To the Participants and Administrator of
Donaldson Company, Inc.
Employee Stock Ownership and Retirement Savings Plan
(formerly known as the Donaldson Company, Inc. Retirement Savings Plan)

In our opinion, the accompanying statement of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Donaldson Company, Inc. Employee Stock Ownership and Retirement Savings Plan (formerly known as the Donaldson Company, Inc. Retirement Savings Plan) (the Plan) at December 31, 2004 and 2003, and the changes in net assets available for benefits for the year ended December 31, 2004, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test

basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule referred to in the accompanying index is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

As described in Note 1, effective June 30, 2004, the Donaldson Company, Inc. Employee Stock Ownership Plan was merged into the Donaldson Company, Inc. Employee Stock Ownership and Retirement Savings Plan. In connection with this merger, \$225,904,864 was transferred into the Plan.

Donaldson Company, Inc. Employee Stock Ownership and Retirement Savings Plan

(formerly known as the Donaldson Company, Inc. Retirement Savings Plan)

Notes to Financial Statements

December 31, 2004 and 2003

The Company made matching fixed contributions to the Plan based on participant contributions into the Plan. Fixed matching contributions were calculated at 100% of up to 3% of compensation deferred by the participant and deposited into the Plan and 50% of the next 2% of compensation deferred by participants and deposited into the Plan.

The Company may make discretionary contributions to the Plan from time to time. Discretionary contributions are allocated among the participants pro rata based upon total annual compensation of participants who have 1,000 hours of service in the Plan year and are in employment of the Company on the last day of the Plan year. Subsequent to each Plan year ended, the Company made a discretionary contribution of \$1,095,996 and \$972,906 for the Plan years ended December 31, 2004 and 2003, respectively.

Participant Accounts

Participants direct the investment of their contributions into various investment options offered by the Plan. If a participant does not allocate their contributions, the contributions are placed in the Fidelity Managed Income Portfolio II Fund. Company contributions are allocated in Donaldson Company, Inc. stock.

The allocation of the participant's contributions to the investment funds may be changed daily. There are no restrictions on transfers among or between the various investment options for employee contributions. Each participant's account is credited with his or her contributions, including rollover distributions, and his or her share of Company contributions, and an allocation of related investment earnings thereon. Allocation of investment earnings is based on the value of the participant's account at the close of each day. Participants can transfer Company contributions after they have five years of service.

Vesting

Participants are 100% vested in their accounts at all times.

Payment of Benefits

Upon termination of employment, disability or termination of the Plan, a participant or designated beneficiary will receive the vested portion of the participant's account balance in a lump-sum payment. Hardship withdrawals, as defined in the Plan document, are allowed at any time, subject to approval by the Plan.

Participant Loans

Under the Plan document, participants may borrow up to 50% of their account balance or \$50,000, whichever is less. Loans must be repaid by the participant within five years, unless the loan is used to acquire the participant's primary residence in which case the term may not exceed ten years. The loan interest is one percent over the prime lending rate on the last business day of the month preceding the month in which the loan is granted. Interest rates on outstanding loans at December 31, 2004, ranged from 5% to 5.25%. Loans mature at various dates through December 2011 and are generally paid through monthly payroll deductions.

2. Summary of Significant Accounting Policies

The accompanying financial statements have been prepared on an accrual basis. The following is a summary of significant policies which are in conformity with accounting principles generally accepted in the United States of America and are consistently followed by the Plan in the preparation of its financial statements.

Valuation of Investments

Investments in mutual funds are stated at fair value based on quoted market prices. Investments in the Donaldson Company, Inc. Common Stock Fund are valued based on the fair value of the underlying investments, primarily Donaldson Company, Inc. common stock, which is valued at quoted market prices. Participant loans are valued at estimated fair value, which consists of outstanding principal and any related accrued interest.

Investment Earnings

Investment income is recorded as earned. Dividend income is recorded on the ex-dividend date. The Plan presents the net appreciation (depreciation) in the fair value of its investments in the Statement of Changes in Net Assets Available for Benefits. Net appreciation

(depreciation) consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Contributions

Participant contributions and Company matching contributions are recorded in the period the employer makes the payroll deductions. Employer discretionary contributions, if any, are recorded in the period they are contributed to the Plan, which is after the end of the Plan year.

Benefits Paid to Participants

Benefits paid to participants are recorded when paid.

Plan Expenses

Investment management fees and administrative fees charged by the Trustee are paid by the Plan. All other expenses are paid by the Company, including legal, accounting and other services.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Ultimate results could differ from those estimates.

Notes to Financial Statements

December 31, 2004 and 2003

Risks and Uncertainties

The Plan provides for various investment options in various combinations of investment securities. Investment securities are exposed to various risk factors including, but not limited to, interest rates, market conditions and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits in future periods.

Concentration of Market Risk

At December 31, 2004 and 2003, approximately 64% and 26% of the Plan's net assets were invested in the Donaldson Company, Inc. common stock, respectively. The underlying value of this fund is dependent on the performance of Donaldson Company, Inc. and the market's evaluation of such performance. It is at least reasonably possible that changes in the fair value of Donaldson Company, Inc. common stock in the near term could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

4. Tax Status

The Plan has received a favorable determination letter from the Internal Revenue Service, dated October 20, 1995, stating that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (the "Code") and is therefore generally exempt from federal income taxes under provisions of Section 501(a). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

5. Related Party Transactions

Participants have the option to direct their contributions to be invested in mutual funds which are sponsored by the Trustee, and a Company stock fund comprised primarily of Donaldson Company, Inc. common stock. The Trustee is authorized, under contract provisions and by exemption under 29 CFR 408(b) of ERISA regulations, to invest in securities under its control and in the Company.
