#### Corporate Governance Guidelines

We have adopted a set of Corporate Governance Guidelines that describe a number of our corporate governance practices. The Corporate Governance Guidelines are available for viewing on our website at [www.ljpc.com](http://www.ljpc.com), under "Investor Relations."

#### Code of Ethics; Corporate Website

We have adopted a Code of Business Conduct and Ethics (the "Code of Ethics") that applies to all of our directors, officers and employees, including our principal executive officer, principal financial and accounting officer or persons performing similar functions. Our Code of Ethics is available for viewing on our website at [www.ljpc.com](http://www.ljpc.com), under "Investor Relations." We intend to disclose future amendments to the Code of Ethics, and waivers of the Code of Ethics granted to executive officers and directors, on our website within 4 business days following the date of the amendment or waiver. Our website may also be used to communicate other material developments to our shareholders from time to time, such as press releases, corporate presentations and presentations delivered at investor conferences. Shareholders are encouraged to regularly review our website for any such updates.

#### Communications with the Board of Directors

Our shareholders may communicate with our Board, or a particular director, by sending a letter addressed to the Board, or a particular director, to: c/o Corporate Secretary, La Jolla Pharmaceutical Company, 4550 Towne Centre Court, San Diego, California, 92121. All communications will be compiled by our Corporate Secretary and forwarded to the Board, or the director, accordingly.

#### Board Leadership Structure; Risk Management

The role of our Chairman of the Board is separate from our Chief Executive Officer. The Board has determined that its structure is appropriate at this time given the Company's specific characteristics and circumstances, including the Board's commitment to independent Board and Committee leadership, and to fulfill the Board's duties effectively and efficiently so that our business receives the undivided attention of the Chief Executive Officer.

Our Board is responsible for oversight of our risk management policies and procedures. We are exposed to a number of risks, including financial risks, strategic and operational risks and risks relating to regulatory and legal compliance. The Board will regularly discuss with management our major risk exposures and the steps management has taken to monitor and control such exposures, including the guidelines and policies to govern the process by which risk assessment and risk management are undertaken, and highlighting any new risks that may have arisen since they last met.

The Board oversees the management of risk exposure and risk mitigation in various areas including: (i) risks relating to our employment policies and executive compensation plans and arrangements; (ii) financial risks and taking appropriate actions to help ensure quality financial reporting and appropriately conservative investment practices; and (iii) risks associated with the independence of the Board and potential conflicts of interest. The Audit Committee reviews policies with respect to risk assessment and risk management and consults with outside resources as appropriate on other matters that could have a significant impact on the Company's consolidated financial statements. The Audit Committee also reviews policies with respect to financial risk and makes recommendations to the Board. The Board's administration of its risk oversight function has not affected the Board's leadership structure, which separates the roles of our Chairman of the Board and our Chief Executive Officer.

#### Director Nominations

Our Corporate Governance and Nominating Committee regularly assesses the appropriate size of the Board and whether any vacancies on the Board are expected due to retirement or otherwise. In the event that vacancies are anticipated or otherwise arise, the Corporate Governance and Nominating Committee may utilize a variety of methods for identifying and evaluating director candidates. Candidates may come to the attention of the Corporate Governance and Nominating Committee through current directors, professional search firms, shareholders or other persons. Once the Corporate Governance and Nominating Committee has identified a prospective nominee, it will evaluate the prospective nominee in the context of the then-current constitution of the Board and will consider a variety of other factors, including the prospective nominee's business, industry, finance and financial reporting experience, as well as attributes that would be expected to contribute to an effective Board. The Corporate Governance and Nominating Committee seeks to identify nominees who possess a wide range of experience, skills and areas of expertise, knowledge and business judgment. Our Corporate Governance and Nominating Committee thus considers a broad range of factors relating to the qualifications and background of nominees, which may include diversity, which is not only limited to race, gender or national origin, but also includes diversity of experience and skills. We have no formal policy regarding Board diversity. Our Corporate Governance and Nominating Committee's priority in selecting directors is the identification of persons who will further the interests of our shareholders through his or her established record of professional accomplishment, the ability to contribute positively to the collaborative culture among directors, professional and personal experiences and expertise relevant to our growth strategy. Successful nominees must have a history of superior performance or accomplishments in their professional undertakings and should have the highest personal and professional ethics and values. The Corporate Governance and Nominating Committee does not evaluate shareholder nominees differently than any other nominee.

