Item 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE.

Directors

Our Board of Directors currently consists of six annually elected directors, Richard D. Fulmer, Stuart M. Krassner, Anthony E. Maida, Dilip J. Mehta, Rajesh C. Shrotriya and Julius A. Vida.

The following provides information regarding the current members of our Board of Directors, their ages, the year in which each first became a director of the Company, their principal occupations or employment during the past five years and any family relationship with any other director or executive officer of the Company:

Richard D. Fulmer, M.B.A. Mr. Fulmer, 61, has been a director of Spectrum since September 2005. His career spans over thirty years, including twenty-four years spent at Pfizer, Inc., a NYSE listed pharmaceutical company, where he held senior positions in marketing, business development, and general management. Mr. Fulmer retired from Pfizer in 2001 and since that time has served as a business advisor to early stage companies in the pharmaceutical industry. He is an Advisory Board Member of Avaan Therapeutics, Inc. From 1998 until his retirement, Mr. Fulmer was Vice President and General Manager of Pfizer's US Veterinary healthcare business, with accountability for the management of sales, marketing, and medical operations. Prior to that assignment, Mr. Fulmer served as Pfizer's Vice President for Licensing and Development from 1993 to 1997, with responsibility for corporate licensing and business development activity, which included the acquisition of new drugs and technology for the global pharmaceutical business. Chief among his accomplishments was the formation of a strategic alliance with Eisai for the Alzheimer's drug Aricept. He also led the effort to license the cholesterol reduction product Lipitor, and was also responsible for creating a multi-company alliance for the commercialization of Exubera, a pulmonary insulin product. During his tenure in licensing, he became a prominent speaker at industry conferences and a member of the Licensing Executive Society. Mr. Fulmer was also a Vice President of Marketing for Pfizer where he played a key role in the introduction and commercial success of several market leading drugs, including Diflucan, Zolofit, and Glucotrol. Prior to joining Pfizer, Mr. Fulmer was a Senior Financial Analyst for the Ford Motor Company and served as a Captain in the United States Marine Corps. He received an MBA in Finance from George Washington University in 1973. He also holds a B.S. in Economics from the University of Oregon (1967) and a Diploma in International Business from the Netherlands School of Business, Nijenrode University.

The Company will disclose any waivers of provisions of our Code of Business Conduct and Ethics that apply to our directors and principal executive, financial and accounting officers by disclosing such information on Form 8-K.

Item 11. EXECUTIVE COMPENSATION.

Compensation Discussion and Analysis

About the Compensation Committee

The Compensation Committee of the Board of Directors is comprised of three directors each of whom is independent within the meaning of the NASDAQ director independence standards, a non-employee director within the meaning of Rule 16b-3 under the Exchange Act, and an outside director under Section 162(m) of the Internal Revenue Code of 1986, as amended. The Compensation Committee's responsibilities include, but are not limited to: reviewing and evaluating the Company's compensation arrangements for executive officers, reviewing the compensation philosophy of the Company, determining the compensation of the chief executive officer (CEO) and other executive officers of the Company, and reviewing and approving bonus compensation plans, including equity incentive awards. The Compensation Committee determines the compensation of the Company's CEO independently, and the compensation of other executive officers in consultation with the CEO. The Compensation Committee is made up of individuals with many years of experience in both academia as well as the pharmaceutical industry. All of the members have had years of experience in evaluating the performance of and providing compensation recommendations at corporations and in academia.

Compensation Philosophy and Objectives

The rapid growth in recent years of the Company's pipeline of products, and its aggressive plans for future growth, has shaped the Compensation Committee's executive compensation philosophy. This philosophy, including as applied to the CEO, is to attract and retain professionals of the highest caliber, capable of leading the Company to fulfillment of its ambitious business objectives, by offering highly competitive compensation opportunities that reward executives for their individual contributions towards the Company's short-term and long-term objectives. Competition for attracting the best talent in the pharmaceutical industry is very intense, especially in Orange County, California, where the industry has only a small presence and the cost of living is very high. Accordingly, in light of the intense competition for highly qualified executives, the Company's executive officers are eligible for competitive salary adjustments, cash bonuses and equity compensation based upon periodic evaluations of individual and Company performance.

Table of Contents

The Compensation Committee believes that its compensation philosophy aligns the interests of the Company's executive officers with those of the Company's stockholders, and is necessary to incentivize individual executives to peak performance in advancing the Company's short-term and long-term business objectives. It is designed to reward hard work, dedication and the achievement of both individual and Company goals.

