WASHINGTON FEDERAL, INC.
PROXY STATEMENT
ANNUAL MEETING OF STOCKHOLDERS
January 16, 2013

This Proxy Statement is furnished to the holders of the common stock, \$1.00 par value per share (Common Stock), of Washington Federal, Inc. (Washington Federal or the Company), the parent holding company for Washington Federal, a federally-chartered savings association, in connection with the solicitation of proxies by the Board of Directors of the Company, to be used at the Annual Meeting of Stockholders to be held at the Red Lion Hotel, 1415 5th Ave, Seattle, Washington, 98101, on Wednesday, January 16, 2013 at 2:00 p.m. Pacific Time, and at any adjournment thereof (the Annual Meeting), for the purposes set forth in the Notice of Annual Meeting of Stockholders. This Proxy Statement is first being mailed to stockholders on or about December 14, 2012.

The proxy solicited hereby, if properly signed and returned and not revoked prior to its use, will be voted in accordance with the instructions provided. If no instructions are specified, the proxy will be voted FOR the persons nominated to be directors by the Board of Directors, FOR the approval of the compensation of Washington Federal's named executive officers and FOR the ratification of the appointment of Deloitte & Touche LLP as independent registered public accountants for fiscal 2013 and, upon the transaction of such other business as may properly come before the Annual Meeting, in accordance with the best judgment of the persons appointed as proxies. Other than the matters listed on the attached Notice of Annual Meeting of Stockholders, the Board of Directors knows of no additional matters that will be presented for consideration at the Annual Meeting.

Any stockholder giving a proxy has the power to revoke it at any time before it is exercised by: (i) filing written notice with the Secretary of Washington Federal (Edwin C. Hedlund, Washington Federal, Inc., 425 Pike Street, Seattle, Washington 98101); (ii) submitting a duly executed proxy bearing a later date; or (iii) appearing at the Annual Meeting and notifying the Secretary of his or her intention to vote in person (although attendance at the Annual Meeting will not in and of itself constitute a revocation of a proxy). Proxies solicited hereby may be exercised only at the Annual Meeting and any adjournment thereof and will not be used for any other meeting.

The Company's fiscal year end is September 30. All references to 2012 and 2011 represent amounts as of September 30, 2012 and September 30, 2011, or activity for the fiscal years then ended, respectively.

VOTING SECURITIES AND PRINCIPAL HOLDERS THEREOF

Voting Securities

Only stockholders of record at the close of business on November 23, 2012 (the Voting Record Date) will be entitled to vote at the Annual Meeting. On the Voting Record Date, 106,186,237 shares of Common Stock were issued and outstanding, 1,707,456 warrants were outstanding at a strike price of \$17.57 and the Company had no other class of equity securities issued and outstanding. Each share of Common Stock is entitled to one vote at the Annual Meeting on matters other than the election of directors, for which cumulative voting is permitted, as discussed below under "Proposal One: Election of Director Nominees." A majority of the votes entitled to be cast by stockholders represented in person or by proxy is necessary to constitute a quorum.

Vote Required

The election of the Company's directors requires a plurality of the votes represented in person or by proxy at the Annual Meeting. The affirmative vote of the holders of a majority of the total votes cast in person or by proxy at the Annual Meeting is required to (i) approve the resolutions regarding the compensation of Washington Federal's named executive officers, (ii) ratify the appointment of Deloitte & Touche LLP as independent registered public accountants and (iii) approve any other business that properly may come before the Annual Meeting.

Because the vote to approve the named executive officer compensation is non-binding, it will not be binding on the Board of Directors. However, Washington Federal will consider the outcome of the vote when determining future executive compensation arrangements.

Effect of Abstentions and Broker Non-Votes

Stockholders who abstain from voting on any or all proposals and broker non-votes will be included in the number of stockholders present at the Annual Meeting for the purpose of determining the presence of a quorum. Abstentions will not be counted either in favor of or against the election of the nominees or any other proposal. Consequently, abstentions will have no effect on the votes required to approve the nominees for director or the other proposals being considered at the Annual Meeting.

Banks, brokers or other nominees who hold shares of our common stock for a beneficial owner have the discretion to vote on routine proposals when they have not received voting instructions from the beneficial owner of the shares at least ten days prior to the Annual Meeting. A broker non-vote occurs when a bank, broker or other nominee does not receive voting instructions from the beneficial owner and does not have the discretion to direct the voting of the shares. Broker non-votes will be counted for purposes of calculating whether a quorum is present at the Annual Meeting.

If you are a beneficial owner and you do not provide voting instructions to the bank, broker or other nominee that holds your shares, the bank, broker or other nominee will determine if it has the discretionary authority to vote on the particular matter. Banks, brokers and other nominees have the discretion to vote on routine matters, such as the ratification of the selection of our independent registered public accounting firm (Proposal 3), but do not have discretion to vote on non-routine matters such as the election of directors (Proposal 1) or the non-binding advisory proposal on executive compensation (Proposal 2). A broker non-vote will not affect the outcome of the vote on Proposals 1 or 2. Therefore, if you do not provide voting instructions to your bank, broker or other nominee, your bank, broker or other nominee may

only vote any other routine matters properly presented for a vote at the Annual Meeting.

