FILED PURSUANT TO RULE 424B2

FILE NO. 333-99005

PROSPECTUS SUPPLEMENT TO PROSPECTUS DATED DECEMBER 30, 2002

3,850,000 Shares

Anworth Mortgage Asset Corporation

Common Stock

Our common stock is traded on the American Stock Exchange under the symbol ANH. The last reported sale price of our common stock on May 8, 2003 was \$14.31 per share. In April 2003 we received approval to list our common stock for trading on the New York Stock Exchange and on May 9, 2003, our common stock will begin trading on the New York Stock Exchange and will be de-listed from the American Stock Exchange.

We have granted the underwriters a 30-day option to purchase up to 577,500 additional shares to cover over-allotments of shares.

Investing in our common stock involves risks. See [Risk Factors](#) on page S-1.

	Price to Public	Underwriting Discounts and Commissions	Proceeds to Anworth Mortgage Asset
Per Share	\$ 14.10	\$ 0.7755	\$ 13.3245
Total	\$ 54,285,000	\$ 2,985,675	\$ 51,299,325

Delivery of the shares of common stock will be made on or about May 14, 2003.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities, or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

RISK FACTORS

An investment in our common stock involves various risks. You should carefully consider the risk factors described on pages 3 to 12 of the prospectus accompanying this prospectus supplement, together with the other information contained and incorporated by reference in this prospectus supplement and the accompanying prospectus, before purchasing our common stock. If any of the risks discussed in the accompanying prospectus actually occur, our business, operating results, prospects and financial condition could be harmed. This could cause the market price of our common stock to decline and could cause you to lose all or part of your investment.

FORWARD-LOOKING STATEMENTS

This prospectus supplement and the accompanying prospectus contain or incorporate by reference certain forward-looking statements. Forward-looking statements are those that predict or describe future events or trends and that do not relate solely to historical matters. You can generally identify forward-looking statements as statements containing the words will, believe, expect, anticipate, intend, estimate, assume, or other similar expressions. You should not rely on our forward-looking statements because the matters they describe are subject to known and unknown risks, uncertainties and other unpredictable factors, many of which are beyond our control. Statements regarding the following subjects are forward-looking by their nature:

our business strategy;

market trends and risks;

assumptions regarding interest rates; and

assumptions regarding prepayment rates on the mortgage loans securing our mortgage-backed securities.

These forward-looking statements are subject to various risks and uncertainties, including those relating to:

increases in the prepayment rates on the mortgage loans securing our mortgage-backed securities;

our ability to use borrowings to finance our assets;

risks associated with investing in mortgage-related assets, including changes in business conditions and the general economy;

our ability to maintain our qualification as a real estate investment trust for federal income tax purposes; and

management's ability to manage our growth and planned expansion.

Other risks, uncertainties and factors, including those discussed under **Risk Factors** in the accompanying prospectus or described in reports that we file from time to time with the Securities and Exchange Commission, such as our quarterly and annual reports, could cause our actual results to differ materially from those projected in any forward-looking statements we make. We are not obligated to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

S-1

Table of Contents**MARKET PRICE AND DIVIDENDS ON OUR COMMON STOCK****Market Information**

Our common stock began trading under the symbol ANH on the American Stock Exchange on March 17, 1998. As of May 8, 2003, we had 27,599,188 shares of common stock outstanding which were held by 505 holders of record. The last reported sale price of our common stock on May 8, 2003 was \$14.31 per share. The high and low sale prices for our common stock as reported by the American Stock Exchange for the periods indicated are as follows:

	2000		2001		2002		2003(1)	
	High	Low	High	Low	High	Low	High	Low
First Quarter	\$ 4.69	\$ 4.00	\$ 5.35	\$ 3.94	\$ 10.10	\$ 8.10	\$ 13.23	\$ 11.10
Second Quarter	\$ 4.50	\$ 4.13	\$ 6.90	\$ 4.60	\$ 14.50	\$ 9.60	\$ 15.01	\$ 12.91
Third Quarter	\$ 5.06	\$ 4.13	\$ 8.08	\$ 6.35	\$ 14.00	\$ 8.75	N/A	N/A
Fourth Quarter	\$ 5.00	\$ 3.88	\$ 9.85	\$ 6.60	\$ 13.60	\$ 10.15	N/A	N/A

(1) Information for the second quarter of 2003 is for April 1, 2003 through May 8, 2003.

In April 2003, we received approval to list our common stock for trading on the New York Stock Exchange, and on May 9, 2003, our common stock will begin trading on the New York Stock Exchange and will be de-listed from the American Stock Exchange.

Dividends

We pay cash dividends on a quarterly basis. The following table lists the cash dividends declared on each share of our common stock for our most recent two fiscal years and our most recent fiscal quarter. The dividends listed below were based primarily on the board of directors evaluation of earnings for each listed quarter and were declared on the date indicated.

	Cash Dividends Per Share	Date Dividend Declared
2001		
First Quarter ended March 31, 2001	\$ 0.20	April 20, 2001
Second Quarter ended June 30, 2001	\$ 0.24	July 23, 2001
Third Quarter ended September 30, 2001(1)	\$ 0.54	October 15, 2001
Fourth Quarter ended December 31, 2001(2)	\$ 0.25	October 15, 2001
Fourth Quarter ended December 31, 2001(3)	\$ 0.30	December 17, 2001
2002		
First Quarter ended March 31, 2002	\$ 0.50	April 18, 2002

Edgar Filing: ANWORTH MORTGAGE ASSET CORP - Form 424B2

Second Quarter ended June 30, 2002	\$	0.50	June 11, 2002
Third Quarter ended September 30, 2002	\$	0.50	September 12, 2002
Fourth Quarter ended December 31, 2002	\$	0.50	December 18, 2002
2003			
First Quarter ended March 31, 2003(4)	\$	0.45	April 17, 2003

- (1) The dividend of \$0.54 was based on our retained earnings as of September 30, 2001, of which \$0.42 was earned in the third quarter of 2001 and the remaining \$0.12 was earned in prior quarters.
- (2) On October 15, 2001, our board of directors declared a dividend of \$0.25, paid on January 15, 2002, for purposes of year-end REIT compliance requirements.
- (3) The dividend was paid on January 22, 2002 to holders of record as of the close of business on December 20, 2001.
- (4) The dividend is payable on May 15, 2003 to holders of record as of the close of business on May 1, 2003.

S-2

Table of Contents**CAPITALIZATION**

The following table sets forth our actual capitalization as of December 31, 2002, and our capitalization as adjusted to give effect to the issuance of 3,850,000 shares of our common stock in this offering at the public offering price of \$14.10 per share, assuming the underwriters do not exercise their over-allotment option.

The information set forth in the following table should be read in conjunction with, and is qualified in its entirety by, the financial statements and the notes thereto included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2002, which is incorporated by reference into the accompanying prospectus.

	As of December 31, 2002	
	Historical	As Adjusted(1)
	(in thousands)	
Stockholders Equity:		
Preferred stock, par value \$0.01 per share; 20,000 shares authorized; no shares outstanding	\$	\$
Common stock, par value \$0.01 per share, 100,000 authorized; 25,396 shares issued and 25,346 outstanding; 29,246 shares issued and 29,196 outstanding, as adjusted	253	292
Additional paid-in capital	256,610	307,621
Retained earnings (deficit)	(5,218)	(5,218)
Unearned restricted stock	(754)	(754)
Accumulated other comprehensive income (loss)(2)	14,860	14,860
Treasury Stock	(229)	(229)
Total stockholders equity	\$ 265,522	\$ 316,572

- (1) After deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us, and assuming no exercise of the underwriters' over-allotment option to purchase up to an additional 577,500 shares of our common stock. Does not include 2,253,165 shares of our common stock issued subsequent to December 31, 2002 consisting of 1,510,340 shares issued pursuant to our Controlled Equity Offering Sales Agreement with Cantor Fitzgerald & Co., 31,009 shares issued pursuant to option exercises under our 1997 Stock Option and Awards Plan and 711,816 shares issued pursuant to our Dividend Reinvestment and Stock Purchase Plan.
- (2) Represents unrealized gains (losses) resulting from mark-to-market adjustments on our available for sale securities.

Table of Contents**SELECTED FINANCIAL DATA**

The selected financial data as of December 31, 2001 and 2002 and the three years in the period ended December 31, 2002 are derived from our audited financial statements incorporated by reference in the accompanying prospectus. The selected financial data as of December 31, 1998, 1999 and 2000 and for the year ended December 31, 1999 and for the period from commencement of operations on March 17, 1998 to December 31, 1998 are derived from audited financial statements not included in this prospectus supplement or the accompanying prospectus. You should read these selected financial data together with Management's Discussion and Analysis of Financial Condition and Results of Operations and our audited financial statements and notes thereto that are included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2002, which is incorporated by reference into the accompanying prospectus.

- (1) On September 26, 2000, our board of directors announced that, beginning with the third quarter of 2000, dividends would generally be declared after each quarter-end rather than during the applicable quarter.
- (2) Average equity excludes fair value adjustment for mortgage-backed securities.
- (3) Excludes gain on sale of securities.
- (4) Each ratio for 1998 has been computed by annualizing the results for the 290-day period ended December 31, 1998.
- (5) Excludes management and incentive fees paid to the manager, incentive compensation paid to our employees and the acquisition costs of \$3,475,000 paid for the acquisition of our external manager.

RECENT DEVELOPMENTS

We declared a dividend of \$0.45 per share on April 17, 2003. This dividend is payable on May 15, 2003 to holders of record as of the close of business on May 1, 2003. Consequently, purchasers in this offering will not participate in this dividend.

On April 17, 2003, we reported our preliminary unaudited results of operations for the quarter ended March 31, 2003. For the quarter ended March 31, 2003, we reported earnings of \$11,822,000, or \$0.46 per share based on 25,926,399 weighted average common shares outstanding, on a fully diluted basis.

At March 31, 2003, we held mortgage assets of approximately \$2.8 billion and our mortgage assets included 31% in adjustable-rate mortgage-backed securities, 55% in hybrid adjustable-rate mortgage-backed securities, 12% in fixed-rate mortgage-backed securities and 2% in collateralized mortgage obligations. The weighted average maturity of our outstanding repurchase agreements increased from 166 days as of December 31, 2002 to 209 days as of March 31, 2003.

Table of Contents

OUR COMPANY

Overview

We are in the business of investing primarily in United States agency and other highly rated single-family adjustable-rate and fixed-rate mortgage-backed securities that we acquire in the secondary market. United States agency securities are securities that are obligations guaranteed by the United States government or its agencies, such as Fannie Mae or Freddie Mac. We seek attractive long-term investment returns by investing our equity capital and borrowed funds in such securities. Our returns are earned on the spread between the yield on our earning assets and the interest cost of the funds we borrow. We have elected to be taxed as a real estate investment trust, or REIT, under the United States Internal Revenue Code. As a REIT, we routinely distribute substantially all of the income generated from our operations to our stockholders. As long as we retain our REIT status, we generally will not be subject to federal or state taxes on our income to the extent that we distribute our net income to our stockholders.

At December 31, 2002, we had total assets of \$2,443.9 million and equity of \$265.5 million, or \$10.48 book value per share. As of that date, approximately 100% of our assets consisted of mortgage-backed securities guaranteed by an agency of the United States government such as Fannie Mae, Freddie Mac and Ginnie Mae. For the year ended December 31, 2002, we reported net income of \$31.7 million, or \$1.80 per diluted share.

We were incorporated in Maryland on October 20, 1997 and commenced our operations on March 17, 1998. From the time of our inception through June 13, 2002, we were externally managed pursuant to a management agreement with Anworth Mortgage Advisory Corporation, or the manager. As an externally managed company, we had no employees of our own and relied on the manager to conduct our business and operations.

On June 13, 2002, the manager merged with and into our company. The merger was approved by a special committee consisting solely of our independent directors, our full board of directors and the vote of a majority of our stockholders. The stockholder of the manager, a trust controlled by Lloyd McAdams, our President, Chairman and Chief Executive Officer, and Heather U. Baines, one of our Executive Vice Presidents, received 240,000 shares of our common stock as merger consideration, which was worth approximately \$3.2 million based on the closing price of our common stock on June 13, 2002. As a result of the merger, we are now an internally managed company, and certain of the manager's employees have become our employees. As a condition to the merger, we entered into direct employment contracts with Lloyd McAdams, Heather U. Baines and Joseph McAdams, adopted an incentive compensation plan for key employees, increased the size of our 1997 Stock Option and Awards Plan and provided for future automatic increases in the size of that plan. Upon the closing of the merger, the management agreement terminated.

Our Executive Officers

Our executive officers are as follows:

Lloyd McAdams. Mr. McAdams is our Chairman of the Board, President and Chief Executive Officer. Mr. McAdams is also the Chairman of the Board, Chief Investment Officer and co-founder of Pacific Income Advisers, an investment advisory firm, and is the President of Syndicated Capital, Inc., a registered broker-dealer. Mr. McAdams also serves as a director of PIA Mutual Fund. Before joining Pacific Income Advisers,

Edgar Filing: ANWORTH MORTGAGE ASSET CORP - Form 424B2

Mr. McAdams was President of Security Pacific Investment Managers, Inc. and served as Senior Vice President of Trust Company of the West. Mr. McAdams is a Chartered Financial Analyst charterholder, Chartered Investment Counselor and a Certified Employee Benefit Specialist.

Thad M. Brown. Mr. Brown is our Chief Financial Officer and Secretary. Mr. Brown is also the Chief Operating Officer, Corporate Secretary and Treasurer of Pacific Income Advisers. He began his career with Touche Ross & Co., Certified Public Accountants, and in 1987 associated with Provident Investment Counsel, Pasadena, California, becoming its Chief Operating Officer and Senior Vice President, where he served in those

S-6

Table of Contents

capacities until 1999. Mr. Brown holds a master's degree in tax law, is a Certified Public Accountant and received the Personal Financial Specialist designation from the American Institute of Certified Public Accountants.

Joseph E. McAdams. Mr. McAdams is our Chief Investment Officer, and an Executive Vice President and Director of our company. Mr. McAdams is also Vice President of Pacific Income Advisers where he serves as Fixed Income Portfolio Manager with a specialty in mortgage securities and is responsible for Pacific Income Advisers' fixed income trading. Prior to joining Pacific Income Advisers, Mr. McAdams was a mortgage-backed security trader and analyst at Donaldson, Lufkin & Jenrette Securities Corp. in New York. Mr. McAdams is also a Chartered Financial Analyst charterholder.

Heather U. Baines. Ms. Baines is an Executive Vice President of our company. Ms. Baines is also the President, Chief Executive Officer and co-founder of Pacific Income Advisers. Prior to joining Pacific Income Advisers, Ms. Baines was employed by Security Pacific Investment Managers, Inc., ultimately holding the position of Senior Vice President and Director.

Evangelos Karagiannis. Mr. Karagiannis is a Vice President of our company with responsibility for managing our portfolio. Mr. Karagiannis is also Vice President of Pacific Income Advisers where he serves as Fixed Income Portfolio Manager with a specialty in mortgage securities and is responsible for Pacific Income Advisers' quantitative research. Mr. Karagiannis is a Chartered Financial Analyst charterholder and holds a Ph.D. in physics.

Our Strategy

Investment Strategy

Our strategy is to invest primarily in United States agency and other highly rated single-family adjustable-rate and fixed-rate mortgage-backed securities that we acquire in the secondary market. We seek to acquire assets that will produce competitive returns after considering the amount and nature of the anticipated returns from the investment, our ability to pledge the investment to secure collateralized borrowings and the costs associated with financing, managing, securitizing and reserving for these investments. We do not currently originate mortgage loans or provide other types of financing to the owners of real estate.

Financing Strategy

We finance the acquisition of mortgage-backed securities with short-term borrowings and, to a lesser extent, equity capital. The amount of short-term borrowings we employ depends on, among other factors, the amount of our equity capital. We use leverage to attempt to increase potential returns to our stockholders. Pursuant to our capital and leverage policy, we seek to strike a balance between the under-utilization of leverage, which reduces potential returns to stockholders, and the over-utilization of leverage, which could reduce our ability to meet our obligations during adverse market conditions.

