The rates of return will vary and the principal value of an investment will fluctuate. Shares, if sold, may be worth more or less than their original cost. Performance data quoted does not reflect the deduction of taxes that investors may pay on distributions or the sale of shares. Distributions are expected to consist of net investment income and either one or both of net realized capital gains and return of capital. A return of capital distribution does not necessarily reflect the Corporation's investment performance and should not be confused

\* Returns for periods of less than one year are not annualized.

\*\* The Lipper Closed-End Core Funds Average and the Lipper Large-Cap Core Funds Average (the "Lipper Averages") and the Standard & Poor's 500 Index (the "S&P 500 Index") are unmanaged benchmarks that assume reinvestment of all distributions. The Lipper Averages exclude the effect of expenses. The S&P 500 Index also excludes the effect of expenses. The Lipper Closed-End Core Funds Average measures the performance of closed-end funds that typically have an average price-to-earnings ratio, price-to-book ratio, and three-year sales-per-share growth value, compared to the Lipper Large-Cap Core Funds Average includes open-end funds that, by portfolio practice, invest at least 75% of their equity assets (on a three-year weighted basis) greater than 300% of the dollar-weighted median market capitalization of the middle 1,000 securities in the S&P 500 Index. The Lipper Large-Cap Core Funds Average is provided for comparative purposes so that the Corporation's performance can be compared to open-end funds with similar portfolio holdings as the Corporation. Lipper classifies the Corporation, based on its portfolio holdings, as a large-cap fund. The S&P 500 Index measures the performance of 500 of the largest US companies based on market capitalizations. Investors cannot invest directly in any of the funds.

□ Preferred Stockholders were paid dividends totaling \$1.875 per share.

□ Represents the per share amount of gross unrealized gain or loss of portfolio securities as of September 30, 2008.

∅ Current yield, representing the annualized yield for the 30-day period ended September 30, 2008, has been computed in accordance with the Corporation's prospectus.

□ At September 30, 2008, Tri-Continental Corporation owned one limited partnership investment that was purchased through a private offering and cannot be sold without prior registration under the Securities Act of 1933 or pursuant to an exemption therefrom. The investment is valued at fair value as determined in accordance with procedures approved by the Board of Directors of the Corporation. The acquisition dates of investment in the limited partnership, along with the cost and value at September 30, 2008, was as follows:

Investment	Acquisition Dates	Cost	Value
WCAS Capital Partners II, L.P.	12/11/90 to 3/24/98	\$4,292,803	\$2,192,377

□□ The security may be offered and sold only to a □ qualified institutional buyer □ under Rule 144A of the Securities Act of 1933.

These notes are exchangeable at maturity, based on the terms of the respective notes, for shares of common stock of a company or cash at a maturity value which is generally determined as follows:

The principal amount of the notes plus or minus the lowest return of the companies □ respective stock prices determined at maturity from the date of purchase of the notes:

- Energizer Holdings, Inc., Longs Drug Stores Corporation and Sepracor Inc.
- CIGNA Corporation, Hologic, Inc. and Qwest Communications International Inc.
- Adobe Systems Incorporated, UnitedHealth Group Incorporated and Wyeth
- Delta Air Lines, Inc., Intel Corporation and Mylan Inc.
- Health Net, Inc., Kohl's Corporation and Prudential Financial, Inc.
- Comcast Corporation, Merck & Co., Inc. and Nokia Corporation ADR

ADR □ American Depositary Receipts.

Security Valuation □ Securities traded on an exchange are valued at the last sales price on the primary exchange or market on which they are traded. Securities not listed on an exchange or security market, or securities for which there is no last sales price, are valued at the mean of the most recent bid and asked prices or are valued by J. & W. Seligman & Co. Incorporated (□ Seligman □), the Corporation □ s investment manager prior to November 7, 2008, based on quotations provided by primary market makers in such securities. Securities for which market quotations are not readily available (or are otherwise no longer valid or reliable) are valued at fair value determined in accordance with procedures approved by the Board of Directors. This can occur in the event of, among other things, natural disasters, acts of terrorism, market disruptions, intra-day trading halts, and extreme market volatility. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the prices used by other investment companies to determine net asset value or the price that may be realized upon the actual sale of the security. Short-term holdings maturing in 60 days or less are valued at current market quotations or amortized cost if Seligman believes it approximates fair value. Short-term holdings that mature in more than 60 days are valued at current market quotations until the 60th day prior to maturity and are then valued as described above for securities maturing in 60 days or less.