Pursuant to procedures set forth in the Company's Bylaws, as amended and restated (the "Bylaws"), our Corporate Governance and Nominating Committee will consider shareholder nominations for directors if we receive timely written notice, in proper form, of the intent to make a nomination at a meeting of shareholders. To be timely, the notice must be received within the time frame discussed in our Bylaws. To be in proper form, the notice must, among other matters, include each nominee's written consent to serve as a director if elected, a description of all arrangements or understandings between the nominating shareholder and each nominee and information about the nominating shareholder and each nominee. A copy of our Bylaws will be provided on written request to our Corporate Secretary.

## Report of the Audit Committee

The Audit Committee oversees our financial reporting process. Management has the primary responsibility for the consolidated financial statements and the reporting process, including our system of internal control over financial reporting. In fulfilling its oversight responsibilities, the Audit Committee reviewed and discussed the audited consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2017 with management, including a discussion of the quality, not merely the acceptability, of the accounting and financial reporting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

The Audit Committee reviewed our audited consolidated financial statements with our independent auditor, which is responsible for expressing an opinion on the conformity of those audited consolidated financial statements with U.S. generally accepted accounting principles, including a discussion of such matters as are required to be discussed under U.S. generally accepted auditing standards. In addition, the Audit Committee has discussed with the independent auditor its independence from us and our management, including as set forth in Auditing Standard 1301: Communications with Audit Committees (formerly known as Auditing Standard No. 16). The Audit Committee has also considered the compatibility of the independent auditor's provision of non-audit services to us with the auditor's independence.

The Audit Committee discussed with our independent auditor the overall scope and plan for its audit. The Audit Committee met with the independent auditor, with and without management present, to discuss the results of its examinations, its evaluations of our internal controls and the overall quality of our financial reporting.

Based on the reviews and discussions referred to above, the Audit Committee recommended that our audited consolidated financial statements be included in our Annual Report on Form 10-K for the year ended December 31, 2017 for filing with the SEC. This report is provided by the following directors, who perform the functions of the Audit Committee:

Craig A. Johnson, Chairman of Audit Committee  
Robert H. Rosen  
Laura L. Douglass

## Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our directors and officers and persons who own more than 10% of our equity securities to report their initial beneficial ownership of our equity securities, and any subsequent changes in such beneficial ownership, to the SEC. Specific due dates for these reports have been established, and we are required to disclose any known late filings during the year ended December 31, 2017. To our knowledge, based solely on our review of the copies of such reports required to be furnished to us during the year ended December 31, 2017, all of these reports were timely filed.

## Item 11. Executive Compensation.

### Compensation Discussion and Analysis

#### Overview

The following Compensation Discussion and Analysis describes the material elements of compensation earned by our 5 executive officers who served during 2017, which includes the Chief Executive Officer, Chief Medical Officer,

Chief Financial Officer, Chief Operating Officer and Chief Scientific Officer (who held the title of Vice President of Research & Development during 2016), collectively referred to herein as the Company's Named Executive Officers.

#### Compensation Philosophy and Objectives

Our goal is to provide a competitive total compensation package with significant emphasis on pay for performance. Accordingly, we favor equity and discretionary awards over guaranteed cash compensation in order to drive accomplishments that enhance shareholder value and align the interests of our executive officers and our shareholders. This means that our executive officers will not realize the total potential value of their compensation package unless performance goals, which are directly tied to our corporate performance, are achieved. The Compensation Committee believes that our executive compensation program is reasonable in light of the executive compensation programs of our peer group companies and is appropriately designed to incentivize our management team to achieve our short-term and long-term corporate objectives, while effectively managing business risks and challenges.

