PROXY STATEMENT
FOR
ANNUAL MEETING OF STOCKHOLDERS
MAY 8, 2001

This Proxy Statement is furnished to the stockholders of EarthShell Corporation, a Delaware corporation (the "Company"), in connection with the solicitation of proxies by the Board of Directors of the Company for use at the 2001 Annual Meeting of Stockholders (the "Annual Meeting") to be held at the Radisson Hotel Santa Barbara, 1111 E. Cabrillo Boulevard, Santa Barbara, California 93103, at 10:00 a.m. Pacific Daylight Time, on May 8, 2001, and at any and all adjournments or postponements thereof. This Proxy Statement and the form of proxy were mailed on or about April 9, 2001 to all stockholders entitled to vote at the Annual Meeting.

The cost of the solicitation of proxies will be borne by the Company. In addition to solicitation by mail, directors and officers of the Company, without receiving any additional compensation, may solicit proxies personally or by telephone or telegraph. The Company will request brokerage houses, banks, and other custodians or nominees holding stock in their names for others to forward proxy materials to their customers or principals who are the beneficial owners of shares and will reimburse them for their expenses in doing so. The Company has retained the services of U.S. Stock Transfer Corporation to assist in the solicitation of proxies from brokerage houses, banks and other custodians or nominees holding stock in their names for others.

RECORD DATE AND VOTING

On March 20, 2001, the record date for the determination of stockholders entitled to notice of, and to vote at, the Annual Meeting, the Company had 107,780,305 shares of common stock, par value \$.01 per share (the "Common Stock"), outstanding. Each such share of Common Stock is entitled to one vote on all matters properly brought before the meeting. The vote of a plurality of the shares cast in person or by proxy is required to elect a nominee for director. With respect to the election of each director at the Annual Meeting, each holder of Common Stock is entitled to vote the number of shares owned by such stockholder. The nominees who receive the greater number of votes, up to the number of directors then to be elected, shall be the persons then elected. Stockholders are not permitted to cumulate their shares of Common Stock for the purpose of electing directors or otherwise. The vote of a majority of shares present in person or by proxy and entitled to vote is required to approve the Proposals set forth below.

Presence at the Annual Meeting, in person or by proxy, of a majority of the outstanding shares of Common Stock will constitute a quorum for the transaction of business at the Annual Meeting or any adjournment thereof. Abstentions or broker non-votes are counted for purposes of determining the presence of a quorum for transaction of business. With regard to the election of directors, votes may be cast in favor or withheld; votes that are withheld will be excluded entirely from the vote and will have no effect. Abstentions may be specified on proposals other than the election of directors and will be counted as present for purposes of the item on which the abstention is noted, and therefore counted in the tabulation of the votes cast on a proposal with the effect of a negative vote. Broker non-votes are shares which are represented at the Annual Meeting which a broker or nominee has indicated it does not have discretionary authority to vote on with respect to a particular matter. A broker non-vote will generally have the effect of a negative vote.

Simon K. Hodson and D. Scott Houston, the persons named as proxies on the proxy card accompanying this Proxy Statement, were selected by the Board of Directors to serve in such capacity. Mr. Hodson is a director of the Company.

UNLESS CONTRARY INSTRUCTIONS ARE INDICATED ON THE PROXY, ALL SHARES OF COMMON STOCK REPRESENTED BY VALID PROXIES RECEIVED PURSUANT TO THIS SOLICITATION (AND NOT REVOKED IN WRITING BEFORE THEY ARE VOTED) WILL BE VOTED AT THE ANNUAL MEETING FOR THE NOMINEES NAMED BELOW FOR ELECTION AS DIRECTORS AND FOR THE PROPOSALS DESCRIBED HEREIN. With respect to any other business which may properly come before the Annual Meeting and be submitted to a vote of stockholders, proxies received by the Board of Directors will be voted in accordance with the best judgment of the designated proxy holders. Under the Company's Bylaws, stockholder proposals may be made at the Annual Meeting only pursuant to a timely notice in writing delivered or mailed to the Secretary of the Company. To be timely, a stockholder's written notice must be delivered or mailed to the Secretary at the Company's offices at 800 Miramonte Drive, Santa Barbara, California 93109 not more than the tenth day following the first public announcement of the Annual Meeting. A stockholder may revoke his or her proxy at any time before exercise by delivering to the Secretary of the Company a written notice of such revocation, by filing with the Secretary of the Company a duly executed proxy bearing a later date, or by voting in person at the Annual Meeting, provided, however, that, in accordance with the Company's Bylaws, the stockholder has delivered to the Secretary a written notice of the stockholder's intention to revoke the proxy and vote in person prior to the voting of the proxy.

