ALVARION REPORTS FIRST QUARTER 2006 RESULTS

Continued sequential growth, Reduced non-GAAP Loss; Maintained WiMAX Leadership

TEL AVIV, Israel—May 10, 2006 -- Alvarion Ltd. (NASDAQ: ALVR), the leading provider of wireless broadband solutions and specialized mobile networks, today announced financial results for the first quarter ended March 31, 2006.

Revenue for the first quarter reached \$48.1 million, up 3% sequentially from \$46.5 million in the fourth quarter of 2005. Revenue in Q1 2006 declined 16% from \$57.2 million in the first quarter of 2005, primarily reflecting a higher revenue contribution from one large customer during the first quarter of 2005.

Gross margin was 46% in Q1 of 2006, exceeding the company's target gross margin of 45%.

On a GAAP basis, the company reported a net loss of \$(5.0) million, or \$(0.08) per share, compared with a net loss of \$(3.9) million, or \$(0.07) per share in Q4 2005, and net profit of \$356,000, or \$0.01 per basic and diluted share in the first quarter of 2005. The net loss in Q1 2006 reflects the adoption of SFAS 123R ("Share-Based Payment") for the first time, and includes amortization of deferred stock compensation of \$1.5 million, compared with \$11,000 in Q4 2005 and \$530,000 in Q1 2005.

Excluding amortization of acquired intangibles and deferred stock compensation and one time charges, on a non-GAAP basis, Q1 2006 net loss was (\$2.4) million, or (\$0.04) per share,

compared with a net loss of (\$3.8) million, or (\$0.06) per share in the fourth quarter of 2005, and a non-GAAP net profit of \$2.8 million, or \$0.04 per diluted share in Q1 of 2005.

For supplemental information to facilitate evaluation of the impact of adopting SFAS 123R and comparisons with historical results, see the attached table showing the detailed reconciliation of GAAP to non-GAAP for Q1 2006.

Comments of Management

“We are pleased with the continued sequential growth in Q1, particularly during a period that traditionally has been a seasonally weak quarter,” said Tzvika Friedman, President and CEO of Alvarion. “This quarter we improved gross margin and significantly reduced our non-GAAP loss.

“We continue to lead the adoption of WiMAX,” continued Mr. Friedman. “Since we introduced our BreezeMAX solution, it has generated over \$50 million in revenue, many times the sales of other vendors’ WiMAX products. In Q1, BreezeMAX again grew to reach 28% of our total revenue, compared with about 10% in the same period last year. With 55 commercial deployments and about 100 active trials, we are still at the very beginning of the adoption curve. We believe deployments will be expanded and trials will translate into additional business once some of the operators complete their technology qualification cycle or obtain licenses for spectrum, and once WiMAX solutions are available in additional frequencies, and self-install subscriber units become widely available. We are expecting progress in each of these areas in the second half of this year.

“Revenue from our other broadband wireless solutions remained steady and we are continuing to expand our customer base in frequencies where there is no WiMAX profile and in the unlicensed bands. We recently signed a worldwide strategic partnership agreement with IBM and have won several deals with them in the municipal broadband market in the U.S.

“As a result of a disappointing level of orders in our cellular mobile unit (“CMU”) so far in Q2 and our assessment of the outlook, we have decided to refocus the business to concentrate on generating positive cash flow, mainly from our GSM solutions, while supporting all current customers. We are beginning an analysis to determine the possible need for a certain non-cash charge in Q2 for impairment of some of the intangible assets related to this business.”

Mr. Friedman continued, “In Q1 we reached an important milestone for the whole industry with the first live showcase of our mobile WiMAX solution called 4Motion™ at the CTIA show in Las Vegas. 4Motion is our complete WiMAX 802.16e-2005 solution portfolio that we are developing in conjunction with leading providers of core network and IP technology to make personal broadband anywhere a reality. We are constantly shifting more of our resources toward 802.16e-2005 4Motion solutions which are gaining increased interest and attention from a wide variety of operators.”

Q2 Guidance

The Company's revenue guidance for Q2 2006 is \$48 million to \$52 million. At this revenue range, non-GAAP per share results are expected to range between a loss of 2 and 5 cents per share. This guidance excludes expenses related to amortization of acquired intangibles, the effect of stock option expensing, and any possible one-time charges for the CMU business, if any. Since it is too early to indicate the impact of these charges, and whether or not certain of these charges will occur, the company will not provide GAAP earnings per share guidance.

Alvarion's management will host a conference call today, May 10, at 9:00 a.m. Eastern time to discuss the quarter. To participate in the call, please dial one of the following numbers approximately five minutes prior to the scheduled start time: USA: 612-332-0228, International: +1-612-332-0228.

The public is invited to listen to the live webcast of the conference call. For details please visit Alvarion's website at www.alvarion.com. An archive of the on-line broadcast will be available on the website. A replay of the call will be available from 11:45a.m. EDT on May 10, 2006 through 11:59 p.m. EDT on May 17, 2006. To access the replay, please call USA: (320) 365-3844, International: +1-320-365-3844. To access the replay, users will need to enter the following code: 826643.

About Alvarion

With more than 2 million units deployed in 140 countries, Alvarion is the worldwide leader in wireless broadband, providing systems to carriers, ISPs and private network operators, and also in extending coverage of GSM and CDMA mobile networks to developing countries and other hard to serve areas.

Leading the WiMAX revolution, Alvarion has the most extensive deployments and proven product portfolio in the industry covering the full range of frequency bands with both fixed and mobile solutions. Alvarion's products enable the delivery of business and residential broadband access, corporate VPNs, toll quality telephony, mobile base station feeding, hotspot coverage extension, community interconnection, public safety communications, and mobile voice and data. Alvarion works with several global OEM providers and more than 200 local partners to support its diverse global customer base in solving their last-mile challenges.

As a wireless broadband pioneer, Alvarion has been driving and delivering innovations for more than 10 years from core technology developments to creating and promoting industry standards. Leveraging its key roles in the IEEE and HiperMAN standards committees and experience in deploying OFDM-based systems, the Company's prominent work in the WiMAX Forum™ is focused on increasing the widespread adoption of standards-based products in the wireless broadband market and leading the entire industry to mobile WiMAX solutions.
