LETTER TO SHAREHOLDERS

May 2004

Dennis H. Ferro
President and Chief
Executive Officer

Dear Shareholder,

We are pleased to provide the annual report for the Evergreen Income Advantage Fund, which covers the twelve-month period ended April 30, 2004.

Investors in the fixed income markets experienced alternating periods of risk and reward over the past twelve months. Geopolitical uncertainties, improving economic growth, changes in tax legislation, and an accommodative stance from the Federal Reserve managed to both excite and confuse bond market participants at varying points, and in varying sectors, since the beginning of the investment period in May 2003.

Edgar Filing: EVERGREEN INCOME ADVANTAGE FUND - Form N-CSR

The period began with the financial markets focused on the war in Iraq. The associated uncertainty led to higher demand for bonds, particularly within the Treasury market, as investors sought solace in a flight to quality. This performance in government bonds carried over to many municipal and corporate issues, too, and the increased demand for bonds quickly became a sort of self-fulfilling prophecy, as total return potential climbed with higher prices and declining yields. This increasingly popular strategy, though, soon helped set the stage for a summer of volatility unmatched in recent history.

At the conclusion of its monetary policy meeting in May, the Federal Reserve had commented on the "possibility of an unwelcome, substantial fall in inflation." Many bond investors, convinced the Fed was taking rates to zero, drove yields down to 45-year lows in the U.S. Treasury market. Common market wisdom determined that since the Fed's primary concern was deflation, rates were likely headed lower. Yet when central bankers reduced their target for the federal funds rate by a less than expected 25 basis points in late June, many fixed income investors became alarmed. These worries were compounded by

1

LETTER TO SHAREHOLDERS continued

optimistic GDP (Gross Domestic Product) forecasts from Fed Chairman Alan Greenspan during congressional banking committee hearings in July. As a result of these events, the yield on the 10-year Treasury surged from a low of 3.1% in June to 4.6% in late July. Thus, the "deflation trade" in bonds had changed from a significant overbought condition to an oversold one in a matter of just six weeks.

The bond market began to stabilize as investors became more comfortable with the likelihood that monetary policy makers would keep rates low for the foreseeable future. This was a welcome respite for owners of Treasuries and municipal securities. In addition to the excitement in Treasuries, investors in municipal bonds also experienced heightened concerns related to the changes in the tax laws, which were initially perceived as a potential threat to their market. After careful consideration, though, many investors became convinced that capital preservation would remain a primary, if not dominant, theme for the future demand of these securities. A second concern involved the poor financial condition of many states and local governments. Yet just as these concerns were reaching a crescendo, economic growth picked up significantly and tax receipts climbed, improving the financial conditions of many of these entities.

As economic growth strengthened, investors in corporate bonds benefited from the combination of stronger balance sheets, improving credit quality, declining default rates, and the outlook for growth in GDP and corporate profits. In addition, the many steps taken to improve corporate credibility rallied many investors to the credit markets, where many risk appropriate investors successfully searched for improved returns in the high yield market.

Throughout the investment period, the Federal Reserve attempted to improve the clarity of its intentions for the financial markets. At the conclusion of its monetary policy meetings, the Fed's statements ranged from maintaining policy accommodation for a "considerable period" to one of being "measured" in its approach to remove this monetary stimulus. In addition,

2

LETTER TO SHAREHOLDERS continued

central bankers tried to be even more clear in a variety of speeches and public testimonies, as the Fed continued to display an unusually strong effort in clarifying its upcoming changes in monetary policy. Most recently, though, these attempts at clarity caused volatility throughout the

fixed income markets, as investors feared a repeat of the experiences in 1994. Given the current level of interest rates, inflation, the dollar, and global economic growth, we believe these concerns are overblown. However, the price of oil remains a wild card, as sustained high oil prices will eventually embed a higher level of manufacturing and service cost in the economy.

We encourage investors to maintain their diversified, long-term strategies within their fixed income portfolios.

144A Security that may be sold to qualified institutional buyers under Rule 144A of the Securities Act of 1933, as amended. This security has been determined to be liquid under guidelines established by the Board of Trustees.

† Security initially issued in zero coupon form which converts to coupon form at a specified rate and date. An effective interest rate is applied to recognize interest income daily for the bond. This rate is based on total expected interest to be earned over the life of the bond which consists of the aggregate coupon-interest payments and discount at acquisition. The rate shown is the stated rate at the current period end.

* Non-income producing security

(o) Evergreen Investment Management Company, LLC is the investment advisor to both the Fund and the money market fund.

(p) All or a portion of this security is on loan.

(pp) Represents investment of cash collateral received from securities on loan.

+ Security is deemed illiquid and is valued using market quotations where readily available. In the absence of market quotations, the security is valued based on its fair value determined under procedures approved by the Board of the Trustees.

(h) No market quotation available. Valued at fair value as determined in good faith under procedures established by the Board of Trustees.