PROPOSAL ONE

ELECTION OF DIRECTORS

The Board of Directors of the Company is currently comprised of seven members. All directors are elected each year at the annual meeting of stockholders.

In the absence of instructions to the contrary, the persons named as proxy holders in the accompanying proxy intend to vote in favor of the election of the nominees designated below to serve until the next annual meeting of stockholders and until their respective successors shall have been elected and qualified. The Board of Directors expects that each of the nominees will be available to serve as a director, but if any such nominee should become unavailable for election, the shares of Common Stock represented by the enclosed proxy may (unless such proxy contains instructions to the contrary) be voted for such other person or persons as may be determined by the holders of such proxies.

Under the Company's Bylaws, nominations of persons for election to the Board, other than those made by or at the direction of the Board, may be made at the Annual Meeting only pursuant to a timely notice delivered or mailed to the Secretary of the Company. To be timely, a stockholder's written notice must be delivered or mailed to the Secretary at the Company's offices at 800 Miramonte Drive, Santa Barbara, California 93109 not more than the tenth day following the first public announcement of the Annual Meeting.

The following table sets forth the name and age of each director, the year the director was first elected and his or her position with the Company.

AUDIT COMMITTEE REPORT

The Audit Committee reviews the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process. The

6

Company's independent auditors are responsible for expressing an opinion on the conformity of our audited financial statements to generally accepted accounting principles.

In this context, the Audit Committee has reviewed and discussed with management and the independent auditors the audited financial statements, and the Audit Committee has also discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees). The Audit Committee also received from the independent auditors the written disclosures required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees) and discussed with them their independence from the Company and its management. The Audit Committee has further considered whether the independent auditors' provision of non-audit services provided by the auditors to the Company is compatible with the firm's independence.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2000 for filing with the Securities and Exchange Commission.

Submitted by the Audit Committee:

Mr. Michael S. Noling;
Mr. Howard J. Marsh; and
Ms. Lynn Scarlett

The above report of the Audit Committee shall not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Act of 1933 or under the Securities Exchange Act of 1934, except to the extent that the Company specifically incorporates this information by reference, and shall not be deemed filed under such Acts.

COMPENSATION OF DIRECTORS

Based on a study conducted by SCA Consulting LLC, the Board pays to each non-employee director an annual retainer fee of \$20,000, payable quarterly, plus a fee of \$1,000 for attending regular meetings and \$500 for each additional day of committee meetings attended. Messrs. Khashoggi, Daoud, Noling and Marsh, as well as Ms. Khashoggi and Ms. Scarlett are currently considered to be non-employee directors of the Company.

The 1995 Stock Incentive Plan, as amended, currently provides that each non-employee director automatically be granted options to purchase 25,000 shares of the Company's Common Stock, effective at the conclusion of each such annual meeting. All such stock options will (i) vest one year after grant, assuming the individual is serving as a director as of such vesting date, and (ii) have an exercise price equal to the "fair market value" of the underlying shares, which is defined in the Plan as the closing trading price on the day before each annual meeting. It is currently contemplated that the plan will be amended by the Board to change the vesting of director options such that the options will

Edgar Filing: EARTHSHELL CORP - Form DEF 14A

vest 25% at the end of each calendar quarter following grant, provided the director holding the option continues to serve as director at the end of such quarter.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's executive officers and directors and persons who own more than 10% of the Company's common stock to file reports of ownership and changes in ownership on Forms 3, 4 and 5 with the SEC. Executive officers, directors and 10% shareholders are required by the SEC to furnish the Company with copies of all Forms 3, 4 and 5 that they file.

Based solely on the Company's review of the copies of such forms it has received and representations from certain reporting persons that they were not required to file a Form 5 for specified fiscal years, the Company believes that all of its executive officers, directors and greater than 10% shareholders have complied with all of the filing requirements applicable to them with respect to transactions during the fiscal year ended December 31, 2000.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

All decisions relating to executive compensation during 2000 were made by the Company's Compensation Committee, which was comprised of Messrs. Khashoggi and Rubinstein, and Ms. Scarlett. Mr. Rubinstein resigned from the Board of Directors effective December 31, 2000. None of the members were officers of the Company in 2000. Mr. Khashoggi is the controlling shareholder in EKI, the Company's principal stockholder with which the Company has certain relationships and related transactions described below. EKI owns a 47.9% beneficial ownership interest in the Company.

