Report of Independent Registered Public Accounting Firm

To Board of Trustees and Shareholders of Brandywine Realty Trust:

In our opinion, the consolidated financial statements listed in the index appearing under Item 15(a)(1) present fairly, in all material respects, the financial position of Brandywine Realty Trust and its subsidiaries (the "Company") at December 31, 2007 and 2006, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2007 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedules listed in the index appearing under Item 15(a)(2) present fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2007, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements and financial statement schedules, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on these financial statements, on the financial statement schedules, and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of

F - 1

Table of Contents

financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As described in Management's Report on Internal Control Over Financial Reporting, management has excluded the Company's investments in Four and Six Tower Bridge Associates from its assessment of internal control over financial reporting as of December 31, 2007 because the Company does not have the right and authority to assess the internal control over financial reporting of the individual entities and it lacks the ability to influence or modify the internal control over financial reporting of the individual entities. Four and Six Tower Bridge Associates are two real estate partnerships, created prior to December 13, 2003, which the Company started consolidating under Financial Accounting Standards Board Interpretation No. 46R, Consolidation of Variable Interest Entities on March 31, 2004. We have also excluded Four and Six Tower Bridge Associates from our audit of internal control over financial reporting. The total assets and total revenue of Four and Six Tower Bridge Associates represent, in the aggregate less than 1% and 1%, respectively, of the Company's consolidated financial statement amounts as of and for the year ended December 31, 2007.

**BRANDYWINE REALTY TRUST
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2007, 2006 AND 2005**

1. ORGANIZATION AND NATURE OF OPERATIONS

Brandywine Realty Trust, a Maryland real estate investment trust, or REIT, is a self-administered and self-managed real estate investment trust, or REIT, active in acquiring, developing, redeveloping, leasing and managing office and industrial properties. Brandywine Realty Trust owns its assets and conducts its operations through Brandywine Operating Partnership, L.P. a Delaware limited partnership (the Operating Partnership) and subsidiaries of the Operating Partnership. Brandywine Realty Trust, the Operating Partnership and their consolidated subsidiaries are collectively referred to below as the Company.

As of December 31, 2007, the Company owned 216 office properties, 23 industrial facilities and one mixed-use property (collectively, the Properties) containing an aggregate of approximately 24.9 million net rentable square feet. The Company also has seven properties under development and seven properties under redevelopment containing an aggregate 3.7 million net rentable square feet. As of December 31, 2007, the Company consolidates three office properties owned by real estate ventures containing 0.4 million net rentable square feet. Therefore, the Company owns and consolidates 257 properties with an aggregate of 29.0 million net rentable square feet. As of December 31, 2007, the Company owned economic interests in 14 unconsolidated real estate ventures that contain approximately 4.4 million net rentable square feet (collectively, the Real Estate Ventures). In addition, as of December 31, 2007, the Company owned approximately 417 acres of undeveloped land. The Properties and the properties owned by the Real Estate Ventures are located in and surrounding Philadelphia, PA, Wilmington, DE, Southern and Central New Jersey, Richmond, VA, Metropolitan Washington, D.C., Austin, TX and Oakland and Rancho Bernardo, CA. In addition to managing properties that the Company owns, as of December 31, 2007, the Company was managing approximately 14.5 million net rentable square feet of office and industrial properties for third parties.

All references to building square footage, acres, occupancy percentage and the number of buildings are unaudited. Brandywine Realty Trust is the sole general partner of the Operating Partnership and, as of December 31, 2007, owned a 95.8% interest in the Operating Partnership. The Company conducts its third-party real estate management services business primarily through five management companies (collectively, the Management Companies): Brandywine Realty Services Corporation (BRSCO), BTRS, Inc. (BTRS), Brandywine Properties I Limited, Inc. (BPI), (BDN) Brokerage LLC (BBL) and Brandywine Properties Management, L.P. (BPM). Each of BRSCO, BTRS and BPI is a taxable REIT subsidiary. The Operating Partnership owns, directly and indirectly, currently 100% of each of BRSCO, BTRS, BPI, BBL and BPM.

Prior to December 2007, 5% of BRSCO, one of the consolidated management services companies, was owned by a partnership comprised of a current executive and former executive of the Company, each of whom is a member of the Company s Board of Trustees, In December 2007, the Operating Partnership bought out this interest for a nominal amount and BRSCO is now wholly owned.

As of December 31, 2007, the Management Companies were managing properties containing an aggregate of approximately 43.0 million net rentable square feet, of which approximately 28.5 million net rentable square feet related to Properties owned by the Company and approximately 14.5 million net rentable square feet related to properties owned by third parties and Real Estate Ventures.

As more fully described in Note 3, on January 5, 2006, the Company acquired Prentiss Properties Trust (Prentiss) pursuant to an Agreement and Plan of Merger (the Merger Agreement) that the Company entered into with Prentiss on October 3, 2005.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

When the Company obtains an economic interest in an entity, the Company evaluates the entity to determine if the entity is deemed a variable interest entity (VIE), and if the Company is deemed to be the primary beneficiary, in accordance with FASB Interpretation No. 46R, Consolidation of Variable Interest

Table of Contents

Entities (FIN 46R). When an entity is not deemed to be a VIE, the Company considers the provisions of EITF 04-05, Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights (EITF 04-05). The Company consolidates (i) entities that are VIEs and of which the Company is deemed to be the primary beneficiary and (ii) entities that are non-VIEs which the Company controls and the limited partners do not have the ability to dissolve the entity or remove the Company without cause nor substantive participating rights. Entities that the Company accounts for under the equity method (i.e., at cost, increased or decreased by the Company's share of earnings or losses, plus contributions, less distributions) include (i) entities that are VIEs and of which the Company is not deemed to be the primary beneficiary (ii) entities that are non-VIEs which the Company does not control, but over which the Company has the ability to exercise significant influence and (iii) entities that are non-VIEs that the Company controls through its general partner status, but the limited partners in the entity have the substantive ability to dissolve the entity or remove the Company without cause or have substantive participating rights. The Company will reconsider its determination of whether an entity is a VIE and who the primary beneficiary is, and whether or not the limited partners in an entity have substantive rights, if certain events occur that are likely to cause a change in the original determinations. The portion of these entities not owned by the Company is presented as minority interest as of and during the periods consolidated. All intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Management makes significant estimates regarding revenue, impairment of long-lived assets, allowance for doubtful accounts and deferred costs.

Operating Properties

Operating properties are carried at historical cost less accumulated depreciation and impairment losses. The cost of operating properties reflects their purchase price or development cost. Costs incurred for the acquisition and renovation of an operating property are capitalized to the Company's investment in that property. Ordinary repairs and maintenance are expensed as incurred; major replacements and betterments, which improve or extend the life of the asset, are capitalized and depreciated over their estimated useful lives. Fully-depreciated assets are removed from the accounts.

Purchase Price Allocation

The Company allocates the purchase price of properties to net tangible and identified intangible assets acquired based on fair values. Above-market and below-market in-place lease values for acquired properties are recorded based on the present value (using an interest rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) the Company's estimate of the fair market lease rates for the corresponding in-place leases, measured over a period equal to the remaining non-cancelable term of the lease. Capitalized above-market lease values are amortized as a reduction of rental income over the remaining non-cancelable terms of the respective leases. Capitalized below-market lease values are amortized as an increase to rental income over the remaining non-cancelable terms of the respective leases, including any below market fixed-rate renewal periods.

Other intangible assets also include amounts representing the value of tenant relationships and in-place leases based on the Company's evaluation of the specific characteristics of each tenant's lease and the Company's overall relationship with the respective tenant. The Company estimates the cost to execute leases with terms similar to the remaining lease terms of the in-place leases, including leasing commissions, legal and other related expenses. This intangible asset is amortized to expense over the remaining term of the respective leases. Company estimates of value are made using methods similar to those used by independent appraisers or by using independent appraisals. Factors considered by the Company in this

Table of Contents

analysis include an estimate of the carrying costs during the expected lease-up periods considering current market conditions and costs to execute similar leases. In estimating carrying costs, the Company includes real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods, which primarily range from three to twelve months. The Company also considers information obtained about each property as a result of its pre-acquisition due diligence, marketing and leasing activities in estimating the fair value of the tangible and intangible assets acquired. The Company also uses the information obtained as a result of its pre-acquisition due diligence as part of its consideration of FIN 47, *Accounting for Conditional Asset Retirement Obligations* (FIN 47) and when necessary, will record a conditional asset retirement obligation as part of its purchase price.

Characteristics considered by the Company in allocating value to its tenant relationships include the nature and extent of the Company's business relationship with the tenant, growth prospects for developing new business with the tenant, the tenant's credit quality and expectations of lease renewals, among other factors. The value of tenant relationship intangibles is amortized over the remaining initial lease term and expected renewals, but in no event longer than the remaining depreciable life of the building. The value of in-place leases is amortized over the remaining non-cancelable term of the respective leases and any fixed-rate renewal periods.

In the event that a tenant terminates its lease, the unamortized portion of each intangible, including market rate adjustments (above or below), in-place lease values and tenant relationship values, would be charged to expense and market rate adjustments would be recorded to revenue.

Depreciation and Amortization

The costs of buildings and improvements are depreciated using the straight-line method based on the following useful lives: buildings and improvements (five to 55 years) and tenant improvements (the shorter of the lease term or the life of the asset).

Construction in Progress

Project costs directly associated with the development and construction of a real estate project are capitalized as construction in progress. In addition, interest, real estate taxes and other expenses that are directly associated with the Company's development activities are capitalized until the property is placed in service. Internal direct construction costs totaling \$4.8 million in 2007, \$4.9 million in 2006 and \$3.4 million in 2005 and interest totaling \$17.5 million in 2007, \$9.5 million in 2006 and \$9.6 million in 2005 were capitalized related to development of certain Properties and land holdings.

Impairment of Long-Lived Assets

Statement of Financial Accounting Standard No. 144 (SFAS 144), *Accounting for the Impairment or Disposal of Long-Lived Assets*, provides a single accounting model for long-lived assets as held-for-sale, broadens the scope of businesses to be disposed of that qualify for reporting as discontinued operations and changes the timing of recognizing losses on such operations.

In accordance with SFAS 144, long-lived assets, such as real estate investments and purchased intangibles subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset group may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of are separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated. The other assets and liabilities related to assets classified as held-for-sale are presented separately in the consolidated balance sheet. The Company had no properties classified as held for sale at December 31, 2007. As of December 31, 2006, Company had two properties classified as held for sale.

Table of Contents

Cash and Cash Equivalents

Cash and cash equivalents are highly-liquid investments with original maturities of three months or less. The Company maintains cash equivalents in financial institutions in excess of insured limits, but believes this risk is mitigated by only investing in or through major financial institutions.

Restricted Cash

Restricted cash consists of cash held as collateral to provide credit enhancement for the Company's mortgage debt, cash for property taxes, capital expenditures and tenant improvements. Restricted cash is included in other assets as discussed below.

Accounts Receivable

Leases with tenants are accounted for as operating leases. Minimum annual rentals under tenant leases are recognized on a straight-line basis over the term of the related lease. The cumulative difference between lease revenue recognized under the straight-line method and contractual lease payment terms is recorded as accrued rent receivable, net on the accompanying balance sheets. Included in current tenant receivables are tenant reimbursements which are comprised of amounts recoverable from tenants for common area maintenance expenses and certain other recoverable expenses that are recognized as revenue in the period in which the related expenses are incurred. As of December 31, 2007, no tenant represented more than 10% of accounts receivable. As of December 31, 2006, one tenant represented approximately 17% of accounts receivable, a significant portion of which is for reimbursements in connection with a tenant improvement project.

Tenant receivables and accrued rent receivables are carried net of the allowances for doubtful accounts of \$3.8 million and \$6.4 million in 2007, respectively, and \$4.5 million and \$4.8 million in 2006, respectively. The allowance is an estimate based on two calculations that are combined to determine the total amount reserved. First, the Company evaluates specific accounts where it has determined that a tenant may have an inability to meet its financial obligations. In these situations, the Company uses its judgment, based on the facts and circumstances, and records a specific reserve for that tenant against amounts due to reduce the receivable to the amount that the Company expects to collect. These reserves are reevaluated and adjusted as additional information becomes available. Second, a reserve is established for all tenants based on a range of percentages applied to receivable aging categories. These percentages are based on historical collection and write-off experience. If the financial condition of the Company's tenants were to deteriorate, additional allowances may be required.

Investments in Unconsolidated Real Estate Ventures

The Company accounts for its investments in unconsolidated Real Estate Ventures under the equity method of accounting as it is not the primary beneficiary (for VIE's) and the Company exercises significant influence, but does not control these entities under the provisions of the entities' governing agreements pursuant to EITF 04-05. These investments are recorded initially at cost, as Investments in Real Estate Ventures, and subsequently adjusted for equity in earnings and cash contributions and distributions.

On a periodic basis, management assesses whether there are any indicators that the value of the Company's investments in unconsolidated Real Estate Ventures may be other than temporarily impaired. An investment is impaired only if the value of the investment, as estimated by management, is less than the carrying value of the investment. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the investment over the value of the investment, as estimated by management.

To the extent that the Company acquires an interest in or contributes assets to a Real Estate Venture project, the difference between the Company's cost basis in the investment in venture and in the assets, intangibles and liabilities of the Real Estate Venture is amortized over the life of the related assets, intangibles and liabilities and such adjustment is included in the Company's share of equity in income of unconsolidated ventures.

Table of Contents

Deferred Costs

Costs incurred in connection with property leasing are capitalized as deferred leasing costs. Deferred leasing costs consist primarily of leasing commissions and internal leasing costs that are amortized on the straight-line method over the life of the respective lease which generally ranges from one to 15 years. Management re-evaluates the remaining useful lives of leasing costs as economic and market conditions change.

Costs incurred in connection with debt financing are capitalized as deferred financing costs and charged to interest expense over the terms of the related debt agreements. Deferred financing costs consist primarily of loan fees which are amortized over the related loan term. Management re-evaluates the remaining useful lives of financing costs as economic and market conditions change.

Other Assets

As of December 31, 2007, other assets included prepaid real estate taxes of \$8.0 million, prepaid insurance of \$5.6 million, marketable securities of \$3.2 million, deposits on properties expected to be purchased in 2008 totaling \$1.6 million, a tenant allowance totalling \$8.0 million, cash surrender value of life insurance of \$7.7 million, furniture, fixtures and equipment of \$7.2 million, restricted cash of \$17.2 million and \$16.0 million of other assets. Also included in this balance are a \$3.1 million note receivable with a 20 year amortization period for principal and interest (balloon payment in March 2008) that bears interest at 8.5% and a \$7.8 million note receivable with a 20 year amortization period for principal and interest (balloon payment in December 2008) that bears interest at 8.5%.

As of December 31, 2006, other assets included a direct financing lease of \$14.6 million, prepaid real estate taxes of \$9.7 million, prepaid insurance of \$4.4 million, marketable securities of \$6.8 million, deposits on properties expected to be purchased in 2007 totaling \$2.2 million, cash surrender value of life insurance of \$11.6 million, furniture, fixtures and equipment of \$6.8 million, restricted cash of \$22.6 and \$18.4 million of other assets. Also included in this balance are a \$4.3 million note receivable with a 20 year amortization period for principal and interest (balloon payment in March 2008) that bears interest at 8.5% and an \$8.0 million note receivable with a 20 year amortization period for principal and interest (balloon payment in December 2008) that bears interest at 8.5%.

Revenue Recognition

Rental revenue is recognized on the straight-line basis from the later of the date of the commencement of the lease or the date of acquisition of the property subject to existing leases, which averages minimum rents over the terms of the leases. The cumulative difference between lease revenue recognized under this method and contractual lease payment terms is recorded as accrued rent receivable on the accompanying balance sheets. The straight-line rent adjustment increased revenue by approximately \$25.0 million in 2007, \$31.3 million in 2006 and \$15.0 million in 2005. Deferred rents on the balance sheet represent rental revenue received prior to their due dates and amounts paid by the tenant for certain improvements considered to be landlord assets that will remain the Company's property at the end of the tenant's lease term. The amortization of these amounts paid by the tenant for such improvements is calculated on a straight-line basis over the term of the tenant's lease and is a component of straight-line rental income and increased revenue by \$3.3 million in 2007 and \$1.3 million in 2006. Leases also typically provide for tenant reimbursement of a portion of common area maintenance and other operating expenses to the extent that a tenant's pro rata share of expenses exceeds a base year level set in the lease. Other income is recorded when earned and is primarily comprised of termination fees received from tenants, bankruptcy settlement fees, third party leasing commissions, and third party management fees. During 2007, 2006, and 2005, the Company earned \$10.2 million, \$7.8 million, and \$6.1 million in termination fees.

No tenant represented greater than 10% of the Company's rental revenue in 2007, 2006 or 2005.

Income Taxes

The Company has elected to be treated as a REIT under Sections 856 through 860 of the Internal Revenue

Table of Contents

Code of 1986, as amended (the Code). In addition, the Company has several subsidiary REITs. In order to maintain their qualification as a REIT, the Company and its REIT subsidiaries are required to, among other things, distribute at least 90% of its REIT taxable income to its stockholders and meet certain tests regarding the nature of its income and assets. As REITs, the Company and its REIT subsidiaries are not subject to federal income tax with respect to the portion of its income that meets certain criteria and is distributed annually to the stockholders. Accordingly, no provision for federal income taxes is included in the accompanying consolidated financial statements with respect to the operations of these entities. The Company and its REIT subsidiaries intend to continue to operate in a manner that allows them to continue to meet the requirements for taxation as REITs. Many of these requirements, however, are highly technical and complex. If the Company or one of its REIT subsidiaries were to fail to meet these requirements, the Company would be subject to federal income tax. The Company is subject to certain state and local taxes. Provision for such taxes has been included in general and administrative expenses in the Company's Consolidated Statements of Operations and Comprehensive Income.

The tax basis in the Company's assets was \$4.5 billion as of December 31, 2007 and \$4.2 billion as of December 31, 2006.

The Company is subject to a 4% federal excise tax if sufficient taxable income is not distributed within prescribed time limits. The excise tax equals 4% of the annual amount, if any, by which the sum of (a) 85% of the Company's ordinary income and (b) 95% of the Company's net capital gain exceeds cash distributions and certain taxes paid by the Company. No excise tax was incurred in 2007, 2006, or 2005.

The Company may elect to treat one or more of its subsidiaries as a taxable REIT subsidiary (TRS). In general, a TRS of the Company may perform additional services for tenants of the Company and generally may engage in any real estate or non-real estate related business (except for the operation or management of health care facilities or lodging facilities or the provision to any person, under a franchise, license or otherwise, of rights to any brand name under which any lodging facility or health care facility is operated). A TRS is subject to corporate federal income tax. The Company has elected to treat certain of its corporate subsidiaries as TRSs, these entities provide third party property management services and certain services to tenants that could not otherwise be provided. At December 31, 2007, the Company's TRSs had tax net operating loss (NOL) carryforwards of approximately \$2.5 million, expiring from 2013 to 2027. The Company has ascribed a full valuation allowance to its net deferred tax assets.