PROPOSAL ONE: ELECTION OF DIRECTOR NOMINEES

General

The Restated Articles of Incorporation of Washington Federal provide that the Board of Directors shall be divided into three classes as nearly equal in number as possible, and that the members of each class shall be elected for terms of three years and until their successors are elected and qualified, with one of the three classes of directors to be elected each year. The number of directors currently authorized by Washington Federal's Bylaws for the Board of Directors is eleven.

Pursuant to Washington Federal's Restated Articles of Incorporation, at each election of directors every stockholder entitled to vote has the right to vote, in person or by proxy, the number of shares owned by him or her for as many persons as there are directors to be elected. A stockholder may also cumulate his or her votes by giving one candidate as many votes as the number of such directors to be elected multiplied by the number of his or her shares shall equal, or by distributing such votes on the same principle among any number of candidates. Cumulative voting is only applicable if there are more nominees for director than positions to be filled. In the event that cumulative voting is in effect, it is the intention of the persons named in the accompanying proxy to vote cumulatively for the nominees listed in the table that follows to be elected as directors.

At the Annual Meeting, stockholders of Washington Federal will be asked to elect two directors of Washington Federal for a three-year term and two directors of Washington Federal for a one-year term, all to continue to serve until their successors are elected and qualified. The Board of Directors, upon the recommendation of the Nominating and Governance Committee, has nominated Barbara L. Smith and Thomas J. Kelley to a three-year term. The Board of Directors, upon the recommendation of the Nominating and Governance Committee, has nominated David K. Grant and Randall H. Talbot to a one-year term. The purpose of Messrs. Grant and Talbot being nominated to a one-year term is to align new board members' terms with scheduled retirements by Board members. Each of the nominees currently serve as a director of Washington Federal. There are no arrangements or understandings between the persons named and any other person concerning selection as a nominee for election as a director at the Annual Meeting, and no director or nominee for director is related to any other director or executive officer of Washington Federal by blood, marriage or adoption.

If any person named as nominee should be unable or unwilling to stand for election at the time of the Annual Meeting, the proxies will nominate and vote for any replacement nominee or nominees recommended by the Board of Directors of Washington Federal. Alternatively, under such circumstances, the Board of Directors of Washington Federal may reduce the number of directors of Washington Federal. Washington Federal knows of no reason why any of the nominees may not be able to serve as director if elected.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS
A VOTE "FOR" THE DIRECTOR NOMINEES LISTED BELOW

The Board of Directors appointed Mr. Tabbutt, Chairman, Mr. Richmond and Mr. Chinn to serve on the Regulatory Compliance Committee. The Regulatory Compliance Committee met two times during the last fiscal year. The primary responsibility of the Regulatory Compliance Committee is to monitor compliance with all applicable laws and regulations. The Regulatory Compliance Committee has a written charter available at www.washingtonfederal.com.

Board Leadership Structure and Board's Role in Risk Oversight

The Chief Executive Officer also serves as Chairman of the Board, due in part to the Chief Executive's tenure with the Company, which provides unique and intimate knowledge regarding the history, strategy, business and operations of Washington Federal. The Lead Independent Director coordinates the activities of the non-management directors and acts as the principal liaison between the independent directors of the Board and the Chairman of the Board.

The Company's Board of Directors endorses the view that one of its primary functions is to protect stockholders' interests by providing oversight of management, including the Chief Executive Officer. However, the Board does not believe that mandating a particular structure, such as a separate Chairman and Chief Executive Officer, is necessary to achieve effective oversight. The Chairman of the Board has no greater or lesser vote on matters considered by the Board than any other director, and the Chairman does not vote on any related party transaction. All directors of Washington Federal, including the Chairman, are bound by fiduciary obligations, imposed by law, to serve the best interests of the stockholders. Accordingly, separating the offices of Chairman and Chief Executive Officer is not deemed to be in the best interest of Washington Federal.

Risk is inherent with every business, and how well a business manages risk can ultimately determine its success. The Company faces a number of risks, including credit risk, interest rate risk, liquidity risk, operational risk, strategic risk and reputation risk. Management is responsible for the day-to-day management of risks that Washington Federal faces, while the Board, as a whole and through its committees, has responsibility for the oversight of risk management. In its risk oversight role, the Board of Directors has the responsibility to satisfy itself that the risk management processes designed and implemented by management are adequate and functioning as designed. To accomplish this, the Chief Executive Officer meets regularly in executive session with the Board to discuss strategy and risks facing the Company. In addition, the Manager of Internal Audit and the Manager of Internal Asset Review report directly to the Audit & Risk Policy Committee and meet regularly with them. Senior management attends all board meetings and is available to address any questions or concerns raised by the Board on risk management and any other matters. Management and the Board work together to provide strong oversight of the Company's management and affairs through its standing committees and when necessary, but in any event at least two times each year, special meetings of independent directors are held.

Selection of Nominees for the Board

The Nominating and Governance Committee considers candidates for director suggested by its members, other directors of Washington Federal, as well as management and stockholders. The Nominating and Governance Committee also may solicit prospective nominees. In addition, nominees for election as director may be obtained in connection with acquisitions by Washington Federal. A stockholder who desires to recommend a prospective nominee for the Board of Directors should notify Washington Federal's Corporate Secretary or any member of the Nominating and Governance Committee in writing with whatever supporting material the stockholder considers appropriate. The

Nominating and Governance Committee also considers whether to nominate any person nominated pursuant to the provision of Washington Federal's Bylaws relating to stockholder nominations, which is described under "Stockholder Nominations" below. The Nominating and Governance Committee has the authority to retain a third-party search firm to identify or evaluate, or assist in identifying and evaluating, potential nominees if it so desires, although it has not done so to date.

