NOTE 2: SIGNIFICANT ACCOUNTING POLICIES

The Financial Statements of the subsidiaries mentioned in Note 1 a., have been prepared on a consistent basis with those applied by the Company. The Note 1 a. to the Unaudited Basic Financial Statements details the most significant accounting policies. Below are the most relevant accounting policies adopted by the subsidiaries, which are not included in that note.

In addition to the description in the Unaudited Basic Financial Statements:

a. Revenue recognition

· Revenues from admission rights, leases and services

Leases with tenants are accounted for as operating leases. Tenants are generally charged a rent, which consists of the higher of: (i) a monthly base rent (the “Base Rent”) and (ii) a specified percentage of the tenant’s monthly gross retail revenues (the “Percentage Rent”) (which generally ranges between 4% and 10% of tenant’s gross revenues).

Furthermore, pursuant to the rent escalation clause in most leases, a tenant’s Base Rent generally increases between 7% and 12% each year during the term of the lease. Minimum rental income is recognized on the accrued criteria.

Certain lease agreements contain provisions, which provide for rents based on a percentage of revenues or based on a percentage of revenues volume above a specified threshold. APSA determines the compliance with specific targets and calculates the additional rent on a monthly basis as provided for in the contracts. Thus, these contingent rents are not recognized until the required thresholds are exceeded.

Generally, APSA’s lease agreements vary from 36 to 120 months. Law No. 24,808 provides that tenants may rescind commercial lease agreements after the initial six-months, upon not less than 60 days’ written notice, subject to penalties which vary from one to one and a half months rent if the tenant rescinds during the first year of its lease, and one month of rent if the tenant rescinds after the first year of its lease.

NOTE 2:

a. (Continued)

Additionally, APSA charges its tenants a monthly administration fee related to the administration and maintenance of the common area and the administration of contributions made by tenants to finance promotional efforts for the overall shopping centers' operations. The administration fee is prorated among the tenants according to their leases, which varies from shopping center to shopping center. Administration fees are recognized monthly when earned.

In addition to rent, tenants are generally charged "admission rights", a non-refundable admission fee that tenants may be required to pay upon entering into a lease or upon lease renewal. Admission right is normally paid in one lump sum or in a small number of monthly installments. Admission rights are recognized using the straight-line method over the life of the respective lease agreements.

· Lease agent operations

Fibesa S.A., company in which APSA has shares of 99.99996%, acts as the leasing agent for APSA bringing together APSA and potential lessees for the retail space available in certain of the APSA's shopping centers. Fibesa S.A.'s revenues are derived primarily from collected commissions calculated as a percentage of the final rental income value, admission rights and from rental of advertising spaces. Revenues are recognized at the time that the transaction is successfully concluded.

· Consumer Financing operations

Revenues derived from credit card transactions consist of commissions and financing income, charges to clients for life and disability insurance and for statements of account, among others. Commissions are recognized at the time the merchants' transactions are processed, while the rest financing income is recognized when accrued. Income generated from granting consumer loans mainly includes financial interests, which are recognized by the accrual method during the period, irrespective of whether collection has or has not been made (see Note 22.B.11).

·Hotel operations

The Company recognizes revenues from its rooms, catering and restaurant facilities as accrued on the close of each business day.

b.

Investments

· Equity investees and other non-current investments

The interests held in entities over which the Company does not exert control, joint control or significant influence have been measured for accounting purposes at cost plus any declared dividends.

Given the sale of 80% of Tarshop S.A.'s shares described in Note 22 B.3., as of the date of issuance of these unaudited financial statements, APSA maintains a 20% investment in Tarshop S.A. that is valued by the equity method due to the existence of significant influence by the group of companies on Tarshop S.A.'s decisions and the intention to keep it as a long-term investment.

The equity investments in TGLT S.A. and Hersha Hospitality Trust were valued at their acquisition cost.

Investment in convertible preferred shares and warrants issued by Supertel Hospitality Inc., as explained in Note 22 A.9., has been accounted for at its estimated fair market value.

As regards the acquisition of shares of Nuevo Puerto Santa Fe S.A. and the new acquisition of shares of Arcos del Gourmet S.A., APSA is currently analyzing the current value of the identifiable assets and liabilities so acquired, as per Accounting Standard 21, section 1.3.1.

c.

Intangible assets, net

Intangible assets are carried at restated cost less accumulated amortization and corresponding allowances for impairment in value, if applicable. Included in the intangible assets caption are the following:

· Concession

Intangible assets include Arcos del Gourmet S.A.'s concession right, which will be amortized over the life of the concession agreement (see Notes 22 B.1. and 24 B.5.), after the opening of the shopping center.

· Trademarks

Trademarks include the expenses and fees related to their registration.

· Pre-operating and organization expenses

These expenses are amortized by the straight-line method in 3 years, starting upon the opening of the shopping center.

The net carrying value of these assets does not exceed their estimated recoverable value at period / year end.

· Non-compete agreement

These expenses were amortized by the straight-line method in 28 months, starting upon December 1st, 2009.

Under the agreement executed with Banco Hipotecario S.A. for the sale of Tarshop S.A.'s shares, APSA has signed a non-compete agreement in favor of BHSA and has thus written off this intangible asset. (See Note 22 B.3.).

d.

Negative Goodwill, net

Amortizations were calculated through the straight-line method on the basis of an estimated useful life considering the weighted average of the remaining useful life of the assets acquired.

d. (Continued)

The residual value of goodwill arising from the acquisition of net assets and shares in companies has been shown in the “Negative goodwill, net” caption. Amortizations were classified in the “Amortization of the negative goodwill, net” caption of the Statement of Income. Goodwill related to the acquisition of interest in subsidiaries is included in non-current investments.

Values thus obtained do not exceed the respective estimated recoverable values at period / year end.

e.