Based on the foregoing objectives, executive compensation is based on three primary components: base salary, annual incentive bonuses and equity awards. The Compensation Committee believes that cash compensation in the form of base salary and an annual incentive bonus provides our executive officers with short-term rewards for success in operations, and that long-term compensation in the form of equity awards aligns the objectives of our executive officers with those of our shareholders with respect to long-term performance and success. In addition, our executive officers receive benefits that are generally available to all of our employees. Our compensation-setting process includes reviewing the targeted overall compensation for each executive officer and then allocating that compensation between base salary, annual incentive bonuses and equity awards, based appropriately on industry and salary survey data for public companies of a similar market capitalization, size and stage of clinical development.

With respect to equity awards, these awards typically vest and become exercisable over a period of four years, consisting of an initial one-year cliff-vest, followed by monthly vesting. However, we have also used performance-based vesting conditions and the combination of performance-based and time-based vesting conditions for certain awards. We believe that long-term value creation, contrasted with short-term gain, presents the best opportunity for employees to profit from these awards. In circumstances where performance-based equity awards have been granted, the events that trigger vesting are generally estimated to be achieved at least one year from the grant date, although shorter performance goals may be used in some cases. The Company has not historically used claw-back provisions or imposed holding periods for vested awards, although the Compensation Committee may consider whether such mechanisms might be appropriate in the future to mitigate risk.

#### Risk Management and Mitigation

In reviewing the compensation structure for 2017, we also considered how the Company's compensation policies may affect the Company's risk profile and whether compensation policies and practices may encourage risk-taking by employees. More specifically, we considered the general design philosophy of the Company's policies for employees whose conduct would be most affected by incentives established by compensation policies. In considering these issues, we concluded that the use of annual incentive bonuses and long-term equity awards did not appear to create undue risks for the Company or encourage excessive risk-taking behavior on the part of our employees.

#### Roles in Determining Compensation

##### Compensation Committee

The Compensation Committee has the responsibility of reviewing the appropriateness of the total compensation paid to our executive officers. The Compensation Committee oversaw and approved all compensation arrangements and actions for our key employees in 2017, including the Named Executive Officers. The Compensation Committee has delegated to the Chief Executive Officer certain administrative responsibilities under the Company's 2013 Equity Incentive Plan, allowing the Chief Executive Officer to set base salaries and annual incentive bonus targets, as well as make equity award grants within predetermined guidelines established by the Compensation Committee and limited to non-officer employees of the Company.

##### Compensation Consultant

In 2017, the Compensation Committee engaged the services of Marsh & McLennan Agency, LLC (formerly known as Barney & Barney) ("MMA"), a national insurance firm that provides compensation consulting services. The directive for MMA was to assist the Compensation Committee in its review of executive and director compensation practices, including the competitiveness of pay levels, executive compensation design and review and analysis of competitive data with respect to the Company's peers in the industry. The Compensation Committee has the authority to engage and terminate the services of compensation consultants. The decision to engage MMA was not made, or

recommended, by the Company's management. MMA also provides insurance brokerage services to the Company outside of its services to the Compensation Committee. The Compensation Committee, after a review of the factors set forth in Section 10C-1 of the Securities Exchange Act of 1934, has determined that MMA is independent, and the insurance brokerage work and compensation consulting work performed by MMA do not present any conflicts of interest.

#### Say-on-Pay

On June 5, 2013 and August 23, 2016, the Company provided shareholders a "say-on-pay" advisory vote on its executive compensation under Section 14A of the Securities Exchange Act of 1934. At the Company's 2013 and 2016 Annual Meetings of Shareholders, shareholders expressed support for the compensation of our Named Executive Officers, with a

majority of the votes cast for approval of the “say-on-pay” advisory vote. The Compensation Committee carefully evaluated the results of these advisory votes. The Compensation Committee also considered many other factors in evaluating the Company's executive compensation programs as discussed in this Compensation Discussion and Analysis, including the Compensation Committee's assessment of the interaction of our compensation programs with our corporate business objectives, evaluations of our programs by external consultants and review of peer group and survey data, each of which is evaluated in the context of the Compensation Committee's fiduciary duty to act as the directors determine to be in shareholders' best interests. While each of these factors bore on the Compensation Committee's decisions regarding our Named Executive Officers' compensation, the Compensation Committee did not make any changes to our executive compensation program and policies as a result of the “say-on-pay” advisory votes. The Company also provided shareholders a “say-on-frequency” advisory vote on June 5, 2013. As previously disclosed, in light of the results of such shareholder vote, the Board adopted a resolution to hold a “say-on-pay” vote once every three years. The next “say-on-pay” vote will be held at the Company's 2019 Annual Meeting of Shareholders, at which time the Company will also submit a new “say-on-frequency” vote for consideration.

