reserves we recover and our rates of production may be more or less than we anticipate.

Our reserve amounts are determined in accordance with established mining industry practices and standards, but are merely estimates of the mineral deposits that can be recovered economically and legally. In addition, our ore bodies may not conform to standard geological expectations. Because ore bodies do not contain uniform grades of minerals, our metal recovery rates will vary from time to time, which will result in variations in the volumes of minerals that we can sell from period to period. Some of our reserves may become unprofitable to develop if there are unfavorable long-term market price fluctuations in copper and gold, or if there are significant increases in our operating or capital costs. In addition, our exploration programs may not result in the discovery of additional mineral deposits that we can mine profitably.

We do not expect to mine all of our reserves before the initial term of our Contract of Work expires.

All of our current proven and probable reserves, including the Grasberg deposit, are located in Block A. The initial term of our Contract of Work covering these reserves expires at the end of 2021. We can extend this term for two successive 10-year periods, subject to the approval of the Indonesian government, which under our Contract of Work cannot be withheld or delayed unreasonably. Our reserves reflect estimates of minerals that can be recovered through the end of 2041 (*i.e.*, through the expiration of the two 10-year extensions) and our current mine plan has been developed, and our operations are based on the assumption that we will receive the two 10-year extensions. As a result, we will not mine all of our reserves during the current term of our Contract of Work, and there can be no assurance that the Indonesian government will approve the extensions. Prior to the end of 2021, we expect to mine approximately 48 percent of aggregate proven and probable recoverable ore at December 31, 2003, representing approximately 62 percent of PT Freeport Indonesia's share of recoverable copper reserves and approximately 72 percent of its share of recoverable gold reserves.

Servicing our debt will require a significant amount of cash, and our ability to generate sufficient cash depends on many factors, some of which are beyond our control.

Our ability to make payments on and to refinance our maturing debt depends on our ability to generate sufficient cash flow. This ability, to a significant extent, is subject to commodity prices and general economic, financial, regulatory, political and other factors that are beyond our control. In addition, our ability to borrow funds in the future to service our debt will depend on meeting the financial covenants in our bank credit facility, our 10 % senior notes due 2010, our 6 % senior notes due 2014 and other debt agreements we may have in the future. Future borrowings may not be available to us under our bank credit facility or from the capital markets in amounts sufficient to enable us to pay our obligations as they mature or to fund other liquidity needs. As a result, we may need to refinance all or a portion of our debt on or before maturity. Any inability to generate sufficient cash flow or refinance our debt on favorable terms could materially and adversely affect our financial condition.

Covenants in our bank credit facility impose restrictions on us.

Although we currently have no amounts outstanding under our bank credit facility, our bank credit facility:

*

restricts the repurchase of, and payment of dividends on, certain classes of our capital stock under certain circumstances;

*

limits, among other things, our ability to:

* incur additional indebtedness;

* make investments;

* engage in transactions with affiliates; and

* create liens on our assets; and

*

requires us to maintain specified financial ratios and satisfy financial condition tests.

Events beyond our control, including changes in general economic and business conditions, may affect our ability to satisfy these covenants, which could result in a default. If an event of default occurs, the banks could declare any amounts outstanding together with accrued interest, to be immediately due and payable. An event of default under our bank credit facility may also give rise to an event of default under our other existing and future debt agreements.

Covenants in our 10 % senior notes due 2010 and 6 % senior notes due 2014 also impose restrictions on us.

Our 10 % senior notes and our 6 % senior notes limit, among other things, our ability to:

*

pay dividends on our class B common stock and repurchase and redeem certain classes of our capital stock;

*

incur additional indebtedness;

*

make investments;

*

engage in transactions with affiliates; and

*

create liens on our assets.

Movements in foreign currency exchange rates or interest rates could negatively affect our operating results.

All of our revenues and significant costs are denominated in U.S. dollars. However, some of our costs, assets and liabilities are denominated in Indonesian rupiah, Australian dollars or euros. As a result, we are generally less profitable when the U.S. dollar weakens against these foreign currencies.

The rupiah/U.S. dollar daily closing exchange rate ranged from 8,124 to 9,074 rupiah per U.S. dollar during 2003, and on December 31, 2003, the closing exchange rate was 8,437 rupiah per U.S. dollar compared with 8,940 rupiah per U.S. dollar on December 31, 2002. The Australian dollar/U.S. dollar and euro/U.S. dollar exchange rates fluctuated substantially in 2002 and 2003. During 2003, the Australian dollar/U.S. dollar daily closing exchange rate ranged from \$0.56 to \$0.75 per Australian dollar and the euro/U.S. dollar daily closing exchange rate ranged from \$1.04 to \$1.26 per euro. On December 31, 2003 and 2002, the closing exchange rates were \$0.75 per Australian dollar and \$1.26 per euro and \$0.56 per Australian dollar and \$1.05 per euro, respectively.

From time to time, we have in the past and may in the future implement currency hedges intended to reduce our exposure to changes in foreign currency exchange rates. However, our hedging strategies may not be successful, and any of our unhedged foreign exchange payment requirements will continue to be subject to market fluctuations. In addition, our bank credit facility are based on fluctuating interest rates. Accordingly, an increase in interest rates could adversely affect our results of operations and financial condition. See the section of our annual report on Form 10-K for the year ended December 31, 2003 entitled Management's Discussion and Analysis of Financial Condition and Results of Operations Disclosures about Market Risks Foreign Currency Exchange Risk which is incorporated by reference in this prospectus for an analysis of the effect on our operating costs of changes in exchange rates.

Because we are a holding company, our ability to pay our debts depends upon the ability of our subsidiaries to pay us dividends and to advance us funds. In addition, our ability to participate in any distribution of our subsidiaries assets is generally subject to the prior claims of the subsidiaries' creditors.

Because we conduct business primarily through PT Freeport Indonesia, our major subsidiary, and other subsidiaries, our ability to pay our debts depends upon the earnings and cash flow of PT Freeport Indonesia and our other subsidiaries and their ability to pay us dividends and to advance us funds. Contractual and legal restrictions applicable to our subsidiaries could also limit our ability to obtain cash from them. Our rights to participate in any distribution of our subsidiaries' assets upon their liquidation, reorganization or insolvency would generally be subject to the prior claims of the subsidiaries' creditors, including any trade creditors and preferred shareholders.

Arthur Andersen LLP, our former auditors, audited certain financial information included in this prospectus. In the event such financial information is later determined to contain false or misleading statements, you may be unable to recover damages from Arthur Andersen LLP.

Arthur Andersen LLP completed its audit of our financial statements for the year ended December 31, 2001 and issued its report with respect to such financial statements on February 8, 2002. Subsequently, Arthur Andersen was convicted of obstruction of justice for activities relating to its previous work for Enron Corp.

In July 2002, our board of directors, at the recommendation of our audit committee, approved the appointment of Ernst & Young LLP as our independent public accountants to audit our financial statements for fiscal year 2002. Ernst & Young replaced Arthur Andersen, which had served as our independent auditors since 1988. Ernst & Young has not audited any period before 2002. We had no disagreements with Arthur Andersen on any matter of accounting principle or practice, financial statement disclosure or auditing scope or procedure. Arthur Andersen audited the financial statements as of and for the year ended December 31, 2001, that we incorporate by reference into this offering memorandum. We incorporate by reference these financial statements in reliance on the authority of Arthur Andersen as experts in giving said reports. Arthur Andersen has stopped conducting business before the SEC and has limited assets available to satisfy the claims of creditors. As a result, you may be limited in your ability to recover damages from Arthur Andersen under federal or state law if it is later determined that there are false statements contained or incorporated by reference into this offering memorandum relating to or contained in financial data audited by Arthur Andersen.

Our mandatorily redeemable preferred stock was classified as debt effective July 1, 2003. SFAS No. 150 does not allow restatement of prior periods. See the section of our annual report on Form 10-K for the year ended December 31, 2003, entitled Management's Discussion and Analysis of Financial Condition and Results of Operations and Note 1 to our consolidated financial statements for the year ended December 31, 2003, which are incorporated by reference in this prospectus.

(5) Includes \$24.0 million at December 31, 2003, \$96.9 million at December 31, 2002 and \$141.9 million at December 31, 2001 of U.S. government securities and accrued interest, which are secured and will be used to pay for scheduled interest payments through July 31, 2004 on the 8 1/4% convertible senior notes.

(6) Cash flow from operating activities represents net income before non-cash charges including depreciation and amortization, deferred income taxes, minority interests' share of net income, our equity interest in the earnings and losses of PT Smelting and other non-cash costs. Changes in working capital also impact cash flow from operating activities.

(7) Includes \$46.6 million in 2003 and \$47.9 million in 2002 received from the sale of U.S. government securities that was used for scheduled interest payments on the 8 1/4% convertible senior notes. Also includes \$27.0 million received in 2003 following conversion of a portion of the

notes.

(8) Includes \$139.8 million used to purchase U.S. government securities, which secure and have partially been and will continue to be used to pay for scheduled interest payments through July 31, 2004 on the 8¼% convertible senior notes.

(9) Amount was \$357.61 before hedging gains resulting from redemption of our gold-denominated preferred stock.

RATIO OF EARNINGS TO FIXED CHARGES

Our ratio of earnings to fixed charges was as follows for the years presented.

| | Years Ended December 31, | | | | |
|------------------------------------------------------------------|--------------------------|------|------|------|------|
| | 2003 | 2002 | 2001 | 2000 | 1999 |
| Ratio of earnings to fixed charges | 3.9x | 3.4x | 2.9x | 2.3x | 3.0x |
| Ratio of earnings to fixed charges and preferred stock dividends | 3.0x | 2.5x | 2.1x | 1.7x | 2.2x |

For the ratio of earnings to fixed charges calculation, earnings consist of pre-tax income from continuing operations before minority interests in consolidated subsidiaries, income or loss from equity investees and fixed charges. Fixed charges include interest and that portion of rent deemed representative of interest. For the ratio of earnings to fixed charges and preferred stock dividends calculation, we assumed that our preferred stock dividend requirements were equal to the pre-tax earnings that would be required to cover those dividend requirements. We computed those pre-tax earnings using actual tax rates for each year.

EXCHANGE OFFER

Purpose and Effect of the Exchange Offer

We and the subsidiary guarantors entered into a registration rights agreement with the Initial Purchasers in connection with the issuance of the outstanding notes. The registration rights agreement provides that we will take the following actions, at our expense, for the benefit of the holders of the outstanding notes:

*

We will use our reasonable best efforts to file the exchange offer registration statement, of which this prospectus is a part, relating to the exchange offer. The exchange notes will have terms substantially identical in all material respects to the outstanding notes except that the exchange notes will not contain transfer restrictions.

*

We will use our reasonable best efforts to have the exchange offer registration statement remain effective under the Securities Act until 180 days after the date of closing of the exchange offer.

*

We will keep the exchange offer open for a period of not less than the minimum period required under applicable federal and state securities laws to consummate the exchange offer; provided, however, that in no event shall such period be less than 20 days after the date notice of the exchange offer is mailed to the holders.

We will be required to file a shelf registration statement covering resales of the outstanding notes if:

*

because of any change in law or in currently prevailing interpretations of the staff of the SEC, we are not permitted to effect an exchange offer;

*

for any reason the exchange offer is not completed on or before September 30, 2004; or

*

any initial purchaser of the notes so requests in connection with any offering or sale of the notes within 120 days of the completion of the exchange offer.

Under the registration rights agreement, if the exchange offer is not completed (or, if required, the shelf registration statement is not declared effective) on or before September 30, 2004, the annual interest rate borne by the outstanding notes will be increased by 1.0 percent per annum until the exchange offer is completed or the shelf registration statement is declared effective.

Following the consummation of the exchange offer, holders of the outstanding notes who were eligible to participate in the exchange offer, but who did not tender their outstanding notes, will not have any further registration rights and the outstanding notes will continue to be subject to certain restrictions on transfer. Accordingly, the liquidity of the market for the outstanding notes could be adversely affected.

Terms of the Exchange Offer

Upon the terms and subject to the conditions set forth in this prospectus and in the letter of transmittal, we will accept any and all outstanding notes validly tendered and not withdrawn prior to 5:00 p.m., New York City time, on the expiration date of the exchange offer. We will issue \$1,000 principal amount of exchange notes in exchange for each \$1,000 principal amount of outstanding notes accepted in the exchange offer. Any holder may tender some or all of its outstanding notes pursuant to the exchange offer. However, outstanding notes may be tendered only in integral multiples of \$1,000.

The form and terms of the exchange notes are the same as the form and terms of the outstanding notes except that:

(1)

the exchange notes bear a different CUSIP Number from the outstanding notes;

(2)

the exchange notes have been registered under the Securities Act and hence will not bear legends restricting their transfer; and

(3)

the holders of the exchange notes will not be entitled to certain rights under the registration rights agreement, including additional registration rights and the provisions providing for liquidated damages in certain circumstances relating to the timing of the exchange offer, all of which rights will terminate when the exchange offer is terminated.