Edgar Filing: ANWORTH MORTGAGE ASSET CORP - Form 424B2

We usually borrow at short-term rates using reverse repurchase agreements, or repurchase agreements. Repurchase agreements are generally short-term in nature. We actively manage the adjustment periods and the selection of the interest rate indices of our borrowings against the adjustment periods and the selection of indices on our mortgage-related assets in order to limit our liquidity and interest rate related risks. We generally seek to diversify our exposure by entering into repurchase agreements with multiple lenders. In addition, we enter into repurchase agreements with institutions we believe are financially sound and which meet credit standards approved by our board of directors.

S-7

Table of Contents

Growth Strategy

In addition to the strategies described above, we intend to pursue other strategies to further grow our earnings and our dividends per share, which may include the following:

increasing the size of our balance sheet at a rate faster than the rate of increase in our operating expenses;

issuing new common stock when market opportunities exist to profitably increase the size of our balance sheet through the use of leverage; and

lowering our effective borrowing costs over time by seeking direct funding with collateralized lenders, rather than using financial intermediaries, and possibly using commercial paper, medium term note programs, preferred stock and other forms of capital.

Our Operating Policies and Programs

We have established the following four primary operating policies to implement our business strategies:

our Asset Acquisition Policy;

our Capital and Leverage Policy;

our Credit Risk Management Policy; and

our Asset/Liability Management Policy.

Asset Acquisition Policy

Our asset acquisition policy provides guidelines for acquiring investments and contemplates that we will acquire a portfolio of investments that can be grouped into specific categories. Each category and our respective investment guidelines are as follows:

Category I At least 60% of our total assets will generally be adjustable or fixed-rate mortgage securities and short-term investments. Assets in this category will be rated within one of the two highest rating categories by at least one nationally recognized statistical rating organization, or if not rated, will be obligations guaranteed by the United States government or its agencies, Fannie Mae or Freddie Mac.

Edgar Filing: ANWORTH MORTGAGE ASSET CORP - Form 424B2

Category II At least 90% of our total assets will generally consist of Category I investments plus unrated mortgage loans, mortgage securities rated at least investment grade by at least one nationally recognized statistical rating organization, or shares of other REITs or mortgage-related companies.

Category III No more than 10% of our total assets may be of a type not meeting any of the above criteria. Among the types of assets generally assigned to this category are mortgage securities rated below investment grade and leveraged mortgage derivative securities.

Under our Category III investment criteria, we may acquire other types of mortgage derivative securities, including, but not limited to, interest only, principal only or other mortgage-backed securities that receive a disproportionate share of interest income or principal.

Capital and Leverage Policy

We employ a leverage strategy to increase our investment assets by borrowing against existing mortgage-related assets and using the proceeds to acquire additional mortgage-related assets. We generally borrow between eight to twelve times the amount of our equity, although our borrowings may vary from time to time depending on market conditions and other factors deemed relevant by our management company and our board of directors. We believe that this will leave an adequate capital base to protect against interest rate environments in which our borrowing costs might exceed our interest income from mortgage-related assets. We enter into collateralized borrowings with institutions which meet credit standards approved by our board of directors.

Table of Contents

Depending on the different cost of borrowing funds at different maturities, we may vary the maturities of our borrowed funds in an attempt to produce lower borrowing costs. Our borrowings are short-term and we manage actively, on an aggregate basis, both the interest rate indices and interest rate adjustment periods of our borrowings against the interest rate indices and interest rate adjustment periods on our mortgage-related assets.

Our mortgage-related assets are financed primarily at short-term borrowing rates through repurchase agreements and dollar-roll agreements. In the future we may also employ borrowings under lines of credit and other collateralized financings that we may establish with approved institutional lenders.

Credit Risk Management Policy

We review credit risk and other risks of loss associated with each of our potential investments. In addition, we may diversify our portfolio of mortgage-related assets to avoid undue geographic, insurer, industry and certain other types of concentrations. We may reduce certain risks from sellers and servicers through representations and warranties. We monitor the overall portfolio risk and determine appropriate levels of provision for loss.

Compliance with our credit risk management policy guidelines is determined at the time of purchase of mortgage assets, based upon the most recent valuation utilized by us. Such compliance is not affected by events subsequent to such purchase, including, without limitation, changes in characterization, value or rating of any specific mortgage assets or economic conditions or events generally affecting any mortgage-related assets of the type held by us.

Asset/Liability Management Policy

Interest-Rate Risk Management. To the extent consistent with our election to qualify as a REIT, we follow an interest rate risk management program intended to protect our portfolio of mortgage-related assets and related debt against the effects of major interest rate changes. Specifically, our interest rate management program is formulated with the intent to offset to some extent the potential adverse effects resulting from rate adjustment limitations on our mortgage-related assets and the differences between interest rate adjustment indices and interest rate adjustment periods of our adjustable-rate mortgage-related assets and related borrowings.

Our interest rate risk management program encompasses a number of procedures, including the following:

monitoring and adjusting, if necessary, the interest rate sensitivity of our mortgage-related assets compared with the interest rate sensitivities of our borrowings;

attempting to structure our borrowing agreements relating to adjustable-rate mortgage-related assets to have a range of different maturities and interest rate adjustment periods (although substantially all will be less than a year); and

Edgar Filing: ANWORTH MORTGAGE ASSET CORP - Form 424B2

actively managing, on an aggregate basis, the interest rate indices and interest rate adjustment periods of our mortgage-related assets compared to the interest rate indices and adjustment periods of our borrowings.

As a result, we expect to be able to adjust the average maturity/adjustment period of our borrowings on an ongoing basis by changing the mix of maturities and interest rate adjustment periods as borrowings come due or are renewed. Through the use of these procedures, we attempt to reduce the risk of differences between interest rate adjustment periods of our adjustable-rate mortgage-related assets and our related borrowings.

Depending on market conditions and the cost of the transactions, we may conduct certain hedging activities in connection with the management of our portfolio, including periodically entering into derivative transaction with the objective of reducing interest rate risk. To the extent consistent with our election to qualify as a REIT, we may adopt a hedging strategy intended to lessen the effects of interest rate changes and to enable us to earn

S-9

Table of Contents

net interest income in periods of generally rising, as well as declining or static, interest rates. Specifically, hedging programs are formulated with the intent to offset some of the potential adverse effects of changes in interest rate levels relative to the interest rates on the mortgage-related assets held in our investment portfolio, and differences between the interest rate adjustment indices and periods of our mortgage-related assets and our borrowings. We monitor carefully, and may have to limit, our asset/liability management program to assure that we do not realize excessive hedging income, or hold hedges having excess value in relation to mortgage-related assets, which would result in our disqualification as a REIT or, in the case of excess hedging income, if the excess is due to reasonable cause and not willful neglect, the payment of a penalty tax for failure to satisfy certain REIT income tests under the tax code. In addition, asset/liability management involves transaction costs that increase dramatically as the period covered by hedging protection increases and that may increase during periods of fluctuating interest rates.

Prepayment Risk Management. We also seek to lessen the effects of prepayment of mortgage loans underlying our securities at a faster or slower rate than anticipated. We accomplish this by structuring a diversified portfolio with a variety of prepayment characteristics, investing in mortgage-related assets with prepayment prohibitions and penalties, investing in certain mortgage security structures that have prepayment protections, and purchasing mortgage-related assets at a premium and at a discount. We invest in mortgage-related assets that on a portfolio basis do not have significant purchase price premiums. Under normal market conditions, we seek to maintain the aggregate capitalized purchase premium of the portfolio at 3% or less. In addition, we can purchase principal only derivatives to a limited extent as a hedge against prepayment risks. We monitor prepayment risk through periodic review of the impact of a variety of prepayment scenarios on our revenues, net earnings, dividends, cash flow and net balance sheet market value.

We believe that we have developed cost-effective asset/liability management policies to mitigate prepayment risks. However, no strategy can completely insulate us from prepayment risks. Further, as noted above, certain of the federal income tax requirements that we must satisfy to qualify as a REIT limit our ability to fully hedge our prepayment risks. Therefore, we could be prevented from effectively hedging our interest rate and prepayment risks.

Our Investments

Mortgage-Backed Securities

Pass-Through Certificates. We principally invest in pass-through certificates, which are securities representing interests in pools of mortgage loans secured by residential real property in which payments of both interest and principal on the securities are generally made monthly, in effect, passing through monthly payments made by the individual borrowers on the mortgage loans which underlie the securities, net of fees paid to the issuer or guarantor of the securities. Early repayment of principal on some mortgage-backed securities, arising from prepayments of principal due to sale of the underlying property, refinancing or foreclosure, net of fees and costs which may be incurred, may expose us to a lower rate of return upon reinvestment of principal. This is generally referred to as prepayment risk. Additionally, if a security subject to prepayment has been purchased at a premium, the value of the premium would be lost in the event of prepayment. Like other fixed-income securities, when interest rates rise, the value of a mortgage-backed security generally will decline.

When interest rates are declining, however, the value of mortgage-backed securities with prepayment features may not increase as much as other fixed-income securities. The rate of prepayments on underlying mortgages will affect the price and volatility of a mortgage-backed securities and may have the effect of shortening or extending the effective maturity of the security beyond what was anticipated at the time of purchase. When interest rates rise, our holdings of mortgage-backed securities may experience reduced returns if the owners of the underlying mortgages pay off their mortgages later than anticipated. This is generally referred to as extension risk.

Table of Contents

Payment of principal and interest on some mortgage pass-through securities, although not the market value of the securities themselves, may be guaranteed by the full faith and credit of the federal government, including securities backed by Ginnie Mae, or by agencies or instrumentalities of the federal government, including Fannie Mae and Freddie Mac. Mortgage-backed securities created by non-governmental issuers, including commercial banks, savings and loan institutions, private mortgage insurance companies, mortgage bankers and other secondary market issuers, may be supported by various forms of insurance or guarantees, including individual loan, title, pool and hazard insurance and letters of credit, which may be issued by governmental entities, private insurers or the mortgage poolers.

Collateralized Mortgage Obligations. Collateralized mortgage obligations, or CMOs, are mortgage-backed securities. Interest and principal on a CMO are paid, in most cases, on a monthly basis. CMOs may be collateralized by whole mortgage loans, but are more typically collateralized by portfolios of mortgage pass-through securities. CMOs are structured into multiple classes, with each class bearing a different stated maturity. Monthly payments of principal, including prepayments, are first returned to investors holding the shortest maturity class; investors holding the longer maturity classes receive principal only after the first class has been retired. We will typically consider CMOs that are issued or guaranteed by the federal government or by any of its agencies or instrumentalities to be United States government securities.

Other Mortgage-Backed Securities

Mortgage Derivative Securities. We may acquire mortgage derivative securities in an amount not to exceed 10% of our total assets. Mortgage derivative securities provide for the holder to receive interest only, principal only, or interest and principal in amounts that are disproportionate to those payable on the underlying mortgage loans. Payments on mortgage derivative securities are highly sensitive to the rate of prepayments on the underlying mortgage loans. In the event of faster or slower than anticipated prepayments on these mortgage loans, the rates of return on interests in mortgage derivative securities representing the right to receive interest only or a disproportionately large amount of interest, or interest only derivatives, would be likely to decline or increase, respectively. Conversely, the rates of return on mortgage derivative securities representing the right to receive principal only or a disproportionate amount of principal, or principal only derivatives, would be likely to increase or decrease in the event of faster or slower prepayments, respectively.

We may also invest in inverse floaters, a class of CMOs with a coupon rate that resets in the opposite direction from the market rate of interest to which it is indexed, including LIBOR or the 11th District Cost of Funds Index, or COFI. Any rise in the index rate, which can be caused by an increase in interest rates, causes a drop in the coupon rate of an inverse floater while any drop in the index rate causes an increase in the coupon of an inverse floater. An inverse floater may behave like a leveraged security since its interest rate usually varies by a magnitude much greater than the magnitude of the index rate of interest. The leverage-like characteristics inherent in inverse floaters are associated with greater volatility in their market prices.

We may also invest in other mortgage derivative securities that may be developed in the future.

Subordinated Interests. We may also acquire subordinated interests, which are classes of mortgage-backed securities that are junior to other classes of the same series of mortgage-backed securities in the right to receive payments from the underlying mortgage loans. The subordination may be for all payment failures on the mortgage loans securing or underlying such series of mortgage securities. The subordination will not be limited to those resulting from particular types of risks, including those resulting from war, earthquake or flood, or the bankruptcy of a borrower. The subordination may be for the entire amount of the series of mortgage-related securities or may be limited in amount.

Edgar Filing: ANWORTH MORTGAGE ASSET CORP - Form 424B2

Mortgage Warehouse Participations. We may also occasionally acquire mortgage warehouse participations as an additional means of diversifying our sources of income. We anticipate that these investments, together with our investments in other Category III assets, will not in the aggregate exceed 10% of our total

S-11

Table of Contents

mortgage-related assets. These investments are participations in lines of credit to mortgage loan originators that are secured by recently originated mortgage loans that are in the process of being sold to investors. Our investments in mortgage warehouse participations are limited because they are not qualified REIT assets under the tax code.

Other Mortgage-Related Assets

Mortgage Loans. We may acquire and accumulate mortgage loans as part of our investment strategy until a sufficient quantity has been accumulated for securitization into high-quality mortgage-backed securities in order to enhance their value and liquidity. We anticipate that any mortgage loans that we acquire and do not immediately securitize, together with our investments in other mortgage-related assets that are not Category I assets, will not constitute more than 30% of our total mortgage-related assets at any time. All mortgage loans, if any, will be acquired with the intention of securitizing them into high-credit quality mortgage securities. Despite our intentions, however, we may not be successful in securitizing these mortgage loans. To meet our investment criteria, mortgage loans acquired by us will generally conform to the underwriting guidelines established by Fannie Mae, Freddie Mac or other credit insurers. Applicable banking laws generally require that an appraisal be obtained in connection with the original issuance of mortgage loans by the lending institution. We do not intend to obtain additional appraisals at the time of acquiring mortgage loans.

Mortgage loans may be originated by or purchased from various suppliers of mortgage-related assets throughout the United States, including savings and loans associations, banks, mortgage bankers and other mortgage lenders. We may acquire mortgage loans directly from originators and from entities holding mortgage loans originated by others. Our board of directors has not established any limits upon the geographic concentration of mortgage loans that we may acquire or the credit quality of suppliers of the mortgage-related assets that we acquire.

Other Investments. We may acquire other investments that include equity and debt securities issued by other primarily mortgage-related finance companies, interests in mortgage-related collateralized bond obligations, other subordinated interests in pools of mortgage-related assets, commercial mortgage loans and securities, and residential mortgage loans other than high-credit quality mortgage loans. Although we expect that our other investments will be limited to less than 10% of total assets, we have no limit on how much of our stockholders' equity will be allocated to other investments. There may be periods in which other investments represent a large portion of our stockholders' equity.

Table of Contents

THE OFFERING

Common stock offered by us	3,850,000 shares(1)
Common stock to be outstanding after this offering	31,449,188 shares(2)
New York Stock Exchange trading symbol	ANH(3)

- (1) 4,427,500 shares of common stock if the underwriters exercise their over-allotment option in full.
- (2) 32,026,688 shares of common stock if the underwriters exercise their over-allotment option in full. Does not include 1,031,640 shares of common stock that may be issued upon the exercise of outstanding options granted under our 1997 Stock Option and Awards Plan at exercise prices ranging from \$4.60 to \$13.80 per share or 19,830 shares of common stock that may be acquired pursuant to outstanding dividend equivalent rights. A total of 1,800,000 shares of our common stock are currently authorized for issuance under our 1997 Stock Option and Awards Plan.
- (3) In April 2003 we received approval to list our common stock for trading on the New York Stock Exchange and on May 9, 2003, our common stock will begin trading on the New York Stock Exchange and will be de-listed from our common stock from the American Stock Exchange.

USE OF PROCEEDS

We are conducting this offering to increase our equity capital base which will allow us to grow our balance sheet through the deployment of the equity and the use of leverage. We will use the net proceeds from this offering to acquire mortgage-related assets consistent with our investment policy. We then intend to increase our investment assets by borrowing against these mortgage-related assets and using the proceeds of such borrowings to acquire additional mortgage-related assets. The net proceeds from the sale of 3,850,000 shares of our common stock, based on the public offering price of \$14.10 per share, will be approximately \$51.0 million after deducting underwriting discounts and commissions and estimated expenses of the offering. Pending such investment, we will place the net proceeds in interest-bearing bank accounts or in readily marketable, interest-bearing securities.

