Privacy Principles of the Trusts

The Trusts are committed to maintaining the privacy of shareholders and to safeguarding their non-public personal information. The following information is provided to help you understand what personal information the Trusts collect, how we protect that information and why, in certain cases, we may share information with select other parties.

Generally, the Trusts do not receive any non-public personal information relating to their shareholders, although certain non-public personal information of shareholders may become available to the Trusts. The Trusts do not disclose any non-public personal information about their shareholders or former shareholders to anyone, except as permitted by law or as is necessary in order to service shareholder accounts (for example, to a transfer agent or third party administrator).

The Trusts restrict access to non-public personal information about their shareholders to BlackRock employees with a legitimate business need for the information. The Trusts maintain physical, electronic and procedural safeguards designed to protect the non-public personal information of their shareholders.

LETTER TO SHAREHOLDERS

October 31, 2005

Dear Shareholder:

We are pleased to report that during the annual period, the Trusts provided the opportunity to invest in various portfolios of fixed income securities. This report contains the Trusts' audited financial statements and a listing of the portfolios' holdings.

The portfolio management team continuously monitors the fixed income markets and adjusts the portfolios in order to gain exposure to various issuers and security types. This strategy enables the Trusts to move among different sectors, credits and coupons to capitalize on changing market conditions.

The following table shows the Trusts' yields, closing market prices per share and net asset values (NAV) per share as of October 31, 2005.

Trust	Yield¹	Market Price	NAV
BlackRock Broad Investment Grade 2009 Term Trust Inc. (BCT)	5.67%	\$ 15.86	\$ 14.63
BlackRock Core Bond Trust (BHK)	6.76	13.69	14.27
BlackRock High Yield Trust (BHY)	9.02	7.36	7.48
BlackRock Income Opportunity Trust (BNA)	6.81	10.90	11.56
BlackRock Income Trust Inc. (BKT)	7.48	5.90	6.54
BlackRock Limited Duration Income Trust (BLW)	8.36	17.48	19.17
BlackRock Strategic Bond Trust (BHD)	8.48	12.45	13.68

¹ Yield is based on market price. Past performance does not guarantee future results.

BlackRock, Inc. (BlackRock), a world leader in asset management, has a proven commitment to managing fixed income securities. As of September 30, 2005, BlackRock managed \$287 billion in fixed income securities, including 20 open-end and 48 closed-end bond funds. BlackRock is recognized for its emphasis on risk management and proprietary analytics and for its reputation managing money for the world's largest institutional investors. BlackRock Advisors, Inc., and its affiliate, BlackRock Financial Management, Inc., which manage the Trusts, are wholly owned subsidiaries of BlackRock, Inc.

On behalf of BlackRock, we thank you for your continued confidence and assure you that we remain committed to excellence in managing your assets.

Sincerely,

Laurence D. Fink
Chief Executive Officer
BlackRock Advisors, Inc.

Ralph L. Schlosstein
President
BlackRock Advisors, Inc.

¹ Using the higher of S&P's, Moody's or Fitch's rating.

² Rate shown is interest rate as of October 31, 2005.

³ Rate shown is interest rate or effective yield as of October 31, 2005 of the underlying collateral.

⁴ Security is not registered under the Securities Act of 1933. These securities may be resold in transactions in accordance with Rule 144A under that Act, to qualified institutional buyers. As of October 31, 2005, the Trust held 1.2% of its net assets, with a current market value of \$511,893, in securities restricted as to resale.

⁵ Security is fair valued.

⁶ Illiquid security. As of October 31, 2005, the Trust held less than 0.1% of its net assets, with a current market value of \$143.

⁷ Entire or partial principal amount pledged as collateral.

⁸ Rate shown is the yield to maturity as of October 31, 2005.

⁹ Cost for Federal income tax purposes is \$43,720,035. The net unrealized depreciation on a tax basis is \$630,911, consisting of \$580,134 gross unrealized appreciation and \$1,211,045 gross unrealized depreciation.

¹ Using the higher of S&P's, Moody's or Fitch's rating.

² Security is not registered under the Securities Act of 1933. These securities may be resold in transactions in accordance with Rule 144A under that Act, to qualified institutional buyers. As of October 31, 2005, the Trust held 9.6% of its net assets, with a current market value of \$37,031,132, in securities restricted as to resale.

³ Security, or a portion thereof, pledged as collateral with a value of \$1,504,194 on 57 long U.S. Treasury Note futures contracts expiring December 2005, 568 long U.S. Treasury Bond futures contracts expiring December 2005, 1,176 short U.S. Treasury Note futures contracts expiring December 2005, 208 short Eurodollar futures contracts expiring March 2006 to September 2007 and 101 short Germany Federal Republic Bonds futures contracts expiring December 2005. The notional value of such contracts on October 31, 2005 was (\$117,883,226), with an unrealized gain of \$49,189.