### Base Salary

Base salaries for executives are based on job responsibilities, accountability and the experience of the individual. For 2017, the Compensation Committee implemented a policy of targeting base salaries for executives, including the Chief Executive Officer, at or near the 50th percentile of salaries of executives with similar roles at similar organizations, based on broad comparative data. In its assessment of executive compensation levels, MMA provided information which indicated that, using the Company's identified peer group, executive cash compensation was slightly below the 50th percentile.

During its review of base salaries for executives and other key employees, the Compensation Committee primarily considered:

- market data provided by MMA and publicly available industry surveys to ensure competitive compensation;
- compensation data for public companies of a similar market capitalization, size and stage of clinical development;
- individual performance of the executive for the prior year, including achievements and overall contribution to the Company's growth and business success; and
- internal review of the executive's overall compensation relative to other executives at a similar level.

The Compensation Committee considers these factors in the aggregate, without assigning weight to any specific factor, and not every factor was considered for each executive officer.

Salary levels are typically considered annually as part of our performance review process as well as upon promotion or other changes in job responsibilities. Merit increases are awarded based on the Compensation Committee's subjective overall review of an executive's performance of his or her job responsibilities. In addition, base salaries are reviewed annually to assure comparability with market practices. Market adjustments generally are reserved for those employees whose base salaries fall below market. In the evaluation of performance for 2017, the Compensation Committee approved an increase of 3% in the base salaries for Dr. Tidmarsh, Dr. Chawla, Mr. Mulroy, Ms. Carver and Mr. Rolke. Ms. Carver and Mr. Rolke also received an additional salary adjustment of 6% and 3%, respectively. These increases were effective commencing with the first pay period in 2018.

### Annual Incentive Bonus

The annual incentive bonus for the Named Executive Officers is determined based on corporate performance and also individual achievements and performance, as warranted. The Compensation Committee, consistent with the overall corporate philosophy of keeping cash compensation for executives at or near the 50th percentile when compared to executives with similar roles at similar organizations, reviewed the target bonus potential payout for the Named Executive Officers together with other generally available market comparative data. The target bonus is set at an incentive level based on the executive's accountability and potential impact on the Company's performance.

Accordingly, the more control and accountability that an executive has over the Company's performance, the greater the percentage of that executive's total compensation is dependent on annual incentive bonus. The targeted annual incentive bonus payout for 2017 was 60% of base salary for Dr. Tidmarsh and 40% of base salary for each of Dr. Chawla, Mr. Mulroy, Ms. Carver and Mr. Rolke. Based on individual achievement and performance in 2017, Ms. Carver's target bonus percentage was increased from 40% to 47%. In determining the annual incentive bonus opportunity for executives, the executive's annual base salary is multiplied by his or her target bonus percentage. The resulting amount is then multiplied by the corporate performance percentage approved by the Compensation Committee, which is dependent on the achievement of corporate performance goals, and also potentially adjusted upwards or downwards for individual executives based on their individual contribution toward the corporate results during the relevant year. For 2017, the Compensation Committee determined that our Named Executive Officers achieved 125% of their corporate

performance goals and individual contribution toward the corporate results. Key factors in determining the 2017 level of achievement included the early U.S. Food and Drug Administration (the “FDA”) approval of GIAPREZA, initiation of a pivotal phase 2 study of LJPC-401 for the treatment of beta thalassemia patients suffering from iron overload and the initiation of a phase 2 study for LJPC-401 in patients with hereditary hemochromatosis. Annual incentive bonus payouts made to the Named Executive Officers for their performance in 2017 are shown in the “Non-Equity Incentive Plan Compensation” column of the “Summary Compensation Table” below.