Director Qualifications

In making recommendations for nominees to the Board of Directors, the Nominating and Governance Committee reviews and considers the qualifications, strengths and abilities of the potential candidates for nomination, including new candidates that may be identified from time to time through the Company's internal search and review procedures or as a result of stockholder recommendations. In deciding whether to recommend the re-nomination of an incumbent director whose term is expiring at an upcoming meeting or the nomination of new directors who previously served as officers of Washington Federal, the Nominating and Governance Committee considers their prior performance as directors of the Company in addition to the candidates' other qualifications. For new candidates, the review process may require additional evaluation and consideration.

The Nominating and Governance Committee works with the Board of Directors on an ongoing basis in identifying the particular qualities and abilities that Washington Federal seeks in its directors generally, and the mix of experience, expertise and attributes that are sought or required for the Board as a whole. Desirable personal qualities include integrity, business acumen and industry knowledge. Accordingly, the Board of Directors in selecting nominees will consider criteria such as financial, regulatory and business experience; familiarity with and participation in the local community; integrity, honesty and reputation; dedication to Washington Federal and its stockholders; and any other factors the Board of Directors deems relevant, including age, diversity, size of the Board of Directors and regulatory disclosure obligations. All candidates for nomination are evaluated against these target qualities and attributes, as well as the Board of Directors' particular needs at the time.

Stockholder Nominations

Pursuant to Article IV, Section 4.15 of Washington Federal's Bylaws, stockholders of Washington Federal may nominate persons for election to the Board of Directors by submitting such written nominations to the Secretary of Washington Federal at least ninety (90) days prior to the anniversary date of the mailing of proxy materials by Washington Federal in connection with the immediately preceding Annual Meeting of Stockholders of Washington Federal. The Secretary of the Company will promptly forward any such nominations to the Nominating and Governance Committee. Such stockholder's notice shall set forth: (a) the name and address of the stockholder who intends to make the nomination and of the person or persons to be nominated; (b) a representation that the stockholder is a holder of record of stock of Washington Federal entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to nominate the person or persons specified in the notice; (c) a description of all arrangements or understandings between the stockholder and each nominee and any other person or persons (naming such person or persons) pursuant to which the nomination or nominations are to be made by the stockholder; (d) such other information regarding each nominee proposed by such stockholder as would be required to be included in a proxy statement filed pursuant to the proxy rules of the SEC; and (e) the consent of each nominee to serve as a director of Washington Federal, if elected. Once the Nominating and Governance Committee receives the nomination of a candidate and the candidate has complied with the minimum procedural requirements set forth in the Company's Bylaws, such candidacy will be evaluated and a recommendation with respect to such candidate will be delivered to the Board of Directors. If a nomination is made in accordance with applicable requirements, then ballots will be provided for use by stockholders at the stockholder meeting bearing the name of such nominee or nominees. No nominations for election as a director at the Annual Meeting were submitted to Washington Federal in accordance with the foregoing requirements.

Communications with the Board of Directors

The Board of Directors provides to every stockholder the ability to communicate with the Board of Directors as a whole and with individual directors on the Board of Directors. Stockholders who wish to do so may send written communications to the following address: Board of Directors-Stockholder Communications, c/o Corporate Secretary, 425 Pike Street, Seattle, Washington 98101. The Corporate Secretary will forward such communications to the director or directors to whom they are addressed.

Code of Conduct and Ethics

Washington Federal maintains a Director and Employee Code of Ethics that covers all directors, officers and employees of Washington Federal and its subsidiaries. The Code of Ethics requires, among other things, that the directors, officers and employees exhibit and promote the highest standards of honest and ethical conduct; avoid conflicts of interest; comply with laws, rules and regulations; and otherwise act in the best interest of Washington Federal. In addition, Washington Federal maintains a separate Code of Ethics for Senior Financial Officers that imposes specific standards of conduct on persons with financial reporting responsibilities at Washington Federal. Each

senior financial officer of Washington Federal, including its Chief Executive Officer and Chief Financial Officer, is required to annually certify in writing his or her compliance during the prior year with the Code of Ethics for Senior Financial Officers. A copy of the Director and Employee Code of Ethics and Code of Ethics for Senior Financial Officers can be viewed on Washington Federal's website at www.washingtonfederal.com. A waiver for an executive officer or director of the Washington Federal may be made only by the Audit and Risk Policy Committee of the Board of Directors and must be promptly disclosed as required by SEC or NASDAQ rules. Washington Federal will disclose any such waivers, as well as any amendments to the code on its website. No such waivers were requested or granted during 2012 or 2011.

REPORT OF THE AUDIT COMMITTEE

The following “Report of the Audit Committee” shall not be deemed incorporated by reference by any general statement incorporating this Proxy Statement into any filing under the Securities Act of 1933 (Securities Act), or under the Exchange Act, except to the extent that the Company specifically incorporates this information by reference, and shall not otherwise be deemed filed under the Securities Act or the Exchange Act.