⁴ Entire or partial principal amount pledged as collateral for reverse repurchase agreements. See Note 4 in the Notes to Financial Statements for details of open reverse repurchase agreements.

⁵ Cost for Federal income tax purposes is \$503,678,690. The net unrealized depreciation on a tax basis is \$12,149,206, consisting of \$2,454,277 gross unrealized appreciation and \$14,603,483 gross unrealized depreciation.

A category in the Corporate Bonds section may contain multiple industries as defined by the SEC's Standard Industry Codes.

- ¹ Using the higher of S&P's, Moody's or Fitch's rating.
- ² Security, or a portion thereof, pledged as collateral with a value of \$2,448,265 on 234 long U.S. Treasury Note futures contracts expiring December 2005, 780 long U.S. Treasury Bond futures contracts expiring December 2005, 1,163 short U.S. Treasury Note futures contracts expiring December 2005 and 228 short Eurodollar futures contracts expiring March 2006 to September 2007. The notional value of such contracts on October 31, 2005 was (\$64,718,528), with an unrealized loss of \$1,194,797.
- ³ Entire or partial principal amount pledged as collateral for reverse repurchase agreements. See Note 4 in the Notes to Financial Statements for details of open reverse repurchase agreements.
- ⁴ Security is not registered under the Securities Act of 1933. These securities may be resold in transactions in accordance with Rule 144A under that Act, to qualified institutional buyers. As of October 31, 2005, the Trust held 5.5% of its net assets, with a current market value of \$21,777,631, in securities restricted as to resale.
- ⁵ Rate shown is interest rate or effective yield as of October 31, 2005 of the underlying collateral.
- ⁶ Security is fair valued.
- ⁷ Rate shown is yield to maturity as of October 31, 2005.
- ⁸ Cost for Federal income tax purposes is \$614,171,549. The net unrealized depreciation on a tax basis is \$5,722,864, consisting of \$6,715,839 gross unrealized appreciation and \$12,438,703 gross unrealized depreciation.
- A category in the Corporate Bonds section may contain multiple industries as defined by the SEC's Standard Industry Codes.

- 1 Using the higher of S&P's, Moody's or Fitch's rating.
- 2 Entire or partial principal amount pledged as collateral for reverse repurchase agreements. See Note 4 in the Notes to Financial Statements for details of open reverse repurchase agreements.
- 3 Security, or a portion thereof, pledged as collateral with a value of \$2,646,906 on 362 short U.S. Treasury Note futures contracts expiring December 2005, 847 short U.S. Treasury Bond futures contracts expiring December 2005 and 296 short Eurodollar futures contracts expiring March 2006 to September 2007. The notional value of such contracts on October 31, 2005 was (\$203,956,400), with an unrealized gain of \$5,144,471.
- 4 Security is not registered under the Securities Act of 1933. These securities may be resold in transactions in accordance with Rule 144A under that Act, to qualified institutional buyers. As of October 31, 2005, the Trust held 0.3% of its net assets, with a current market value of \$1,306,119, in securities restricted as to resale.
- 5 Security is fair valued.
- 6 Rate shown is interest rate or effective yield as of October 31, 2005 of the underlying collateral.
- 7 Cost for Federal income tax purposes is \$615,022,603. The net unrealized depreciation on a tax basis is \$25,308,278, consisting of \$11,463,907 gross unrealized appreciation and \$36,772,185 gross unrealized depreciation.
- 8 The interest rate and maturity date shown represent the terms of the bonds borrowed transaction, not the security borrowed (see Note 1).
- 9 Rate shown is yield to maturity as of October 31, 2005.

² Entire or partial principal amount pledged as collateral for reverse repurchase agreements. See Note 4 in the Notes to Financial Statements for details of open reverse repurchase agreements.

³ Security is not registered under the Securities Act of 1933. These securities may be resold in transactions in accordance with Rule 144A under that Act, to qualified institutional buyers. As of October 31, 2005, the Trust held 12.3% of its net assets, with a current market value of \$86,425,365, in securities restricted as to resale.

⁴ Cost for Federal income tax purposes is \$982,455,182. The net unrealized depreciation on a tax basis is \$455,291, consisting of \$12,636,533 gross unrealized appreciation and \$13,091,824 gross unrealized depreciation.

⁵ The interest rate and maturity date shown represent the terms of the borrowed bond transaction, not the security borrowed (see Note 1).

⁶ Rate shown is yield to maturity as of October 31, 2005.

⁷ Non-income producing security.

A category in the Corporate Bonds and Bank Loans sections may contain multiple industries as defined by the SEC's Standard Industry Codes.