For annual incentive bonuses for our executive officers, in any given year, a minimum overall goal achievement of greater than or equal to 50% is required for an executive officer to earn any annual incentive bonus. The target bonus can be earned if a goal achievement of 100% is obtained; for extraordinary performance in corporate goal achievement, up to 150% of the target bonus for that goal could be awarded. Accordingly, for the Named Executive Officers, there is the potential to receive up to 150% of their overall bonus target. The Compensation Committee retains broad discretion to modify our target goals at any time, including the methodology for calculating the specific bonus amounts. The Compensation Committee may also, in its sole discretion, determine to either increase annual incentive bonus payouts for extraordinary achievement or to reduce payout if economic and business conditions warrant.

#### Equity Awards

The executive equity award program is designed to promote high performance and achievement of corporate goals by employees on a long-term basis, encourage the growth of shareholder value and allow employees to participate in the long-term success of the Company. As of December 31, 2017, the Company had approximately 200 employees and 4 non-employee directors who were eligible to receive equity awards. Under the Company’s 2013 Equity Incentive Plan, the Board (or a committee thereof, including the Compensation Committee) may grant stock options, shares of stock, restricted stock units, stock appreciation rights and performance awards. In granting these awards, the Board (or a committee thereof, including the Compensation Committee) may establish any conditions or restrictions it deems appropriate.

The Company has granted equity awards to our executive officers and other employees in the form of stock options. These stock options will provide compensation only to the extent that the Company’s stock price appreciates over that time. The Compensation Committee has provided executive officers with an equity stake in the business, which we believe aligns the long-term interests of the management team with our shareholders. Because a financial gain from stock options is only possible if the price of the Company’s common stock has increased, the Company believes that option grants motivate our executives and other employees to deliver superior performance and focus on behaviors and initiatives that lead to long-term value creation, which benefits all of the Company’s shareholders. The Company typically grants time-based vesting stock options, but has also granted performance-based stock options to our Chief Executive Officer and certain other executives on occasion.

Stock option award levels are based on option grant guidelines approved by the Board or the Compensation Committee and vary among employees based on their level within the Company and their individual performance. Annual awards of stock options to executives are made as part of the annual review of executive performance, which typically occurs around year end. Newly hired or promoted executives receive their award of stock options on their date of hire or promotion, respectively, or at the next regularly scheduled Compensation Committee or Board meeting following their hire or promotion date. The Compensation Committee targets stock option award levels for executives, including the Chief Executive Officer, at or near the 75th percentile of long-term incentive awards of executives with similar roles at similar organizations, based on broad comparative data. The resulting amount is then multiplied by the corporate performance percentage approved by the Compensation Committee, which is dependent on the achievement of corporate performance goals, and also potentially adjusted upwards or downwards for individual executives based on their individual contribution toward the corporate results during the year and prorated for their time employed

during 2017. The Compensation Committee, in line with the Company's philosophy to encourage long-term value creation, elected to emphasize the equity portion of each executive's overall total compensation. The grant of options by the Company is unrelated to any anticipated major announcements made by the Company and, therefore, is not influenced by any material, non-public information that may exist at the time of grant.

Following an annual review of compensation, as well as individual and corporate performance that was completed in early December 2017, Dr. Tidmarsh, Dr. Chawla, Mr. Mulroy, Ms. Carver and Mr. Rolke were each granted an option to purchase up to 183,000, 49,000, 49,000, 49,000 and 49,000 shares, respectively, of common stock at a price equal to the fair market value of the common stock on the grant date, which was December 11, 2017. Later in December, the Company received news from the FDA that their New Drug Application for GIAPREZA was approved two months ahead of its Prescription Drug User Fee Act date. Based on this new information the Compensation Committee awarded Dr. Tidmarsh, Dr. Chawla, Mr. Mulroy, Ms. Carver and Mr. Rolke each an additional option to purchase up to 25,000, 6,700, 6,700, 6,700 and 6,700 shares, respectively, of common stock at a price equal to the fair market value of the common stock on the grant date, which was December 27, 2017. These stock options vest and become exercisable with respect to 25% of the underlying shares on the one-

year anniversary of the grant date, and the remaining shares vest and become exercisable ratably on a monthly basis over the next three years, such that these options are fully vested and exercisable on the fourth anniversary of the grant date, subject to the recipient's continued service with the Company through each such vesting date. These options were granted and governed in all respects under the Company's 2013 Equity Incentive Plan.

