ITEM 8.01 OTHER EVENTS.

During the time since eResearchTechnology, Inc. (the Company) issued its proxy materials with respect to the Annual Meeting of Stockholders to be held on April 26, 2007, advisory services have inquired about the ability of the Company under the 2003 Equity Incentive Plan (the 2003 Plan), both as it currently exists and as it is proposed to be amended and restated, to buy out stock options for payment in cash on such terms as the Company s Compensation Committee may establish. The Company has never intended to have the right to buy out stock options for payment in cash for a value greater than the excess, if any, of the fair market value of the underlying common stock on the date of purchase over the exercise price for the purchased option. To clarify the Company s intent and to make clear that the provision giving the Company the right to buy out options for cash should not be read to be inconsistent with the 2003 Plan as it is proposed to be amended to forbid, without stockholder approval, the repricing of outstanding options, the canceling of outstanding options at a time when the option price exceeds the fair market value of the common stock (except pursuant to a merger, acquisition, spin-off or similar corporate transaction), and the taking of any other action that would be treated as a repricing under generally accepted accounting principles, the Company confirms that (i) it is the Company s policy not to buy out any option previously granted for cash or other consideration for a price greater than the excess, if any of the fair market value of the underlying common stock on the date of purchase over the exercise price for the purchased option, and (ii) this clarification will be added to the 2003 Plan.