The Company adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109* (FIN 48) on January 1, 2007. As a result of the implementation of FIN 48, the Company recognized no material adjustments regarding our tax accounting treatment. The Company expects to recognize interest and penalties, to the extent incurred related to uncertain tax positions, if any, as income tax expense, which would be included in general and administrative expense.

Earnings Per Share

Basic earnings per share is calculated by dividing income allocated to Common Shares by the weighted-average number of shares outstanding during the period. Diluted earnings per share includes the effect of common share equivalents outstanding during the period.

Stock-Based Compensation Plans

The Company maintains shareholder-approved equity incentive plans. The Compensation Committee of the Company's Board of Trustees authorizes awards under these plans. In May 2007, the Company's shareholders approved an amendment to the Company's Amended and Restated 1997 Long-Term Incentive Plan (the 1997 Plan). The amendment provided for the merger of the Prentiss Properties Trust 2005 Share Incentive Plan (the Prentiss 2005 Plan) with and into the 1997 Plan, thereby transferring into the 1997 Plan all of the shares that remained available for award under the Prentiss 2005 Plan. The Company had previously assumed the Prentiss 2005 Plan, together with other Prentiss incentive plans, as part of the Company's January 2006 acquisition of Prentiss Properties Trust (Prentiss). The 1997 Plan reserves 500,000 common shares solely for awards under options and share appreciation rights that have an exercise or strike price at least equal to the market price of the common shares on the date of award and the remaining shares under the 1997 Plan are available for any type of award, including restricted share and performance share awards and options. Incentive stock options may not be granted with an exercise price that is lower than the market price of the common shares on the grant date. All options awarded by the Company to date are non-qualified stock

options that generally had an initial vesting schedule that ranged from two to ten years. As of December 31, 2007, approximately 4.1 million common shares remained available for future award under the 1997 Plan (including the 500,000 shares that are limited to option

Table of Contents

awards as described above, and without giving effect to any shares that would become available for awards if and to the extent that outstanding awards lapse, expire or are forfeited).

On January 1, 2002, the Company began to expense the fair value of stock-based compensation awards granted subsequent to January 1, 2002, over the applicable vesting period as a component of general and administrative expenses in the Company's consolidated Statements of Operations. The Company recognized stock-based compensation expense of \$4,672,000 in 2007, \$3,447,000 in 2006 and \$2,764,000 in 2005.

Comprehensive Income

Comprehensive income or loss is recorded in accordance with the provisions of SFAS 130 (SFAS 130), *Reporting Comprehensive Income*. SFAS 130 establishes standards for reporting comprehensive income and its components in financial statements. Comprehensive income includes unrealized gains and losses on available-for-sale securities and the effective portions of changes in the fair value of derivatives.

Accounting for Derivative Instruments and Hedging Activities

The Company accounts for its derivative instruments and hedging activities under SFAS No. 133 (SFAS 133), *Accounting for Derivative Instruments and Hedging Activities*, and its corresponding amendments under SFAS No. 138, *Accounting for Certain Derivative Instruments and Hedging Activities - An Amendment of SFAS 133*. SFAS 133 requires the Company to measure every derivative instrument (including certain derivative instruments embedded in other contracts) at fair value and record them in the balance sheet as either an asset or liability. For derivatives designated as fair value hedges, the changes in fair value of both the derivative instrument and the hedged item are recorded in earnings. For derivatives designated as cash flow hedges, the effective portions of changes in the fair value of the derivative are reported in other comprehensive income. Changes in fair value of derivative instruments and ineffective portions of hedges are recognized in earnings in the current period. During 2007, the Company recognized \$0.2 million in the statement of operations for the ineffective portion of its cash flow hedges and \$3.7 million upon termination of certain of its cash flow hedges. For the years ended December 31, 2006 and 2005, the Company was not party to any derivative contract designated as a fair value hedge and there are no ineffective portions of our cash flow hedges. See Note 8.

The Company actively manages its ratio of fixed-to-floating rate debt. To manage its fixed and floating rate debt in a cost-effective manner, the Company, from time to time, enters into interest rate swap agreements as cash flow hedges, under which it agrees to exchange various combinations of fixed and/or variable interest rates based on agreed upon notional amounts. See Note 8.

Reclassifications

Certain amounts have been reclassified in prior years to conform to the current year presentation. The reclassifications are primarily due to the treatment of sold properties as discontinued operations on the statement of operations for all periods presented and the reclassification of labor reimbursements received under our third party contracts to a gross presentation.

New Pronouncements

In December 2007, the FASB issued Statement No. 141 (revised 2007), *Business Combinations* (SFAS 141(R)), which establishes principles and requirements for how the acquirer shall recognize and measure in its financial statements the identifiable assets acquired, liabilities assumed, any noncontrolling interest in the acquiree and goodwill acquired in a business combination. This statement is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company is currently assessing the potential impact that the adoption of SFAS 141(R) will have on its financial position and results of operations.

In December 2007, the FASB issued Statement No. 160, *Noncontrolling Interests in Consolidated Financial Statements - an Amendment of ARB No. 51* (SFAS 160), which establishes and expands

Table of Contents

accounting and reporting standards for minority interests, which will be recharacterized as noncontrolling interests, in a subsidiary and the deconsolidation of a subsidiary. SFAS 160 is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. This statement is effective for fiscal years beginning on or after December 15, 2008. The Company is currently assessing the potential impact that the adoption of SFAS 160 will have on its financial position and results of operations.

In June 2007, the Accounting Standards Executive Committee of the American Institute of Certified Public Accountants (AICPA) issued Statement of Position 07-1, Clarification of the Scope of the Audit and Accounting Guide Investment Companies and Accounting by Parent Companies and Equity Method Investors for Investments in Investment Companies (SOP 07-1). SOP 07-1 addresses when the accounting principles of the AICPA Audit and Accounting Guide Investment Companies must be applied by an entity and whether investment company accounting must be retained by a parent company in consolidation or by an investor in the application of the equity method of accounting. In addition, SOP 07-1 includes certain disclosure requirements for parent companies and equity method investors in investment companies that retain investment company accounting in the parent company s consolidated financial statements or the financial statements of an equity method investor. On February 14, 2008, FSP No. SOP 07-1-1 was issued to delay indefinitely the effective date of SOP 07-1 and prohibit adoption of SOP 07-1 for an entity that has not early adopted SOP 07-1 before issuance of the final FSP. The Company is currently evaluating the impact and believes that the adoption of this standard will not have a material effect on its financial position and results of operations.

In February 2007, the FASB issued Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159), which gives entities the option to measure eligible financial assets, financial liabilities and firm commitments at fair value on an instrument-by-instrument basis, that are otherwise not permitted to be accounted for at fair value under other accounting standards. The election to use the fair value option is available when an entity first recognizes a financial asset or financial liability or upon entering into a firm commitment. Subsequent changes (i.e., unrealized gains and losses) in fair value must be recorded in earnings. Additionally, SFAS 159 allows for a one-time election for existing positions upon adoption, with the transition adjustment recorded to beginning retained earnings. This statement is effective for fiscal years beginning after November 15, 2007. The Company is currently assessing the potential impact that the adoption of SFAS 159 will have on its financial position and results of operations.

In September 2006, the FASB issued Statement No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 provides guidance for using fair value to measure assets and liabilities. This statement clarifies the principle that fair value should be based on the assumptions that market participants would use when pricing the asset or liability. SFAS No. 157 establishes a fair value hierarchy, giving the highest priority to quoted prices in active markets and the lowest priority to unobservable data. SFAS No. 157 applies whenever other standards require assets or liabilities to be measured at fair value. SFAS No. 157 also provides for certain disclosure requirements, including, but not limited to, the valuation techniques used to measure fair value and a discussion of changes in valuation techniques, if any, during the period. This statement is effective in fiscal years beginning after November 15, 2007, except for nonfinancial assets and nonfinancial liabilities that are not recognized or disclosed at fair value on a recurring basis, for which the effective date is fiscal years beginning after November 15, 2008. The Company is currently evaluating the impact and believes that the adoption of this standard will not have a material effect on its financial position and results of operations.

3. REAL ESTATE INVESTMENTS

As of December 31, 2007 and 2006, the gross carrying value of the Company s Properties was as follows:

Acquisitions and Dispositions

The Company's acquisitions were accounted for by the purchase method. The results of each acquired property are included in the Company's results of operations from their respective purchase dates.

2007**DRA Joint Venture**

On December 19, 2007, the Company formed G&I Interchange Office LLC, a new joint venture (the "Venture") with G&I VI Investment Interchange Office LLC ("G&I VI"), an investment vehicle advised by DRA Advisors LLC. The Venture included interest in 29 office properties which were located in various counties in Pennsylvania, containing an aggregate of 1,616,227 net rentable square feet. The Company transferred or contributed 100% interests in 26 properties and transferred to the Venture an 89% interest in three of the properties with the remaining 11% interest in the three properties subject to a put/call at fixed prices after three years. In connection with the formation, the Company effectively transferred an 80% interest in the venture to G&I IV for cash and the venture borrowed approximately \$184.0 million in third party financing the aggregate proceeds of which were distributed to the Company. The Company used the net proceeds of these transactions of approximately \$230.9 million that it received in this transaction to reduce outstanding indebtedness under the Company's unsecured revolving credit facility. The Company was hired by the Venture to perform property management and leasing services. The joint venture agreements provide for certain control rights and participation as a joint venture partner and, based on an evaluation of control rights, the Company will not consolidate the Venture subsequent to its formation.

In connection with these transactions, the Company recorded a gain as a partial sale of \$40.5 million. The Company's continuing involvement with the properties through its joint venture interest and management fees and leasing commissions represents a significant continuing involvement in the properties. Accordingly, under EITF 03-13,

Applying the Conditions in Paragraph 42 of FASB Statement No. 144 in Determining Whether to Report Discontinued Operations, the Company has determined that the gain on sale and the operations of the properties should not be included in discontinued operations.

Other 2007 Acquisitions and Dispositions

On November 30, 2007, the Company sold 111/113 Pencader Drive, an office property located in Newark, Delaware containing 52,665 net rentable square feet, for a sales price of \$5.1 million.

On November 15, 2007, the Company sold 2490 Boulevard of the Generals, an office property located in West Norriton, Pennsylvania containing 20,600 net rentable square feet, for a sales price of \$1.5 million.

On September 7, 2007, the Company sold seven land parcels located in the Iron Run Business Park in Lehigh County, Pennsylvania containing an aggregate 51.5 acres of land, for an aggregate sales price of \$6.6 million.

On July 19, 2007, the Company acquired the United States Post Office building, an office property located in Philadelphia, Pennsylvania containing 862,692 net rentable square feet, for an aggregate purchase price of \$28.0 million. The Company intends to redevelop the building into office space for the Internal Revenue Service ("IRS"). As part of this acquisition, the Company also acquired a 90 year ground lease interest in an adjacent parcel of ground of approximately 2.54 acres, commonly referred to as the "postal annex". The

Table of Contents

Company is currently demolishing the existing structure located on the postal annex and intends to rebuild a parking facility containing approximately 733,000 square feet that will primarily be used by the IRS employees upon their move into the planned office space at the Post Office building. The remaining postal annex ground leased parcels can also accommodate additional office, retail, hotel and residential development and the Company is currently in the planning stage with respect to these parcels and is seeking specific zoning authorization related thereto.

On July 19, 2007, the Company acquired five office properties containing 508,607 net rentable square feet and a 4.9 acre land parcel in the Boulders office park in Richmond, Virginia for an aggregate purchase price of \$96.3 million. The Company funded \$36.6 million of the purchase price using the remaining proceeds from the sale of the 10 office properties located in Reading and Harrisburg, Pennsylvania in March 2007.

On May 10, 2007, the Company acquired Lake Merritt Tower, an office property located in Oakland, California containing 204,278 net rentable square feet for an aggregate purchase price of \$72.0 million. A portion of the proceeds from the sale of the 10 office properties located in Reading and Harrisburg, Pennsylvania in March 2007 was used to fully fund this purchase.

On April 30, 2007, the Company sold Cityplace Center, an office property located in Dallas, Texas containing 1,295,832 net rentable square feet, for a sales price of \$115.0 million.

On March 30, 2007, the Company sold 10 office properties located in Reading and Harrisburg, Pennsylvania containing 940,486 net rentable square feet, for an aggregate sales price of \$112.0 million. The Company structured this transaction to qualify as a like-kind exchange under Section 1031 of the Internal Revenue Code and the cash from the sale was held by a qualified intermediary for purposes of accomplishing the like-kind exchange as noted in the above transactions.

On March 30, 2007, the Company sold 1007 Laurel Oak, an office property located in Voorhees, New Jersey containing 78,205 net rentable square feet, for a sales price of \$7.0 million.

On March 1, 2007, the Company acquired the remaining 49% interest in a consolidated real estate venture previously owned by Stichting Pensioenfond ABP containing ten office properties for a purchase price of \$63.7 million. The Company owned a 51% interest in this real estate venture through the acquisition of Prentiss in January 5, 2006 and had already consolidated this venture. This purchase was accounted for as a step acquisition and the difference between the purchase price of the minority interest and the carrying value of the pro rata share of the assets of the real estate venture was allocated to the real estate venture's assets and liabilities based on their relative fair value.

On January 31, 2007, the Company sold George Kachel Farmhouse, an office property located in Reading, Pennsylvania containing 1,664 net rentable square feet, for a sales price of \$0.2 million.

On January 19, 2007, the Company sold four office properties located in Dallas, Texas containing 1,091,186 net rentable square feet and a 4.7 acre land parcel, for an aggregate sales price of \$107.1 million.

On January 18, 2007, the Company sold Norriton Office Center, an office property located in East Norriton, Pennsylvania containing 73,394 net rentable square feet, for a sales price of \$7.8 million.

2006

Prentiss Acquisition

On January 5, 2006, the Company acquired Prentiss pursuant to the Merger Agreement that the Company entered into with Prentiss on October 3, 2005. In conjunction with the Company's acquisition of Prentiss, designees of The Prudential Insurance Company of America (Prudential) acquired certain of Prentiss' properties that contain an aggregate of approximately 4.32 million net rentable square feet for a total consideration of approximately \$747.7 million. Through its acquisition of Prentiss (and after giving effect to the Prudential acquisition of certain of Prentiss' properties), the Company acquired a portfolio of 79

office properties (including 13 properties that are owned by consolidated Real Estate Ventures and 7 properties that are owned by an unconsolidated Real Estate Venture) that contain an aggregate of 14.0 million net rentable square feet. The results of the operations of Prentiss have been included in the Company's condensed consolidated financial statements since January 5, 2006.

The Company funded the approximately \$1.05 billion cash portion of the merger consideration, related transaction costs and prepayments of approximately \$543.3 million in Prentiss mortgage debt at the closing of the merger through (i) a \$750 million unsecured term loan that matured on January 4, 2007; (ii) approximately \$676.5 million of cash from Prudential's acquisition of certain of the Prentiss properties; and (iii) approximately \$195.0 million through borrowing under a revolving credit facility.

In the acquisition of Prentiss, each then outstanding Prentiss common share was converted into the right to receive 0.69 of a Brandywine common share and \$21.50 in cash (the Per Share Merger Consideration) except that 497,884 Prentiss common shares held in the Prentiss Deferred Compensation Plan converted solely into 720,737 Brandywine common shares. In addition, each then outstanding unit (each, a Prentiss OP Unit) of limited partnership interest in the Prentiss operating partnership subsidiary was, at the option of the holder, converted into Prentiss Common Shares with the right to receive the Per Share Merger Consideration or 1.3799 Class A Units of the Operating Partnership (Brandywine Class A Units). Accordingly, based on 49,375,723 Prentiss common shares outstanding and 139,000 Prentiss OP Units electing to receive merger consideration at closing of the acquisition, the Company issued 34,541,946

F - 18

Table of Contents

Brandywine common shares and paid an aggregate of approximately \$1.05 billion in cash to the accounts of the former Prentiss shareholders. Based on 1,572,612 Prentiss OP Units outstanding at closing of the acquisition that did not elect to receive merger consideration, the Operating Partnership issued 2,170,047 Brandywine Class A Units. In addition, options issued by Prentiss that were exercisable for an aggregate of 342,662 Prentiss common shares were converted into options exercisable for an aggregate of 496,037 Brandywine common shares at a weighted average exercise price of \$22.00 per share. Through its acquisition of Prentiss the Company also assumed approximately \$611.2 million in aggregate principal amount of Prentiss debt.

Each Brandywine Class A Unit that was issued in the merger is subject to redemption at the option of the holder. The Operating Partnership may, at its option, satisfy the redemption either for an amount, per unit, of cash equal to the then market price of one Brandywine common share (based on the prior ten-day trading average) or for one Brandywine common share.

For purposes of computing the total purchase price reflected in the financial statements, the common shares, operating units, restricted shares and options that were issued in the Prentiss transaction were valued based on the average trading price per Brandywine common share of \$29.54. The average trading price was based on the average of the high and low trading prices for each of the two trading days before, the day of and the two trading days after the merger was announced (i.e., September 29, September 30, October 3, October 4 and October 5).

The Company considered the provisions of FIN 47 for these acquisitions and, where necessary, recorded a conditional asset retirement obligation as part of the purchase price. The aggregate asset retirement obligation recorded in connection with the Prentiss acquisition was approximately \$2.7 million.

Pro forma information relating to the acquisition of Prentiss is presented below as if Prentiss was acquired and the related financing transactions occurred on January 1, 2006 and 2005. These pro forma results are not necessarily indicative of the results which actually would have occurred if the acquisition had occurred on the first day of the periods presented, nor does the pro forma financial information purport to represent the results of operations for future periods (in thousands, except per share amounts):

4. INVESTMENT IN UNCONSOLIDATED VENTURES

As of December 31, 2007, we had an aggregate investment of approximately \$71.6 million in 14 unconsolidated Real Estate Ventures (net of returns of investment). We formed these ventures with unaffiliated third parties, or acquired them, to develop office properties or to acquire land in anticipation of possible development of office properties. Ten of the Real Estate Ventures own 44 office buildings that contain an aggregate of approximately 4.4 million net rentable square feet, one Real Estate Venture developed a hotel property that contains 137 rooms, one Real Estate Venture constructed and sold condominiums in Charlottesville, VA and two Real Estate Ventures are in the planning stages of office developments in Conshohocken, PA and Charlottesville, VA.

The Company also has investments in three Real Estate Ventures that are variable interest entities under FIN 46R and of which the Company is the primary beneficiary, and one investment in a Real Estate Venture for which the Company serves as the general partner and the limited partner does not have substantive participating rights. These entities are consolidated by the Company.

The Company accounts for its unconsolidated interests in its Real Estate Ventures using the equity method.

Unconsolidated interests range from 5% to 50%, subject to specified priority allocations in certain of the Real Estate Ventures.

The amounts reflected in the following tables (except for carrying amount and the Company's share of equity and income) are based on the historical financial information of the individual Real Estate Ventures. One of the Real Estate Ventures, acquired in connection with the Prentiss acquisition, had a negative equity balance on a historical cost basis as a result of historical depreciation and distribution of excess financing proceeds. The Company reflected its acquisition of this Real Estate Venture interest at its relative fair value as of the date of the purchase of Prentiss. The difference between allocated cost and the underlying equity in the net assets of the investee is accounted for as if the entity were consolidated (i.e., allocated to the Company's relative share of assets and liabilities with an adjustment to recognize equity in earnings for the appropriate additional depreciation/amortization).