¹ Using the higher of S&P's, Moody's or Fitch's rating.

² Entire or partial principal amount pledged as collateral for reverse repurchase agreements. See Note 4 in the Notes to Financial Statements for details of open reverse repurchase agreements.

³ Security is not registered under the Securities Act of 1933. These securities may be resold in transactions in accordance with Rule 144A under that Act, to qualified institutional buyers. As of October 31, 2005, the Trust held 19.5% of its net assets, with a current market value of \$18,835,149, in securities restricted as to resale.

⁴ Issuer is in default and/or bankruptcy.

⁵ Rate shown is yield to maturity as of October 31, 2005.

⁶ Cost for Federal income tax purposes is \$127,571,106. The net unrealized depreciation on a tax basis is \$1,392,217, consisting of \$2,678,979 gross unrealized appreciation and \$4,071,196 gross unrealized depreciation.

A category in the Corporate Bonds section may contain multiple industries as defined by the SEC's Standard Industry Codes.

See Notes to Financial Statements.

¹ Total investment return is calculated assuming a purchase of a share at the current market price on the first day and a sale at the current market price on the last day of each year reported. Dividends and distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the Trust's dividend reinvestment plan. Total investment returns do not reflect brokerage commissions. Past performance is not a guarantee of future results.

² Per \$1,000 of reverse repurchase agreements outstanding.

The information in the above Financial Highlights represents the operating performance for a common share outstanding, total investment returns, ratios to average net assets and other supplemental data for each year indicated. This information has been determined based upon financial information provided in the financial statements and market price data for the Trust's common shares.

See Notes to Financial Statements.

¹ Total investment return is calculated assuming a purchase of a share at the current market price on the first day and a sale at the current market price on the last day of each year reported. Dividends and distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the Trust's dividend reinvestment plan. Total investment returns do not reflect brokerage commissions. Past performance is not a guarantee of future results.

² Per \$1,000 of loan outstanding.

The information in the above Financial Highlights represents the operating performance for a common share outstanding, total investment returns, ratios to average net assets and other supplemental data for each year indicated. This information has been determined based upon financial information provided in the financial statements and market price data for the Trust's common shares.

NOTES TO FINANCIAL STATEMENTS (unaudited)

Note 1. Organization & Accounting Policies

BlackRock Broad Investment Grade 2009 Term Trust Inc. (Broad Investment Grade), BlackRock Core Bond Trust (Core Bond), BlackRock High Yield Trust (High Yield), BlackRock Income Opportunity Trust (Income Opportunity), BlackRock Income Trust Inc. (Income Trust), BlackRock Limited Duration Income Trust (Limited Duration) and BlackRock Strategic Bond Trust (Strategic Bond) (collectively, the Trusts) are registered as diversified, closed-end management investment companies under the Investment Company Act of 1940, as amended. Broad Investment Grade, Income Opportunity and Income Trust are organized as Maryland corporations. Core Bond, High Yield, Limited Duration and Strategic Bond are organized as Delaware statutory trusts.

On December 3, 1999, Broad Investment Grade transferred a substantial portion of its total assets to a 100% owned regulated investment company subsidiary called BCT Subsidiary, Inc. The financial statements and these notes to the financial statements for Broad Investment Grade are consolidated and include the operations of both Broad Investment Grade and its wholly owned subsidiary after elimination of all intercompany transactions and balances.

The following is a summary of significant accounting policies followed by the Trusts.

Investment Valuation: The Trusts value most of their investments on the basis of current market quotations provided by dealers or pricing services selected under the supervision of each Trust's Board (the Board) of Directors/Trustees (the Trustees). In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, market transactions in comparable investments, various relationships observed in the market between investments, and calculated yield measures based on valuation technology commonly employed in the market for such investments. Exchange-traded options are valued at their last sales price as of the close of options trading on applicable exchanges. In the absence of a last sale, options are valued at the average of the quoted bid and asked prices as of the close of business. A futures contract is valued at the last sale price as of the close of the commodities exchange on which it trades. Swap quotations are provided by dealers selected under the supervision of the Board. Short-term securities may be valued at amortized cost. Investments in open-end investment companies are valued at net asset value. Investments or assets for which such current market quotations are not readily available are valued at fair value (Fair Value Assets) as determined in good faith under procedures established by, and under the general supervision and responsibility of, each Trust's Board. The investment advisor and/or sub-advisor will submit its recommendations regarding the valuation and/or valuation methodologies for Fair Value Assets to a valuation committee. The valuation committee may accept, modify or reject any recommendations. The pricing of all Fair Value Assets shall be subsequently reported to the Board.