The Audit & Risk Policy Committee (Audit Committee) performs a critical role in the financial reporting system by overseeing and monitoring management's and the independent auditor's participation in the financial reporting process. The Audit Committee is governed by a charter adopted by the Board of Directors. During the fiscal year, the Audit Committee fulfilled its duties and responsibilities as outlined in the “Audit & Risk Policy Committee Charter” a copy of which is included as an exhibit to the Proxy Statement.

The Audit Committee members meet the independence requirements as set forth in the attached operating charter (refer to “Composition”). All members have sufficient knowledge in financial and auditing matters to understand Company financial reports to serve on the Audit Committee and have been designated by the Board as “Audit Committee Financial Experts” in compliance with the criteria established by the SEC.

The independent auditors have reviewed the financial information included in the Company's quarterly reports on Form 10-Q prior to the filing of such reports with the SEC and such reviews have been discussed with the Audit Committee.

The Audit Committee has reviewed and discussed the audited financial statements with management. The Audit Committee has discussed with the independent registered public accountants the matters required to be discussed by Statement of Auditing Standards No. 61, “Communication with Audit Committees” and Rule 2-07 “Communication with Audit Committees,” as may be modified or supplemented. The Audit Committee has received the written disclosures and the letter from the independent registered public accountants required by Independence Standards Board Standard No. 1, as may be modified or supplemented, and has discussed with the independent registered public accountants their independence. Based on the reviews and discussions described above, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in Washington Federal's Annual Report on Form 10-K for the fiscal year ended September 30, 2012 for filing with the SEC.

The Audit and Risk Policy Committee also has selected Deloitte & Touche, LLP as the independent registered public accounting firm for fiscal year 2013 as more fully described in this Proxy Statement under the caption “Proposal 3: Ratification of appointment of independent auditors.”

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

Washington Federal's Board of Directors approves all policies that govern executive compensation, which are then administered by the Compensation Committee, including the following activities:

- Establishing and reviewing executive base salaries;
- Overseeing Washington Federal's short-term incentive compensation plans;
- Overseeing Washington Federal's long-term, equity-based compensation plans;
- Overseeing Washington Federal's 401(k) and other benefit plans;

Approving all short-term incentive compensation and awards distributed under these plans; and
Reviewing all compensation decisions for executive officers with the Board of Directors, including those for the Chief Executive Officer and the other officers named in the Summary Compensation Table on page 23 (referred to as the “Named Executive Officers or NEOs”).

On behalf of the Board of Directors, the Compensation Committee seeks to assure that compensation paid to the Named Executive Officers is fair, reasonable and competitive, and is linked to protecting and increasing stockholder value.

Executive Compensation Philosophy

The Board of Directors of Washington Federal and its Compensation Committee believe the intent of executive compensation and benefits programs is to both encourage and reward behaviors that ultimately contribute to the achievement of our organizational goals and produce maximum value to our stockholders over the long term. The following core principles are used to guide decisions regarding these programs:

- Executive compensation must be competitive with relevant markets where we compete for employees, to ensure that the Company is able to attract, retain and motivate top performing executive officers;
- The interests of executives should be aligned with those of the Company's stockholders;
- Incentives are to be provided to promote the achievement of operating goals as a step toward fulfilling long-term strategic objectives;
- Rewards should be linked to company-wide, team and individual performance;
- Executive compensation should be perceived to be fair by all parties with interests in the Company's success; and
- Programs must be designed to ensure that the Company is not exposed to excessive risks.

To achieve the objectives of the organization within the parameters of the core principles, the Board of Directors and its Compensation Committee have determined that the Company's executive compensation program should consist of the following elements:

Base Salary - Base pay opportunities are competitive with other relevant organizations in the marketplaces where Washington Federal competes for employees. Individual pay determinations involve consideration of incumbent qualifications and performance.

Short-Term Incentives - Senior management has a significant portion of competitive targeted annual cash compensation at risk, contingent upon meeting pre-defined organization, group and/or individual goals in performance areas they can substantially influence.

Long-Term Incentives - Senior management has a significant portion of its competitive total compensation opportunity linked to increases in stockholder value.

Benefits - Washington Federal assists senior management in meeting important needs such as retirement income, health care, survivor income, disability income, time-off and other needs through competitive, cost-effective, organization-sponsored programs that provide employees with reasonable flexibility in meeting their individual needs. Decisions regarding total executive compensation program design, as well as individual pay decisions, are made in the context of our principles and our ability to pay, as determined by our financial results.

Role of the Compensation Committee

The Compensation Committee is responsible for, among other things, developing executive compensation policies for approval by the Board of Directors. As part of its responsibilities, the Compensation Committee reviews and establishes compensation for all of the executive officers of Washington Federal, including the Named Executive

Officers, and reviews these decisions with the Board of Directors as appropriate.

The Compensation Committee is comprised entirely of directors who meet the independence requirements as defined by applicable NASDAQ rules, are deemed “non-employee directors” under Rule 16b-3 of the Securities Exchange Act of 1934, as amended, and satisfy the requirements of “outside directors” for purposes of Section 162(m)(4)(C) of the Internal Revenue Code. The Compensation Committee is comprised of the following individuals: Ms. Smith, Chairman, Ms. Johnson and Mr. Chinn.

A key objective of the Compensation Committee is to further the core compensation principles described above through a compensation structure comprised of base salary and long-term and short-term incentive-based compensation. Since a meaningful part of total compensation is incentive based, a direct link is established between executive compensation and the long-term performance of Washington Federal.

