#### **Valuation of Investments:**

Market values for securities listed on the New York Stock Exchange ("NYSE"), NASDAQ national market or other U.S. or foreign exchanges or markets are generally based on the last reported sales price on the exchange or market on which the security is principally traded, generally as of the close of regular trading on the NYSE (normally 4:00 p.m. Eastern time) on each valuation date; securities not traded on the valuation date are valued at the most recent quoted bid price. The Fund values NASDAQ-traded securities at the NASDAQ Official Closing Price, which may not be the last reported sales price in certain instances. Forward currency contracts are valued using quotations from an independent pricing service. Investments in money market funds are valued at the fund's net asset value.

Bonds and other fixed-income securities that are not exchange-traded are valued on the basis of prices provided by independent pricing services which are based primarily on institutional trading in similar groups of securities, or by using brokers' quotations or a matrix system which considers such factors as other security prices, yields and maturities. Debt securities maturing in 60 days or less are valued at amortized cost, except where to do so would not accurately reflect their fair value, in which case such securities are valued at fair value as determined by, or in accordance with procedures approved by, the Board of Directors (the "Board").

The Valuation Committee of Lazard Asset Management LLC (the "Investment Manager"), which meets periodically under the direction of the Board, may evaluate a variety of factors to determine the fair value of securities for which market quotations are determined not to be readily available or reliable. These factors include, but are not limited to, the type of security, the value of comparable securities, observations from financial institutions and relevant news events. Input from the Investment Manager's analysts also will be considered.

If a significant event materially affecting the value of securities occurs between the close of the exchange or market on which the security is principally traded and the time when the Fund's net asset value is calculated, or when current market quotations otherwise are determined not to be readily available or reliable (including restricted or other illiquid securities such as certain derivative instruments), such securities will be valued at their fair value as determined by, or in accordance with procedures approved by, the Board.

#### **Fair Value Measurements:**

Fair value is defined as the price that the Fund would receive to sell an asset, or would pay to transfer a liability, in an orderly transaction between market participants at the date of measurement. The Fair Value Measurements and Disclosures provisions of accounting principles generally accepted in the United States of America also establish a framework for measuring fair value, and a three-level hierarchy for fair value measurement that is based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer, broadly, to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Fund. Unobservable inputs reflect the Fund's own assumptions about the assumptions that market participants would use in pricing the asset or liability, developed based on the best information available in the circumstances. Each investment's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the overall fair value measurement. The three-level hierarchy of inputs is summarized below.

- ·Level 1 unadjusted quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including unadjusted quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risks associated with investing in these securities.

The following table summarizes the valuation of the Fund's investments by each fair value hierarchy level as of March 31, 2013:

Lazard Global Total Return and Income Fund, Inc.

### Portfolio of Investments (concluded)

### March 31, 2013 (unaudited)

Description	Unadjusted Quoted Prices in Active Markets for Identical Investments (Level 1)	Significant Other Observable Inputs (Level 2)	Signific Unobser Inputs (Level 3	rvable	Balance as of March 31, 2013
Assets:					
Common Stocks	\$163,537,209	<b>\$</b> —	\$		\$163,537,209
Foreign Government Obligations	_	18,501,557			18,501,557
Short-Term Investment	_	5,451,477			5,451,477
Other Financial Instruments*					
Forward Currency Contracts		1,266,588		_	1,266,588
Total	\$163,537,209	\$25,219,622	\$		\$188,756,831
Liabilities: Other Financial Instruments* Forward Currency Contracts	\$—		)\$	_	\$(772,313)

<sup>\*</sup> Other financial instruments are derivative instruments which are valued at their respective unrealized appreciation/depreciation.

The foreign government obligations included in Level 2 were valued on the basis of prices provided by independent pricing services. The forward currency contracts included in Level 2 were valued using quotations provided by an independent pricing service. The short-term investment included in Level 2 (a pooled investment fund) was valued at the fund's net asset value.

There were no transfers into or out of Levels 1, 2 or 3 during the period ended March 31, 2013.

Item 2. Controls and Procedures.

- (a) The Registrant's principal executive and principal financial officers have concluded, based on their evaluation of the Registrant's disclosure controls and procedures as of a date within 90 days of the filing date of this report, that the Registrant's disclosure controls and procedures are reasonably designed to ensure that information required to be disclosed by the Registrant on Form N-Q is recorded, processed, summarized and reported within the required time periods and that information required to be disclosed by the Registrant in the reports that it files or submits on Form N-Q is accumulated and communicated to the Registrant's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.
- (b) There were no changes to the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

#### Item 3. Exhibits.

Certifications of principal executive and principal financial officers as required by Rule 30a-2(a) under the Investment Company Act of 1940 are attached as Exhibit 99.CERT.