Fair Value Measurements □ On January 1, 2008, the Corporation adopted Statement of Financial Accounting Standards No. 157 (□ SFAS 157 □), □ Fair

Value Measurements. □ SFAS 157 establishes a three-tier hierarchy to classify the assumptions, referred to as inputs, used in valuation techniques (see Security Valuation above) to measure fair value of the Corporation □ s investments. These inputs are summarized in three broad levels: Level 1 □ quoted prices in active markets for identical investments; Level 2 □ other significant observable inputs (including quoted prices in inactive markets or for similar investments); and Level 3 □ significant unobservable inputs (including the Corporation □ s own assumptions in determining fair value). The inputs or methodology used for valuing securities may not be an indication of the risk associated with investing in those securities.

The following is a summary of the value of the Corporation □ s investments as of September 30, 2008 based on the level of inputs used:

Valuation Inputs	Value
Level 1 □ Quoted Prices	\$ 1,551,844,090
Level 2 □ Other Significant Observable Inputs	76,203,223
Level 3 □ Significant Unobservable Inputs	2,192,377

Edgar Filing: TRI-CONTINENTAL CORP - Form N-30B-2

Total

\$ 1,630,239,690

As required by SFAS 157, the following is a reconciliation of investments for which significant unobservable inputs (Level 3) were used to determine the fair value of investments classified as Level 3 at either the beginning or end of the period:

Balance as of December 31, 2007	\$ 1,784,956
Net change in unrealized depreciation	407,421
Balance as of September 30, 2008	\$ 2,192,377
Net change in unrealized depreciation from investments still held as of September 30, 2008	\$ 407,421

Risk □ To the extent that the Corporation invests a substantial percentage of its assets in an industry, the Corporation's performance may be negatively affected if that industry falls out of favor. Stocks of large-capitalization companies have at times experienced periods of volatility and negative performance. During such periods, the value of such stocks may decline and the Corporation's performance may be negatively affected.

Subsequent Events □ On November 7, 2008, RiverSource Investments, LLC (□RiverSource Investments□), a wholly owned subsidiary of Ameriprise Financial, Inc., announced the closing of its acquisition (the □Acquisition□) of Seligman. With the Acquisition completed and stockholders of the Corporation having previously approved (at a Special Meeting held on October 7, 2008) a new investment management services agreement between the Corporation and RiverSource Investments, RiverSource Investments is the new investment manager of the Corporation effective November 7, 2008.

On November 12, 2008, the Corporation announced an offer to repurchase up to approximately 35% of its issued and outstanding shares of common stock (□Common Stock□) in exchange for a pro rata portion of the Corporation's portfolio securities (subject to certain exceptions) and cash (or cash equivalents) at a price equal to 99.25% of the net asset value per share of Common Stock as of the close of the regular trading session of the New York Stock Exchange on the trading day immediately after the day the repurchase offer expires.

The offer commenced on November 12, 2008 and will expire at 5:00 p.m., Eastern time, on December 11, 2008 (unless extended). The offer is being made upon the terms and subject to the conditions set forth in the Offer to Repurchase, which was mailed on November 14, 2008 to holders of Common Stock of the Corporation on November 10, 2008.

**Distribution Policy.** Holders of Tri-Continental Common Stock will receive quarterly distributions equal to a minimum of 2.75% of the net asset value of Tri-Continental's Common Stock on the last business day of the preceding calendar quarter (approximately 11% annually). The payment options for receiving distributions are:

- 100% of distribution to be invested in additional shares of Tri-Continental
- 75% of distribution to be invested in additional shares, 25% of distribution to be paid in cash
- 50% of distribution to be invested in additional shares, 50% of distribution to be paid in cash
- 100% of distribution to be paid in cash

You can change your payment election at any time by contacting your financial advisor or Stockholder Services at 800-TRI-1092.