#### Employee Benefit Program

We have not historically provided special benefits or perquisites to our Named Executive Officers and did not do so in 2017. The Named Executive Officers are eligible to participate in all of the Company's health, welfare, paid time-off and retirement savings benefit programs on the same terms as are available to other employees. These benefit programs are designed to enable the Company to attract and retain its workforce in a competitive marketplace. Health, welfare and paid time-off benefits ensure that the Company has a productive and focused workforce through reliable and competitive health and other benefits. The retirement savings plan helps employees save and prepare financially for retirement.

The Company's retirement savings plan (the "401(k) Plan") is a tax-qualified retirement savings plan, pursuant to which all employees, including the Named Executive Officers, are able to contribute the lesser of 50% of their annual compensation (as defined) or the limit prescribed by the Internal Revenue Service to the 401(k) Plan on a before-tax basis. The Company matches employee contributions to the 401(k) Plan based on each participant's contribution during the plan year, up to 3.5% of each participant's annual compensation.

#### Employment and Separation Arrangements

From time to time, we have provided executive officers with certain termination and change in control benefits. Where implemented, the Compensation Committee or Board has approved such termination and change in control benefits in order to maintain market-competitive compensation practices and to mitigate some of the risk that exists for executives working in a biopharmaceutical company at our current stage of development and where the possibility exists that we may be acquired if our business efforts succeed. These arrangements are intended to retain highly skilled executives who have, or who may seek, alternatives that may appear to them to be less risky in terms of the potential loss of their position following a merger or sale, particularly where the services of these executive officers may not be required by the acquirer.

A summary of the terms of the arrangements we have with our Named Executive Officers and the potential value of payments on termination or change in control is provided below under the captions "Employment and Separation Agreements" and "Potential Payments on Termination or Change in Control."

#### Competitive Market Review

In 2017, the Compensation Committee retained MMA to assist the committee in identifying a selected peer group of companies within the biotechnology/biopharmaceutical industry and with similar identified characteristics to our Company to be used to assess compensation levels for the top senior management positions. MMA was involved with the process of selecting an appropriate peer group for our Company and collecting and analyzing compensation data of the companies within our peer group. In addition, for some positions, we reviewed other broader market surveys within our industry. While we do not establish compensation levels based solely on comparative data, pay practices at other companies are an important factor that is considered in assessing the reasonableness of compensation and ensuring that our compensation practices are competitive in the marketplace. In compiling the peer group for 2017, the factors that were identified as providing well-defined comparatives to the Company were market capitalization (\$600 million to \$1.5 billion), current stage of clinical development or business activity (product(s) in Phase 3 studies and/or close to potential commercialization) and number of employees (< 300). While the Compensation Committee

reviewed compensation data pertaining to these companies, it determined that elements such as the Company's diversity of clinical development activities and the level of executive experience should be significant factors in assessing compensation levels, and certain factors such as number of employees or market capitalization might allow for easy categorization, but were not necessarily the most significant factors in determining the relative need by the Company to recruit highly skilled executives. The 21 companies in the peer group identified by MMA for 2017 are listed below.

#### Tax Considerations

In making compensation decisions affecting our executive officers, the Board or the Compensation Committee may, among other considerations, also give consideration to our ability to deduct, under applicable federal corporate income tax laws, compensation payments made to executives.

#### Minimum Stock Ownership Requirements

There are no minimum stock ownership guidelines for our executives or employees, although senior members of our management team are encouraged, and expected, to have a significant direct interest in the value of our common stock through the receipt of equity awards and/or open market purchases, as the case may be. We strive to design our compensation program to stress long-term ownership in Company equity as the means of best aligning the interests of our executives with those of our shareholders.

#### Compensation Committee Interlocks and Insider Participation

None of the members of the Compensation Committee have ever been an employee or officer of the Company. In that year, none of our executive officers served as a director or a member of the Compensation Committee of another entity where such entity's executive officers served as a director or a member of our Compensation Committee.