Liabilities in kind related to barter transactions

Liabilities in kind corresponding to obligations to deliver units to be built are valued considering the value of the assets received or the cost of construction of the units to deliver plus necessary additional costs to transfer the assets to the creditor, the largest, thus reducing its value pro rata the units that are granted notarial titled deed. Liabilities in kind have been shown in the “Trade accounts payable” caption.

NOTE 21: RESTRICTED ASSETS

A. IRSA Inversiones y Representaciones Sociedad Anónima

(i) Puerto Retiro S.A.

On April 18, 2000, Puerto Retiro S.A. (indirect subsidiary of IRSA) was notified of a filing made by the National Government, through the Ministry of Defense, to extend the petition in bankruptcy of Inversora Dársena Norte S.A. (Indarsa) to Puerto Retiro S.A.. Concurrently with the complaint, at the request of plaintiff, the bankruptcy court granted an order restraining the ability of Puerto Retiro S.A. to sell or dispose in any manner the acquired real estate property from Tandanor S.A. in June 1993.

Indarsa had acquired 90% of the capital stock of Tandanor S.A. to a formerly estate owned company privatized in 1991, engaged in the shipyard industry.

Indarsa did not comply with the payment of the outstanding price for the acquisition of the stock of Tandanor, and therefore the Ministry of Defense requested the bankruptcy of Indarsa, pursuing to extend the bankruptcy to Puerto Retiro S.A.

The evidence steps of the legal procedures have been completed. Puerto Retiro S.A. appealed the precautionary measure, being the same confirmed by the Court on December 14, 2000. The parties have submitted their claims in due time. The file was passed for the judge to issue a pronouncement, this being a decree adjourning the summoning of decisions to pronouncement in the understanding that there exists pre-judgment in respect of the penal cause filed against ex-officers of the Ministry of Defense and ex-directors of the Company. Consequently, the matter will not be solved until there is final judgment in penal jurisdiction.

Notice has been served upon the commercial court that the criminal cause of action was declared extinguished by operation of the statutes of limitation and that the accused were acquitted. However, this ruling was challenged by filing an appeal in cassation, which is why the other decision is still not final.

(i) (Continued)

The Management and legal advisors of Puerto Retiro S.A. estimate that there are legal and technical issues to consider that the request for bankruptcy will be denied by the court. However, taking the particular characteristics into account and the progress of the legal action, this position cannot be considered conclusive.

(ii) Loan of Hoteles Argentinos S.A.

In March 2005, Credit Suisse First Boston (“CSFB”) acquired a loan for US\$ 11.1 million of Hoteles Argentinos S.A. (“HASA”), which had been in non-compliance since January 2002. In April 2006, HASA reduced the capital amount payable to US\$ 6.0 million. The balance accrued a 6 months LIBOR interest rate plus 7.0% being the last of US\$ 5.07 million due in March, 2010.

Jointly, a credit default swap was subscribed by the Company for 80% of the restructured debt value in order to protect CSFB in case of non-compliance with HASA’s obligations. As compensation, the Company received a coupon on a periodical basis. Additionally, the Company has deposited as guarantee the amount of US\$ 1.2 million.

With the last installment of the loan received having been repaid on March 15, 2010, CSFB reimbursed the deposit to the Company. In connection with this matter, HASA borrowed a new loan from Standard Bank Argentina S.A., for a total amount of Ps. 19.0 million, which accrued interest at a fixed rate, payable on a quarterly basis. The capital matured on March 15, 2011. On this date, HASA refinanced the mentioned loan agreement, as per the following detail: US\$ 0.4 million at a fixed rate (capital plus interest) to be paid on September 6, 2012; US\$ 0.4 million at a fixed rate (capital plus interest) to be paid on March 14, 2012 and Ps. 15.8 million at a fixed rate, with capital to be paid on March 14, 2012 and interests payable on a quarterly basis.

On March 14, 2012, HASA refinanced the loan with Standard Bank Argentina S.A. for Ps. 15.8 million through a bank checking account overdraft agreement with such entity. This agreement provides for a fixed interest rate and a monthly renewal of the agreement term.

The loan for US\$ 0.4 million held with such entity was repaid on the same date.

In January 2007, the Company acquired two adjacent plots of land located in Vicente López, Province of Buenos Aires (one of them, through the purchase of Rummaala S.A., which was the owner of that plot of land and currently is merged with CYRSA S.A.). The purchase price was US\$ 36.2 million of which US\$ 30.3 million will be cancelled by handing over certain units of the building to be constructed. As security for this obligation, a pledge was constituted over the shares of Rummaala S.A. and a mortgage was constituted over the Company's building Suipacha 652, currently reversed.

During fiscal year ended on June 30, 2011, the Company through its subsidiaries sold 2,542,379 common shares in Hersha, for a total of US\$ 16.1 million, which resulted in approximately US\$ 11.5 million gain.

On February 10, 2012, Hersha notified REIG its intention to exercise the call option to purchase 5,700,000 shares of Hersha granted in August 2009, pursuant to duly executed agreements. In furtherance thereof, Hersha has issued 2,521,561 shares, for which REIG has no obligation to pay any price. The value of the shares amounts to US\$ 13.6 million.

As of March 31, 2012 the Company's direct and indirect interest in Hersha amounts to 10.5%. The Company accounts for its investment in Hersha at cost.

These hotels are rated as "select service" and "upscale hotels" and they are mainly located in the Northeast coast of the US, including New York, New Jersey, Boston, Washington D.C. and Philadelphia, whilst a few are located in northern California, Los Angeles and Arizona. 3. (Continued)

During 2009 and in the context of the financial crisis and shrinkage of the real estate market in New York, Metropolitan incurred in significant losses, which resulted in negative equity mainly due to an impairment recognized in connection with the building. Since the Company's share in Metropolitan's losses exceeded its equity interest; the Company recognized a zero value on its investment and a liability of US\$ 1.5 million which represented the Company's maximum commitment to fund Metropolitan's operations.