**Automatic Dividend Investment and Cash Purchase Plan.** Subject to the terms and conditions set forth in the prospectus, Stockholders may automatically purchase additional shares with distribution payments. There is no charge for this service. Stockholders may also, subject to the terms and conditions of the prospectus, purchase additional shares directly from the Corporation. There is a service fee of a maximum of \$2.00 for each cash purchase transaction.

**Automatic Cash Withdrawal Plan.** Stockholders who hold Common Stock with a market value of \$5,000 or more may elect to receive a fixed amount from their investment at regular intervals by selling their shares to the Corporation. This Plan will be suspended during the Corporation's repurchase offer, as described in the Offer to Repurchase filed with the Securities and Exchange Commission on November 12, 2008. This Plan may also be suspended during a second potential repurchase offer.

**Traditional Individual Retirement Account (IRA).** Stockholders who have earned income and are under age 70½ may contribute up to \$5,000 per year to a Traditional IRA for 2008. A working or non-working spouse may also contribute up to \$5,000 to a separate Traditional IRA for 2008. Additionally, individuals who reach age 50 prior to the end of a taxable year may make "catch-up contributions" to a Traditional IRA of up to \$1,000. Contributions to a Traditional IRA may be deductible or non-deductible. If you are single and *not* covered by an employer's retirement plan, your contribution will always be deductible. For individuals who are covered by a plan, contributions will be fully deductible if your modified adjusted gross income (MAGI) in 2008 is less than \$53,000. For spouses who are both covered by a plan, contributions will be fully deductible if your MAGI is less than \$85,000. If one spouse does not work or is not covered by a retirement plan, that spouse's contribution will be fully deductible provided your household MAGI does not exceed \$159,000. If your contribution is not deductible, you may still take advantage of the tax-deferred accumulation of earnings in your Traditional IRA.

**Rollover IRA.** You may be eligible to roll over a distribution of assets received from another IRA, a qualified employee benefit plan, or tax-deferred annuity into a Rollover IRA with Tri-Continental. To avoid a tax penalty, the transfer to a Rollover IRA must occur within 60 days of receipt of the qualifying distribution. If you do not make a direct transfer of a distribution from a qualified employee benefit plan or a tax-deferred annuity to a Rollover IRA, the payor of the distribution must withhold 20% of the distribution.

### **Stockholder Services** (continued)

**Roth IRA.** You (and a working or non-working spouse) may (each) make an after-tax contribution of up to \$5,000 per year to a Roth IRA provided you have earned income and meet the eligibility requirements. Your MAGI must be less than \$101,000 for individuals or \$159,000 for married couples to be eligible to make a full contribution to a Roth IRA. You are eligible to make a partial Roth IRA contribution if your MAGI is below \$116,000 for individuals or \$169,000 for married couples. Total combined contributions to a Roth IRA and a Traditional IRA cannot exceed \$5,000 in any year. Additionally, individuals who reach age 50 prior to the end of a taxable year may make "catch-up contributions" to either a Roth IRA or Traditional IRA of up to \$1,000. Earnings grow tax-free and will be distributed to you tax-free and penalty-free provided that you hold your account for at least five years **and** you take the distribution either after age 59½, for disability, upon death, or to make a first-time home purchase (up to \$10,000). Unlike a Traditional IRA, you may contribute to a Roth IRA even if you are over age 70½ (if you have earned income), and you are not required to take minimum distributions at age 70½. You may convert an existing Traditional IRA to a Roth IRA to take advantage of tax-free distributions. You must pay taxes on any earnings and deductible contributions in your Traditional IRA when converting it to a Roth IRA. Talk to your financial advisor for more details on converting your Traditional IRA.

**Retirement Planning - Qualified Plans** Unincorporated businesses and the self-employed may take advantage of the same benefits in their retirement plans that are available to corporations. Contribution levels can go as high as 100% of earned income (reduced by plan contributions), to a maximum of \$46,000 per participant. For retirement plan purposes, no more than \$230,000 may be taken into account as earned income under the plan in 2008. Social Security integration and employee vesting schedules are also available as options in the Tri-Continental prototype retirement plans. Although you already may be participating in an employer's retirement plan, you may be eligible to establish another plan based upon income from other sources, such as director's fees.

**Retirement Plan Services** provides information about our prototype retirement plans. The toll-free telephone number is (800) 445-1777 in the US and (212) 682-7600 outside the US.