Table of Contents**UNDERWRITING**

Friedman, Billings, Ramsey & Co., Inc. (FBR), Advest, Inc., Stifel, Nicolaus & Company, Incorporated and Flagstone Securities, LLC are acting as representatives of the underwriters named below. Subject to the terms and conditions contained in the underwriting agreement, we have agreed to sell to each underwriter, and each underwriter has agreed to purchase from us, the number of shares set forth opposite its name below. The underwriting agreement provides that the obligation of the underwriters to pay for and accept delivery of our common stock is subject to approval of certain legal matters by their counsel and to certain other conditions. The underwriters are obligated to take and pay for all shares of our common stock offered (other than those covered by the over-allotment option described below) if any of the shares are taken.

<u>Underwriter</u>	<u>Number of Shares</u>
Friedman, Billings, Ramsey & Co., Inc.	2,194,500
Advest, Inc.	770,000
Stifel, Nicolaus & Company, Incorporated	500,500
Flagstone Securities, LLC	385,000
Total	3,850,000

We have granted the underwriters an option exercisable for 30 days after the date of this prospectus to purchase up to 577,500 additional shares of common stock to cover over-allotments, if any, at the public offering price less the underwriting discounts and commissions set forth on the cover page of this prospectus. If the underwriters exercise this option, the underwriters will have a firm commitment, subject to certain conditions, to purchase all of the shares for which the option is exercised.

The following table shows the amount per share and total underwriting discounts and commissions we will pay to the underwriters. The amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase up to 577,500 additional shares of our common stock to cover over-allotments.

	<u>Total</u>		
	<u>Per Share</u>	<u>No Exercise</u>	<u>Full Exercise</u>
Public offering price	\$ 14.10	\$ 54,285,000	\$ 62,427,750
Underwriting discounts and commissions to be paid by us	\$ 0.7755	\$ 2,985,675	\$ 3,433,526
Proceeds, before expenses, to us	\$ 13.3245	\$ 51,299,325	\$ 58,994,224

Each of our officers and directors has agreed with FBR, for a period of 30 days after the date of this prospectus supplement, subject to certain exceptions, not to sell any shares of common stock or any securities convertible into or exchangeable for shares of common stock owned by them, without the prior written consent of FBR. However, FBR may, in its sole discretion and at any time without notice, release all or any portion of the securities subject to these agreements.

Edgar Filing: ANWORTH MORTGAGE ASSET CORP - Form 424B2

The underwriters offered our common stock directly to the public at \$14.10 per share and to certain dealers at this price less a concession not in excess of \$0.46 per share. The underwriters may allow, and the dealers may reallow, a concession not in excess of \$0.10 per share to certain dealers. We expect to incur expenses of approximately \$250,000 in connection with this offering.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribute to payments the underwriters may be required to make in respect thereof.

S-14

Table of Contents

In connection with this offering, the underwriters are permitted to engage in certain transactions that stabilize the price of our common stock. These transactions consist of bids or purchases for the purpose of pegging, fixing or maintaining the price of our common stock. If the underwriters create a short position in our common stock in connection with this offering by selling more than 3,850,000 shares of common stock, the underwriters may reduce that short position by purchasing our common stock in the open market. In general, purchases of a security for the purpose of stabilization or to reduce a short position could cause the price of the security to be higher than it might be in the absence of those purchases. Neither the underwriters nor we make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our common stock. In addition, neither the underwriters nor we make any representation that the underwriters will engage in those transactions or that those transactions, once commenced, will not be discontinued without notice.

The underwriters or their affiliates may provide us with investment banking, financial advisory, or commercial banking services in the future, for which they may receive customary compensation.

The underwriters have informed us that they do not intend to confirm sales of the common stock offered by this prospectus to any accounts over which they exercise discretionary authority.

Although we have entered into a Controlled Equity Offering Sales Agreement with Cantor Fitzgerald & Co. pursuant to which we may sell up to 4,800,000 shares, we will not offer or sell any shares of common stock pursuant to that agreement or in any other transaction (subject to customary exceptions including issuances in connection with our 1997 Stock Option and Awards Plan and pursuant to our Dividend Reinvestment and Stock Purchase Plan) while this offering is pending or for 30 days after the completion of this offering.

LEGAL MATTERS

The validity of our securities offered in this prospectus supplement and accompanying prospectus will be passed upon for us by Allen Matkins Leck Gamble & Mallory LLP, Century City, California. Selected legal matters related to Maryland law will be passed upon for us by Piper Rudnick LLP. Certain legal matters relating to this offering will be passed upon for the underwriters by Morrison & Foerster LLP, Los Angeles, California.

EXPERTS

The financial statements as of December 31, 2002 and 2001, and for each of the three years in the period ended December 31, 2002, incorporated in the accompanying prospectus by reference to our Annual Report on Form 10-K for the year ended December 31, 2002, have been so incorporated in reliance on the report of PricewaterhouseCoopers LLP, independent accountants, given on the authority of said firm as experts in auditing and accounting.

PROSPECTUS

\$350,000,000

Anworth Mortgage Asset Corporation

Common Stock and Preferred Stock

By this prospectus, we may offer, from time to time, shares of our:

common stock;

preferred stock; or

any combination of the foregoing.

We will provide specific terms of each issuance of these securities in supplements to this prospectus. You should read this prospectus and any supplement carefully before you decide to invest.

This prospectus may not be used to consummate sales of these securities unless it is accompanied by a prospectus supplement.

Our common stock is traded on the American Stock Exchange under the ticker symbol ANH.

We may sell these securities to or through underwriters, dealers or agents, or we may sell the securities directly to investors on our own behalf.

Investing in our common stock involves a high degree of risk. You should carefully consider the information under the heading Risk Factors beginning on page 3 of this prospectus before buying shares of our common stock.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities, or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is December 30, 2002

Table of Contents

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission, or SEC, using a shelf registration process. Under this process, we may offer and sell any combination of common stock and preferred stock in one or more offerings for total proceeds of up to \$350,000,000. This prospectus provides you with a general description of the securities we may offer. Each time we offer to sell securities, to the extent required by the federal securities laws, we will provide a supplement to this prospectus that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. It is important for you to consider the information contained in this prospectus and any prospectus supplement together with additional information described under the heading **Where You Can Find More Information**.

OUR COMPANY

Our Business

We are in the business of investing primarily in United States agency and other highly rated single-family adjustable-rate and fixed-rate mortgage-backed securities that we acquire in the secondary market. United States agency securities are securities that are obligations guaranteed by the United States government or its agencies, such as Fannie Mae or Freddie Mac. We seek attractive long-term investment returns by investing our equity capital and borrowed funds in such securities. Our returns are earned on the spread between the yield on our earning assets and the interest cost of the funds we borrow. We have elected to be taxed as a real estate investment trust, or REIT, under the United States Internal Revenue Code. As a REIT, we routinely distribute substantially all of the income generated from our operations to our stockholders. As long as we retain our REIT status, we generally will not be subject to federal or state taxes on our income to the extent that we distribute our net income to our stockholders.

Our Investments

We acquire mortgage-related assets, finance our purchases in the capital markets and use leverage to increase our return on stockholders' equity. Through this strategy we expect to earn income that will enable us to generate dividends for our stockholders.

We acquire mortgage-related assets that we believe will generate attractive returns on capital invested. Before making these investments, we consider the amount and nature of the anticipated returns from the assets, our ability to pledge the assets to secure collateralized borrowings, and the costs associated with financing, managing, securitizing and reserving for the assets. We have also established a written asset acquisition policy that provides the following investment guidelines:

Category I At least 60% of our total assets will generally be adjustable or fixed-rate mortgage securities and short-term investments. Assets in this category will be rated within one of the two highest rating categories by at least one nationally recognized statistical rating organization, or if not rated, will be obligations guaranteed by the United States government or its agencies, Fannie Mae or Freddie Mac.

Category II At least 90% of our total assets will generally consist of Category I investments plus unrated mortgage loans, mortgage securities rated at least investment grade by at least one nationally recognized statistical rating organization, or shares of other REITs or mortgage-related companies.

Category III No more than 10% of our total assets may be of a type not meeting any of the above criteria. Among the types of assets generally assigned to this category are mortgage securities rated below investment grade and leveraged mortgage derivative securities.

Table of Contents

We finance our acquisition of mortgage-related assets through borrowing at short-term rates using repurchase agreements. We generally borrow between eight and twelve times the amount of our equity. We actively manage the adjustment periods and the selection of the interest rate indices of our borrowings against the adjustment periods and the selection of indices on our mortgage-related assets in order to limit our liquidity and interest rate related risks.

We also seek to lessen the effects on our income if mortgage loans underlying our securities prepay at a rate materially different than anticipated. We do this by structuring a diversified portfolio with a variety of prepayment characteristics, investing in mortgage assets or structures with prepayment protections and purchasing mortgage assets at a premium and at a discount. We may choose to engage in various hedging activities designed to mitigate our exposure to changes in interest rates and prepayment rates. As of the date of this prospectus, we have made only limited use of hedging transactions.

We review credit risk and other risks of loss associated with each potential investment and may diversify our portfolio to avoid undue geographic, insurer, industry and other types of concentrations. Given the fact that we maintain such a large percentage of our assets in high quality or highly rated assets, many of which include an implied guarantee of the federal government as to payment of principal and interest, we believe we have limited exposure to losses from credit risk.

In addition to the strategies described above, we intend to pursue other strategies to grow our earnings and our dividends per share, which may include the following:

- increasing the size of our balance sheet at a rate faster than the rate of increase in our operating expenses;

- issuing new stock when market opportunities exist to profitably increase the size of our balance sheet through the use of leverage; and

- lowering our effective borrowing costs over time by seeking direct funding with collateralized lenders, rather than using financial intermediaries, possibly using commercial paper, medium term note programs, preferred stock and other forms of capital.

General Information

We were incorporated on October 20, 1997 under Maryland law. Our office is located at 1299 Ocean Avenue, Suite 250, Santa Monica, California 90401. Our telephone number is (310) 255-4493.

Table of Contents

RISK FACTORS

An investment in our stock involves various risks. You should carefully consider the following risk factors in conjunction with the other information contained and incorporated by reference in this prospectus before purchasing our stock. If any of the risks discussed in this prospectus actually occur, our business, financial condition and results of operation could be materially adversely affected. This could cause the market price of our stock to decline and could cause you to lose all or part of your investment.

Risks Related to Our Business

Interest rate mismatches between our adjustable-rate mortgage-backed securities and our borrowings used to fund our purchases of the assets may reduce our income during periods of changing interest rates.

We fund most of our acquisitions of adjustable-rate mortgage-backed securities with borrowings that have interest rates based on indices and repricing terms similar to, but of shorter maturities than, the interest rate indices and repricing terms of our mortgage-backed securities. Accordingly, if short-term interest rates increase, this may adversely affect our profitability.

Most of the mortgage-backed securities we acquire are adjustable-rate securities. This means that their interest rates may vary over time based upon changes in a short-term interest rate index. Therefore, in most cases the interest rate indices and repricing terms of the mortgage-backed securities that we acquire and their funding sources will not be identical, thereby creating an interest rate mismatch between assets and liabilities. While the historical spread between relevant short-term interest rate indices has been relatively stable, there have been periods when the spread between these indices was volatile. During periods of changing interest rates, these mismatches could reduce our net income, dividend yield and the market price of our stock.

The interest rates on our borrowings generally adjust more frequently than the interest rates on our adjustable-rate mortgage-backed securities. Accordingly, in a period of rising interest rates, we could experience a decrease in net income or a net loss because the interest rates on our borrowings adjust faster than the interest rates on our adjustable-rate mortgage-backed securities.

We may experience reduced net interest income from holding fixed-rate investments during periods of rising interest rates.

We generally fund our acquisition of fixed-rate mortgage-backed securities with short-term borrowings. During periods of rising interest rates, our costs associated with borrowings used to fund acquisition of fixed-rate assets are subject to increases while the income we earn from these assets remains substantially fixed. This reduces or could eliminate the net interest spread between the fixed-rate mortgage-backed securities that we purchase and our borrowings used to purchase them, which could lower our net interest income or cause us to suffer a loss.

Increased levels of prepayments from mortgage-backed securities may decrease our net interest income.

Pools of mortgage loans underlie the mortgage-backed securities that we acquire. We generally receive payments from principal payments that are made on these underlying mortgage loans. When borrowers prepay their mortgage loans faster than expected, this results in prepayments that are faster than expected on the mortgage-backed securities. Faster than expected prepayments could adversely affect our profitability, including in the following ways:

We usually purchase mortgage-backed securities that have a higher interest rate than the market interest rate at the time. In exchange for this higher interest rate, we pay a premium over the par value to

Table of Contents

acquire the security. In accordance with accounting rules, we amortize this premium over the term of the mortgage-backed security. If the mortgage-backed security is prepaid in whole or in part prior to its maturity date, however, we must expense the premium that was prepaid at the time of the prepayment.

We anticipate that a substantial portion of our adjustable-rate mortgage-backed securities may bear interest rates that are lower than their fully indexed rates, which are equivalent to the applicable index rate plus a margin. If an adjustable-rate mortgage-backed security is prepaid prior to or soon after the time of adjustment to a fully indexed rate, we will have held that mortgage-backed security while it was less profitable and lost the opportunity to receive interest at the fully indexed rate over the remainder of its expected life.

If we are unable to acquire new mortgage-backed securities similar to the prepaid mortgage-backed securities, our financial condition, results of operation and cash flow would suffer.

Prepayment rates generally increase when interest rates fall and decrease when interest rates rise, but changes in prepayment rates are difficult to predict. Prepayment rates also may be affected by conditions in the housing and financial markets, general economic conditions and the relative interest rates on fixed-rate and adjustable-rate mortgage loans.

While we seek to minimize prepayment risk to the extent practical, in selecting investments we must balance prepayment risk against other risks and the potential returns of each investment. No strategy can completely insulate us from prepayment risk.

We may incur increased borrowing costs related to repurchase agreements and that would adversely affect our profitability.

Currently, all of our borrowings are collateralized borrowings in the form of repurchase agreements. If the interest rates on these repurchase agreements increase, that would adversely affect our profitability.

Our borrowing costs under repurchase agreements generally correspond to short-term interest rates such as LIBOR or a short-term Treasury index, plus or minus a margin. The margins on these borrowings over or under short-term interest rates may vary depending upon:

the movement of interest rates;

the availability of financing in the market; and

the value and liquidity of our mortgage-backed securities.

Interest rate caps on our adjustable-rate mortgage-backed securities may reduce our income or cause us to suffer a loss during periods of rising interest rates.

Our adjustable-rate mortgage-backed securities are typically subject to periodic and lifetime interest rate caps. Periodic interest rate caps limit the amount an interest rate can increase during any given period. Lifetime interest rate caps limit the amount an interest rate can increase through maturity of a mortgage-backed security. Our borrowings are not subject to similar restrictions. Accordingly, in a period of rapidly increasing interest rates, the interest rates paid on our borrowings could increase without limitation while caps would limit the interest rates on our adjustable-rate mortgage-backed securities. This problem is magnified for our adjustable-rate mortgage-backed securities that are not fully indexed. Further, some adjustable-rate mortgage-backed securities may be subject to periodic payment caps that result in a portion of the interest being deferred and added to the principal outstanding. As a result, we could receive less cash income on adjustable-rate mortgage-backed securities than we need to pay interest on our related borrowings. These factors could lower our net interest income or cause us to suffer a net loss during periods of rising interest rates.

Table of Contents

Our leveraging strategy increases the risks of our operations.

We generally borrow between eight and twelve times the amount of our equity, although our borrowings may at times be above or below this amount. We incur this leverage by borrowing against a substantial portion of the market value of our mortgage-backed securities. Use of leverage can enhance our investment returns, but also increases risks. In the following ways, the use of leverage increases our risk of loss and may reduce our net income by increasing the risks associated with other risk factors, including a decline in the market value of our mortgage-backed securities or a default of a mortgage-related asset:

The use of leverage increases our risk of loss resulting from various factors, including rising interest rates, increased interest rate volatility, downturns in the economy, reductions in the availability of financing or deteriorations in the conditions of any of our mortgage-related assets.