When determining the price for a Fair Value Asset, the investment advisor and/or sub-advisor shall seek to determine the price that the Trust might reasonably expect to receive from the current sale of that asset in an arm's-length transaction. Fair value determinations shall be based upon all available factors that BlackRock Advisors deems relevant.

Investment Transactions and Investment Income: Investment transactions are recorded on trade date. The cost of investments sold and the related gain or loss is determined by use of the specific identification method, generally first-in, first out, for both financial reporting and federal income tax purposes. Each Trust records interest income on an accrual basis and amortizes premium and/or accretes discount on securities purchased using the interest method.

Repurchase Agreements: In connection with transactions in repurchase agreements, a Trust's custodian takes possession of the underlying collateral securities, the value of which at least equals the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market on a daily basis to ensure the adequacy of the collateral. If the seller defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by a Trust may be delayed or limited.

Bank Loans: In the process of buying, selling and holding bank loans, a Trust may receive and/or pay certain fees. These fees are in addition to interest payments received and may include facility fees, commitment fees, amendment fees, commissions and prepayment penalty fees. When a Trust buys a bank loan it may receive a facility fee and when it sells a bank loan it may pay a facility fee. On an ongoing basis, a Trust may receive a commitment fee based on the undrawn portion of the underlying line of credit portion of a bank loan. In certain circumstances, a Trust may receive a prepayment penalty fee upon the prepayment of a bank loan by a borrower. Other fees received by a Trust may include covenant waiver fees and covenant modification fees.

Option Writing/Purchasing: When a Trust writes or purchases an option, an amount equal to the premium received or paid by the Trust is recorded as an asset or a liability and is subsequently adjusted to the current market value of the option written or purchased. Premiums received or paid from writing or purchasing options which expire unexercised are treated by the Trust on the expiration date as realized gains or losses. The difference between the premium and the amount paid or received on effecting a closing purchase or sale transaction, including brokerage

Edgar Filing: BLACKROCK INCOME TRUST INC - Form N-CSR

commissions, is also treated as a realized gain or loss. If an option is exercised, the premium paid or received is added to the cost of the purchase or the proceeds from the sale in determining whether a Trust has realized a gain or a loss on investment transactions. A Trust, as writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and as a result bears the market risk of an unfavorable change in the price of the security underlying the written option.

Options, when used by the Trusts, help in maintaining a targeted duration. Duration is a measure of the price sensitivity of a security or a portfolio to relative changes in interest rates. For instance, a duration of one means that a portfolio's or a security's price would be expected to change by approximately one percent with a one percent change in interest rates, while a duration of five would imply that the price would move approximately five percent in relation to a one percent change in interest rates.

Edgar Filing: BLACKROCK INCOME TRUST INC - Form N-CSR

Option writing and purchasing may be used by the Trusts as an attempt to manage the duration of positions, or collections of positions, so that changes in interest rates do not adversely affect the targeted duration of the portfolio unexpectedly. A call option gives the purchaser of the option the right (but not obligation) to buy, and obligates the seller to sell (when the option is exercised), the underlying position at the exercise price at any time or at a specified time during the option period. A put option gives the holder the right to sell and obligates the writer to buy the underlying position at the exercise price at any time or at a specified time during the option period. Put or call options can be purchased or sold to help manage the targeted duration of the portfolio.

The main risk that is associated with purchasing options is that the option expires without being exercised. In this case, the option expires worthless and the premium paid for the option is considered the loss. The risk associated with writing call options is that a Trust may forgo the opportunity for a profit if the market value of the underlying position increases and the option is exercised. The risk in writing put options is that a Trust may incur a loss if the market value of the underlying position decreases and the option is exercised. In addition, the Trust risks not being able to enter into a closing transaction for the written option as the result of an illiquid market.

Stripped Mortgage-Backed Securities: Stripped mortgage-backed securities are usually structured with two classes that receive different proportions of the interest and principal distributions on a pool of mortgage assets. In certain cases, one class will receive all of the interest (the interest-only or IO class), while the other class will receive all of the principal (the principal-only or PO class). The yield to maturity on IOs is sensitive to the rate of principal repayments (including prepayments) on the related underlying mortgage assets, and principal payments may have a material effect on yield to maturity. If the underlying mortgage assets experience greater than anticipated prepayments of principal, a Trust may not fully recoup its initial investment in IOs. Such securities will be considered liquid only if so determined in accordance with guidelines established by the Trustees.

Credit Default Swaps: Credit default swaps are agreements in which one party pays fixed periodic payments to a counterparty in consideration for a guarantee from the counterparty to make a specific payment should a negative credit event take place. Risks arise from the possible inability of the counterparties to meet the terms of their contracts.

During the term of the swap, changes in the value of the swap are recognized as unrealized gains or losses by marking-to-market to reflect the market value of the swap. When the swap is terminated, a Trust will record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Trust's basis in the contract, if any.