The exchange notes will evidence the same debt as the outstanding notes and will be entitled to the benefits of the same indenture.

As of the date of this prospectus, \$350,000,000 aggregate principal amount of the outstanding notes were outstanding. We intend to conduct the exchange offer in accordance with the applicable requirements of the Exchange Act and the rules and regulations of the SEC thereunder.

We will be deemed to have accepted validly tendered outstanding notes when, as and if we have given oral or written notice thereof to The Bank of New York (the exchange agent). The exchange agent will act as agent for the tendering holders for the purpose of receiving the exchange notes from us.

If any tendered outstanding notes are not accepted for exchange because of an invalid tender, the occurrence of specified other events set forth in this prospectus or otherwise, the certificates for any unaccepted outstanding notes will be returned, without expense, to the tendering holder thereof as promptly as practicable after the expiration date of the exchange offer.

Holders who tender outstanding notes in the exchange offer will not be required to pay brokerage commissions or fees or, subject to the instructions in the letter of transmittal, transfer taxes with respect to the exchange of outstanding notes pursuant to the exchange offer. We will pay all charges and expenses, other than transfer taxes in certain circumstances, in connection with the exchange offer. See Fees and Expenses.

Expiration Date; Extensions; Amendments

The term expiration date means 5:00 p.m., New York City time, on June 3, 2004 unless we, in our sole discretion, extend the exchange offer, in which case the term expiration date will mean the latest date and time to which the exchange offer is extended. We reserve the right to extend the exchange offer at any time and from time to time prior to the expiration date by giving written notice to the exchange agent and by timely public announcement communicated, unless otherwise required by applicable law or regulation, by making a press release. During any extension of the exchange offer, all outstanding notes previously tendered pursuant to the exchange offer will remain subject to the exchange offer.

We reserve the right, in our sole discretion, (1) to delay accepting any outstanding notes, to extend the exchange offer or to terminate the exchange offer if any of the conditions set forth below under Conditions have not been satisfied, or (2) to amend the terms of the exchange offer in any manner. If any such termination or amendment occurs, we will notify the exchange agent in writing and will either issue a press release or give written notice to the holders of the outstanding notes as promptly as practicable.

Interest on the Exchange Notes

The exchange notes will bear interest from their date of issuance. Holders of outstanding notes that are accepted for exchange will receive, in cash, accrued interest thereon to, but not including, the date of issuance of the exchange notes. Such interest will be paid with the first interest payment on the exchange notes on August 1, 2004. Interest on

the outstanding notes accepted for exchange will cease to accrue upon issuance of the exchange notes. Interest on the exchange notes is payable semi-annually on each February 1 and August 1, commencing on August 1, 2004.

Procedures for Tendering

Only a holder of outstanding notes may tender outstanding notes in the exchange offer. To tender in the exchange offer, a holder must complete, sign and date the letter of transmittal, or a facsimile thereof, have the signatures thereon guaranteed if required by the letter of transmittal or transmit an agent's message in connection with a book-entry transfer, and mail or otherwise deliver the letter of transmittal or the facsimile, together with the outstanding notes and any other required documents, to the exchange agent prior to 5:00 p.m., New York City time, on the expiration date. To be tendered effectively, the outstanding notes, letter of transmittal or an agent's message and other required documents must be completed and received by the exchange agent at the address set forth below under Exchange Agent prior to 5:00 p.m., New York City time, on the expiration date. Delivery of the outstanding notes may be made by book-entry transfer in accordance with the procedures described below. Confirmation of the book-entry transfer must be received by the exchange agent prior to the expiration date.

The term agent's message means a message, transmitted by a book-entry transfer facility to, and received by, the exchange agent forming a part of a confirmation of a book-entry, which states that the book-entry transfer facility has received an express acknowledgment from the participant in the book-entry transfer facility tendering the outstanding notes that the participant has received and agrees: (1) to participate in ATOP; (2) to be bound by the terms of the letter of transmittal; and (3) that we may enforce the agreement against the participant.

To participate in the exchange offer, each holder will be required to furnish to us a written representation to the effect that:

*

it is not an affiliate of ours,

*

it is not engaged in, and does not intend to engage in, and has no arrangement or understanding with any person to participate in, a distribution of the exchange notes to be issued in the exchange offer,

*

it is acquiring the exchange notes in its ordinary course of business, and

*

if such holder is a broker-dealer that will receive exchange notes for its own account in exchange for outstanding notes that were acquired as a result of market making activities or other trading activities, it will deliver a prospectus in connection with any resale of the exchange notes.

The tender by a holder and our acceptance thereof will constitute agreement between the holder and us in accordance with the terms and subject to the conditions set forth in this prospectus and in the letter of transmittal or agent's message.

The method of delivery of outstanding notes and the letter of transmittal or agent's message and all other required documents to the exchange agent is at the election and sole risk of the holder. As an alternative to delivery by mail, holders may wish to consider overnight or hand delivery service. In all cases, sufficient time

should be allowed to assure delivery to the exchange agent before the expiration date. No letter of transmittal or outstanding notes should be sent to us. Holders may request their respective brokers, dealers, commercial banks, trust companies or nominees to effect the above transactions for them.

Any beneficial owner whose outstanding notes are registered in the name of a broker, dealer, commercial bank, trust company or other nominee and who wishes to tender should contact the registered holder promptly and instruct the registered holder to tender on the beneficial owner's behalf.

Signatures on a letter of transmittal or a notice of withdrawal, as the case may be, must be guaranteed by a member of the Medallion System unless the outstanding notes tendered pursuant to the letter of transmittal are tendered (1) by a registered holder who has not completed the box entitled "Special Registration Instructions" or "Special Delivery Instructions" on the letter of transmittal or (2) for the account of a member firm of the Medallion System. In the event that signatures on a letter of transmittal or a notice of withdrawal, as the case may be, are required to be guaranteed, the guarantee must be by a member firm of the Medallion System.

If the letter of transmittal is signed by a person other than the registered holder of any outstanding notes listed in this prospectus, the outstanding notes must be endorsed or accompanied by a properly completed bond power, signed by the registered holder as the registered holder's name appears on the outstanding notes with the signature thereon guaranteed by a member firm of the Medallion System.

If the letter of transmittal or any outstanding notes or bond powers are signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity, the person signing should so indicate when signing, and evidence satisfactory to us of its authority to so act must be submitted with the letter of transmittal.

We understand that the exchange agent will make a request promptly after the date of this prospectus to establish accounts with respect to the outstanding notes at DTC for the purpose of facilitating the exchange offer, and subject to the establishment thereof, any financial institution that is a participant in DTC's system may make book-entry delivery of outstanding notes by causing DTC to transfer the outstanding notes into the exchange agent's account with respect to the outstanding notes in accordance with DTC's procedures for the transfer. Although delivery of the outstanding notes may be effected through book-entry transfer into the exchange agent's account at DTC, unless an agent's message is received by the exchange agent in compliance with ATOP, an appropriate letter of transmittal properly completed and duly executed with any required signature guarantee and all other required documents must in each case be transmitted to and received or confirmed by the exchange agent at its address set forth below on or prior to the expiration date, or, if the guaranteed delivery procedures described below are complied with, within the time period provided under the procedures. Delivery of documents to DTC does not constitute delivery to the exchange agent.

All questions as to the validity, form, eligibility, including time of receipt, acceptance of tendered outstanding notes and withdrawal of tendered outstanding notes will be determined by us in our sole discretion, which determination will be final and binding. We reserve the absolute right to reject any and all outstanding notes not properly tendered or any outstanding notes our acceptance of which would, in the opinion of our counsel, be unlawful. We also reserve the right in our sole discretion to waive any defects, irregularities or conditions of tender as to particular outstanding notes. Our interpretation of the terms and conditions of the exchange offer, including the instructions in the letter of transmittal, will be final and binding on all parties. Unless waived, any defects or irregularities in connection with tenders of outstanding notes must be cured within the time we determine. Although we intend to notify holders of defects or irregularities with respect to tenders of outstanding notes, neither we, the exchange agent nor any other person will incur any liability for failure to give the notification. Tenderees of outstanding notes will not be deemed to have been made until the defects or irregularities have been cured or waived. Any outstanding notes received by the exchange agent that are not properly tendered and as to which the defects or irregularities have not been cured or waived will be returned by the exchange agent to the tendering holders, unless otherwise provided in the letter of transmittal, as soon as practicable following the expiration date.

Guaranteed Delivery Procedures

Holders who wish to tender their outstanding notes and (1) whose outstanding notes are not immediately available, (2) who cannot deliver their outstanding notes, the letter of transmittal or any other required documents to the exchange agent or (3) who cannot complete the procedures for book-entry transfer, prior to the expiration date, may effect a tender if:

(A)

the tender is made through a member firm of the Medallion System;

(B)

prior to the expiration date, the exchange agent receives from a member firm of the Medallion System a properly completed and duly executed Notice of Guaranteed Delivery by facsimile transmission, mail or hand delivery setting forth the name and address of the holder, the certificate number(s) of the outstanding notes and the principal amount of outstanding notes tendered, stating that the tender is being made thereby and guaranteeing that, within three New York Stock Exchange trading days after the expiration date, the letter of transmittal or facsimile thereof together with the certificate(s) representing the outstanding notes or a confirmation of book-entry transfer of the outstanding notes into the exchange agent's account at DTC, and any other documents required by the letter of transmittal will be deposited by the member firm of the Medallion System with the exchange agent; and

(C)

the properly completed and executed letter of transmittal or facsimile thereof, as well as the certificate(s) representing all tendered outstanding notes in proper form for transfer or a confirmation of book-entry transfer of the outstanding notes into the exchange agent's account at DTC, and all other documents required by the letter of transmittal are received by the exchange agent within three New York Stock Exchange trading days after the expiration date.

Upon request to the exchange agent, a Notice of Guaranteed Delivery will be sent to holders who wish to tender their outstanding notes according to the guaranteed delivery procedures set forth above.

Withdrawal of Tenders

Except as otherwise provided in this prospectus, tenders of outstanding notes may be withdrawn at any time prior to 5:00 p.m., New York City time, on the expiration date.

To withdraw a tender of outstanding notes in the exchange offer, a telegram, telex, letter or facsimile transmission notice of withdrawal must be received by the exchange agent at its address set forth in this prospectus prior to 5:00 p.m., New York City time, on the expiration date of the exchange offer. Any notice of withdrawal must:

(1)

specify the name of the person having deposited the outstanding notes to be withdrawn;

(2)

identify the outstanding notes to be withdrawn, including the certificate number(s) and principal amount of the outstanding notes, or, in the case of outstanding notes transferred by book-entry transfer, the name and number of the account at DTC to be credited;

(3)

be signed by the holder in the same manner as the original signature on the letter of transmittal by which the outstanding notes were tendered, including any required signature guarantees, or be accompanied by documents of transfer sufficient to have the trustee with respect to the outstanding notes register the transfer of the outstanding notes into the name of the person withdrawing the tender; and

(4)

specify the name in which any outstanding notes are to be registered, if different from that of the person depositing the outstanding notes to be withdrawn.

All questions as to the validity, form and eligibility, including time of receipt, of the notices of withdrawal will be determined by us. Our determination will be final and binding on all parties. Any outstanding notes so withdrawn will be deemed not to have been validly tendered for purposes of the exchange offer and no exchange notes will be issued with respect thereto unless the outstanding notes so withdrawn are validly retendered. Any outstanding notes which have been tendered but which are not accepted for exchange will be returned to the holder thereof without cost to the holder as soon as practicable after withdrawal, rejection of tender or termination of the exchange offer. Properly withdrawn outstanding notes may be retendered by following one of the procedures described above under Procedures for Tendering at any time prior to the expiration date.

Conditions

Notwithstanding any other term of the exchange offer, we will not be required to accept for exchange, or exchange notes for, any outstanding notes, and may terminate or amend the exchange offer as provided in this prospectus before the acceptance of the outstanding notes, if:

(1)

any action or proceeding is instituted or threatened in any court or by or before any governmental agency with respect to the exchange offer which, in our sole judgment, might materially impair our ability to proceed with the exchange offer or any material adverse development has occurred in any existing action or proceeding with respect to us or any of our subsidiaries; or

(2)

any law, statute, rule, regulation or interpretation by the staff of the SEC is proposed, adopted or enacted, which, in our sole judgment, might materially impair our ability to proceed with the exchange offer or materially impair the contemplated benefits of the exchange offer to us; or

(3)

any governmental approval has not been obtained, which approval we, in our sole discretion, deem necessary for the consummation of the exchange offer as contemplated by this prospectus.