Pursuant to an Amended and Restated License Agreement between the Company and EKI (the "License Agreement"), the Company has been granted a world-wide, exclusive, royalty-free license to utilize and sublicense others to utilize EKI's propriety technology in manufacturing, selling, and otherwise commercially developing EarthShell foodservice disposables. The License Agreement grants the Company exclusive rights to issued patents, pending patents and trade secrets to the extent that they relate to foodservice disposables produced from inorganic-based materials. The Company also has certain business, reporting, indemnification and confidentiality obligations under the License Agreement. At

Edgar Filing: EARTHSHELL CORP - Form DEF 14A

no additional cost to the Company, EKI has agreed to expand the License Agreement to include all meat tray products that constitute foodservice disposables.

14

The Company and EKI entered into an Amended and Restated Agreement for Allocation of Patent Costs (the "Patent Agreement"), effective October 1, 1997. Under the Patent Agreement, until September 30, 1999, the Company was obligated to pay all costs associated with prosecuting, filing, maintaining or acquiring patents and patent applications in connection with patents and patent applications that are directly related to foodservice disposables. After September 30, 1999, the Company is obligated to pay all costs associated with prosecuting, filing, maintaining or acquiring patents and patent applications in connection with technology that primarily benefits the foodservice disposable applications licensed to the Company (as compared with applications of such patents and patent applications outside the foodservice disposables field of use). EKI will pay for all other patent related costs. EKI and the Company will review, on a biennial basis, the comparative benefits of each existing patent and patent application to determine whether the foodservice disposables licensed to the Company derive the principal benefits from the patent or patent application in question and will allocate the associated patent costs for the ensuing two-year period accordingly. Under the Patent Agreement, the Company paid or accrued legal fees amounting to \$362,244 in 2000.

As of January 1, 2001, the Company began directly managing and paying for the maintenance of the patent portfolio underlying its License Agreement with EKI and anticipates amending the Patent Agreement accordingly to reflect its reduced reliance on EKI.

On February 16, 1998, EKI entered into a patent purchase agreement with a third party for the purchase of certain technology that is applicable to starch-based disposable packaging. Pursuant to the terms of the License Agreement, EKI is licensing such technology to the Company. In connection with this purchase, the Company entered an agreement to pay to EKI (for payment to the seller of the technology) \$3.5 million on or about December 31, 2003. The Company's obligation will be reduced by 5% of the purchase price of any equipment purchased by EKI, the Company or its licensees or joint ventures from the seller of the technology. In addition, the Company is required to pay \$3 million over the five-year period commencing January 1, 2004 if EKI, the Company or the Company's licensees or joint ventures have not purchased, by December 31, 2003, at least \$35 million of equipment from the seller of the technology and EKI, the Company or the Company's licensees or joint ventures actively use the purchased technology.

TECHNICAL SERVICES AGREEMENT

In addition to the License Agreement and the Patent Agreement, effective October 1, 1997, the Company and EKI entered into an Amended and Restated Technical Services Agreement (the "Technical Services Agreement"). Pursuant to the Technical Services Agreement, which was scheduled to expire on December 31, 2002, the Company has a first priority right to the services of certain EKI technical personnel for technical services specifically requested by the Company based on established hourly billing rates and the Company reimburses EKI for out-of-pocket expenses related to specific research projects. The intercompany rates were compared to a market rate study previously prepared by an independent third party provider of similar services and were within the range of average market rates for each job classification. In addition, the Technical Services Agreement extends the sublease of the Company's office space in Santa Barbara, comprising approximately 1,600 square feet, through March 31, 2001, subject to

Edgar Filing: EARTHSHELL CORP - Form DEF 14A

the right of the Company to terminate the sublease on 30 days' written notice. In 2000, the Company paid or accrued \$8,654,612 in costs for services performed under the Technical Services Agreement and \$67,200 in sublease payments. Pursuant to resolutions adopted by the Board of Directors in 2000, the Company reimbursed EKI \$117,289 for salaries and benefits paid by EKI for administrative support personnel during the twelve months ended December 31, 2000.

