RISK FACTORS

You should carefully read and consider the following factors and other information included or incorporated by reference in this prospectus before investing in our common stock.

NO ASSURANCES OF FUTURE PROFITABILITY; LOSSES FROM OPERATIONS; NEED FOR CAPITAL. We incurred net losses for the fiscal years ended June 30, 2003 and 2002 as well as the transition period ended June 30, 2001. We earned a profit in the fiscal year ended January 31, 2000, the fourth quarter ended June 30, 2002 and the first quarter ended September 30, 2002. In order for us to earn profits in the future, we need to increase volumes at profitable margins, control costs and generate sufficient cash flow to support our working capital and debt service requirements. There is no assurance that management will be able to accomplish our business plan, or that we will be able to continue to raise capital to support a working capital or debt service shortfall during any business downturns.

Edgar Filing: STREICHER MOBILE FUELING INC - Form S-3

TRADING MARKET FOR THE COMPANY'S COMMON STOCK. Our common stock is thinly traded which could make it difficult for shareholders to sell shares at a predictable price or at all. In addition, there may be volatility in the market price of our common stock due to factors beyond our control. Our quarterly operating results, changes in general conditions in the economy, the financial markets or other developments affecting us could cause the market price of our common stock to fluctuate, making it difficult for shareholders to sell shares at predictable prices or times.

GROWTH DEPENDENT UPON EXPANSION; RISKS ASSOCIATED WITH EXPANSION INTO NEW MARKETS. A significant component of our future growth strategy will be to expand our business into new service locations. We intend to expand into additional major and secondary metropolitan areas. Expansion will largely be dependent on our ability to demonstrate the benefits of mobile fueling to potential new customers; successfully establish and operate new locations; hire, train and retain qualified management, operating, marketing and sales personnel; finance capital expenditures and working capital requirements; secure reliable sources of product supply on a timely basis and on commercially acceptable credit terms; and successfully manage growth by effectively supervising operations, controlling costs and maintaining appropriate quality controls. Our growth will depend upon our ability to achieve greater penetration in existing markets and to successfully penetrate new markets. We may also seek to expand through the acquisition of existing companies or their customer bases. During the fiscal year ended June 30, 2003, we commenced operations in the Greensboro, North Carolina market. However, there can be no assurance that we will be able to further expand our operations.

ACQUISITION AVAILABILITY; INTEGRATING ACQUISITIONS. Our future growth strategy may involve the acquisition of mobile fueling companies, wholesale fuel or petroleum lubricant distributors or other related entities and businesses in existing and new markets. There can be no assurance that we will be able to locate or make suitable acquisitions on acceptable terms or that future acquisitions will be effectively and profitably integrated into our existing business. Acquisitions involve risks that could adversely affect our operating results, including management commitment; integration of the operations and personnel of the acquired operations; write downs of acquired intangible assets; and possible loss of key employees of the acquired operations.

DEPENDENCE ON KEY PERSONNEL. Our future success will be largely dependent on the continued services and efforts of Richard E. Gathright, our President and Chief Executive Officer, and other key personnel. The loss of the services of Mr. Gathright or other key personnel could have a material adverse effect on our business and prospects. Our success and plans for future growth will also depend on our ability to attract and retain additional qualified management, operating, marketing, sales and financial personnel. There can be no assurance that we will be able to hire or retain such personnel on terms satisfactory to us. We have entered into an employment agreement with Mr. Gathright which expires October 31, 2004. We have also entered into written employment agreements with certain other of our officers.

FUEL PRICING; EFFECT ON PROFITABILITY. Diesel fuel and gasoline are commodities which are refined and distributed by numerous sources. We purchase the fuel delivered to our customers from multiple suppliers at daily market prices and in some cases qualifies for volume discounts. We monitor fuel prices and trends in each of our service markets on a daily basis and seeks to purchase our supply at the lowest prices and under the most favorable terms. Commodity price risk is mitigated since we purchase and deliver our fuel supply daily and utilizes cost-plus

Edgar Filing: STREICHER MOBILE FUELING INC - Form S-3

pricing to our customers. If we cannot pass on the cost-plus pricing to our customers, margins would decrease and a loss could be incurred. We have not engaged in derivatives or futures trading to hedge fuel price movements.