If we determine in our sole discretion that any of the conditions are not satisfied, we may (1) refuse to accept any outstanding notes and return all tendered outstanding notes to the tendering holders, (2) extend the exchange offer and retain all outstanding notes tendered prior to the expiration of the exchange offer, subject, however, to the rights of holders to withdraw the outstanding notes (see Withdrawal of Tenders) or (3) waive the unsatisfied conditions with respect to the exchange offer and accept all properly tendered outstanding notes which have not been withdrawn.

Fees and Expenses

We have not retained any dealer-manager in connection with the exchange offer and will not make any payments to brokers, dealers or others soliciting acceptances of the exchange offer. We will, however, pay the exchange agent reasonable and customary fees for its services and will reimburse it for its reasonable out-of-pocket expenses incurred in connection with these services.

We will pay the cash expenses to be incurred in connection with the exchange offer. Such expenses include fees and expenses of the exchange agent and trustee, accounting and legal fees and printing costs, among others.

Accounting Treatment

The exchange notes will be recorded at the same carrying value as the outstanding notes, which is face value, as reflected in our accounting records on the date of exchange. Accordingly, we will not recognize any gain or loss for accounting purposes as a result of the exchange offer. The expenses of the exchange offer will be deferred and charged to expense over the term of the exchange notes.

Consequences of Failure to Exchange

The outstanding notes that are not exchanged for exchange notes pursuant to the exchange offer will remain restricted securities. Accordingly, the outstanding notes may be resold only:

(1)

to us upon redemption thereof or otherwise;

(2)

so long as the outstanding notes are eligible for resale pursuant to Rule 144A, to a person inside the United States whom the seller reasonably believes is a qualified institutional buyer within the meaning of Rule 144A under the Securities Act in a transaction meeting the requirements of Rule 144A, or pursuant to another exemption from the registration requirements of the Securities Act, which other exemption is based upon an opinion of counsel reasonably acceptable to us;

(3)

outside the United States to a non-U.S. person in a transaction meeting the requirements of Rule 904 under the Securities Act; or

(4)

pursuant to an effective registration statement under the Securities Act, in each case in accordance with any applicable securities laws of any state of the United States.

Resale of the Exchange Notes

With respect to resales of exchange notes, based on interpretations by the staff of the SEC set forth in no-action letters issued to third parties, we believe that a holder or other person who receives exchange notes, whether or not the person is the holder, other than a person that is our affiliate within the meaning of Rule 405 under the Securities Act, in exchange for outstanding notes in the ordinary course of business and who is not participating, does not intend to participate, and has no arrangement or understanding with any person to participate, in the distribution of the exchange notes, will be allowed to resell the exchange notes to the public without further registration under the Securities Act and without delivering to the purchasers of the exchange notes a prospectus that satisfies the requirements of Section 10 of the Securities Act. However, if any holder acquires exchange notes in the exchange offer for the purpose of distributing or participating in a distribution of the exchange notes, the holder cannot rely on the position of the staff of the SEC expressed in the no-action letters or any similar interpretive letters, and must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction, unless an exemption from registration is otherwise available. Further, each broker-dealer that receives exchange notes for its own account in exchange for outstanding notes, where the outstanding notes were acquired by the broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of the exchange notes.

USE OF PROCEEDS

We will not receive any cash proceeds from the issuance of the exchange notes. The proceeds from the issuance of the exchange notes will be the outstanding notes.

DESCRIPTION OF THE EXCHANGE NOTES

The Company issued the outstanding notes, and will issue the exchange notes, under an Indenture, dated as of February 3, 2004 (the Indenture), between the Company and The Bank of New York, as Trustee (the Trustee). The Indenture contains provisions which define your rights under the notes. In addition, the Indenture governs the obligations of the Company under the notes. The terms of the notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended (the TIA). For purposes of this section, the term Company refers only to Freeport-McMoRan Copper & Gold Inc. and not to any of its subsidiaries.

The following description is meant to be only a summary of certain provisions of the Indenture. It does not restate the terms of the Indenture in their entirety. We urge that you carefully read the Indenture as it, and not this description,

governs your rights as holders of notes (Holders).

Overview of the Notes

The notes:

*

will be general unsecured obligations of the Company;

*

will rank equally in right of payment with all existing and future Senior Indebtedness of the Company;

*

will be senior in right of payment to any future Subordinated Obligations of the Company;

*

will be effectively subordinated to all Secured Indebtedness of the Company and its Subsidiaries to the extent of the value of the assets securing such Indebtedness; and

*

will be effectively subordinated to all liabilities (including Trade Payables) and Preferred Stock of each Subsidiary of the Company.

Principal, Maturity and Interest

We issued the outstanding notes in an aggregate principal amount of \$350 million. The notes will mature on February 1, 2014. We issued the outstanding notes, and will issue the exchange notes, in fully registered form, without coupons, in denominations of \$1,000 and any integral multiple of \$1,000.

Each note we issue will bear interest at a rate of 6 % per annum beginning on February 3, 2004 or from the most recent date to which interest has been paid or provided for. We will pay interest semiannually to Holders of record at the close of business on the January 15 or July 15 immediately preceding the interest payment date on February 1 and August 1 of each year. We will begin paying interest to Holders on August 1, 2004.

We will also pay additional interest to Holders under certain circumstances described under the heading Registration Rights.

Indenture May Be Used For Future Issuances

We may issue from time to time additional notes having identical terms and conditions to the notes we are currently offering (the Additional Notes). We will only be permitted to issue such Additional Notes if at the time of such issuance we are in compliance with the covenants contained in the Indenture. Any Additional Notes will be part of the same issue as the notes that we are currently offering and will vote on all matters with such notes.

Paying Agent and Registrar

We will pay the principal of, premium, if any, and interest (including additional interest, if any) on the notes at any office of ours or any agency designated by us which is located in the Borough of Manhattan, The City of New York. We have initially designated the corporate trust office of the Trustee to act as the agent of the Company in such matters. The location of the corporate trust office is 101 Barclay Street, New York, New York 10286. We, however, reserve the right to pay interest to Holders by check mailed directly to Holders at their registered addresses.

Holders may exchange or transfer their notes at the same location given in the preceding paragraph. No service charge will be made for any registration of transfer or exchange of notes. We, however, may require Holders to pay any transfer tax or other similar governmental charge payable in connection with any such transfer or exchange.

Optional Redemption

Except as set forth in the following two paragraphs, we may not redeem the notes prior to February 1, 2009. On and after this date, we may redeem the notes, in whole or in part, at our option, upon not less than 30 nor more than 60 days prior notice, at the following redemption prices (expressed as percentages of the principal amount thereof), plus accrued and unpaid interest, if any (including additional interest, if any), to the redemption date (subject to the right of Holders of record on the relevant record date to receive interest (including additional interest, if any) due on the relevant interest payment date), if redeemed during the 12-month period commencing on February 1 of the years set forth below:

| Year | Redemption Price |
|---------------------|-------------------------|
| 2009 | 103.438% |
| 2010 | 102.292% |
| 2011 | 101.146% |
| 2012 and thereafter | 100.000% |

At any time prior to February 1, 2009, the notes may be redeemed, in whole or in part, at our option, upon not less than 30 nor more than 60 days prior notice mailed by first-class mail to each Holder's registered address, at a redemption price equal to the greater of (i) 100 percent of the principal amount thereof plus accrued and unpaid interest, if any (including additional interest, if any), to the redemption date and (ii) the sum of (x) the present values of the remaining scheduled payments of principal and interest thereon from the redemption date to the maturity date (except for currently accrued but unpaid interest) discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus 30 basis points and (y) accrued and unpaid interest, if any (including additional interest, if any), to the redemption date.

In addition, prior to February 1, 2007, we may, on one or more occasions, also redeem up to a maximum of 35 percent of the original aggregate principal amount of the notes (calculated giving effect to any issuance of Additional Notes) with the Net Cash Proceeds of one or more Equity Offerings by the Company, at a redemption price equal to 106.875 percent of the principal amount thereof, plus accrued and unpaid interest, if any (including additional interest, if any), to the redemption date (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date); *provided, however*, that after giving effect to any such redemption:

(1)

at least 65 percent of the original aggregate principal amount of the notes (calculated giving effect to any issuance of Additional Notes) remains outstanding; and

(2)

any such redemption by the Company must be made within 60 days of such Equity Offering and must be made in accordance with certain procedures set forth in the Indenture.

Selection

If we partially redeem notes, the Trustee will select the notes to be redeemed on a pro rata basis, by lot or by such other method as the Trustee in its sole discretion shall deem to be fair and appropriate, although no note of \$1,000 in original principal amount or less will be redeemed in part. If we redeem any note in part only, the notice of redemption relating to such note shall state the portion of the principal amount thereof to be redeemed. A new note in principal amount equal to the unredeemed portion thereof will be issued in the name of the Holder thereof upon cancellation of the original note. On and after the redemption date, interest will cease to accrue on notes or portions thereof called for redemption so long as we have deposited with the Paying Agent funds sufficient to pay the principal of, plus accrued and unpaid interest on, the notes to be redeemed.

Ranking

The notes will be unsecured Senior Indebtedness of the Company, will rank equally in right of payment with all existing and future Senior Indebtedness of the Company and will be senior in right of payment to any future Subordinated Obligations of the Company. The notes also will be effectively subordinated to all Secured Indebtedness of the Company and its Subsidiaries to the extent of the value of the assets securing such Indebtedness.

We currently conduct all our operations through our Subsidiaries. Creditors of such Subsidiaries, including trade creditors, others having claims against such Subsidiaries, and preferred stockholders (if any) of such Subsidiaries will have priority with respect to the assets and earnings of such Subsidiaries over the Company's creditors, including Holders. The notes, therefore, will be effectively subordinated to the claims of creditors and preferred stockholders (if any) of the Company's Subsidiaries.

Although the Indenture will limit the Incurrence of Indebtedness by the Company and the Restricted Subsidiaries and the issuance of Capital Stock by the Restricted Subsidiaries, such limitation is subject to a number of significant qualifications. The Company and its Subsidiaries may be able to incur substantial amounts of Indebtedness in certain circumstances. Such Indebtedness may be Senior Indebtedness.

The notes will rank equally in all respects with all other Senior Indebtedness of the Company. Unsecured Indebtedness is not deemed to be subordinate or junior to Secured Indebtedness merely because it is unsecured.

Change of Control

Upon the occurrence of any of the following events (each a "Change of Control"), each Holder will have the right to require the Company to purchase all or any part of such Holder's notes at a purchase price in cash equal to 101 percent of the principal amount thereof plus accrued and unpaid interest (including additional interest, if any) to the date of purchase (subject to the right of Holders of record on the relevant record date to receive interest (including additional interest, if any) due on the relevant interest payment date); *provided, however*, that notwithstanding the occurrence of a Change of Control, the Company shall not be obligated to purchase the notes pursuant to this section in the event that it has exercised its right to redeem all the notes under the terms of the section titled "Optional Redemption":

(1)

any person or group (as such term is used in Sections 13(d) and 14(d) of the Exchange Act), other than the Company or a Subsidiary of the Company, is or becomes the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act, except that for purposes of this clause (1) such person shall be deemed to have beneficial ownership of all shares that any such person has the right to acquire, whether such right is exercisable immediately or only after the

passage of time), directly or indirectly, of more than 50 percent of the total voting power of the Voting Stock of the Company (for the purposes of this clause (1), such person shall be deemed to beneficially own any Voting Stock of an entity held by any other entity (the parent entity), if such person is the beneficial owner (as defined in this clause (1)), directly or indirectly, of more than 50 percent of the voting power of the Voting Stock of such parent entity);

(2)

during any period of two consecutive years, individuals who at the beginning of such period constituted the board of directors of the Company (together with any new directors whose election by such board of directors of the Company or whose nomination for election by the shareholders of the Company was approved by a vote of a majority of the directors of the Company then still in office who were either directors at the beginning of such period or whose election or nomination for election was previously so approved) cease for any reason to constitute a majority of the board of directors of the Company then in office;

(3)

the adoption of a plan relating to the liquidation or dissolution of the Company; or

(4)

the merger or consolidation of the Company with or into another Person or the merger of another Person with or into the Company, or the sale of all or substantially all the assets of the Company to another Person, and, in the case of any such merger or consolidation, the securities of the Company that are outstanding immediately prior to such transaction and which represent 100 percent of the aggregate voting power of the Voting Stock of the Company are changed into or exchanged for cash, securities or property, unless pursuant to such transaction such securities are changed into or exchanged for, in addition to any other consideration, securities of the surviving Person or transferee that represent, immediately after such transaction, at least a majority of the aggregate voting power of the Voting Stock of the surviving Person or transferee.

In the event that at the time of such Change of Control the terms of the Bank Indebtedness restrict or prohibit the repurchase of notes pursuant to this covenant, then prior to the mailing of the notice to Holders provided for in the immediately following paragraph but in any event within 30 days following any Change of Control, the Company shall:

(1)

repay in full all Bank Indebtedness or, if doing so will allow the purchase of notes, offer to repay in full all Bank Indebtedness and repay the Bank Indebtedness of each lender who has accepted such offer; or

(2)

obtain the requisite consent under the agreements governing the Bank Indebtedness to permit the repurchase of the notes as provided for in the immediately following paragraph.

Within 30 days following any Change of Control (except as provided in the proviso in the first paragraph of this

Change of Control section), the Company shall mail a notice to each Holder with a copy to the Trustee (the Change of Control Offer) stating:

(1)

that a Change of Control has occurred and that such Holder has the right to require the Company to purchase all or a portion of such Holder's notes at a purchase price in cash equal to 101 percent of the principal amount thereof, plus accrued and unpaid interest (including additional interest, if any) to the date of purchase (subject to the right of Holders of record on the relevant record date to receive interest (including additional interest, if any) on the relevant interest payment date);

(2)

the circumstances and relevant facts and financial information regarding such Change of Control;

(3)

the purchase date (which shall be no earlier than 30 days nor later than 60 days from the date such notice is mailed); and

(4)

the instructions determined by the Company, consistent with this covenant, that a Holder must follow in order to have its notes purchased.

The Company will not be required to make a Change of Control Offer upon a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Company and purchases all notes validly tendered and not withdrawn under such Change of Control Offer.

The Company will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the purchase of notes pursuant to this covenant. To the extent that the provisions of any securities laws or regulations conflict with provisions of this covenant, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under this covenant by virtue thereof.

The Change of Control purchase feature is a result of negotiations between the Company and the initial purchasers. Management has no present intention to engage in a transaction involving a Change of Control, although it is possible that the Company would decide to do so in the future. Subject to the limitations discussed below, the Company could, in the future, enter into certain transactions, including acquisitions, refinancings or recapitalizations, that would not constitute a Change of Control under the Indenture, but that could increase the amount of indebtedness outstanding at such time or otherwise affect the Company's capital structure or credit ratings. Restrictions on the ability of the Company to Incur additional Indebtedness are contained in the covenants described under Certain Covenants Limitation on Indebtedness, Limitation on Liens and Limitation on Sale/Leaseback Transactions. Such restrictions can only be waived with the consent of the Holders of a majority in principal amount of the notes then outstanding. Except for the limitations contained in such covenants, however, the Indenture will not contain any covenants or provisions that may afford Holders protection in the event of a highly leveraged transaction.

The occurrence of certain of the events which would constitute a Change of Control would constitute a default under the Credit Agreement. Future Senior Indebtedness of the Company may contain prohibitions of certain events which would constitute a Change of Control or require such Senior Indebtedness to be repurchased or repaid upon a Change of Control. Moreover, the exercise by the Holders of their right to require the Company to purchase the notes could cause a default under such Senior Indebtedness, even if the Change of Control itself does not, due to the financial effect of such repurchase on the Company. Finally, the Company's ability to pay cash to the Holders upon a purchase may be limited by the Company's then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make any required purchases. The provisions under the Indenture relative to the

Company's obligation to make an offer to purchase the notes as a result of a Change of Control may be waived or modified with the written consent of the Holders of a majority in principal amount of the notes.

Certain Covenants

The Indenture will contain covenants including, among others, those summarized below.

Covenant Suspension. Following the first day (the Suspension Date) that:

- (a)
the notes have an Investment Grade Rating from either or both the Rating Agencies and
 - (b)
no Default or Event of Default has occurred and is continuing under the Indenture,
- the Company and the Restricted Subsidiaries will not be subject to the following provisions of the Indenture:

*

Limitation on Indebtedness,

*

Limitation on Restricted Payments,

*

Limitation on Restrictions on Distributions from Restricted Subsidiaries,

*

Limitation on Sales of Assets and Subsidiary Stock,

*

Limitation on Transactions with Affiliates,

*

Future Note Guarantors and

*

Limitation on the Sale or Issuance of Capital Stock of Restricted Subsidiaries.

(collectively, the Suspended Covenants). In the event that the Company and the Restricted Subsidiaries are not subject to the Suspended Covenants for any period of time as a result of the preceding sentence and, on any subsequent date,

(i) a Default or Event of Default (other than as a result of any breach of the Suspended Covenants) occurs and is continuing or (ii) both of the Rating Agencies withdraws its ratings or downgrades the ratings assigned to the notes below the required Investment Grade Ratings, then the Company and the Restricted Subsidiaries will thereafter again be subject to the Suspended Covenants and compliance with the Suspended Covenants with respect to Restricted Payments made after the time of such withdrawal, downgrade, Default or Event of Default will be calculated in accordance with the terms of the covenant described below under *Limitation on Restricted Payments* as though, for purposes of determining whether new Restricted Payments can be made after such time, such covenant had been in effect during the entire period of time from the date the notes are issued.

Limitation on Indebtedness. (a) The Company will not, and will not permit any Restricted Subsidiary to, Incur, directly or indirectly, any Indebtedness; *provided, however,* that the Company or any Restricted Subsidiary that is a Note Guarantor may Incur Indebtedness if on the date of such Incurrence and after giving effect thereto the Consolidated Coverage Ratio would be greater than 2:1.

(b)

Notwithstanding the foregoing paragraph (a), the Company and its Restricted Subsidiaries may Incur the following Indebtedness:

(1)

Indebtedness Incurred pursuant to the Credit Facilities in an aggregate principal amount not to exceed \$1 billion less the aggregate amount of all prepayments of principal from Asset Dispositions;

(2)

Indebtedness of the Company owed to and held by any Restricted Subsidiary or Indebtedness of a Restricted Subsidiary owed to and held by the Company or any Restricted Subsidiary; *provided, however,* that (A) any subsequent issuance or transfer of any Capital Stock or any other event that results in any such Restricted Subsidiary ceasing to be a Restricted Subsidiary or any subsequent transfer of any such Indebtedness (except to the Company or a Restricted Subsidiary) shall be deemed, in each case, to constitute the Incurrence of such Indebtedness by the issuer thereof and (B) if the Company is the obligor on such Indebtedness, such Indebtedness is expressly subordinated to the prior payment in full in cash of all obligations with respect to the notes;

(3)

Indebtedness (A) represented by the notes (not including any Additional Notes), (B) outstanding on the Closing Date (other than the Indebtedness described in clauses (1) and (2) above), (C) consisting of Refinancing Indebtedness Incurred in respect of any Indebtedness described in this clause (3) (including Indebtedness that is Refinancing Indebtedness) or the foregoing paragraph (a) and (D) consisting of Guarantees of any Indebtedness permitted under clauses (1) and (2) of this paragraph (b);

(4)

Indebtedness (A) in respect of performance bonds, bankers' acceptances, letters of credit and surety or appeal bonds provided by the Company and the Restricted Subsidiaries in the ordinary course of their business, and (B) under Interest Rate Agreements, Currency Agreements and Commodity Price Protection Agreements entered into for bona fide hedging purposes (not for speculation) of the Company in the ordinary course of business; *provided, however*, that such Interest Rate Agreements do not increase the Indebtedness of the Company outstanding at any time other than as a result of fluctuations in interest rates or by reason of fees, indemnities and compensation payable thereunder;

(5)

Purchase Money Indebtedness and Capitalized Lease Obligations (in an aggregate principal amount not in excess of \$125 million at any time outstanding);

(6)

Indebtedness (other than Indebtedness permitted to be Incurred pursuant to the foregoing paragraph (a) or any other clause of this paragraph (b)) in an aggregate principal amount on the date of Incurrence that, when added to all other Indebtedness Incurred pursuant to this clause (6) and then outstanding, will not exceed \$50 million; or

(7)

with respect to any Restricted Subsidiary that is not a Note Guarantor, Indebtedness if (A) on the date of such Incurrence and after giving effect thereto the Consolidated Coverage Ratio would be greater than 3:1 and (B) proceeds are invested (i) in Additional Assets (or used to refinance other Indebtedness the proceeds of which were invested in Additional Assets after the Closing Date) or (ii) for general corporate purposes in an amount not to exceed \$350,000,000 in the aggregate for all Indebtedness incurred in reliance on this clause (7)(b)(ii). Pending the final application of the net proceeds of the Indebtedness described under this clause (7), such proceeds may be (A) used to reduce revolving credit borrowings or (B) otherwise invested in Temporary Cash Investments.

(c)

Notwithstanding the foregoing, the Company may not Incur any Indebtedness pursuant to paragraph (b) above if the proceeds thereof are used, directly or indirectly, to repay, prepay, redeem, defease, retire, refund or refinance any Subordinated Obligations unless such Indebtedness will be subordinated to the notes on substantially the same terms, taken as a whole, as such Subordinated Obligations.

(d)

For purposes of determining this covenant:

(1)

Indebtedness Incurred pursuant to the Credit Agreement prior to or on the Closing Date shall be treated as Incurred pursuant to clause (1) of paragraph (b) above,

(2)

Indebtedness permitted by this covenant need not be permitted solely by reference to one provision permitting such Indebtedness but may be permitted in part by one such provision and in part by one or more other provisions of this covenant permitting such Indebtedness, and

(3)

in the event that Indebtedness meets the criteria of more than one of the types of Indebtedness described in this covenant, the Company, in its sole discretion, shall classify such Indebtedness and only be required to include the amount of such Indebtedness in one of such clauses.

Limitation on Restricted Payments. (a) The Company will not, and will not permit any Restricted Subsidiary, directly or indirectly, to:

(1)

declare or pay any dividend, make any distribution on or in respect of its Capital Stock or make any similar payment (including any payment in connection with any merger or consolidation involving the Company or any Subsidiary of the Company) to the direct or indirect holders of its Capital Stock, except (x) dividends or distributions payable solely in its Capital Stock (other than Disqualified Stock or Preferred Stock) and (y) dividends or distributions payable to the Company or a Restricted Subsidiary (and, if such Restricted Subsidiary has shareholders other than the Company or other Restricted Subsidiaries, to its other shareholders on a pro rata basis),

(2)

purchase, repurchase, redeem, retire or otherwise acquire for value any Capital Stock of the Company or any Restricted Subsidiary held by Persons other than the Company or a Restricted Subsidiary,

(3)

purchase, repurchase, redeem, retire, defease or otherwise acquire for value, prior to scheduled maturity, scheduled repayment or scheduled sinking fund payment any Subordinated Obligations (other than the purchase, repurchase, redemption, retirement, defeasance or other acquisition for value of Subordinated Obligations acquired in anticipation

of satisfying a sinking fund obligation, principal installment or final maturity, in each case due within one year of the date of acquisition), or

(4)

make any Investment (other than a Permitted Investment) in any Person (any such dividend, distribution, payment, purchase, redemption, repurchase, defeasance, retirement, or other acquisition or Investment being herein referred to as a Restricted Payment) if at the time the Company or such Restricted Subsidiary makes such Restricted Payment:

(A)

a Default will have occurred and be continuing (or would result therefrom);

(B)

the Company could not Incur at least \$1.00 of additional Indebtedness under paragraph (a) of the covenant described under Limitation on Indebtedness ; or

(C)

the aggregate amount of such Restricted Payment and all other Restricted Payments (the amount so expended, if other than in cash, to be determined in good faith by the Board of Directors, whose determination will be conclusive and evidenced by a resolution of the Board of Directors) declared or made subsequent to the 10 % Senior Notes Closing Date would exceed the sum, without duplication, of:

(i)

50 percent of the Consolidated Net Income accrued during the period (treated as one accounting period) from the beginning of the fiscal quarter ending September 30, 2002 to the end of the most recent fiscal quarter for which financial statements are available prior to the date of such Restricted Payment (or, in case such Consolidated Net Income will be a deficit, minus 100 percent of such deficit);

(ii)

the aggregate Net Cash Proceeds received by the Company from the issue or sale of its Capital Stock (other than Disqualified Stock) subsequent to the 10 % Senior Notes Closing Date (other than an issuance or sale to (x) a Subsidiary of the Company or (y) an employee stock ownership plan or other trust established by the Company or any of its Subsidiaries);

(iii)

the amount by which Indebtedness of the Company or its Restricted Subsidiaries is reduced on the Company's balance sheet upon the conversion or exchange (other than by a Subsidiary of the Company) subsequent to the 10 % Senior Notes Closing Date of any Indebtedness of the Company or its Restricted Subsidiaries which is convertible or exchangeable for Capital Stock (other than Disqualified Stock) of the Company (less the amount of any cash or the Fair Market Value of other property distributed by the Company or any Restricted Subsidiary upon such conversion or exchange); and

(iv)

the amount equal to the net reduction in Investments in Unrestricted Subsidiaries subsequent to the 10 % Notes Closing Date resulting from (x) payments of dividends, repayments of the principal of loans or advances or other transfers of assets to the Company or any Restricted Subsidiary from Unrestricted Subsidiaries or (y) the redesignation of Unrestricted Subsidiaries as Restricted Subsidiaries (valued in each case as provided in the definition of

Investment) not to exceed, in the case of any Unrestricted Subsidiary, the amount of Investments previously made by the Company or any Restricted Subsidiary in such Unrestricted Subsidiary, which amount was included in the calculation of the amount of Restricted Payments.