As of January 1, 2001, the Company effectively terminated the Technical Services Agreement and hired directly from EKI the scientific, technical and administrative personnel it required for its business operations. Effective also on January 1, 2001, the Company assumed direct responsibility for the lease obligations related to the Company's office and laboratory space in Santa Barbara and will enter into a new lease for such space (cancelable on six-months' notice) beginning April 1, 2001. The Company has also purchased from EKI certain operating equipment and machinery, furniture, supplies, tools and leasehold improvements to facilitate the transfer of the EKI employees to the Company. The purchase price for such tangible personal property will equal the lesser of \$900,000 or the appraised market value of the transferred property (determined by knowledgeable third-party appraisers). Payment of the purchase price has been deferred until the appraised value of the items has been confirmed and payments will be made thereafter in such periodic installments as the Company and EKI shall agree until the entire purchase price has been paid.

15

The Company is in the process of revising the intercompany agreements to reflect the retention of such EKI employees and the Company's reduced reliance on EKI. EKI will remain obligated to fund all employee compensation, employee benefits and related costs, which accrue through December 31, 2000. The purpose for the foregoing arrangement is to simplify EarthShell operations and to reduce costs on a going forward basis.

INDEBTEDNESS OWED TO EKI

As of December 31, 2000, the indebtedness owed by the Company to EKI totaled \$266,312 under the Technical Services Agreement and the Patent Allocation Agreement.

COMPENSATION COMMITTEE REPORT

The Compensation Committee (the "Committee") of the Board of Directors of EarthShell Corporation is pleased to present its annual report on executive compensation. This report describes the function of the Compensation Committee, the objectives of the Company's executive compensation program, the various components of compensation, and explains the basis upon which 2000 compensation determinations were made by the Committee with respect to the executive officers of the Company, including the officers that are named in the compensation tables.

COMPENSATION COMMITTEE CHARTER

The Committee is charged with the following responsibilities:

- reviewing and recommending to the Board of Directors the annual base

Edgar Filing: EARTHSHELL CORP - Form DEF 14A

salary, bonus and other benefits for the senior executive officers of the Company;

- reviewing and commenting on new executive compensation programs that the Company proposes to adopt;
- periodically reviewing the results of the Company's executive compensation and perquisite programs to ensure that they are properly coordinated to yield payments and benefits that are reasonably related to executive performance;
- ensuring that a significant portion of executive compensation is reasonably related to the long-term interests of the stockholders;
- participating in the preparation of certain portions of the Company's annual proxy statement;
- if necessary, hiring a compensation expert to provide independent advice on compensation levels; and
- ensuring that the Company undertakes appropriate planning for management succession and advancement.

COMPENSATION PHILOSOPHY

The primary objective of the Company's executive compensation program is to help the Company to achieve its strategic business objectives and to create value for the Company's stockholders by attracting, motivating and retaining highly qualified employees with outstanding ability. In addition, the compensation program is designed to promote teamwork, initiative and resourcefulness on the part of key employees whose performance and responsibilities directly affect Company profits. The compensation program strives to align compensation methods with stockholder interests to achieve desired results and, above all, to pay for performance.

COMPENSATION COMPONENTS

The Company's executive compensation program consists of a mixture of base salary, cash bonuses and stock options. In determining the mix and total amount of compensation for each executive officer, the Compensation Committee subjectively considers the executive's overall value to the Company including past and expected contributions by the officer to the Company's goals. In addition, the Compensation Committee strives to balance short-term and long-term incentive compensation to achieve desired results.

Shortly following the Company's initial public offering in March 1998, anticipating that it would be hiring several new executives as part of its next stage of development, the Company commissioned SCA Consulting LLC ("SCA"), a Los Angeles based executive compensation consulting firm, to update its executive compensation strategy and total pay structure. As part of its assignment, SCA developed a study of the compensation practices of newly public, development stage companies. The Compensation Committee will reference this study as it administers each of the three components of its executive compensation program to ensure that its compensation

practices are competitive and that the overall compensation package appropriately attracts, motivates, rewards, and retains key employees with outstanding abilities.

Edgar Filing: EARTHSHELL CORP - Form DEF 14A

BASE SALARY. The Company has historically determined base salary for its executives based on qualifications, job requirements and competitive market salaries that such qualifications and job requirements command. As the Company grows, it will continue to rely on peer group competitive compensation practices to remain consistent and competitive in its compensation practices.

