NEWS RELEASE

ROWAN COMPANIES, INC.
2800 POST OAK BOULEVARD, SUITE 5450

Edgar Filing: ROWAN COMPANIES INC - Form 8-K

HOUSTON, TEXAS 77056 (713) 621-7800

FOR IMMEDIATE RELEASE

October 15, 2003

HOUSTON, TEXAS -- ROWAN REPORTS IMPROVED OPERATING RESULTS.

For the three months ended September 30, 2003, Rowan Companies, Inc. (RDC-NYSE) generated net income of \$11.6 million, or \$.12 per share, on revenues of \$193.9 million, compared to a net loss of \$6.6 million, or \$.07 per share, on revenues of \$158.1 million in the second quarter of 2003, and net income of \$10.2 million, or \$.11 per share, on revenues of \$184.2 million in the third quarter of 2002.

Rowan's offshore rig utilization was 94% during the third quarter of 2003, versus 88% in the second quarter and 93% in the year-earlier period, and our average offshore day rate of \$49,100 increased by \$9,700, or 25%, from the second quarter and by \$7,200, or 17%, from the year-earlier period. Land rig utilization was 72% during the third quarter of 2003, versus 76% in the year-earlier period, and our average land rig day rate of \$11,000 increased by \$300, or 3%, from the second quarter and by \$1,400, or 15%, from the year-earlier period.

Bob Palmer, Chairman of the Board, commented, "We are pleased to return to profitability, but were disappointed with our third quarter performance. Unanticipated downtime in our Gulf of Mexico fleet hindered our drilling operations and our manufacturing and aviation financial results were less than we anticipated. Our longer-term outlook, however, remains highly favorable.

"We believe that foreign drilling markets will continue to attract competitive rigs, further tightening the Gulf of Mexico jack-up market. We are witnessing increasing opportunities abroad for our own harsh environment equipment. We expect that our average Gulf of Mexico jack-up day rates, which increased by 10% in the third quarter, will continue improving during the fourth quarter, and our fleet utilization will again increase. Of course, our optimism is based upon oil and natural gas prices sufficiently high enough to encourage exploration and development drilling by our customers. The prospects for our manufacturing operations are improving as backlog more than doubled during the third quarter to just over \$45 million, which is a five-year high."

Rowan Companies, Inc. is a major provider of international and domestic offshore contract drilling and aviation services. The Company also operates a mini-steel mill, a manufacturing facility that produces heavy equipment for the mining, timber and transportation industries, and a drilling products division that has designed or built about one-third of all mobile offshore jack-up drilling rigs, including all 23 operated by the Company. The Company's stock is traded on the New York Stock Exchange and the Pacific Stock Exchange. Common Stock trading symbol: RDC. Contact: William C. Provine, Vice-President - Investor Relations, 713-960-7575. Website: www.rowancompanies.com

This report contains forward looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including, without limitation, statements as to the expectations, beliefs and future expected financial performance of the Company that are based on current expectations and are subject to certain risks, trends and uncertainties that could cause actual results to differ materially from those projected by the Company. Among the factors that could cause actual results to differ materially include oil and natural gas prices, the level of offshore expenditures by energy companies, energy demand, the general economy, including inflation, weather conditions in the Company's principal operating areas and environmental and other laws and regulations. Other relevant factors have been disclosed in the Company's filings with the U. S. Securities and Exchange Commission.