(b)

The provisions of the foregoing paragraph (a) will not prohibit:

(1)

any purchase, repurchase, redemption, retirement or other acquisition for value of Capital Stock or Subordinated Obligations of the Company made by exchange for, or out of the proceeds of the substantially concurrent sale or incurrence of, Capital Stock of the Company (other than Disqualified Stock and other than Capital Stock issued or sold to a Subsidiary of the Company or an employee stock ownership plan or other trust established by the Company or any of its Subsidiaries); *provided, however,* that:

(A)

such purchase, repurchase, redemption, retirement or other acquisition for value will be excluded in the calculation of the amount of Restricted Payments, and

(B)

the Net Cash Proceeds from such sale applied in the manner set forth in this clause (1) will be excluded from the calculation of amounts under clause (4)(C)(ii) of paragraph (a) above;

(2)

any prepayment, repayment, purchase, repurchase, redemption, retirement, defeasance or other acquisition for value of Subordinated Obligations of the Company made by exchange for, or out of the proceeds of the substantially concurrent sale or incurrence of, Indebtedness of the Company that is permitted to be Incurred pursuant to paragraph (b) of the covenant described under Limitation on Indebtedness ; *provided, however*, that such prepayment, repayment, purchase, repurchase, redemption, retirement, defeasance or other acquisition for value will be excluded in the calculation of the amount of Restricted Payments;

(3)

any prepayment, repayment, purchase, repurchase, redemption, retirement, defeasance or other acquisition for value of Subordinated Obligations from Net Available Cash to the extent permitted by the covenant described under Limitation on Sales of Assets and Subsidiary Stock ; *provided, however*, that such prepayment, repayment, purchase, repurchase, redemption, retirement, defeasance or other acquisition for value will be excluded in the calculation of the amount of Restricted Payments;

(4)

dividends paid within 60 days after the date of declaration thereof if at such date of declaration such dividends would have complied with this covenant; *provided, however*, that such dividends will be included in the calculation of the amount of Restricted Payments;

(5)

any purchase, repurchase, redemption, retirement or other acquisition for value of shares of, or options to purchase shares of, common stock of the Company or any of its Subsidiaries from employees, former employees, directors or former directors of the Company or any of its Subsidiaries (or permitted transferees of such employees, former employees, directors or former directors), pursuant to the terms of agreements (including employment agreements) or plans (or amendments thereto) approved by the Board of Directors under which such individuals purchase or sell, or are granted the option to purchase or sell, shares of such common stock; *provided, however*, that the aggregate amount of such purchases, repurchases, redemptions, retirements and other acquisitions for value will not exceed \$10 million in any calendar year; *provided further, however*, that such purchases, repurchases, redemptions, retirements and other acquisitions for value shall be excluded in the calculation of the amount of Restricted Payments;

(6)

any declaration and payment of dividends to holders of any class of Preferred Stock of the Company or any Restricted Subsidiary; *provided, however*, that such dividends will be excluded in the calculation of the amount of Restricted Payments;

(7)

any redemptions or repurchases of Series II Gold-Denominated Preferred Stock or Silver-Denominated Preferred Stock, in each case paid at maturity, as the same may be extended; *provided, however*, that such redemptions or repurchases will be excluded in the calculation of the amount of Restricted Payments; or

(8)

the PT Freeport Indonesia Guarantee; *provided, however*, that an amount equal to such PT Freeport Indonesia Guarantee will be excluded in the calculation of the amount of Restricted Payments.

Limitation on Restrictions on Distributions from Restricted Subsidiaries. The Company will not, and will not permit any Restricted Subsidiary to, create or otherwise cause or permit to exist or become effective any consensual encumbrance or restriction on the ability of any Restricted Subsidiary to:

(1)

pay dividends or make any other distributions on its Capital Stock or pay any Indebtedness or other obligations owed to the Company;

(2)

make any loans or advances to the Company; or

(3)

transfer any of its property or assets to the Company.

The preceding provisions will not prohibit:

(A)

any encumbrance or restriction pursuant to applicable law or an agreement in effect at or entered into on the Closing Date;

(B)

any encumbrance or restriction with respect to a Restricted Subsidiary pursuant to an agreement relating to any Indebtedness Incurred by such Restricted Subsidiary prior to the date on which such Restricted Subsidiary was acquired by the Company (other than Indebtedness Incurred as consideration in, in contemplation of, or to provide all or any portion of the funds or credit support utilized to consummate, the transaction or series of related transactions pursuant to which such Restricted Subsidiary became a Restricted Subsidiary or was otherwise acquired by the Company) and outstanding on such date;

(C)

any encumbrance or restriction pursuant to an agreement effecting a Refinancing of Indebtedness Incurred pursuant to an agreement referred to in clause (A) or (B) of this covenant or this clause (C) or contained in any amendment to an agreement referred to in clause (A) or (B) of this covenant or this clause (C); *provided, however*, that the encumbrances and restrictions contained in any such Refinancing agreement or amendment, taken as a whole, are no less favorable to the Holders than the encumbrances and restrictions contained in such predecessor agreements;

(D)

in the case of clause (3) above, any encumbrance or restriction

(i)

that restricts in a customary manner the subletting, assignment or transfer of any property or asset that is subject to a lease, license or similar contract, or

(ii)

contained in security agreements securing Indebtedness of a Restricted Subsidiary to the extent such encumbrance or restriction restricts the transfer of the property subject to such security agreements;

(E)

with respect to a Restricted Subsidiary, any restriction imposed pursuant to an agreement entered into for the sale or disposition of all or substantially all the Capital Stock or assets of such Restricted Subsidiary pending the closing of such sale or disposition; and

(F)

customary restrictions in connection with Indebtedness incurred pursuant to the covenants described under Limitation on Indebtedness and Limitation on Liens ; *provided* that such limitations are no more restrictive when taken as a whole than Sections 6.01(a), 6.05(b) and 6.08(a) of the Credit Agreement as in effect on the date of the Indenture.

Limitation on Sales of Assets and Subsidiary Stock. (a) The Company will not, and will not permit any Restricted Subsidiary to, make any Asset Disposition unless:

(1)

the Company or such Restricted Subsidiary receives consideration (including by way of relief from, or by any other Person assuming sole responsibility for, any liabilities, contingent or otherwise) at the time of such Asset Disposition at least equal to the Fair Market Value of the shares and assets subject to such Asset Disposition,

(2)

at least 85 percent of the consideration thereof received by the Company or such Restricted Subsidiary is in the form of cash; *provided*, that this requirement shall not apply in the case of the sale for noncash consideration of up to 4.78 percent of the Capital Stock of PT Freeport Indonesia relating to the PT Freeport Indonesia Guarantee, and

(3)

an amount equal to 100 percent of the Net Available Cash from such Asset Disposition is applied by the Company (or such Restricted Subsidiary, as the case may be)

(A)

first, to the extent the Company elects (or is required by the terms of any Indebtedness), to prepay, repay, purchase, repurchase, redeem, retire, defease or otherwise acquire for value amounts payable under or in respect of the Credit Facilities or Indebtedness (other than obligations in respect of Preferred Stock) of a Restricted Subsidiary (in each case other than Indebtedness owed to the Company or an Affiliate of the Company and other than obligations in respect of Disqualified Stock) within 180 days after the later of the date of such Asset Disposition or the receipt of such Net Available Cash; *provided, however*, that any such Indebtedness of the Company has been guaranteed by PT Freeport Indonesia without its having guaranteed the notes in accordance with the terms of the Indenture;

(B)

second, to the extent of the balance of Net Available Cash after application in accordance with clause (A), to the extent the Company or such Restricted Subsidiary elects, to reinvest in Additional Assets (including by means of an Investment in Additional Assets by a Restricted Subsidiary with Net Available Cash received by the Company or another Restricted Subsidiary) within 180 days from the later of such Asset Disposition or the receipt of such Net Available Cash;

(C)

third, to the extent of the balance of such Net Available Cash after application in accordance with clauses (A) and (B), to make an Offer (as defined in paragraph (b) of this covenant below) to purchase notes pursuant to and subject to the conditions set forth in paragraph (b) of this covenant; *provided, however*, that if the Company elects (or is required by the terms of any other Senior Indebtedness), such Offer may be made ratably to purchase the notes and other Senior Indebtedness of the Company, and

(D)

fourth, to the extent of the balance of such Net Available Cash after application in accordance with clauses (A), (B) and (C), for any general corporate purpose permitted by the terms of the Indenture;

provided, however that in connection with any prepayment, repayment, purchase, repurchase, redemption, retirement, defeasance or other acquisition for value of Indebtedness pursuant to clause (A), (C) or (D) above, the Company or such Restricted Subsidiary will retire such Indebtedness and will cause the related loan commitment (if any) to be permanently reduced in an amount equal to the principal amount so prepaid, repaid, purchased, repurchased, redeemed, retired, defeased or otherwise acquired for value; *provided further, however*, that the Net Cash Proceeds of the sale of any of the Capital Stock of PT Freeport Indonesia shall be applied as provided for under the covenant Limitation on the Sale or Issuance of Capital Stock of Restricted Subsidiaries.

Notwithstanding the foregoing provisions of this covenant, the Company and the Restricted Subsidiaries will not be required to apply any Net Available Cash in accordance with this covenant except to the extent that the aggregate Net Available Cash from all Asset Dispositions that is not applied in accordance with this covenant exceeds \$50 million.

For the purposes of this covenant, the following are deemed to be cash:

*

the assumption of Indebtedness of the Company (other than obligations in respect of Disqualified Stock of the Company) or any Restricted Subsidiary and the release of the Company or such Restricted Subsidiary from all liability on such Indebtedness in connection with such Asset Disposition, and

*

securities received by the Company or any Restricted Subsidiary from the transferee that are promptly converted by the Company or such Restricted Subsidiary into cash.

(b)

In the event of an Asset Disposition that requires the purchase of notes pursuant to clause (a)(3)(C) of this covenant, the Company will be required (i) to purchase notes tendered pursuant to an offer by the Company for the notes (the Offer) at a purchase price of 100 percent of their principal amount plus accrued and unpaid interest (including additional interest, if any) to the date of purchase (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date) in accordance with the procedures (including prorating in the event of oversubscription) set forth in the Indenture and (ii) to purchase other Senior Indebtedness of the Company on the terms and to the extent contemplated thereby (provided that in no event shall the Company offer to purchase such other Senior Indebtedness of the Company at a purchase price in excess of 100 percent of its principal amount (without premium), plus accrued and unpaid interest thereon. If the aggregate purchase price of notes (and other Senior Indebtedness) tendered pursuant to the Offer is less than the Net Available Cash allotted to the purchase of the notes (and other Senior Indebtedness), the Company will apply the remaining Net Available Cash in accordance with clause (a)(3)(D) of this covenant. The Company will not be required to make an Offer for notes (and other Senior Indebtedness) pursuant to this covenant if the Net Available Cash available therefor (after application of the proceeds as provided in clauses (a)(3)(A) and (B)) is less than \$10 million for any particular Asset Disposition (which lesser amount will be carried forward for purposes of determining whether an Offer is required with respect to the Net Available Cash from any subsequent Asset Disposition).

(c)

The Company will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the repurchase of notes pursuant to this covenant. To the extent that the provisions of any securities laws or regulations conflict with provisions of this covenant, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under this covenant by virtue thereof.

Limitation on Transactions with Affiliates. (a) The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly, enter into or conduct any transaction or series of related transactions (including the purchase, sale, lease or exchange of any property or the rendering of any service) with any Affiliate of the Company (an Affiliate Transaction) unless such transaction is on terms:

(1)

that are no less favorable to the Company or such Restricted Subsidiary, as the case may be, than those that could be obtained at the time of such transaction in arm's-length dealings with a Person who is not such an Affiliate,

(2)

that, in the event such Affiliate Transaction involves an aggregate amount in excess of \$15 million,

(A)

are set forth in writing, and

(B)

have been approved by a majority of the members of the Board of Directors having no personal stake in such Affiliate Transaction, and

(3)

that, in the event such Affiliate Transaction involves an amount in excess of \$30 million, have been determined by a nationally recognized appraisal or investment banking firm to be fair, from a financial standpoint, to the Company and its Restricted Subsidiaries; *provided, however*, that this clause 3 shall not apply in the case of any issuance or sale of securities in a public offering or private placement to any Affiliate of the Company so long as the majority of such securities are purchased by Persons who are not Affiliates of the Company and the securities are sold on the same terms to all purchasers.