In December 2010, the negotiations geared towards restructuring the amounts owed under mortgage to Royal Bank of Canada came to a successful conclusion. The debt was reduced from US\$ 210.0 million to US\$ 130.0 million (excluding accrued interest) at a Libor plus 400 basic points rate, which may not exceed a maximum rate of 6.25% and with a maturity date fixed at seven years. The junior indebtedness to Goldman, Sachs & Co., which had amounted to US\$ 45.0 million (excluding accrued interest), was cancelled through a US\$ 2.25 million payment.

Metropolitan 885 Third Avenue Leasehold LLC ("Metropolitan Leasehold") will maintain the existing ground leases in the same terms and conditions in which they had been initially agreed upon, for a remaining 66 years' term. The final consent to this restructuring has already been tendered by all the parties concerned and the closing was consummated on December 30, 2010, as that is when the company New Lipstick LLC ("New Lipstick"), the new Metropolitan Leasehold holding company, made a US\$ 15.0 million principal payment as repayment of the newly restructured mortgage debt, thus reducing it from US\$ 130.0 million to US\$ 115.0 million.

As a consequence of said closing, the Company has indirectly – through New Lipstick – increased its equity interest in the Lipstick Building to 49%. This increase originated in a US\$ 15.3 million capital contribution and in the fact that the put option for 50% of the shareholding initially acquired in Metropolitan, which had amounted to approximately US\$ 11.3 million plus accrued interest, has been rendered ineffectual. Besides, the above-mentioned commitment, for US\$ 1.5 million, ceased to be in effect.

4. Acquisition of shares in Banco Hipotecario S.A.

During the last fiscal years, the Company has been conducting various purchase and sale transactions of BHSA shares, as a result of which, as of March 31, 2012, the Company's direct and indirect ownership interest in BHSA is 29.77% of BHSA's capital stock (without considering treasury shares).

5. Acquisition of companies in the Oriental Republic of Uruguay

During the fiscal year ended on June 30, 2009, the Company (through Tyrus) acquired by a minimum payment a 100% ownership interest in Liveck S.A. (Liveck), a company organized under the laws of the Oriental Republic of Uruguay. Later, the Company sold 50% of its interest in Liveck to Cyrela Brazil Realty S.A. for an amount of US\$ 1.3 million.

Simultaneously, Liveck acquired a 90% interest over the shares of the companies Zetol S.A. (Zetol) and Vista al Muelle S.A. (Vista al Muelle), both property owners in Uruguay's Canelones Department. The remaining 10% ownership interest in the capital stock of both companies is held by Banzey S.A. (Banzey).

The total price of the purchase of all the shares in Zetol had been fixed at US\$ 7.0 million, of which US\$ 2.0 million have already been paid, the outstanding balance is to be paid in 5 installments of US\$ 1.0 million each plus an annual 3.5% compensatory interest rate calculated on the total outstanding amount and tied to the consummation of the release to the market of the real estate projects or within a maximum term of 93 months counted as from the date of acquisition of the Company. The sellers of the shares of Zetol may choose to receive, in lieu of the amounts outstanding in cash (principal plus interest), the ownership rights to the units to be built in the real estate owned by Zetol representative of 12% of the total marketable square meters built.

The price for the purchase and sale of all the shares in Vista al Muelle amounted to US\$ 0.83 million, and accrued an annual 8% compensatory interest rate on the outstanding amounts. As of September 10, 2010, it was completely paid.

To guarantee compliance with the duties agreed by Liveck in the above transactions, Ritelco S.A. has tendered a surety bond guaranteeing payment of 45% of the outstanding balance, interest thereon and the option rights of the sellers.

In the framework of the agreement for the purchase and sale of Zetol and Vista al Muelle and their respective addenda, Liveck has agreed to buy the shares held by Banzey (or Ernesto Kimelman or a company owned by Ernesto Kimelman as the case may be), of Vista al Muelle and Zetol and the latter have agreed to sell them, in exchange for the amount of US Dollars or Uruguayan Pesos, as the case may be, that Ernesto Kimelman or Banzey or a company owned by Ernesto Kimelman (as applicable), would have actually contributed to Zetol and Vista al Muelle, until the execution of said purchase and sale.

The Company and its shareholders intend to develop an urban project that will consist in the construction of apartment buildings to be subsequently sold. The project has already been conferred the "Urban Feasibility" status by Canelones' Mayor's Office and its Legislative Council.

In view of the additional development capacity granted by the IMC, the companies agree to pay maximum the sum of US\$ 8.1 million for all concepts solely with works and other services as consideration thereof. The works to be carried out in consideration thereof are described in the Contract Plan.

Furthermore, the companies may exercise an option included in the agreement that entitles them to a 15% reduction of the total consideration amount, provided 80% of such consideration has been already been performed with a term of four years as from execution of the Contract Plan.

On the other hand, it states that if the companies do not build the square meters of additional development capacity granted to them, the total consideration amount will also be reduced proportionately as the parties agree.

Banco Hipotecario's treasury Shares

In the course of the 2009 fiscal year and with the Total Return Swap dated January 29, 2004 having expired, Banco Hipotecario received treasury shares Clase D totaling 71.1 million.

On April 30, 2010, the Extraordinary General Shareholders' Meeting of Banco Hipotecario resolved to delegate upon the Board of Directors the decision to pay with the treasury shares in portfolio the StAR coupons resulting from the debt restructuring as advisable based on the contractually agreed valuation methods and their actual market value after allowing the shareholders to exercise their preemptive rights on an equal footing.

On June 16, 2010, the Board of Directors of Banco Hipotecario offered to sell 36 million of its treasury Class D shares to its existing shareholders. On July 26, 2010, in the framework of the offering, the Bank sold approximately 26.9 million of its treasury Class D shares. On August 3, 2010, the Bank applied the proceeds from the offering and the remaining Class D shares to the cancellation of the StAR coupons maturing on that date.

On April 13, 2011, Banco Hipotecario's Special Shareholders Meeting decided to authorize the Board of Directors to sell treasury shares in the open market, reducing to ten days the term established for the exercise of pre-emptive rights, which term is not applicable where the sale of shares does not exceed 1% of the Company's capital stock in any given period of 12 months.

The Company's Banco Hipotecario treasury shares still in its portfolio amount to 36.6 million and entail an increase in the Company's ownership interest. As considered for valuation purposes, they have risen from 29.77% to 30.51%.

NOTE 1: ACCOUNTING STANDARDS

Below are the most relevant accounting standards used by the Company to prepare these unaudited financial statements:

1.1. Preparation and presentation of financial statements

These unaudited financial statements are stated in thousands of Argentine pesos and were prepared in accordance with disclosure and valuation criteria contained in the Technical Resolutions issued by the Federación Argentina de Consejos Profesionales de Ciencias Económicas, approved with certain amendments by the Consejo Profesional de Ciencias Económicas de la Ciudad Autónoma de Buenos Aires, in accordance with the resolutions issued by the National Securities Commission.

The Company's financial statements for the nine-month periods ended March 31, 2012 and 2011 have not been audited. The Company's management estimates that they include all the adjustments necessary to present fairly the results for such period.

The Company's nine-month period results ended March 31, 2012 do not necessarily reflect the proportion of the Company's full-year results.

1.2. Use of estimates

The preparation for financial statements requires the Company's Management, at a specific date, to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses for the period. The Company's Management makes estimations to calculate, for example, the allowance for doubtful accounts, depreciation and amortization, the impairment of long-lived assets, income taxes, contingencies allowances, fair value of assets acquired in a business combination, the fulfillment of certain conditions for valuation of inventories to its net realizable value and fair value of transaction of exchanges (barter). Future actual results could differ from the estimates and assumptions made at the date of these financial statements.

NOTE 1:

(Continued)

1.3. Recognition of the effects of inflation

The financial statements have been prepared in constant Argentine Pesos, reflecting the overall effects of inflation through August 31, 1995. From that date and until December 31, 2001 the Company discontinued the restatement of the financial statements due to a period of monetary stability. From January 1, 2002 up to February 28, 2003 the effects of inflation were recognized due to the existence of an inflationary period. As from that date, the restatement of the financial statements was discontinued.

This criterion is not in line with current professional accounting standards, which establish that the financial statements should have been restated through September 30, 2003. However, due to the low level of inflation rates during the period from March to September 2003, this deviation has not had a material effect on the financial statements taken as a whole.

The rate used for restatement of items in these financial statements is the domestic wholesale price index published by the National Institute of Statistics and Census.

1.4. Comparative information

Balances items as of June 30, 2011 shown in these unaudited financial statements for comparative purposes arise from audited annual financial statements for the year then ended.

Balances of the nine - month period ended March 31, 2012 of the unaudited income, shareholders' equity and cash flow statements are shown for comparative purpose with the same period of the previous fiscal year.

The unaudited financial statements as of March 31, 2011 originally issued have been subject to certain reclassifications required in order to present these figures comparatively with those stated as of March 31, 2012.

NOTE 1: (Continued)

1.5. (Continued)

The figures thus obtained are not significantly different from those that would have been obtained if valued on the basis of the best possible estimate of the amounts receivable and payable, respectively, discounted by application of a rate that reflects the time value of money and the specific risks inherent in the transaction as estimated at the time of recognizing the item in assets and liabilities, respectively.

Certain receivables and liabilities disclosed under other non-current receivables and liabilities, were valued based on the best estimate of the amount receivable and payable, respectively, discounted at an interest rate that reflect the value-time of money and the estimate specific transaction risks at the time of incorporation to assets and liabilities, respectively.

Properties classified as inventories have been valued at acquisition or construction cost restated as mentioned in Note 1.3., or estimated market value, whichever is lower. NOTE 1: (Continued)

1.5. (Continued)

h. (Continued)

Profits arising from such valuation are shown in the "Gain from recognition of inventories at net realizable value" caption of the Statements of Income.

Properties held for sale are classified as current or non-current based on the estimated date of sale and the time at which the related receivable is expected to be collected by the Company.

The amount recorded in inventories, net of allowances set up, does not exceed their estimated recoverable value at the end of the period / year.

· Units to be received

The Company has rights to receive certain property units to be built, which have been valued according to the accounting measuring standards corresponding to inventories receivables (the price established in the deed or net realizable value, as applicable) and there have been disclosed under "Inventories".

· Investments in subsidiaries and equity investments:

i. (Continued)

· Banco Hipotecario S.A. and Banco de Crédito & Securitización S.A.:

The financial statements of Banco Hipotecario S.A. and Banco de Crédito & Securitización S.A. are prepared in accordance with the Central Bank of the Argentine Republic (“BCRA”) standards. For the purpose of the valuation of the investment in the Company, adjustments necessary to adequate the financial statements to the professional accounting standards have been considered.

In accordance with the regulations of the BCRA, there are certain restrictions on the distribution of profits by Banco Hipotecario S.A. to the Company.

· Tyrus S.A.:

Foreign permanent investments held by the Company through Tyrus S.A. in Uruguay have been classified as “integrated” or “not-integrated” into the Company’s operations, considering the characteristics of the aforementioned investments abroad and their operations.

· Undeveloped parcels of lands:

The Company acquires undeveloped land in order to provide an adequate and well-located supply for its residential and office building operations. The Company's strategy for land acquisition and development is dictated by specific market conditions where the Company conducts its operations.

NOTE 1: (Continued)

1.5. (Continued)

j. Fixed assets, net

Fixed assets comprise primarily of rental properties and other properties and equipment held for use by the Company.

Fixed assets value, net of allowances set up, does not exceed estimated recoverable value at the end of the period / year.