Pursuant to an employment agreement effective October 15, 1993, Mr. D. Scott Houston, Chief Financial Officer and Secretary, received base compensation of \$320,498, reflecting the effects of various adjustments since 1993. This figure also includes \$498, which resulted from a disbursement to Mr. Houston under the 1999 Cafeteria 125 Flexible Spending Plan. The Company paid base compensation to Mr. Vincent Truant, Senior Vice President and Chief Marketing Officer in the amount of \$275,000 for his services to the Company during 2000. The Company paid base compensation to Mr. Richard DiPasquale in the amount of \$177,083 for his services to the Company for the portion of the year that he was employed by the Company in 2000. In addition, the Company paid to Mr. Robin O'Dell, former Vice President, base salary in the amount of \$194,250, for the portion of the year that he was employed by the Company in 2000, reflecting the effects of his mid-year base salary increase from \$180,000 to \$198,000.

Salaries for executives are reviewed by the Compensation Committee on an annual basis and may be adjusted based upon their assessment of the individual's contribution to and financial growth of the Company as well as competitive pay levels. Based on the annual review of the Compensation Committee of the Board of Directors, Mr. O'Dell was granted a base salary increase of approximately 10% from \$180,000 to \$198,000 on March 15, 2000. This increase was granted in connection with his promotion to Vice President.

BONUS. Bonuses may be granted for a fiscal year after the financial results for that fiscal year become available. The Compensation Committee meets to consider annual bonuses for each executive based on individual performance as well as overall financial results of the Company for the year. There is no plan requiring that bonuses be paid. However, pursuant to their employment agreements, certain executive officers may be entitled to receive an annual bonus, the actual amount of which shall be determined in the sole discretion of the Compensation Committee.

The Compensation Committee considers bonus compensation in light of the accomplishment of specific milestones developed by management in support of the annual strategic plan.

On March 13, 2001 the Compensation Committee met to review the performance of senior management for 2000 and to consider bonuses. Notwithstanding the important accomplishments of the year, due to the financial condition of the Company, the Compensation Committee elected not to grant bonuses to any member of senior management at this time.

STOCK OPTIONS. The Company believes that significant equity interests in the Company in the form of stock options held by the Company's management serve to align the interests of the executive management team with shareholder interests. The Stock Option Committee, comprised of members of the Board of Directors, may grant stock options and restricted stock to executives and other key employees of the Company pursuant to the 1995 Stock Incentive Plan. In 2000, options to acquire 20,000 and 30,000 shares of the Company's Common Stock at a purchase price of \$5.00 per share were granted to Messrs. Truant and Houston respectively. Options to acquire 30,000 shares at a purchase price of \$4.00 per share of the Company's Common Stock were granted to Mr. DiPasquale. All prices per share equal the fair market value of the Company's Common Stock on the date of grant.

The Stock Option Committee will continue to consider various methods to

Edgar Filing: EARTHSHELL CORP - Form DEF 14A

provide additional incentives to management and employees of the Company, including granting additional stock options and/or restricted stock. In determining the grants of stock options and restricted stock, the Stock Option Committee will take into account, among other things, the respective scope of responsibility and the anticipated performance requirements and contributions to the Company of each proposed award recipient as well as the amount of prior grants.

18

COMPENSATION TO CHIEF EXECUTIVE OFFICER IN 2000

Mr. Simon Hodson, the Company's Chief Executive Officer, received base compensation of \$500,000 during 2000.

Mr. Hodson's base salary was initially established by the Board of Directors prior to the formation of the Compensation Committee. It was based on the Board's assessment that Mr. Hodson was uniquely qualified to lead the Company through its early development stages. The Board determined that his vision for the Company, both from a technical and business viewpoint, would be pivotal to bringing the Company to the verge of commercializing its first product lines.

A founder of the Company and co-innovator of the technology, Mr. Hodson has been a driving force in making the Company - as a corporation and as a new packaging concept - a reality. His concern for the environment, coupled with his visionary leadership and commitment, has helped the Company achieve its current state of development.

DEDUCTIBILITY OF EXECUTIVE COMPENSATION

Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"), limits the deductibility of compensation over \$1 million to certain executive officers unless, in general, the compensation is paid pursuant to a plan which is performance related, non-discretionary and has been approved by the Company's stockholders. The Company did not pay any compensation in 2000 that would be subject to Code Section 162(m). The Compensation Committee intends to establish policies regarding qualification of compensation under Section 162(m) of the Code to the extent it considers such policies appropriate.