The Company's investment in Real Estate Ventures as of December 31, 2007 and the Company's share of the Real Estate Ventures' income (loss) for the year ended December 31, 2007 was as follows (in thousands):

(1) Ownership percentage represents the Company's entitlement to residual distributions after payments of priority returns, where applicable.

(2) See Note 3 Real Estate Investments for description of formation of the Venture. The Company retained a 20% interest and received distributions from financing in excess of its basis. The Company has no commitment to fund and no expectation of operating losses, accordingly, the Company's carrying value has not been reduced below zero.

(3) The Company's interest consists solely of a residual profits interest. This distribution represents the Company's final distribution from the Venture and, therefore, it is no longer included in our total real estate venture count.

The mortgage note payable balance of \$5.1 million for Norriton Office Center as of December 31, 2006, not included in the table above, is included in Mortgage notes payable and other liabilities held for sale on the balance sheet. This property was held for sale at December 31, 2006 and sold in January 2007.

Table of Contents

During 2007, 2006 and 2005, the Company's weighted-average interest rate on its mortgage notes payable was 6.74%, 6.57% and 7.17%, respectively. As of December 31, 2007 and 2006, the net carrying value of the Company's Properties that are encumbered by mortgage indebtedness was \$1,003.5 million and \$1,498.9 million, respectively. On April 30, 2007, the Operating Partnership completed an underwritten public offering of \$300 million aggregate principal amount of 5.70% unsecured notes due 2017 (the 2017 Notes). Brandywine Realty Trust guaranteed the payment of principal and interest on the 2017 Notes. The Company used proceeds from these notes to reduce borrowings under the Company's revolving credit facility.

On November 29, 2006, the Company irrevocably called for redemption of the \$300 million aggregate principal amount of unsecured floating rate notes due 2009 (the 2009 Notes) and repaid these notes on January 2, 2007 in accordance with the November call using proceeds from our Credit Facility. As a result of the early repayment of these notes, the Company incurred accelerated amortization of \$1.4 million in associated deferred financing costs in the fourth quarter 2006.

On October 4, 2006, the Operating Partnership sold \$300.0 million aggregate principal amount of unsecured 3.875% Exchangeable Guaranteed Notes due 2026 in reliance upon an exemption from registration rights under Rule 144A under the Securities Act of 1933 and sold an additional \$45 million of 3.875% Exchangeable Guaranteed Notes due 2026 on October 16, 2006 to cover over-allotments. The Operating Partnership has registered the resale of the exchangeable notes. At certain times and upon certain events, the notes are exchangeable for cash up to their principal amount and with respect to the remainder, if any, of the exchange value in excess of such principal amount, cash or the Company's common shares. The initial exchange rate is 25.4065 shares per \$1,000 principal amount of notes (which is equivalent to an initial exchange price of \$39.36 per share). The Operating Partnership may not redeem the notes prior to October 20, 2011 (except to preserve the Company's status as a REIT for U.S. federal income tax purposes), but we may redeem the notes at any time thereafter, in whole or in part, at a redemption price equal to the principal amount of the notes to be redeemed plus accrued and unpaid interest. In addition, on October 20, 2011, October 15, 2016 and October 15, 2021 as well as upon the occurrence of certain change in control transactions prior to October 20, 2011, holders of notes may require the Company to repurchase all or a portion of the notes at a purchase price equal to the principal amount plus accrued and unpaid interest. The Operating Partnership used net proceeds from the notes to repurchase approximately \$60.0 million of the Company's common stock at a price of \$32.80 per share and for general corporate purposes, including the repayment of outstanding borrowings under the Credit Facility.

On March 28, 2006, the Operating Partnership completed an underwritten public offering of (1) the 2009 Notes, (2) \$300 million aggregate principal amount of 5.75% unsecured notes due 2012 (the 2012 Notes) and (3) \$250 million aggregate principal amount of 6.00% unsecured notes due 2016 (the 2016 Notes). Brandywine Realty Trust guaranteed the payment of principal and interest on the 2009 Notes, the 2012 Notes and the 2016 Notes. The Company used proceeds from these notes to repay a term loan obtained to finance a portion of the consideration paid in the Prentiss merger and to reduce borrowings under the Company's revolving credit facility.

The Operating Partnership's indenture relating to unsecured notes contains financial restrictions and requirements, including (1) a leverage ratio not to exceed 60%, (2) a secured debt leverage ratio not to exceed 40%, (3) a debt service coverage ratio of greater than 1.5 to 1.0, and (4) an unencumbered asset value of not less than 150% of unsecured debt. In addition, the note purchase agreement relating to the Operating Partnership's \$113 million principal amount unsecured notes due 2008 contains covenants that are similar to the covenants in the indenture.

On October 15, 2007, the Company entered into a term loan agreement (the Term Loan Agreement) that provides for an unsecured term loan (the Term Loan) in the amount of \$150.0 million. The Company used the proceeds to pay down a portion of the outstanding amount on its \$600.0 million unsecured revolving credit facility. The Term Loan matures on October 18, 2010 and may be extended at the Company's option for two, one-year periods but not beyond the maturity date of its revolving credit facility. There is no scheduled principal amortization of the Term Loan and the Company may prepay borrowings in whole or in part without premium or penalty. Portions of the Term Loan bear interest at a

per annum floating rate equal to: (i) the higher of (x) the prime rate or (y) the federal funds rate plus 0.50% per annum or (ii) a London interbank offered rate that is the rate at which Eurodollar deposits for one, two, three or six months are offered plus between 0.475% and 1.10% per annum (the Libor Margin), depending on the Company's debt rating. The Term Loan Agreement contains financial and operating covenants. Financial covenants include minimum net worth, fixed charge coverage ratio, maximum leverage ratio, restrictions on unsecured and secured debt as a percentage of unencumbered assets and other financial tests. Operating covenants include limitations on the Company's ability to incur additional indebtedness, grant liens on assets, enter into affiliate transactions, and pay dividends.

The Company utilizes credit facility borrowings for general business purposes, including the acquisition, development and redevelopment of properties and the repayment of other debt. On June 29, 2007, the Company amended its \$600.0 million unsecured revolving credit facility (the Credit Facility). The amendment extended the maturity date of the Credit Facility from December 22, 2009 to June 29, 2011 (subject to an extension of one year, at the Company's option, upon its payment of an extension fee equal to 15 basis points of the committed amount under the Credit Facility). The amendment also reduced the per annum variable interest rate on outstanding balances from Eurodollar plus 0.80% to Eurodollar plus 0.725% per annum. In addition, the amendment reduced the facility fee paid quarterly from 20 basis points to 17.5 basis points per annum. The interest rate and facility fee are subject to adjustment upon a change in the Company's unsecured debt ratings. The amendment also lowered to 7.50% from 8.50% the capitalization rate used in the calculation of several of the financial covenants; increased our swing loan availability from \$50.0 million to \$60.0 million; and increased the number of competitive bid loan requests available to the Company from two to four in any 30 day period. Borrowings are always available to the extent of borrowing capacity at the stated rates, however, the competitive bid feature allows banks that are part of the lender consortium under the Credit Facility to bid to make loans to the Company at a reduced Eurodollar rate. The Company has the option to increase the Credit Facility to \$800.0 million subject to the absence of any defaults and the Company's ability to acquire additional commitments from its existing lenders or new lenders. As of December 31, 2007, the Company had \$120.0 million of borrowings and \$13.5 million of letters of credit outstanding under the Credit Facility, leaving \$466.5 million of unused availability. As of December 31, 2007 and 2006, the weighted-average interest rate on the Credit Facility, including the effect of interest rate hedges, was 6.25% and 5.93%, respectively.

The Credit Facility requires the maintenance of ratios related to minimum net worth, debt-to-total capitalization and fixed charge coverage and includes non-financial covenants.

In April 2007, the Company entered into a \$20.0 million Sweep Agreement (the Sweep Agreement) to be used for cash management purposes. Borrowings under the Sweep Agreement bear interest at one-month LIBOR plus 0.75%. As of December 31, 2007 the Company had \$10.7 million of borrowing outstanding under the Sweep Agreement, leaving \$9.3 million of unused availability.

As of December 31, 2007, the Company's aggregate principal payments, are as follows (in thousands):

2008	\$ 146,005
2009	354,955

8. FAIR VALUE OF FINANCIAL INSTRUMENTS

The following fair value disclosure was determined by the Company using available market information and discounted cash flow analyses as of December 31, 2007 and 2006, respectively. The discount rate used in calculating fair value is the sum of the current risk free rate and the risk premium on the date of acquiring or assuming the instruments or obligations. Considerable judgment is necessary to interpret

F - 27

market data and to develop the related estimates of fair value. Accordingly, the estimates presented are not necessarily indicative of the amounts that the Company could realize upon disposition. The use of different estimation methodologies may have a material effect on the estimated fair value amounts. The Company believes that the carrying amounts reflected in the Consolidated Balance Sheets at December 31, 2007 and 2006 approximate the fair values for cash and cash equivalents, accounts receivable, other assets, accounts payable, accrued expenses and borrowings under variable rate debt instruments.

The following are financial instruments for which the Company estimates of fair value differ from the carrying amounts (in thousands):

	December 31, 2007		December 31, 2006	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Mortgage payable, net of premiums	\$ 611,898	\$ 597,287	\$ 888,470	\$ 859,490
Unsecured notes payable, net of discounts	\$2,129,734	\$1,996,475	\$1,829,701	\$1,826,357

9. RISK MANAGEMENT AND USE OF FINANCIAL INSTRUMENTS**Risk Management**

In the normal course of its on-going business operations, the Company encounters economic risk. There are three main components of economic risk: interest rate risk, credit risk and market risk. The Company is subject to interest rate risk on its interest-bearing liabilities. Credit risk is the risk of inability or unwillingness of tenants to make contractually required payments. Market risk is the risk of declines in the value of properties due to changes in rental rates, interest rates or other market factors affecting the valuation of properties held by the Company.

Use of Derivative Financial Instruments

The Company's use of derivative instruments is limited to the utilization of interest rate agreements or other instruments to manage interest rate risk exposures and not for speculative purposes. The principal objective of such arrangements is to minimize the risks and/or costs associated with the Company's operating and financial structure, as well as to hedge specific transactions. The counterparties to these arrangements are major financial institutions with which the Company and its affiliates may also have other financial relationships. The Company is potentially exposed to credit loss in the event of non-performance by these counterparties. However, because of the high credit ratings of the counterparties, the Company does not anticipate that any of the counterparties will fail to meet these obligations as they come due. The Company does not hedge credit or property value market risks through derivative financial instruments.

The Company formally assesses, both at inception of the hedge and on an on-going basis, whether each derivative is highly-effective in offsetting changes in cash flows of the hedged item. If management determines that a derivative is not highly-effective as a hedge or if a derivative ceases to be a highly-effective hedge, the Company will discontinue hedge accounting prospectively.

Outstanding Derivatives

In November 2007, the Company entered into an interest rate swap agreement that is designated as a cash flow hedge of interest rate risk and qualified for hedge accounting. The interest rate swap is for a notional amount of \$25.0 million at a fixed rate of 3.747% with a maturity date of October 18, 2010 and will be used to hedge the risk of interest cash outflows on unsecured variable rate debt. The hedge had a nominal fair value at December 31, 2007 that is included in other liabilities and accumulated other comprehensive income in the accompanying consolidated balance sheet.

In October 2007, the Company entered into an interest rate swap agreement that is designated as a cash flow hedge of interest rate risk and qualified for hedge accounting. The interest rate swap is for a notional amount of \$25.0 million at a fixed rate of 4.415% with a maturity date of October 18, 2010 and will be used to hedge the risk of interest cash outflows on unsecured variable rate debt. The fair value of the hedge at December 31, 2007 was \$(0.5) million and is included in other liabilities and accumulated other comprehensive income in the accompanying consolidated balance sheet.

Table of Contents

In September 2007, the Company entered into an interest rate swap agreement that is designated as a cash flow hedge of interest rate risk and qualified for hedge accounting. The interest rate swap has a starting notional amount of \$63.7 million increasing to a maximum amount of \$155.0 million, at a fixed rate of 4.709% with a maturity date of October 18, 2010 and will be used to hedge the risk of interest cash outflows on unsecured variable rate debt. The fair value of the hedge at December 31, 2007 was \$(2.7) million and is included in other liabilities and accumulated other comprehensive income in the accompanying consolidated balance sheet.

Terminated Derivatives

In July 2007, in anticipation of an expected debt offering, the Company entered into four treasury lock agreements. The treasury lock agreements were designated as cash flow hedges on interest rate risk and qualified for hedge accounting. The treasury lock agreements have an expiration of 5 years with the following trade dates, notional amounts and all-in rates:

Trade Date	Notional Amount	All-in Rate
July 10, 2007	\$50.0 million	4.984%
July 18, 2007	\$50.0 million	4.915%
July 20, 2007	\$25.0 million	4.848%
July 25, 2007	\$25.0 million	4.780%

The agreements were settled on September 21, 2007, the original termination date of each agreement, at a total cost of \$3.9 million. During the fourth quarter upon completion of the DRA transaction, the Company determined it was probable that the forecasted transaction would not occur and accordingly, recorded an expense for the residual balance of \$3.7 million. During the quarter ended September 30, 2007, the Company recorded the ineffective portion of these agreements, totaling \$0.2 million, in the accompanying consolidated statement of operations.

In March 2007, in anticipation of the offering of 2017 Notes, the Company entered into two treasury lock agreements. The treasury lock agreements were designated as cash flow hedges on interest rate risk and qualified for hedge accounting. Each of the treasury lock agreements were for notional amounts of \$75.0 million for an expiration of 10 years at all-in rates of 4.5585% and 4.498%. The agreements were settled in April 2007 upon completion of the offering of the 2017 Notes at a total benefit of \$1.1 million, with nominal ineffectiveness. This benefit was recorded as a component of accumulated other comprehensive income in the accompanying consolidated balance sheet and is being amortized over the term of the 2017 Notes.

In March 2006, in anticipation of the offering of the 2009 Notes, the 2012 Notes and the 2016 Notes, the Company entered into forward starting swaps. The forward starting swaps were designated as cash flow hedges of interest rate risk and qualified for hedge accounting. The forward starting swaps were for notional amounts totaling \$200.0 million at an all-in-rate of 5.2%. Two of the forward starting swaps had a nine year maturity date and one had a ten year maturity date. The forward starting swaps were settled in March 2006 upon the completion of the offering of the 2009, 2012, and 2016 Notes at a total benefit of approximately \$3.3 million with nominal ineffectiveness. The benefit was recorded as a component of accumulated other comprehensive income in the accompanying consolidated balance sheet and is being amortized to interest expense over the term of the unsecured notes.

The Company entered into two interest rate swaps in January 2006 aggregating \$90 million in notional amount as part of its acquisition of Prentiss. The instruments were used to hedge the risk of interest cash outflows on secured variable rate debt on properties that were included as part of the real estate venture in which the Company purchased the remaining 49% of the minority interest partner's share in March 2007. One of the swaps with a notional amount of \$20 million had a maturity date of February 1, 2010 at an all-in rate of 4.675%. The other, with a notional amount of \$70 million, had a maturity date of August 1, 2008 at an all in rate of 4.675%. The agreements were settled in April 2007 in connection with the repayment of five mortgage notes, at a total benefit of \$0.4 million with nominal ineffectiveness.

Table of Contents**Concentration of Credit Risk**

Concentrations of credit risk arise when a number of tenants related to the Company's investments or rental operations are engaged in similar business activities, or are located in the same geographic region, or have similar economic features that would cause their inability to meet contractual obligations, including those to the Company, to be similarly affected. The Company regularly monitors its tenant base to assess potential concentrations of credit risk. Management believes the current credit risk portfolio is reasonably well diversified and does not contain any unusual concentration of credit risk. No tenant accounted for 10% or more of the Company's rents during 2007, 2006 and 2005.

10. DISCONTINUED OPERATIONS

For the years ended December 31, 2007, 2006 and 2005, income from discontinued operations relates to 44 properties containing approximately 7,304,131 million net rentable square feet that the Company has sold since January 1, 2005. The following table summarizes revenue and expense information for the 44 properties sold since January 1, 2005 (in thousands):

11. MINORITY INTEREST IN OPERATING PARTNERSHIP AND CONSOLIDATED REAL ESTATE VENTURES*Operating Partnership*

As of December 31, 2007 and 2006, the aggregate book value of the minority interest associated with these units in the accompanying consolidated balance sheet was \$81.2 million and \$89.6 million, respectively and the Company believes that the aggregate settlement value of these interests was approximately \$68.8 million and \$131.7 million, respectively. This amount is based on the number of units outstanding and the closing share price on the balance sheet date.

Table of Contents

During the year ended December 31, 2006, 424,608 Class A units were issued in connection with the acquisitions of a property. These Class A units were subsequently redeemed for \$13.5 million and this amount is included in distributions to minority interest holders on the consolidated statement of cash flows.

Consolidated Real Estate Ventures

As of December 31, 2007, the Company owned interests in three consolidated real estate ventures that own three office properties containing approximately 0.4 million net rentable square feet. As of December 31, 2006, the Company owned interests in four consolidated real estate ventures that owned 15 office properties containing approximately 1.5 million net rentable square feet.

On March 1, 2007, the Company acquired the remaining 49% interest in a real estate venture previously owned by Stichting Pensioenfonds ABP containing ten office properties for a purchase price of \$63.7 million. The Company owned a 51% interest in this real estate venture through the acquisition of Prentiss on January 5, 2006. Minority interest in Real Estate Ventures represents the portion of these consolidated real estate ventures not owned by the Company.

For the remaining consolidated joint ventures, the minority interest is reflected at zero carrying amount as a result of accumulated losses and distributions in excess of basis.

The minority interests associated with certain of the Real Estate Ventures, that have finite lives under the terms of the partnership agreements represent mandatorily redeemable interests as defined in SFAS 150. As of December 31, 2007 and 2006, the aggregate book value of these minority interests in the accompanying consolidated balance sheet was \$0 and the Company believes that the aggregate settlement value of these interests was approximately \$8.1 million. This amount is based on the estimated liquidation values of the assets and liabilities and the resulting proceeds that the Company would distribute to its Real Estate Venture partners upon dissolution, as required under the terms of the respective partnership agreements. Subsequent changes to the estimated fair values of the assets and liabilities of the consolidated Real Estate Ventures will affect the Company's estimate of the aggregate settlement value. The partnership agreements do not limit the amount that the minority partners would be entitled to in the event of liquidation of the assets and liabilities and dissolution of the respective partnerships.

Common and Preferred Shares

On December 11, 2007, the Company declared a distribution of \$0.44 per Common Share, totaling \$38.5 million, which was paid on January 18, 2008 to shareholders of record as of December 30, 2007. On December 11, 2006, the Company declared distributions on its Series C Preferred Shares and Series D Preferred Shares to holders of record as of January 4, 2008. These shares are entitled to a preferential return of 7.50% and 7.375%, respectively. Distributions paid on January 15, 2007 to holders of Series C Preferred Shares and Series D Preferred Shares totaled \$0.9 million and \$1.1 million, respectively.

Common Share Repurchases

The Company maintains a share repurchase program under which the Board has authorized us to repurchase our common shares from time to time. The Board initially authorized this program in 1998 and has periodically replenished capacity under the program. On May 2, 2006 the Company's Board restored capacity to 3.5 million

common shares.

The Company repurchased 1.8 million shares during the year ended December 31, 2007 for aggregate consideration of \$59.4 million under its share repurchase program. As of December 31, 2007, the Company may purchase an additional 0.5 million shares under the plan. 1.6 million of these shares are held in treasury to give the Company the ability to reissue such shares and are reflected as shares held in treasury on the consolidated balance sheet. 0.2 million of these shares were repurchased as part of the Company's deferred compensation program and are not included as shares held in treasury on the consolidated balance sheet.

During the year ended December 31, 2006, the Company repurchased approximately 1.2 million common shares under this program at an average price of \$29.22 per share. The shares repurchased in 2006 were retired and therefore are not included as shares held in treasury on the balance sheet.

Repurchases may be made from time to time in the open market or in privately negotiated transactions, subject to market conditions and compliance with legal requirements. The share repurchase program does not contain any time limitation and does not obligate the Company to repurchase any shares. The Company may discontinue the program at any time.

F - 32

Table of Contents

On October 4, 2006 the Company repurchased 1.8 million common shares with a portion of the proceeds of our 3.875% Exchangeable Guaranteed Notes at an average purchase price of \$32.80 per share (approximately \$60.0 million in aggregate). The Company repurchased these shares under a separate Board authorization that provided that the shares repurchased did not reduce capacity under the share repurchase program.

Share Based Compensation

In December 2004, the FASB issued SFAS No. 123(R), Share-Based Payment (SFAS 123(R)). SFAS 123(R) is an amendment of SFAS 123 and requires that the compensation cost relating to share-based payment transactions be recognized in the financial statements. The cost is required to be measured based on the fair value of the equity or liability instruments issued. SFAS 123(R) also contains additional minimum disclosures requirements including, but not limited to, the valuation method and assumptions used, amounts of compensation capitalized and modifications made. The effective date of SFAS 123(R) was subsequently amended by the SEC to be as of the beginning of the first interim or annual reporting period of the first fiscal year that begins on or after December 15, 2005, and allows several different methods of transition. The Company adopted SFAS 123(R) using the prospective method on January 1, 2006. This adoption did not have a material effect on our consolidated financial statements.

Stock Options

At December 31, 2007, the Company had 1,070,099 options outstanding under its shareholder approved equity incentive plan. No options were unvested as of December 31, 2007 and therefore there is no remaining unrecognized compensation expense associated with these options. Option activity as of December 31, 2007 and changes during the twelve months ended December 31, 2007 were as follows:

Table of Contents**401(k) Plan**

The Company sponsors a 401(k) defined contribution plan for its employees. Each employee may contribute up to 100% of annual compensation, subject to specific limitations under the Internal Revenue Code. At its discretion, the Company can make matching contributions equal to a percentage of the employee's elective contribution and profit sharing contributions. Employees vest in employer contributions over a three-year service period. The Company contributions were \$0.6 million in 2007, \$1.1 million in 2006, and \$1.0 million in 2005.

Restricted Share Awards

The Company's primary form of share-based compensation has been restricted shares issued under a shareholder approved equity incentive plan that authorizes various equity-based awards. As of December 31, 2007, 409,282 restricted shares were unvested. The vesting period for these shares ranges from three to seven years from the initial grant date. The remaining compensation expense to be recognized for the 409,282 restricted shares unvested at December 31, 2007 was approximately \$10.7 million. That expense is expected to be recognized over a weighted average remaining vesting period of 2.8 years. For the year ended December 31, 2007, the Company recognized \$3.3 million of compensation expense related to unvested restricted shares which is included in administrative expenses. The following table summarizes the Company's restricted share activity for the twelve-months ended December 31, 2007:

	Shares		Weighted Average Grant Date Fair value

Outperformance Program

On August 28, 2006, the Compensation Committee of the Company's Board of Trustees adopted a long-term incentive compensation program (the outperformance program). The Company will make payments (in the form of common shares) to executive-participants under the outperformance program only if the Company's total shareholder return exceeds percentage hurdles established under the outperformance program. The dollar value of any payments will depend on the extent to which our performance exceeds the hurdles. The Company established the outperformance program under the 1997 Plan.

If the total shareholder return (share price appreciation plus cash dividends) during a three-year measurement period exceeds either of two hurdles (with one hurdle keyed to the greater of a fixed percentage and an industry-based index, and the other hurdle keyed to a fixed percentage), then the Company will fund an incentive compensation pool in accordance with a formula and make pay-outs from the compensation pool in the form of vested and restricted common shares. The awards issued are accounted for in accordance with SFAS 123(R). The fair value of the awards on August 28, 2006, as adjusted for estimated forfeitures, was approximately \$5.6 million and will be amortized into expense over the five-year period beginning on the date of grant using a graded vesting attribution model. The fair value of \$5.6 million on the date of the initial grant represents approximately 86.5% of the total that may be awarded; the remaining amount available will be valued when the awards are granted to individuals. In January 2007, the Company awarded an additional 4.5% under the outperformance program. The fair value of the additional award is \$0.3 million and will be amortized over the remaining portion of the 5 year period. On the date of each grant, the awards were valued using a Monte Carlo simulation. For the years ended December 31, 2007 and 2006, the Company recognized \$1.4 million and \$0.5 million, respectively, of compensation expense related to the outperformance

program.

Table of Contents*Employee Share Purchase Plan*

On May 9, 2007, the Company's shareholders approved the 2007 Non-Qualified Employee Share Purchase Plan (the ESPP). The ESPP is intended to provide eligible employees with a convenient means to purchase common shares of the Company through payroll deductions and voluntary cash purchases at an amount equal to 85% of the average closing price per share for a specified period. The maximum participant contribution for any plan year is limited to the lesser of 20% of compensation or \$25,000. The number of shares reserved for issuance under the ESPP is 1.25 million. Employees will be eligible to make purchases under the ESPP beginning in January 2008, accordingly there were no purchases made during the year ended December 31, 2007.

13. PREFERRED SHARES

In 2003, the Company issued 2,000,000 7.50% Series C Cumulative Redeemable Preferred Shares (the Series C Preferred Shares) for net proceeds of \$48.1 million. The Series C Preferred Shares are perpetual. The Company may not redeem Series C Preferred Shares before December 30, 2008 except to preserve its REIT status. On or after December 30, 2008, the Company, at its option, may redeem the Series C Preferred Shares, in whole or in part, by paying \$25.00 per share plus accrued but unpaid dividends.

In 2004, the Company issued 2,300,000 7.375% Series D Cumulative Redeemable Preferred Shares (the Series D Preferred Shares) for net proceeds of \$55.5 million. The Series D Preferred Shares are perpetual. The Company may not redeem Series D Preferred Shares before February 27, 2009 except to preserve its REIT status. On or after February 27, 2009, the Company, at its option, may redeem the Series D Preferred Shares, in whole or in part, by paying \$25.00 per share plus accrued but unpaid dividends.

Over time, the unrealized gains and losses held in Accumulated Other Comprehensive Income (AOCI) will be reclassified to earnings in the same period(s) in which hedged items are recognized in earnings. The current balance held in AOCI is expected to be reclassified to earnings over the lives of the current hedging instruments, or for realized losses on forecasted debt transactions, over the related term of the debt obligation, as applicable. As of December 31, 2007, AOCI includes unrealized losses of (\$2.7) million and net realized gains of \$1.1 million on cash flow hedges.

During the years ending December 31, 2007 and 2006, the Company reclassified approximately (\$0.1) million and \$0.1 million, respectively, to interest expense associated with treasury lock agreements and forward starting swaps previously settled (see Note 7).

16. SEGMENT INFORMATION

As of December 31, 2007, the Company currently manages its portfolio within seven segments: (1) Pennsylvania, (2) New Jersey/Delaware, (3) Richmond, Virginia, (4) California North, (5) California South, (6) Metropolitan Washington D.C and (7) Southwest. The Pennsylvania segment includes properties in Chester, Delaware, Berks,

Bucks, Cumberland, Dauphin, Lehigh and Montgomery counties in the Philadelphia suburbs and the City of Philadelphia in Pennsylvania. The New Jersey/Delaware segment includes properties in counties in the southern and central part of New Jersey including Burlington, Camden and Mercer counties and the state of Delaware. The Richmond, Virginia segment includes properties primarily in Albemarle, Chesterfield and Henrico counties, the City of Richmond and Durham, North Carolina. The California North segment includes properties in the City of Oakland and Concord. The California South segment includes properties in the City of Carlsbad and Rancho Bernardo. The Metropolitan Washington, D.C. segment includes properties in Northern Virginia and suburban Maryland. The Southwest segment includes properties in Travis county of Texas. The corporate group is responsible for cash and investment management, development of certain real estate properties during the construction period, and certain other general support functions. Land held for development and construction in progress are transferred to operating properties by region upon completion of the associated construction or project.

17. RELATED-PARTY TRANSACTIONS

In 1998, the Board authorized the Company to make loans totaling up to \$5.0 million to enable employees of the Company to purchase Common Shares at fair market value. The loans have five-year terms, are full recourse, and are secured by the Common Shares purchased. The Company made loans under this program in 1998, 1999 and 2001. Interest, payable quarterly, accrues on the loans at the lower of the interest rate borne on borrowings under the Company's Credit Facility or a rate based on the dividend payments on the Common Shares. As of December 31, 2005, the interest rate was 4.18% per annum. The loans are payable at the earlier of the stated maturity date or 90 days following the employee's termination. As of December 31, 2005, the outstanding balance of the loan totaled \$0.3 million and was secured by an aggregate of 18,803 Common Shares. These loans were repaid in full by December 31, 2006.

The Company held a fifty percent economic interest in an approximately 141,724 square foot office building located at 101 Paragon Drive, Montvale, New Jersey. The remaining fifty percent interest was held by Donald E. Axinn, one of the Company's Trustees. Although the Company and Mr. Axinn had each committed to provide one half of the \$11 million necessary to repay the mortgage loan secured by this property at the maturity of the loan, in February 2006 an unaffiliated third party entered into an agreement to purchase this property for \$18.3 million. As a result of the purchase by an unaffiliated third party during August 2006, the Company recognized a \$3.1 million gain

on termination of its rights under a 1998 contribution agreement, modified in 2005, that entitled the Company to the 50% interest in the joint venture to operate the property. This gain is shown separately on the Company's income statement as a gain on termination of purchase contract.

The Company owned 384,615 shares of Cypress Communications, Inc. (Cypress) Common Stock. These shares were redeemed in July 2005 for \$0.3 million. The redemption was the result of Cypress's merger with another company. Prior to this merger, an officer of the Company held a position on Cypress's Board of Directors.

Table of Contents**18. OPERATING LEASES**

The Company leases properties to tenants under operating leases with various expiration dates extending to 2030. Minimum future rentals on non-cancelable leases at December 31, 2007 are as follows (in thousands):

Year	Minimum Rent
2008	\$ 515,156
2009	467,402
2010	402,579
2011	337,340
2012	277,940
Thereafter	1,323,580

Total minimum future rentals presented above do not include amounts to be received as tenant reimbursements for operating costs.

19. COMMITMENTS AND CONTINGENCIES*Legal Proceedings*

The Company is involved from time to time in litigation on various matters, including disputes with tenants and disputes arising out of agreements to purchase or sell properties. Given the nature of the Company's business activities, these lawsuits are considered routine to the conduct of its business. The result of any particular lawsuit cannot be predicted, because of the very nature of litigation, the litigation process and its adversarial nature, and the jury system. The Company does not expect that the liabilities, if any, that may ultimately result from such legal actions will have a material adverse effect on the consolidated financial position, results of operations or cash flows of the Company. There have been recent reports of lawsuits against owners and managers of multifamily and office properties asserting claims of personal injury and property damage caused by the presence of mold in residential units or office space. The Company has been named as a defendant in two lawsuits in the State of New Jersey that allege personal injury as a result of the presence of mold. In 2005, one lawsuit was dismissed by way of summary judgment with prejudice. Unspecified damages are sought on the remaining lawsuit. The Company has referred this lawsuit to its environmental insurance carrier and, as of the date of this Form 10-K, the insurance carrier is continuing to tender a defense to this claim.

Letters-of-Credit

Under certain mortgages, the Company has funded required leasing and capital reserve accounts for the benefit of the mortgage lenders with letters-of-credit which totaled \$13.5 million at December 31, 2007. The Company is also required to maintain escrow accounts for taxes, insurance and tenant security deposits and these accounts aggregated \$7.5 million at December 31, 2007. Tenant rents at properties that secure these mortgage loans are deposited into the loan servicer's depository accounts, which are used to fund debt service, operating expenses, capital expenditures and the escrow and reserve accounts, as necessary. Any excess cash is included in cash and cash equivalents.

Ground Rent

Future minimum rental payments under the terms of all non-cancelable ground leases under which the Company is the lessee are expensed on a straight-line basis regardless of when payments are due. Minimum future rental payments on non-cancelable leases at December 31, 2007 are as follows (in thousands):

Certain of the land leases provide for prepayment of rent on a present value basis using a fixed discount rate. Further, certain of the land lease for properties (currently under development) provide for contingent rent participation by the lessor in certain capital transactions and net operating cash flows of the property after certain returns are achieved by the Company. Such amounts, if any, will be reflected as contingent rent when incurred. The leases also provide for payment by the Company of certain operating costs relating to the land, primarily real estate taxes. The above schedule of future minimum rental payments do not include any contingent rent amounts nor any reimbursed expenses.

Other Commitments or Contingencies

As of December 31, 2007, the Company owned 417 acres of land for future development.

As part of the Company's September 2004 acquisition of a portfolio of properties from The Rubenstein Company (which the Company refers to as the TRC acquisition), the Company agreed to issue to the sellers up to a maximum of \$9.7 million of Class A Units of the Operating Partnership if certain of the acquired properties achieved at least 95% occupancy prior to September 21, 2007. The maximum number of Units that the Company agreed to issue declined monthly and expired on September 21, 2007 with no additional obligation.

As part of the TRC acquisition, the Company acquired its interest in Two Logan Square, a 696,477 square foot office building in Philadelphia, primarily through its ownership of a second and third mortgage secured by this property.

This property is consolidated as the borrower is a variable interest entity and the Company, through its ownership of the second and third mortgages, is the primary beneficiary. The Company currently does not expect to take title to Two Logan Square until, at the earliest, September 2019. If the Company takes fee title to Two Logan Square upon a foreclosure of its mortgage, the Company has agreed to pay an unaffiliated third party that holds a residual interest in the fee owner of this property an amount equal to \$0.6 million (if we must pay a state and local transfer upon taking title) and \$2.9 million (if no transfer tax is payable upon the transfer).

As part of the Company's 2006 acquisition of Prentiss Properties Trust, the TRC acquisition in 2004 and several of our other transactions, the Company agreed not to sell certain of the properties it acquired in transactions that would trigger taxable income to the former owners. In the case of the TRC acquisition, the Company agreed not to sell acquired properties for periods up to 15 years from the acquisition date as follows: 201 King of Prussia Road, 555 East Lancaster Avenue and 300 Delaware Avenue (January 2008); One Rodney Square and 130/150/170 Radnor Financial Center (January 2015); and One Logan Square, Two Logan Square and Radnor Corporate Center (January 2020). In the Prentiss acquisition, the Company assumed the obligation of Prentiss not to sell Concord Airport Plaza before March 2018 and 6600 Rockledge before July 2008. The Company also agreed not to sell 14 other properties that contain an aggregate of 1.2 million square feet for periods that expire by the end of 2008. The Company's agreements generally provide that it may dispose of the subject properties only in transactions that qualify as tax-free exchanges under Section 1031 of the Internal Revenue Code or in other tax deferred transactions. If the Company were to sell a restricted property before expiration of the restricted period in a non-exempt transaction, the Company would be required to make significant payments to the parties who sold it the applicable property on account of tax liabilities attributed to them.

The Company invests in its properties and regularly incur capital expenditures in the ordinary course to maintain the properties. The Company believes that such expenditures enhance our competitiveness. The Company also enters into construction, utility and service contracts in the ordinary course of business which may extend beyond one year. These contracts typically provide for cancellation with insignificant or no cancellation penalties.

20. SUBSEQUENT EVENT

On January 14, 2008, the Company sold 7130 Ambassador Drive, an office property located in Allentown, Pennsylvania containing an aggregate of 114,049 net rentable square feet, for an aggregate sales price of \$5.8 million.

Report of Independent Registered Public Accounting Firm

To the Partners of Brandywine Operating Partnership, L.P.:

In our opinion, the consolidated financial statements listed in the index appearing under Item 15(a)(1) present fairly, in all material respects, the financial position of Brandywine Operating Partnership and its subsidiaries (the Partnership) at December 31, 2007 and 2006, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2007 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedules listed in the index appearing under Item 15(a)(2) present fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Partnership maintained, in all material respects, effective internal control over financial reporting as of December 31, 2007, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Partnership's management is responsible for these financial statements and financial statement schedules, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on these financial statements, on the financial statement schedules, and on the Partnership's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of

Table of Contents

financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As described in Management's Report on Internal Control Over Financial Reporting, management has excluded the Partnership's investments in Four and Six Tower Bridge Associates from its assessment of internal control over financial reporting as of December 31, 2007 because the Partnership does not have the right and authority to assess the internal control over financial reporting of the individual entities and it lacks the ability to influence or modify the internal control over financial reporting of the individual entities. Four and Six Tower Bridge Associates are two real estate partnerships, created prior to December 13, 2003, which the Partnership started consolidating under Financial Accounting Standards Board Interpretation No. 46R, Consolidation of Variable Interest Entities on March 31, 2004. We have also excluded Four and Six Tower Bridge Associates from our audit of internal control over financial reporting. The total assets and total revenue of Four and Six Tower Bridge Associates represent, in the aggregate less than 1% and 1%, respectively, of the Partnership's consolidated financial statement amounts as of and for the year ended December 31, 2007.