#### Compensation Committee Report

The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K. Based on this review and discussion, the Compensation Committee recommended that the foregoing Compensation Discussion and Analysis be included in this amendment to the Annual Report on Form 10-K.

## CEO Pay Ratio

As required by Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 402(u) of Regulation S-K, we are required to disclose the ratio of our median employee's annual total compensation to the annual total compensation of our Chief Executive Officer (the "CEO Pay Ratio"). Annual total compensation consists of base salary, incentive bonuses, grant-date fair value of equity awards and all other compensation earned. For the year ended December 31, 2017:

the annual total compensation of the median employee was \$382,505

the annual total compensation of George F. Tidmarsh, M.D., Ph.D, our Chief Executive Officer, was \$6,450,643

The CEO Pay Ratio was 17 to 1. In accordance with Item 402(u) of Regulation S-K, we identified the median employee by listing all employees as of December 31, 2017. Employees on leave-of-absence were excluded from the list, and salaries and bonuses were annualized for those employees that were not employed for the full year of 2017. The median amount was selected from the annualized list. For simplicity, the value of the Company's contribution to the 401(k) plan, life insurance premiums paid by the Company and medical benefits provided were excluded, as all employees including the Chief Executive Officer are offered the same benefits.

The aggregate grant-date fair value of stock options was computed in accordance with Financial Accounting Standards Board ("FASB") Accounting Standard Codification ("ASC") Topic 718 for all stock options granted. The assumptions used in calculating the fair value of the stock options granted are disclosed in Note 6 to the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2017. These amounts reflect the net aggregate grant-date fair value for these stock options and do not correspond to the actual value that will be realized by the median employee or the Chief Executive Officer.

The CEO Pay Ratio of the companies in our peer group as disclosed for the most recent fiscal year are set forth in the table below. The average CEO Pay Ratio for our peer group listed below is 18:1.

## Potential Payments on Termination or Change in Control

The following table sets forth information regarding potential payments that would have been made to our Named Executive Officers upon various termination or change-in-control events, assuming such events occurred as of December 31, 2017. Because none of our Named Executive Officers have employment agreements that provide for severance or benefit continuation payments on a termination without cause or a resignation for good reason or change of control, no such potential payments are reported in the table below.

1. The executive officers' employment offer letters do not provide for severance benefits upon termination, with or without a change of control. However, pursuant to the terms of the stock options, the executive officers are entitled

to accelerated vesting of their equity awards in certain circumstances, as set forth in this table.

Represents the value of “in-the-money,” unvested equity awards that would have accelerated if the Named Executive Officers were terminated as a result of a change of control on December 31, 2017, based on the closing price of our common stock of \$32.18 on the last trading day of 2017, which was December 29, 2017.

#### Director Compensation

Retainers and Fees for 2017. Directors who are also our employees receive no extra compensation for their service on the Board. In 2017, our non-employee directors received an annual fee of \$60,000, which is paid quarterly. The Chairman of the Board, Mr. Tang, has elected to waive all cash compensation for his service as a director.

Option Grants for 2017. Each of our non-employee directors is eligible to receive, upon becoming a non-employee director, a one-time grant of a non-qualified stock option under the Company's 2013 Equity Incentive Plan in an amount to be determined by the Board at an exercise price equal to the fair market value of a share of common stock on the grant date. These non-employee director options have a term of 10 years and vest with respect to one-third of the underlying shares on the one-year anniversary of the grant and with respect to the remainder of the underlying shares on a quarterly basis for two years thereafter. Each non-employee director receives an additional grant annually of a non-qualified stock option in an amount to be determined by the Board. These non-employee director options have a term of 10 years and vest fully on the one-year anniversary of the grant date. The exercise price for these additional non-employee director options is the fair market value of our common stock on the grant date. All outstanding non-employee director options vest in full immediately prior to any change in control. Each non-employee director is also eligible to receive additional options under the Company's 2013 Equity Incentive Plan at the discretion of the Board. These options vest and become exercisable pursuant to the Company's 2013 Equity Incentive Plan and the terms of the option grant.

The table below sets forth the total compensation paid to our non-employee directors for 2017.