Key Elements of Executive Compensation

The principal elements of compensation for the Company's executive officers are:

Base salary;

Cash bonuses; and

Equity incentive awards.

Base Salary. The base salaries of the Company's executive officers are established as part of an annual compensation adjustment cycle. In establishing those salaries, the Compensation Committee considers the executive's level of responsibility, experience and individual performance, and the Company's performance, as well as information regarding salary ranges paid to executives with comparable duties in similar companies.

Cash Bonuses. The Compensation Committee typically grants annual cash bonuses to executives as part of their annual overall compensation. Such cash bonuses are a reward for achievement of individual goals as well as goals achieved by the Company as a whole. The amount of the bonuses is determined based upon the achievement of such goals, reference to past bonuses paid and information regarding bonuses paid to executives with comparable duties in similar companies.

Equity Incentive Awards. Equity incentive awards are an important short-term and long-term compensation tool. The Compensation Committee endorses the position that granting equity incentive awards, including stock options and restricted stock, to the Company's executive officers (stock options are a benefit offered to all employees) can be very beneficial to stockholders because it aligns management's and stockholders' interests in the enhancement of stockholder value. An executive officer receives value from these grants only if he or she remains employed by the Company during the vesting period, and, with regard to stock options, only if the Company's common stock appreciates (typically, options are granted with an exercise price equal to the closing market price of the Company's Common Stock on the date of grant). In addition, equity incentive awards are an important compensation tool to utilize in attracting and retaining high caliber professionals. In determining the number of shares subject to an equity incentive award, the Compensation Committee takes into account the officer's position and level of responsibility, the officer's performance, the officer's existing stock and unvested stock holdings, the competitiveness of the executive officer's overall compensation arrangements, including equity awards and reference to information regarding equity awards paid to executives with comparable duties in similar companies. In deciding whether to grant stock options or restricted stock, the Compensation Committee will review market factors such as the Company's stock price, past option grants as well as the tax impact on the executive officers of each type of grant. Also, the Compensation Committee has discussed granting performance-based equity incentive awards annually at the time of the Company's annual stockholders meeting instead of at the end of the fiscal year.

The Company also maintains a 401(k) Plan, available to all employees, that provides matching employee contributions in shares of the Company's common stock in order to, among other things, align employees' interests with the Company's stockholders and to also encourage employees to save for retirement.

The Compensation Committee believes that all three principal compensation elements combined fit well into its overall compensation objectives of attracting top talent for executive positions, incentivizing such executive officers, rewarding them for achievement of individual and Company goals, and aligning the interests of executive officers with those of the Company's stockholders. The Compensation Committee also believes that it is necessary to compensate the executive officers competitively in all three principal elements in order to accomplish the above objectives.

Table of Contents

Fiscal 2006 Compensation

Because of the Company's current stage of development, the use of traditional performance standards, such as profit levels and return on equity, are not appropriate in its evaluation of executive officer performance. Therefore, executive officer compensation is based primarily on advancement of the Company's business objectives, including the achievement of product development milestones, the acquisition of new products, the recruitment and retention of highly qualified personnel, the maintenance of adequate financial resources, and the initiation and continuation of corporate collaborations, as well as individual contributions and achievement of individual business objectives by its executive officers.

In determining fiscal 2006 compensation, the Compensation Committee reviewed compensation paid to executives with comparable duties in similar companies. The Compensation Committee was provided compensation lists of comparable companies from outside legal counsel to the Compensation Committee, an independent compensation consulting firm and management. Some of the companies on the lists included Cell Therapeutics, Progenics Pharmaceuticals, Exelixis, Telik, Pain Therapeutics, Dendreon, Depomed and Supergen.

The Compensation Committee evaluated the Company's 2006 performance as excellent insofar as the Company continued to execute on its strategy. The Compensation Committee believes that the Company met and exceeded goals set for it at the start of the year during 2006. Some of the important accomplishments during 2006 included:

- the achievement of positive data for both satraplatin and ozarelix;

- the advancement of the development of EOquin® and ozarelix toward phase 3 trials;

- an increase in stock price of approximately 31%;

- the acquisition of LFA, one of the Company's leading proprietary drugs;

- the entrance into a strategic alliance with Par Pharmaceuticals, one of the largest generic companies, for the marketing of the Company's generic sumatriptan injection;

- the settlement of the paragraph IV litigation with GlaxoSmithKline® for sumatriptan injection resulting in the right for the Company to exclusively distribute authorized generic versions of certain sumatriptan injection products;

- the receipt of a \$5 million milestone payment from Par Pharmaceuticals for sumatriptan injection;

- the hiring of key individuals to advance the Company's clinical programs;

- the maintenance of tight control over the Company's cash used in operations; and

- the enhancement of the Company's public profile, resulting in an expansion of the investor base and increased analyst coverage.

