MTS First Quarter 2005 Revenues Increase 16% Year-Over-Year

Thursday May 5, 8:30 am ET

- Revenues Grow 6% Sequentially -

RA'ANANA, Israel, May 5 /PRNewswire-FirstCall/ -- MTS - Mer Telemanagement Solutions Ltd. (Nasdaq: MTSL - News), a global provider of Operations Support Systems (OSS) for comprehensive Telecommunication Management and Customer Care & Billing solutions, today reported its financial results for the first quarter of 2005, ended March 31, 2005.

Revenues for the first quarter were \$2.73 million, which represents a 16% increase over the \$2.36 million reported in the first quarter of 2004 and a 6% increase sequentially. Net loss for the quarter was \$2.03 million, or \$(0.44) per share, compared with the net loss of \$197,000, or \$(0.04) per share, reported for the first quarter of 2004.

Eytan Bar, President and Chief Executive Officer commented, "MTS successfully executed its growth strategy for the third straight quarter. In Q1, we experienced sales growth in our products to the service provider and carrier markets, and we also maintained momentum and growth in our new offerings to the enterprise market. Moreover, we achieved this growth while effectively integrating the Teleknowledge technology, employees, customers, channels and installed base into MTS' systems and capabilities."

Gross profit for the first quarter increased slightly to \$1.89 million, compared with the \$1.82 million reported in the first quarter of 2004.

Research and development expenses for the quarter were \$1.34 million, compared to \$0.53 million reported in the first quarter of 2004 and \$0.85 million reported in the fourth quarter of 2004. The sharp increase in R&D expenses in the quarter was primarily the result of costs associated with the integration of the recently acquired TeleKnowledge R&D group, as well as to the Company's continuing investment in product development.

Selling and marketing expenses for the quarter were \$1.53 million, which represents a 35% increase over the same period last year, but a 24% reduction sequentially. This reduction is the result of MTS' commitment to bring spending more in line with revenue generation and focusing on the growing areas.

MTS ended the quarter with approximately \$3.3 million in cash and cash equivalents, including marketable securities.

"The investments we made in R&D and sales and marketing over the last year are now supporting our expansion initiatives into the enterprise market, as well as

enabling us to capitalize on opportunities in the service provider and carrier markets," continued Mr. Bar. "We believe these investments further strengthen the foundation MTS has laid for growth and market share gains and position us well for the future. We remain committed to bringing spending more in line with revenue generation, and therefore, continue to expect to meet our target of break even by the end of this year."