RISKS ASSOCIATED WITH CUSTOMER CONCENTRATION; ABSENCE OF WRITTEN AGREEMENTS. Although we provide services to an extensive number of customers, a significant portion of our revenue is generated from a few of our larger customers. While we have formal, length of service written contracts with some of these larger customers, such agreements are not customary in the mobile fueling business and have not been entered into by us with the majority of our customers. As a result, most of our customers can terminate our mobile fueling services at any time and for any reason, and we can similarly discontinue service to any customer. We may discontinue service to a customer if changes in the service conditions or other factors cause us not to meet our minimum level of margins and rates, and the pricing or delivery arrangements cannot be re-negotiated. As a result of this customer concentration and absence of written agreements, our business, results of operations and financial condition could be materially adversely affected if one or more of our large customers were lost or if we were to experience a high rate of contract terminations.

MANAGEMENT OF GROWTH. Our future growth strategy is dependent on effective operational, financial and other internal systems, and the ability to attract, train, motivate, manage and retain our employees. If we are unable to manage growth effectively, our results of operations will be adversely affected.

COMPETITION. We compete with other mobile fueling service providers, including several regional companies and numerous small, independent operators who provide these services. We also compete with retail marketing where fleet operators have the option of fueling their own equipment at retail stations and other third-party service locations. Our ability to compete is dependent on numerous factors, including price, delivery dependability, credit terms, service locations, and reporting and invoicing services. There can be no assurance that we will be able to continue to compete successfully as a result of these or other factors.

OPERATING RISKS MAY NOT BE COVERED BY INSURANCE. Our operations are subject to all of the operating hazards and risks normally incidental to handling, storing and transporting diesel fuel and gasoline, which are classified as hazardous materials. We maintain insurance policies in such amounts and with such coverages and deductibles as we believe are reasonable and prudent. However, there can be no assurance that such insurance will be adequate to protect us from liabilities and expenses that may arise from claims for personal and property damage arising in the ordinary course of business or that such levels of insurance will be maintained by us or will be available at economical prices.

GOVERNMENTAL REGULATION. Our operations are affected by numerous federal, state and local laws, regulations and ordinances, including those relating to protection of the environment and worker safety. Various federal, state and local agencies have broad powers under these laws, regulations and ordinances. In particular, the operation of our mobile fueling fleet and our transportation of diesel fuel and gasoline are subject to extensive regulation by the U.S. Department of Transportation ("DOT") under the Federal Motor Carrier Safety Act ("FMCSA") and the Hazardous Materials Transportation Act ("HMTA"). We are subject to regulatory and legislative changes that can affect the economics of the industry by requiring changes in operating practices or influencing the demand for, and the cost of providing, our services. In addition, we depend on the supply of diesel fuel and gasoline from the oil and gas industry and, therefore, are affected by changing taxes, price controls and other laws and

Edgar Filing: STREICHER MOBILE FUELING INC - Form S-3

regulations generally relating to the oil and gas industry. We cannot determine the extent to which our future operations and earnings may be affected by new legislation, new regulations or changes in existing regulations.

The technical requirements of these laws and regulations are becoming increasingly expensive, complex and stringent. These laws may impose penalties or sanctions for damages to natural resources or threats to public health and safety. Such laws and regulations may also expose us to liability for the conduct of or conditions caused by others, or for our acts that were in compliance with all applicable laws at the time such acts were performed. Sanctions for noncompliance may include revocation of permits, corrective action orders, administrative or civil penalties and criminal prosecution. Certain environmental laws provide for joint and several liability for remediation of spills and releases of hazardous substances. In addition, we may be subject to claims alleging personal injury or property damage as a result of alleged exposure to hazardous substances, as well as damage to natural resources.

5

Although we believe that we are in substantial compliance with existing laws and regulations, there can be no assurance that substantial costs for compliance will not be incurred in the future. There could be an adverse affect upon our operations if there were any substantial violations of these rules and regulations. Moreover, it is possible that other developments, such as stricter environmental laws, regulations and enforcement policies thereunder, could result in additional, presently unquantifiable, costs or liabilities to us.

CHANGES IN ENVIRONMENTAL REQUIREMENTS. We expect to derive future business by converting to mobile fueling fleet operators currently utilizing underground fuel storage tanks for their fueling needs. The owners of underground storage tanks have been required to remove or retrofit those tanks to comply with technical regulatory requirements pertaining to their construction and operation. If other more economical means of compliance are developed or adopted by owners of underground storage tanks, the opportunity for us to market our services to such owners may be adversely affected.

USE OF PROCEEDS

We will receive up to \$2,079,135 upon the exercise of the warrants by the selling shareholders. We will not receive any of the proceeds from the sales of our common stock or the warrants by the selling shareholders. Expenses expected to be incurred in connection with this offering are estimated to be approximately \$36,000.

PLAN OF DISTRIBUTION

GENERAL

As used in this prospectus, the term "selling shareholders" includes the pledgees, donees, transferees and their successors in interest that receive the shares as a gift, partnership distribution or other non-sale related transfer.

Transactions. The selling shareholders may offer and sell their shares of common stock in one or more of the following transactions:

- o on the Nasdaq SmallCap Market,
- o in the over-the-counter market,
- o in privately negotiated transactions,
- o for settlement of short sales, or through long sales, options or transactions involving cross or block trades,
- o by pledges to secure debts and other obligations, or
- o in a combination of any of these transactions.

Prices. The selling shareholders may sell their shares of common stock at any of the following prices:

- o fixed prices which may be changed,
- o market prices prevailing at the time of sale,
- o prices related to prevailing market prices, or
- o privately negotiated prices.

Direct Sales; Agents, Dealers and Underwriters. The selling shareholders may effect transactions by selling their shares of common stock in any of the following ways:

- o directly to purchasers, or
- o to or through agents, brokers, dealers or underwriters designated from time to time.

Agents, dealers or underwriters may receive compensation in the form of underwriting discounts, concessions or commissions from the selling shareholders and/or the purchasers of shares for whom they act as agent or to whom they sell as principals, or both. The selling shareholders and any agents, dealers or underwriters that act in connection with the sale of shares might be deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act, and any discount or commission received by them and any profit on the resale of shares as principal might be deemed to be underwriting discounts or commissions under the Securities Act. Because the selling shareholders might be deemed to be underwriters, the selling shareholders will be subject to the prospectus delivery requirements of the Securities Act.

Each selling shareholder will be subject to applicable provisions of the Exchange Act and the associated rules and regulations under the Exchange Act,

Edgar Filing: STREICHER MOBILE FUELING INC - Form S-3

including Regulation M, which provisions may limit the timing of purchases and sales of shares of our common stock by the selling shareholders.

In addition, any shares that qualify for sale pursuant to Rule 144 under the Securities Act may be sold under Rule 144 rather than pursuant to this prospectus.

Supplements. To the extent required, we will set forth in a supplement to this prospectus filed with the SEC the number of shares to be sold, the purchase price and public offering price, the name or names of any agent, dealer or underwriter, and any applicable commissions or discounts with respect to a particular offering. In particular, upon being notified by a selling shareholder that a donee or pledgee intends to sell more than 500 shares, we will file a supplement to this prospectus.

State Securities Law. Under the securities laws of some states, the selling shareholders may only sell the shares in those states through registered or licensed brokers or dealers. In addition, in some states the selling

12

shareholders may not sell the shares unless they have been registered or qualified for sale in that state or an exemption from registration or qualification is available and is satisfied.