Base Salary and Cash Bonuses. The base salaries for 2006 for the executive officers were set at the end of 2005 based upon the factors that were discussed in the Compensation Committee report in last year's proxy statement which included the excellent performance of the executive officers and the Company in 2005. At the end of 2006, the Compensation Committee, with reference to the factors discussed above, reviewed the compensation of each executive officer. Based upon its review, the Compensation Committee awarded bonuses for 2006 contributions and increased the salary levels of the Company's executive officers for 2006 due to their excellent performance in advancing the Company's business objectives as well as the excellent performance of the Company. As discussed below, the base salary of the CEO has remained unchanged since January 1, 2004.

Equity Incentive Awards. Based upon the excellent individual and Company performance in 2006, and as an incentive for continued excellence in the future, at the end of 2006, the Compensation Committee granted equity

incentive awards to the executive officers. In determining the number of shares subject to an equity incentive award, the Compensation Committee took into account the factors discussed above. Dr. Luigi Lenaz, the Chief Science Officer, was also awarded an equity incentive award in September 2006 in part for his work in connection with satraplatin, including its in-licensing.

Table of Contents

Chief Executive Officer Compensation. The Compensation Committee subscribes to the notion that an emerging growth company, like Spectrum, achieves success and ultimately substantial returns for its stockholders, based on the vision and dedication of its management team, especially its CEO. Dr. Rajesh C. Shrotriya, the Company's CEO and President, set forth a new vision for Spectrum when he was appointed CEO in 2002 and the Compensation Committee believes that he, and the team he has assembled, has done an excellent job in implementing that vision over the past four plus years. In addition, Dr. Shrotriya's qualifications as a medical doctor and his ability to lead the Company and to manage its scientific programs and business strategy make him critical to the continued successful implementation of that vision. The Compensation Committee considered these factors, as well as the same factors discussed above, in setting the compensation of Dr. Shrotriya. The Compensation Committee also made reference to the compensation of CEOs of similarly sized companies in the pharmaceutical industry in order to ensure that the total compensation paid by the Company to Dr. Shrotriya, including salary, bonus, equity incentive awards, benefits and other compensation, was highly competitive. The Compensation Committee believes that a highly competitive compensation package is necessary because of the importance of a CEO to a small emerging growth company and in particular, one with the background, experience and track record of Dr. Shrotriya. For 2006, the Compensation Committee determined that Dr. Shrotriya met and exceeded goals set for him at the start of the year; his outstanding contributions are reflected in the Company's achievements in 2006 as set forth above. In recognition of his continued excellent performance during 2006, the Compensation Committee awarded a cash bonus and an equity incentive award. The Compensation Committee maintained the base salary of Dr. Shrotriya, unchanged since January 1, 2004, because the Compensation Committee believes that it is at an appropriate level. In addition, Dr. Shrotriya was also awarded an equity incentive award in September 2006 in part for his work in connection with satraplatin, including its in-licensing. Dr. Shrotriya also has personal use of a Company car.

Payments upon Termination of Employment or Change-in-Control

Both Dr. Shrotriya and Dr. Lenaz have employment agreements that provide for certain guaranteed severance payments and benefits if the officer's employment is terminated without cause, if the officer's employment is terminated due to a change in control or is adversely affected due to a change in control and the officer resigns. The benefits are described in this Annual Report below under Executive Employment Agreements, Termination of Employment and Change-in-Control Arrangements. The severance payments are designed to protect the earned benefits of the executive officers against being terminated without cause or the adverse changes that may result from a change in control of the Company. The level of payments provided under the agreements for the executives reflects the Compensation Committee's assessment of market conditions to provide a competitive level of compensation if the executive officer is impacted by a termination without cause or a change of control of the Company as well as a recognition of the effort provided by the executive over his time of service to the Company.

Impact of Accounting and Tax Treatments on Compensation.

Effective January 1, 2006, the Company adopted SFAS No. 123(R), Share-Based Payment. This pronouncement amended SFAS No. 123, Accounting for Stock-Based Compensation, and superseded Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees. Under SFAS No. 123(R), we measure compensation cost for all stock-based awards at fair value on the date of grant and recognize compensation expense in the consolidated statements of operations over the service period that the awards are expected to vest. As permitted under SFAS No. 123(R), we have elected to recognize compensation cost for all options with graded vesting on a straight-line basis over the vesting period of the entire option. This accounting change has not impacted the Compensation Committee's compensation philosophy of using equity incentive awards as an important part of total compensation.

As discussed above, in deciding whether to grant stock options or restricted stock, the Compensation Committee will consider the tax impact that such grants have on the executive officer.

Section 162(m) of the Internal Revenue Code currently imposes a \$1 million limitation on the deductibility, for Federal income tax purposes, of certain compensation paid to each of its five highest paid executives. In light of the Company's significant net operating losses, Section 162(m) is not considered to be a significant factor in establishing executive officer compensation for the foreseeable future.

- (1) The amounts reflect the dollar amount recognized for financial statement reporting purposes for the fiscal year ended December 31, 2006 in accordance with Statement of Financial Accounting Standards No. 123(R), Accounting for Stock-Based Compensation (SFAS 123R), disregarding adjustments for forfeiture assumptions relating to service-based vesting conditions, of awards granted pursuant to the Company's equity incentive

plans, and includes amounts from awards granted prior to 2006. In the case of Dr. Shrotriya, the \$168,891 stock award charge reflects the charge for the initial 25% vesting on his restricted stock award on January 1, 2006 and a full year charge for the 25% increment vesting on January 1, 2007. The compensation expense recognized in accordance with SFAS 123R is based on the estimated fair value of grants as of the grant date, using the Black Scholes option pricing model for option awards. For additional information, refer to note 9 of the Company's financial statements in the Form 10-K for the year ended December 31, 2006, as filed with the SEC on March 14, 2007.

(2) Amounts include: (a) annual 401(k) matching contribution made by us in shares of our Common Stock, which is a benefit offered to all our employees, (b) premiums paid on healthcare and life insurance policies, which are benefits that are offered to all of our employees, (c) amounts related to the personal use of a leased company car, gas and repairs, and (d) legal fees related to negotiations of his employment agreement. No individual component of this amount exceeds \$25,000.

(3) Amounts include: (a) annual 401(k) matching contribution made by us in shares of our Common Stock, which is a benefit offered to all our employees, and (b) premiums paid on

healthcare and life insurance policies, which are benefits that are offered to all of our employees.

Grants of Plan Based Awards in 2006

The following table provides information about equity and non-equity awards granted to the named executive officers in 2006. There can be no assurance that the Grant Date Fair Value of Stock Awards will ever be realized by the named executive officers. The amount of the stock awards that were expensed in 2006 is shown in the Summary Compensation Table provided above.

Name	Grant Date	Compensation Committee Approval Date	All Other Stock Awards: Number of Shares of	All Other Option Awards: Number of Securities Underlying	Exercise or Base Price of Option Awards (\$)	Grant Date Fair Value of
						Stock and Option Awards (\$)(1)

Executive Employment Agreements, Termination of Employment and Change-in-Control Arrangements

We have entered into employment agreements with two of our named executive officers, Dr. Shrotriya, President and Chief Executive Officer, and Dr. Lenaz, Chief Scientific Officer, expiring December 31, 2007 and July 1, 2008, respectively. The employment agreements automatically renew for a one-year term unless either party gives written notice of such party's intent not to renew the agreement at least 90 days prior to the commencement of the next year. The employment agreements require each officer to devote his full working time and effort to the business and affairs of the Company during the term of the agreement. The employment agreements provide for a minimum annual base salary with annual increases, periodic bonuses and option grants as determined by the Compensation Committee of the Board of Directors.

Under the employment agreements, each officer is entitled to receive additional employment benefits, including the right to participate in any pension or profit sharing plan and to receive life, medical, dental or other benefits. Each officer is also entitled to receive not less than four weeks per year of paid vacation. The employment agreements also provide for reimbursements of expenses incurred in performing duties for the Company, including: entertaining business prospects; maintaining and improving professional skills through continuing education; and business related travel, costs and entertainment. In addition, Dr. Shrotriya is entitled to a monthly vehicle allowance and reimbursements for automobile related expenses (including insurance and maintenance expenses).

