RADVISION Reports Strong First Quarter 2007 Results

Wednesday May 2, 8:00 am ET

Revenues Reach First Quarter Record of \$24.3 Million

GAAP Diluted EPS Is \$0.15; Non-GAAP Diluted EPS Is \$0.21 before FAS123R Effect

TEL AVIV, Israel--(BUSINESS WIRE)--RADVISION(R) (Nasdaq: RVSN - News) today announced that revenues for the first quarter of 2007 reached a record for the quarter of \$24.3 million, a 21% increase from \$20.1 million reported in the first quarter of 2006.

Operating income for the first quarter of 2007 was \$1.8 million, in line with the first quarter of 2006. Excluding the effects of stock-based compensation expense related to the adoption of FAS123R in both periods, the Company achieved non-GAAP operating income of \$3.2 million compared with \$2.9 million in the same period of 2006.

Net income for the first quarter of 2007 was \$3.5 million, or \$0.15 per diluted share compared with \$2.9 million or \$0.13 per diluted share in the 2006 first quarter. Excluding the effect of stock-based compensation expense which amounted to \$1.3 million or \$0.06 per diluted in the 2007 first quarter and \$1.0 million or \$0.04 per diluted share in 2006 first quarter, non-GAAP net income for the first quarter of 2007 was \$4.9 million or \$0.21 per diluted share compared with \$3.9 million or \$0.17 per diluted share reported in the first quarter of 2006.

The Company had forecast that 2007 first quarter revenues would approximate \$23.5 million and that net income would approximate \$3.0 million or \$0.13 per diluted share including stock-based compensation expense. Excluding the effect of stock-based compensation expense, the Company expected first quarter 2007 non-GAAP net income to be \$4.4 million or \$0.19 per diluted share.

Business unit revenues for the first quarter of 2007 consisted of \$18.3 million in Networking Business Unit (NBU) sales, representing an increase of 30% from the first quarter of 2006, and \$6.0 million in Technology Business Unit (TBU) sales, which were level with the first quarter of 2006. TBU revenues met the Company's forecast while NBU revenues exceeded it.

Edgar Filing: RADVISION LTD - Form 6-K

The Company ended the first quarter of 2007 with approximately \$155.8 million in cash and liquid investments, equivalent to \$6.98 per basic share, and an increase of \$10.2 million from December 31, 2006. The increase reflects cash flow from operations of \$7.2 million and cash flow from the exercise of options of \$3.8 million offset in part by \$800,000 of capital expenditures.

Boaz Raviv, Chief Executive Officer, commented: "Our first quarter growth was driven by continued strong demand for our SCOPIA(TM) video platform in the room conferencing market and the success of our channel partner relationships led by Cisco. In total, our room conferencing revenues were almost double those of the first quarter last year as were our revenues through Cisco. This was accompanied by a substantial increase in our room conferencing sales through other channels. In addition, we recognized \$1.3 million in revenues in the first quarter from the final delivery of products to the DVS II project with Northrup Grumman, which we announced at the end of 2005.

"We have now introduced SCOPIA(TM) Desktop, which we believe represents another major advance in the Unified Communications market place. SCOPIA Desktop is a simple solution that extends the reach of traditional room conferencing to remote users without complex software installations, licensing fees or firewall transversal problems. It is bundled with our SCOPIA MCU and was developed using elements from our Click to Meet (R) desktop software. Initial market response has been very exciting.

"Revenues directly from Click to Meet, which integrates advanced video into a variety of desktop environments, totaled \$1.1 million in the first quarter, including continued sales to the Federal market. We also completed installation of Click to Meet for Lotus Sametime at two IBM centers in the first quarter. A service provider in Europe, which is standardizing on the Microsoft Windows Communicator and Live Meeting, has initiated a trial using Click to Meet as the video solution. With the introduction of SCOPIA Desktop, we expect the distinction between our room conferencing and desktop sales to be increasingly blurred.

"In the 3G mobile market, we continued to see strong traction for our SCOPIA(TM) Interactive Video Platform, which enables rapid development and deployment of video services by mobile operators and application service providers, as well as additional sales of our SCOPIA(TM) 3G Video Gateway. Total 3G revenues were \$1.8 million for the first quarter.

"Our Technology Business Unit achieved on-target revenues in the first quarter. With the introduction of new tools and testing solutions in accordance with our roadmap, we continued advancing our technology leadership and penetrating new market segments."

Mr. Raviv concluded: "The strong first quarter gave us a good start to 2007. We plan to continue our progress throughout the year."

Guidance

The following statements are forward-looking, and actual results may differ materially.