The Trusts are exposed to credit loss in the event of non-performance by the other party to the swap. However, the Trusts closely monitor swaps and do not anticipate non-performance by any counterparty.

Total Return Swaps: Total return swaps are agreements in which one party commits to pay interest in exchange for a market linked return. To the extent the total return of the security or index underlying the transaction exceeds or falls short of the offsetting interest rate obligation, the Trust will receive a payment from or make a payment to the counterparty.

During the term of the swap, changes in the value of the swap are recognized as unrealized gains or losses by marking-to-market to reflect the market value of the swap. When the swap is terminated, a Trust will record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Trust's basis in the contract, if any.

The Trusts are exposed to credit loss in the event of non-performance by the other party to the swap. However, the Trusts closely monitor swaps and do not anticipate non-performance by any counterparty.

Interest Rate Swaps: Interest rate swaps are agreements in which one party pays a floating rate of interest on a notional principal amount and receives a fixed rate of interest on the same notional principal amount for a specified period of time. Alternatively, a party may pay a fixed rate and receive a floating rate. Interest rate swaps are efficient as asset/liability management tools. In more complex swaps, the notional principal amount may decline (or amortize) over time.

During the term of the swap, changes in the value of the swap are recognized as unrealized gains or losses by marking-to-market to reflect the market value of the swap. When the swap is terminated, a Trust will record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Trust's basis in the contract, if any.

The Trusts are exposed to credit loss in the event of non-performance by the other party to the swap. However, the Trusts closely monitor swaps and do not anticipate non-performance by any counterparty.

Swap Options: Swap options are similar to options on securities except that instead of selling or purchasing the right to buy or sell a security, the writer or purchaser of the swap option is granting or buying the right to enter into a previously agreed upon interest rate swap agreement at any time before the expiration of the option. Premiums received or paid from writing or purchasing options are recorded as liabilities or assets and are subsequently adjusted to the current market value of the option written or purchased. Premiums received or paid from writing or

Edgar Filing: BLACKROCK INCOME TRUST INC - Form N-CSR

purchasing options which expire unexercised are treated by a Trust on the expiration date as realized gains or losses. The difference between the premium and the amount paid or received on effecting a closing purchase or sale transaction, including brokerage commission, is also treated as a realized gain or loss. If an option is exercised, the premium paid or received is added to the cost of the purchase or the proceeds from the sale in determining whether a Trust has realized a gain or loss on investment transactions.

The main risk that is associated with purchasing swap options is that the swap option expires without being exercised. In this case, the option expires worthless and the premium paid for the swap option is considered the loss. The main risk that is associated with the writing of a swap option is the market risk of an unfavorable change in the value of the interest rate swap underlying the written swap option.

Swap options may be used by the Trusts to manage the duration of the Trusts' portfolios in a manner similar to more generic options described above.

Edgar Filing: BLACKROCK INCOME TRUST INC - Form N-CSR

Interest Rate Caps: Interest rate caps are similar to interest rate swaps, except that one party agrees to pay a fee, while the other party pays the excess, if any, of a floating rate over a specified fixed or floating rate.

Interest rate caps are intended to both manage the duration of the Trusts' portfolios and their exposure to changes in short-term interest rates. Owning interest rate caps reduces a portfolio's duration, making it less sensitive to changes in interest rates from a market value perspective. The effect on income involves protection from rising short-term interest rates, which the Trusts experience primarily in the form of leverage.

The Trusts are exposed to credit loss in the event of non-performance by the other party to the interest rate cap. However, the Trusts do not anticipate non-performance by any counterparty.

Transaction fees paid or received by the Trusts are recognized as assets or liabilities and amortized or accreted into interest expense or income over the life of the interest rate cap. The asset or liability is subsequently adjusted to the current market value of the interest rate cap purchased or sold. Changes in the value of the interest rate cap are recognized as unrealized gains and losses.

Interest Rate Floors: Interest rate floors are similar to interest rate swaps, except that one party agrees to pay a fee, while the other party pays the deficiency, if any, of a floating rate under a specified fixed or floating rate.

Interest rate floors are used by the Trusts to both manage the duration of the portfolios and their exposure to changes in short-term interest rates. Selling interest rate floors reduces a portfolio's duration, making it less sensitive to changes in interest rates from a market value perspective. The Trusts' leverage provides extra income in a period of falling rates. Selling floors reduces some of that extra income by partially monetizing it as an up-front payment which the Trusts receive.

The Trusts are exposed to credit loss in the event of non-performance by the other party to the interest rate floor. However, the Trusts do not anticipate non-performance by any counterparty.