A majority of our borrowings are secured by our mortgage-backed securities, generally under repurchase agreements. A decline in the market value of the mortgage-backed securities used to secure these debt obligations could limit our ability to borrow or result in lenders requiring us to pledge additional collateral to secure our borrowings. In that situation, we could be required to sell mortgage-backed securities under adverse market conditions in order to obtain the additional collateral required by the lender. If these sales are made at prices lower than the carrying value of the mortgage-backed securities, we would experience losses.

A default of a mortgage-related asset that constitutes collateral for a loan could also result in an involuntary liquidation of the mortgage-related asset, including any cross-collateralized mortgage-backed securities. This would result in a loss to us of the difference between the value of the mortgage-related asset upon liquidation and the amount borrowed against the mortgage-related asset.

To the extent we are compelled to liquidate qualified REIT assets to repay debts, our compliance with the REIT rules regarding our assets and our sources of income could be negatively affected, which would jeopardize our status as a REIT. Losing our REIT status would cause us to lose tax advantages applicable to REITs and may decrease our overall profitability and distributions to our stockholders.

We have not extensively used derivatives to mitigate our interest rate and prepayment risks and this leaves us exposed to certain risks.

Our policies permit us to enter into interest rate swaps, caps and floors and other derivative transactions to help us reduce our interest rate and prepayment risks described above. We have made only limited use of these types of instruments. We have determined that, generally, the costs of these transactions outweigh their benefits. This strategy saves us the additional costs of such hedging transactions, but it leaves us exposed to the types of risks that such hedging transactions would be designed to reduce. If we decide to enter into derivative transactions in the future, these transactions may mitigate our interest rate and prepayment risks but cannot eliminate these risks. Additionally, the use of derivative transactions could have a negative impact on our earnings.

An increase in interest rates may adversely affect our book value.

Increases in interest rates may negatively affect the market value of our mortgage-related assets. Our fixed-rate securities are generally more negatively affected by these increases. In accordance with accounting rules, we reduce our book value by the amount of any decrease in the market value of our mortgage-related assets.

We may invest in leveraged mortgage derivative securities that generally experience greater volatility in market prices, thus exposing us to greater risk with respect to their rate of return.

We may acquire leveraged mortgage derivative securities that may expose us to a high level of interest rate risk. The characteristics of leveraged mortgage derivative securities result in greater volatility in their market

Table of Contents

prices. Thus, acquisition of leveraged mortgage derivative securities would expose us to the risk of greater price volatility in our portfolio and that could adversely affect our net income and overall profitability.

We depend on borrowings to purchase mortgage-related assets and reach our desired amount of leverage. If we fail to obtain or renew sufficient funding on favorable terms, we will be limited in our ability to acquire mortgage-related assets and our earnings and profitability would decline.

We depend on short-term borrowings to fund acquisitions of mortgage-related assets and reach our desired amount of leverage. Accordingly, our ability to achieve our investment and leverage objectives depends on our ability to borrow money in sufficient amounts and on favorable terms. In addition, we must be able to renew or replace our maturing short-term borrowings on a continuous basis. Moreover, we depend on a few lenders to provide the primary credit facilities for our purchases of mortgage-related assets.

If we cannot renew or replace maturing borrowings, we may have to sell our mortgage-related assets under adverse market conditions and may incur permanent capital losses as a result. Any number of these factors in combination may cause difficulties for us, including a possible liquidation of a major portion of our portfolio at disadvantageous prices with consequent losses, which may render us insolvent.

Possible market developments could cause our lenders to require us to pledge additional assets as collateral. If our assets are insufficient to meet the collateral requirements, then we may be compelled to liquidate particular assets at an inopportune time.

Possible market developments, including a sharp rise in interest rates, a change in prepayment rates or increasing market concern about the value or liquidity of one or more types of mortgage-related assets in which our portfolio is concentrated, may reduce the market value of our portfolio, which may cause our lenders to require additional collateral. This requirement for additional collateral may compel us to liquidate our assets at a disadvantageous time, thus adversely affecting our operating results and net profitability.

Our use of repurchase agreements to borrow funds may give our lenders greater rights in the event that either we or a lender files for bankruptcy.

Our borrowings under repurchase agreements may qualify for special treatment under the bankruptcy code, giving our lenders the ability to avoid the automatic stay provisions of the bankruptcy code and to take possession of and liquidate our collateral under the repurchase agreements without delay in the event that we file for bankruptcy. Furthermore, the special treatment of repurchase agreements under the bankruptcy code may make it difficult for us to recover our pledged assets in the event that a lender files for bankruptcy. Thus, the use of repurchase agreements exposes our pledged assets to risk in the event of a bankruptcy filing by either a lender or us.

Because assets we acquire may experience periods of illiquidity, we may lose profits or be prevented from earning capital gains if we cannot sell mortgage-related assets at an opportune time.

We bear the risk of being unable to dispose of our mortgage-related assets at advantageous times or in a timely manner because mortgage-related assets generally experience periods of illiquidity. The lack of liquidity may result from the absence of a willing buyer or an established market for these assets, as well as legal or contractual restrictions on resale. As a result, the illiquidity of mortgage-related assets may cause us to lose profits or the ability to earn capital gains.

We depend on our key personnel and the loss of any of our key personnel could severely and detrimentally affect our operations.

We depend on the diligence, experience and skill of our officers and other employees for the selection, structuring and monitoring of our mortgage-related assets and associated borrowings. Our key officers include

Table of Contents

Lloyd McAdams, President, Chairman and Chief Executive Officer, Joseph E. McAdams, Executive Vice President and Director, Thad Brown, acting Chief Financial Officer, and Evangelos Karagiannis, Vice President. The loss of any key person could harm our entire business, financial condition, cash flow and results of operations.

Our officers devote a portion of their time to another company in capacities that could create conflicts of interest that may adversely affect our investment opportunities; this lack of a full-time commitment could also adversely affect our operating results.

Lloyd McAdams, Joseph E. McAdams, Evangelos Karagiannis and others are involved in investing both our assets and approximately \$4 billion in mortgage-backed securities and other fixed income assets for institutional clients and individual investors through Pacific Income Advisers, Inc., or PIA. A trust controlled by Lloyd McAdams and Heather U. Baines is the principal stockholder of PIA. These multiple responsibilities may create conflicts of interest if these officers are presented with opportunities that may benefit both us and the clients of PIA. These officers allocate investments among our portfolio and the clients of PIA by determining the entity or account for which the investment is most suitable. In making this determination, these officers consider the investment strategy and guidelines of each entity or account with respect to acquisition of assets, leverage, liquidity and other factors that our officers determine appropriate. These officers, however, have no obligation to make any specific investment opportunities available to us and the above mentioned conflicts of interest may result in decisions or allocations of securities that are not in our best interests.

Each of our officers is also an officer and employee of PIA and devotes a portion of their time to PIA. Their service to PIA reduces the time and effort that they can dedicate to managing our company and this may adversely affect our overall management and operating results.

Our board of directors may change our operating policies and strategies without prior notice or stockholder approval and such changes could harm our business, results of operation and stock price.

Our board of directors can modify or waive our current operating policies and our strategies without prior notice and without stockholder approval. We cannot predict the effect any changes to our current operating policies and strategies may have on our business, operating results and stock price, however, the effects may be adverse.

Competition may prevent us from acquiring mortgage-related assets at favorable yields and that would negatively impact our profitability.

Our net income largely depends on our ability to acquire mortgage-related assets at favorable spreads over our borrowing costs. In acquiring mortgage-related assets, we compete with other REITs, investment banking firms, savings and loan associations, banks, insurance companies, mutual funds, other lenders and other entities that purchase mortgage-related assets, many of which have greater financial resources than us. As a result we may not in the future be able to acquire sufficient mortgage-related assets at favorable spreads over our borrowing costs. If that occurs, our profitability will be harmed.

Our investment policy involves risks associated with the credit quality of our investments. If the credit quality of our investments declines or if there are defaults on the investments we make, our profitability may decline and we may suffer losses.

Our mortgage-backed securities have primarily been agency certificates that, although not rated, carry an implied AAA rating. Agency certificates are mortgage-backed securities where either Freddie Mac or Fannie Mae guarantees payments of principal or interest on the certificates. Our capital investment policy, however, provides us with the ability to acquire a material amount of lower credit quality mortgage-backed securities. If we acquire mortgage-backed securities of lower credit quality, our profitability may decline and we

Table of Contents

may incur losses if there are defaults on the mortgages backing those securities or if the rating agencies downgrade the credit quality of those securities or the securities of Fannie Mae and Freddie Mac.

Our earnings per share may decrease now that we have become internally managed.

In June 2002, we merged with our former manager to become an internally managed company. We cannot assure you that the cost savings we anticipate from no longer paying base and incentive management fees to our former manager will offset the additional expenses that we will incur as an internally managed REIT. These additional expenses include all of the salaries, incentive compensation and benefits of our executive officers and the other employees we need to operate as an internally managed company. Even if our earnings are not adversely affected, our earnings per share may decrease because we issued 240,000 shares of our common stock as merger consideration.

The merger with our former manager may cause us to lose our REIT status for tax purposes.

In order to maintain our status as a REIT for federal income tax purposes, we are not permitted to have current or accumulated earnings and profits carried over from our former manager. If the IRS successfully asserts that we acquired current or accumulated earnings and profits from our former manager and failed to distribute, during the taxable year in which the merger occurred, all of such earnings and profits, we would lose our REIT qualification for the year of the merger, as well as any other taxable years during which we held such acquired earnings and profits, unless, in the year of such determination, we make an additional distribution of the amount of earnings and profits determined to be acquired from our former manager. In order to make such an additional distribution, we could be required to borrow funds or sell assets even if prevailing market conditions were not generally favorable. For any taxable year that we fail to qualify as a REIT, we would not be entitled to a deduction for dividends paid to our stockholders in calculating our taxable income. Consequently, our net assets and distributions to our stockholders would be substantially reduced because of our increased tax liability. Furthermore, to the extent that distributions had been made in anticipation of our qualification as a REIT, we might also be required to borrow additional funds or to liquidate certain of our investments in order to pay the applicable tax on our income.

Risks Related to REIT Compliance and Other Matters

If we are disqualified as a REIT, we will be subject to tax as a regular corporation and face substantial tax liability.

We believe that since our initial public offering in 1998 we have operated so as to qualify as a REIT under the Internal Revenue Code of 1986, as amended (the Code), and we intend to continue to meet the requirements for taxation as a REIT. Nevertheless, we may not remain qualified as a REIT in the future. Qualification as a REIT involves the application of highly technical and complex Code provisions for which only a limited number of judicial or administrative interpretations exist. Even a technical or inadvertent mistake could jeopardize our REIT status.

Furthermore, Congress or the IRS might change tax laws or regulations and the courts might issue new rulings, in each case potentially having retroactive effect, that could make it more difficult or impossible for us to qualify as a REIT. If we fail to qualify as a REIT in any tax year, then:

we would be taxed as a regular domestic corporation, which, among other things, means being unable to deduct distributions to stockholders in computing taxable income and being subject to federal income tax on our taxable income at regular corporate rates;

any resulting tax liability could be substantial and would reduce the amount of cash available for distribution to stockholders; and

unless we were entitled to relief under applicable statutory provisions, we would be disqualified from treatment as a REIT for the subsequent four taxable years following the year during which we lost our qualification, and thus, our cash available for distribution to stockholders would be reduced for each of the years during which we do not qualify as a REIT.

Table of Contents

Complying with REIT requirements may cause us to forego otherwise attractive opportunities.

In order to qualify as a REIT for federal income tax purposes, we must continually satisfy tests concerning, among other things, our sources of income, the nature and diversification of our mortgage-backed securities, the amounts we distribute to our stockholders and the ownership of our stock. We may also be required to make distributions to stockholders at disadvantageous times or when we do not have funds readily available for distribution. Thus, compliance with REIT requirements may hinder our ability to operate solely on the basis of maximizing profits.

Complying with REIT requirements may limit our ability to hedge effectively.

The REIT provisions of the Code may substantially limit our ability to hedge mortgage-backed securities and related borrowings by requiring us to limit our income in each year from qualified hedges, together with any other income not generated from qualified REIT real estate assets, to less than 25% of our gross income. In addition, we must limit our aggregate income from hedging and services from all sources, other than from qualified REIT real estate assets or qualified hedges, to less than 5% of our annual gross income. As a result, although we do not currently engage in hedging transactions, we may in the future have to limit our use of advantageous hedging techniques. This could result in greater risks associated with changes in interest rates than we would otherwise want to incur. If we were to violate the 25% or 5% limitations, we may have to pay a penalty tax equal to the amount of income in excess of those limitations, multiplied by a fraction intended to reflect our profitability. If we fail to satisfy the 25% and 5% limitations, unless our failure was due to reasonable cause and not due to willful neglect, we could lose our REIT status for federal income tax purposes.

Complying with REIT requirements may force us to liquidate otherwise attractive investments.

In order to qualify as a REIT, we must also ensure that at the end of each calendar quarter at least 75% of the value of our assets consists of cash, cash items, government securities and qualified REIT real estate assets. The remainder of our investment in securities generally cannot include more than 10% of the outstanding voting securities of any one issuer or more than 10% of the total value of the outstanding securities of any one issuer. In addition, in general, no more than 5% of the value of our assets can consist of the securities of any one issuer. If we fail to comply with these requirements, we must dispose of a portion of our assets within 30 days after the end of the calendar quarter in order to avoid losing our REIT status and suffering adverse tax consequences.

Complying with REIT requirements may force us to borrow to make distributions to stockholders.

As a REIT, we must distribute 90% of our annual taxable income (subject to certain adjustments) to our stockholders. From time to time, we may generate taxable income greater than our net income for financial reporting purposes from, among other things, amortization of capitalized purchase premiums, or our taxable income may be greater than our cash flow available for distribution to stockholders. For example, our taxable income would exceed our net income for financial reporting purposes to the extent that compensation paid to our chief executive officer and our other four highest paid officers exceeds \$1,000,000 for any such officer for any calendar year under Section 162(m) of the Code. Since payments under our 2002 Incentive Compensation Plan do not qualify as performance-based compensation under Section 162(m), a portion of the payments made under such plan to certain of such officers would not be deductible for federal income tax purposes under such circumstances. If we do not have other funds available in these situations, we may be unable to distribute substantially all of our taxable income as required by the REIT provisions of the Code. Thus, we could be required to borrow funds, sell a portion of our mortgage-backed securities at disadvantageous prices or find another alternative source of funds. These alternatives could increase our costs or reduce our equity.

Table of Contents

Failure to maintain an exemption from the Investment Company Act would adversely affect our results of operations.

We believe that we conduct our business in a manner that allows us to avoid being regulated as an investment company under the Investment Company Act of 1940, as amended. If we fail to continue to qualify for an exemption from registration as an investment company, our ability to use leverage would be substantially reduced and we would be unable to conduct our business as planned. The Investment Company Act exempts entities that are primarily engaged in the business of purchasing or otherwise acquiring mortgages and other liens on and interests in real estate. Under the SEC's current interpretation, qualification for this exemption generally requires us to maintain at least 55% of our assets directly in qualifying real estate interests. Mortgage-backed securities that do not represent all the certificates issued with respect to an underlying pool of mortgages may be treated as securities separate from the underlying mortgage loans and thus may not qualify for purposes of the 55% requirement. Therefore, our ownership of these mortgage-backed securities is limited by the Investment Company Act. In meeting the 55% requirement under the Investment Company Act, we treat as qualifying interests mortgage-backed securities issued with respect to an underlying pool for which we hold all issued certificates. If the SEC or its staff adopts a contrary interpretation, we could be required to sell a substantial amount of our mortgage-backed securities under potentially adverse market conditions. Further, in order to maintain our exemption from registration as an investment company, we may be precluded from acquiring mortgage-backed securities whose yield is somewhat higher than the yield on mortgage-backed securities that could be purchased in a manner consistent with the exemption.

Additional Risk Factors

We may not be able to use the money we raise to acquire investments at favorable prices.