Each officer's employment may be terminated due to expiration of the Term of his employment agreement, mutual agreement, death or disability, or by us for cause (as that term is defined in the respective employment agreements) or without cause, or by the officer at any time upon ninety days' notice. The employment agreements provide for certain guaranteed severance payments and benefits if the officer's employment is terminated by us at the expiration of the Term of the agreement, the officer is terminated without cause, if the officer's employment is terminated (other than by the officer) due to a change in control, or the officer is adversely affected (as described below) in connection with a change in control and the officer resigns. However, if the officer terminates his employment at any time upon ninety days' notice, or death or disability, he shall not be entitled to any severance.

Table of Contents

If the officer is terminated without cause or at the expiration of the term of the employment agreement, the guaranteed severance payments include the right to receive base salary for two years after termination. The officer is also entitled to two years of medical, dental and other employee benefits following termination. The officer may elect to receive a lump sum payment representing the aggregate cash compensation (including salary, bonus, auto allowance and any other cash or equivalent compensation, other than continued vacation accrual). In the event of such lump sum election, all insurance and other non-cash benefits shall cease.

Pursuant to the terms of the employment agreement, all options held by the officer shall immediately vest and will be exercisable for up to one year from the date of termination; provided, however, if the Board determines that the officer's employment is being terminated for the reason that the shared expectations of the officer and the Board are not being met, in the Board's judgment, then the options currently held by the officer will vest in accordance with their terms for up to one year after the date of termination, with the right to exercise those options, when they vest, for up to approximately thirteen (13) months after the date of termination.

If there is change of control of the Company, and (1) the officer's employment is involuntarily terminated or (2) the officer is adversely affected in terms of overall compensation, benefits, title, authority, reporting relationships, location of employment or similar matters and the officer elects to resign from full service to the Company, the officer shall be provided with senior executive outplacement services at an outplacement or executive search firm, and the cash compensation and all benefits to which the officer is entitled hereunder shall be discontinued twenty-four (24) months after the date of election (or earlier, if a lump sum payment of cash compensation is specified). The officer, at his election, shall have the right to request and, if requested, shall be paid the full cash value of all amounts of cash compensation due for the 24-month period (including salary, approved bonus, auto allowance, and any other cash or equivalent compensation) in a lump sum. In the event of such election, all insurance and noncash benefits shall cease.

Pursuant to the terms of the employment agreement, all options granted to officer shall vest to the same extent as provided in the case of a termination without cause. Also, if an acquirer of 100% of the Company's stock is itself a publicly held company, the Company shall make reasonable efforts to negotiate that the officer shall have the right, but not the obligation, to convert all of his vested options into options to purchase the acquirer's stock and shall have two (2) years to exercise those options, but the Company shall have no obligation to the officer if it fails to secure such rights or concludes that pursuing such rights would materially prejudice the interest of the stockholders of the Company.

The employment agreements also provide that, upon the officer's retirement (voluntary termination after reaching the Company's retirement age or age 65, whichever occurs first), all options held by the officer will become fully vested.

Notwithstanding the terms of the executive employment agreements as discussed above, the executive's options are subject to the terms of the respective stock incentive plans and individual agreements governing such options.

In the event of the death of the officer, all compensation shall be paid based on value at time of death.

Each officer agrees during the term of his employment by the Company and thereafter that he will not disclose, other than to an authorized employee, officer, director or agent of the Company, any information relating to the Company's business, trade, practices, trade secrets or know-how or proprietary information without the Company's prior express written consent. Following termination of the officer's employment, the officer shall be permitted to continue in his usual occupation and shall not be prohibited from competing with the Company except during the two (2) year severance period and in the specific industry market segments in which the Company competes and which represent twenty percent (20%) or more of the Company's revenues. For a period of one (1) year following the termination of the officer's employment with the Company for any reason, the officer shall not directly or indirectly solicit, induce, recruit or encourage any of the Company's employees to leave their employment.

Potential Payments Upon Termination or Following a Change in Control

The tables below reflect the amount of compensation to each of the named executive officers of the Company in the event of termination of such executive's employment. The amount of compensation payable to each named executive officer upon voluntary termination without cause, retirement, involuntary without cause termination, for cause termination, termination following a change of control and in the event of disability or death of the executive is shown below. The amounts shown assume that such termination was effective as of December 31, 2006 and use the closing price of our common stock as of December 29, 2006 (\$5.53), and are estimates of the amounts which would be paid out to the executives upon their termination. The actual amounts to be paid out can only be determined at the time of such executive's separation from the Company.