**BRANDYWINE OPERATING PARTNERSHIP, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2007, 2006 AND 2005**

1. ORGANIZATION AND NATURE OF OPERATIONS

Brandywine Operating Partnership, L.P. (referred to herein as we, us or the Partnership) is the entity through which Brandywine Realty Trust, a Maryland real estate investment trust (the Company), a self-administered and self-managed real estate investment trust, conducts its business and owns its assets. The Partnership's activities include acquiring, developing, redeveloping, leasing and managing office and industrial properties. The Company's common shares of beneficial interest are publicly traded on the New York Stock Exchange under the ticker symbol BDN. As of December 31, 2007, the Partnership owned 216 office properties, 23 industrial facilities and one mixed-use property (collectively, the Properties) containing an aggregate of approximately 24.9 million net rentable square feet. The Partnership also has seven properties under development and seven properties under redevelopment containing an aggregate 3.7 million net rentable square feet. As of December 31, 2007, the Partnership consolidates three office properties owned by real estate ventures containing 0.4 million net rentable square feet. Therefore, the Partnership owns and consolidates 257 properties with an aggregate of 29.0 million net rentable square feet. As of December 31, 2007, the Partnership owned economic interests in 14 unconsolidated real estate ventures that contain approximately 4.4 million net rentable square feet (collectively, the Real Estate Ventures). In addition, as of December 31, 2007, the Partnership owned approximately 417 acres of undeveloped land. The Properties and the properties owned by the Real Estate Ventures are located in and surrounding Philadelphia, PA, Wilmington, DE, Southern and Central New Jersey, Richmond, VA, Metropolitan Washington, D.C., Austin, TX and Oakland and Rancho Bernardo, CA. In addition to managing properties that the Partnership owns, as of December 31, 2007, the Partnership was managing approximately 14.5 million net rentable square feet of office and industrial properties for third parties.

All references to building square footage, acres, occupancy percentage and the number of buildings are unaudited. Brandywine Realty Trust is the sole general partner of the Operating Partnership and, as of December 31, 2007, owned a 95.8% interest in the Operating Partnership. The Partnership conducts its third-party real estate management services business primarily through five management companies (collectively, the Management Companies): Brandywine Realty Services Corporation (BRSCO), BTRS, Inc. (BTRS), Brandywine Properties I Limited, Inc. (BPI), BDN Brokerage LLC (BBL) and Brandywine Properties Management, L.P. (BPM). Each of BRSCO, BTRS and BPI is a taxable REIT subsidiary. The Operating Partnership owns, directly and indirectly, currently 100% of each of BRSCO, BTRS, BPI, BBL and BPM.

Prior to December 2007, 5% of BRSCO, one of the consolidated management services companies, was owned by a partnership comprised of a current executive and former executive of the Company, each of whom is a member of the Company's Board of Trustees. In December 2007, the operating Partnership bought out this interest for a nominal amount and BRSCO is now wholly owned.

As of December 31, 2007, the Management Companies were managing properties containing an aggregate of approximately 43.0 million net rentable square feet, of which approximately 28.5 million net rentable square feet related to Properties owned by the Partnership and approximately 14.5 million net rentable square feet related to properties owned by third parties and Real Estate Ventures.

As more fully described in Note 3, on January 5, 2006, the Partnership acquired Prentiss Properties Trust (Prentiss) pursuant to an Agreement and Plan of Merger (the Merger Agreement) that the Partnership entered into with Prentiss on October 3, 2005.

Table of Contents**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES****Principles of Consolidation**

When the Partnership obtains an economic interest in an entity, the Partnership evaluates the entity to determine if the entity is deemed a variable interest entity (VIE), and if the Partnership is deemed to be the primary beneficiary, in accordance with FASB Interpretation No. 46R, Consolidation of Variable Interest Entities (FIN 46R). When an entity is not deemed to be a VIE, the Partnership considers the provisions of EITF 04-05, Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights (EITF 04-05). The Partnership consolidates (i) entities that are VIEs and of which the Partnership is deemed to be the primary beneficiary and (ii) entities that are non-VIEs which the Partnership controls and the limited partners do not have the ability to dissolve the entity or remove the Partnership without cause nor substantive participating rights. Entities that the Partnership accounts for under the equity method (i.e. at cost, increased or decreased by the Partnership's share of earnings or losses, plus contributions, less distributions) include (i) entities that are VIEs and of which the Partnership is not deemed to be the primary beneficiary (ii) entities that are non-VIEs which the Partnership does not control, but over which the Partnership has the ability to exercise significant influence and (iii) entities that are non-VIEs that the Partnership controls through its general partner status, but the limited partners in the entity have the substantive ability to dissolve the entity or remove the Partnership without cause or have substantive participating rights. The Partnership will reconsider its determination of whether an entity is a VIE and who the primary beneficiary is, and whether or not the limited partners in an entity have substantive rights, if certain events occur that are likely to cause a change in the original determinations. The portion of these entities not owned by the Partnership is presented as minority interest as of and during the periods consolidated. All intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Management makes significant estimates regarding revenue, impairment of long-lived assets, allowance for doubtful accounts and deferred costs.

Operating Properties

Operating properties are carried at historical cost less accumulated depreciation and impairment losses. The cost of operating properties reflects their purchase price or development cost. Costs incurred for the acquisition and renovation of an operating property are capitalized to the Partnership's investment in that property. Ordinary repairs and maintenance are expensed as incurred; major replacements and betterments, which improve or extend the life of the asset, are capitalized and depreciated over their estimated useful lives. Fully-depreciated assets are removed from the accounts.

Purchase Price Allocation

The Partnership allocates the purchase price of properties to net tangible and identified intangible assets acquired based on fair values. Above-market and below-market in-place lease values for acquired properties are recorded based on the present value (using an interest rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) the Partnership's estimate of the fair market lease rates for the corresponding in-place leases, measured over a period equal to the remaining non-cancelable term of the lease. Capitalized above-market lease values are amortized as a reduction of rental income over the remaining non-cancelable terms of the respective leases. Capitalized below-market lease values are amortized as an increase to rental income over the remaining non-cancelable terms of the respective leases, including any below market fixed-rate renewal periods.

Table of Contents

Other intangible assets also include amounts representing the value of tenant relationships and in-place leases based on the Partnership's evaluation of the specific characteristics of each tenant's lease and the Partnership's overall relationship with the respective tenant. The Partnership estimates the cost to execute leases with terms similar to the remaining lease terms of the in-place leases, including leasing commissions, legal and other related expenses. This intangible asset is amortized to expense over the remaining term of the respective leases. Partnership estimates of value are made using methods similar to those used by independent appraisers or by using independent appraisals. Factors considered by the Partnership in this analysis include an estimate of the carrying costs during the expected lease-up periods considering current market conditions and costs to execute similar leases. In estimating carrying costs, the Partnership includes real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods, which primarily range from three to twelve months. The Partnership also considers information obtained about each property as a result of its pre-acquisition due diligence, marketing and leasing activities in estimating the fair value of the tangible and intangible assets acquired. The Partnership also uses the information obtained as a result of its pre-acquisition due diligence as part of its consideration of FIN 47, *Accounting for Conditional Asset Retirement Obligation* (FIN 47) and when necessary, will record a conditional asset retirement obligation as part of its purchase price.

Characteristics considered by the Partnership in allocating value to its tenant relationships include the nature and extent of the Partnership's business relationship with the tenant, growth prospects for developing new business with the tenant, the tenant's credit quality and expectations of lease renewals, among other factors. The value of tenant relationship intangibles is amortized over the remaining initial lease term and expected renewals, but in no event longer than the remaining depreciable life of the building. The value of in-place leases is amortized over the remaining non-cancelable term of the respective leases and any fixed-rate renewal periods.

In the event that a tenant terminates its lease, the unamortized portion of each intangible, including market rate adjustments (above or below), in-place lease values and tenant relationship values, would be charged to expense and market rate adjustments would be recorded to revenue.

Depreciation and Amortization

The costs of buildings and improvements are depreciated using the straight-line method based on the following useful lives: buildings and improvements (five to 55 years) and tenant improvements (the shorter of the lease term or the life of the asset).

Construction in Progress

Project costs directly associated with the development and construction of a real estate project are capitalized as construction in progress. In addition, interest, real estate taxes and other expenses that are directly associated with the Partnership's development activities are capitalized until the property is placed in service. Internal direct construction costs totaling \$4.8 million in 2007, \$4.9 million in 2006 and \$3.4 million in 2005 and interest totaling \$17.5 million in 2007, \$9.5 million in 2006 and \$9.6 million in 2005 were capitalized related to development of certain Properties and land holdings.

Impairment of Long-Lived Assets

Statement of Financial Accounting Standard No. 144 (SFAS 144), *Accounting for the Impairment or Disposal of Long-Lived Assets*, provides a single accounting model for long-lived assets as held-for-sale, broadens the scope of businesses to be disposed of that qualify for reporting as discontinued operations and changes the timing of recognizing losses on such operations.

In accordance with SFAS 144, long-lived assets, such as real estate investments and purchased intangibles subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset group may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future

Table of Contents

cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of are separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated. The other assets and liabilities related to assets classified as held-for-sale are presented separately in the consolidated balance sheet. The Partnership had no properties classified as held for sale at December 31, 2007. As of December 31, 2006, the Partnership had two properties classified as held for sale.

Cash and Cash Equivalents

Cash and cash equivalents are highly-liquid investments with original maturities of three months or less. The Partnership maintains cash equivalents in financial institutions in excess of insured limits, but believes this risk is mitigated by only investing in or through major financial institutions.

Restricted Cash

Restricted cash consists of cash held as collateral to provide credit enhancement for the Partnership's mortgage debt, cash for property taxes, capital expenditures and tenant improvements. Restricted cash is included in other assets discussed below.

Accounts Receivable

Leases with tenants are accounted for as operating leases. Minimum annual rentals under tenant leases are recognized on a straight-line basis over the term of the related lease. The cumulative difference between lease revenue recognized under the straight-line method and contractual lease payment terms is recorded as accrued rent receivable, net on the accompanying balance sheets. Included in current tenant receivables are tenant reimbursements which are comprised of amounts recoverable from tenants for common area maintenance expenses and certain other recoverable expenses that are recognized as revenue in the period in which the related expenses are incurred. As of December 31, 2007, no tenant represented more than 10% of accounts receivable. As of December 31, 2006, one tenant represented approximately 17% of accounts receivable, a significant portion of which is for reimbursements in connection with a tenant improvement project.

Tenant receivables and accrued rent receivables are carried net of the allowances for doubtful accounts of \$3.8 million and \$6.4 million in 2007, respectively, and \$4.5 million and \$4.8 million in 2006, respectively. The allowance is an estimate based on two calculations that are combined to determine the total amount reserved. First, the Partnership evaluates specific accounts where it has determined that a tenant may have an inability to meet its financial obligations. In these situations, the Partnership uses its judgment, based on the facts and circumstances, and records a specific reserve for that tenant against amounts due to reduce the receivable to the amount that the Partnership expects to collect. These reserves are reevaluated and adjusted as additional information becomes available. Second, a reserve is established for all tenants based on a range of percentages applied to receivable aging categories. These percentages are based on historical collection and write-off experience. If the financial condition of the Partnership's tenants were to deteriorate, additional allowances may be required.

Investments in Unconsolidated Real Estate Ventures

The Partnership accounts for its investments in unconsolidated Real Estate Ventures under the equity method of accounting as it is not the primary beneficiary (for VIE's) and the Partnership exercises significant influence, but does not control these entities under the provisions of the entities' governing agreements pursuant to EITF 04-05. These investments are recorded initially at cost, as Investments in Real Estate Ventures, and subsequently adjusted for equity in earnings and cash contributions and distributions.

On a periodic basis, management assesses whether there are any indicators that the value of the Partnership's investments in unconsolidated Real Estate Ventures may be other than temporarily impaired. An investment is impaired only if the value of the investment, as estimated by management, is less than the

Table of Contents

carrying value of the investment. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the investment over the value of the investment, as estimated by management.

To the extent that the Partnership acquires an interest in or contributes assets to a Real Estate Venture project, the difference between the Partnership's cost basis in the investment in venture and in the assets, intangibles and liabilities of the Real Estate Venture is amortized over the life of the related assets, intangibles and liabilities and such adjustment is included in the Partnership's share of equity in income of unconsolidated ventures.

Deferred Costs

Costs incurred in connection with property leasing are capitalized as deferred leasing costs. Deferred leasing costs consist primarily of leasing commissions and internal leasing costs that are amortized on the straight-line method over the life of the respective lease which generally ranges from one to 15 years. Management re-evaluates the remaining useful lives of leasing costs as economic and market conditions change.

Costs incurred in connection with debt financing are capitalized as deferred financing costs and charged to interest expense over the terms of the related debt agreements. Deferred financing costs consist primarily of loan fees which are amortized over the related loan term. Management re-evaluates the remaining useful lives of financing costs as economic and market conditions change.

Other Assets

As of December 31, 2007, other assets included prepaid real estate taxes of \$8.0 million, prepaid insurance of \$5.7 million, marketable securities of \$3.2 million, deposits on properties expected to be purchased in 2008 totaling \$1.6 million, a tenant allowance totalling \$8.0 million, cash surrender value of life insurance of \$7.7 million, furniture, fixtures and equipment of \$7.2 million, restricted cash of \$17.2 million and \$16.0 million of other assets. Also included in this balance are a \$3.1 million note receivable with a 20 year amortization period for principal and interest (balloon payment in March 2008) that bears interest at 8.5% and an \$7.8 million note receivable with a 20 year amortization period for principal and interest (balloon payment in December 2008) that bears interest at 8.5%.

As of December 31, 2006, other assets included a direct financing lease of \$14.6 million, prepaid real estate taxes of \$9.7 million, prepaid insurance of \$4.4 million, marketable securities of \$6.8 million, deposits on properties expected to be purchased in 2007 totaling \$2.2 million, cash surrender value of life insurance of \$11.6 million, furniture, fixtures and equipment of \$6.8 million, restricted cash of \$22.6 and \$18.4 million of other assets. Also included in this balance are a \$4.3 million note receivable with a 20 year amortization period for principal and interest (balloon payment in March 2008) that bears interest at 8.5% and an \$8.0 million note receivable with a 20 year amortization period for principal and interest (balloon payment in December 2008) that bears interest at 8.5%.

Revenue Recognition

Rental revenue is recognized on the straight-line basis from the later of the date of the commencement of the lease or the date of acquisition of the property subject to existing leases, which averages minimum rents over the terms of the leases. The cumulative difference between lease revenue recognized under this method and contractual lease payment terms is recorded as accrued rent receivable on the accompanying balance sheets. The straight-line rent adjustment increased revenue by approximately \$25.0 million in 2007, \$31.3 million in 2006 and \$15.0 million in 2005. Deferred rents on the balance sheet represent rental revenue received prior to their due dates and amounts paid by the tenant for certain improvements considered to be landlord assets that will remain the Partnership's property at the end of the tenant's lease term. The amortization of these amounts paid by the tenant for such improvements is calculated on a straight-line basis over the term of the tenant's lease and is a component of straight-line rental income and increased revenue by \$3.3 million in 2007 and \$1.3 million in 2006. Leases also typically provide for tenant reimbursement of a portion of common area maintenance and other operating expenses to the extent

Table of Contents

that a tenant's pro rata share of expenses exceeds a base year level set in the lease. Other income is recorded when earned and is primarily comprised of termination fees received from tenants, bankruptcy settlement fees, third party leasing commissions, and third party management fees. During 2007, 2006, and 2005, the Partnership earned \$10.2 million, \$7.8 million, and \$6.1 million in termination fees.

No tenant represented greater than 10% of the Partnership's rental revenue in 2007, 2006 or 2005.

Income Taxes

No federal or state income taxes are payable by the Partnership, and accordingly, no provision for taxes has been made in the accompanying consolidated financial statements. The partners are to include their respective share of the Partnership's profits or losses in their individual tax returns. The Partnership's tax returns and the amount of allocable Partnership profits and losses are subject to examination by federal and state taxing authorities. If such examination results in changes to Partnership profits or losses, then the tax liability of the partners would be changed accordingly. The Partnership has several subsidiary real estate investment trusts (REITs) that have elected to be treated as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the Code). In order to maintain their qualification as a REIT, the REIT subsidiaries are required to, among other things, distribute at least 90% of its REIT taxable income to its stockholders and meet certain tests regarding the nature of its income and assets. The REIT subsidiaries are not subject to federal income tax with respect to the portion of its income that meets certain criteria and is distributed annually to the stockholders. Accordingly, no provision for federal income taxes is included in the accompanying consolidated financial statements with respect to the operations of these entities. The REIT subsidiaries intend to continue to operate in a manner that allows them to continue to meet the requirements for taxation as REITs. Many of these requirements, however, are highly technical and complex. If one of the REIT subsidiaries were to fail to meet these requirements, the REIT subsidiaries would be subject to federal income tax. The Partnership is subject to certain state and local taxes. Provision for such taxes has been included in general and administrative expenses in the Partner's Consolidated Statements of Operations and Comprehensive Income. The tax basis in the Partnership's assets was \$4.5 billion as of December 31, 2007 and \$4.2 billion as of December 31, 2006.

The Company is subject to a 4% federal excise tax if sufficient taxable income is not distributed within prescribed time limits. The excise tax equals 4% of the annual amount, if any, by which the sum of (a) 85% of the Company's ordinary income and (b) 95% of the Company's net capital gain exceeds cash distributions and certain taxes paid by the Company. No excise tax was incurred in 2007, 2006, or 2005.

The Partnership may elect to treat one or more of its subsidiaries as a taxable REIT subsidiary (TRS). In general, a TRS of the Partnership may perform additional services for tenants of the Partnership and generally may engage in any real estate or non-real estate related business (except for the operation or management of health care facilities or lodging facilities or the provision to any person, under a franchise, license or otherwise, of rights to any brand name under which any lodging facility or health care facility is operated). A TRS is subject to corporate federal income tax. The Partnership has elected to treat certain of its corporate subsidiaries as TRSs, these entities provide third party property management services and certain services to tenants that could not otherwise be provided. At December 31, 2007, the Partnership's TRSs had tax net operating loss (NOL) carryforwards of approximately \$2.5 million, expiring from 2013 to 2027. The Partnership has ascribed a full valuation allowance to its net deferred tax assets.

The Operating Partnership adopted the provisions of FASB interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109 (FIN 48)* on January 1, 2007 as a result of the implementation of FIN 48, the Operating Partnership recognized no material adjustments regarding our tax accounting treatment. The Operating Partnership expects to recognize interest and penalties, to the extent incurred related to uncertainty tax positions if any, as income tax expense, which would be included in general and administrative expense.

Earnings Per Share

Basic earnings per Common Partnership Unit is calculated by dividing income allocated to Common Partnership Unit by the weighted-average number of units outstanding during the period. Diluted earnings per Common Partnership Unit includes the effect of common partnership unit equivalents outstanding during the period.