We intend to seek to raise additional capital from time to time if we determine that it is in our best interests and the best interests of our stockholders, including through public offerings of our stock. The net proceeds of any offering could represent a significant increase in our equity. Depending on the amount of leverage that we use, the full investment of the net proceeds of any offering might result in a substantial increase in our total assets. There can be no assurance that we will be able to invest all of such additional funds in mortgage-backed securities at favorable prices. We may not be able to acquire enough mortgage-backed securities to become fully invested after an offering, or we may have to pay more for mortgage-backed securities than we have historically. In either case, the return that we earn on stockholders' equity may be reduced.

We have not established a minimum dividend payment level and there are no assurances of our ability to pay dividends in the future.

We intend to pay quarterly dividends and to make distributions to our stockholders in amounts such that all or substantially all of our taxable income in each year, subject to certain adjustments, is distributed. This, along with other factors, should enable us to qualify for the tax benefits accorded to a REIT under the Code. We have not established a minimum dividend payment level and our ability to pay dividends may be adversely affected by the risk factors described in this prospectus. All distributions will be made at the discretion of our board of directors and will depend on our earnings, our financial condition, maintenance of our REIT status and such other factors as our board of directors may deem relevant from time to time. There are no assurances of our ability to pay dividends in the future.

If we raise additional capital, our earnings per share and dividends per share may decline since we may not be able to invest all of the new capital during the quarter in which additional shares are sold and possibly the entire following calendar quarter.

Table of Contents

We may incur excess inclusion income that would increase the tax liability of our stockholders.

In general, dividend income that a tax-exempt entity receives from us should not constitute unrelated business taxable income as defined in Section 512 of the Code. If we were to realize excess inclusion income and allocate it to stockholders, this income could not be offset by net operating losses. If the stockholder were a tax-exempt entity, then this income would be fully taxable as unrelated business taxable income under Section 512 of the Code. If the stockholder were foreign, then it would be subject to federal income tax withholding on this income without reduction pursuant to any otherwise applicable income-tax treaty.

Excess inclusion income could result if we held a residual interest in a REMIC. Excess inclusion income also would be generated if we were to issue debt obligations with two or more maturities and the terms of the payments on these obligations bore a relationship to the payments that we received on our mortgage-backed securities securing those debt obligations. We generally structure our borrowing arrangements in a manner designed to avoid generating significant amounts of excess inclusion income. We do, however, enter into various repurchase agreements that have differing maturity dates and afford the lender the right to sell any pledged mortgage securities if we default on our obligations. The IRS may determine that these borrowings give rise to excess inclusion income that should be allocated among stockholders. Furthermore, some types of tax-exempt entities, including, without limitation, voluntary employee benefit associations and entities that have borrowed funds to acquire their shares of our common stock, may be required to treat a portion of or all of the dividends they may receive from us as unrelated business taxable income. We also invest in equity securities of other REITs. If we were to receive excess inclusion income from another REIT, we may be required to distribute the excess inclusion income to our stockholders, which may result in the recognition of unrelated business taxable income.

Our charter does not permit ownership of over 9.8% of our common or preferred stock and attempts to acquire our common or preferred stock in excess of the 9.8% limit are void without prior approval from our board of directors.

For the purpose of preserving our REIT qualification and for other reasons, our charter prohibits direct or constructive ownership by any person of more than 9.8% of the lesser of the total number or value of the outstanding shares of our common stock or more than 9.8% of the outstanding shares of our preferred stock. Our charter's constructive ownership rules are complex and may cause the outstanding stock owned by a group of related individuals or entities to be deemed to be constructively owned by one individual or entity. As a result, the acquisition of less than 9.8% of the outstanding stock by an individual or entity could cause that individual or entity to own constructively in excess of 9.8% of the outstanding stock and thus to be subject to our charter's ownership limit. Any attempt to own or transfer shares of our common or preferred stock in excess of the ownership limit without the consent of the board of directors shall be void, and will result in the shares being transferred by operation of law to a charitable trust. Our board of directors has granted Lloyd McAdams, our President, Chairman and Chief Executive Officer, and his family members an exemption from the 9.8% ownership limitation set forth in our charter documents. This exemption permits Lloyd McAdams, Heather U. Baines and Joseph E. McAdams collectively to hold up to 19% of our outstanding shares.

Because provisions contained in Maryland law, our charter and our bylaws may have an anti-takeover effect, investors may be prevented from receiving a control premium for their shares.

Provisions contained in our charter and bylaws, as well as Maryland corporate law, may have anti-takeover effects that delay, defer or prevent a takeover attempt, which may prevent stockholders from receiving a control premium for their shares. For example, these provisions may defer or prevent tender offers for our common stock or purchases of large blocks of our common stock, thereby limiting the opportunities for our stockholders to receive a premium for their common stock over then-prevailing market prices. These provisions include the following:

Ownership limit. The ownership limit in our charter limits related investors, including, among other things, any voting group, from acquiring over 9.8% of our common stock without our permission.

Table of Contents

Preferred stock. Our charter authorizes our board of directors to issue preferred stock in one or more classes and to establish the preferences and rights of any class of preferred stock issued. These actions can be taken without soliciting stockholder approval.

Maryland business combination statute. Maryland law restricts the ability of holders of more than 10% of the voting power of a corporation's shares to engage in a business combination with the corporation. See page 18 for a description of these provisions.

Maryland control share acquisition statute. Maryland law limits the voting rights of control shares of a corporation in the event of a control share acquisition. See page 19 for a description of these provisions.

Issuances of large amounts of our stock could cause the price of our stock to decline.

This prospectus may be used for the issuance of additional shares of common stock or shares of preferred stock that are convertible into common stock. If we issue a significant number of shares of common stock or convertible preferred stock in a short period of time, there could be a dilution of the existing common stock and a decrease in the market price of the common stock.

Future offerings of debt securities, which would be senior to our common stock upon liquidation, or equity securities, which would dilute our existing stockholders and may be senior to our common stock for the purposes of dividend distributions, may adversely affect the market price of our common stock.

In the future, we may attempt to increase our capital resources by making additional offerings of debt or equity securities, including commercial paper, medium-term notes, senior or subordinated notes and classes of preferred stock or common stock. Upon liquidation, holders of our debt securities and shares of preferred stock, if issued, and lenders with respect to other borrowings will receive a distribution of our available assets prior to the holders of our common stock. Our preferred stock, if issued, may have a preference on dividend payments that could limit our ability to make a dividend distribution to the holders of our common stock. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus, our stockholders bear the risk of our future offerings reducing the market price of our common stock.

Table of Contents

FORWARD-LOOKING STATEMENTS

This prospectus contains or incorporates by reference certain forward-looking statements. Forward-looking statements are those that predict or describe future events or trends and that do not relate solely to historical matters. You can generally identify forward-looking statements as statements containing the words will, believe, expect, anticipate, intend, estimate, assume or other similar expressions. You should not rely on our forward-looking statements because the matters they describe are subject to known and unknown risks, uncertainties and other unpredictable factors, many of which are beyond our control. Statements regarding the following subjects are forward-looking by their nature:

- our business strategy;
- market trends and risks;
- assumptions regarding interest rates; and
- assumptions regarding prepayment rates on the mortgage loans securing our mortgage-backed securities.

These forward-looking statements are subject to various risks and uncertainties, including those relating to:

- increases in the prepayment rates on the mortgage loans securing our mortgage-backed securities;
- our ability to use borrowings to finance our assets;
- risks associated with investing in mortgage-related assets, including changes in business conditions and the general economy;
- our ability to maintain our qualification as a real estate investment trust for federal income tax purposes; and
- management's ability to manage our growth and planned expansion.

Other risks, uncertainties and factors, including those discussed under "Risk Factors" in this prospectus or described in reports that we file from time to time with the Securities and Exchange Commission, such as our quarterly and annual reports, could cause our actual results to differ materially from those projected in any forward-looking statements we make. We are not obligated to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Table of Contents**USE OF PROCEEDS**

Unless otherwise indicated in an accompanying prospectus supplement, we intend to use the net proceeds from the sale of the securities offered by this prospectus and the related accompanying prospectus supplement for the purchase of mortgage-backed securities. We then intend to increase our investment assets by borrowing against these mortgage-backed securities and using the proceeds to acquire additional mortgage-backed securities.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our ratios of earnings to fixed charges for the periods shown:

	For the Nine Months Ended September 30, 2002	For the Year Ended December 31, 2001	For the Year Ended December 31, 2000	For the Year Ended December 31, 1999	March 17, 1998 (commencement of operations) through December 31, 1998
Ratio	2.07	1.58	1.15	1.15	1.12

The ratios of earnings to fixed charges were computed by dividing earnings as adjusted by fixed charges. For this purpose, earnings consist of net income from continuing operations and fixed charges. Fixed charges consist of interest expense. To date, we have not issued any preferred stock.

DESCRIPTION OF SECURITIES

The description of our capital stock set forth below does not purport to be complete and is qualified in its entirety by reference to our charter, as amended and restated, and our bylaws, copies of which are exhibits to the registration statement of which this prospectus is a part.

General

Our authorized capital stock consists of 100 million shares of common stock, \$0.01 par value, and 20 million shares of preferred stock, \$0.01 par value, issuable in one or more series. Each share of common stock is entitled to participate equally in dividends when and as declared by our board of directors and in the distribution of our assets upon liquidation. Each share of common stock is entitled to one vote and will be fully paid and non-assessable by us upon issuance. Shares of our common stock have no preference, conversion, exchange, preemptive, or cumulative voting rights. Our authorized capital stock may be increased and altered from time to time as permitted by Maryland law.

Common Stock

All shares of common stock offered hereby will be duly authorized, fully paid and nonassessable. The statements below describing the common stock are in all respects subject to and qualified in their entirety by reference to our articles of incorporation, by-laws and any articles supplementary to our articles of incorporation.

Voting

Each of our common stockholders is entitled to one vote for each share held of record on each matter submitted to a vote of common stockholders. Meetings of our stockholders are to be held annually and special meetings may be called by a majority of our board of directors, our Chairman of the board or our President. Special meetings shall be called by the Secretary at the written request of our stockholders entitled to cast at least a majority of all the votes entitled to be cast at the meeting. Our charter reserves to us the right to amend any provision thereof in the manner prescribed by law.

Table of Contents

Dividends; Liquidation; Other Rights

Common stockholders are entitled to receive dividends when declared by our Board of Directors out of legally available funds. The right of common stockholders to receive dividends is subordinate to the rights of preferred stockholders or other senior stockholders. If we have a liquidation, dissolution or winding up, our common stockholders will share ratably in all of our assets remaining after the payment of all of our liabilities and the payment of all liquidation and other preference amounts to preferred stockholders and other senior stockholders. Common stockholders have no preemptive or other subscription rights, and there are no conversion rights, or redemption or sinking fund provisions, relating to the shares of common stock.

Classification Or Reclassification Of Common Stock Or Preferred Stock

Our articles of incorporation authorize our Board of Directors to reclassify any unissued shares of common or preferred stock into other classes or series of shares, to establish the number of shares in each class or series and to set the preferences, conversion and other rights, voting powers, restrictions, limitations, and restrictions on ownership, limitations as to dividends or other distributions, qualifications, and terms or conditions of redemption for each class or series.

Preferred Stock

The following description sets forth general terms and provisions of the preferred stock to which any prospectus supplement may relate. The statements below describing the preferred stock are in all respects subject to and qualified in their entirety by reference to our articles of incorporation, by-laws and any articles supplementary to our articles of incorporation designating terms of a series of preferred stock. The preferred stock, when issued, will be validly issued, fully paid, and non-assessable. Because our Board of Directors has the power to establish the preferences, powers and rights of each series of preferred stock, our Board of Directors may afford the holders of any series of preferred stock preferences, powers and rights, voting or otherwise, senior to the rights of common stockholders.

The rights, preferences, privileges and restrictions of each series of preferred stock will be fixed by the articles supplementary relating to the series. A prospectus supplement, relating to each series, will specify the terms of the preferred stock, as follows:

- the title and stated value of the preferred stock;
- the voting rights of the preferred stock, if applicable;
- the preemptive rights of the preferred stock, if applicable;
- the restrictions on transfer of the preferred stock, if applicable;
- the number of shares offered, the liquidation preference per share and the offering price of the shares;
- liability to further calls or assessment of the preferred stock, if applicable;
- the dividend rate(s), period(s) and payment date(s) or method(s) of calculation applicable to the preferred stock;
- the date from which dividends on the preferred stock will accumulate, if applicable;
- the procedures for any auction and remarketing for the preferred stock;
- the provision for a sinking fund, if any, for the preferred stock;
- the provision for and any restriction on redemption, if applicable, of the preferred stock;
- the provision for and any restriction on repurchase, if applicable, of the preferred stock;

Table of Contents

any listing of the preferred stock on any securities exchange;

the terms and provisions, if any, upon which the preferred stock will be convertible into common stock, including the conversion price (or manner of calculation) and conversion period;

the terms under which the rights of the preferred stock may be modified, if applicable;

any other specific terms, preferences, rights, limitations or restrictions of the preferred stock;

a discussion of certain material federal income tax considerations applicable to the preferred stock;

the relative ranking and preferences of the preferred stock as to dividend rights and rights upon the liquidation, dissolution or winding-up of our affairs;

any limitation on issuance of any series of preferred stock ranking senior to or on a parity with the series of preferred stock as to dividend rights and rights upon the liquidation, dissolution or winding-up of our affairs; and

any limitations on direct or beneficial ownership and restrictions on transfer of the preferred stock, in each case as may be appropriate to preserve our status as REIT.

Restrictions on Transfer

Two of the requirements of qualification for the tax benefits accorded by the REIT provisions of the Code are that (1) during the last half of each taxable year not more than 50% in value of the outstanding shares may be owned directly or indirectly by five or fewer individuals, and (2) there must be at least 100 stockholders on 335 days of each taxable year of 12 months.

In order that we may meet these requirements at all times, our charter prohibits any person from owning, acquiring or holding, directly or indirectly, without prior approval by our board of directors, shares of any class of our capital stock in excess of 9.8% in value of the aggregate of the outstanding shares of capital stock or shares of our common stock in excess of 9.8% (in value or in number of shares, whichever is more restrictive) of the aggregate of the outstanding shares of our common stock. For this purpose, ownership includes both beneficial ownership and constructive ownership. Beneficial ownership is defined in our charter to include interests that would be treated as owned through the application of Section 544 of the Code, as modified by Section 856(h)(1)(B) of the tax code. Constructive ownership is defined in our charter to include interests that would be treated as owned through the application of Section 318(a) of the Code, as modified by Section 856(d)(5) of the tax code. Subject to certain limitations, our board of directors may increase or decrease the ownership limitations or waive the limitations for individual investors.

For purposes of the 50% stockholder test discussed above, the constructive ownership provisions applicable under Section 544 of the Code attribute ownership of securities owned by a corporation, partnership, estate or trust proportionately to its stockholders, partners or beneficiaries, attribute ownership of securities owned by family members to other members of the same family, treat securities with respect to which a person has an option to purchase as actually owned by that person, and set forth rules for application of such attribution provisions (e.g., reattribution of stock that is constructively owned). Thus, for purposes of determining whether a person holds shares of capital stock in violation of the ownership limitations set forth in our charter, many types of entities may own directly more than the 9.8% limit because such entities' shares are attributed to its individual stockholders. On the other hand, a person will be treated as owning not only shares of capital stock actually or beneficially owned, but also any shares of capital stock attributed to such person under the attribution rules described above. Accordingly, under certain circumstances, shares of capital stock owned by a person who individually owns less than 9.8% of the shares outstanding may nevertheless be in violation of the ownership limitations set forth in our charter. Ownership of shares of capital stock through such attribution is generally referred to as constructive ownership.

Table of Contents

If any transfer of shares of capital stock would result in any person beneficially or constructively owning capital stock in violation of our transfer or ownership limitations, then the number of shares of capital stock causing the violation (rounded to the nearest whole shares) shall be automatically transferred to a trustee of a trust for the exclusive benefit of one or more charitable beneficiaries. The intended transferee shall not acquire any rights in such shares. Shares of capital stock held by the trustee shall be issued and outstanding shares of capital stock. The intended transferee shall not benefit economically from ownership of any shares held in the trust, shall have no rights to dividends, and shall not possess any rights to vote or other rights attributable to the shares held in the trust. The trustee shall have all voting rights and rights to dividends or other distributions with respect to shares held in the trust, which rights shall be exercised for the exclusive benefit of the charitable beneficiary. Any dividend or other distribution paid to the intended transferee prior to the discovery by us that shares of capital stock have been transferred to the trustee shall be paid with respect to such shares to the trustee by the intended transferee upon demand and any dividend or other distribution authorized but unpaid shall be paid when due to the trustee. Our board of directors may, in its discretion, waive these requirements on owning shares in excess of the ownership limitations.