The Company expects revenues for the second quarter of 2007 to be approximately \$25.0 million and net income to approximate \$3.7 million or \$0.16 per diluted share. This includes stock-based compensation expense related to the adoption of

Edgar Filing: RADVISION LTD - Form 6-K

FAS123R of \$1.4 million or \$0.06 per diluted share. Excluding this item, second quarter 2007 non-GAAP net income is expected to be \$5.1 million or \$0.22 per diluted share. That compares to second quarter 2006 revenues of \$22.0 million and net income of \$3.2 million or \$0.14 per diluted share. This includes stock-based compensation expense related to the adoption of FAS123R of \$1.2 million or \$0.06 per diluted share. Excluding this item, net income for the second quarter of 2006 was \$4.4 million or \$0.19 per diluted share. (Full details are available on the Company's web site at www.radvision.com.)

GAAP versus NON-GAAP Presentation

To supplement the consolidated financial statements presented in accordance with generally accepted accounting principles ("GAAP"), the Company uses non-GAAP measures of operating results, net income and earnings per share, which are adjusted from results based on GAAP to exclude the expenses recorded for stock compensation in accordance with SFAS 123(R). These non-GAAP financial measures are provided to enhance overall understanding of the current financial performance and prospects for the future. Specifically, the Company believes the non-GAAP results provide useful information to both management, and investors as these non-GAAP results exclude the expenses recorded for stock compensation in accordance with SFAS 123(R) that the Company believes are not indicative of the core operating results. Further, these non-GAAP results are one of the primary indicators management uses for assessing the Company's performance, allocating resources and planning and forecasting future periods. These measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to GAAP results. These non-GAAP measures may be different than the non-GAAP measures used by other companies.

First Quarter 2007 Earnings Conference Call/Webcast

RADVISION will hold a conference call to discuss its first quarter 2007 results and second quarter 2007 outlook, today, Wednesday, May 2, 2007 at 9:00 a.m. (Eastern). To access the conference call, please dial 1-888-889-4951 (International dialers may call +1-210-234-0001) by 8:45 a.m. (Eastern). The passcode "RADVISION" will be required to access the live conference call. A live webcast of the conference call also will be available on the Company's website and archived on the site until the next quarter. Simply click on the following link or copy it onto your browser: www.radvision.com/Corporate/Investors/FinancialReports/. A replay of the call will be available beginning approximately one hour after the conclusion of the call through 11:59 p.m. (Eastern) on May 9th. To access the replay, please dial 1-800-284-5340 (International dialers may call +1-402-998-1028).

The PowerPoint presentation highlighting key financial metrics as well as the second quarter 2007 estimate also will be available in the Investor Relations section of the company's website. The presentation will be available beginning at 8:00 a.m. (Eastern) on May 2nd and will be archived on the website until the end of the second quarter.

About RADVISION

RADVISION (Nasdaq: RVSN - News) is the industry's leading provider of market-proven products and technologies for unified visual communications over IP and 3G networks. With its complete set of standards-based video networking infrastructure and developer toolkits for voice, video, data and wireless communications, RADVISION is driving the unified communications evolution by combining the power of video, voice, data and wireless - for high definition videoconferencing systems, innovative converged mobile services, and highly

Edgar Filing: RADVISION LTD - Form 6-K

scalable video-enabled desktop platforms on IP, 3G and emerging next-generation networks. For more information about RADVISION, visit www.radvision.com.

This press release contains forward-looking statements that are subject to risks and uncertainties. Factors that could cause actual results to differ materially from these forward-looking statements include, but are not limited to, general business conditions in the industry, changes in demand for products, the timing and amount or cancellation of orders and other risks detailed from time to time in RADVISION's filings with the Securities Exchange Commission, including its Annual Report on Form 20-F. These documents contain and identify other important factors that could cause actual results to differ materially from those contained in our projections or forward-looking statements. Reconciliation of GAAP to NON-GAAP Operating Results

To supplement the consolidated financial statements presented in accordance with generally accepted accounting principles ("GAAP"), the Company uses non-GAAP measures of operating results, net income and earnings per share, which are adjusted from results based on GAAP to exclude the expenses recorded for stock compensation in accordance with SFAS 123(R). These non-GAAP financial measures are provided to enhance overall understanding of the current financial performance and prospects for the future. Specifically, the Company believes the non-GAAP results provide useful information to both management, and investors as these non-GAAP results exclude the expenses recorded for stock compensation in accordance with SFAS 123(R) that the Company

believes are not indicative of the core operating results. Further, these non-GAAP results are one of the primary indicators management uses for assessing the Company's performance, allocating resources and planning and forecasting future periods. These measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to GAAP results. These non-GAAP measures may be different than the non-GAAP measures used by other companies. The following table reconciles the GAAP to non-GAAP operating results:
