ITEM 7. FINANCIAL STATEMENTS AND EXHIBITS

Edgar Filing: AMCON DISTRIBUTING CO - Form 8-K

Omaha, NE based consumer products company, announced today net income of \$0.3 million or \$0.10 per diluted share for the fourth quarter ended September 2003 compared with \$0.6 million or \$0.20 per diluted share for the fourth quarter of the prior year. Sales for the fourth quarter were \$207.5 million compared to \$224.1 million for the same period in the prior year.

For the fiscal year ended September 2003, AMCON reported net income of \$1.0 million or \$0.32 per diluted share compared to \$2.0 million or \$0.63 per diluted share for the prior year. Sales for fiscal year ended September 2003 were \$772.1 million compared to \$847.1 million for the same period of the prior year.

William F. Wright, Chairman of AMCON, stated that, "Early last year we decided to establish The Beverage Group ("TBG") to assist in the marketing and distribution of our Hawaiian Springs brand, along with several other specialty beverages. We chose that avenue rather than endeavoring to buy an existing beverage company since we believed that prices for existing beverage companies were unreasonable. By establishing TBG, the costs of such establishment are deducted as expenses when incurred, rather than capitalized as would have been the case in an acquisition. Approximately \$0.57 per diluted share of our earnings for this year went towards establishing TBG. We believe that the wisdom of our decision will be validated in the future.

Sales in our wholesale distribution segment for the fourth quarter of fiscal 2003 were below the prior year as the deflationary trend in cigarette prices continued through the fourth quarter and carton volume was 2.5% below the fourth quarter of the prior year. These negative sales factors were partially offset by an increase in sales of other products of \$2.0 million in our wholesale segment. Despite the reduction in sales, gross profit in the wholesale segment was \$0.5 million higher than the fourth quarter of fiscal 2002. In addition, operating expenses and interest expense were \$0.8 million lower than the prior year which resulted in the wholesale distribution business generating pre-tax income of \$1.2 million greater than the fourth quarter of the prior year.

Sales in the retail health food business for the fourth quarter were \$0.4 million greater than the prior year as our stores in the Midwest continued to show improvement over the prior year. Pre-tax income in this segment was also \$0.1 million greater than the fourth quarter of the prior year.

Sales in our beverage segment increased only slightly over the prior year as it still represents a business in the start-up phase. The formation of TBG earlier in the year to market and distribute our Hawaiian Springs brand of bottled natural spring water and other specialty beverages resulted in significant expenses being incurred to develop markets for the brands. As a result, the beverage business incurred a pre-tax loss of \$2.3 million during the fourth quarter of fiscal 2003."

Wright added "For the year, our pre-tax profit and cash flow numbers in our wholesale segment improved dramatically. In that segment, net income before taxes of \$7.6 million was up over 36% despite a 10% drop in sales. The change in pre-tax earnings was adversely impacted by the absence of a cigarette price increase, reduced earnings from our private label products, and reduced manufacturer incentive allowances in our wholesale segment which, combined, were \$5.0 million less than the prior year. These items were more than offset by a favorable LIFO inventory adjustment of \$1.8 million, increases in profits from sales of non-cigarette products of \$1.4 million, reduction of operating expenses and interest expense of \$3.6 million, and an increase in other income of \$0.2 million.

Edgar Filing: AMCON DISTRIBUTING CO - Form 8-K

That performance enabled us to show an increase in cash flow from overall operations of over \$5 million with a resultant reduction in debt levels. In addition, with our operating line usage at less than 70% of availability and variable interest costs at slightly below 4%, we locked in interest costs for approximately one-half of our credit line usage for the next several years to keep those costs fixed below 5%.

Our numbers for our retail health segment continued to improve with sales increasing by \$1.4 million over the prior year. New management and a new, fully integrated system implementation were the catalyst for improvement in our Midwest stores in fiscal 2003. Based on this improvement, we plan to open at least one new store in the Midwest in fiscal 2004 and will continue to focus efforts on improving the performance of the Florida market.

In our beverage segment, Hawaiian Natural Water began to show greater sales as its new production facility was completed and as construction of its packaging and warehouse facility progressed towards final completion earlier this month. Pre-tax results for the beverage segment for fiscal 2003 were \$3.8 million lower than the prior year. We anticipated this for the current fiscal year and, as noted earlier, believe that the beverage segment will produce profits and significantly increase overall margins for our Company and its shareholders as our company continues to reduce its reliance upon our wholesale segment."

AMCON is a leading wholesale distributor of consumer products including beverages, candy, tobacco, groceries, food service, frozen and chilled foods, and health and beauty care products with distribution centers in Illinois, Missouri, Nebraska, North Dakota, South Dakota and Wyoming. Chamberlin's Natural Foods, Inc. and Health Food Associates, Inc., both wholly-owned subsidiaries of The Healthy Edge, Inc. (formerly Food For Health Co., Inc.), operate health and natural product retail stores in central Florida (7), Kansas, Missouri, Nebraska and Oklahoma (3). The retail stores operate under the names Chamberlin's Market & Cafe and Akin's Natural Foods Market. Hawaiian Natural Water Company, Inc., which was acquired in December of 2001, produces and sells natural spring water under the Hawaiian Springs label. The water is bottled at the source on the Big Island of Hawaii. The Beverage Group, Inc. markets and distributes Hawaiian Springs and other premium beverage products, including HYPE Energy Drink, Kona Coffee, Bottle Green and Bahia drinks, and Xterra, a line of sports beverages and energy bars, in the United States, Canada and Mexico.