· Rental properties:

Rental properties are carried at acquisition and/or construction cost, restated as mentioned in Note 1.3., less accumulated depreciation and allowance for impairment at the end of the period / year. The Company capitalizes the financial accrued costs associated with long-term construction projects.

Depreciation was computed under the straight-line method over the estimated useful lives of each asset applying annual rates in order to extinguish their values at the end of its useful life. The Company revises the useful life of the assets periodically.

The Company has allowances for impairment of certain rental properties as disclosed in Exhibit A. Increases and decreases of such allowances are disclosed in Exhibit E.

Significant renewals and improvements, which improve or extend the useful life of the asset are capitalized and depreciated over its estimated remaining useful life. At the time depreciable assets are retired or otherwise disposed of, the cost and the accumulated depreciation of the assets are eliminated from the accounts and the resulting gain or loss is disclosed in the Statements of Income.

IRSA Inversiones y Representaciones Sociedad Anónima

NOTE 1: (Continued)

1.5. (Continued)

j. (Continued)

• Other properties and equipment:

Other properties and equipment properties are carried at cost, restated as mentioned in Note 1.3., less accumulated depreciation at the end of the period / year. Accumulated depreciation is computed under the straight-line method over the estimated useful lives of the assets, as specified below:

Assets	Estimated useful life (years) On contract basis
Leasehold improvements	
Furniture and fixtures	10
Vehicles	5
Machinery and equipment	10
Computer equipment	3

The cost of maintenance and repairs is charged to expense as incurred.

The cost of significant renewals and improvements are added to the carrying amount of the respective assets. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts.

k. Intangible assets, net

The Company segregates in this caption, among others, the expenses that the Company avoids incurring as a result of acquiring effective rent contracts and the estimated costs of entering into rent contracts acquired (see Note 1.5.I.). These are shown net of their accumulated amortization, calculated on the basis of the average initial remaining life of the rent contracts acquired.

“Project development expenses” include expenses initially incurred to launch the marketing of the plots of the project “Abril”, which are depreciated on the basis of plots sold.

The value of these assets does not exceed their estimated recoverable value as of period / year end.

IRSA Inversiones y Representaciones Sociedad Anónima

NOTE 1: (Continued)

1.5. (Continued)

1. Business combinations

Significant entities or net asset acquired by the Company are recorded in line with the “purchased method” set forth in Technical Resolution No. 18 and Technical Resolution No. 21. All assets and liabilities acquired to third independent parties are adjusted to show their fair value. The Company identifies the assets and liabilities acquired, that included intangible assets such as: lease agreements acquired for prices and terms that are either higher or lower than in the market; costs of executing and delivering the lease agreements in force (costs that the Company avoids incurring as a result of acquiring effective lease agreements); the value of acquired brands, the value of any deposits associated to the investment and the intangible value inherent to customer relations

The process of identification and the determination of the purchase price paid is a matter that requires complex judgments and significant estimates.

The Company uses the information contained in valuations estimated by independent appraisers as primary base for assigning the price paid for the land, buildings and shopping centers. The amounts assigned to all the other assets and liabilities are based on independent valuations or on the Company’s own analysis on comparable assets and liabilities.

If the price paid is larger than the value of the tangible and intangible assets and liabilities as identified, the excess is considered to be goodwill.

m. Debt issuance costs

Expenses incurred in connection with the issuance of debt are amortized over the life of the related issuances. In the case of redemption or conversion of these notes, the related expenses are amortized using the accelerated depreciation method.

Amortization has been recorded under “Financial results and holding gain/loss, net” in the Statements of Income as a greater financing expense.

n. Customer advances

Customer advances represent payments received in connection with the sale and rent of properties and has been valued according to the amount of money received.

IRSA Inversiones y Representaciones Sociedad Anónima

NOTE 1: (Continued)

1.5. (Continued)

o. Income tax

The Company has recognized the charge for income tax by the deferred tax liability method, recognizing timing differences between measurements of accounting and tax assets and liabilities (see Note 15).

To determine deferred assets and liabilities, the tax rate expected to be in effect at the time of reversal or use has been applied to timing differences identified and tax loss carryforwards, considering the legal regulations approved at the date of issuance of these financial statements.

p. MPIT

The Company calculates MPIT by applying the current 1% rate on computable assets at the end of the period / year. This tax complements income tax. The Company's tax obligation in each period will coincide with the higher of the two taxes. However, if MPIT exceeds income tax in a given period, that amount in excess will be computable as payment on account of income tax arising in any of the following ten years.

The Company has recognized MPIT accrued in the period and paid in previous years as credit, because the Company estimates that in the future years it may be computable as prepayment of income tax.

q. Allowances and Provisions

Changes in provisions are showed in Exhibit E.

· Allowance for doubtful accounts:

The allowance for losses is recognized when, based on current information and events, it is probable that will be unable to collect all amounts due according to the terms of the agreements. The allowance is calculated based on an individual analysis of the recoverability of the accounts receivable.

IRSA Inversiones y Representaciones Sociedad Anónima

NOTE 1: (Continued)

1.5. (Continued)

q. (Continued)

The estimate of the amount and the possibility of fulfillment are made considering the opinion of the legal counsels. When it comes to its mortgage-secured receivables, the Company applies the collateral's realization value upon analyzing the recoverability of receivables with hints of uncollectibility.

While Management uses the information available to make assessments, future adjustments to the allowance may be necessary if future economic conditions differ substantially from the assumptions used in making the assessments. Management has considered all events and/or transactions that are subject to reasonable and normal methods of estimations, and the financial statements reflect that consideration.

· For impairment of assets:

The Company regularly assesses its non-current assets for recoverability at the end of every year.

The Company estimates the recoverable value of rental properties based on their economic use value, which is determined based on estimated future cash flows discounted. For the rest of the assets (inventories and undeveloped parcels of land) the Company makes a comparison with market values based on values of comparable properties. If the recoverable value of assets, which had been impaired in prior years, increases, the Company records the corresponding reversals of impairment loss as required by accounting standards.