Transaction fees paid or received by the Trusts are recognized as assets or liabilities and amortized or accreted into interest expense or income over the life of the interest rate floor. The asset or liability is subsequently adjusted to the current market value of the interest rate floor purchased or sold. Changes in the value of the interest rate floor are recognized as unrealized gains and losses.

Financial Futures Contracts: A futures contract is an agreement between two parties to buy and sell a financial instrument for a set price on a future date. Initial margin deposits are made upon entering into futures contracts and can be either cash or securities. During the period the futures contract is open, changes in the value of the contract are recognized as unrealized gains or losses by marking-to-market on a daily basis to reflect the market value of the contract at the end of each day's trading. Variation margin payments are made or received, depending upon whether unrealized gains or losses are incurred. When the contract is closed, a Trust records a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Trust's basis in the contract.

Financial futures contracts, when used by the Trusts, help in maintaining a targeted duration. Futures contracts can be sold to effectively shorten an otherwise longer duration portfolio. In the same sense, futures contracts can be purchased to lengthen a portfolio that is shorter than its duration target. Thus, by buying or selling futures contracts, the Trusts may attempt to manage the duration of positions so that changes in interest rates do not change the duration of the portfolio unexpectedly.

Forward Currency Contracts: The Trusts enter into forward currency contracts primarily to facilitate settlement of purchases and sales of foreign securities and to help manage the overall exposure to foreign currency. A forward contract is a commitment to purchase or sell a foreign currency at a future date (usually the security transaction settlement date) at a negotiated forward rate. In the event that a security fails to settle within the normal settlement period, the forward currency contract is renegotiated at a new rate. The gain or loss arising from the difference between the settlement value of the original and renegotiated forward contracts is isolated and is included in net realized gains (losses) from foreign currency transactions. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contract.

Forward currency contracts, when used by the Trusts, help to manage the overall exposure to the foreign currency backing some of the investments held by the Trusts. Forward currency contracts are not meant to be used to eliminate all of the exposure to the foreign currency, rather they allow the Trusts to limit their exposure to foreign currency within a narrow band to the objectives of the Trusts.

Foreign Currency Translation: Foreign currency amounts are translated into United States dollars on the following basis:

- (i) market value of investment securities, other assets and liabilities at the London 4:00 PM rates of exchange. Effective as of November 7, 2005, the 4:00 PM Eastern Standard Time rates of exchange will be used.

Edgar Filing: BLACKROCK INCOME TRUST INC - Form N-CSR

- (ii) purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

The Trusts isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of securities held at period end. Similarly, the Trusts isolate the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of portfolio securities sold during the period.

Net realized and unrealized foreign exchange gains and losses includes realized foreign exchange gains and losses from sales and maturities of foreign portfolio securities, maturities of foreign reverse repurchase agreements, sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, the difference between the amounts of interest and discount recorded on the Trusts' books and the U.S. dollar equivalent amounts actually received or paid and changes in unrealized foreign exchange gains and losses in the value of portfolio securities and other assets and liabilities arising as a result of changes in the exchange rate.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the U.S. dollar.

Edgar Filing: BLACKROCK INCOME TRUST INC - Form N-CSR

Short Sales: The Trusts may make short sales of securities as a method of managing potential price declines in similar securities owned. When a Trust makes a short sale, it may borrow the security sold short and deliver it to the broker-dealer through which it made the short sale as collateral for its obligation to deliver the security upon conclusion of the sale. The Trusts may have to pay a fee to borrow the particular securities and may be obligated to pay over any payments received on such borrowed securities. A gain, limited to the price at which a Trust sold the security short, or a loss, unlimited as to dollar amount, will be recognized upon the termination of a short sale if the market price is greater or less than the proceeds originally received.

Bonds Borrowed Agreements: In a bonds borrowed agreement, the Trust borrows securities from a third party, with the commitment that they will be returned to the lender on an agreed-upon date. Bonds borrowed agreements are primarily entered into to settle short positions. In a bonds borrowed agreement, the Trust's prime broker or third party broker takes possession of the underlying collateral securities or cash to settle such short positions. The value of the underlying collateral securities or cash approximates the principal amount of the bonds borrowed transaction, including accrued interest. To the extent that bonds borrowed transactions exceed one business day, the value of the collateral with any counterparty is marked-to-market on a daily basis to ensure the adequacy of the collateral. If the lender defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the lender of the security, realization of the collateral by the Trust may be delayed or limited.

Segregation: In cases in which the Investment Company Act of 1940, as amended (the "1940 Act"), and the interpretive positions of the Securities and Exchange Commission (the "Commission") require a Trust to segregate assets in connection with certain investments (e.g., when-issued securities, reverse repurchase agreements or futures contracts), each Trust will, consistent with certain interpretive letters issued by the Commission, designate on its books and records cash or liquid securities having a market value at least equal to the amount that would otherwise be required to be physically segregated.