The Compensation Committee met twice during the year ended September 30, 2012. In making its recommendations to the Board of Directors, the Compensation Committee reviewed relevant market data on the financial performance of both national and regional financial institutions, specifically banks and thrifts, which the Company views as its peer group. Such data is used as a point of reference but is not the deciding factor in establishing appropriate compensation for executive officers of Washington Federal, due to the variety of circumstances, financial performance, geography and business plans of the peer group institutions.

The Compensation Committee has the authority to directly engage outside consultants and in August, 2012, due to the increasing complexity of rules and regulations related to executive compensation, the Committee engaged Towers Watson to assist in evaluating our compensation practices and to provide advice concerning executive compensation. Specifically, the Compensation Committee asked Towers Watson to conduct a compensation review of eight executive positions, including the Named Executive Officers. As discussed below, its review consisted of a market data assessment and competitive review and analysis of base salary, short-term incentives, long-term incentives and benefits/perquisites.

Towers Watson reports directly to the Chairman of the Committee and, in performance of its duties, Towers Watson interacts with the Chief Executive Officer, Chief Financial Officer and Executive Vice President responsible for human resources. Towers Watson is not affiliated with Washington Federal, nor did it provide any other services for the Company in 2012.

Benchmarking

Peer group benchmarking was used as one data point by the Compensation Committee in making compensation decisions for 2012. To determine competitiveness in the marketplace, Towers Watson provided a detailed analysis of reported proxy statements from 22 peer group companies. The Company's peer group for the 2012 fiscal year analysis consisted of a similarly sized financial institutions ranging in asset size from \$5 billion to \$20 billion. The peer group was as follows:

Astoria Financial Corporation, Bank Of Hawaii Corp., Commerce Bancshares Inc., Community Bank System Inc., Cullen Frost Bankers Inc., East West Bancorp Inc., Firstmerit Corp., First Niagara Financial Group, Inc., Hancock Holding Co., NBT Bancorp Inc., Old National Bancorp, Prosperity Bancshares Inc., Signature Bank, SVB Financial Group, TCF Financial Corp., TFS Financial Corp., Trustmark Corp., UMB Financial Corp., Umpqua Holdings Corp., United Bankshares Inc., Valley National Bancorp, Webster Financial Corp

Total Compensation

Total executive compensation is tied to performance and is structured to ensure focus on financial results, stockholder return, individual performance and the responsibility and experience of executive officers.

In considering 2013 executive compensation decisions, the Compensation Committee engaged Towers Watson in August, 2012 to perform a market study. The Compensation Committee met with representatives of the consulting firm on two occasions to review the results. The study concluded that total compensation for executives officers was below or near the median of the total compensation range provided by the peer group benchmarking. The table below provides the percentage of the median total compensation for each of the Named Executive Officers, based upon targeted total direct compensation for 2013.

	Position	% of Median Total Compensation
Roy M. Whitehead	Chairman, President and Chief Executive Officer	75%
Brent J. Beardall	Executive Vice President and Chief Financial Officer	78
Linda S. Brower	Executive Vice President	108
Edwin C. Hedlund	Executive Vice President and Corporate Secretary	113
Mark A. Schoonover	Executive Vice President and Chief Credit Officer	90

The Compensation Committee of the Board evaluates the individual performance of the named executives officers based primarily on the specific contributions of each NEO to the accomplishment of the following qualitative and quantitative objectives:

	CEO	CFO	CCO	EVP (1)	EVP (2)
Financial performance	x	x	x	x	x
Asset and liability management	x	x		x	
Credit quality	x		x	x	
Asset generation	x			x	
Deposit mix	x	x		x	x
Compliance with laws and regulations	x	x	x	x	x
Leadership & internal communications	x	x	x	x	x
Strategic planning	x	x	x	x	x
Client service & external relations	x	x	x	x	x
Human capital development	x	x	x	x	x
Investment portfolio	x	x			

(1) Executive Vice President Consumer Lending and Corporate Secretary

(2) Executive Vice President, Administration

The Compensation Committee chose these objectives to ensure integration and alignment of individual performance with the Company's performance. The Chief Executive Officer's objectives are most closely linked to the Company's objectives since the Chief Executive Officer bears overall responsibility for the Company's success. Objectives for the other NEO's differ based on each officer's ability to contribute to the Company's performance. For the NEO's other than the Chief Executive Officer, the Compensation Committee relied upon the recommendations of the Chief Executive Officer based on his interactions with and assessment of performance of each of the other executives.

Washington Federal's compensation policies do not employ a specific formulaic approach for evaluating or adjusting individual NEO compensation. Instead, job performance and compensation of the Chief Executive Officer is subjectively determined by the Compensation Committee taking into account the broad objectives set forth above. Job performance and compensation of the other Named Executive Officers is subjectively determined by the Chief Executive Officer and reviewed with the Compensation Committee taking into account the broad objectives set forth above.

The Compensation Committee has approved adjustments to the elements of direct total compensation for 2013 that continues the Company's executive compensation practices which are consistent with competitive practice and necessary to attract and retain top performing executive officers.

Total compensation paid and earned by the Named Executive Officers in Fiscal 2012 was consistent with Washington Federal's financial performance, the individual performance of each Named Executive Officer, the responsibilities and experience of the NEO's and stockholder return.

Elements of Compensation

Base Salary

Base salaries for executive officers are determined based on job responsibilities, level of experience and individual performance. In making its recommendations to the Board of Directors, the Compensation Committee reviews market data with respect to the Company's peer group to assess the competitiveness of the base salary of the Named Executive Officers and other

senior officers. Such information is used as a point of reference; however, it is not the deciding factor in establishing appropriate base salaries due to the lack of precise comparability.

Merit pay adjustments to base salary are considered annually for each executive officer. When making adjustments to the base salary of the Chief Executive Officer, the Compensation Committee considers the job performance and contribution to the successful operation of Washington Federal by the Chief Executive Officer. When making adjustments to the base salaries of the other Named Executive Officers, the Compensation Committee relies upon the recommendation of the Chief Executive Officer based on his interactions and the performance of each of the executives. Executive base salaries are intended to be at levels that will attract, retain and motivate the necessary management expertise to successfully execute the Company's business plan, but are not targeted at specific levels.

In 2012, the Compensation Committee determined that total compensation was slightly below or comparable with market levels. As a result, the Compensation Committee increased the base salary of the Chief Executive Officer for Fiscal 2012 by approximately 5.3% and the salaries of the other Named Executive Officers for Fiscal 2012 increased from 1.5% to 7.8%. In determining individual base salary adjustments, the Compensation Committee considered the contributions of each NEO to the success of the Company and salaries for comparable positions at other institutions.

Annual Incentive Compensation

An annual incentive compensation program has been established for all employees, including the Named Executive Officers. Eligibility for the annual incentive program is restricted only by excluding employees who are not in good standing with the Company. All Named Executive Officers were in good standing and are in good standing with Washington Federal. Consistent with the overall compensation philosophy of linking incentive awards to company-wide and individual performance, the incentive plan is designed to provide performance-based annual cash compensation based on the achievement of annual performance targets approved by the Compensation Committee with the concurrence of the Board of Directors.

For the Named Executive Officers, the short-term incentive compensation opportunity during 2012 was dependent on meeting net income levels that were pre-established by the Compensation Committee. Increasing net income levels beyond the threshold level were assigned a payout percentage amount in 1% increments, ranging from 1% to 100%. This is known as the "net income multiplier." The net income multiplier was applied to each executive's salary. The resulting amount was then multiplied by a factor of 1.5 for the Chief Executive Officer, enabling a maximum potential payout for the Chief Executive Officer equal to 150% of base salary, and a maximum of 100% of base salary for other Named Executive Officers. For 2012, the Compensation Committee set targeted short-term incentive compensation amounts on a threshold level of net income (\$108,000,000) to be achieved approximately 80% of the time, a target level of net income (\$124,000,000) approximately 50% of the time, and the maximum payout (\$140,000,000) approximately 20% of the time.

During 2012, the Company achieved net income performance for the year resulting in a 88% payout due to reported net income of \$138,183,000. Overall, annual incentive compensation payouts in fiscal 2012 were approximately 132% of the Chief Executive Officer's base salary and 88% of the other Named Executive Officer's base salaries.

For 2013, the Committee has approved an incentive design that will have threshold, target and maximum annual incentive amounts expressed as a percentage of base salaries. It is intended that the threshold measure be achieved approximately 80% of the time, the target measure approximately 50% of the time, and the maximum payout approximately 20% of the time. Net income will be the single performance measure for fiscal 2013. Targeted payouts for the Named Executive Officers will be 45% of base salary, with the exception of the CEO, whose targeted payout will be 100% of base salary. Maximum payout for the Named Executive Officers will be 100% of base salary, with the exception of the CEO, whose maximum payout will be 150% of base salary.

Long-Term Incentives

In fiscal 2012, each of the Named Executive Officers received an award of restricted stock and an award of restricted stock performance shares. For all NEO's the mix of awards was 43% in restricted stock and 57% in restricted stock performance shares. The restricted stock awards vest over three years and are subject to the Company's profitability and normal continued employment in good standing. The restricted stock performance shares vest over three years based upon total shareholder return, as shown in the table below.

Measurement Date	Threshold total shareholder return to start vesting	Total shareholder return to vest 100% of performance shares granted
9/30/2012	13.0%	17.0%
9/30/2013	12.0%	16.0%
9/30/2014	11.0%	15.0%

Total Shareholder return was 33% for the year ended September 30, 2012. The Compensation Committee determined the amount of awards based on its subjective assessment of each Named Executive Officer's relative performance and value to the organization, taking into consideration the recommendations of the Chief Executive Officer for the other Named Executive Officers.

The Board of Directors believes that these long-term incentive awards help align the interests of Washington Federal's executives with those of its stockholders through potential stock ownership. Future awards to the Named Executive Officers will include a contingent award that will be earned over multiple years based upon criteria consistent with the terms of the 2011 Washington Federal Incentive Plan. The Compensation Committee and the Board of Directors consider stock awards to be a key piece of executive compensation and reviews the appropriateness of such awards annually in light of performance.

Employment and Change in Control Agreements

The Company does not have any employment agreements in place with any Named Executive Officer. Upon a change in control of the Company, each unvested equity instrument previously awarded to the Named Executive Officers would become fully vested. No other change in control agreements are in place for the Named Executive Officers.