Within 20 days of receiving notice from us that shares of capital stock have been transferred to the trust, the trustee shall sell the shares held in the trust to a person, designated by the trustee, whose ownership of the shares will not violate the ownership limitations set forth in our charter. Upon such sale, the interest of the charitable beneficiary in the shares sold shall terminate and the trustee shall distribute the net proceeds of the sale to the intended transferee and to the charitable beneficiary as follows. The intended transferee shall receive the lesser of (1) the price paid by the intended transferee for the shares or, if the intended transferee did not give value for the shares in connection with the event causing the shares to be held in the trust (e.g., in the case of a gift, devise or other such transaction), the market price (as defined below) of the shares on the day of the event causing the shares to be held in the trust, and (2) the price per share received by the trustee from the sale or other disposition of the shares held in the trust. Any net sales proceeds in excess of the amount payable to the intended transferee shall be immediately paid to the charitable beneficiary. In addition, shares of capital stock transferred to the trustee shall be deemed to have been offered for sale to us, or our designee. This offer shall be at a price per share equal to the lesser of (1) the price per share in the transaction that resulted in such transfer to the trust (or, in the case of a devise or gift, the market price at the time of such devise or gift), and (2) the market price on the date we, or our designee, accepts such offer. We shall have the right to accept such offer until the trustee has sold shares held in the trust. Upon such a sale to us, the interest of the charitable beneficiary in the shares sold shall terminate and the trustee shall distribute the net proceeds of the sale to the intended transferee.

The market price shall mean the last sale price for such shares. In case no such sale takes place on such day, the market price shall be the average of the closing bid and asked prices on the American Stock Exchange. In the event that no trading price is available for such shares, the fair market value of the shares shall be as determined in good faith by our board of directors.

Under the REIT provisions of the Code, every owner of 5% or more in the case of 2,000 or more stockholders of record, of 1% or more in the case of more than 200 but fewer than 2,000 stockholders of record and of 0.5% or more in the case of 200 or fewer stockholders of record, of all classes or series of our stock, is required to give written notice to us in response to our written demand for such notice, which request must be made within 30 days after the end of each taxable year. They shall state their name and address, the number of shares of each class and series of our stock beneficially owned and a description of the manner in which such shares are held. Each such owner shall provide to us such additional information as we may request in order to determine the effect, if any, of such beneficial ownership on our status as a REIT and to ensure compliance with the ownership limitations.

Removal of Directors

Our charter provides that a director may be removed from office at any time for cause but only by the affirmative vote of the holders of at least two-thirds of the votes of the shares entitled to be cast in the election of directors.

Table of Contents

Indemnification

As permitted by Maryland law, our charter obligates us to indemnify our present and former directors and officers to the maximum extent permitted by Maryland law. Maryland law permits a corporation to indemnify its present and former directors and officers, among others, against judgments, penalties, fines, settlements and reasonable expenses actually incurred by them in connection with any proceeding to which they may be made a party by reason of their service in those or other capacities, unless it is established that:

the act or omission of the director or officer was material to the matter giving rise to such proceeding and was committed in bad faith or was the result of active and deliberate dishonesty;

the director or officer actually received an improper personal benefit in money, property or services;

in the case of any criminal proceeding, the director or officer had reasonable cause to believe that the act or omission was unlawful; or

the proceeding, other than a proceeding brought to enforce indemnification, is brought by the director or officer against us.

Limitation of Liability

As permitted by Maryland law, our charter limits the liability of our directors and officers to us and our stockholders for money damages, except to the extent that:

the person actually received an improper benefit or profit in money, property or services; or

a judgment or other final adjudication is entered in a proceeding based on a finding that the person's action, or failure to act, was the result of active and deliberate dishonesty and was material to the cause of action adjudicated in the proceeding.

As a result of these provisions, we and our stockholders may be unable to obtain monetary damages from a director or officer for breach of his or her duty of care.

Maryland Business Combination Act

Maryland law prohibits specified business combinations between a Maryland corporation and an interested stockholder. These business combinations include a merger, consolidation, share exchange, an asset transfer or issuance or reclassification of equity securities. Interested stockholders are either:

anyone who beneficially owns 10% or more of the voting power of the corporation's shares; or

an affiliate or associate of the corporation who was an interested stockholder or an affiliate or an associate of the interested stockholder at any time within the two-year period prior to the date in question.

Business combinations with a past interested stockholder are prohibited for five years after the most recent date on which the stockholder became an interested stockholder. Thereafter, any business combinations with the interested stockholder must be recommended by the board of directors of the corporation and approved by the vote of:

at least 80% of the votes entitled to be cast by all holders of voting shares of the corporation's voting shares; and

at least 66²/₃% of the votes entitled to be cast by all holders of the corporation's voting other than voting shares held by the interested stockholder or an affiliate or associate of the interested stockholder.

However, these special voting requirements do not apply if the corporation's stockholders receive a minimum price for their shares, as specified in the statute, and the consideration is received in cash or in the same form previously paid by the interested stockholder for its shares.

Table of Contents

This business combination statute does not apply to business combinations that are approved or exempted by the corporation's board of directors prior to the time that the interested stockholder becomes an interested stockholder. The statute also does not apply to stockholders that acquired 10% or more of the corporation's voting shares in a transaction approved by the corporation's board of directors. A Maryland corporation may adopt an amendment to its charter electing not to be subject to these special voting requirements. Any amendment would have to be approved by at least 80% of the votes entitled to be cast by all holders of outstanding shares of voting stock and 66²/₃% of the votes entitled to be cast by holders of outstanding shares of voting stock who are not interested stockholders.

The business combination statute could have the effect of discouraging offers to acquire us and of increasing the difficulty of consummating such offers, even if our acquisition would be in our stockholders' best interests.

Maryland Control Share Acquisition Act

Maryland law provides that control shares of a Maryland corporation acquired in a control share acquisition have no voting rights unless approved by a vote of two-thirds of the votes entitled to be cast on the matter, excluding shares owned by the acquirer or by the corporation's officers or directors who are employees of the corporation. Control shares are shares of voting stock which, if aggregated with all other shares of stock previously acquired, would entitle the acquirer to exercise voting power in electing directors within one of the following ranges of voting power:

10% or more but less than 33¹/₃%;

33¹/₃% or more but less than a majority; or

a majority of all voting power.

Control shares do not include shares of stock an acquiring person is entitled to vote as a result of having previously obtained stockholder approval. A control share acquisition generally means the acquisition of, ownership of or the power to direct the exercise of voting power with respect to, control shares.

A person who has made or proposes to make a control share acquisition, under specified conditions, including an undertaking to pay expenses, may require the board of directors to call a special stockholders' meeting to consider the voting rights of the shares. The meeting must be held within 50 days of the demand. If no request for a meeting is made, the corporation may itself present the question at any stockholders' meeting.

If voting rights are not approved at the meeting or if the acquiring person does not deliver an acquiring person statement as permitted by the statute, the corporation generally may redeem any or all of the control shares, except those for which voting rights have previously been approved. This redemption of shares must be for fair value, determined without regard to voting rights as of the date of the last control share acquisition or of any stockholders' meeting at which the voting rights of the shares are considered and not approved. If voting rights for control shares are approved at a stockholders' meeting and the acquirer becomes entitled to vote a majority of the shares entitled to vote, all other stockholders may exercise appraisal rights. The fair value of the stock determined for purposes of appraisal rights may not be less than the highest price per share paid in the control share acquisition. The limitations and restrictions otherwise applicable to the exercise of dissenters rights do not apply in the context of a control share acquisition.

The control share acquisition statute would not apply to stock acquired in a merger, consolidation or share exchange if we were a party to the transaction, or to acquisitions previously approved or exempted by a provision in our charter or bylaws.

Presently our bylaws contain a provision exempting from the control share acquisition statute any and all acquisitions by any person of our common stock. However, our board of directors may decide to amend or eliminate this provision at any time in the future.

Table of Contents

Amendment to Our Charter

We reserve the right from time to time to make any amendment to our charter including any amendment that alters the contract rights as expressly set forth in our charter of any shares of outstanding stock, subject to certain limitations. Our charter may be amended only by the affirmative vote of holders of shares entitled to cast not less than a majority of all the votes entitled to be cast on the matter. The provisions in our charter on removal of directors may be amended only by the affirmative vote of holders of shares entitled to cast not less than two-thirds of all the votes entitled to be cast in the election of directors.

CERTAIN FEDERAL INCOME TAX CONSIDERATIONS

Based on various factual representations made by us regarding our operations, in the opinion of Allen Matkins Leck Gamble & Mallory LLP, our counsel, commencing with our taxable year ended December 31, 1998, we have been organized in conformity with the requirements for qualification as a REIT under the Code, and our method of operating has enabled us, and will enable us, to meet the requirements for qualification and taxation as a REIT. Our qualification as a REIT depends upon our ability to meet the various requirements imposed under the Code through actual operations. Allen Matkins will not review our operations, and no assurance can be given that actual operations will meet these requirements. The opinion of Allen Matkins is not binding on the Internal Revenue Service (the IRS) or any court. The opinion of Allen Matkins is based upon existing law, Treasury regulations and currently published administrative positions of the IRS and judicial decisions, all of which are subject to change either prospectively or retroactively.

The following discussion summarizes particular United States federal income tax considerations regarding our qualification and taxation as a REIT and particular United States federal income tax consequences resulting from the acquisition, ownership and disposition of our capital stock. This discussion is based on current law and assumes that we have qualified at all times throughout our existence, and will continue to qualify, as a REIT for United States federal income tax purposes. The tax law upon which this discussion is based could be changed, and any such change could have retroactive effect. The following discussion is not exhaustive of all possible tax considerations. This summary neither gives a detailed discussion of any state, local or foreign tax considerations nor discusses all of the aspects of United States federal income taxation that may be relevant to you in light of your particular circumstances or to particular types of stockholders which are subject to special tax rules, such as insurance companies, tax-exempt entities, financial institutions or broker-dealers, foreign corporations or partnerships, and persons who are not citizens or residents of the United States, stockholders that hold our stock as a hedge, part of a straddle, conversion transaction or other arrangement involving more than one position, or stockholders whose functional currency is not the United States dollar. This discussion assumes that you will hold our capital stock as a capital asset, generally property held for investment, under the Code.

You are urged to consult with your own tax advisor regarding the specific consequences to you of the purchase, ownership and sale of stock in an entity electing to be taxed as a REIT, including the federal, state, local, foreign and other tax considerations of such purchase, ownership, sale and election and the potential changes in applicable tax laws.

General

Our qualification and taxation as a REIT depends upon our ability to continue to meet the various qualification tests imposed under the Code and discussed below relating to our actual annual operating results, asset diversification, distribution levels and diversity of stock ownership. Accordingly, the actual results of our operations for any particular taxable year may not satisfy these requirements.

We have made an election to be taxed as a REIT under the Code commencing with our taxable year ended December 31, 1998. We currently expect to continue operating in a manner that will permit us to maintain our qualification as a REIT. All qualification requirements for maintaining our REIT status, however, may not have been or will not continue to be met.

So long as we qualify for taxation as a REIT, we generally will be permitted a deduction for dividends we pay to our stockholders. As a result, we generally will not be required to pay federal corporate income taxes on our net income that is currently distributed to our stockholders. This treatment substantially eliminates the double taxation that ordinarily results from investment in a corporation. Double taxation means taxation once at the corporate level when income is earned and once again at the stockholder level when this income is distributed. We will be required to pay federal income tax, however, as follows:

we will be required to pay tax at regular corporate rates on any undistributed real estate investment trust taxable income, including undistributed net capital gain;

Table of Contents

we may be required to pay the alternative minimum tax on our items of tax preference; and

if we have (a) net income from the sale or other disposition of foreclosure property which is held primarily for sale to customers in the ordinary course of business, or (b) other nonqualifying income from foreclosure property, we will be required to pay tax at the highest corporate rate on this income. Foreclosure property is generally defined as property acquired through foreclosure or after a default on a loan secured by the property or on a lease of the property.

We will be required to pay a 100% tax on any net income from prohibited transactions. Prohibited transactions are, in general, sales or other taxable dispositions of property, other than foreclosure property, held primarily for sale to customers in the ordinary course of business. Under existing law, whether property is held as inventory or primarily for sale to customers in the ordinary course of a trade or business depends on all the facts and circumstances surrounding the particular transaction.

If we fail to satisfy the 75% gross income test or the 95% gross income test discussed below, but nonetheless maintain our qualification as a REIT because certain other requirements are met, we will be subject to a tax equal to:

the greater of (i) the amount by which 75% of our gross income exceeds the amount qualifying under the 75% gross income test described below, and (ii) the amount by which 90% of our gross income exceeds the amount qualifying under the 95% gross income test described below, multiplied by

a fraction intended to reflect our profitability.

We will be required to pay a 4% excise tax on the excess of the required distribution over the amounts actually distributed if we fail to distribute during each calendar year at least the sum of:

85% of our real estate investment trust ordinary income for the year;

95% of our real estate investment trust capital gain net income for the year; and

any undistributed taxable income from prior periods.

This distribution requirement is in addition to, and different from the distribution requirements discussed below in the section entitled Annual Distribution Requirements.

If we acquire any asset from a corporation which is or has been taxed as a C corporation under the Code in a transaction in which the basis of the asset in our hands is determined by reference to the basis of the asset in the hands of the C corporation, and we subsequently recognize gain on the disposition of the asset during the ten-year period beginning on the date on which we acquired the asset, then we will be required to pay tax at the highest regular corporate tax rate on this gain to the extent of the excess of:

the fair market value of the asset, over

our adjusted basis in the asset, in each case determined as of the date on which we acquired the asset.

A C corporation is generally defined as a corporation required to pay full corporate-level tax. The results described in this paragraph with respect to the recognition of gain will apply unless we make an election under Treasury Regulation Section 1.337(d)-7T(c).

Finally, we could be subject to an excise tax if our dealings with any taxable REIT subsidiaries (defined below) are not at arm's length.

Table of Contents

Requirements for Qualification as a REIT

The Code defines a REIT as a corporation, trust or association:

that is managed by one or more trustees or directors;

that issues transferable shares or transferable certificates to evidence beneficial ownership;

that would be taxable as a domestic corporation but for Code Sections 856 through 859;

that is not a financial institution or an insurance company within the meaning of the Code;

that is beneficially owned by 100 or more persons;

not more than 50% in value of the outstanding stock of which is owned, actually or constructively, by five or fewer individuals, including specified entities, during the last half of each taxable year; and

that meets other tests, described below, regarding the nature of its income and assets and the amount of its distributions.

The Code provides that all of the first four conditions stated above must be met during the entire taxable year and that the fifth condition must be met during at least 335 days of a taxable year of twelve months, or during a proportionate part of a taxable year of less than twelve months. The fifth and sixth conditions do not apply until after the first taxable year for which an election is made to be taxed as a REIT.

For purposes of the sixth condition, pension trusts and other specified tax-exempt entities generally are treated as individuals, except that a look-through exception generally applies with respect to pension funds.

Stock Ownership Tests

Our stock must be beneficially held by at least 100 persons, the 100 Stockholder Rule, and no more than 50% of the value of our stock may be owned, directly or indirectly, by five or fewer individuals at any time during the last half of the taxable year, the 5/50 Rule. For purposes of the 100 Stockholder Rule only, trusts described in Section 401(a) of the Code and exempt under Section 501(a) of the Code, are generally treated as persons. These stock ownership requirements must be satisfied in each taxable year other than the first taxable year for which an election is made to be taxed as a REIT. We are required to solicit information from certain of our record stockholders to verify actual stock ownership levels, and our charter provides for restrictions regarding the transfer of our stock in order to aid in meeting the stock ownership requirements. If we were to fail either of the stock ownership tests, we would generally be disqualified from REIT status.