Federal Income Taxes: It is each Trust's intention to continue to be treated as a regulated investment company under the Internal Revenue Code and to distribute sufficient amounts of their taxable income to shareholders. Therefore, no Federal income tax provisions are required. As part of a tax planning strategy, Broad Investment Grade has retained a portion of its taxable income and will pay excise tax on the undistributed amounts.

Dividends and Distributions: Each Trust declares and pays dividends and distributions to common shareholders monthly from net investment income, net realized short-term capital gains and other sources, if necessary. Net long-term capital gains, if any, in excess of loss carryforwards may be distributed in accordance with the 1940 Act. Dividends and distributions are recorded on the ex-dividend date. Income distributions and capital gain distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Deferred Compensation and BlackRock Closed-End Share Equivalent Investment Plan: Under the deferred compensation plan approved by each Trust's Board, non-interested Trustees are required to defer a portion of their annual complex-wide compensation. Deferred amounts earn an approximate return as though equivalent dollar amounts had been invested in common shares of other BlackRock closed-end funds selected by the Trustees. This has the same economic effect for the Trustees as if the Trustees had invested the deferred amounts in such Trusts.

The deferred compensation plan is not funded and obligations thereunder represent general unsecured claims against the general assets of the Trust. Each Trust may, however, elect to invest in common shares of those Trusts selected by the Trustees in order to match its deferred compensation obligations.

Reclassification of Capital Accounts: In order to present undistributed (distribution in excess of) net investment income ("UNII"), accumulated net realized gain ("Accumulated Gain") and paid-in-capital ("PIC") more closely to its tax character, the following accounts for each Trust were increased (decreased):

Trust	UNII	Accumulated Gain	PIC
Broad Investment Grade	\$ (2,478,442)	\$ (509,131)	\$ 2,987,573
Core Bond	4,546,845	(4,545,298)	(1,547)
High Yield	717,081		(717,081)
Income Opportunity	2,334,513	(2,334,513)	
Income Trust	(1,571,393)	1,571,393	

Edgar Filing: BLACKROCK INCOME TRUST INC - Form N-CSR

Limited Duration	15,362	(15,362)	
Strategic Bond	1,898,203		(1,898,203)

Note 2. Agreements

Each Trust has an Investment Management Agreement with BlackRock Advisors, Inc. (the Advisor), which is a wholly owned subsidiary of BlackRock, Inc. BlackRock Financial Management, Inc., a wholly owned subsidiary of BlackRock, Inc., serves as sub-advisor to Core Bond, Limited Duration and Strategic Bond. BlackRock, Inc. is an indirect, majority owned subsidiary of The PNC Financial Services Group, Inc.

Broad Investment Grade, High Yield, Income Opportunity and Income Trust each have an Administration Agreement with the Advisor. The Investment Management Agreement for Core Bond, Limited Duration and Strategic Bond covers both investment advisory and administration services.

Edgar Filing: BLACKROCK INCOME TRUST INC - Form N-CSR

Each Trust's investment advisory fee paid to the Advisor is computed weekly and payable monthly based on an annual rate, 0.55% for Broad Investment Grade, 0.60% for Income Opportunity and 0.65% for Income Trust, of each Trust's average net assets and 0.55% for Core Bond and Limited Duration, 1.05% for High Yield and 0.75% for Strategic Bond, of each Trust's average weekly managed assets. Managed assets means the total assets of a Trust (including any assets attributable to any borrowing that may be outstanding) minus the sum of accrued liabilities (other than debt representing financial leverage). The Advisor has voluntarily agreed to waive a portion of the investment advisory fees or other expenses on Strategic Bond as a percentage of its average weekly managed assets as follows: 0.20% for the first 5 years of the Trust's operations, 0.15% in year 6, 0.10% in year 7 and 0.05% in year 8.

The administration fee paid to the Advisor by Broad Investment Grade, High Yield, Income Opportunity and Income Trust is computed weekly and payable monthly based on an annual rate of 0.15%, 0.05%, 0.10%, and 0.15%, respectively of the Trusts' average weekly managed assets.

Pursuant to the agreements, the Advisor provides continuous supervision of the investment portfolio and pays the compensation of officers of each Trust who are affiliated persons of the Advisor, as well as occupancy and certain clerical and accounting costs of each Trust. Each Trust bears all other costs and expenses, which include reimbursements to the Advisor for cost of employees that provide pricing, secondary market support, and compliance services to each Trust. For the year ended October 31, 2005, the Trusts reimbursed the Advisor the following amounts:

<u>Trust</u>	<u>Amount</u>	<u>Trust</u>	<u>Amount</u>
Broad Investment Grade	\$ 3,650	Income Trust	\$ 31,087
Core Bond	24,820	Limited Duration	24,820
High Yield	2,500	Strategic Bond	6,198
Income Opportunity	25,652		

Pursuant to the terms of their custody agreements, Core Bond, High Yield, Income Opportunity, Income Trust, Limited Duration and Strategic Bond received earnings credits from its custodian for positive cash balances maintained, which are used to offset custody fees.