Expenses; Indemnification. We will receive up to \$2,079,135 upon exercise of the warrants by the selling shareholders but we will not receive any of the proceeds from the sale of the common stock sold by the selling shareholders. We will bear all expenses related to the registration of this offering but will not pay for any underwriting commissions, fees or discounts, if any. We have agreed to indemnify the selling shareholders against some civil liabilities, including some liabilities which may arise under the Securities Act.

ITEM 15. INDEMNIFICATION OF DIRECTORS AND OFFICERS

FLORIDA BUSINESS CORPORATION ACT. Section 607.0850 of the Florida Business Corporation Act (the "FBCA") generally permits the Registrant to indemnify its directors, officers, employees and other agents who are subject to any third-party actions because of their service to the Registrant if such persons acted in good faith and in a manner they reasonably believed to be in, or not opposed to, the best interests of the Registrant. If the proceeding is a criminal one, such person must also have had no reasonable cause to believe his conduct was unlawful. In addition, the Registrant may indemnify its directors, officers, employees or other agents who are subject to derivative actions against expenses and amounts paid in settlement which do not exceed, in the judgment of the board of directors, the estimated expense of litigating the proceeding to conclusion, actually and reasonably incurred in connection with the defense or settlement of such proceeding, if such person acted in good faith and in a manner such person reasonably believed to be in, or not opposed to, the best interests of the Registrant. To the extent that a director, officer, employee or other agent is successful on the merits or otherwise in defense of a third-party or derivative action, such person will be indemnified against expenses actually and reasonably incurred in connection therewith. This Section also permits a corporation further to indemnify such persons by other means unless a judgment or other final adjudication establishes that such person's actions or omissions which were material to the cause of action constitute (1) a crime (unless such person had reasonable cause to believe his conduct was lawful or had no reasonable cause to believe it unlawful), (2) a transaction from which he derived an improper personal benefit, (3) a transaction in violation of Section 607.0834 of the FBCA (unlawful distributions to shareholders), or (4) willful misconduct or a conscious disregard for the best interests of the corporation in a proceeding by or in the right of the corporation to procure a judgment in its favor or in a proceeding by or in the right of a shareholder.

Furthermore, Section 607.0831 of the FBCA provides, in general, that no director shall be personally liable for monetary damages to the Registrant or any other person for any statement, vote, decision, or failure to act, regarding corporate management or policy, unless: (a) the director breached or failed to perform his duties as a director; and (b) the director's breach of, or failure to perform, those duties constitutes (i) a violation of criminal law, unless the director had reasonable cause to believe his conduct was lawful or had no reasonable cause to believe his conduct was unlawful, (ii) a transaction from which the director derived an improper personal benefit, either directly or indirectly, (iii) a circumstance under which the liability provisions of Section 607.0834 of the FBCA are applicable, (iv) in a proceeding by or in the right of the Registrant to procure a judgment in its favor or by or in the right of a shareholder, conscious disregard for the best interest of the Registrant, or willful misconduct, or (v) in a proceeding by or in the right of someone other than the Registrant or a shareholder, recklessness or an act or omission which was committed in bad faith or with malicious purpose or in a manner exhibiting wanton and willful disregard of human rights, safety, or property. The term "recklessness," as used above, means the action, or omission to act, in conscious disregard of a risk: (a) known, or so obvious that it should have been known, to the directors; and (b) known to the director, or so obvious that it should have been known, to be so great as to make it highly probable that harm would follow from such action or omission.

ITEM 17. UNDERTAKINGS

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement.

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona

Edgar Filing: STREICHER MOBILE FUELING INC - Form S-3

fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the Company's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in this registration statement shall be deemed to be a new registration statement relating to the securities offered thereby, and the offering of such securities at the time shall be deemed to be the initial bona fide offering thereof.

II-2

(c) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

II-3

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the Registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S-3 and has duly caused this Registration Statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Fort Lauderdale, State of Florida, on March 17, 2004.