· For lawsuits:

The Company has certain contingent liabilities with respect to existing or potential claims, lawsuits and other proceedings, including those involving labor issues. The Company accrues liabilities when it is probable that future costs will be incurred and such costs can be reasonably estimated. Such accruals are based on developments to date, the Company's estimates of the outcomes of these matters and the Company's lawyers' experience in contesting, litigating and settling other matters.

As the scope of the liabilities becomes better defined, there may be changes in the estimates of future costs, which could have an effect on the Company's future results of operations and financial condition or liquidity.

s. (Continued)

Results from investments in subsidiary and equity investments were calculated under the equity method, by applying the percentage of the Company's equity interest to the results of such companies, with the adjustments for application of Technical Resolution No. 21.

t. Revenue recognition

t.1. Sales of properties

The Company records revenue from the sale of properties when all of the following criteria are met:

- The sale has been consummated.
- There is sufficient evidence to demonstrate the buyer's ability and commitment to pay for the property.
 - The Company's receivable is not subject to future subordination.
 - The Company has transferred the property to the buyer.

The Company uses the percentage-of-completion method of accounting with respect to sales of development properties under construction. Under this method, revenue is recognized based on the ratio of costs incurred to total estimated costs according to budgeted costs. The Company does not recognize results until construction activities have begun. The percentage-of-completion method of accounting requires the Company's Management to prepare budgeted costs in connection with sales of properties/units. All changes to estimated costs of completion are incorporated into revised estimates during the contract period.

t.2. Revenues from leases

Revenues from leases are recognized considering its terms and conditions and over the life of the related lease contracts.

(2) In May 2006, Koad S.A. (“Koad”) and the Company entered into an asset exchange agreement valued at US\$ 7.5 million pursuant to which the Company delivered to Koad a parcel in Caballito for the construction of a building complex to be named “Caballito Nuevo”. As consideration therefore, Koad S.A. made a down payment of US\$ 0.05 million and agreed to cancel the US\$ 7.4 million balance by delivering 118 apartments and 55 parking spaces. To secure this transaction, Koad raised a US\$ 7.5 million mortgage on the parcel that constitutes its subject matter and posted a surety bond for US\$ 1.0 million. On October 15, 2010, Koad conveyed to IRSA full title, possession and ownership over the units agreed in the barter deed and the security interests that had been set up in that respect were cancelled.

During the fiscal year ended on June 30, 2011, several sale agreements had been subscribed, which measured the properties at their net realizable value and for which all deeds have been issued. During the nine-month period ended on March 31, 2012 and 2011 Ps. 1,415 and Ps. 3,626, respectively, were generated on this concept. As of March 31, 2012 the sale had been perfected upon execution of the deed of conveyance of 109 units and 43 parking spaces for which the respective preliminary sales agreements had been signed.

(DEESA) in exchange for (i) US\$ 1.0 million in cash and (ii) 110 residential lots in the parcel to be subdivided by DEESA for US\$ 3 million. On December 22, 2009 DEESA delivered the residential lots. During the fiscal year ended on June 30, 2011, several sale agreements were subscribed and the corresponding deeds have been issued. During the nine-month period ended March 31, 2012 an additional sale agreement which measured the properties at their net realizable value was subscribed, generating a result of Ps. 338 on that concept. The estimated effect as of the date of the issuance of these financial statements that the adoption of this criteria would have generated would be a decrease in shareholders' equity of approximately Ps. 137.3 million which should be recorded in the retained earnings for Ps. 141.8 million (loss) and in the income statement accounts of the fiscal year Ps. 4.5 million (gain). This effect includes those generated by subsidiaries.

The above-mentioned liability would probably be reverted according to the detail that follows:

1. Brief comments on the Company's activities during the period, including references to significant events after the end of the period.

Buenos Aires, May 14, 2012 - IRSA Inversiones y Representaciones Sociedad Anónima (NYSE: IRS) (BCBA: IRSA), the leading real estate company in Argentina, announces its results for the nine-month period ended on March 31, 2012.

In ARS million	IIIQ 12	IIIQ 11	YoY Var		9 M 12	9 M 11	YoY Var

Income for the Period	83.6	52.6	59	%	216.7	223.2	-2.9	%

The company's consolidated Revenues for the first nine months of fiscal year 2012 were 6% higher than in the same period of the previous fiscal year. This growth is explained by the improvement in the shopping centers and offices revenues, of around 30.5% and 15.2%, respectively, offset by a fall in the hotel business and sales and developments.

Operating income grew 17% during the third quarter of 2012 due to the improvement in operating margins of our shopping centers and offices business, whereas net income for the third quarter of 2012 amounted to ARS 83.6 million, 59% higher than in the same period of the previous fiscal year. For the first nine months of fiscal year 2012, a net loss of 3% was recorded as compared to the same period of the previous fiscal year mainly due to higher financial losses and lower income from subsidiaries, in particular Hersha HT, which had recorded income for ARS 40 million in the previous fiscal year as a result of the sale of shares. The income from Banco Hipotecario has been noteworthy, as it increased by 34.9% during the first nine months of fiscal year 2012 as compared to the same period of the previous fiscal year.

Total EBITDA	186.0	159.7	16.5	%	639.1	539.5	18.5	%

EBITDA from the rental segments has shown an upward trend of around 22.4% for the third quarter of fiscal year 2012 as compared to the same period of 2011. For the first nine months of fiscal year 2012, EBITDA from the rental segment grew 26.8% as compared to the first nine months of 2011, offset by the fall observed in the Sales and Development and Consumer Finance segments. Consolidated EBITDA for the first nine months showed a year-on-year growth of 18.5%.