(b)

The provisions of the foregoing paragraph (a) will not prohibit:

(1)

any Permitted Investment or Restricted Payment permitted to be paid pursuant to the covenant described under Limitation on Restricted Payments,

(2)

any issuance of securities, or other payments, awards or grants in cash, securities or otherwise pursuant to, or the funding of, employment arrangements, stock options and stock ownership plans approved by the Board of Directors,

(3)

the grant of stock options or similar rights to employees and directors of the Company pursuant to plans approved by the Board of Directors,

(4)

loans or advances to employees in the ordinary course of business in accordance with past practices of the Company, but in any event not to exceed \$3 million in the aggregate outstanding at any one time,

(5)

the payment of reasonable fees to directors of the Company and its Subsidiaries who are not employees of the Company or its Subsidiaries,

(6)

any transaction between the Company and a Restricted Subsidiary or between Restricted Subsidiaries,

(7)

any transaction entered into in connection with the RTZ Interests (as such term is defined in the Credit Agreement) as in effect on the Closing Date, or pursuant to the Participation Agreement (as such term is defined in the Credit Agreement) as in effect on the Closing Date, in each case relating to our joint venture arrangements with Rio Tinto plc, as the same may be amended from time to time, and on terms that are not disadvantageous to the Holders, or

(8)

any transaction pursuant to the Management Services Agreement as in effect on the date of the Indenture as the same may be amended from time to time in any manner not materially less favorable taken as a whole to the Holders of the notes.

Limitation on the Sale or Issuance of Capital Stock of Restricted Subsidiaries. The Company will not sell or otherwise dispose of any shares of Capital Stock of a Restricted Subsidiary, and will not permit any Restricted Subsidiary, directly or indirectly, to issue or sell or otherwise dispose of any shares of its Capital Stock except:

(1)

to the Company or a Wholly Owned Subsidiary,

(2)

if, immediately after giving effect to such issuance, sale or other disposition, neither the Company nor any of its Subsidiaries own any Capital Stock of such Restricted Subsidiary,

(3)

if, immediately after giving effect to such issuance or sale, such Restricted Subsidiary would no longer constitute a Restricted Subsidiary and any Investment in such Person remaining after giving effect thereto would have been permitted to be made under the covenant described under *Limitation on Restricted Payments* if made on the date of such issuance, sale or other disposition (and such Investment shall be deemed to be an Investment for the purposes of such covenant), or

(4)

the Capital Stock of PT Freeport Indonesia; *provided, however*, that (i) after giving effect to such transaction the Company shall own at least 67 percent of the Capital Stock of PT Freeport Indonesia and (ii) the Net Cash Proceeds from any such sale of the Capital Stock of PT Freeport Indonesia (other than any noncash proceeds from the sale of up to 4.78 percent of the Capital Stock of PT Freeport Indonesia relating to the PT Freeport Indonesia Guarantee) shall be used to prepay, repay, purchase, repurchase, redeem, retire, defease or otherwise acquire for value Senior Indebtedness, in which case the Company or such Restricted Subsidiary will retire such Senior Indebtedness and will cause the related loan commitment (if any) to be permanently reduced in an amount equal to the principal amount so prepaid, repaid, purchased, repurchased, redeemed, retired, defeased or otherwise acquired for value.

Except as provided in clause (4) above, the proceeds of any sale of such Capital Stock permitted hereby will be treated as Net Available Cash from an Asset Disposition and must be applied in accordance with the terms of the covenant described under *Limitation on Sales of Assets and Subsidiary Stock*.

Limitation on Liens. The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly, incur or permit to exist any Lien of any nature whatsoever on any of its property or assets (including Capital Stock of a Restricted Subsidiary), whether owned at the Closing Date or thereafter acquired, other than Permitted Liens, without effectively providing that the notes shall be secured equally and ratably with (or prior to) the obligations so secured for so long as such obligations are so secured; *provided, however*, that the Company may incur other Liens (in addition to Permitted Liens) to secure Indebtedness as long as the amount of outstanding Indebtedness secured by Liens Incurred pursuant to this proviso does not exceed five percent of Consolidated Net Tangible Assets, as determined based on the consolidated balance sheet of the Company as of the end of the most recent fiscal quarter ending for which financial statements are available prior thereto.

SEC Reports. The Company will file with the SEC and provide the Trustee and Holders and prospective Holders (upon request) within 15 days after it files them with the SEC, copies of its annual report and the information, documents and other reports that are specified in Sections 13 and 15(d) of the Exchange Act. The Company also will comply with the other provisions of Section 314(a) of the TIA.

Future Note Guarantors. The Company will cause each Subsidiary that enters into a Guarantee of any of the Company's future Indebtedness, other than Indebtedness outstanding from time to time under the Credit Facilities not in excess of the amount permitted under clause (1) of subparagraph (b) of the covenant described under *Limitation on Indebtedness*, to become a Note Guarantor, and, if applicable, execute and deliver to the Trustee a supplemental indenture in the form set forth in the Indenture pursuant to which such Subsidiary will Guarantee payment of the notes. Each Note Guarantee will be limited to an amount not to exceed the maximum amount that can be Guaranteed by that Note Guarantor without rendering the Note Guarantee, as it relates to such Note Guarantor voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally.

Limitation on Sale/Leaseback Transactions. The Company will not, and will not permit any Restricted Subsidiary to, enter into any Sale/Leaseback Transaction with respect to any property unless:

(1)

the Company or such Restricted Subsidiary would be entitled to:

(A)

Incur Indebtedness in an amount equal to the Attributable Debt with respect to such Sale/Leaseback Transaction pursuant to the covenant described under Limitation on Indebtedness, and

(B)

create a Lien on such property securing such Attributable Debt without equally and ratably securing the notes pursuant to the covenant described under Limitation on Liens,

(2)

the net proceeds received by the Company or such Restricted Subsidiary in connection with such Sale/Leaseback Transaction are at least equal to the Fair Market Value of such property; and

(3)

the transfer of such property is permitted by, and the Company applies the proceeds of such transaction in compliance with, the covenant described under Limitation on Sales of Assets and Subsidiary Stock.

Merger and Consolidation

The Company will not consolidate with or merge with or into, or convey, transfer or lease all or substantially all its assets to, any Person, unless:

(1)

the resulting, surviving or transferee Person (the Successor Company) will be a corporation organized and existing under the laws of the United States of America, any State thereof or the District of Columbia and the Successor Company (if not the Company) will expressly assume, by a supplemental indenture, executed and delivered to the Trustee, in form satisfactory to the Trustee, all the obligations of the Company under the notes and the Indenture;

(2)

immediately after giving effect to such transaction (and treating any Indebtedness which becomes an obligation of the Successor Company or any Restricted Subsidiary as a result of such transaction as having been Incurred by the Successor Company or such Restricted Subsidiary at the time of such transaction), no Default shall have occurred and be continuing;

(3)

immediately after giving effect to such transaction, the Successor Company would be able to Incur an additional \$1.00 of Indebtedness under paragraph (a) of the covenant described under Limitation on Indebtedness ;

(4)

immediately after giving effect to such transaction, the Successor Company will have Consolidated Net Worth in an amount which is not less than the Consolidated Net Worth of the Company immediately prior to such transaction;

(5)

the Company shall have delivered to the Trustee an Officers Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indenture (if any) comply with the Indenture; and

(6)

the Company shall have delivered to the Trustee an Opinion of Counsel to the effect that the Holders will not recognize income, gain or loss for Federal income tax purposes as a result of such transaction and will be subject to Federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such transaction had not occurred.

The Successor Company will succeed to, and be substituted for, and may exercise every right and power of, the Company under the Indenture, but the predecessor Company in the case of a conveyance, transfer or lease of all or substantially all its assets will not be released from the obligation to pay the principal of and interest on the notes.

Notwithstanding the foregoing:

(A)

any Restricted Subsidiary may consolidate with, merge into or transfer all or part of its properties and assets to the Company, and

(B)

the Company may merge with an Affiliate incorporated solely for the purpose of reincorporating the Company in another jurisdiction to realize tax or other benefits.

Defaults

Each of the following is an Event of Default:

(1)

a default in any payment of interest (including additional interest, if any) on any note when due and payable continued for 30 days,

(2)

a default in the payment of principal of any note when due and payable at its Stated Maturity, upon required redemption or repurchase, upon declaration or otherwise,

(3)

the failure by the Company or any Restricted Subsidiary to comply with its obligations under the covenant described under **Merger and Consolidation** above,

(4)

the failure by the Company or any Restricted Subsidiary to comply for 30 days after notice with any of its obligations under the covenants described under **Change of Control** or **Certain Covenants** above (in each case, other than a failure to purchase notes),

(5)

the failure by the Company or any Restricted Subsidiary to comply for 60 days after notice with its other agreements contained in the notes or the Indenture,

(6)

the failure by the Company or any Restricted Subsidiary to pay any Indebtedness or any interest thereon within any applicable grace period after final maturity or the acceleration of any such Indebtedness by the holders thereof because

of a default if the total amount of such Indebtedness unpaid or accelerated exceeds \$10.0 million or its foreign currency equivalent (the cross acceleration provision),

(7)

certain events of bankruptcy, insolvency or reorganization of the Company or a Significant Subsidiary (the bankruptcy provisions), or

(8)

the rendering of any judgment or decree for the payment of money in excess of \$10.0 million or its foreign currency equivalent against the Company or a Subsidiary if:

(A)

an enforcement proceeding thereon is commenced by any creditor or

(B)

such judgment or decree remains outstanding for a period of 60 days following such judgment and is not discharged, waived or stayed (the judgment default provision).

The foregoing will constitute Events of Default whatever the reason for any such Event of Default and whether it is voluntary or involuntary or is effected by operation of law or pursuant to any judgment, decree or order of any court or any order, rule or regulation of any administrative or governmental body.

However, a default under clauses (4), (5) or (6) will not constitute an Event of Default until the Trustee notifies the Company or the Holders of at least 25 percent in principal amount of the outstanding notes notify the Company and the Trustee of the default and the Company or the Restricted Subsidiary, as applicable, does not cure such default within the time specified in clauses (4), (5) or (6) hereof after receipt of such notice.

If an Event of Default (other than an Event of Default relating to certain events of bankruptcy, insolvency or reorganization of the Company) occurs and is continuing, the Trustee or the Holders of at least 25 percent in principal amount of the outstanding notes by notice to the Company and the Trustee may declare the principal of and accrued but unpaid interest on all the notes to be due and payable. Upon such a declaration, such principal and interest will be due and payable immediately. If an Event of Default relating to certain events of bankruptcy, insolvency or reorganization of the Company occurs, the principal of and interest on all the notes will become immediately due and payable without any declaration or other act on the part of the Trustee or any Holders. Under certain circumstances, the Holders of a majority in principal amount of the outstanding notes may rescind any such acceleration with respect to the notes and its consequences.

Subject to the provisions of the Indenture relating to the duties of the Trustee, in case an Event of Default occurs and is continuing, the Trustee will be under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any of the Holders unless such Holders have offered to the Trustee reasonable indemnity or security against any loss, liability or expense. Except to enforce the right to receive payment of principal, premium (if any) or interest when due, no Holder may pursue any remedy with respect to the Indenture or the notes unless:

(1)

such Holder has previously given the Trustee notice that an Event of Default is continuing,

(2)

Holders of at least 25 percent in principal amount of the outstanding notes have requested the Trustee in writing to pursue the remedy,

(3)

such Holders have offered the Trustee reasonable security or indemnity against any loss, liability or expense,

(4)

the Trustee has not complied with such request within 60 days after the receipt of the request and the offer of security or indemnity, and

(5)

the Holders of a majority in principal amount of the outstanding notes have not given the Trustee a direction inconsistent with such request within such 60-day period.

Subject to certain restrictions, the Holders of a majority in principal amount of the outstanding notes will be given the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee. The Trustee, however, may refuse to follow any direction that conflicts with law or the Indenture or that the Trustee determines is unduly prejudicial to the rights of any other Holder or that would involve the Trustee in personal liability. Prior to taking any action under the Indenture, the Trustee will be entitled to indemnification satisfactory to it in its sole discretion against all losses and expenses caused by taking or not taking such action.

If a Default occurs and is continuing and is known to the Trustee, the Trustee must mail to each Holder notice of the Default within the earlier of 90 days after it occurs or 30 days after it is known to a Trust Officer or written notice of it is received by the Trustee. Except in the case of a Default in the payment of principal of, premium (if any) or interest on any note (including payments pursuant to the mandatory redemption provisions of such note), the Trustee may

withhold notice if and so long as a committee of its Trust Officers in good faith determines that withholding notice is in the interests of the Holders. In addition, the Company will be required to deliver to the Trustee, within 120 days after the end of each fiscal year, a certificate indicating whether the signers thereof know of any Default that occurred during the previous year. The Company will also be required to deliver to the Trustee, within 30 days after the occurrence thereof, written notice of any event which would constitute certain Events of Default, their status and what action the Company is taking or proposes to take in respect thereof.