Note 3. Portfolio Investments

Purchases and sales of investment securities, other than short-term investments, dollar rolls and U.S. government securities, for the year ended October 31, 2005, aggregated as follows:

<u>Trust</u>	<u>Purchases</u>	<u>Sales</u>	<u>Trust</u>	<u>Purchases</u>	<u>Sales</u>
Broad Investment Grade	\$ 31,083,360	\$ 31,914,231	Income Trust	\$ 149,707,225	\$ 154,480,452
Core Bond	343,708,046	394,094,432	Limited Duration	719,043,234	716,261,831
High Yield	69,592,009	70,138,264	Strategic Bond	78,237,356	64,945,130
Income Opportunity	969,733,044	1,011,842,678			

Purchases and sales of U.S. government securities for the year ended October 31, 2005 aggregated as follows:

<u>Trust</u>	<u>Purchases</u>	<u>Sales</u>	<u>Trust</u>	<u>Purchases</u>	<u>Sales</u>
Broad Investment Grade	\$ 14,636,632	\$ 36,005,908	Income Trust	\$ 224,933,848	\$ 254,777,853
Core Bond	1,070,707,534	1,068,262,108	Limited Duration	11,853,749	8,548,029
High Yield		245,574	Strategic Bond	1,430,405	547,063
Income Opportunity	1,333,797,883	1,388,765,858			

Each Trust may from time to time purchase in the secondary market certain mortgage pass-through securities packaged or master serviced by affiliates or mortgage-related securities containing loans or mortgages originated by PNC Bank or its affiliates, including Midland Loan Services, Inc., each of which is an affiliate of BlackRock Advisors, Inc. It is possible under certain circumstances, that PNC Mortgage Securities Corp. or its affiliates, including Midland Loan Services, Inc., could have interests that are in conflict with the holders of these mortgage-backed securities, and such holders could have rights against PNC Mortgage Securities Corp. or its affiliates, including Midland Loan Services, Inc.

For Federal income tax purposes, the following Trusts had capital loss carryforwards as of their last respective tax year end. These amounts may be used to offset future realized capital gains, if any:

Edgar Filing: BLACKROCK INCOME TRUST INC - Form N-CSR

<u>Trust</u>	<u>Capital Loss Carryforward Amount</u>	<u>Expires</u>	<u>Trust</u>	<u>Capital Loss Carryforward Amount</u>	<u>Expires</u>
Broad Investment Grade	\$ 2,518,895	2011	Income Trust	\$ 33,107,952	2007
	684,360	2012		1,352,206	2008
	<u>3,203,255</u>			<u>13,940,898</u>	2009
High Yield	\$ 2,558,868	2007		21,960,613	2011
	3,270,311	2008		10,100,201	2012
	15,159,280	2009		3,861,222	2013
	8,468,860	2010		<u>\$ 84,323,092</u>	
	4,771,417	2011	Limited Duration	\$ 2,008,113	2013
	316,410	2012	Strategic Bond	\$ 432,713	2011
	<u>\$ 34,545,146</u>			<u>318,492</u>	2013
				<u>\$ 751,205</u>	

Accordingly, no capital gain distributions are expected to be paid to shareholders of a Trust until that Trust has net realized capital gains in excess of its carryforward amounts. As of October 31, 2005 High Yield used \$884,735 in capital loss carryforwards to offset net taxable gains.

Edgar Filing: BLACKROCK INCOME TRUST INC - Form N-CSR

Details of open forward currency contracts at October 31, 2005 were as follows:

Note 4. Borrowings

Reverse Repurchase Agreements: The Trusts may enter into reverse repurchase agreements with qualified third-party broker-dealers as determined by and under the direction of the Trusts' Board. Interest on the value of reverse repurchase agreements issued and outstanding is based upon competitive market rates at the time of issuance. At the time a Trust enters into a reverse repurchase agreement, it will establish and maintain a segregated account with the lender, containing liquid investment grade securities having a value not less than the repurchase price, including accrued interest of the reverse repurchase agreement. Details of open reverse repurchase agreements at October 31, 2005 were as follows (please see Corresponding Underlying Collateral Chart on pages 84-85):

<u>Trust/Counter Party</u>	<u>Rate</u>	<u>Trade Date</u>	<u>Maturity Date</u>	<u>Net Closing Amount</u>	<u>Par</u>
