- (a) All or a portion of this security has been physically segregated in connection with swap agreements, line of credit, options and reverse repurchase agreements. As of August 31, 2010, the total amount segregated was \$131,474,300.

- (b) Securities are exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At August 31, 2010, these securities amounted to \$121,027,869 which represents 71.7% of net assets applicable to common shares.
- (c) Security has a fixed rate coupon which will convert to a floating or variable rate coupon on a future date.
- (d) Floating or Variable Rate Coupon. Rate shown is in effect at August 31, 2010.
- (e) Risk-Linked Security – A risk-linked security is a form of derivative issued by insurance companies and insurance related special purpose vehicles that apply securitization techniques to catastrophic property and casualty damages. The security is typically a debt obligation for which the return of principal and the payment of interest are contingent on the non-occurrence of a pre-defined “trigger event.” Depending on the specific terms and structure of the security, this trigger could be the result of a hurricane, earthquake or some other catastrophic event.
- (f) Security is valued in accordance with Fair Valuation procedures established in good faith by the Board of Trustees and is based, in part on significant unobservable inputs. The total market value of such securities is \$3,134,940 which represents 1.9% of net assets applicable to common shares.
- (g) All or a portion of this security was acquired, and has been physically segregated in connection with the Fund's participation in the Term Asset-Backed Securities Loan Facility program (the "TALF program") operated by the Federal Reserve Bank of New York. As of August 31, 2010, the total amount physically segregated was \$14,864,754.
- (h) Security is a "step-up" bond where the coupon increases or steps up at a predetermined date.
- (i) Non-income producing as security is in default.
- (j) All or a portion of this security position represents cover for outstanding options written.
- (k) Term loans held by the Fund have a variable interest rate feature which is periodically adjusted based on an underlying interest rate benchmark. In addition, term loans may include mandatory and/or optional prepayment terms. As a result, the actual maturity dates of the loans may be different than the amounts disclosed in the portfolio of investments. Term loans may be considered restricted in that the Fund may be contractually obligated to receive approval from the Agent Bank and/or Borrower prior to the sale or disposition of loan.
- (l) Non-income producing security.

(m) Represents 100 shares per contract.

					\$ (22,202)
Total Unrealized Appreciation for Swap Agreements					\$ 1,278,259

(1) The Fund receives a fixed rate based upon the notional amount of \$3 million and if a defined credit event occurs, pays cumulative losses in excess of a stated percentage on an underlying basket of distinct corporate entities with an aggregate notional value of \$3 billion. The maximum loss exposure is \$3 million.

(2) Implied credit spreads, represented in absolute terms, utilized in determining the market value of credit default swap agreements on corporate issues or sovereign issues of an emerging country as of period end serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default for the credit derivative. The implied credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into the agreement. Wider credit spreads represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement. A credit spread identified as "Defaulted" indicates a credit event has occurred for the referenced entity or obligation.

(3) The Fund pays the floating rate and receives the fixed rate.

(4) The Fund pays a floating rate and receives the total return of the Standard's & Poor's 500 Index.

At August 31, 2010, the cost and related gross unrealized appreciation and depreciation on investments for tax purposes are as follows:

	Gross Tax Unrealized Appreciation	Gross Tax Unrealized Depreciation	Net Tax Unrealized Appreciation on Investments
Cost of Investments for Tax Purposes			
\$ 220,479,064	\$ 18,883,680	\$ (15,881,937)	\$ 3,001,743

In accordance with ASC 820, Fair Value Measurements and Disclosures (“ASC 820”), fair value is defined as the price that the Fund would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. ASC 820 establishes three different categories for valuations. Level 1 valuations are those based upon quoted prices in active markets. Level 2 valuations are those based upon quoted prices in inactive markets or based upon significant observable inputs (e.g. yield curves; benchmark interest rates; indices). Level 3 valuations are those based upon unobservable inputs (e.g. discounted cash flow analysis; non-market based methods used to determine fair valuation).

The Fund has adopted the Accounting Standard Update, Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements which provides guidance on how investment assets and liabilities are to be valued and disclosed. Specifically, the amendment requires reporting entities to disclose i) the input and valuation techniques used to measure fair value for both recurring and nonrecurring fair value measurements, for Level 2 or Level 3 positions ii) transfers between all levels (including Level 1 and Level 2) on a gross basis (i.e. transfers out must be disclosed separately from transfers in) as well as the reason(s) for the transfer and iii) purchases, sales, issuances and settlements must be shown on a gross basis in the Level 3 rollforward rather than as one net number. The effective date of the amendment is for interim and annual periods beginning after December 15, 2009, however, the requirement to provide the Level 3 activity for purchases, sales, issuances and settlements on a gross basis will be effective for interim and annual periods beginning after December 15, 2010.

The Fund values Level 1 securities using readily available market quotations in active markets.

The Fund values Level 2 fixed income securities using independent pricing providers who employ matrix pricing models utilizing market prices, broker quotes and prices of securities with comparable maturities and qualities. To the extent Level 2 quotes are not readily available from the primary pricing vendor, additional inputs are used to determine market levels from alternate vendors or brokers as needed. For positions where such sources are not available (Level 3), fair value may be established using a variety of techniques. Investment information such as prices of comparable securities, evaluations of anticipated cash flows, or spreads to treasuries are used as appropriate to the security to model the valuation.

For fair valuations using unobservable inputs, ASC 820 requires a reconciliation of the beginning to ending balances for reported market values that presents changes attributable to total realized and unrealized gains or losses, purchases and sales, and transfers in/out of the Level 3 category during the period. The following table presents the reconciliation of the

Fund's investments measured at fair value using significant unobservable inputs (Level 3 valuations) for the period ended August 31, 2010. In addition to the observable inputs referenced earlier, the unobservable inputs used to value such securities include evaluations of anticipated cash flows, discount rates, default rates and other measures of illiquidity.
