## President's Letter

Dear Stockholder,

I am pleased to present this semi-annual report for Neuberger Berman California Intermediate Municipal Fund Inc. (NBW), Neuberger Berman Intermediate Municipal Fund Inc. (NBH), and Neuberger Berman New York Intermediate Municipal Fund Inc. (NBO and, together with NBW and NBH, the "Funds") for the six months ended April 30, 2018. The report includes portfolio commentaries, listings of the Funds' investments and their unaudited financial statements for the reporting period.

Each Fund's investment objective is to provide a high level of current income exempt from regular federal income tax and, for each state-specific Fund, a high level of current income exempt from that state's personal income taxes (and, in the case of NBO, New York City personal income tax).

We maintain a conservative investment philosophy and disciplined investment process in an effort to provide you with tax-exempt current income over the long term with less volatility and risk.

On April 16, 2018, NBH decreased its monthly distribution rate to \$0.06244 per share of common stock from the prior monthly distribution rate of \$0.0675 per share. NBW decreased its monthly distribution rate to \$0.04480 per share of common stock from the prior monthly distribution rate of \$0.0512 per share. NBO decreased its monthly distribution rate to \$0.03933 per share of common stock from the prior monthly distribution rate of \$0.0437 per share. The Funds' decrease in distribution rates is the result of numerous factors, including the current level of yields available in the municipal market and the impact on the Funds' levels of earnings, expected increased costs of leverage associated with forecasted interest-rate hikes and the amount of available undistributed net investment income, and with respect to NBW and NBO, the lack thereof.

Thank you for your confidence in the Funds. We will continue to do our best to earn your trust in the years to come.

Sincerely,

Robert Conti  
President and CEO

## Neuberger Berman Intermediate Municipal Closed-End Funds Portfolio Commentaries

For six months ended April 30, 2018, on a net asset value (NAV) basis, two of the three Neuberger Berman Intermediate Municipal Closed-End Funds outperformed their benchmark, the Bloomberg Barclays 10-Year Municipal Bond Index (the Index). The California Intermediate Municipal Fund, Intermediate Municipal Fund and New York Intermediate Municipal Fund posted -1.14%, -0.93% and -2.02% total returns, respectively, whereas the benchmark generated a -1.53% total return for the same period. (Fund performance on a market basis is provided in the table immediately following this commentary.) The use of leverage (typically a performance enhancer in up markets and a detractor during market retreats) detracted from performance given the negative price return for the municipal market during the reporting period.

While it produced a negative total return, the municipal bond market outperformed the taxable bond market on a relative basis during the reporting period. Municipal securities were supported by overall positive fundamentals, as well as by solid investor demand at times. However, this wasn't enough to overcome the negative impact from rising Treasury yields. Short-term yields moved higher as the U.S. Federal Reserve (Fed) raised interest rates twice over the period and continued reducing its balance sheet. Meanwhile, longer-term Treasury yields moved higher given expectations of improving growth following the passage of the tax reform bill and, more recently, concerns that the Fed may take a more aggressive approach in terms of future rate hikes. All told, the Bloomberg Barclays Municipal Bond Index returned -0.97% for the six months ended April 30, 2018, whereas the overall taxable investment grade bond market, as measured by the Bloomberg Barclays U.S. Aggregate Bond Index, returned -1.87%.

The Funds' yield curve positioning contributed to performance as the curve flattened over the reporting period. The Funds maintained a lower quality relative to that of the benchmark as they sought to generate additional yield. This was positive for results given the relative outperformance of lower quality bonds. From a sector perspective, an overweight to revenue bonds added to results as they largely outperformed general obligation bonds. In particular, an overweight and security selection of tobacco securitization bonds contributed to performance. On the downside, several of the Funds' holdings experienced idiosyncratic risks that caused them to generate weak results.

Looking ahead, we believe investors are rightly focused on the potential for rising rates—both inflation and interest—and the implications this may have for fixed income portfolios going forward. Specific to the municipal bond market, we believe that technicals continue to look promising for 2018. In our opinion, significantly-reduced new issue supply should help maintain demand for municipal products. At this time, we also believe that the modest reduction in top marginal tax brackets should have little impact on demand from most individual investors in the tax-exempt market. That said, we have seen a reduction in demand from U.S. banks, and property & casualty insurance companies, as some of these institutions process the impact of the cut in the corporate tax rate to 21%. Elsewhere, we continue to track the progress on the Trump administration's infrastructure spending proposals. We believe that there are significant challenges for the current proposals and are skeptical that the proposals will lead to a meaningful increase in municipal supply this year. We continue to closely follow the primary and secondary markets in order to seek attractive buying opportunities for our investors.

Sincerely,

James L. Iselin and S. Blake Miller

Closed-end funds, unlike open-end funds, are not continually offered. Generally, there is an initial public offering and, once issued, shares of common stock of closed-end funds are sold in the secondary market on a stock exchange.

The performance data quoted represent past performance and do not indicate future results. Current performance may be lower or higher than the performance data quoted. For more current performance data, please visit [www.nb.com/cef-performance](http://www.nb.com/cef-performance).

**The results shown in the table reflect the reinvestment of income dividends and other distributions, if any.** The results do not reflect the effect of taxes a stockholder would pay on Fund distributions or on the sale of shares of a Fund's common stock.

The investment return and market price will fluctuate and shares of a Fund's common stock may trade at prices above or below NAV. Shares of a Fund's common stock, when sold, may be worth more or less than their original cost.

Returns would have been lower if Neuberger Berman Investment Advisers LLC ("Management") had not waived a portion of its investment management fees during certain of the periods shown. The waived fees are from prior years that are no longer disclosed in the Financial Highlights.

Description of Index

**Bloomberg Barclays 10-Year Municipal Bond Index:** The index is the 10-year (8-12 years to maturity) component of the Bloomberg Barclays Municipal Bond Index. The Bloomberg Barclays Municipal Bond Index measures the investment grade, U.S. dollar-denominated, long-term, tax-exempt bond market and has four main sectors: state and local general obligation bonds, revenue bonds, insured bonds and prerefunded bonds.

Please note that the index does not take into account any fees and expenses or any tax consequences of investing in the individual securities that it tracks and that individuals cannot invest directly in any index. Data about the performance of this index are prepared or obtained by Management and include reinvestment of all income dividends and other distributions, if any. Each Fund may invest in securities not included in the above described index and generally does not invest in all securities included in the index.
