John Hancock Bank and Thrift Opportunity Fund

Securities owned by the Fund on January 31, 2009 (Unaudited)

Issuer, description	Interest rate	Maturity date	Par value (000)	Value
---------------------	------------------	------------------	--------------------	-------

U.S. Government Agency 7.77% **\$21,322,885**

U.S. Treasury Bill	Zero	06/11/09	8,345	8,337,289
U.S. Treasury Bill	Zero	06/25/09	13,000	12,985,596

Total investments (Cost \$379,410,049) 99.17%	\$272,164,259
Other assets and liabilities, net 0.83%	\$2,290,968
Total net assets 100.00%	\$274,455,227

The percentage shown for each investment category is the total value of the category as a percentage of the net assets of the Fund.

(A) Credit ratings are unaudited and are rated by Moody's Investors Service where Standard & Poor's ratings are not available unless indicated otherwise.

(B) This security is fair valued in good faith under procedures established by the Board of Trustees. This security amounted to \$930,000 or 0.340% of the Fund's net assets as of January 31, 2009.

(I) Non-income producing security.

(P) Variable rate obligation. The coupon rate shown represents the rate at period end.

(S) These securities are exempt from registration under Rule 144A of the Securities Act of 1933. Such securities may be resold, normally to qualified institutional buyers, in transactions exempt from registration.

At January 31, 2009, the aggregate cost of investment securities for federal income tax purposes was \$379,431,625. Net unrealized depreciation aggregated \$107,267,366, of which \$19,919,702 related to appreciated investment securities and \$127,187,068 related to depreciated investment securities.

Notes to portfolio of investments

Security valuation

Investments are stated at value as of the close of the regular trading on New York Stock Exchange (NYSE), normally at 4:00 p.m., Eastern Time. Equity securities held by the Fund are valued at the last sale price or official closing price (closing bid price or last evaluated price if no sale has occurred) as of the close of business on the principal securities exchange (domestic or foreign) on which they trade. Debt obligations are valued based on the evaluated prices provided by an independent pricing service, which utilizes both dealer-supplied and electronic data processing techniques, which take into account factors such as institutional-size trading in similar groups of securities, yield, quality, coupon rate, maturity, type of issue, trading characteristics and other market data. Foreign securities and currencies are valued in U.S. dollars, based on foreign currency exchange rates supplied by an independent pricing service. Securities traded only in the over-the-counter market are valued at the last bid price quoted by brokers making markets in the securities at the close of trading. Equity and debt obligations, for which there are no prices available from an independent pricing service, are value based on broker quotes or fair valued as described below. Short-term debt investments that have a remaining maturity of 60 days or less are valued at amortized cost, and thereafter assume a constant amortization to maturity of any discount or premium, which approximates market value.

Other portfolio securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith by the Trust's Pricing Committee, in accordance with procedures adopted by the Board of Trustees. Generally, trading in non-U.S. securities is substantially completed each day at various times prior to the close of trading on the NYSE. The values of such securities used in computing the net asset value of the Fund's shares are generally determined as of such times. Occasionally, significant events that affect the values of such securities may occur between the times at which such values are generally determined and the close of the NYSE. Upon such an occurrence, these securities will be valued at fair value as determined in good faith under

Edgar Filing: HANCOCK JOHN BANK & THRIFT OPPORTUNITY FUND - Form N-Q

consistently applied procedures established by and under the general supervision of the Board of Trustees. Debt securities whose prices cannot be provided by an independent pricing service are valued at prices provided by broker-dealers.

Valuations change in response to many factors, including the historical and prospective earnings of the issuer, the value of the issuer's assets, general economic conditions, interest rates, investor perceptions and market liquidity.

The Fund is subject to the provisions of Statement of Financial Accounting Standards No. 157 (FAS 157). FAS 157 established a three-tier hierarchy to prioritize the assumptions, referred to as inputs, used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 □ Quoted prices in active markets for identical securities.

Level 2 □ Prices determined using other significant observable inputs. Observable inputs are inputs that other market participants would use in pricing a security. These may include quoted prices for similar securities, interest rates, prepayment speeds, credit risk and others.

Level 3 □ Prices determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable, such as when there is little or no market activity for an investment, unobservable inputs may be used. Unobservable inputs reflect the Fund's own assumptions about the factors that market participants would use in pricing an investment and would be based on the best information available.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

5

The following is a summary of the inputs used to value the Fund's net assets as of January 31, 2009:

Valuation Inputs	Investments in Securities	Other Financial Instruments*
Level 1 □ Quoted Prices	\$245,478,551	-
Level 2 □ Other Significant Observable Inputs	24,760,418	-
Level 3 □ Significant Unobservable Inputs	1,925,290	-
Total	\$272,164,259	-

* Other financial instruments are derivative instruments not reflected in the Fund of Investments, such as futures, forwards and swap contracts, which are valued at the unrealized appreciation/depreciation on the instrument.

The following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value:

	Investments in Securities	Other Financial Instruments
Balance as of October 31, 2008	\$8,745,400	-
Accrued discounts/premiums	-	-
Realized gain (loss)	-	-
Change in unrealized appreciation (depreciation)	(3,270,510)	-
Net purchases (sales)	-	-
Transfers in and/or out of Level 3	(3,549,600)	-

Balance as of January 31, 2009 **\$1,925,290** -

Risk and uncertainties

Small and medium size company risk

Stocks of small and medium-size companies tend to be more volatile than those of large companies, and may underperform stocks of large companies. Small and medium-size companies may have limited product lines or markets, less access to financial resources or less operating experience, or may depend on a few key employees. Given this, small and medium-size stocks may be thinly traded, leading to additional liquidity risk due to the inability to trade in large volume.

Sector risk □ financial industry

Fund performance will be closely tied to a single sector of the economy, which may underperform other sectors over any given period of time. Financial services companies can be hurt by economic declines, changes in interest rates, regulatory and market impacts. Accordingly, the concentration may make the Fund's value more volatile and investment values may rise and fall more rapidly.

6

ITEM 2. CONTROLS AND PROCEDURES.

(a) Based upon their evaluation of the registrant's disclosure controls and procedures as conducted within 90 days of the filing date of this Form N-Q, the registrant's principal executive officer and principal accounting officer have concluded that those disclosure controls and procedures provide reasonable assurance that the material information required to be disclosed by the registrant on this report is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

(b) There were no changes in the registrant's internal control over financial reporting that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 3. EXHIBITS.

Separate certifications for the registrant's principal executive officer and principal accounting officer, as required by Rule 30a-2(a) under the Investment Company Act of 1940, are attached.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