Income Tests

We must satisfy two gross income requirements annually to maintain our qualification as a REIT:

We must derive directly or indirectly at least 75% of our gross income, excluding gross income from prohibited transactions, from specified real estate sources, including rental income, interest on obligations secured by mortgages on real property or on interests in real property, gain from the disposition of qualified real estate assets, i.e., interests in real property, mortgages secured by real property or interests in real property, and some other assets, and income from certain types of temporary investments (the 75% gross income test); and

We must derive at least 95% of our gross income, excluding gross income from prohibited transactions, from (a) the sources of income that satisfy the 75% gross income test, (b) dividends, interest and gain from the sale or disposition of stock or securities, including some interest rate swap and cap agreements, options, futures and forward contracts entered into to hedge variable rate debt incurred to acquire qualified real estate assets, or (c) any combination of the foregoing (the 95% gross income test).

Table of Contents

For purposes of the 75% and 95% gross income tests, a REIT is deemed to have earned a proportionate share of the income earned by any partnership, or any limited liability company treated as a partnership for federal income tax purposes, in which it owns an interest, which share is determined by reference to its capital interest in such entity, and is deemed to have earned the income earned by any qualified REIT subsidiary (in general, a 100% owned corporate subsidiary of a REIT).

Interest earned by a REIT ordinarily does not qualify as income meeting the 75% or 95% gross income tests if the determination of all or some of the amount of interest depends in any way on the income or profits of any person. Interest will not be disqualified from meeting such tests, however, solely by reason of being based on a fixed percentage or percentages of receipts or sales.

If we fail to satisfy one or both of the 75% or 95% gross income tests for any taxable year, we may nevertheless qualify as a REIT for the year if we are entitled to relief under the Code. Generally, we may avail ourselves of the relief provisions if:

our failure to meet these tests was due to reasonable cause and not due to willful neglect;

we attach a schedule of the sources of our income to our federal income tax return; and

any incorrect information on the schedule was not due to fraud with intent to evade tax.

If we are entitled to avail ourselves of the relief provisions, we will maintain our qualification as a REIT but will be subject to certain penalty taxes as described above. We may not, however, be entitled to the benefit of these relief provisions in all circumstances. If these relief provisions do not apply to a particular set of circumstances, we will not qualify as a REIT.

Asset Tests

At the close of each quarter of our taxable year, we must satisfy four tests relating to the nature and diversification of our assets:

at least 75% of the value of our total assets must be represented by qualified real estate assets (including mortgage loans), cash, cash items and government securities;

not more than 25% of our total assets may be represented by securities, other than those securities included in the 75% asset test;

of the investments included in the 25% asset class, the value of any one issuer's securities may not exceed 5% of the value of our total assets, and we generally may not own more than 10% by vote or value of any one issuer's outstanding securities, in each case except with respect to stock of any taxable REIT subsidiaries; and

the value of the securities we own in any taxable REIT subsidiaries may not exceed 20% of the value of our total assets.

A taxable REIT subsidiary is any corporation in which we own stock and as to which we and such corporation jointly elect to treat such subsidiary as a taxable REIT subsidiary. For purposes of the asset tests, we will be deemed to own a proportionate share of the assets of any partnership, or any limited liability company treated as a partnership for federal income tax purposes, in which we own an interest, which share is determined by reference to our capital interest in the entity, and will be deemed to own the assets owned by any qualified REIT subsidiary and any other entity that is disregarded for federal income tax purposes.

After initially meeting the asset tests at the close of any quarter, we will not lose our status as a REIT for failure to satisfy the asset tests at the end of a later quarter solely by reason of changes in asset values. If we fail to satisfy the asset tests because we acquire securities or other property during a quarter, we can cure this failure by disposing of sufficient nonqualifying assets within 30 days after the close of that quarter. For this purpose, an

Table of Contents

increase in our interests in any partnership or limited liability company in which we own an interest will be treated as an acquisition of a portion of the securities or other property owned by that partnership or limited liability company.

Annual Distribution Requirements

To maintain our qualification as a REIT, we are required to distribute dividends, other than capital gain dividends, to our stockholders in an amount at least equal to the sum of:

90% of our REIT taxable income, and

90% of our after tax net income, if any, from foreclosure property, minus

the excess of the sum of specified items of our non-cash income items over 5% of REIT taxable income, as described below.

For purposes of these distribution requirements, our REIT taxable income is computed without regard to the dividends paid deduction (described below) and net capital gain. For purposes of this test, non-cash income means income attributable to leveled stepped rents, certain original issue discount, certain like-kind exchanges that are later determined to be taxable and income from cancellation of indebtedness. In addition, our taxable income would exceed our net income for financial reporting purposes to the extent that compensation paid to our chief executive officer and our other four highest paid officers exceeds \$1,000,000 for any such officer for any calendar year. Since payments under our 2002 Incentive Compensation Plan do not qualify as performance-based compensation under Section 162(m) of the Code, a portion of the payments made under such plan to certain of such officers would not be deductible for federal income tax purposes under such circumstances. Moreover, if we disposed of any asset we acquired from a corporation which is or has been a C corporation in a transaction in which our basis in the asset is determined by reference to the basis of the asset in the hands of that C corporation and we elected not to recognize gain currently in connection with the acquisition of such asset, we would be required to distribute at least 90% of the after-tax gain, if any, we recognize on a disposition of the asset within the ten-year period following our acquisition of such asset, to the extent that such gain does not exceed the excess of:

the fair market value of the asset on the date we acquired the asset, over

our adjusted basis in the asset on the date we acquired the asset.

Only distributions that qualify for the dividends paid deduction available to REITs under the Code are counted in determining whether the distribution requirements are satisfied. We must make these distributions in the taxable year to which they relate, or in the following taxable year if they are declared before we timely file our tax return for that year, paid on or before the first regular dividend payment following the declaration and we elect on our tax return to have a specified dollar amount of such distributions treated as if paid in the prior year. For these and other purposes, dividends declared by us in October, November or December of one taxable year and payable to a stockholder of record on a specific date in any such month shall be treated as both paid by us and received by the stockholder during such taxable year, provided that the dividend is actually paid by us by January 31 of the following taxable year.

In addition, dividends distributed by us must not be preferential. If a dividend is preferential, it will not qualify for the dividends paid deduction. To avoid being preferential, every stockholder of the class of stock to which a distribution is made must be treated the same as every other stockholder of that class, and no class of stock may be treated other than according to its dividend rights as a class.

To the extent that we do not distribute all of our net capital gain, or we distribute at least 90%, but less than 100%, of our REIT taxable income, as described above, we will be required to pay tax on this undistributed income at regular ordinary and capital gain corporate tax rates.

Table of Contents

Failure to Qualify as a REIT

If we fail to qualify for taxation as a REIT in any taxable year, and the relief provisions of the Code do not apply, we will be required to pay tax, including any applicable alternative minimum tax, on our taxable income in that taxable year and all subsequent taxable years at regular corporate rates. Distributions to stockholders in any year in which we fail to qualify as a REIT will not be deductible by us and we will not be required to distribute any amounts to our stockholders. As a result, we anticipate that our failure to qualify as a REIT would reduce the cash available for distribution to our stockholders. In addition, if we fail to qualify as a REIT, all distributions to stockholders will be taxable at ordinary income rates to the extent of our current and accumulated earnings and profits. In this event, corporate distributees may be eligible for the dividends-received deduction. Unless entitled to relief under specific statutory provisions, we will also be disqualified from taxation as a REIT for the four taxable years following the year in which we lose our qualification.

Taxation of Taxable United States Stockholders

For purposes of the discussion in this prospectus, the term *United States stockholder* means a holder of our stock that is, for United States federal income tax purposes:

a citizen or resident of the United States;

a corporation, partnership, or other entity created or organized in or under the laws of the United States or of any state thereof or in the District of Columbia, unless Treasury regulations provide otherwise;

an estate the income of which is subject to United States federal income taxation regardless of its source; or

a trust whose administration is subject to the primary supervision of a United States court and which has one or more United States persons who have the authority to control all substantial decisions of the trust.

Distributions Generally

Distributions out of our current or accumulated earnings and profits, other than capital gain dividends, will be taxable to United States stockholders as ordinary income. Provided that we continue to qualify as a REIT, dividends paid by us will not be eligible for the dividends received deduction generally available to United States stockholders that are corporations. To the extent that we make distributions in excess of current and accumulated earnings and profits, the distributions will be treated as a tax-free return of capital to each United States stockholder, and will reduce the adjusted tax basis which each United States stockholder has in our stock by the amount of the distribution, but not below zero. Distributions in excess of a United States stockholder's adjusted tax basis in its stock will be taxable as capital gain, and will be taxable as long-term capital gain if the stock has been held for more than one year. If we declare a dividend in October, November, or December of any calendar year which is payable to stockholders of record on a specified date in such a month and actually pay the dividend during January of the following calendar year, the dividend is deemed to be paid by us and received by the stockholder on December 31st of the previous year. Stockholders may not include in their own income tax returns any of our net operating losses or capital losses.

Capital Gain Distributions

Distributions designated by us as capital gain dividends will be taxable to United States stockholders as capital gain income. We can designate distributions as capital gain dividends to the extent of our net capital gain for the taxable year of the distribution. This capital gain income will generally be taxable to non-corporate United States stockholders at a 20% or 25% rate based on the characteristics of the asset we sold that produced the gain. United States stockholders that are corporations may be required to treat up to 20% of certain capital gain dividends as ordinary income.

A recently enacted 18% capital gains rate applies to certain assets acquired after December 31, 2000, and to certain assets held on January 1, 2001, as to which an election is made to treat such assets as having been sold

Table of Contents

and then reacquired on the same date. If the election is made, the asset will be deemed to be sold at its fair market value and any gain, but not loss, will be recognized. Although the IRS has yet to issue any official guidance on how the 18% rate would apply to distributions made by us, the IRS has indicated in income tax forms that the lower rate will apply to designated capital gain distributions we make to the extent that the gain is derived from the disposition of a capital asset acquired by us after December 31, 2000 and held for more than five years at the time of disposition.

Retention of Net Capital Gains

We may elect to retain, rather than distribute as a capital gain dividend, our net capital gains. If we were to make this election, we would pay tax on such retained capital gains. In such a case, our stockholders would generally:

include their proportionate share of our undistributed net capital gains in their taxable income;

receive a credit for their proportionate share of the tax paid by us in respect of such net capital gain; and

increase the adjusted basis of their stock by the difference between the amount of their share of our undistributed net capital gain and their share of the tax paid by us.

Passive Activity Losses, Investment Interest Limitations and Other Considerations of Holding Our Stock

Distributions we make and gains arising from the sale or exchange of our stock by a United States stockholder will not be treated as passive activity income. As a result, United States stockholders will not be able to apply any passive losses against income or gains relating to our stock. Distributions by us, to the extent they do not constitute a return of capital, generally will be treated as investment income for purposes of computing the investment interest limitation under the Code. Further, if we, or a portion of our assets, were to be treated as a taxable mortgage pool, any excess inclusion income that is allocated to you could not be offset by any losses or other deductions you may have.

Dispositions of Stock

A United States stockholder that sells or disposes of our stock will recognize gain or loss for federal income tax purposes in an amount equal to the difference between the amount of cash or the fair market value of any property the stockholder receives on the sale or other disposition and the stockholder's adjusted tax basis in the stock. This gain or loss will be capital gain or loss and will be long-term capital gain or loss if the stockholder has held the stock for more than one year. In general, any loss recognized by a United States stockholder upon the sale or other disposition of our stock that the stockholder has held for six months or less will be treated as long-term capital loss to the extent the stockholder received distributions from us which were required to be treated as long-term capital gains.

Information Reporting and Backup Withholding

We report to our United States stockholders and the IRS the amount of dividends paid during each calendar year, and the amount of any tax withheld. Under the backup withholding rules, a stockholder may be subject to backup withholding with respect to dividends paid and redemption proceeds unless the holder is a corporation or comes within other exempt categories and, when required, demonstrates this fact, or provides a taxpayer identification number or social security number, certifying as to no loss of exemption from backup withholding, and otherwise complies with applicable requirements of the backup withholding rules. A United States stockholder that does not provide us with its correct taxpayer identification number or social security number may also be subject to penalties imposed by the IRS. A United States stockholder can meet this requirement by providing us with a correct, properly completed and executed copy of IRS Form W-9 or a substantially similar form. Backup withholding is not an additional tax. Any amount paid as backup withholding will be creditable against the stockholder's income tax liability, if any, and otherwise be refundable. In addition, we may be

Table of Contents

required to withhold a portion of capital gain distributions made to any stockholders who fail to certify their non-foreign status.

Pursuant to the Economic Growth and Tax Relief Reconciliation Act of 2001, signed into law on June 7, 2001, the backup withholding tax rate is 30% for amounts distributed after December 31, 2001 and on or before December 31, 2003. After 2003, the backup withholding tax rate will be gradually reduced until 2006, when the backup-withholding rate will be 28%.

Taxation of Tax-Exempt Stockholders

The IRS has ruled that amounts distributed as a dividend by a REIT will be treated as a dividend by the recipient and excluded from the calculation of unrelated business taxable income when received by a tax-exempt entity. Based on that ruling, provided that a tax-exempt stockholder has not held our stock as debt financed property within the meaning of the Code, i.e., property the acquisition or holding of which is financed through a borrowing by the tax-exempt United States stockholder, the stock is not otherwise used in an unrelated trade or business, and we do not hold a residual interest in a real estate mortgage investment conduit, REMIC, that gives rise to excess inclusion income, as defined in Section 860E of the Code, dividend income on our stock and income from the sale of our stock should not be unrelated business taxable income to a tax-exempt stockholder. However, if we were to hold residual interests in a REMIC, or if we or a pool of our assets were to be treated as a taxable mortgage pool, a portion of the dividends paid to a tax-exempt stockholder may be subject to tax as unrelated business taxable income. Although we do not believe that we, or any portion of our assets, will be treated as a taxable mortgage pool, no assurance can be given that the IRS might not successfully maintain that such a taxable mortgage pool exists.

For tax-exempt stockholders that are social clubs, voluntary employee benefit associations, supplemental unemployment benefit trusts, and qualified group legal services plans exempt from federal income taxation under Sections 501(c)(7), (c)(9), (c)(17) and (c)(20) of the Code, respectively, income from an investment in our stock will constitute unrelated business taxable income unless the organization is able to properly claim a deduction for amounts set aside or placed in reserve for certain purposes so as to offset the income generated by its investment in our stock. Any prospective investors should consult their tax advisors concerning these set aside and reserve requirements.

Notwithstanding the above, however, a substantial portion of the dividends you receive may constitute UBTI, if we are treated as a pension-held REIT and you are a pension trust which:

- is described in Section 401(a) of the Code; and
- holds more than 10%, by value, of the interests in the REIT.

Tax-exempt pension funds that are described in Section 401(a) of the Code and exempt from tax under Section 501(a) of the Code are referred to below as qualified trusts.

A REIT is a pension-held REIT if:

- it would not have qualified as a REIT but for the fact that Section 856(h)(3) of the Code provides that stock owned by a qualified trust shall be treated, for purposes of the 5/50 Rule, described above, as owned by the beneficiaries of the trust, rather than by the trust itself; and
- either at least one qualified trust holds more than 25%, by value, of the interests in the REIT, or one or more qualified trusts, each of which owns more than 10%, by value, of the interests in the REIT, holds in the aggregate more than 50%, by value, of the interests in the REIT.

Table of Contents

The percentage of any REIT dividend treated as unrelated business taxable income is equal to the ratio of:

the unrelated business taxable income earned by the REIT, less directly related expenses, treating the REIT as if it were a qualified trust and therefore subject to tax on unrelated business taxable income, to

the total gross income, less directly related expenses, of the REIT.

A de minimis exception applies where the percentage is less than 5% for any year. As a result of the limitations on the transfer and ownership of stock contained in our charter, we do not expect to be classified as a pension-held REIT.

Taxation of Non-United States Stockholders

The rules governing federal income taxation of non-United States stockholders are complex and no attempt will be made herein to provide more than a summary of these rules. Non-United States stockholders mean beneficial owners of shares of our stock that are not United States stockholders (as such term is defined in the discussion above under the heading entitled Taxation of Taxable United States Stockholders).

