(2) PAST PERFORMANCE IS NO GUARANTEE OF FUTURE RESULTS. Total return is determined by subtracting the initial investment from the value at the end of the period and dividing the remainder by the initial investment and expressing the result as a percentage. The calculation assumes that all income dividends and capital gain distributions have been reinvested at prices obtained under the Fund's dividend reinvestment plan. Total return does not reflect broker commissions or sales charges. Total return for a period of greater than one year represents the average annual total return.

An investment in the Fund involves risk, including the loss of principal. Total return, price, yield and net asset value will fluctuate with changes in market

conditions. This data is provided for information only and is not intended for trading purposes. A portion of the income generated by the Fund may be subject to federal, state and local taxes, and may at times be subject to the alternative minimum tax. Closed-end funds, unlike open-end funds, are not continuously offered. There is a one-time public offering and once issued, shares of closed-end funds are sold in the open market through a stock exchange. Net asset value is total assets applicable to common shareholders less total liabilities divided by the number of common shares outstanding. Holdings are subject to change daily.

(3) Market Price Yield is determined by dividing the annualized current monthly per share dividend payable to common shareholders by the market price per common share at May 31, 2004.

PIMCO MUNICIPAL INCOME FUNDS II NOTES TO FINANCIAL STATEMENTS
May 31, 2004

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

PIMCO Municipal Income Fund II ("Municipal II"), PIMCO California Municipal Income Fund II ("California Municipal II") and PIMCO New York Municipal Income Fund II ("New York Municipal II") collectively referred to as the "Funds" or "PIMCO Municipal Income Funds II", were organized as Massachusetts business trusts on March 29, 2002. Prior to commencing operations on June 28, 2002, the Funds had no operations other than matters relating to their organization and registration as closed-end management investment companies registered under the Investment Company Act of 1940 and the rules and regulations thereunder, as amended. PA Fund Management LLC, (the "Investment Manager"), formerly PIMCO Advisors Fund Management LLC, serves as the Funds' Investment Manager and is an indirect, wholly-owned subsidiary of Allianz Dresdner Asset Management of America L.P. ("ADAM"). ADAM is an indirect, majority-owned subsidiary of Allianz AG. The Funds have an unlimited amount of \$0.00001 par value common stock authorized.

Municipal II invests substantially all of its assets in a portfolio of municipal

Edgar Filing: PIMCO MUNICIPAL INCOME FUND II - Form N-CSR

bonds, the interest from which is exempt from federal income taxes. California Municipal II invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal and California state income taxes. New York Municipal II invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal, New York State and New York City income taxes. The Funds will seek to avoid bonds generating interest income which could potentially subject individuals to alternative minimum tax. The issuers' abilities to meet their obligations may be affected by economic and political developments in a specific state or region.

Municipal II, California Municipal II and New York Municipal II issued 50,500,000, 26,000,000 and 9,000,000 shares of common stock, respectively, in their initial public offerings. An additional 7,001,148, 3,900,000 and 1,294,833 shares of Municipal II, California Municipal II and New York Municipal II, respectively, were issued in connection with the exercises of the underwriters' over-allotment option on July 15, 2002 and August 6, 2002. These shares were all issued at \$15.00 per share before an underwriting discount of \$0.675 per share. The Investment Manager agreed to reimburse the amount by which the aggregate of each Fund's organizational and common offering costs (other than sales load) exceeded \$0.03 per common share. Common offering costs of \$1,174,197, \$682,616 and \$308,845 (representing \$0.02 per common share for Municipal II and California Municipal II and \$0.03 per common share for New York Municipal II), were offset against the proceeds of the offerings and were charged to paid-in capital in excess of par.

In addition, the underwriters discount and offering costs associated with the Funds' issuance of Preferred Shares in the amounts of \$5,050,000 and \$366,317, \$2,600,000 and \$269,348 and \$900,000 and \$149,609, for Municipal II, California Municipal II and New York Municipal II, respectively, were charged to paid-in capital in excess of par.

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

In the normal course of business the Funds enter into contracts that contain a variety of representations which provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds based upon events that have not yet been asserted. However, the Funds expect the risk of any loss to be remote.

The following is a summary of significant accounting policies consistently followed by the Funds:

(A) VALUATION OF INVESTMENTS

Portfolio securities and other financial instruments for which market quotations are readily available are stated at market value. The Fund's investments are valued daily by an independent pricing service approved by the Board of Trustees. Prices obtained from an independent pricing service use information provided by market makers or estimates of market values obtained from yield data relating to investments or securities with similar characteristics. Short-term investments maturing in sixty days or less are valued at amortized cost, if their original maturity was 60 days or less or by amortizing their value on the 61st day prior to maturity, if the original term to maturity exceeded 60 days. Securities for which market quotations are not readily available or if a development/event occurs that may significantly impact the value of the security may be fair valued, pursuant to guidelines established by the Board of Trustees. The prices used by the Funds to value securities may differ from the value that would be realized if the securities were sold. The Funds net asset value is

Edgar Filing: PIMCO MUNICIPAL INCOME FUND II - Form N-CSR

determined daily at the close of regular trading (normally 4:00 p.m. Eastern time) on the New York Stock Exchange.

PIMCO MUNICIPAL INCOME FUNDS II NOTES TO FINANCIAL STATEMENTS
May 31, 2004
=====

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(B) INVESTMENT TRANSACTIONS AND INVESTMENT INCOME

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Interest income is recorded on an accrual basis. Original issue discounts or premiums on debt securities purchased are accreted or amortized daily to non-taxable interest income. Market discount, if any, is accreted daily to taxable income.

(C) FEDERAL INCOME TAXES

The Funds intend to distribute all of their taxable income and to comply with the other requirements of the U.S. Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, no provision for U.S. federal income taxes is required. In addition, by distributing substantially all of their taxable ordinary income and long-term capital gains, if any, during each calendar year, the Funds intend not to be subject to U.S. federal excise tax.

(D) FUTURES CONTRACTS

A futures contract is an agreement between two parties to buy and sell a financial instrument at a set price on a future date. Upon entering into such a contract, the Funds are required to pledge to the broker an amount of cash or securities, held in a segregated account in the name of the futures broker at the Fund's custodian bank, equal to the minimum "initial margin" requirements of the exchange. Pursuant to the contracts, the Funds agree to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contracts. Such receipts or payments are known as "variation margin" and are recorded by the Funds as unrealized appreciation or depreciation. When the contracts are closed, the Funds record a realized gain or loss equal to the difference between the value of the contracts at the time they were opened and the value at the time they were closed. Any unrealized appreciation or depreciation recorded is simultaneously reversed. The use of futures transactions involves the risk of an imperfect correlation in the movements in the price of futures contracts, interest rates and the underlying hedged assets, and the possible inability of counterparties to meet the terms of their contracts.

(E) OPTION TRANSACTIONS

For hedging purposes, the Funds may purchase and write (sell) put and call options on municipal bonds, U.S. government securities, swap agreements, indexes or futures contracts which are standardized and traded on a U.S. or other exchange, boards of trade, or similar entity, or quoted on an automated

Edgar Filing: PIMCO MUNICIPAL INCOME FUND II - Form N-CSR

quotation system. The risk associated with purchasing an option is that the Funds pay a premium whether or not the option is exercised. Additionally, the Funds bear the risk of loss of premium and change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. The cost of securities acquired through the exercise of call options is increased by the premiums paid. The proceeds from the securities sold through the exercise of put options is decreased by the premiums paid.

When an option is written, the premium received is recorded as an asset with an equal liability which is subsequently adjusted to the current market value of the option written. Premiums received from writing options which expire unexercised are recorded on the expiration date as a realized gain. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium is less than the amount paid for the closing purchase transactions, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether there has been a realized gain or loss. If a put option is exercised, the premium reduces the cost basis of the security. In writing an option, the Funds bear the market risk of an unfavorable change in the price of the security underlying the written option. Exercise of an option written could result in the Funds purchasing a security at a price different from the current market price.

(F) RESIDUAL INTEREST MUNICIPAL BONDS

The Funds invest in Residual Interest Tax Exempt Bonds ("RITES") whose interest rates bear an inverse relationship to the interest rate on another security or the value of an index, RITES are created by dividing the income stream provided by the underlying bonds to create two securities, one short-term and one long-term. The interest rate on the short-term component is reset by an index or auction process normally every seven to 35 days. After income is paid on the short-term securities at current rates, the residual income from the underlying bond(s) goes to the long-term securities. Therefore, rising short-term interest rates result in lower income for the longer-term portion, and vice versa. The longer-term bonds may be more volatile and less liquid than other Municipal Bonds of comparable maturity. An investment in RITES typically will involve greater risk than an investment in a fixed rate bond.

=====

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONCLUDED)

(G) DIVIDENDS AND DISTRIBUTIONS--COMMON STOCK

The Funds declare dividends from net investment income monthly to common shareholders. Distributions of net realized capital gains, if any, are paid at least annually. Each Fund records dividends and distributions to its shareholders on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from generally accepted accounting principles. These "book-tax" differences are either

Edgar Filing: PIMCO MUNICIPAL INCOME FUND II - Form N-CSR

considered either temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal income tax treatment; temporary differences do not require reclassification. To the extent dividends and/or distributions exceed current and accumulated earnings and profits for federal income tax purposes they are reported as dividends and/or distributions of paid-in capital in excess of par.

(H) CUSTODY CREDITS EARNED ON CASH BALANCES

The Funds benefit from an expense offset arrangement with their custodian bank whereby uninvested cash balances earn credits which reduce monthly custodian and accounting agent expenses. Had these cash balances been invested in income producing securities, they would have generated income for the Funds.

2. INVESTMENT MANAGER AND SUB-ADVISER

Each Fund has entered into an Investment Management Agreement (the "Agreements") with the Investment Manager to serve as Investment Manager to each Fund. Subject to the supervision by each Fund's Board of Trustees, the Investment Manager is responsible for managing, either directly or through others selected by it, the investment activities of the Fund and the Fund's business affairs and other administrative matters. Pursuant to the Agreements, the Investment Manager will receive an annual fee, payable monthly, at the annual rate of 0.65% of each Fund's average daily net assets (including net assets attributable to any preferred shares that may be outstanding). In order to reduce Fund expenses, the Investment Manager has contractually agreed to reimburse each Fund for fees and expenses at the annual rate of 0.15% of each Fund's average daily net assets (including net assets attributable to any preferred shares that may be outstanding) from the commencement of operations through June 30, 2007, and for a declining amount thereafter through June 30, 2009.

The Investment Manager has retained its affiliate, Pacific Investment Management Company LLC (the "Sub-Adviser") to manage each Fund's investments. Subject to the supervision of the Investment Manager, the Sub-Adviser makes all investment decisions with respect to each Fund's assets. The Investment Manager (not the Funds) pays a portion of the fees it receives to the Sub-Adviser in return for its services, at the maximum annual rate of 0.50% of each Fund's average daily net assets (including net assets attributable to any preferred shares that may be outstanding). The Sub-Adviser has contractually agreed to waive a portion of the fees it is entitled to receive from the Investment Manager, such that the Sub-Adviser will receive 0.26% of each Fund's average daily net assets (including net assets attributable to any preferred shares that may be outstanding) from the commencement of the Funds' operations through June 30, 2007, and will receive an increasing amount (not to exceed 0.50% of each Fund's average daily net assets, including net assets attributable to any preferred shares that may be outstanding) thereafter through June 30, 2009. The Investment Manager informed the Funds that it paid the Sub-Adviser \$3,477,371, \$1,768,591 and \$614,874 in connection with sub-advisory services for Municipal II, California Municipal II and New York Municipal II, respectively, for the year ended May 31, 2004.

7. LEGAL PROCEEDINGS

On May 6, 2004, the Securities and Exchange Commission (the "Commission") filed a complaint in the U.S. District Court in the Southern District of New York alleging that the Investment Manager, certain affiliates of the Investment Manager and Stephen J. Treadway (the chief executive officer of the Investment Manager as well as the Chairman and a trustee of the Funds) had, among other things, violated and/or aided and abetted violations of, various antifraud provisions of the federal securities laws in connection with alleged "market timing" arrangements in certain open-end investment companies advised by the Investment Manager. The complaint seeks injunctive relief, disgorgement plus pre-judgment interest, monetary penalties, and an order permanently enjoining the defendants from serving as investment advisers, principal underwriters, officers, directors, or members of any advisory boards to any registered investment companies.

The above complaint does not allege that any inappropriate activity took place in the Funds and the Funds are not named in the complaint.

In addition, on June 1, 2004, ADAM and certain other affiliates of the Investment Manager entered into a consent order and final judgment with the Attorney General of the State of New Jersey (the "NJAG") in settlement of a lawsuit filed by the NJAG on February 17, 2004 in connection with alleged "market timing" arrangements. Under the terms of the settlement, ADAM and certain of its affiliates agreed to pay the State of New Jersey a civil monetary penalty of \$15 million and \$3 million for investigative costs. In addition, ADAM and certain of its affiliates agreed to make several corporate governance changes. Also on June 1, 2004, the NJAG dismissed its claims against the Sub-Adviser, which had been filed as part of the same lawsuit.

If the Commission (or other regulator) were to obtain a court injunction against the Investment Manager, its affiliates or Mr. Treadway, they (including the Sub-Adviser) would, in the absence of exemptive relief granted by the Commission, be barred from serving as an investment adviser/sub-adviser or principal underwriter to any registered investment company, including the Funds. In such a case, the Investment Manager and the Sub-Adviser would in turn seek exemptive relief from the Commission, as contemplated by the Investment Company Act, although there is no assurance that such exemptive relief would be granted. The Commission also has the power by order to prohibit the Investment Manager, the Sub-Adviser and their affiliates from serving as investment advisers and underwriters, although to date it has not exercised such powers with respect to market timing arrangements involving other mutual fund complexes.

Since February, 2004, the Investment Manager, the Sub-Adviser and certain of their affiliates, various investment companies advised by the Investment Manager or the Sub-Adviser and their trustees (including Mr. Treadway) have been named as defendants in multiple lawsuits filed in U.S. District Court in the Southern District of New York, the Central District of California and the Districts of New Jersey and Connecticut. The lawsuits have been commenced as putative class actions on behalf of investors who purchased, held or redeemed shares of the specified funds during specific periods or as derivative actions on behalf of the specified funds. The lawsuits generally relate to the same facts that are

Edgar Filing: PIMCO MUNICIPAL INCOME FUND II - Form N-CSR

the subject of the regulatory proceedings discussed above. The lawsuits seek, among other things, unspecified compensatory damages plus interest and, in some cases, punitive damages, the rescission of investment advisory contracts, and/or the return of fees paid under those contracts and restitution. The Funds have been named in several class action lawsuits. The Investment Manager and the Sub-Adviser believe that other similar lawsuits may be filed in U.S. federal or state courts naming ADAM, the Investment Manager, the Sub-Adviser, various investment companies they advise (which may include the Funds), their boards of trustees and/or their affiliates.

In November 2003, the Commission settled an enforcement action against an unaffiliated broker-dealer relating to the undisclosed receipt of fees from certain mutual fund companies in return for preferred marketing of their funds and announced that it would be investigating mutual funds and their distributors generally with respect to compensation arrangements relating to the sale of mutual fund shares. In that connection, the Investment Manager, the Sub-Adviser and certain of their affiliates are under investigation by the Commission relating to revenue-sharing arrangements and the use of brokerage commissions to recognize brokers effecting sales of open-end investment companies advised by the Investment Manager, the Sub-Adviser and their affiliates. In addition, the Attorney General of the State of California has publicly announced an investigation into the brokerage recognition and revenue-sharing arrangement of these open-end investment companies.

It is possible that these matters and/or other developments resulting from these matters could lead to a decrease in the market price of the Funds' shares or other adverse consequences to the Funds and its shareholders. However, the Investment Manager and the Sub-Adviser believe that these matters are not likely to have a material adverse effect on the Funds or on the Investment Manager's or the Sub-Adviser's ability to perform its respective investment advisory services related to the Funds.

"Plan Agent"), unless the shareholder elects to receive cash. An election to receive cash may be revoked or reinstated at the option of the shareholder. In the case of record shareholders such as banks, brokers or other nominees that hold Common Shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of Common Shares certified from time to time by the record shareholder as representing the total amount registered in such shareholder's name and held for the account of beneficial owners who are to participate in the Plan. Shareholders whose shares are held in the name of a bank, broker or nominee should contact the bank, whose broker or nominee elects not to participate on the investor's behalf), will be paid in cash by check mailed, in the case of direct shareholder, to the record holder by PFPC Inc., as the Fund's dividend disbursement agent.

Unless you (or your broker or nominee) elects not to participate in the Plan, the number of Common Shares you will receive will be determined as follows:

- (1) If Common Shares are trading at or above net asset value on the payment date, the Fund will issue new shares at the greater of (i) the net asset value per Common Share on the payment date or (ii) 95% of the market price per Common Share on the payment date; or
- (2) If Common Shares are trading below net asset value (minus estimated brokerage commissions that would be incurred upon the purchase of Common Shares on the open market) on the payment date, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price on the payment date, resulting in the purchase of fewer shares than if the dividend or distribution had been paid in Common Shares issued by the Fund. The Plan Agent will use all dividends and distributions received in cash to purchase Common Shares in the open market on or shortly after the payment date, but in no event later than the ex-dividend date for the next distribution. Interest will not be paid on any uninvested cash payments.

You may withdraw from the Plan at any time by giving notice to the Plan Agent. If you withdraw or the Plan is terminated, you will receive a certificate for each whole share in your account under the Plan and you will receive a cash payment for any fraction of a share in your account. If you wish, the Plan Agent will sell your shares and send you the proceeds, minus brokerage commissions.

The Plan Agent maintains all shareholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. The Plan Agent will also furnish each person who buys Common Shares with written instructions detailing the procedures for electing not to participate in the Plan and to instead receive distributions in cash. Common Shares in your account will be held by the Plan Agent in non-certificated form. Any proxy you receive will include all Common Shares you have received under the Plan.

There is no brokerage charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvested dividends and distributions are taxed in the same manner as cash dividends and distributions.

The Funds and the Plan Agent reserve the right to amend or terminate the Plan. There is no direct service charge to participants in the Plan; however, the