Amendments and Waivers

Subject to certain exceptions, the Indenture or the notes may be amended with the written consent of the Holders of a majority in principal amount of the notes then outstanding and any past default or compliance with any provisions may be waived with the consent of the Holders of a majority in principal amount of the notes then outstanding. However, without the consent of each Holder of an outstanding note affected, no amendment may, among other things:

(1)

reduce the amount of notes whose Holders must consent to an amendment,

(2)

reduce the rate of or extend the time for payment of interest (including additional interest, if any) on any note,

(3)

reduce the principal of or extend the Stated Maturity of any note,

(4)

reduce the premium payable upon the redemption of any note or change the time at which any note may be redeemed as described under Optional Redemption above,

(5)

make any note payable in money other than that stated in the note,

(6)

impair the right of any Holder to receive payment of principal of, and interest (including additional interest, if any) on, such Holder's notes on or after the due dates therefor or to institute suit for the enforcement of any payment on or with respect to such Holder's notes, or

(7)

make any change in the amendment provisions which require each Holder's consent or in the waiver provisions.

Without the consent of any Holder, the Company and the Trustee may amend the Indenture or the notes to:

*

cure any ambiguity, omission, defect or inconsistency,

*

provide for the assumption by a successor corporation of the obligations of the Company under the Indenture,

*

provide for uncertificated notes in addition to or in place of certificated notes (*provided, however*, that the uncertificated notes are issued in registered form for purposes of Section 163(f) of the Code, or in a manner such that the uncertificated notes are described in Section 163(f)(2)(B) of the Code),

*

add Guarantees with respect to the notes or to secure the notes,

*

add to the covenants of the Company for the benefit of the Holders or to surrender any right or power conferred upon the Company,

*

make any change that does not adversely affect the rights of any Holder, subject to the provisions of the Indenture,

*

provide for the issuance of Exchange Notes or Additional Notes, or

*

comply with any requirement of the SEC in connection with the qualification of the Indenture under the TIA.

The consent of the Holders will not be necessary to approve the particular form of any proposed amendment. It will be sufficient if such consent approves the substance of the proposed amendment.

After an amendment becomes effective, the Company is required to mail to Holders a notice briefly describing such amendment. However, the failure to give such notice to all Holders, or any defect therein, will not impair or affect the validity of the amendment.

Transfer and Exchange

A Holder will be able to transfer or exchange notes. Upon any transfer or exchange, the registrar and the Trustee may require a Holder, among other things, to furnish appropriate endorsements and transfer documents and the Company may require a Holder to pay any taxes required by law or permitted by the Indenture. The Company will not be required to transfer or exchange any note selected for redemption or to transfer or exchange any note for a period of 15 days prior to a selection of notes to be redeemed. The notes will be issued in registered form and the Holder will be treated as the owner of such note for all purposes.

Defeasance

The Company may at any time terminate all its obligations under the notes and the Indenture (legal defeasance), except for certain obligations, including those respecting the defeasance trust and obligations to register the transfer or exchange of the notes, to replace mutilated, destroyed, lost or stolen notes and to maintain a registrar and paying agent in respect of the notes.

In addition, the Company may at any time terminate:

(1)
its obligations under **Change of Control** and the covenants described under **Certain Covenants**, and

(2)
the operation of the cross acceleration provision, the bankruptcy provisions with respect to Significant Subsidiaries and the judgment default provision described under **Defaults** above and the limitations contained in clauses (3) and (4) under the first paragraph of **Merger and Consolidation** above (covenant defeasance).

The Company may exercise its legal defeasance option notwithstanding its prior exercise of its covenant defeasance option. If the Company exercises its legal defeasance option, payment of the notes may not be accelerated because of an Event of Default with respect thereto. If the Company exercises its covenant defeasance option, payment of the notes may not be accelerated because of an Event of Default specified in clause (4), (6) or (7) (with respect only to Significant Subsidiaries), (8) (with respect only to Significant Subsidiaries) under **Defaults** above or because of the failure of the Company to comply with clause (3) or (4) under the first paragraph of **Merger and Consolidation** above.

In order to exercise either defeasance option, the Company must irrevocably deposit in trust (the defeasance trust) with the Trustee money in an amount sufficient or U.S. Government Obligations, the principal of and interest on which will be sufficient, or a combination thereof sufficient, to pay the principal of, premium (if any) and interest (including additional interest, if any) on, in respect of the notes to redemption or maturity, as the case may be, and must comply with certain other conditions, including delivery to the Trustee of an Opinion of Counsel to the effect that Holders will not recognize income, gain or loss for Federal income tax purposes as a result of such deposit and defeasance and will be subject to Federal income tax on the same amounts and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred (and, in the case of legal defeasance only, such Opinion of Counsel must be based on a ruling of the Internal Revenue Service or other change in applicable Federal income tax law).

Concerning the Trustee

The Bank of New York is to be the Trustee under the Indenture and has been appointed by the Company as Registrar and Paying Agent with regard to the notes.

Governing Law

The Indenture and the notes will be governed by, and construed in accordance with, the laws of the State of New York without giving effect to applicable principles of conflicts of law to the extent that the application of the law of another jurisdiction would be required thereby.

(2)

Consolidated Interest Expense for such four fiscal quarters;

(A)

if the Company or any Restricted Subsidiary has Incurred any Indebtedness since the beginning of such period that remains outstanding on such date of determination or if the transaction giving rise to the need to calculate the Consolidated Coverage Ratio is an Incurrence of Indebtedness, EBITDA and Consolidated Interest Expense for such period shall be calculated after giving effect on a pro forma basis to such Indebtedness as if such Indebtedness had been Incurred on the first day of such period and the discharge of any other Indebtedness repaid, repurchased, defeased or otherwise discharged with the proceeds of such new Indebtedness as if such discharge had occurred on the first day of such period,

(B)

if the Company or any Restricted Subsidiary has repaid, repurchased, defeased or otherwise discharged any Indebtedness since the beginning of such period or if any Indebtedness is to be repaid, repurchased, defeased or otherwise discharged (in each case other than Indebtedness Incurred under any revolving credit facility unless such Indebtedness has been permanently repaid and has not been replaced) on the date of the transaction giving rise to the need to calculate the Consolidated Coverage Ratio, EBITDA and Consolidated Interest Expense for such period shall be calculated on a pro forma basis as if such discharge had occurred on the first day of such period and as if the Company or such Restricted Subsidiary has not earned the interest income actually earned during such period in respect of cash or Temporary Cash Investments used to repay, repurchase, defease or otherwise discharge such Indebtedness,

(C)

if since the beginning of such period the Company or any Restricted Subsidiary shall have made any Asset Disposition, the EBITDA for such period shall be reduced by an amount equal to the EBITDA (if positive) directly attributable to the assets that are the subject of such Asset Disposition for such period or increased by an amount equal to the EBITDA (if negative) directly attributable thereto for such period and Consolidated Interest Expense for such period shall be reduced by an amount equal to the Consolidated Interest Expense directly attributable to any Indebtedness of the Company or any Restricted Subsidiary repaid, repurchased, defeased or otherwise discharged with respect to the Company and its continuing Restricted Subsidiaries in connection with such Asset Disposition for such period (or, if the Capital Stock of any Restricted Subsidiary is sold, the Consolidated Interest Expense for such period directly attributable to the Indebtedness of such Restricted Subsidiary to the extent the Company and its continuing Restricted Subsidiaries are no longer liable for such Indebtedness after such sale),

(D)

(E)

if since the beginning of such period any Person (that subsequently became a Restricted Subsidiary or was merged with or into the Company or any Restricted Subsidiary since the beginning of such period) shall have made any Asset Disposition or any Investment or acquisition of assets that would have required an adjustment pursuant to clause (C) or (D) above if made by the Company or a Restricted Subsidiary during such period, EBITDA and Consolidated Interest Expense for such period shall be calculated after giving pro forma effect thereto as if such Asset Disposition, Investment or acquisition of assets occurred on the first day of such period.

If any Indebtedness bears a floating rate of interest and is being given pro forma effect, the interest expense on such Indebtedness shall be calculated as if the rate in effect on the date of determination had been the applicable rate for the entire period (taking into account any Interest Rate Agreement applicable to such Indebtedness if such Interest Rate Agreement has a remaining term as at the date of determination in excess of 12 months).

Registration Rights

We entered into a registration rights agreement with the initial purchasers on the Closing Date. In that agreement, we agreed for the benefit of the Holders that we will use our reasonable best efforts to file with the SEC and cause to become effective a registration statement relating to an offer to exchange the outstanding notes for an issue of SEC-registered notes with terms identical to the notes (except that the exchange notes will not be subject to restrictions on transfer or to any increase in annual interest rate as described below).

When the SEC declares the exchange offer registration statement effective, we will offer the exchange notes in return for the outstanding notes. The exchange offer will remain open for at least 20 business days after the date we mail notice of the exchange offer to Holders. For each outstanding note surrendered to us under the exchange offer, the Holder will receive an exchange note of equal principal amount. The exchange notes will bear interest from their date of issuance. Holders of outstanding notes that are accepted for exchange will receive, in cash, accrued interest thereon to, but not including, the date of issuance of the exchange notes. Such interest will be paid with the first interest payment on the exchange notes on August 1, 2004. Interest on the outstanding notes accepted for exchange will cease to accrue upon issuance of the exchange notes. Interest on the exchange notes is payable semi-annually on each February 1 and August 1, commencing on August 1, 2004.

If applicable interpretations of the staff of the SEC do not permit us to effect the exchange offer, we will use our reasonable best efforts to cause to become effective a shelf registration statement relating to resales of the outstanding notes and to keep that shelf registration statement effective until the expiration of the time period referred to in Rule 144(k) under the Securities Act, or such shorter period that will terminate when all outstanding notes covered by the shelf registration statement have been sold. We will, in the event of such a shelf registration, provide to each Holder copies of a prospectus, notify each Holder when the shelf registration statement has become effective and take certain other actions to permit resales of the outstanding notes. A Holder that sells outstanding notes under the shelf registration statement generally will be required to be named as a selling security holder in the related prospectus and to deliver a prospectus to purchasers, will be subject to certain of the civil liability provisions under the Securities Act in connection with those sales and will be bound by the provisions of the registration rights agreement that are applicable to such a Holder (including certain indemnification obligations).

If the exchange offer is not completed (or, if required, the shelf registration statement is not declared effective) on or before the date that is 240 days after the Closing Date, the annual interest rate borne by the outstanding notes will be increased by 1.0 percent per annum until the exchange offer is completed or the shelf registration statement is declared effective.

If we effect the exchange offer, we will be entitled to close the exchange offer 20 business days after its commencement, provided that we have accepted all outstanding notes validly surrendered in accordance with the terms of the exchange offer. Outstanding notes not tendered in the exchange offer shall bear interest at their initial rate and be subject to all the terms and conditions specified in the Indenture, including transfer restrictions.

This summary of the provisions of the registration rights agreement does not purport to be complete and is subject to, and is qualified in its entirety by reference to, all of the provisions of the registration rights agreement.

CERTAIN UNITED STATES FEDERAL TAX CONSIDERATIONS

The following discussion is a summary of the material United States federal income tax consequences relevant to the exchange of the outstanding notes pursuant to this exchange offer and the ownership and disposition of the exchange notes, but does not purport to be a complete analysis of all potential tax effects. The discussion is based upon the Internal Revenue Code of 1986, as amended (the Code), United States Treasury Regulations issued thereunder, Internal Revenue Service rulings and pronouncements and judicial decisions now in effect, all of which are subject to change at any time. Any such change may be applied retroactively in a manner that could adversely affect a holder of the notes. This discussion does not address all of the United States federal income tax consequences that may be relevant to a holder in light of such holder's particular circumstances or to holders subject to special rules, such as certain financial institutions, U.S. expatriates, insurance companies, dealers in securities or currencies, traders in securities, holders whose functional currency is not the U.S. dollar, tax-exempt organizations and persons holding the notes as part of a straddle, hedge, conversion transaction or other integrated transaction. Moreover, the effect of any applicable state, local or foreign tax laws is not discussed. The discussion deals only with notes held as capital assets within the meaning of Section 1221 of the Code.

We have not sought and will not seek any rulings from the Internal Revenue Service (the IRS) with respect to the matters discussed below. There can be no assurance that the IRS will not take a different position concerning the tax consequences of the purchase, ownership or disposition of the notes or that any such position would not be sustained. If a partnership or other entity taxable as a partnership holds the notes, the tax treatment of a partner will generally depend on the status of the partner and the activities of the partnership.

You should consult your tax advisors as to the particular tax considerations to you of the acquisition, ownership and disposition of the notes, including the effect and applicability of local, state or foreign tax laws.