PROSPECTIVE NON-UNITED STATES STOCKHOLDERS SHOULD CONSULT THEIR TAX ADVISORS TO DETERMINE THE IMPACT OF FOREIGN, FEDERAL, STATE, AND LOCAL INCOME TAX LAWS WITH REGARD TO AN INVESTMENT IN OUR STOCK AND OF OUR ELECTION TO BE TAXED AS A REAL ESTATE INVESTMENT TRUST, INCLUDING ANY REPORTING REQUIREMENTS.

Distributions to non-United States stockholders that are not attributable to gain from our sale or exchange of United States real property interests and that are not designated by us as capital gain dividends or retained capital gains will be treated as dividends of ordinary income to the extent that they are made out of our current or accumulated earnings and profits. These distributions will generally be subject to a withholding tax equal to 30% of the distribution unless an applicable tax treaty reduces or eliminates that tax. However, if income from an investment in our stock is treated as effectively connected with the non-United States stockholder's conduct of a United States trade or business, the non-United States stockholder generally will be subject to federal income tax at graduated rates in the same manner as United States stockholders are taxed with respect to those distributions, and also may be subject to the 30% branch profits tax in the case of a non-United States stockholder that is a corporation. We expect to withhold tax at the rate of 30% on the gross amount of any distributions made to a non-United States stockholder unless:

a lower treaty rate applies and any required form, for example IRS Form W-8BEN, evidencing eligibility for that reduced rate is filed by the non-United States stockholder with us; or

the non-United States stockholder files an IRS Form W-8ECI with us claiming that the distribution is effectively connected income.

Any portion of the dividends paid to non-United States stockholders that is treated as excess inclusion income will not be eligible for exemption from the 30% withholding tax or a reduced treaty rate.

Distributions in excess of our current and accumulated earnings and profits will not be taxable to non-United States stockholders to the extent that these distributions do not exceed the adjusted basis of the stockholder's stock, but rather will reduce the adjusted basis of that stock. To the extent that distributions in excess of current and accumulated earnings and profits exceed the adjusted basis of a non-United States stockholder's stock, these distributions will give rise to tax liability if the non-United States stockholder would otherwise be subject to tax on any gain from the sale or disposition of its stock, as described below. Because it generally cannot be determined at the time a distribution is made whether or not such distribution may be in excess of current and accumulated earnings and profits, the entire amount of any distribution normally will be subject to withholding at the same rate as a dividend. However, amounts so withheld are creditable against

Table of Contents

United States tax liability, if any, or refundable by the IRS to the extent the distribution is subsequently determined to be in excess of our current and accumulated earnings and profits. We are also required to withhold 10% of any distribution in excess of our current and accumulated earnings and profits if our stock is a United States real property interest because we are not a domestically controlled REIT, as discussed below. Consequently, although we intend to withhold at a rate of 30% on the entire amount of any distribution, to the extent that we do not do so, any portion of a distribution not subject to withholding at a rate of 30% may be subject to withholding at a rate of 10%.

Distributions attributable to our capital gains which are not attributable to gain from the sale or exchange of a United States real property interest generally will not be subject to income taxation, unless (1) investment in our stock is effectively connected with the non-United States stockholder's U.S. trade or business (or, if an income tax treaty applies, is attributable to a U.S. permanent establishment of the non-United States stockholder), in which case the non-United States stockholder will be subject to the same treatment as United States stockholders with respect to such gain (except that a corporate non-United States stockholder may also be subject to the 30% branch profits tax), or (2) the non-United States stockholder is a non-resident alien individual who is present in the United States for 183 days or more during the taxable year and certain other conditions are satisfied, in which case the non-resident alien individual will be subject to a 30% tax on the individual's capital gains.

For any year in which we qualify as a REIT, distributions that are attributable to gain from the sale or exchange of a United States real property interest, which includes some interests in real property, but generally does not include an interest solely as a creditor in mortgage loans or mortgage-backed securities, will be taxed to a non-United States stockholder under the provisions of the Foreign Investment in Real Property Tax Act of 1980, or FIRPTA. Under FIRPTA, distributions attributable to gain from sales of United States real property interests are taxed to a non-United States stockholder as if that gain were effectively connected with the stockholder's conduct of a United States trade or business. Non-United States stockholders thus would be taxed at the normal capital gain rates applicable to stockholders, subject to applicable alternative minimum tax and a special alternative minimum tax in the case of nonresident alien individuals. Distributions subject to FIRPTA also may be subject to the 30% branch profits tax in the hands of a non-United States corporate stockholder. We are required to withhold 35% of any distribution that we designate (or, if greater, the amount that we could designate) as a capital gains dividend. The amount withheld is creditable against the non-United States stockholder's FIRPTA tax liability.

Gains recognized by a non-United States stockholder upon a sale of our stock generally will not be taxed under FIRPTA if we are a domestically controlled REIT, which is a REIT in which at all times during a specified testing period less than 50% in value of the stock was held directly or indirectly by non-United States stockholders. Because our stock is publicly traded, we cannot assure our investors that we are or will remain a domestically controlled REIT. Even if we are not a domestically-controlled REIT, however, a non-United States stockholder that owns, actually or constructively, 5% or less of our stock throughout a specified testing period will not recognize taxable gain on the sale of our stock under FIRPTA if the shares are traded on an established securities market.

If gain from the sale of the stock were subject to taxation under FIRPTA, the non-United States stockholder would be subject to the same treatment as United States stockholders with respect to that gain, subject to applicable alternative minimum tax, a special alternative minimum tax in the case of nonresident alien individuals, and the possible application of the 30% branch profits tax in the case of non-United States corporations. In addition, the purchaser of the stock could be required to withhold 10% of the purchase price and remit such amount to the IRS.

Gains not subject to FIRPTA will be taxable to a non-United States stockholder if:

the non-United States stockholder's investment in the stock is effectively connected with a trade or business in the United States, in which case the non-United States stockholder will be subject to the same treatment as United States stockholders with respect to that gain; or

Table of Contents

the non-United States stockholder is a nonresident alien individual who was present in the United States for 183 days or more during the taxable year and other conditions are met, in which case the nonresident alien individual will be subject to a 30% tax on the individual's capital gains.

Information Reporting and Backup Withholding

If the proceeds of a disposition of our stock are paid by or through a U.S. office of a broker-dealer, the payment is generally subject to information reporting and to backup withholding (currently at a rate of 30%, subject to reduction in years after 2003) unless the disposing non-United States stockholder certifies as to his name, address and non-U.S. status or otherwise establishes an exemption. Generally, U.S. information reporting and backup withholding will not apply to a payment of disposition proceeds if the payment is made outside the U.S. through a foreign office of a foreign broker-dealer. If the proceeds from a disposition of our stock are paid to or through a foreign office of a U.S. broker-dealer or a non-U.S. office of a foreign broker-dealer that is (i) a controlled foreign corporation for federal income tax purposes, (ii) a foreign person 50% or more of whose gross income from all sources for a three-year period was effectively connected with a U.S. trade or business, (iii) a foreign partnership with one or more partners who are U.S. persons and who in the aggregate hold more than 50% of the income or capital interest in the partnership, or (iv) a foreign partnership engaged in the conduct of a trade or business in the United States, then (i) backup withholding will not apply unless the broker-dealer has actual knowledge that the owner is not a foreign stockholder, and (ii) information reporting will not apply if the non-United States stockholder satisfies certification requirements regarding its status as a foreign stockholder.

State, Local and Foreign Taxation

We may be required to pay state, local and foreign taxes in various state, local and foreign jurisdictions, including those in which we transact business or make investments, and our stockholders may be required to pay state, local and foreign taxes in various state, local and foreign jurisdictions, including those in which they reside. Our state, local and foreign tax treatment may not conform to the federal income tax consequences summarized above. In addition, a stockholder's state, local and foreign tax treatment may not conform to the federal income tax consequences summarized above. Consequently, prospective investors should consult their tax advisors regarding the effect of state, local and foreign tax laws on an investment in our stock.

Table of Contents

PLAN OF DISTRIBUTION

We may sell the securities offered pursuant to this prospectus and any accompanying prospectus supplements (to the extent required) to or through one or more underwriters or dealers or we may sell the securities to investors directly or through agents. To the extent required by applicable law, each prospectus supplement will describe the number and terms of the securities to which such prospectus supplement relates, the name or names of any underwriters or agents with whom we have entered into arrangements with respect to the sale of such securities, the public offering or purchase price of such securities and the net proceeds we will receive from such sale. Any underwriter or agent involved in the offer and sale of the securities will be named in the applicable prospectus supplement. We may sell securities directly to investors on our own behalf in those jurisdictions where we are authorized to do so.

Underwriters may offer and sell the securities at a fixed price or prices, which may be changed, at market prices prevailing at the time of sale, at prices related to the prevailing market prices or at negotiated prices. We also may, from time to time, authorize dealers or agents to offer and sell these securities upon such terms and conditions as may be set forth in the applicable prospectus supplement. In connection with the sale of any of these securities, underwriters may receive compensation from us in the form of underwriting discounts or commissions and may also receive commissions from purchasers of the securities for whom they may act as agent. Underwriters may sell the securities to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters or commissions from the purchasers for which they may act as agents. The maximum compensation or discount to be received by any member of the National Association of Securities Dealers or any independent broker-dealer will not be greater than 8% for the sale of any securities registered pursuant Rule 415 under the Securities Act of 1933.

Shares may also be sold in one or more of the following transactions: (a) block transactions (which may involve crosses) in which a broker-dealer may sell all or a portion of the shares as agent but may position and resell all or a portion of the block as principal to facilitate the transaction; (b) purchases by a broker-dealer as principal and resale by the broker-dealer for its own account pursuant to a prospectus supplement; (c) a special offering, an exchange distribution or a secondary distribution in accordance with applicable American Stock Exchange or other stock exchange rules; (d) ordinary brokerage transactions and transactions in which a broker-dealer solicits purchasers; (e) sales at the market to or through a market maker or into an existing trading market, on an exchange or otherwise, for shares; and (f) sales in other ways not involving market makers or established trading markets, including direct sales to purchasers. Broker-dealers may also receive compensation from purchasers of the shares which is not expected to exceed that customary in the types of transactions involved.

Any underwriting compensation paid by us to underwriters or agents in connection with the offering of these securities, and any discounts or concessions or commissions allowed by underwriters to participating dealers, will be set forth in any applicable prospectus supplement. Dealers and agents participating in the distribution of the securities may be deemed to be underwriters, and any discounts and commissions received by them and any profit realized by them on resale of the securities may be deemed to be underwriting discounts and commissions.

Underwriters, dealers and agents may be entitled, under agreements entered into with us, to indemnification against and contribution toward certain civil liabilities, including liabilities under the Securities Act of 1933. Unless otherwise set forth in the accompanying prospectus supplement, the obligations of any underwriters to purchase any of these securities will be subject to certain conditions precedent, and the underwriters will be obligated to purchase all of the series of securities, if any are purchased. Any offers made pursuant to the Sales Agreement with Cantor Fitzgerald & Co., however, will not obligate Cantor Fitzgerald & Co. as sales manager to purchase all of the securities so offered.

Table of Contents

Underwriters, dealers and agents may engage in transactions with, or perform services for, us and our affiliates in the ordinary course of business.

In connection with offering securities pursuant to this prospectus, certain underwriters, and selling group members and their respective affiliates, may engage in transactions that stabilize, maintain or otherwise affect the market price of the applicable securities. These transactions may include stabilization transactions effected in accordance with Rule 104 of Regulation M promulgated by the SEC pursuant to which these persons may bid for or purchase securities for the purpose of stabilizing their market price.

The underwriters in an offering of securities may also create a short position for their account by selling more securities in connection with the offering than they are committed to purchase from us. In that case, the underwriters could cover all or a portion of the short position by either purchasing securities in the open market following completion of the offering of these securities or by exercising any over-allotment option granted to them by us. In addition, the managing underwriter may impose penalty bids under contractual arrangements with other underwriters, which means that they can reclaim from an underwriter (or any selling group member participating in the offering) for the account of the other underwriters, the selling concession for the securities that are distributed in the offering but subsequently purchased for the account of the underwriters in the open market. Any of the transactions described in this paragraph or comparable transactions that are described in any accompanying prospectus supplement may result in the maintenance of the price of the securities at a level above that which might otherwise prevail in the open market. None of the transactions described in this paragraph or in an accompanying prospectus supplement are required to be taken by any underwriters and, if they are undertaken, may be discontinued at any time.

Our common stock is listed on the American Stock Exchange under the symbol ANH. Our preferred stock will be new issues of securities with no established trading market and may or may not be listed on a national securities exchange. Any underwriters or agents to or through which securities are sold by us may make a market in the securities, but these underwriters or agents will not be obligated to do so and any of them may discontinue any market making at any time without notice. No assurance can be given as to the liquidity of or trading market for any securities sold by us.

Table of Contents

EXPERTS

The financial statements as of December 31, 2001 and 2000, and for each of the three years in the period ended December 31, 2001, incorporated in this prospectus by reference to the Annual Report on Form 10-K of Anworth Mortgage Asset Corporation for the year ended December 31, 2001, have been so incorporated in reliance on the report of PricewaterhouseCoopers LLP, independent accountants, given on the authority of said firm as experts in auditing and accounting.

LEGAL MATTERS

The validity of our securities offered in this prospectus and selected federal tax matters will be passed upon for us by Allen Matkins Leck Gamble & Mallory LLP, Century City, California. Selected legal matters related to Maryland law will be passed upon for us by Piper Rudnick LLP.

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and special reports, proxy statements and other information with the Securities and Exchange Commission. You may read and copy the materials we file at the Commission's Public Reference Room at 450 Fifth Street, N.W., Washington, D.C. 20549. Please call the Commission at 1-800-SEC-0330 for further information on the operation of the Public Reference Rooms. Our Commission filings are also available to the public from the Commission's World Wide Web site on the Internet at <http://www.sec.gov>. This site contains reports, proxy and information statements and other information regarding issuers that file electronically with the Commission. You may also read and copy this information at the National Association of Securities Dealers, Inc., 1735 K Street, N.W., Washington, D.C. 20006.

We maintain a site on the Internet at <http://www.anworth.com>. The information contained in our website is not part of this prospectus and you should not rely on it in deciding whether to invest in our common or preferred stock.

We have filed a registration statement, of which this prospectus is a part, covering the offered securities. As allowed by Commission rules, this prospectus does not include all of the information contained in the registration statement and the included exhibits, financial statements and schedules. We refer you to the registration statement, the included exhibits, financial statements and schedules for further information. This prospectus is qualified in its entirety by such other information.

Table of Contents

INFORMATION INCORPORATED BY REFERENCE

The SEC allows us to incorporate by reference the information that we file with the SEC. This means that we can disclose important information to you by referring you to another document filed separately with the SEC under the Securities Exchange Act of 1934 (the Exchange Act). The information incorporated by reference is deemed to be part of this prospectus, except for any information superseded by information in this prospectus. We have filed with the SEC and incorporate by reference:

- our annual report on Form 10-K for the fiscal year ended December 31, 2001;
- our quarterly report on Form 10-Q for the quarter ended March 31, 2002;
- our quarterly report on Form 10-Q for the quarter ended June 30, 2002;
- our quarterly report on Form 10-Q for the quarter ended September 30, 2002; and
- the description of our common stock included in our registration statement on Form 8-A.

Any documents we file pursuant to Section 13(a), 13(c), 14 or 15(d) of the Exchange Act after the date of this prospectus and prior to the termination of the offering of the securities to which this prospectus relates will automatically be deemed to be incorporated by reference in this prospectus and to be part hereof from the date of filing those documents. Any statement contained in this prospectus or in a document incorporated by reference shall be deemed to be modified or superseded for all purposes to the extent that a statement contained in this prospectus or in any other document which is also incorporated by reference modifies or supersedes that statement.

We will provide without charge to each person to whom a copy of this prospectus is delivered, upon such person's written or oral request, a copy of any and all of the information incorporated by reference in this prospectus, other than exhibits to such documents, unless such exhibits are specifically incorporated by reference into the information that this prospectus incorporates. Requests should be directed to the Secretary at Anworth Mortgage Asset Corporation, 1299 Ocean Avenue, Suite 250, Santa Monica, CA 90401, telephone: (310) 255-4493.