¹ EBITDA represents operating income plus depreciation and amortization (included in operating income). Our presentation of EBITDA does not reflect the methodology suggested by its acronym. We believe EBITDA provides investors with meaningful information with respect to our operating performance and facilitates comparisons to our historical operating results. However, our EBITDA measure has limitations as an analytical tool, and should not be considered in isolation, as an alternative to net income or as an indicator of our operating performance or as a substitute for analysis of our results as reported under Argentine GAAP. Some of these limitations include:

- it does not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;
- it does not reflect changes in, or cash requirements for, our working capital needs;
- it does not reflect our interest expense, or the cash requirements to service the interest or principal payments of our debt;
- it does not reflect any cash income taxes or employees' profit sharing we may be required to pay;
- it reflects the effect of non-recurring expenses, as well as investing gains and losses;
- it is not adjusted for all non-cash income or expense items that are reflected in restatements of changes in financial position; and
- other companies in our industry could calculate this measure differently than we do, which may limit its usefulness as a comparative measure.

Because of these limitations, our EBITDA measure should not be considered a measure of discretionary cash available to us to invest in the growth of our business or as a measure of cash that will be available to us to meet our obligations. EBITDA is not a recognized financial measure under Argentine GAAP. You should compensate for these limitations by relying principally on our Argentine GAAP results and using our EBITDA measurement supplementally.

I. Shopping Centers (through our subsidiary Alto Palermo S.A.)

Shopping centers saw an outstanding growth in the third quarter of fiscal year 2012, continuing with the upward trend observed in previous periods. During the third quarter of fiscal year 2012, shopping center tenant sales amounted to ARS 2,087 million (a 25.1% increase as compared to the same period of the previous year). The highest growth rates have been recorded in our

shopping centers in the interior of the country, in particular Córdoba Shopping and Alto Rosario, where improvements and changes of tenants have been made, thus boosting these shopping centers' sales. As concerns the City of Buenos Aires and Greater Buenos Aires, Dot Baires Shopping and Soleil have been the main drivers of growth, in the first case because of its maturity stage and in the second one, due to the reform works in progress.

The EBITDA/Revenue margin for the first nine months of fiscal year 2012 was around 80%, showing a 3% increase as compared to the same period of the previous fiscal year. On the other hand, during the third quarter of the fiscal year it reached 79.3%, in line with the ratio recorded during the third quarter of 2011.

Total portfolio occupancy remains at high levels, near 98%. In the shopping centers of the City of Buenos Aires, the vacancy rate is almost zero, with a strong demand for rental space. In the provinces, where sales have experienced a strong growth in the last years, the occupancy rate

Revenues from the Office segment increased by 22.2% in the third quarter of fiscal year 2012, whereas operating income grew by 31.8% as compared to the same quarter of the previous fiscal year. This improvement in the level of activity of offices has been mainly driven by the occupancy of some vacant floors and an improvement in rental price levels. EBITDA grew in the same line (+27.0%).

The portfolio's occupancy level reached 97%, following the upward trend observed since the end of 2011. The entire portfolio's rental prices remained close to 24 USD / sqm. This reflects the soundness of our assets, which are located in the best areas of Downtown Buenos Aires.

The EBITDA/Revenues margin for the first nine months of fiscal year 2012 was 68.3%, above the 63.5% ratio observed in the same period of fiscal year 2011 due to higher cost efficiencies.

III. Sales and Development

In the third quarter of fiscal year 2012, the synthetic indicator of the construction business measured by the INDEC (ISAC) grew 3.5% as compared to the same period of 2011. On the other hand, construction permits granted showed a year-on-year increase of 12% during the period, accelerating with respect to the previous quarter and reaching 1,832,284 sqm. This trend in the level of permits would show that the construction business will maintain its growth rate during the coming periods.

During the third quarter of fiscal year 2012, sales totaled ARS 49.7 million, mainly explained by the revenue recognition of ARS 16.5 million from “Horizons” project, ARS 22.6 million from the sale of Edificios Costeros and ARS 6.6 million from the sale of plots in Rosario. As compared to the third quarter of fiscal year 2011, sales decreased by 30.4%, mainly due to the sale of the Beruti plot and other land reserves recognized during the second quarter of 2011.

The gain from Valuation of Inventories at Net Realizable Value recorded during the period was ARS 39.4 million, derived mainly from the following projects:

- Museo Renault
- Libertador 498
- Condominios II (Rosario)
- Horizons

Horizons Project

Horizons is a residential complex with an offering of amenities that is unique in Argentina. The project involves six high-rise buildings, featuring 15,000 sqm of landscaped green areas with automated irrigation, located in the best area of Vicente López. IRSA (through Irsa Cyrela,

which holds a 50% interest in this venture) presents this new residential concept clearly focused on services, offering a new lifestyle concept.

As of March 31, 2012, the project has been fully sold and works have been completed. The remaining units are being delivered and the execution of title deeds is expected to be completed by September 2012.

Caballito Nuevo Project (IRSA's barter)

This property, with a surface area of 8,404 sqm, is situated in the northern area of Caballito's residential neighborhood in the City of Buenos Aires. On May 4, 2006, IRSA and KOAD S.A. ("KOAD"), an Argentine developer, entered into an asset exchange agreement valued at USD 7.5 million pursuant to which IRSA sold to Koad plot number 36 of "Terrenos de Caballito" and KOAD S.A. agreed to develop a residential complex called "Caballito Nuevo", at its costs, consisting of two 34-story towers containing 220 apartments each, totaling approximately 28,000 saleable sqm. As a result of this transaction, Koad delivered to IRSA on barter 25% of the total square meters for sale. As of March 31, 2012, 9 apartments and 12 parking spaces, for a total value of approximately USD 1.73 million, are pending sale.