Table of Contents**Stock-Based Compensation Plans**

The Partnership Agreement provides for the issuance by the Partnership to its general partner, the Company, of a number of Common Partnership Units equal to the number of common shares issued by the Company, the net proceeds of which are contributed to the Partnership. When the Company issues common shares under its equity-based compensation plan, the Partnership issues to the Company an equal number of Common Partnership Units. The Company maintains shareholder-approved equity incentive plans. The Compensation Committee of the Company's Board of Trustees authorizes awards under these plans. In May 2007, the Company's shareholders approved an amendment to the Company's Amended and Restated 1997 Long-Term Incentive Plan (the "1997 Plan"). The amendment provided for the merger of the Prentiss Properties Trust 2005 Share Incentive Plan (the "Prentiss 2005 Plan") with and into the 1997 Plan, thereby transferring into the 1997 Plan all of the shares that remained available for award under the Prentiss 2005 Plan. The Company had previously assumed the Prentiss 2005 Plan, together with other Prentiss incentive plans, as part of the Company's January 2006 acquisition of Prentiss Properties Trust ("Prentiss"). The 1997 Plan reserves 500,000 common shares solely for awards under options and share appreciation rights that have an exercise or strike price at least equal to the market price of the common shares on the date of award and the remaining shares under the 1997 Plan are available for any type of award, including restricted share and performance share awards and options. Incentive stock options may not be granted with an exercise price that is lower than the market price of the common shares on the grant date. All options awarded by the Company to date are non-qualified stock options that generally had an initial vesting schedule that ranged from two to ten years. As of December 31, 2007, approximately 4.1 million common shares remained available for future award under the 1997 Plan (including the 500,000 shares that are limited to option awards as described above, and without giving effect to any shares that would become available for awards if and to the extent that outstanding awards lapse, expire or are forfeited). On January 1, 2002, the Partnership began to expense the fair value of stock-based compensation awards granted subsequent to January 1, 2002, over the applicable vesting period as a component of general and administrative expenses in the Partnership's consolidated Statements of Operations. The Partnership recognized stock-based compensation expense of \$4,672,000 in 2007, \$3,447,000 in 2006 and \$2,764,000 in 2005.

Comprehensive Income

Comprehensive income or loss is recorded in accordance with the provisions of SFAS 130 ("SFAS 130"), *Reporting Comprehensive Income*. SFAS 130 establishes standards for reporting comprehensive income and its components in financial statements. Comprehensive income includes unrealized gains and losses on available-for-sale securities and the effective portions of changes in the fair value of derivatives.

Accounting for Derivative Instruments and Hedging Activities

The Partnership accounts for its derivative instruments and hedging activities under SFAS No. 133 ("SFAS 133"), *Accounting for Derivative Instruments and Hedging Activities*, and its corresponding amendments under SFAS No. 138, *Accounting for Certain Derivative Instruments and Hedging Activities - An Amendment of SFAS 133*. SFAS 133 requires the Partnership to measure every derivative instrument (including certain derivative instruments embedded in other contracts) at fair value and record them in the balance sheet as either an asset or liability. For derivatives designated as fair value hedges, the changes in fair value of both the derivative instrument and the hedged item are recorded in earnings. For derivatives designated as cash flow hedges, the effective portions of changes in the fair value of the derivative are reported in other comprehensive income. Changes in fair value of derivative instruments and ineffective portions of hedges are recognized in earnings in the current period. During 2007, the Partnership recognized \$0.2 million in the statement of operations for the ineffective portion of its cash flow hedges and \$3.7 million upon termination of certain of its cash flow hedges. For the years ended December 31, 2006 and 2005, the Partnership was not party to any derivative contract designated as a fair value hedge and there are no ineffective portions of our cash flow hedges. See Note 8.

Table of Contents

The Partnership actively manages its ratio of fixed-to-floating rate debt. To manage its fixed and floating rate debt in a cost-effective manner, the Partnership, from time to time, enters into interest rate swap agreements as cash flow hedges, under which it agrees to exchange various combinations of fixed and/or variable interest rates based on agreed upon notional amounts. See Note 8.

Reclassifications

Certain amounts have been reclassified in prior years to conform to the current year presentation. The reclassifications are primarily due to the treatment of sold properties as discontinued operations on the statement of operations for all periods presented and the reclassification of labor reimbursements received under our third party contracts to a gross presentation.

New Pronouncements

In December 2007, the FASB issued Statement No. 141 (revised 2007), *Business Combinations* (SFAS 141(R)), which establishes principles and requirements for how the acquirer shall recognize and measure in its financial statements the identifiable assets acquired, liabilities assumed, any noncontrolling interest in the acquiree and goodwill acquired in a business combination. This statement is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Partnership is currently assessing the potential impact that the adoption of SFAS 141(R) will have on its financial position and results of operations.

In December 2007, the FASB issued Statement No. 160, *Noncontrolling Interests in Consolidated Financial Statements – an Amendment of ARB No. 51* (SFAS 160), which establishes and expands accounting and reporting standards for minority interests, which will be recharacterized as noncontrolling interests, in a subsidiary and the deconsolidation of a subsidiary. SFAS 160 is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. This statement is effective for fiscal years beginning on or after December 15, 2008. The Partnership is currently assessing the potential impact that the adoption of SFAS 160 will have on its financial position and results of operations.

In June 2007, the Accounting Standards Executive Committee of the American Institute of Certified Public Accountants (AICPA) issued Statement of Position 07-1, *Clarification of the Scope of the Audit and Accounting Guide Investment Companies and Accounting by Parent Companies and Equity Method Investors for Investments in Investment Companies* (SOP 07-1). SOP 07-1 addresses when the accounting principles of the AICPA Audit and Accounting Guide Investment Companies must be applied by an entity and whether investment company accounting must be retained by a parent company in consolidation or by an investor in the application of the equity method of accounting. In addition, SOP 07-1 includes certain disclosure requirements for parent companies and equity method investors in investment companies that retain investment company accounting in the parent company's consolidated financial statements or the financial statements of an equity method investor. On February 14, 2008, FSP No. SOP 07-1-1 was issued to delay indefinitely the effective date of SOP 07-1 and prohibit adoption of SOP 07-1 for an entity that has not early adopted SOP 07-1 before issuance of the final FSP. The Partnership is currently evaluating the impact and believes that the adoption of this standard will not have a material effect on its financial position and results of operations.

In February 2007, the FASB issued Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159), which gives entities the option to measure eligible financial assets, financial liabilities and firm commitments at fair value on an instrument-by-instrument basis, that are otherwise not permitted to be accounted for at fair value under other accounting standards. The election to use the fair value option is available when an entity first recognizes a financial asset or financial liability or upon entering into a firm commitment. Subsequent changes (i.e., unrealized gains and losses) in fair value must be recorded in earnings. Additionally, SFAS 159 allows for a one-time election for existing positions upon adoption, with the transition adjustment recorded to beginning retained earnings. This statement is effective for fiscal years beginning after November 15, 2007. The Partnership is currently assessing the potential impact that the adoption of SFAS 159 will have on its financial position and results of operations.

Table of Contents

In September 2006, the FASB issued Statement No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 provides guidance for using fair value to measure assets and liabilities. This statement clarifies the principle that fair value should be based on the assumptions that market participants would use when pricing the asset or liability. SFAS No. 157 establishes a fair value hierarchy, giving the highest priority to quoted prices in active markets and the lowest priority to unobservable data. SFAS No. 157 applies whenever other standards require assets or liabilities to be measured at fair value. SFAS No. 157 also provides for certain disclosure requirements, including, but not limited to, the valuation techniques used to measure fair value and a discussion of changes in valuation techniques, if any, during the period. This statement is effective in fiscal years beginning after November 15, 2007, except for nonfinancial assets and nonfinancial liabilities that are not recognized or disclosed at fair value on a recurring basis, for which the effective date is fiscal years beginning after November 15, 2008. The Partnership is currently evaluating the impact and believes that the adoption of this standard will not have a material effect on its financial position and results of operations.

3. REAL ESTATE INVESTMENTS

As of December 31, 2007 and 2006, the gross carrying value of the Partnership's Properties was as follows:

	December 31,	
	2007	2006
	(amounts in thousands)	
Land	\$ 727,979	\$ 756,400

	\$ 4,813,563	\$ 4,927,305

Acquisitions and Dispositions

The Partnership's acquisitions were accounted for by the purchase method. The results of each acquired property are included in the Partnership's results of operations from their respective purchase dates.

2007**DRA Joint Venture**

On December 19, 2007, the Company formed G&I Interchange Office LLC, a new joint venture (the Venture) with G&I VI Investment Interchange Office LLC (G&I VI), an investment vehicle advised by DRA Advisors LLC. The Venture included interest in 29 office properties which were located in various counties in Pennsylvania, containing an aggregate of 1,616,227 net rentable square feet. The Company transferred or contributed 100% interests in 26 properties and transferred to the Venture an 89% interest in three of the properties with the remaining 11% interest in the three properties subject to a put/call at fixed prices after three years. In connection with the formation, the Company effectively sold an 80% interest in the venture to G&I IV for cash and the venture borrowed approximately \$184.0 million in third party financing the aggregate proceeds of which were distributed to the Company. The Company used the net proceeds of these transactions of approximately \$230.9 million that it received in this transaction to reduce outstanding indebtedness under the Company's unsecured revolving credit facility.

The company was hired by the Venture to perform property management and leasing services. The joint venture agreements provide for certain control rights and participation as a joint venture partner and, based on an evaluation of control rights, the Company will not consolidate the venture subsequent to its formation.

In connection with these transactions, the Company recorded a gain as a partial sale of \$40.5 million. The Company's continuing involvement with the properties through its joint venture interest and management fees and leasing commissions represents a significant continuing involvement in the properties. Accordingly, under EITF 03-13,

Applying the Conditions in Paragraph 42 of FASB Statement No. 144 in

Determining Whether to Report Discontinued Operations , the Company has determined that the gain on sale and the operations of the properties should not be included in discontinued operations.

Other 2007 Acquisitions and Dispositions

On November 30, 2007, the Partnership sold 111/113 Pencader Drive, an office property located in Newark, Delaware containing 52,665 net rentable square feet, for a sales price of \$5.1 million.

On November 15, 2007, the Partnership sold 2490 Boulevard of the Generals, an office property located in West Norriton, Pennsylvania containing 20,600 net rentable square feet, for a sales price of \$1.5 million.

On September 7, 2007, the Partnership sold Iron Run Land, seven land parcels located in Lehigh County, Pennsylvania containing an aggregate 51.5 acres of land, for an aggregate sales price of \$6.6 million.

On July 19, 2007, the Partnership acquired the United States Post Office building, an office property located in Philadelphia, Pennsylvania containing 862,692 net rentable square feet, for an aggregate purchase price of \$28.0 million. The Partnership intends to redevelop the building into office space for the Internal Revenue Service (IRS). As part of this acquisition, the Partnership also acquired a 90 year ground lease interest in an adjacent parcel of ground of approximately 2.54 acres, commonly referred to as the postal annex . The Partnership intends to demolish the existing structure located on the postal annex and to rebuild a parking facility containing approximately 733,000 square feet that will primarily be used by the IRS employees upon their move into the planned office space at the Post Office building. The remaining postal annex ground leased parcels can also accommodate additional office, retail, hotel and residential development and the Partnership is currently in the planning stage with respect to these parcels and is seeking specific zoning authorization related thereto.

On July 19, 2007, the Partnership acquired five office properties containing 508,607 net rentable square feet and a 4.9 acre land parcel in the Boulders office park in Richmond, Virginia for an aggregate purchase price of \$96.3 million. The Partnership funded \$36.6 million of the purchase price using the remaining proceeds from the sale of the 10 office properties located in Reading and Harrisburg, Pennsylvania in March 2007.

On May 10, 2007, the Partnership acquired Lake Merritt Tower, an office property located in Oakland, California containing 204,278 net rentable square feet for an aggregate purchase price of \$72.0 million. A portion of the proceeds from the sale of the 10 office properties located in Reading and Harrisburg, Pennsylvania in March 2007 was used to fully fund this purchase.

On April 30, 2007, the Partnership sold Cityplace Center, an office property located in Dallas, Texas containing 1,295,832 net rentable square feet, for a sales price of \$115.0 million.

On March 30, 2007, the Partnership sold 10 office properties located in Reading and Harrisburg, Pennsylvania containing 940,486 net rentable square feet, for an aggregate sales price of \$112.0 million. The Partnership structured this transaction to qualify as a like-kind exchange under Section 1031 of the Internal Revenue Code and the cash from the sale was held by a qualified intermediary for purposes of accomplishing the like-kind exchange as noted in the above transactions.

On March 30, 2007, the Partnership sold 1007 Laurel Oak, an office property located in Voorhees, New Jersey containing 78,205 net rentable square feet, for a sales price of \$7.0 million.

On March 1, 2007, the Partnership acquired the remaining 49% interest in a consolidated real estate venture previously owned by Stichting Pensioenfonds ABP containing ten office properties for a purchase price of \$63.7 million. The Partnership owned a 51% interest in this real estate venture through the acquisition of Prentiss in January 5, 2006 and had already consolidated this venture. This purchase was accounted for as a step acquisition and the difference between the purchase price of the minority interest and the carrying value of the pro rata share of the assets of the real estate venture was allocated to the real estate venture s assets and liabilities based on their relative fair value.

Table of Contents

On January 31, 2007, the Partnership sold George Kachel Farmhouse, an office property located in Reading, Pennsylvania containing 1,664 net rentable square feet, for a sales price of \$0.2 million.

On January 19, 2007, the Partnership sold four office properties located in Dallas, Texas containing 1,091,186 net rentable square feet and a 4.7 acre land parcel, for an aggregate sales price of \$107.1 million.

On January 18, 2007, the Partnership sold Norriton Office Center, an office property located in East Norriton, Pennsylvania containing 73,394 net rentable square feet, for a sales price of \$7.8 million.

2006

Prentiss Acquisition

On January 5, 2006, the Partnership acquired Prentiss pursuant to the Merger Agreement that the Partnership entered into with Prentiss on October 3, 2005. In conjunction with the Partnership's acquisition of Prentiss, designees of The Prudential Insurance Partnership of America (Prudential) acquired certain of Prentiss' properties that contain an aggregate of approximately 4.32 million net rentable square feet for a total consideration of approximately \$747.7 million. Through its acquisition of Prentiss (and after giving effect to the Prudential acquisition of certain of Prentiss' properties), the Partnership acquired a portfolio of 79 office properties (including 13 properties that are owned by consolidated Real Estate Ventures and 7 properties that are owned by an unconsolidated Real Estate Venture) that contain an aggregate of 14.0 million net rentable square feet. The results of the operations of Prentiss have been included in the Partnership's condensed consolidated financial statements since January 5, 2006.

The Partnership funded the approximately \$1.05 billion cash portion of the merger consideration, related transaction costs and prepayments of approximately \$543.3 million in Prentiss mortgage debt at the closing of the merger through (i) a \$750 million unsecured term loan that matured on January 4, 2007; (ii) approximately \$676.5 million of cash from Prudential's acquisition of certain of the Prentiss properties; and (iii) approximately \$195.0 million through borrowing under a revolving credit facility.

The following table summarizes the fair value of the assets acquired and liabilities assumed at the date of acquisition (in thousands):

In the acquisition of Prentiss, each then outstanding Prentiss common share was converted into the right to receive 0.69 of a Brandywine common share and \$21.50 in cash (the Per Share Merger Consideration) except that 497,884 Prentiss common shares held in the Prentiss Deferred Compensation Plan converted solely into 720,737 Brandywine common shares. In addition, each then outstanding unit (each, a Prentiss OP Unit) of limited partnership interest in the Prentiss operating partnership subsidiary was, at the option of the holder, converted into Prentiss Common Shares with the right to receive the Per Share Merger Consideration or 1.3799 Class A Units of the Operating Partnership

(Brandywine Class A Units). Accordingly, based on 49,375,723 Prentiss common shares outstanding and 139,000 Prentiss OP Units electing to receive merger consideration at closing of the acquisition, the Partnership issued 34,541,946 Brandywine common shares and paid an aggregate of approximately \$1.05 billion in cash to the accounts of the former Prentiss shareholders. Based on 1,572,612 Prentiss OP Units outstanding at closing of the acquisition that did not elect to receive merger consideration, the Operating Partnership issued 2,170,047 Brandywine Class A Units. In addition, options issued by Prentiss that were exercisable for an aggregate of 342,662 Prentiss common shares were converted into options exercisable for an aggregate of 496,037 Brandywine common shares at a weighted average exercise price of \$22.00 per share. Through its acquisition of Prentiss the Partnership also assumed approximately \$611.2 million in aggregate principal amount of Prentiss debt.

Each Brandywine Class A Unit that was issued in the merger is subject to redemption at the option of the holder. The Operating Partnership may, at its option, satisfy the redemption either for an amount, per unit, of cash equal to the then market price of one Brandywine common share (based on the prior ten-day trading average) or for one Brandywine common share.

Table of Contents

For purposes of computing the total purchase price reflected in the financial statements, the common shares, operating units, restricted shares and options that were issued in the Prentiss transaction were valued based on the average trading price per Brandywine common share of \$29.54. The average trading price was based on the average of the high and low trading prices for each of the two trading days before, the day of and the two trading days after the merger was announced (i.e., September 29, September 30, October 3, October 4 and October 5).

The Partnership considered the provisions of FIN 47 for these acquisitions and, where necessary, recorded a conditional asset retirement obligation as part of the purchase price. The aggregate asset retirement recorded in connection with the Prentiss acquisition was approximately \$2.7 million.

Pro forma information relating to the acquisition of Prentiss is presented below as if Prentiss was acquired and the related financing transactions occurred on January 1, 2006 and 2005. On April 17, 2006, the Partnership acquired a parcel of land located in Mount Laurel, New Jersey containing 47.9 acres, for a purchase price of \$6.7 million.

On April 4, 2006, the Partnership acquired One Paragon Place, an office property located in Richmond, Virginia containing 145,127 net rentable square feet, for a purchase price of \$24.0 million.

On February 1, 2006, the Partnership acquired 100 Lenox Drive, an office property located in Lawrenceville, New Jersey containing 92,980 net rentable square feet, for a purchase price of \$10.2 million.

2005

During 2005, the Partnership acquired one industrial property containing 385,884 net rentable square feet, two office properties containing 283,511 net rentable square feet and 36.4 acres of developable land for an aggregate purchase price of \$94.5 million. The Partnership sold the industrial property acquired in 2005 containing 385,884 net rentable square feet and three parcels of land containing 18.0 acres for an aggregate \$30.2 million, realizing net gains totaling \$6.8 million.

4. INVESTMENT IN UNCONSOLIDATED VENTURES

As of December 31, 2007, we had an aggregate investment of approximately \$71.6 million in 14 unconsolidated Real Estate Ventures (net of returns of investment). We formed these ventures with unaffiliated third parties, or acquired them, to develop office properties or to acquire land in anticipation of possible development of office properties. Ten of the Real Estate Ventures own 44 office buildings that contain an aggregate of approximately 4.4 million net rentable square feet, one Real Estate Venture developed a hotel property that contains 137 rooms, one Real Estate Venture constructed and sold condominiums in Charlottesville, VA and two Real Estate Ventures are in the planning stages of office developments in Conshohocken, PA and Charlottesville, VA.

The Partnership also has investments in three Real Estate Ventures that are variable interest entities under FIN 46R and of which the Partnership is the primary beneficiary, and one investment in a Real Estate

Table of Contents

Venture for which the Partnership serves as the general partner and the limited partner does not have substantive participating rights. These entities are consolidated by the Partnership.

The Partnership accounts for its unconsolidated interests in its Real Estate Ventures using the equity method.

Unconsolidated interests range from 5% to 50%, subject to specified priority allocations in certain of the Real Estate Ventures.

