REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
Access Integrated Technologies, Inc.

We have audited the accompanying consolidated balance sheets of Access Integrated Technologies, Inc. and subsidiaries (the "Company") as of March 31, 2007 and 2008, and the related consolidated statements of operations, cash flows and stockholders' equity for each of the years in the three-year period ended March 31, 2008. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements enumerated above present fairly, in all material respects, the consolidated financial position of Access Integrated Technologies, Inc. and subsidiaries as of March 31, 2007 and 2008, and the consolidated results of their operations and their consolidated cash flows for each of the years in the three-year period ended March 31, 2008 in conformity with accounting principles generally accepted in the United States of America.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Access Integrated Technologies, Inc.'s assessment of internal control over financial reporting as of March 31, 2008, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"), and our report dated June 13, 2008 expressed an unqualified opinion thereon.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
Access Integrated Technologies, Inc.

We have audited Access Integrated Technologies, Inc. and subsidiaries' (the "Company") internal control over financial reporting as of March 31, 2008, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). The Company's management is responsible for maintaining effective control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Access Integrated Technologies, Inc. and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of March 31, 2008, based on criteria established in Internal Control – Integrated Framework issued by COSO.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Access Integrated Technologies, Inc. and Subsidiaries as of March 31, 2007 and 2008, and the related consolidated statements of operations, cash flows and stockholders' equity for each of the years in the three-year period ended March 31, 2008, and our report dated June 13, 2008 expressed an unqualified opinion thereon.

The Company provides fully managed storage, electronic delivery and software services and technology solutions for owners and distributors of digital content to movie theatres and other venues. In the past, the Company generated revenues from two primary businesses, media services ("Media Services") and internet data center ("IDC" or "data center") services ("Data Center Services"), a business the Company no longer operated after May 1, 2007. Beginning April 1, 2007, the Company made changes to its organizational structure which impacted the Company's reportable segments, but did not impact the Company's consolidated financial position, results of operations or cash flows. The Company realigned its focus to three primary businesses, media services ("Media Services"), media content and entertainment ("Content & Entertainment") and other ("Other"). The Company's Media Services business provides software, services and technology solutions to the motion picture and television industries, primarily to facilitate the transition from analog (film) to digital cinema and has positioned the Company at what the Company believes to be the forefront of an emerging industry opportunity relating to the delivery and management of digital cinema and other content to entertainment and other remote venues worldwide. The Company's Content & Entertainment business provides motion picture exhibition to the general public and cinema advertising and film distribution services to movie exhibitors. The Company's Other business is attributable to the Data Center Services.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION AND CONSOLIDATION

For the fiscal years ended March 31, 2006, 2007 and 2008, the Company incurred net losses of $17,123, $25,999 and $35,687, respectively, and cash used in operating activities of $5,488, $19,190 and $443, respectively. In addition, the Company has an accumulated deficit of $100,692 as of March 31, 2008. At March 31, 2008, the Company also has contractual obligations (including interest and excluding non-cash interest) of $47,854 for the fiscal year 2009. Management expects that the Company will continue to generate losses for the foreseeable future. Certain of these costs could be reduced if working capital decreased. Based on the Company's cash position at March 31, 2008, and expected cash flows from operations, management believes that the Company has the ability to meet its obligations through June 30, 2009. The Company may attempt to raise additional capital from various sources for equipment requirements related to the Company's Phase II Deployment or for working capital as necessary. There is no assurance that such financing will be completed as contemplated or under terms acceptable to the Company or its existing shareholders. Failure to generate additional revenues, raise additional capital or manage discretionary spending could have a material adverse effect on the Company's ability to continue as a going concern and to achieve its intended business objectives. The accompanying consolidated financial statements do not reflect any adjustments which may result from the outcome of such uncertainties.

The Company's consolidated financial statements include the accounts of AccessIT, Access Digital Media, Inc. ("AccessDM"), Hollywood Software, Inc. d/b/a AccessIT Software ("AccessIT SW"), Core Technology Services, Inc. ("Managed Services"), FiberSat Global Services, Inc. d/b/a AccessIT Satellite and Support Services, ("AccessIT Satellite"), ADM Cinema Corporation ("ADM Cinema") d/b/a the Pavilion Theatre (the "Pavilion Theatre"), Christie/AIX, Inc. d/b/a AccessIT Digital Cinema ("AccessIT DC"), PLX Acquisition Corp., UniqueScreen Media, Inc. d/b/a

AccessIT Advertising and Creative Services (“ACS”), Vistachiara Productions, Inc. d/b/a The Bigger Picture (“The Bigger Picture”) and Access Digital Cinema Phase 2 Corp. (“Phase 2 Corporation”). AccessDM and AccessIT Satellite will together be known as the Digital Media Services Division (“DMS”). All intercompany transactions and balances have been eliminated.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. The Company’s most significant estimates related to software revenue recognition, capitalization of software development costs, amortization and impairment testing of intangible assets and depreciation of fixed assets. On an on-going basis, the Company evaluates its estimates, including those related to the carrying values of its fixed assets and intangible assets, the valuation of deferred tax assets, and the valuation of assets acquired and liabilities assumed in purchase business combinations. The Company bases its estimates on historical experience and on various other assumptions that the Company believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the

carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from these estimates under different assumptions or conditions.

Certain reclassifications of prior period data have been made to conform to the current presentation.

CASH AND CASH EQUIVALENTS

The Company considers all highly liquid investments with an original maturity of three months or less to be “cash equivalents.” The carrying amount of the Company’s cash equivalents approximates fair value due to the short maturities of these investments and consists primarily of money market funds and other overnight investments. The Company maintains cash deposits with major banks, which from time to time may exceed federally insured limits. The Company periodically assesses the financial condition of the institutions and believes that the risk of any loss is minimal.

INVESTMENT SECURITIES

During the fiscal years ended March 31, 2007 and 2008, the Company held investment securities which were principally auction rate perpetual preferred securities. However, as of each year end date, the Company was not invested in these securities. The Company classified all investment securities as available-for-sale. Securities accounted for as available-for-sale were required to be reported at fair value with unrealized gains and losses, net of taxes, excluded from net income and shown separately as a component of accumulated other comprehensive income within stockholders’ equity. The securities that the Company had classified as available-for-sale generally traded at par and as a result typically did not have any realized or unrealized gains or losses.

DEPOSITS ON PROPERTY AND EQUIPMENT

Deposits on property and equipment represent amounts paid when digital cinema projection systems (the “Systems”) are ordered from Christie Digital Systems USA, Inc. (“Christie”) in connection with AccessIT DC’s Phase I Deployment (see Note 8). During AccessIT DC’s Phase I Deployment, such amounts were classified as long-term assets due to the nature of the assets underlying these deposits, although such deposits were to be offset against invoices from Christie when the associated invoices were paid. As of March 31, 2008, the Company had $3,802 of unapplied deposits which are combined with accounts payable and accrued expenses, as AccessIT DC’s Phase I Deployment was finalized, and the related projection systems had been delivered and installed.

PROPERTY AND EQUIPMENT

Property and equipment are stated at cost, less accumulated depreciation. Depreciation expense is recorded using the straight-line method over the estimated useful lives of the respective assets as follows:

Computer equipment	3-5 years
Digital cinema projection systems	10 years
Other projection system equipment	5 years
Machinery and equipment	3-10 years
Furniture and fixtures	3-6 years
Vehicles	5 years

Leasehold improvements are being amortized over the shorter of the lease term or the estimated useful life of the improvement. Maintenance and repair costs are charged to expense as incurred. Major renewals, improvements and additions are capitalized. Upon the sale or other disposition of any property and equipment, the cost and related accumulated depreciation are removed from the accounts and the gain or loss is included in the statement of operations.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amounts of the Company’s financial instruments, which include cash and cash equivalents, investment securities, accounts receivable, accounts payable, accrued expenses and other obligations, approximate their fair value due to the short-term maturities of the related instruments.

Concentrations of Credit Risk

The Company's customer base is primarily composed of businesses throughout the United States. The Company routinely assesses the financial strength of its customers and the status of its accounts receivable and, based upon factors surrounding the credit risk, establishes an allowance, if required, for uncollectible accounts and, as a result, believes that its accounts receivable credit risk exposure beyond such allowance is limited. Based on borrowing rates currently available to the Company for loans with similar terms, the carrying value of notes payable and capital lease obligations approximates fair value.

IMPAIRMENT OF LONG-LIVED ASSETS

The Company reviews the recoverability of its long-lived assets on a periodic basis in order to identify business conditions, which may indicate a possible impairment. The assessment for potential impairment is based primarily on the Company's ability to recover the carrying value of its long-lived assets from expected future undiscounted cash flows. If the total of expected future undiscounted cash flows is less than the total carrying value of the assets, a loss is recognized for the difference between the fair value (computed based upon the expected future discounted cash flows) and the carrying value of the assets.

BUSINESS COMBINATIONS AND INTANGIBLE ASSETS

The Company adopted Statement of Financial Accounting Standards ("SFAS") No. 141, "Business Combinations" ("SFAS No. 141") and SFAS No. 142, "Goodwill and other Intangible Assets" ("SFAS No. 142"). SFAS No. 141 requires all business combinations to be accounted for using the purchase method of accounting and that certain intangible assets acquired in a business combination must be recognized as assets separate from goodwill. SFAS No. 142 addresses the recognition and measurement of goodwill and other intangible assets subsequent to their acquisition. SFAS No. 142 also addresses the initial recognition and measurement of intangible assets acquired outside of a business combination, whether acquired individually or with a group of other assets. This statement provides that intangible assets with indefinite lives and goodwill will not be amortized but will be tested at least annually for impairment. If impairment is indicated, then the asset will be written down to its fair value, typically based upon its future expected discounted cash flows. As of March 31, 2008, the Company's finite-lived intangible assets consisted of customer relationships and agreements, theatre relationships, covenants not to compete, trade names and trademarks and Federal Communications Commission licenses (for satellite transmission services), which are estimated to have useful lives ranging from two to ten years. In June 2007, the unamortized balance of the liquor license (for the Pavilion Theatre) was charged to other expense. In connection with The Bigger Picture Acquisition (see Note 3), $2,071 of the purchase price was allocated to a certain customer contract. During the fiscal year ended March 31, 2008, the customer decided not to continue its contract with The Bigger Picture. As a result, the unamortized balance of $1,588 was charged to expense and recorded as impairment of intangible asset in the consolidated financial statements. At March 31, 2008, the Company concluded that there was no impairment of any other intangible assets.

In addition, the Company recorded goodwill in connection with the acquisitions of AccessIT SW, Managed Services, AccessIT Satellite, the Pavilion Theatre, PLX, ACS and The Bigger Picture. Goodwill related to the acquisition of the Pavilion Theatre was reduced in September 2005 in connection with the early retirement of the outstanding note payable (see Note 6). In September 2006, the amount of goodwill related to the Pavilion Theatre was reduced by $107 for the remaining unpaid amount related to the holdback of funds at the time of purchase. At March 31, 2008, the Company concluded that there was no impairment of goodwill.

Information related to the segments of the Company and its subsidiaries regarding goodwill is detailed below:

CAPITALIZED SOFTWARE DEVELOPMENT COSTS

Internal Use Software

The Company accounts for these software development costs under Statement of Position (“SOP”) 98-1, “Accounting for the Costs of Computer Software Developed or Obtained for Internal Use” (“SOP 98-1”). SOP 98-1 states that there are three distinct stages to the software development process for internal use software. The first stage, the preliminary project stage, includes the conceptual formulation, design and testing of alternatives. The second stage, or the program instruction phase, includes the development of the detailed functional specifications, coding and testing. The final stage, the implementation stage, includes the activities associated with placing a software project into service. All activities included within the preliminary project stage would be considered research and development and expensed as incurred. During the program instruction phase, all costs incurred until the software is substantially complete and ready for use, including all necessary testing, are capitalized and amortized on a straight-line basis over estimated lives ranging from three to five years. The Company has not sold, leased or licensed software developed for internal use to the Company’s customers and the Company has no intention of doing so in the future.

Software to be Sold, Licensed or Otherwise Marketed

The Company accounts for these software development costs under SFAS No. 86, “Accounting for the Costs of Computer Software to Be Sold, Leased, or Otherwise Marketed” (“SFAS No. 86”). SFAS No. 86 states that software development costs that are incurred subsequent to establishing technological feasibility are capitalized until the product is available for general release. Amounts capitalized as software development costs are amortized using the greater of revenues during the period compared to the total estimated revenues to be earned or on a straight-line basis over estimated lives ranging from three to five years. The Company reviews capitalized software costs for impairment on a periodic basis. To the extent that the carrying amount exceeds the estimated net realizable value of the capitalized software cost, an impairment charge is recorded. No impairment charge was recorded for the fiscal years ended March

31, 2006, 2007 and 2008, respectively. Amortization of capitalized software development costs, included in direct operating costs, for the fiscal years ended March 31, 2006, 2007 and 2008 amounted to $547, $840 and $590, respectively. Revenues relating to customized software development contracts are recognized on a percentage-of-completion method of accounting using the cost to date to the total estimated cost approach. For the fiscal years ended March 31, 2006, 2007 and 2008, unbilled receivables under such customized software development contracts aggregated $1,492, $1,405 and $1,187, respectively.

REVENUE RECOGNITION

Media Services

The Company's Media Services revenues are generated as follows:

Revenues consist of:	Accounted for in accordance with:
Software licensing, including customer licenses and application service provider ("ASP Service") agreements.	Statement of Position ("SOP") 97-2, "Software Revenue Recognition"
Software maintenance contracts, and professional consulting services, which includes systems implementation, training, custom software development services and other professional services, delivery revenues via satellite and hard drive, data encryption and preparation fee revenues, satellite network monitoring and maintenance fees, movie theatre admission and concession revenues, virtual print fees ("VPFs") and alternative content fees ("ACFs").	Staff Accounting Bulletin ("SAB") No. 104 "Revenue Recognition in Financial Statements" ("SAB No. 104").
Cinema advertising service revenues and distribution fee revenues.	SOP 00-2, "Accounting by Producers or Distributors of Films" ("SOP 00-2")

Software licensing revenue is recognized when the following criteria are met: (a) persuasive evidence of an arrangement exists, (b) delivery has occurred and no significant obligations remain, (c) the fee is fixed or determinable and (d) collection is determined to be probable. Significant upfront fees are received in addition to periodic amounts upon achievement of contractual events for licensing of the Company's products. Such amounts are deferred until the revenue recognition criteria have been met, which typically occurs upon delivery and acceptance.

Revenues relating to customized software development contracts are recognized on a percentage-of-completion method of accounting.

Deferred revenue is recorded in cases where: (1) a portion or the entire contract amount cannot be recognized as revenue, due to non-delivery or acceptance of licensed software or custom programming, (2) incomplete implementation of ASP Service arrangements, or (3) unexpired pro-rata periods of maintenance, minimum ASP Service fees or website subscription fees. As license fees, maintenance fees, minimum ASP Service fees and website subscription fees are often paid in advance, a portion of this revenue is deferred until the contract ends. Such amounts are classified as deferred revenue and are recognized as revenue in accordance with the Company's revenue recognition policies described above.

Cinema advertising service revenue, and the associated direct selling, production and support cost, is recognized on a straight-line basis over the period the related advertising is displayed in-theatre, pursuant to the specific terms of each advertising contract. The Company has the right to receive or bill the entire amount of the advertising contract upon execution, and therefore such amount is recorded as a receivable at the time of execution, and all related advertising revenue and all direct costs actually incurred are deferred until such time as the advertising is displayed in-theatre.

The right to sell and display such advertising, or other in-theatre programs, products and services, is based upon advertising contracts with exhibitors which stipulate payment terms to such exhibitors for this right. Payment terms generally consist of either fixed annual payments or annual minimum guarantee payments, plus a revenue share of the excess of a percentage of advertising revenue over the minimum guarantee, if any. The Company recognizes the cost of fixed and minimum guarantee payments on a straight-line basis over each advertising contract year, and the revenue share cost, if any, as such obligations arise in accordance with the terms of the advertising contract.

Distribution fee revenue is recognized for the theatrical distribution of third party feature films and alternative content at the time of exhibition based on the Company's participation in box office receipts. The Company has the right to receive or bill a portion of the theatrical distribution fee in advance of the exhibition date, and therefore such amount is recorded as a receivable at the time of execution, and all related distribution revenue is deferred until the third party feature films' or alternative content's theatrical release date.

Data Center Services

The Company's Data Center Services revenues were generated as follows:

Revenues consist of:	Accounted for in accordance with:
License fees for data center space, hosting and network access fees, electric, cross connect fees and riser access charges, non-recurring installation and consulting fees, network monitoring and maintenance fees.	SAB No. 104

Since May 1, 2007, the Company's IDCs have been operated by FiberMedia pursuant to a master collocation agreement. Although the Company is still the lessee of the IDCs, substantially all of the revenues and expenses are being realized by FiberMedia and not the Company.

DIRECT OPERATING COSTS

Direct operating costs consists of facility operating costs such as rent, utilities, real estate taxes, repairs and maintenance, insurance and other related expenses, direct personnel costs, film rent expense, amortization of capitalized software development costs, exhibitors payments for displaying cinema advertising and other deferred expenses, such as advertising production, post production and technical support related to developing and displaying advertising. These other deferred expenses are capitalized and amortized on a straight-line basis over the same period as the related cinema advertising revenues are recognized.

STOCK-BASED COMPENSATION

The Company has two stock-based employee compensation plans, which are described more fully in Note 7. Effective April 1, 2006, the Company adopted SFAS No. 123 (revised 2004), "Share-Based Payment" ("SFAS 123(R)"), which is a revision of SFAS No. 123, Accounting for Stock-Based Compensation. Under SFAS 123(R), the Company is required to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exceptions) and recognize such cost in the statement of operations over the period during which an employee is required to provide service in exchange for the award (usually the vesting period). Pro forma disclosure is no longer an alternative.

Effective March 8, 2006, the compensation committee of the Company's Board of Directors (the "Board") approved the acceleration of the vesting of all unvested stock options awarded under the Company's stock incentive plans. The primary purpose of the acceleration was to eliminate the impact of $3,098 of future stock-based compensation expense, of which $1,410 is related to stock options held by the Company's executive officers and members of the Board, that would have been recognized over the next three years as the stock options vested as a result of adopting SFAS No. 123(R). The Company will not be required to recognize future compensation expense for the accelerated stock options under SFAS No. 123(R) unless further modifications are made to the stock options, which are not anticipated.

The Company adopted SFAS 123(R) using the "modified prospective" method in which stock-based compensation cost is recognized beginning with the April 1, 2006 adoption date (a) based on the requirements of SFAS 123(R) for all share-based payments granted after April 1, 2006 and (b) based on the requirements of SFAS No. 123 for all awards granted to employees prior to April 1, 2006 that remain unvested on the adoption date. There were no unvested stock options as of March 31, 2006, as the compensation committee of the Board approved the acceleration of the vesting of

all unvested stock options awarded under the Company's stock incentive plans as of March 31, 2006. At the Company's 2006 Annual Meeting of Stockholders held on September 14, 2006, the expansion of the Company's stock incentive plan was approved by the shareholders. For the fiscal year ended March 31, 2007, stock-based compensation expense of $2,920 was recorded, of which $2,779 related to the 436,747 stock options awarded in excess of options eligible to be granted under the Company's stock incentive plan prior to its expansion and $141 relates to stock options granted on or after April 1, 2006. For the fiscal year ended March 31, 2008, stock-based compensation expense of $453 was recorded. The Company has estimated that the stock-based compensation expense, using a Black-Scholes option valuation model, related to such stock options currently outstanding at March 31, 2008, will be approximately $700 for the fiscal year 2009 (see Note 7 for further discussion of stock options).

Previously, the Company accounted for its stock-based employee compensation plans in accordance with the provisions of Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25"), and related interpretations. As such, stock-based compensation expense was recorded on the date of grant only if the current fair value of the underlying stock exceeds the exercise price. The Company followed the disclosure standards of SFAS No. 148 "Accounting for Stock-Based Compensation - Transition and Disclosures", which amended SFAS No. 123, "Accounting for Stock-Based

Compensation" ("SFAS 123"), which required the Company to provide pro forma net loss and net loss per share disclosures for stock option grants made in 1995 and future years as if the fair-value based method of accounting for stock options as defined in SFAS 123 had been applied.

The following table illustrates the effect on net loss and net loss per share if the Company had applied the fair-value recognition provisions of SFAS No. 123 to stock-based compensation for the year ended March 31, 2006:

Net loss as reported	$	(17,123)
Add: Stock-based compensation expense included in net loss		—
Less: Stock-based compensation expense determined under fair-value based method		(4,866)
Pro forma net loss	$	(21,989)
Basic and diluted net loss per share:		
As reported	$	(1.22)
Pro forma	$	(1.56)

The Company estimated the fair value of stock options at the date of each grant using a Black-Scholes option valuation model with the following assumptions:

	For the fiscal years ended March 31,		
	2006	2007	2008
Weighted-average risk-free interest rate	4.2%	4.7%	3.2%
Dividend yield	—	—	—
Expected life (years)	10	10	5
Weighted-average expected volatility	88.4%	56.3%	55.1%

NET LOSS PER SHARE AVAILABLE TO COMMON STOCKHOLDERS

Computations of basic and diluted net loss per share of the Company's Common Stock have been made in accordance with SFAS No. 128, "Earnings Per Share". Basic and diluted net losses per share have been calculated as follows:

Basic and diluted net loss per share = Net loss / Weighted average number of common shares outstanding during the period

Shares issued and reacquired during the period are weighted for the portion of the period that they were outstanding.

The Company has incurred net losses for the fiscal years ended March 31, 2006, 2007 and 2008 and, therefore, the impact of dilutive potential common shares from outstanding stock options, warrants (prior to the application of the treasury stock method), and convertible notes (on an as-converted basis) were excluded from the computation as it would be anti-dilutive. Potentially dilutive shares excluded from the computations aggregated 2,712,993, 2,827,743 and 3,406,654 for the fiscal years ended March 31, 2006, 2007 and 2008, respectively.

RECENT ACCOUNTING PRONOUNCEMENTS

In June 2006, the FASB issued Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" ("FIN 48"). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS No. 109, "Accounting for Income Taxes." FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of an income tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company adopted FIN 48 on April 1, 2007 and had no effect on the consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157 "Fair Value Measurements" ("SFAS 157"). SFAS 157 defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements. SFAS 157 applies to derivatives and other financial instruments measured at fair value under SFAS No. 133 "Accounting for Derivative

Instruments and Hedging Activities" ("SFAS 133") at initial recognition and in all subsequent periods. Therefore, SFAS 157 nullifies the guidance in footnote 3 of the Emerging Issues Task Force ("EITF") Issue No. 02-3, "Issues Involved in Accounting for Derivative Contracts Held for Trading Purposes and Contracts Involved in Energy Trading and Risk Management Activities" ("EITF 02-3"). SFAS 157 also amends SFAS 133 to remove the similar guidance to that in EITF 02-3, which was added by SFAS 155. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Earlier application is encouraged, provided that the reporting entity has not yet issued financial statements for that fiscal year, including financial statements for an interim period within that fiscal year. Any transition adjustment, measured as the difference between the carrying amounts and the fair values of those financial instruments at the date SFAS 157 is initially applied, should be recognized as a cumulative-effect adjustment to the opening balance of retained earnings (or other appropriate components of equity or net assets in the statement of financial position) for the fiscal year in which SFAS 157 is initially applied. The Company plans to adopt SFAS 157 on April 1, 2008, and does not believe it will be affected by its adoption.

In September 2006, the FASB issued SFAS No. 158 "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans—an amendment of FASB Statements No. 87, 88, 106, and 132(R)" ("SFAS 158"). SFAS 158 requires the recognition of the overfunded or underfunded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability in the reporting entity's statement of financial position and to recognize changes in that funded status in the year in which the changes occur through comprehensive income of a business entity or changes in unrestricted net assets of a not-for-profit organization. SFAS 158 also requires the reporting entity to measure the funded status of a plan as of the date of its year-end statement of financial position, with limited exceptions. A reporting entity with publicly traded equity securities is required to recognize the funded status of a defined benefit postretirement plan and to provide the required disclosures as of the end of the fiscal year ending after December 15, 2006. The Company adopted SFAS 158 on April 1, 2007 and was not affected by its adoption.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities—including an amendment of FASB Statement No. 115" ("SFAS 159"). SFAS 159 permits entities to elect to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS 159 is expected to expand the use of fair value measurement, which is consistent with the FASB's long-term measurement objectives for accounting for financial instruments. SFAS 159 is effective for fiscal years beginning after November 15, 2007 and early adoption is permitted provided the entity also elects to apply the provisions of SFAS 157. The Company plans to adopt SFAS 159 on April 1, 2008, and does not believe it will be affected by its adoption.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), "Business Combinations" ("SFAS 141(R)"). SFAS 141(R) will change the accounting for business combinations. Under SFAS No. 141(R), an acquiring entity will be required to recognize all the assets acquired and liabilities assumed in a transaction at the acquisition-date fair value with limited exceptions. SFAS No. 141(R) will change the accounting treatment and disclosure for certain specific items in a business combination. SFAS No. 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. SFAS 141(R) will impact the Company in the event of any future acquisition after the date of adoption.

In December 2007, the FASB issued SFAS No. 160, "Non-controlling Interests in Consolidated Financial Statements—an amendment of Accounting Research Bulletin No. 51" ("SFAS 160"). SFAS 160 establishes new accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS No. 160 is effective for fiscal years beginning on or after December 15, 2008. The Company does not believe that SFAS 160 will have a material impact on its consolidated financial statements.

In March 2008, the FASB issued SFAS No. 161, “Disclosures about Derivative Instruments and Hedging Activities—an amendment of FASB Statement No. 133” (“SFAS 161”). SFAS 161 changes the disclosure requirements for derivative instruments and hedging activities. Entities are required to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under FASB Statement No. 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity’s financial position, financial performance, and cash flows. SFAS 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. SFAS 161 encourages, but does not require, comparative disclosures for earlier periods at initial adoption. The Company does not believe that SFAS 161 will have a material impact on its consolidated financial statements.

In April 2008, the FASB issued FASB Staff Position No. FAS 142-3,"Determination of the Useful Life of Intangible Assets" ("FSP FAS 142-3"). FSP FAS 142-3 applies to all recognized intangible assets and its guidance is restricted to estimating the useful life of recognized intangible assets. The First ACS Note is payable in twelve equal quarterly installments commencing on October 1, 2006 until July 1, 2009. The Second ACS Note was payable on November 30, 2006, or earlier if certain conditions were met, and was paid by the Company in October 2006. In October 2006, the Company entered into a securities purchase agreement (the “Purchase Agreement”) with the purchasers party thereto (the “Purchasers”) pursuant to which the Company issued 8.5% Senior Notes (the “One Year Senior Notes”) in the aggregate principal amount of $22,000 (the “October 2006 Private Placement”). The term of the One Year Senior Notes is one year and may be extended for up to two 90-day periods at the discretion of the Company if certain market conditions are met. Interest on the One Year Senior Notes will be paid on a quarterly basis in cash or, at the Company’s option and subject to certain conditions, in shares of its Class A Common Stock (“Interest Shares”). In addition, each quarter, the Company will issue shares of Class A Common Stock to the Purchasers as payment of interest owed under the One Year Senior Notes based on a formula (“Additional Interest”). The Company also entered into a Registration Rights Agreement with the Purchasers pursuant to which the Company agreed to register the resale of any shares of its Class A Common Stock issued pursuant to the One Year Senior Notes at any time and from time to time. The Company filed a registration statement on Form S-3 on April 27, 2007, which was declared effective by the SEC on May 18, 2007. The Company may prepay the One Year Senior Notes in whole or in part, without penalty, subject to paying the Additional Interest. The net proceeds of approximately $20,965 from the October 2006 Private Placement is expected to be used for the expansion of the Company’s digital cinema rollout plans to markets outside of the United States, and any one or more of the following: (i) the payment of certain existing outstanding indebtedness of the Company due within twelve months of the issuance of the One Year Senior Notes, (ii) working capital and (iii) other general corporate purposes, including acquisitions. The Purchase Agreement also requires the One Year Senior Notes to be guaranteed by each of the Company’s existing and, subject to certain exceptions, future subsidiaries (the “Guarantors”), other than AccessIT DC and ACS and their respective subsidiaries. Accordingly, each of the Guarantors

entered into a subsidiary guaranty (the "Subsidiary Guaranty") with the Purchasers pursuant to which it guaranteed the obligations of the Company under the One Year Senior Notes.

In February 2007, the Company and the Purchasers of the One Year Senior Notes agreed to amend the One Year Senior Notes to: (i) remove the market conditions that would otherwise restrict the Company from extending the term of the One Year Senior Notes for up to two 90-day periods, (ii) provide for an increase in the amount of permitted indebtedness the Company may incur, to up to $5,000, (iii) provide for additional interest to be paid in either cash or stock, at the Company's option, if the average price of the Company's stock falls below $7.00 during the 30 days before any quarterly interest due date , and (iv) provide an approximate 1% increase in the value of the Additional Interest Shares payable to the Purchasers annually. In August 2007, the One Year Senior Notes were repaid in full with a portion of the proceeds from the refinancing which closed in August 2007, which is discussed further below. In August 2007, the Company recorded debt refinancing expense of $1,122, of which $436 related to unamortized debt issuance costs and $686 for shares of Class A Common Stock issued to certain holders of the One

Year Senior Notes (see Note 6) as an inducement for them to enter into a securities purchase agreement with the Company in August 2007.

In May 2007, the Company received $5,000 of vendor financing (the "Vendor Note A") for equipment used in AccessIT DC's Phase I Deployment. The Vendor Note A bore interest at 15% and was permitted to be prepaid without penalty. A mandatory principal amount of $617 plus all accrued and unpaid interest was paid in December 2007. The Vendor Note A and all accrued interest was to become due and payable in July 2008. If the Vendor Note A was repaid in full by March 31, 2008, the interest rate would become 8%, retroactive to the beginning of the note term. In February 2008, the outstanding principal balance of the Vendor Note A of $4,383 was repaid in full.

In August 2007, AccessIT DC obtained $9,600 of vendor financing (the "Vendor Note B") for equipment used in AccessIT DC's Phase I Deployment. The Vendor Note B bears interest at 11% and may be prepaid without penalty. Interest is due semi-annually commencing February 2008. The balance of the Vendor Note B, together with all unpaid interest is due on the maturity date of August 1, 2016. As of March 31, 2008, the outstanding balance of the Vendor Note B was $9,600.

In August 2007, the Company entered into a securities purchase agreement (the "Purchase Agreement") with the purchasers party thereto (the "Purchasers") pursuant to which the Company issued 10% Senior Notes (the "2007 Senior Notes") in the aggregate principal amount of $55,000 (the "August 2007 Private Placement"). The term of the 2007 Senior Notes is three years which may be extended for one 6 month period at the discretion of the Company if certain conditions are met. Interest on the 2007 Senior Notes will be paid on a quarterly basis in cash or, at the Company's option and subject to certain conditions, in shares of its Class A Common Stock ("Interest Shares"). In addition, each quarter, the Company will issue shares of Class A Common Stock to the Purchasers as payment of additional interest owed under the 2007 Senior Notes based on a formula ("Additional Interest"). The Company may prepay the 2007 Senior Notes in whole or in part following the first anniversary of issuance of the 2007 Senior Notes, subject to a penalty of 2% of the principal if the 2007 Senior Notes are prepaid prior to the two year anniversary of the issuance and a penalty of 1% of the principal if the 2007 Senior Notes are prepaid thereafter, and subject to paying the number of shares as Additional Interest that would be due through the end of the term of the 2007 Senior Notes. The net proceeds of approximately $53,200 from the August 2007 Private Placement are expected to be used for expansion of digital cinema rollout plans, to pay off the existing obligations under the $22,000 of One Year Senior Notes, to pay off certain other outstanding debt obligations, for investment in digital projection systems and for working capital and other general corporate purposes. The Purchase Agreement also requires the 2007 Senior Notes to be guaranteed by each of the Company's existing and, subject to certain exceptions, future subsidiaries (the "Guarantors"), other than AccessIT DC and its respective subsidiaries. Accordingly, each of the Guarantors entered into a subsidiary guaranty (the "Subsidiary Guaranty") with the Purchasers pursuant to which it guaranteed the obligations of the Company under the 2007 Senior Notes. The Company also entered into a Registration Rights Agreement with the Purchasers pursuant to which the Company agreed to register the resale of any shares of its Class A Common Stock issued pursuant to the 2007 Senior Notes at any time and from time to time. As of December 31, 2007, all shares issued to the holders of the 2007 Senior Notes have been registered for resale (see Note 7). Under the 2007 Senior Notes the Company agreed (i) to limit its and its subsidiaries' indebtedness to an aggregate of $315,000 and (ii) not to, and not to cause its subsidiaries (except for AccessIT DC and its subsidiaries) to, incur indebtedness, with certain exceptions, including an exception for $10,000; provided that no more than $5,000 of such indebtedness is incurred by AccessDM or AccessIT Satellite or any of their respective subsidiaries except as incurred by AccessDM pursuant to a guaranty entered into in accordance with the GE Credit Facility (see below). At the present time, the Company and its subsidiaries, other than AccessIT DC and its subsidiaries, are prohibited from paying dividends under the terms of the 2007 Senior Notes. Additionally, the Company and its subsidiaries may incur additional indebtedness in connection with the deployment of Systems beyond the Company's initial rollout of up to 4,000 Systems, if certain conditions are met. As of March 31, 2008, the outstanding principal balance of the 2007 Senior Notes was $55,000.

CREDIT FACILITIES

In July 2006, in connection with the ACS Acquisition (see Note 3), the Company assumed $5,598 of debt relating to ACS's $7,500 revolving credit facility with Excel Bank (the "Excel Credit Facility"). The Excel Credit Facility bore interest at a rate between 2.75% to 3.5% over the current one-month London Interbank Offered Rate (LIBOR), depending on ACS's leverage ratio. A quarterly unused line fee was due equal to 0.25% of the excess of $7,500 over the average outstanding balance of the Excel Credit Facility during the quarter. Under the Excel Credit Facility, ACS would pay interest only through December 31, 2008. The balance of the principal amount, together with all unpaid interest on such borrowings and any fees incurred by ACS pursuant to the Excel Credit Facility are due on the maturity date of December 31, 2008. Pursuant to the Excel Credit Facility, ACS's bank deposits in excess of a minimum balance were swept from time to time by Excel Bank toward the repayment of the Excel Credit Facility. The Excel Credit Facility was repaid in full, as discussed below.

In December 2006, in connection with the conversion of the Excel Credit Facility, ACS issued a 5-year, 8% term note payable to Excel Bank with a face amount of $6,750 (the "Excel Term Note"). Proceeds from the Excel Term Note were used to repay the

Excel Credit Facility, to purchase advertising projection systems and for working capital. Interest is due monthly commencing January 1, 2007 and principal shall be paid in quarterly installments commencing April 1, 2007. The balance of the Excel Term Note, together with all unpaid interest are due on the maturity date of January 1, 2012. ACS may prepay at any time and time from time, all or any portion of the Excel Term Note, without penalty or premium. The Excel Term Note is not guaranteed by the Company or its other subsidiaries, other than ACS. Since April 1, 2007, the Company paid quarterly installments which repaid principal of $360 on the Excel Term Note. In August 2007, the outstanding principal balance of $6,390 for the Excel Term Note was repaid in full with a portion of the proceeds from the August 2007 Private Placement, which is discussed further above.

In August 2006, AccessIT DC entered into an agreement with General Electric Capital Corporation ("GECC") pursuant to which GECC and certain other lenders agreed to provide to AccessIT DC a $217,000 Senior Secured Multi Draw Term Loan (the "GE Credit Facility"). Proceeds from the GE Credit Facility will be used for the purchase and installation of up to 70% of the aggregate purchase price, including all costs, fees or other expenses associated with the purchase acquisition, receipt, delivery, construction and installation of Systems in connection with AccessIT DC's Phase I Deployment (see Note 8) and to pay transaction fees and expenses related to the GE Credit Facility, and for certain other specified purposes. The remaining cost of the Systems is to be funded from other sources of capital including contributed equity. Each of the borrowings by AccessIT DC bears interest, at the option of AccessIT DC and subject to certain conditions, based on the bank prime loan rate in the United States or the Eurodollar rate, plus a margin ranging from 2.75% to 4.50%, depending on, among other things, the type of rate chosen, the amount of equity contributed into AccessIT DC and the total debt of AccessIT DC. Under the GE Credit Facility, AccessIT DC must pay interest only through July 31, 2008. Beginning August 31, 2008, in addition to the interest payments, AccessIT DC must repay approximately 71.5% of the principal amount of the borrowings over a five-year period with a balloon payment for the balance of the principal amount, together with all unpaid interest on such borrowings and any fees incurred by AccessIT DC pursuant to the GE Credit Facility on the maturity date of August 1, 2013. In addition, AccessIT DC may prepay borrowings under the GE Credit Facility in whole or in part, after July 31, 2007 and before August 1, 2010, subject to paying certain prepayment penalties ranging from 3% to 1%, depending on when the prepayment is made. The GE Credit Facility is required to be guaranteed by each of AccessIT DC's existing and future direct and indirect domestic subsidiaries (the "Guarantors") and secured by a first priority perfected security interest on all of the collective assets of AccessIT DC and the Guarantors, including real estate owned or leased, and all capital stock or other equity interests in AccessIT DC and its subsidiaries, subject to specified exceptions. The GE Credit Facility is not guaranteed by the Company or its other subsidiaries, other than AccessIT DC. As of March 31, 2008, $201,279 was borrowed under the GE Credit Facility at a weighted average interest rate of 8.58%.

In August 2006, the GE Credit Facility was amended to allow borrowings by AccessIT DC to be in aggregate amounts not in exact multiples of $1,000.

Under the GE Credit Facility, as amended, AccessIT DC is required to maintain compliance with certain financial covenants. Material covenants include a leverage ratio, and an interest coverage ratio. In September 2007, AccessIT DC entered into the third amendment with respect to the GE Credit Facility to (1) lower the interest reserve from 12 months to 9 months; (2) modify the definition of total equity ratio to count as capital contributions (x) up to $23,300 of permitted subordinated indebtedness and (y) up to $4,000 of previously paid and approved expenses that were incurred during the deployment of digital systems; (3) change the leverage ratio covenant; (4) add a new consolidated senior leverage ratio covenant; and (5) change the consolidated fixed charge coverage ratio covenant.

Pursuant to the GE Credit Facility, AccessIT DC will be required to enter into some form, or combination, of interest rate swap agreements, cap agreements, collar agreements and insurance ("Interest Rate Contracts") and thereafter maintain Interest Rate Contracts on terms and with counter-parties reasonably satisfactory to GECC until August 2013 for an amount equal to at least 50% of the aggregate principal amount outstanding at August 2008. These Interest Rate Contracts will be in order to provide protection against fluctuation of interest rates. In April 2008, AccessIT DC

completed an Interest Rate Swap also known as a "synthetic fixed rate financing", under which AccessIT DC would hedge its exposure to increases in interest rate under the GE Credit Facility. GE Corporate Financial Services arranged the transaction, which will take effect commencing August 1, 2008 in accordance with the terms of the GE Credit Facility.

At March 31, 2008, the Company was in compliance with all of its debt covenants.

The aggregate principal repayments on the Company’s notes payable are scheduled to be as follows:

An employee officer of The Bigger Picture is also an officer of SDE. Payments for such services to SDE for the fiscal year ended March 31, 2008 totaled $260.

12. INCOME TAXES

The Company did not record any current or deferred income tax benefit from income taxes in the fiscal years ended March 31, 2007 and 2008.

Net deferred tax liabilities consisted of the following:

	As of March 31,	
	2007	2008
Deferred tax assets:		
Net operating loss carryforwards	$ 25,603	$ 40,989

Other	(35)	(17)
Total deferred tax liabilities	(12,697)	(14,525)
Net deferred tax liabilities	$ —	$ —

The Company has provided a valuation allowance equal to its net deferred tax assets for the fiscal years ended March 31, 2007 and 2008. The Company is required to recognize all or a portion of its deferred tax assets if it believes that it is more likely than not, given the weight of all available evidence, that all or a portion of its deferred tax assets will be realized. Management assesses the realizability of the deferred tax assets at each interim and annual balance sheet date based on actual and forecasted operating results. The Company assessed both its positive and negative evidence to determine the proper amount of its required valuation allowance. Factors considered include the Company's current taxable income and projections of future taxable income. Management increased the valuation allowance by $6,914 and $12,262 during the fiscal years ended March 31, 2007 and 2008, respectively. The increase of the valuation allowance of $6,914 for the year ended March 31, 2007 is net of a decrease to the valuation allowance of $1,964. The decrease to the valuation allowance of $1,964 resulted from net taxable temporary differences acquired from ACS, including future intangible asset amortization. Management will continue to assess the realizability of the deferred tax assets at each interim and annual balance sheet date based on actual and forecasted operating results.

At March 31, 2008, the Company had Federal and state net operating loss carryforwards of approximately $102,000 available to reduce future taxable income. The federal net operating loss carryforwards will begin to expire in 2020. The Company also has a charitable contribution carryforward of approximately $325 thousand at March 31, 2008, available to offset future federal and state taxable income, but limited to 10% of such income. Under the provisions of the Internal Revenue Code, certain substantial changes in the Company's ownership may result in a limitation on the amount of net operating losses that may be utilized in future years. Depending on a variety of factors, this limitation, if applicable, could cause a portion or all of these net operating losses to expire before utilization.

The differences between the United States statutory federal tax rate and the Company’s effective tax rate are as follows:

	As of March 31,	
	2007	2008
Provision at the U.S. statutory federal tax rate	34.0%	34.0%
State income taxes, net of federal benefit	6.8	6.7
Change in valuation allowance	(38.4)	(34.4)
Disallowed interest	(2.5)	(6.7)
Non-deductible equity compensation	(1.2)	(0.4)
Other	1.3	0.8

Income tax (provision) benefit	0.0%	0.0%

Effective April 1, 2007, the Company adopted Financial Accounting Standards Board (FASB) Interpretation No. 48 (FIN No. 48), "Accounting for Uncertainty in Income Taxes," which clarifies the accounting and disclosure for uncertainty in income taxes. The adoption of this interpretation did not have any impact on the Company's financial statements, as the Company did not have any unrecognized tax benefits as of April 1, 2007 or during the year ended March 31, 2008.

The Company files income tax returns in the U.S. federal jurisdiction and various states. For federal income tax purposes, the Company's fiscal 2005 through 2008 tax years remain open for examination by the tax authorities under the normal three year

statute of limitations. For state tax purposes, the Company's fiscal 2004 through 2008 tax years generally remain open for examination by most of the tax authorities under a four year statute of limitations.