El Encuentro Project

In the district of Benavidez, Municipality of Tigre, 35 kilometers north from downtown Buenos Aires, a 110-hectare gated residential complex known as "El Encuentro" is located, consisting of a total of 527 lots with a total saleable area of 610,785.15 sqm. On May 21, 2004 an exchange deed was signed for the original lot whereby DEESA agreed to pay USD 4.0 million to our subsidiary Inversora Bolívar, of which USD 1.0 million were paid in cash and the balance of USD 3.0 million was paid on December 22, 2009, with the transfer of 110 residential plots already chosen, totaling a saleable area of 127,795 sqm. The development of the project is completed and equipped with all the infrastructure required. As of March 31, 2012, 32 units are available for sale for approximately USD 4.1 million.

Abril. Hudson. Greater Buenos Aires

Abril is a 312-hectare private residential community located near Hudson City, approximately 34 kilometers south of the City of Buenos Aires. We have developed this property into a private residential community for the construction of single family homes targeting the upper-middle income market. The project includes 20 neighborhoods subdivided into 1,273 lots of approximately 1,107 square meters each. The neighborhoods have been completed, and as of March 31, 2012, 6 lots are available for sale for approximately USD 771,000.

IV. Hotels

During the first nine months of fiscal year 2012, the hotel business in the City of Buenos Aires maintained the same level of growth as in the previous periods. However, our Llao Llao hotel has suffered the effects of the eruption of the volcano in Chile that affected the arrival of tourists to the City of Bariloche as its airport was closed down. In the third quarter of 2012, the hotel's occupancy rate has recovered and is in the order of 33%; however, for the nine-month period it was 19.5% and room rates were also revised downwards in order to attract tourists despite the climate issues caused by the volcano.

VI. Brief comment on future prospects for the next period

For the first nine months of fiscal year 2012, shopping centers have maintained their annual growth rates, with tenant turnover levels of more than 20% and almost zero vacancy rates. The shopping centers in the City of Buenos Aires that have been recently opened or remodeled, such as Dot Baires Shopping and Soleil Outlet Premium, have continued to exhibit the highest growth rates. As concerns the interior of Argentina, two noteworthy developments have been the refurbishment of the food court of our shopping center in Córdoba, that has boosted sales, and the performance of Alto Rosario shopping center in the province of Santa Fe, which has managed to position itself as top seller in the City, in a highly competitive context.

Prospects for the next quarter and the closing of fiscal year 2012 are positive, in line with the growth observed in the business during the past periods. Greater Buenos Aires and the interior of Argentina will continue to drive growth, as their market potential is still untapped, and with respect to the City of Buenos Aires, we expect to undertake expansion and remodeling works in various of our shopping centers, in line with the higher demand for space and scarce availability observed.

As concerns new investments, we are making progress in the construction works of the Espacio Urbano project, in the area of Palermo, which features an open space and luring gastronomic proposals to bolster the commercial areas. Moreover we have continued with the restyling of our Soleil shopping center, purchased in July 2010, so as to position it as the first Premium Outlet in Argentina. Apart from the tenant mix change which has increased turnover levels of our tenants, we expect to make improvement works in the food court area in the short term in order to optimize the shopping center's rental prices per sqm.

We will also continue to work as we have done until now in the improvement of services at our shopping centers, with the main goal of maintaining occupancy levels at 100%, increasing the number of visitors to our shopping centers and improving our brands' turnover. In this sense, we will continue to partner with financial institutions in the promotion of credit card sales, which have proved to be very effective in terms of sales and have been favorably received by the public.

As concerns rental Offices, during the third quarter of 2012 the market has remained solid, with lease prices and vacancy rates similar to those observed in the previous period. The indicators show very attractive lease and sales prices and vacancy rates lower than those recorded in 2011. Our offices' behavior was similar to the market's, with occupancy rates of 97% and rental prices growing slightly during the quarter when measured in terms of USD/sqm. Prospects for this segment are promising. As reported by J.L. Ramos, more than 160,000 sqm of A+ and A offices are currently under construction, which will become operational during the next period. In this context, we plan to launch in the near future our Catalinas Norte project on a plot of land purchased by the Company in December 2009, which will add 35,000 sqm of gross leasable area to our premium office portfolio and is set to become another landmark building, located in one of the finest spots of the City of Buenos Aires.

We are confident that real estate will continue to be the main savings alternative preferred by Argentine citizens, as it has historically proved to be a very good means of preserving dollar values and hedging against inflation. Although the Argentine mortgage market is still undeveloped, as according to Central Bank data the mortgage loan/GDP ratio is below 2%, prices in the residential and commercial segments have continued their upward trend. In this sense, our

Sales and Developments segment has been favored in terms of sales rhythm and prices of the units sold.

The international segment, which represents less than 10% of the Company's assets, has gained momentum in the last years, and the Company will continue to seek selective investments outside

Argentina, always provided that they involve top level assets, high appreciation potential and price opportunity. Both the Lipstick Building and Madison Avenue, as well as the financial investments in the REITS, Hersha Hospitality Trust and recently, Supertel Hospitality Inc have been opportunistic investments made at attractive prices or with capital structures with potential for improvement.

The Company will continue to work strongly in the consolidation of the best real estate portfolio in Argentina. Its experience of more than 15 years in the market in acquiring, developing and operating first-rate buildings, along with its sound business, strong cash generation and low indebtedness level allow us to envisage a promising future for IRSA, which will strive to take advantage of every opportunity that may arise in the capital markets.

6. Progress in complying with the IFRS implementation plan

On April 29, 2010, the Company's Board of Directors approved a specific plan to implement the IFRS (International Financial Reporting Standards). As established in such plan, the Company has ended training its personnel from its accounting and tax areas, and the personnel from most of its affiliates and related companies. On the other hand, the initial diagnostic process of the difference in standards was finished and the Company is assessing the necessary changes in processes and systems to adequate them to the new requirements as well as the different possible alternatives referred to the measurement and disclosure of certain financial statements items.

As a result of monitoring the specific IFRS implementation plan, the Board of Directors has not become aware of any circumstance requiring amendments to such plan or indicating a significant departure from the proposed goals and terms