The amounts reflected in the following tables (except for carrying amount and the Partnership's share of equity and income) are based on the historical financial information of the individual Real Estate Ventures. One of the Real Estate Ventures, acquired in connection with the Prentiss acquisition, had a negative equity balance on a historical cost basis as a result of historical depreciation and distribution of excess financing proceeds. The Partnership reflected its acquisition of this Real Estate Venture interest at its relative fair value as of the date of the purchase of Prentiss.

The difference between allocated cost and the underlying equity in the net assets of the investee is accounted for as if the entity were consolidated (i.e., allocated to the Partnership's relative share of assets and liabilities with an adjustment to recognize equity in earnings for the appropriate additional depreciation/amortization).

The Partnership's investment in Real Estate Ventures as of December 31, 2007 and the Partnership's share of the Real Estate Ventures' income (loss) for the year ended December 31, 2007 was as follows (in thousands):

(1) Ownership percentage represents the Partnership's entitlement to residual distributions

after payments of priority returns, where applicable.

- (2) See Note 3 - Real Estate Investments for description of formation of the Venture. The Partnership retained a 20% interest and received distributions from financing in excess of its basis. The Partnership has no commitment to fund and no expectation of operating losses, accordingly, the Partnership's carrying value has not been reduced below zero.

- (3) The Partnership's interest consists solely of a residual profits interest. This distribution represents the Partnership's final distribution from the Venture and, therefore, it is no longer included in our total real estate venture count.

The mortgage note payable balance of \$5.1 million for Norriton Office Center as of December 31, 2006, not included in the table above, is included in Mortgage notes payable and other liabilities held for sale on the balance sheet. This property was held for sale at December 31, 2006 and sold in January 2007.

Table of Contents

During 2007, 2006 and 2005, the Partnership's weighted-average interest rate on its mortgage notes payable was 6.74%, 6.57% and 7.17%, respectively. As of December 31, 2007 and 2006, the net carrying value of the Partnership's Properties that are encumbered by mortgage indebtedness was \$1,003.5 million and \$1,498.9 million, respectively. On April 30, 2007, the Operating Partnership completed an underwritten public offering of \$300.0 million aggregate principal amount of 5.70% unsecured notes due 2017 (the 2017 Notes). Brandywine Realty Trust guaranteed the payment of principal and interest on the 2017 Notes. The Partnership used proceeds from these notes to reduce borrowings under the Partnership's revolving credit facility.

On November 29, 2006, the Partnership irrevocably called for redemption of the \$300 million aggregate principal amount of unsecured floating rate notes due 2009 (the 2009 Notes) and repaid these notes on January 2, 2007 in accordance with the November call using proceeds from our Credit Facility. As a result of the early repayment of these notes, the Partnership incurred accelerated amortization of \$1.4 million in associated deferred financing costs in the fourth quarter 2006.

On October 4, 2006, the Operating Partnership sold \$300.0 million aggregate principal amount of unsecured 3.875% Exchangeable Guaranteed Notes due 2026 in reliance upon an exemption from registration rights under Rule 144A under the Securities Act of 1933 and sold an additional \$45 million of 3.875% Exchangeable Guaranteed Notes due 2026 on October 16, 2006 to cover over-allotments. The Operating Partnership has registered the resale of the exchangeable notes. At certain times and upon certain events, the notes are exchangeable for cash up to their principal amount and with respect to the remainder, if any, of the exchange value in excess of such principal amount, cash or the Company's common shares. The initial exchange rate is 25.4065 shares per \$1,000 principal amount of notes (which is equivalent to an initial exchange price of \$39.36 per share). The Operating Partnership may not redeem the notes prior to October 20, 2011 (except to preserve the Company's status as a REIT for U.S. federal income tax purposes), but we may redeem the notes at any time thereafter, in whole or in part, at a redemption price equal to the principal amount of the notes to be redeemed plus accrued and unpaid interest. In addition, on October 20, 2011, October 15, 2016 and October 15, 2021 as well as upon the occurrence of certain change in control transactions prior to October 20, 2011, holders of notes may require the Company to repurchase all or a portion of the notes at a purchase price equal to the principal amount plus accrued and unpaid interest. The Operating Partnership used net proceeds from the notes to repurchase approximately \$60.0 million of the Company's common stock at a price of \$32.80 per share and for general corporate purposes, including the repayment of outstanding borrowings under the Credit Facility.

On March 28, 2006, the Operating Partnership completed an underwritten public offering of (1) the 2009 Notes, (2) \$300 million aggregate principal amount of 5.75% unsecured notes due 2012 (the 2012 Notes) and (3) \$250 million aggregate principal amount of 6.00% unsecured notes due 2016 (the 2016 Notes). Brandywine Realty Trust guaranteed the payment of principal and interest on the 2009 Notes, the 2012 Notes and the 2016 Notes. The Company used proceeds from these notes to repay a term loan obtained to finance a portion of the consideration paid in the Prentiss merger and to reduce borrowings under the Company's revolving credit facility.

The Operating Partnership's indenture relating to unsecured notes contains financial restrictions and requirements, including (1) a leverage ratio not to exceed 60%, (2) a secured debt leverage ratio not to exceed 40%, (3) a debt service coverage ratio of greater than 1.5 to 1.0, and (4) an unencumbered asset value of not less than 150% of unsecured debt. In addition, the note purchase agreement relating to the Operating Partnership's \$113 million principal amount unsecured notes due 2008 contains covenants that are similar to the covenants in the indenture.

On October 15, 2007, the Partnership entered into a term loan agreement (the Term Loan Agreement) that provides for an unsecured term loan (the Term Loan) in the amount of \$150.0 million. The Partnership used the proceeds to pay down a portion of the outstanding amount on its \$600.0 million unsecured revolving credit facility. The Term Loan matures on October 18, 2010 and may be extended at the Partnership's option for two one-year periods but not beyond the maturity date of its revolving credit facility. There is no scheduled principal amortization of the Term Loan and the Partnership may prepay borrowings in whole or in part without premium or penalty. Portions of the Term Loan bear interest at a

per annum floating rate equal to: (i) the higher of (x) the prime rate or (y) the federal funds rate plus 0.50% per annum or (ii) a London interbank offered rate that is the rate at which Eurodollar deposits for one, two, three or six months are offered plus between 0.475% and 1.10% per annum (the Libor Margin), depending on the Partnership's debt rating. The Term Loan Agreement contains financial and operating covenants. Financial covenants include minimum net worth, fixed charge coverage ratio, maximum leverage ratio, restrictions on unsecured and secured debt as a percentage of unencumbered assets and other financial tests. Operating covenants include limitations on the Partnership's ability to incur additional indebtedness, grant liens on assets, enter into affiliate transactions, and pay dividends.

The Partnership utilizes credit facility borrowings for general business purposes, including the acquisition, development and redevelopment of properties and the repayment of other debt. On June 29, 2007, the Partnership amended its \$600.0 million unsecured revolving credit facility (the Credit Facility). The amendment extended the maturity date of the Credit Facility from December 22, 2009 to June 29, 2011 (subject to an extension of one year, at the Partnership's option, upon its payment of an extension fee equal to 15 basis points of the committed amount under the Credit Facility). The amendment also reduced the per annum variable interest rate on outstanding balances from Eurodollar plus 0.80% to Eurodollar plus 0.725% per annum. In addition, the amendment reduced the facility fee paid quarterly from 20 basis points to 17.5 basis points per annum. The interest rate and facility fee are subject to adjustment upon a change in the Partnership's unsecured debt ratings. The amendment also lowered to 7.50% from 8.50% the capitalization rate used in the calculation of several of the financial covenants; increased our swing loan availability from \$50.0 million to \$60.0 million; and increased the number of competitive bid loan requests available to the Partnership from two to four in any 30 day period. Borrowings are always available to the extent of borrowing capacity at the stated rates, however, the competitive bid feature allows banks that are part of the lender consortium under the Credit Facility to bid to make loans to the Partnership at a reduced Eurodollar rate. The Partnership has the option to increase the Credit Facility to \$800.0 million subject to the absence of any defaults and the Partnership's ability to acquire additional commitments from its existing lenders or new lenders. As of December 31, 2007, the Partnership had \$120.0 million of borrowings and \$13.5 million of letters of credit outstanding under the Credit Facility, leaving \$466.5 million of unused availability. As of December 31, 2007 and 2006, the weighted-average interest rate on the Credit Facility, including the effect of interest rate hedges, was 6.25% and 5.93%, respectively. The Credit Facility requires the maintenance of ratios related to minimum net worth, debt-to-total capitalization and fixed charge coverage and includes non-financial covenants.

In April 2007, the Partnership entered into a \$20.0 million Sweep Agreement (the Sweep Agreement) to be used for cash management purposes. Borrowings under the Sweep Agreement bear interest at one-month LIBOR plus 0.75%. As of December 31, 2007 the Partnership had \$10.7 million of borrowing outstanding under the Sweep Agreement, leaving \$9.3 million of unused availability.

As of December 31, 2007, the Partnership's aggregate principal payments are as follows (in thousands):

2008	\$ 146,005

8. FAIR VALUE OF FINANCIAL INSTRUMENTS

The following fair value disclosure was determined by the Partnership using available market information and discounted cash flow analyses as of December 31, 2007 and 2006, respectively. The discount rate used in calculating fair value is the sum of the current risk free rate and the risk premium on the date of acquiring or assuming the instruments or obligations. Considerable judgment is necessary to interpret market data and to develop the related estimates of fair value. Accordingly, the estimates presented are not

F - 75

Table of Contents

necessarily indicative of the amounts that the Partnership could realize upon disposition. The use of different estimation methodologies may have a material effect on the estimated fair value amounts. The Partnership believes that the carrying amounts reflected in the Consolidated Balance Sheets at December 31, 2007 and 2006 approximate the fair values for cash and cash equivalents, accounts receivable, other assets, accounts payable, accrued expenses and borrowings under variable rate debt instruments.

The following are financial instruments for which the Partnership estimates of fair value differ from the carrying amounts (in thousands):

	December 31, 2007		December 31, 2006	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Mortgage payable, net of premiums	\$ 611,898	\$ 597,287	\$ 888,470	\$ 859,490
Unsecured Notes payable, net of discounts	\$2,129,734	\$1,996,475	\$1,829,701	\$1,826,357

9. RISK MANAGEMENT AND USE OF FINANCIAL INSTRUMENTS**Risk Management**

In the normal course of its on-going business operations, the Partnership encounters economic risk. There are three main components of economic risk: interest rate risk, credit risk and market risk. The Partnership is subject to interest rate risk on its interest-bearing liabilities. Credit risk is the risk of inability or unwillingness of tenants to make contractually required payments. Market risk is the risk of declines in the value of properties due to changes in rental rates, interest rates or other market factors affecting the valuation of properties held by the Partnership.

Use of Derivative Financial Instruments

The Partnership's use of derivative instruments is limited to the utilization of interest rate agreements or other instruments to manage interest rate risk exposures and not for speculative purposes. The principal objective of such arrangements is to minimize the risks and/or costs associated with the Partnership's operating and financial structure, as well as to hedge specific transactions. The counterparties to these arrangements are major financial institutions with which the Partnership and its affiliates may also have other financial relationships. The Partnership is potentially exposed to credit loss in the event of non-performance by these counterparties. However, because of the high credit ratings of the counterparties, the Partnership does not anticipate that any of the counterparties will fail to meet these obligations as they come due. The Partnership does not hedge credit or property value market risks through derivative financial instruments.

The Partnership formally assesses, both at inception of the hedge and on an on-going basis, whether each derivative is highly-effective in offsetting changes in cash flows of the hedged item. If management determines that a derivative is not highly-effective as a hedge or if a derivative ceases to be a highly-effective hedge, the Partnership will discontinue hedge accounting prospectively.

Outstanding Derivatives

In November 2007, the Partnership entered into an interest rate swap agreement that is designated as a cash flow hedge of interest rate risk and qualified for hedge accounting. The interest rate swap is for a notional amount of \$25.0 million at a fixed rate of 3.747% with a maturity date of October 18, 2010 and will be used to hedge the risk of interest cash outflows on unsecured variable rate debt. The hedge had a nominal fair value at December 31, 2007 that is included in other liabilities and accumulated other comprehensive income in the accompanying consolidated balance sheet.

In October 2007, the Partnership entered into an interest rate swap agreement that is designated as a cash flow hedge of interest rate risk and qualified for hedge accounting. The interest rate swap is for a notional amount of \$25.0 million at a fixed rate of 4.415% with a maturity date of October 18, 2010 and will be used to hedge the risk of interest cash outflows on unsecured variable rate debt. The fair value of the hedge at December 31, 2007 was \$(0.5) million and is included in other liabilities and accumulated other comprehensive income in the accompanying consolidated balance sheet.

Table of Contents

In September 2007, the Partnership entered into an interest rate swap agreement that is designated as a cash flow hedge of interest rate risk and qualified for hedge accounting. The interest rate swap has a starting notional amount of \$63.7 million increasing to a maximum amount of \$155.0 million, at a fixed rate of 4.709% with a maturity date of October 18, 2010 and will be used to hedge the risk of interest cash outflows on unsecured variable rate debt. The fair value of the hedge at December 31, 2007 was \$(2.7) million and is included in other liabilities and accumulated other comprehensive income in the accompanying consolidated balance sheet.

Terminated Derivatives

In July 2007, in anticipation of an expected debt offering, the Partnership entered into four treasury lock agreements. The treasury lock agreements were designated as cash flow hedges on interest rate risk and qualified for hedge accounting. The treasury lock agreements have an expiration of 5 years with the following trade dates, notional amounts and all-in rates:

Trade Date	Notional Amount	All-in Rate
July 10, 2007	\$50.0 million	4.984%
July 18, 2007	\$50.0 million	4.915%
July 20, 2007	\$25.0 million	4.848%
July 25, 2007	\$25.0 million	4.780%

The agreements were settled on September 21, 2007, the original termination date of each agreement, at a total cost of \$3.9 million. During the fourth quarter upon completion of the DRA transaction, the Partnership determined it was probable that the forecasted transaction would not occur and accordingly, recorded an expense for the residual balance of \$3.7 million. During the quarter ended September 30, 2007, the Partnership recorded the ineffective portion of these agreements, totaling \$0.2 million, in the accompanying consolidated statement of operations.

In March 2007, in anticipation of the offering of 2017 Notes, the Partnership entered into two treasury lock agreements. The treasury lock agreements were designated as cash flow hedges on interest rate risk and qualified for hedge accounting. Each of the treasury lock agreements were for notional amounts of \$75.0 million for an expiration of 10 years at all-in rates of 4.5585% and 4.498%. The agreements were settled in April 2007 upon completion of the offering of the 2017 Notes at a total benefit of \$1.1 million, with nominal ineffectiveness. This benefit was recorded as a component of accumulated other comprehensive income in the accompanying consolidated balance sheet and is being amortized over the term of the 2017 Notes.

In March 2006, in anticipation of the offering of the 2009 Notes, the 2012 Notes and the 2016 Notes, the Partnership entered into forward starting swaps. The forward starting swaps were designated as cash flow hedges of interest rate risk and qualified for hedge accounting. The forward starting swaps were for notional amounts totaling \$200.0 million at an all-in-rate of 5.2%. Two of the forward starting swaps had a nine year maturity date and one had a ten year maturity date. The forward starting swaps were settled in March 2006 upon the completion of the offering of the 2009, 2012, and 2016 Notes at a total benefit of approximately \$3.3 million with nominal ineffectiveness. The benefit was recorded as a component of accumulated other comprehensive income in the accompanying consolidated balance sheet and is being amortized to interest expense over the term of the unsecured notes.

The Partnership entered into two interest rate swaps in January 2006 aggregating \$90 million in notional amount as part of its acquisition of Prentiss. The instruments were used to hedge the risk of interest cash outflows on secured variable rate debt on properties that were included as part of the real estate venture in which the Partnership purchased the remaining 49% of the minority interest partner's share in March 2007. One of the swaps with a notional amount of \$20 million had a maturity date of February 1, 2010 at an all-in rate of 4.675%. The other, with a notional amount of \$70 million, had a maturity date of August 1, 2008 at an all in rate of 4.675%. The agreements were settled in April 2007 in connection with the repayment of five mortgage notes, at a total benefit of \$0.4 million with nominal ineffectiveness.

Table of Contents**Concentration of Credit Risk**

Concentrations of credit risk arise when a number of tenants related to the Partnership's investments or rental operations are engaged in similar business activities, or are located in the same geographic region, or have similar economic features that would cause their inability to meet contractual obligations, including those to the Partnership, to be similarly affected. The Partnership regularly monitors its tenant base to assess potential concentrations of credit risk. Management believes the current credit risk portfolio is reasonably well diversified and does not contain any unusual concentration of credit risk. No tenant accounted for 10% or more of the Partnership's rents during 2007, 2006 and 2005.

10. DISCONTINUED OPERATIONS

For the years ended December 31, 2007, 2006 and 2005, income from discontinued operations relates to 44 properties containing approximately 7,304,131 million net rentable square feet that the Partnership has sold since January 1, 2005.

The following table summarizes revenue and expense information for the 44 properties sold since January 1, 2005 (in thousands):

11. MINORITY INTEREST IN CONSOLIDATED REAL ESTATE VENTURES

As of December 31, 2007, the Partnership owned interests in three consolidated real estate ventures that own three office properties containing approximately 0.4 million net rentable square feet. As of December 31, 2006, the Partnership owned interests in four consolidated real estate ventures that owned 15 office properties containing approximately 1.5 million net rentable square feet. On March 1, 2007, the Partnership acquired the remaining 49% interest in a real estate venture previously owned by Stichting Pensioenfond ABP containing ten office properties for a purchase price of \$63.7 million. The Partnership owned a 51% interest in this real estate venture through the acquisition of Prentiss on January 5, 2006. Minority interest in Real Estate Ventures represents the portion of these consolidated real estate ventures not owned by the Partnership.

F - 78

Table of Contents

The minority interests associated with certain of the Real Estate Ventures, that have finite lives under the terms of the partnership agreements represent mandatorily redeemable interests as defined in SFAS 150. As of December 31, 2007 and 2006, the aggregate book value of these minority interests in the accompanying consolidated balance sheet was \$0 and the Partnership believes that the aggregate settlement value of these interests was approximately \$8.1 million. This amount is based on the estimated liquidation values of the assets and liabilities and the resulting proceeds that the Partnership would distribute to its Real Estate Venture partners upon dissolution, as required under the terms of the respective partnership agreements. Subsequent changes to the estimated fair values of the assets and liabilities of the consolidated Real Estate Ventures will affect the Partnership's estimate of the aggregate settlement value. The partnership agreements do not limit the amount that the minority partners would be entitled to in the event of liquidation of the assets and liabilities and dissolution of the respective partnerships.

Common Partnership Unit and Preferred Mirror Units

The Company is the sole general partner of the Partnership and conducts substantially all its business and owns its assets through the Partnership and as a result does not have any significant assets, liabilities or operations, other than its investment in the Partnership's Units, nor does it have any employees of its own. Pursuant to the Partnership Agreement, the Partnership reimburses the Company for all expenses incurred on behalf of its operations.