Federal Income Tax Consequences of the Exchange Offer

The exchange of the outstanding notes for the exchange notes in the exchange offer will not be treated as an exchange for federal income tax purposes, because the exchange notes will not be considered to differ materially in kind or extent from the outstanding notes. Accordingly, the exchange of outstanding notes for exchange notes will not be a taxable event to holders for federal income tax purposes. Moreover, the exchange notes will have the same tax attributes as the outstanding notes and the same tax consequences to holders as the outstanding notes have to holders, including without limitation, the same issue price, adjusted issue price, adjusted tax basis and holding period. Therefore, references to notes apply equally to the exchange notes and the outstanding notes.

Tax Consequence to U.S. Holders

For purposes of this discussion, a U.S. Holder means a holder of a note that is any of the following:

- (i) an individual who is a citizen or resident (as defined in Section 7701(b) of the Code) of the United States for U.S. federal income tax purposes;

(ii)

a corporation (or an entity treated as a corporation) created or organized in or under the laws of the United States or any state or the District of Columbia;

(iii)

an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or

(iv)

a trust if (A) a U.S. court is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust or (B) it has a valid election in effect under applicable Treasury Regulation to be treated as a U.S. person.

The Notes

Treatment of Interest.

Stated interest on the notes will be taxable to a U.S. Holder as ordinary income as the interest accrues or is paid (in accordance with the U.S. Holder's method of tax accounting). Interest income will generally be foreign source income.

We are obligated to pay additional interest on the notes to the holders under certain circumstances described under Description of the Notes Registration Rights. We intend to treat the possibility that such payments will be made as a remote or incidental contingency, within the meaning of the applicable Treasury Regulations, and therefore, we believe that this possibility will not affect the determination of the yield to maturity on the notes upon their issuance.

In the unlikely event that an additional amount becomes due on the notes, we believe U.S. Holders will be taxable on such amount at the time it accrues or is received (in accordance with the U.S. Holder's method of tax accounting). As described under Description of Notes Change of Control, under certain circumstances, the holders of the notes will have the right to require us to purchase their notes at a price in excess of the aggregate principal amount, plus accrued interest. We intend to take the position that the likelihood of any such repurchase is remote and do not intend to treat the possibility as affecting the yield and maturity of the notes. Our determination that the possibilities of a repurchase at the option of the Holders on the repayment of additional interest are remote is binding on each U.S. Holder unless the holder explicitly discloses to the IRS that its determination is different than ours in the manner required by the applicable Treasury Regulations. Our determination is not binding on the IRS, which may take a different position that could affect the timing of both a U.S. Holder's income and our deduction with respect to such additional payments and could also affect the character of any gain or loss on the disposition of the note.

Sale, Exchange or Retirement of a Note.

Each U.S. Holder generally will recognize capital gain or loss upon a sale, exchange (other than for an exchange note) or retirement of a note measured by the difference, if any, between (i) the amount of cash and the fair market value of

any property received (except to the extent that the cash or other property received in respect of a note is attributable to the payment of accrued interest on the note not previously included in income, which amount will be taxable as ordinary income) and (ii) the holder's adjusted tax basis in the note. The gain or loss will be long-term capital gain or loss if the note has been held for more than one year at the time of the sale, exchange or retirement. The deductibility of capital losses is subject to limitations.

Prospective investors should be aware that the resale of a note may be affected by the market discount rules of the Code, under which a portion of any gain realized on the retirement or other disposition of a note by a subsequent holder that acquires the note at a market discount generally would be treated as ordinary income to the extent of the market discount that accrues while that holder holds the note.

Backup Withholding and Information Reporting

We or our designated paying agent will, where required, report to U.S. Holders and the IRS the amount of any interest paid on the notes in each calendar year and the amount of tax, if any, withheld with respect to such payments.

Under the backup withholding provisions of the Code and the applicable Treasury Regulations, a U.S. Holder may be subject to backup withholding at the rate provided in Code section 3406(a)(1), which is currently 28 percent, with respect to dividends or interest paid on, or the proceeds of a sale, exchange or redemption of, the notes, unless:

*

The U.S. Holder is a corporation or comes within certain other exempt categories and when required demonstrates this fact; or

*

The U. S. Holder provides a correct taxpayer identification number, certifies as to no loss of exemption from backup withholding and otherwise complies with applicable requirements of the backup withholding rules.

The amount of any backup withholding from a payment to a U.S. Holder will be allowed as a credit against the U.S. Holder's federal income tax liability and may entitle such holder to a refund, provided that the required information is furnished to the IRS.

Tax Consequences to Non-U.S. Holders

The following general discussion is limited to certain U.S. federal income tax consequences to a purchaser of a note that is a Non-U.S. Holder. As used herein, a Non-U.S. Holder is a beneficial owner of a note, that, for U.S. federal income tax purposes, is not a U.S. Holder. For purposes of the withholding tax discussed below (other than backup withholding), a Non-U.S. Holder includes a nonresident fiduciary of an estate or trust. For purposes of the discussion below, interest and gain on the sale, exchange or other disposition of the notes will be considered to be U.S. trade or business income if such income or gain is:

*

effectively connected with the conduct of a U.S. trade or business; or

*

in the case of a treaty resident, attributable to a U.S. permanent establishment (or, in the case of an individual, a fixed base) in the United States.

The Notes

U.S. Federal Withholding Tax.

The 30 percent U.S. federal withholding tax (or, if applicable, a lower treaty rate) will not apply to any payment of principal, interest, or premium made to a Non-U.S. Holder provided that:

*

the Non-U.S. Holder does not actually or constructively own 10 percent or more of the total combined voting power of all classes of our stock;

*

the Non-U.S. Holder is not a controlled foreign corporation that is related to us through stock ownership; or

*

the Non-U.S. Holder is not a bank whose receipt of interest on the notes is pursuant to a loan agreement entered into in the ordinary course of business.

In each case, (a) a Non-U.S. Holder must provide its name and address on an IRS Form W-8BEN (or successor form), and certify, under penalty of perjury, that it is not a U.S. Person, or (b) a financial institution holding the notes on a Non-U.S. Holder's behalf certifies, under penalty of perjury, that it has received an IRS Form W-8BEN (or successor form) from the beneficial owner and provides us with a copy.

If you cannot satisfy the requirements described above, payments of premium and interest made to you will be subject to the 30 percent U.S. federal withholding tax, unless you provide us with a properly executed (1) IRS Form W-8BEN (or successor form) claiming an exemption from (or reduction of) withholding under the benefit of a tax treaty, or (2) IRS Form W-8ECI (or successor form) stating that interest paid on the note is not subject to withholding tax because it is effectively connected with your conduct of a trade or business in the United States.

Payments of additional interest described under Description of Notes Exchange Offer; Registration Rights, may be subject to United States federal withholding tax. We intend to withhold tax at a rate of 30 percent on any payment of such interest made to the Non-U.S. Holders unless we receive an IRS Form W-8BEN (or successor form) or an IRS Form W-8ECI (or successor form) from the Non-U.S. Holder claiming, respectively, that such payments are subject to reduction or elimination of withholding under an applicable treaty or that such payments are effectively connected with the holder's conduct of a trade or business in the United States. If we withhold tax from any payment of additional interest made to a Non-U.S. Holder and such payment were determined not to be subject to United States federal tax, a Non-U.S. Holder would be entitled to a refund of any tax withheld.

Sale or Exchange of Notes

A non-United States Holder will generally not be subject to United States federal income tax or withholding tax on gain recognized on the sale, exchange, redemption, retirement or other disposition of a note. However, a non-United States Holder may be subject to tax on such gain if such holder is an individual who was present in the United States for 183 days or more in the taxable year of the disposition and certain other conditions are met, in which case such holder may have to pay a United States federal income tax of 30 percent (or, if applicable, a lower treaty rate) on such gain.

If interest or gain from a disposition of the notes is effectively connected with a non-United States Holder's conduct of a United States trade or business, or if an income tax treaty applies and the non-United States Holder maintains a United States permanent establishment to which the interest or gain is generally attributable, the non-United States Holder may be subject to United States federal income tax on the interest or gain on a net basis in the same manner as if it were a United States Holder. If interest income received with respect to the notes is taxable on a net basis, the 30 percent withholding tax described above will not apply (assuming an appropriate certification is provided). A foreign corporation that is a holder of a note also may be subject to a branch profits tax equal to 30 percent of its effectively connected earnings and profits for the taxable year, subject to certain adjustments, unless it qualifies for a lower rate under an applicable income tax treaty. For this purpose, interest on a note or gain recognized on the disposition of a note will be included in earnings and profits if the interest or gain is effectively connected with the conduct by the foreign corporation of a trade or business in the United States.

Treatment of the Notes for United States Federal Estate Tax Purposes.

Notes held (or treated as held) by an individual who is a Non-U.S. Holder at the time of his or her death will not be subject to U.S. federal estate tax, provided that, at the time of death, the Non-U.S. Holder does not actually or constructively own 10 percent or more of the total combined voting power of all classes of our stock and payments of interest on such notes would not have been considered U.S. trade or business income.

Information Reporting Requirements and Backup Withholding Tax

We will, when required, report to the IRS and to each Non-U.S. Holder the amount of any interest paid on the notes in each calendar year, and the amount of tax withheld, if any, with respect to such payments.

In general, you will not be subject to information reporting and backup withholding with respect to payments that we make to you provided that we do not have actual knowledge that you are a U.S. Person and we have received from you the statement described above under U.S. Federal Withholding Tax.

Information reporting requirements and backup withholding generally will not apply to any payments of the proceeds of the sale of a note effected outside the U.S. by a foreign office or a foreign broker (as defined in applicable Treasury regulations). However, unless such broker has documentary evidence in its records that the beneficial owner is a Non-U.S. Holder and certain other conditions are met, or the beneficial owner otherwise establishes an exemption, information reporting (but not backup withholding) will apply to any such payments effected outside the U.S. by such a broker if it (1) derives 50 percent or more of its gross income for certain periods from the conduct of a trade or business in the U.S.; (2) is a controlled foreign corporation for U.S. federal income tax purposes; or (3) is a foreign partnership that, at any time during its taxable year, has 50 percent or more of its income or capital interests owned by U.S. persons or is engaged in the conduct of a U.S. trade or business.

In addition, you will generally not be subject to information reporting and backup withholding with respect to the proceeds of the sale of a note effected by the U.S. office of a broker, if the payor receives the statement described above and does not have actual knowledge that you are a U.S. Person, or you otherwise establish an exemption.

Any amounts withheld under the backup withholding rules will be allowed as a refund or credit against your U.S. federal income tax liability provided that the required information is furnished to the IRS.

PLAN OF DISTRIBUTION

Each broker-dealer that receives exchange notes for its own account in exchange for outstanding notes that it acquired as a result of market-making activities or any other trading activities must acknowledge that it will deliver a prospectus together with any resale of those exchange notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in the resales of such exchange notes. We have agreed that for a

period of up to 180 days after the consummation of the exchange offer, we will make this prospectus, as amended or supplemented, available to any participating broker-dealer for use in any such resale.

We will not receive any proceeds from any sale of exchange notes by broker-dealers or any other persons. Exchange notes received by broker-dealers for their own account pursuant to the exchange offer may be sold from time to time in one or more transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the exchange notes or a combination of such methods of resale, at market prices prevailing at the time of resale, at prices related to such prevailing market prices or at negotiated prices. Any such resale may be made directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any such broker-dealer and/or the purchasers of any such exchange notes. Any broker-dealer that resells exchange notes may be deemed to be an underwriter within the meaning of the Securities Act, and any profit on any such resale of exchange notes and any commissions or concessions received by any such persons may be deemed to be underwriting compensation under the Securities Act. The letter of transmittal states that by acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act.

For a period of 180 days after the expiration date we will promptly send additional copies of this prospectus and any amendment or supplement to this prospectus to any participating broker-dealer that requests such documents in the letter of transmittal.

Prior to the exchange offer, there has not been any public market in the United States for the outstanding notes. The outstanding notes have not been registered under the Securities Act and will be subject to restrictions on transferability to the extent that they are not exchanged for exchange notes by holders who are entitled to participate in this exchange offer. The holders of outstanding notes, other than any holder who is our affiliate within the meaning of Rule 405 under the Securities Act, who are not eligible to participate in the exchange offer are entitled to certain registration rights, and we are required to file a shelf registration statement with respect to their outstanding notes. The exchange notes will constitute a new issue of securities with no established trading market. We do not intend to list the exchange notes on any national securities exchange or to seek the admission thereof to trading in the National Association of Securities Dealers Automated Quotation System. Accordingly, no assurance can be given that an active public or other market will develop for the exchange notes or as to the liquidity of the trading market for the exchange notes. If a trading market does not develop or is not maintained, holders of the exchange notes may experience difficulty in reselling the exchange notes or may be unable to sell them at all. If a market for the exchange notes develops, any such market may be discontinued at any time.