Perquisites

In 2012, perquisites were provided to certain executive and senior officers. Perquisites are given to executive and senior officers based upon their role in the Company and the business advantage gained by the use of perquisites. We provided the following perquisites to the Named Executive Officers:

Messrs. Beardall, Hedlund, Schoonover and Whitehead were provided memberships to an athletic club that was also used for business-related entertainment. The annual cost to the Company of each membership was approximately \$2,500.

The Company provided either an automobile or an automobile allowance to Messrs. Beardall, Hedlund, Schoonover and Ms. Brower. The related compensation is included in the Summary Compensation Table as "Other Compensation."

Retirement Plans

The Washington Federal 401(k) Plan (Plan) is a defined contribution plan in which all employees with over 1,000 hours worked are eligible to participate. Historically, the Company has contributed 11% of an employees' eligible base salary into the plan on his or her behalf. During 2012, the Company contributed 11% of each Named Executive Officer's eligible base salary. These amounts are included in the Summary Compensation Table under "All Other Compensation." Amounts exceeding IRS "Top-Heavy" rules are paid directly to the affected executive on a pre-tax basis. Company contributions vest ratably over six years; after six years of consecutive employment all contributions are 100% vested.

Other Matters

The Compensation Committee also considers the accounting, tax, and stockholder dilutive costs of specific executive compensation programs, and seeks to balance the earnings, tax and dilutive impact of executive compensation plans with the need to attract, retain and motivate highly-qualified executives. The Compensation Committee also recognizes that regulatory factors can influence the structure of executive compensation programs and takes those into account as appropriate.

REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis set forth in this Proxy Statement with management and, based on such review and discussion, has recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement.

1. Pursuant to the 1994, 2001 and 2011 Plans, all unvested stock options and restricted stock awards will become fully vested upon a “change in control” of the Company. A “change in control” is defined to mean a change in control of a nature that would be required to be reported in response to Item 6(e) of Schedule 14A of Regulation 14A promulgated under the Exchange Act, provided that, without limitation, such a change in control shall be deemed to have occurred if (i) any “person” (as such term is used in Sections 13(d) and 14(d) of the Exchange Act), other than the Company, is or becomes the “beneficial owner” (as defined in Rule 13d-3 under the Exchange Act), directly or

- indirectly, of securities of the Company representing 25% or more of the combined voting power of the Company's then outstanding securities, or (ii) during any period of twenty-four consecutive months during the term of an Option, individuals who at the beginning of such period constitute the Board of the Company cease for any reason to constitute at least a majority thereof, unless the election, or the nomination for election by the Company's stockholders, of each director who was not a director at the date of grant has been approved in advance by directors representing at least two-thirds of the directors then in office who were directors at the beginning of the period.
2. Based on the stock price of \$16.66 as of September 30, 2012, none of the unvested stock options to the named executives are in the money therefore there is no potential change in control payment related to stock options.

PROPOSAL 2: ADVISORY VOTE ON THE COMPENSATION OF WASHINGTON FEDERAL'S NAMED EXECUTIVE OFFICERS

In accordance with recently adopted changes to Section 14A of the Securities Exchange Act, stockholders are being given the opportunity to vote on an advisory (non-binding) resolution to approve Washington Federal's executive compensation, as described above under "Compensation Discussion and Analysis," the compensation tables and narrative discussions of Named Executive Officer compensation in this proxy statement.

Washington Federal believes that its compensation policies and procedures, which are reviewed and approved by the Compensation Committee, encourage a culture of pay for performance and are strongly aligned with the long-term interests of stockholders. Washington Federal and the Compensation Committee remain committed to the compensation philosophy, policies and objectives outlined under "Compensation Discussion and Analysis." Named Executive Officer compensation for 2012 reflects the effectiveness of Washington Federal's executive compensation program in fulfilling its objectives. The Compensation Committee will continue to review all elements of the executive compensation program and take any steps it deems necessary to continue to fulfill the objectives of the program.

Washington Federal's Board has requested a stockholder vote on Washington Federal's executive compensation plans, programs and arrangements as reflected in the Compensation Discussion and Analysis, the disclosures regarding named executive officer compensation provided in the various tables included in this Proxy Statement, the accompanying narrative disclosures and the other compensation information provided in this Proxy Statement. This proposal, commonly known as a "Say on Pay" proposal, gives Washington Federal's stockholders the opportunity to endorse or not endorse Washington Federal's executive pay program and policies through the following non-binding resolution:

"RESOLVED, that the compensation of Washington Federal's Named Executive Officers, as disclosed in this proxy statement pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, the compensation tables and the related narrative disclosures, is hereby approved."

This is an advisory vote only, and neither Washington Federal nor the Board of Directors will be bound to take action based upon the outcome. The Compensation Committee will consider the vote of the stockholders when considering future executive compensation arrangements.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR" APPROVAL OF THE COMPENSATION OF NAMED EXECUTIVE OFFICERS AS DESCRIBED IN THIS PROXY STATEMENT.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

Determinations regarding compensation of the Chief Executive Officer and other named executive officers are made by the Compensation Committee of the Board of Directors. None of the members of the Compensation Committee engaged in certain "related party" transactions with Washington Federal, which were required to be disclosed by regulations of the SEC.

No member of the Compensation Committee was an employee or former employee of Washington Federal or any of its subsidiaries. During the last year, none of the Company's executive officers served as: (1) a member of the compensation committee (or other committee of the board of directors performing equivalent functions or, in the absence of any such committee, the entire board of directors) of another entity one of whose executive officers served on the Compensation Committee; (2) a director of another entity one of whose executive officers served on the

Compensation Committee; or (3) a member of the compensation committee (or other committee of the board of directors performing equivalent functions or, in the absence of any such committee, the entire board of directors) of another entity, one of whose executive officers served as a director on the Company's Board of Directors.

Related Person Transactions

Washington Federal will from time to time make loans to directors, executive officers and employees at prevailing market interest rates. Such loans are made in the ordinary course of business on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons not related to the lender and that do not involve more than the normal risk of collectability or present other unfavorable features. As of September 30, 2012, there are two loans outstanding to, or guaranteed by, a director in the amount of \$13.2 million. The loans were made at market terms prior to the directors appointment to the board of directors. The loans are performing in accordance with contractual terms. There are no loans to Named Executive Officers.

The Company regularly monitors its business dealings and those of its Directors and executive officers to determine whether any existing or proposed transactions would require proxy disclosure under Item 404(a) of Regulation S-K. In

addition, our Code of Conduct requires the Directors and executive officer to notify the Company of any relationships or transactions that may present a conflict of interest, including those involving family members. If a transaction is identified, the Company determines if the transaction should be permitted and what is the necessary disclosure to be made.

In accordance with its written charter, the Audit and Risk Policy Committee reviews, approves and ratifies any newly originated related person transaction. The term “related person transaction” refers to any transaction required to be disclosed in our filings with the SEC pursuant to Item 404 of Regulation S-K. In considering any related person transaction, the Audit and Risk Policy Committee considers the facts and circumstances regarding such transaction, including, among other things, the amounts involved, the relationship of the related person (including those persons identified in the instructions to Item 404(a) of Regulation S-K) with our Company and the terms that would be available in a similar transaction with an unaffiliated third-party. The Audit and Risk Policy Committee also considers its fiduciary duties, our obligations under applicable securities law, including disclosure obligations and director independence rules, and other applicable law in evaluating any related person transaction. The Audit and Risk Policy Committee reports its determination regarding any related person transaction to our full Board. No new potential related person transactions were brought to the Audit and Risk Policy Committee for consideration in fiscal 2012.

PROPOSAL 3: RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

At the Annual Meeting, stockholders of Washington Federal will be asked to ratify the appointment of Deloitte & Touche LLP (Deloitte), as Washington Federal's independent registered public accountants for the fiscal year ending September 30, 2013. This appointment was recommended and approved by the Audit and Risk Policy Committee of Washington Federal. If the stockholders of Washington Federal do not ratify the appointment of Deloitte, then the Audit and Risk Policy Committee of the Board of Washington Federal may reconsider the appointment. Even if the selection of Deloitte is ratified, the Audit and Risk Policy Committee in its discretion may select a different independent registered public accounting firm at any time during the year, if it determines that such a change would be in the best interests of the Company and its stockholders.

A representative of Deloitte will be present at the Annual Meeting and available to respond to appropriate questions and will be given an opportunity to make a statement if the representative chooses to do so.

Deloitte has advised Washington Federal that neither the firm nor any of its members has any relationship with Washington Federal or its subsidiaries other than the usual relationship which exists between independent registered public accountants and clients.

Aggregate billings for the professional services rendered to the Company by Deloitte for the 2012 and 2011 fiscal years were as follows:

	2012	2011
Audit Fees	\$ 713,280	\$ 550,000
Audit Related Fees	—	—
Tax Fees	—	—
Other Fees	—	—
Total Fees	\$ 713,280	\$ 550,000

Audit Fees consisted of fees related to the audit of the Company's annual financial statements for the fiscal years ended September 30, 2012 and 2011, reviews of the financial statements included in the Company's Quarterly Reports on Form 10-Q for those years and consents related to various filings with the SEC.

All services provided by Deloitte and the related fees are required to be pre-approved by the Audit and Risk Policy Committee.

The Audit and Risk Policy Committee of the Board of Directors has implemented procedures under the Company's Audit and Risk Policy Committee Pre-Approval Policy for Audit and Non-Audit Services (the Pre-Approval Policy) to ensure that all audit and permitted non-audit services to be provided to the Company have been pre-approved by the Audit and Risk Policy Committee. Specifically, the Audit and Risk Policy Committee pre-approves the use of the Company's independent registered public accounting firm for specific audit and non-audit services, within approved monetary limits. If a proposed service has not been pre-approved pursuant to the Pre-Approval Policy, then it must be specifically pre-approved by the Audit and Risk Policy Committee before the service may be provided by the Company's independent registered public accounting firm. Any pre-approved services exceeding the pre-approved monetary limits require specific approval by the Audit and Risk Policy

30

Committee. All of the audit services provided by Deloitte to the Company in 2012 and 2011 were approved by the Audit and Risk Policy Committee by means of specific pre-approvals or pursuant to the procedures contained in the Pre-Approval Policy.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE BY STOCKHOLDERS FOR RATIFICATION OF THE APPOINTMENT OF DELOITTE & TOUCHE LLP AS WASHINGTON FEDERAL'S INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS FOR THE FISCAL YEAR ENDING SEPTEMBER 30, 2013.