The Partnership issues partnership units to the Company in exchange for the contribution of the net proceeds of any equity security issuance by the Company. The number and terms of such partnership units correspond in number and terms of the related equity securities issued by the Company. In addition, the Partnership may also issue separate classes of partnership units. Historically, the Partnership has had the following types of partnership units outstanding (i) Preferred Partnership Units which have been issued to parties other than the Company (ii) Preferred Mirror Partnership Units which have been issued to the Company and (iii) Common Partnership Units which include both interests held by the Company and those held by other limited partners. Each of these interests are described in more detail below.

F - 79

Table of Contents

Preferred Mirror Partnership Units

In exchange for the proceeds received in corresponding offerings by the Company of preferred shares of beneficial interest, the Partnership has issued to the Company a corresponding amount of Preferred Mirror Partnership Units with terms consistent with that of the preferred securities issued by the Company.

On December 30, 2003, the Partnership issued 2,000,000 Series D Preferred Mirror Units to Brandywine Realty Trust in exchange for its contribution of the proceeds of its Series C Preferred Shares. The 2,000,000 Series D Preferred Mirror Units outstanding have an aggregate liquidation preference of \$50 million, or \$25.00 per unit. Cumulative distributions on the Series D Preferred Mirror Units are payable quarterly at an annualized rate of 7.50% of the liquidation preference. In the event that any of the Series C Preferred Shares of Brandywine Realty Trust are redeemed, which may occur at the option of Brandywine Realty Trust at any time on or after December 30, 2008, then an equivalent number of Series D Preferred Mirror Units will be redeemed.

On February 27, 2004, the Partnership issued 2,300,000 Series E Preferred Mirror Units to Brandywine Realty Trust in exchange for its contribution of the net proceeds of its Series D Preferred Shares. The 2,300,000 Series E Preferred Mirror Units outstanding have an aggregate liquidation preference of \$57.5 million, or \$25.00 per unit. Cumulative distributions on the Series E Preferred Mirror Units are payable quarterly at an annualized rate of 7.375% of the liquidation preference. In the event that any of the Series D Preferred Shares of Brandywine Realty Trust are redeemed, which may occur at the option of Brandywine Realty Trust at any time on or after February 27, 2009, then an equivalent number of Series E Preferred Mirror Units will be redeemed.

Common Partnership Units (Redeemable and General)

The Partnership has two classes of Common Partnership Units: (i) Class A Limited Partnership Interest which are held by both the Company and outside third parties and (ii) General Partnership Interests which are held by the Company. (Collectively, the Class A Limited Partnership Interest and General Partnership Interests are referred to as Common Partnership Units). The holders of the Common Partnership Units are entitled to share in cash distributions from, and in profits and losses of, the Partnership, in proportion to their respective percentage interests, subject to preferential distributions on the preferred mirror units and the preferred units.

The Common Partnership Units held by the Company (comprised of both General Partnership Units and Class A Limited Partnership Units) are presented as partner's equity in the consolidated financial statements. Class A Limited Partnership Interest held by parties other than the Company are redeemable at the option of the holder for a like number of common shares of the Company, or cash, or a combination thereof, at the election of the Company. Because the form of settlement of these redemption rights are not within the control of the Partnership, these Common Partnership Units have been excluded from partner's equity and are presented as redeemable limited partnership units measured at the potential cash redemption value as of the end of the periods presented based on the closing market price of the Company's common shares at December 31, 2007, 2006 and 2005, which was \$17.93, \$33.25 and \$27.91 respectively. As of December 31, 2007 and 2006, 3,838,230 and 3,961,235 Class A Units were outstanding and owned by outside limited partners of the Partnership.

During the year ended December 31, 2006, 424,608 Class A units were issued in connection with the acquisitions of a property. These Class A units were subsequently redeemed for \$13.5 million and this amount is included in distributions to minority interest holders on the consolidated statement of cash flows.

On December 11, 2007, the Partnership declared a distribution of \$0.44 per Common Share, totaling \$38.5 million, which was paid on January 18, 2008 to shareholders of record as of December 30, 2007. On December 11, 2006, the Partnership declared distributions on its Series C Preferred Shares and Series D Preferred Shares to holders of record as of January 4, 2008. These shares are entitled to a preferential return of 7.50% and 7.375%, respectively.

Distributions paid on January 15, 2007 to holders of Series C Preferred Shares and Series D Preferred Shares totaled \$0.9 million and \$1.1 million, respectively.

Common Share Repurchases

The Company maintains a share repurchase program under which the Board has authorized us to repurchase our common shares from time to time. The Board initially authorized this program in 1998 and has periodically replenished capacity under the program. On May 2, 2006 the Company's Board restored capacity to 3.5 million common shares.

The Company repurchased 1.8 million shares during the year ended December 31, 2007 for aggregate consideration of \$59.4 million under its share repurchase program. As of December 31, 2007, the Company may purchase an additional 0.5 million shares under the plan. 1.6 million of these shares are held in treasury to give the Company the ability to reissue such shares and are reflected as shares held in treasury on the consolidated balance sheet. 0.2 million of these shares were repurchased as part of the Company's deferred compensation program and are not included as shares held in treasury on the consolidated balance sheet.

During the year ended December 31, 2006, the Company repurchased approximately 1.2 million common shares under this program at an average price of \$29.22 per share. The shares repurchased in 2006 were retired and therefore are not included as shares held in treasury on the balance sheet.

Repurchases may be made from time to time in the open market or in privately negotiated transactions, subject to market conditions and compliance with legal requirements. The share repurchase program does not contain any time limitation and does not obligate the Company to repurchase any shares. The Company may discontinue the program at any time.

On October 4, 2006 the Company repurchased 1.8 million common shares with a portion of the proceeds of our 3.875% Exchangeable Guaranteed Notes at an average purchase price of \$32.80 per share (approximately \$60.0 million in aggregate). The Company repurchased these shares under a separate Board authorization that provided that the shares repurchased did not reduce capacity under the share repurchase program.

Share Based Compensation

In December 2004, the FASB issued SFAS No. 123(R), *Share-Based Payment* (SFAS 123(R)). SFAS 123(R) is an amendment of SFAS 123 and requires that the compensation cost relating to share-based payment transactions be recognized in the financial statements. The cost is required to be measured based on the fair value of the equity or liability instruments issued. SFAS 123(R) also contains additional minimum disclosures requirements including, but not limited to, the valuation method and assumptions used, amounts of compensation capitalized and modifications made. The effective date of SFAS 123(R) was subsequently amended by the SEC to be as of the beginning of the first interim or annual reporting period of the first fiscal year that begins on or after December 15, 2005, and allows several different methods of transition. The Company adopted SFAS 123(R) using the prospective method on January 1, 2006. This adoption did not have a material effect on our consolidated financial statements.

Stock Options

At December 31, 2007, the Company had 1,070,099 options outstanding under its shareholder approved equity incentive plan. No options were unvested as of December 31, 2007 and therefore there is no remaining unrecognized compensation expense associated with these options. Option activity as of December 31, 2007 and changes during the twelve months ended December 31, 2007 were as follows:

401(k) Plan

The Company sponsors a 401(k) defined contribution plan for its employees. Each employee may contribute up to 100% of annual compensation, subject to specific limitations under the Internal Revenue Code. At its discretion, the Company can make matching contributions equal to a percentage of the employee's elective contribution and profit sharing contributions. Employees vest in employer contributions over a three-year service period. The Company contributions were \$0.6 million in 2007, \$1.1 million in 2006, and \$1.0 million in 2005.

Restricted Share Awards

The Company's primary form of share-based compensation has been restricted shares issued under a shareholder approved equity incentive plan that authorizes various equity-based awards. As of December 31, 2007, 409,282 restricted shares were unvested. The vesting period for these shares ranges from three to seven years from the initial grant date. The remaining compensation expense to be recognized for the 409,282 restricted shares unvested at December 31, 2007 was approximately \$10.7 million. That expense is expected to be recognized over a weighted average remaining vesting period of 2.8 years. For the year ended December 31, 2007, the Company recognized \$3.3 million of compensation expense related to unvested restricted shares which is included in administrative expenses. The following table summarizes the Company's restricted share activity for the twelve-months ended December 31, 2007:

Outperformance Program

On August 28, 2006, the Compensation Committee of the Company's Board of Trustees adopted a long-term incentive compensation program (the outperformance program). The Company will make payments (in the form of common shares) to executive-participants under the outperformance program only if the Company's total shareholder return exceeds percentage hurdles established under the outperformance program. The dollar value of any payments will depend on the extent to which our performance exceeds the hurdles. The Company established the outperformance program under the 1997 Plan.

If the total shareholder return (share price appreciation plus cash dividends) during a three-year measurement period exceeds either of two hurdles (with one hurdle keyed to the greater of a fixed percentage and an industry-based index, and the other hurdle keyed to a fixed percentage), then the Company will fund an incentive compensation pool in accordance with a formula and make pay-outs from the compensation pool in the form of vested and restricted common shares. The awards issued are accounted for in accordance with SFAS 123(R). The fair value of the awards on August 28, 2006, as adjusted for estimated forfeitures, was approximately \$5.6 million and will be amortized into expense over the five-year period beginning on the date of grant using a graded vesting attribution model. The fair value of \$5.6 million on the date of the initial grant represents approximately 86.5% of the total that may be awarded; the remaining amount available will be valued when the awards are granted to individuals. In January 2007, the Company awarded an additional 4.5% under the outperformance program. The fair value of the additional award is \$0.3 million and will be amortized over the remaining portion of the 5 year period. On the date of each grant, the awards were valued using a Monte Carlo simulation. For the years ended December 31, 2007 and 2006, the Company recognized \$1.4 million and \$0.5 million, respectively, of compensation expense related to the outperformance program.

Employee Share Purchase Plan

On May 9, 2007, the Company's shareholders approved the 2007 Non-Qualified Employee Share Purchase Plan (the ESPP). The ESPP is intended to provide eligible employees with a convenient means to purchase common shares of the Company through payroll deductions and voluntary cash purchases at an amount equal to 85% of the average closing price per share for a specified period. The maximum participant contribution for any plan year is limited to the lesser of 20% of compensation or \$25,000. The number of shares reserved for issuance under the ESPP is 1.25 million. Employees will be eligible to make purchases under the ESPP beginning in January 2008, accordingly there were no purchases made during the year ended December 31, 2007.

Balance at December 31, 2007	\$ (257)	\$ (1,628)	\$ (1,885)

Over time, the unrealized gains and losses held in Accumulated Other Comprehensive Income (AOCI) will be reclassified to earnings in the same period(s) in which hedged items are recognized in earnings. The current balance held in AOCI is expected to be reclassified to earnings over the lives of the current hedging instruments, or for realized losses on forecasted debt transactions, over the related term of the debt obligation, as applicable. As of December 31, 2007, AOCI includes unrealized losses of (\$2.7) million and net realized gains of \$1.1 million on cash flow hedges.

During the years ending December 31, 2007 and 2006, the Partnership reclassified approximately (\$0.1) million and \$0.1 million, respectively, to interest expense associated with treasury lock agreements and forward starting swaps previously settled (see Note 7).

Net operating income is defined as total revenue less property operating expenses and real estate taxes. Segment net operating income includes revenue, real estate taxes and property operating expenses directly related to operation and management of the properties owned and managed within the respective geographical region. Segment net operating income excludes property level depreciation and amortization, revenue and expenses directly associated with third party real estate management services, expenses associated with corporate administrative support services, and inter-company eliminations. Below is a reconciliation of consolidated net operating income to consolidated income from continuing operations:

16. RELATED-PARTY TRANSACTIONS

In 1998, the Board authorized the Company to make loans totaling up to \$5.0 million to enable employees of the Partnership to purchase Common Shares at fair market value. The loans have five-year terms, are full recourse, and are secured by the Common Shares purchased. The Company made loans under this program in 1998, 1999 and 2001. Interest, payable quarterly, accrues on the loans at the lower of the interest rate borne on borrowings under the Partnership's Credit Facility or a rate based on the dividend payments on the Common Shares. As of December 31, 2005, the interest rate was 4.18% per annum. The loans are payable at the earlier of the stated maturity date or 90 days following the employee's termination. As of December 31, 2005, the outstanding balance of the loan totaled \$0.3 million and was secured by an aggregate of 18,803 Common Shares. These loans were repaid in full by December 31, 2006.

The Partnership held a fifty percent economic interest in an approximately 141,724 square foot office building located at 101 Paragon Drive, Montvale, New Jersey. The remaining fifty percent interest was held by Donald E. Axinn, one of the Company's Trustees. Although the Partnership and Mr. Axinn had each committed to provide one half of the \$11 million necessary to repay the mortgage loan secured by this property at the maturity of the loan, in February 2006 an unaffiliated third party entered into an agreement to purchase this property for \$18.3 million. As a result of the purchase by an unaffiliated third party during August 2006, the Partnership recognized a \$3.1 million gain on termination of its rights under a 1998 contribution agreement, modified in 2005, that entitled the Partnership

to the 50% interest in the joint venture to operate the property. This gain is shown separately on the Partnership's income statement as a gain on termination of purchase contract.

The Partnership owned 384,615 shares of Cypress Communications, Inc. (Cypress) Common Stock. These shares were redeemed in July 2005 for \$0.3 million. The redemption was the result of Cypress's merger with another company. Prior to this merger, an officer of the Company held a position on Cypress's Board of Directors.

Table of Contents**17. OPERATING LEASES**

The Partnership leases properties to tenants under operating leases with various expiration dates extending to 2030. Minimum future rentals on non-cancelable leases at December 31, 2007 are as follows (in thousands):

Year	Minimum Rent
2008	\$ 515,156
2009	467,402
2010	402,579
2011	337,340
2012	277,940
Thereafter	1,323,580

Total minimum future rentals presented above do not include amounts to be received as tenant reimbursements for operating costs.

18. COMMITMENTS AND CONTINGENCIES*Legal Proceedings*

The Partnership is involved from time to time in litigation on various matters, including disputes with tenants and disputes arising out of agreements to purchase or sell properties. Given the nature of the Partnership's business activities, these lawsuits are considered routine to the conduct of its business. The result of any particular lawsuit cannot be predicted, because of the very nature of litigation, the litigation process and its adversarial nature, and the jury system. The Partnership does not expect that the liabilities, if any, that may ultimately result from such legal actions will have a material adverse effect on the consolidated financial position, results of operations or cash flows of the Partnership.

There have been recent reports of lawsuits against owners and managers of multifamily and office properties asserting claims of personal injury and property damage caused by the presence of mold in residential units or office space. The Partnership has been named as a defendant in two lawsuits in the State of New Jersey that allege personal injury as a result of the presence of mold. In 2005, one lawsuit was dismissed by way of summary judgment with prejudice. Unspecified damages are sought on the remaining lawsuit. The Partnership has referred this lawsuit to its environmental insurance carrier and, as of the date of this Form 10-K, the insurance carrier is tendering a defense to this claim.

Letters-of-Credit

Under certain mortgages, the Partnership has funded required leasing and capital reserve accounts for the benefit of the mortgage lenders with letters-of-credit which totaled \$13.5 million at December 31, 2007. The Partnership is also required to maintain escrow accounts for taxes, insurance and tenant security deposits and these accounts aggregated \$7.5 million at December 31, 2007. Tenant rents at properties that secure these mortgage loans are deposited into the loan servicer's depository accounts, which are used to fund debt service, operating expenses, capital expenditures and the escrow and reserve accounts, as necessary. Any excess cash is included in cash and cash equivalents.

Ground Rent

Future minimum rental payments under the terms of all non-cancelable ground leases under which the Partnership is the lessee are expensed on a straight-line basis regardless of when payments are due. Minimum future rental payments on non-cancelable leases at December 31, 2007 are as follows (in thousands):

Certain of the land leases provide for prepayment of rent on a present value basis using a fixed discount rate. Further, certain of the land lease for properties (currently under development) provide for contingent rent participation by the lessor in certain capital transactions and net operating cash flows of the property after certain returns are achieved by the Operating Partnership. Such amounts, if any, will be reflected as contingent rent when incurred. The leases also provide for payments by the Operating Partnership of certain operating costs relating to the land, primarily real estate taxes. The above schedule of future minimum rental payments do not include any contingent rent amounts nor any reimbursed expenses.

Other Commitments or Contingencies

As of December 31, 2007, the Partnership owned 417 acres of land for future development.

As part of the Partnership's September 2004 acquisition of a portfolio of properties from The Rubenstein Company (which the Partnership refers to as the TRC acquisition), the Partnership agreed to issue to the sellers up to a maximum of \$9.7 million of Class A Units of the Operating Partnership if certain of the acquired properties achieved at least 95% occupancy prior to September 21, 2007. The maximum number of Units that the Partnership agreed to issue declined monthly and expired on September 21, 2007 and the Partnership had no obligation.

As part of the TRC acquisition, the Partnership acquired its interest in Two Logan Square, a 696,477 square foot office building in Philadelphia, primarily through its ownership of a second and third mortgage secured by this property. This property is consolidated as the borrower is a variable interest entity and the Partnership, through its ownership of the second and third mortgages, is the primary beneficiary. The Partnership currently does not expect to take title to Two Logan Square until, at the earliest, September 2019. If the Partnership takes fee title to Two Logan Square upon a foreclosure of its mortgage, the Partnership has agreed to pay an unaffiliated third party that holds a residual interest in the fee owner of this property an amount equal to \$0.6 million (if we must pay a state and local transfer upon taking title) and \$2.9 million (if no transfer tax is payable upon the transfer).

As part of the Partnership's 2006 acquisition of Prentiss Properties Trust, the TRC acquisition in 2004 and several of our other transactions, the Partnership agreed not to sell certain of the properties it acquired in transactions that would trigger taxable income to the former owners. In the case of the TRC acquisition, the Partnership agreed not to sell acquired properties for periods up to 15 years from the acquisition date as follows: 201 King of Prussia Road, 555 East Lancaster Avenue and 300 Delaware Avenue (January 2008); One Rodney Square and 130/150/170 Radnor Financial Center (January 2015); and One Logan Square, Two Logan Square and Radnor Corporate Center (January 2020). In the Prentiss acquisition, the Partnership assumed the obligation of Prentiss not to sell Concord Airport Plaza before March 2018 and 6600 Rockledge before July 2008. The Partnership also agreed not sell 14 other properties that contain an aggregate of 1.2 million square feet for periods that expire by the end of 2008. The Partnership's agreements generally provide that it may dispose of the subject properties only in transactions that qualify as tax-free exchanges under Section 1031 of the Internal Revenue Code or in other tax deferred transactions. If the Partnership were to sell a restricted property before expiration of the restricted period in a non-exempt transaction, the Partnership would be required to make significant payments to the parties who sold it the applicable property on account of tax liabilities attributed to them.

The Partnership invests in its properties and regularly incur capital expenditures in the ordinary course to maintain the properties. The Partnership believes that such expenditures enhance our competitiveness. The Partnership also enters into construction, utility and service contracts in the ordinary course of business which may extend beyond one year. These contracts typically provide for cancellation with insignificant or no cancellation penalties.

19. SUBSEQUENT EVENT

On January 14, 2008, the Partnership sold 7130 Ambassador Drive, an office property located in Allentown, Pennsylvania containing an aggregate of 114,049 net rentable square feet, for an aggregate sales price of \$5.8 million.