NOTES TO FINANCIAL STATEMENTS

1. SIGNIFICANT ACCOUNTING POLICIES

Evergreen Income Advantage Fund (the "Fund") was organized as a statutory trust under the laws of the state of Delaware on December 3, 2002 and is registered as a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The primary investment objective of the Fund is to seek a high level of current income. The Fund may, as a secondary objective, also seek capital appreciation to the extent consistent with its investment objective.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with generally accepted accounting principles in the United States of America, which require management to make estimates and assumptions that affect amounts reported herein. Actual results could differ from these estimates.

a. Valuation of investments

Portfolio debt securities acquired with more than 60 days to maturity are valued at prices obtained from an independent pricing service which takes into consideration such factors as similar security prices, yields, maturities, liquidity and ratings. Securities for which valuations are not available from an independent pricing service may be valued by brokers which use prices provided by market makers or estimates of market value obtained from yield data relating to investments or securities with similar characteristics.

Listed equity securities are usually valued at the last sales price or official closing price on the national securities exchange where the securities are principally traded.

Short-term securities with remaining maturities of 60 days or less at the time of purchase are valued at amortized cost, which approximates market value.

Investments in other mutual funds are valued at net asset value. Securities for which market quotations are not available or not reflective of current market value are valued at fair value as determined in good faith, according to procedures approved by the Board of Trustees.

b. Repurchase agreements

Securities pledged as collateral for repurchase agreements are held by the custodian bank or in a segregated account in the Fund's name until the agreements mature. Each agreement requires that the market value of the collateral be sufficient to cover payments of interest and principal. However, in the event of default or bankruptcy by the other party to the agreement, retention of the collateral may be subject to legal proceedings. The Fund will only enter into repurchase agreements with banks and other financial institutions, which are deemed by the investment advisor to be creditworthy pursuant to guidelines established by the Board of Trustees.

c. Reverse repurchase agreements

To obtain short-term financing, the Fund may enter into reverse repurchase agreements with banks and other financial institutions, which are deemed by the investment advisor to be

NOTES TO FINANCIAL STATEMENTS continued

creditworthy. At the time the Fund enters into a reverse repurchase agreement, it will establish a segregated account with the custodian containing qualified assets having a value not less than the repurchase price, including accrued interest. If the counterparty to the transaction is rendered insolvent, the Fund may be delayed or limited in the repurchase of the collateral securities.

d. Securities lending

The Fund may lend its securities to certain qualified brokers in order to earn additional income. The Fund receives compensation in the form of fees or interest earned on the investment of any cash collateral received. The Fund also continues to receive interest and dividends on the securities loaned. The Fund receives collateral in the form of cash or securities with a market value at least equal to the market value of the securities on loan, including accrued interest. In the event of default or bankruptcy by the borrower, the Fund could experience delays and costs in recovering the loaned securities or in gaining access to the collateral. The Fund has the right under the lending agreement to recover the securities from the borrower on demand.

e. Interest rate swaps

The Fund may enter into interest rate swap agreements to manage the Fund's exposure to interest rates. A swap agreement is an exchange of cash payments between the Fund and another party based on a notional principal amount. Cash payments or receipts are recorded as gains or losses. The value of the swap agreements is marked-to-market daily based upon quotations from market makers and any change in value is recorded as an unrealized gain or loss. The Fund could be exposed to risks if the counterparty defaults on its obligation to perform or if there are unfavorable changes in the fluctuation of interest rates.

f. Security transactions and investment income

Security transactions are recorded on trade date. Realized gains and losses are computed using the specific cost of the security sold. Interest income is recorded on the accrual basis and includes accretion of discounts and amortization of premiums. Dividend income is recorded on the ex-dividend date.

g. Federal taxes

The Fund intends to continue to qualify as a regulated investment company and distribute all of its taxable income, including any net capital gains (which have already been offset by available capital loss carryovers). Accordingly, no provision for federal taxes is required.

h. Distributions

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with income tax regulations, which may differ from generally accepted accounting principles.

Reclassifications have been made to the Fund's components of net assets to reflect income and gains available for distribution under income tax regulations. The primary permanent differences causing such reclassifications are due to certain distributions received from real estate investment trusts, premium amortization, consent fees on tendered bonds and interest rate swap payments.

2. ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Evergreen Investment Management Company, LLC ("EIMC"), an indirect, wholly-owned subsidiary of Wachovia Corporation ("Wachovia"), is the investment advisor to the Fund and is paid an annual fee of 0.60% of the Fund's average daily net assets applicable to common shareholders if only common shares are outstanding. The advisory fee increases to 0.90% of the Fund's average daily net assets applicable to common shareholders once preferred shares are issued. For the year ended April 30, 2004, the Fund had preferred shares issued and outstanding.

From time to time, EIMC may voluntarily or contractually waive its fee and/or reimburse expenses in order to limit operating expenses. EIMC may recoup any amounts waived and/or reimbursed up to a period of three years following the end of the fiscal year in which the fee waivers and/or reimbursements were made.

Evergreen Investment Services, Inc. ("EIS"), an indirect, wholly-owned subsidiary of Wachovia, is the administrator to the Fund. As administrator, EIS provides the Fund with facilities, equipment and personnel and is paid an annual administrative fee of 0.05% of the Fund's average daily total assets.

The Fund has placed a portion of its portfolio transactions with brokerage firms that are affiliates of Wachovia. During the year ended April 30, 2004, the Fund paid brokerage commissions of \$13,155 to Wachovia Securities, LLC.

3. CAPITAL SHARE TRANSACTIONS

The Fund has authorized capital of 100,000,000 common shares with no par value. For the year ended April 30, 2004 and the period from February 28, 2003 (commencement of operations), to April 30, 2003, the Fund issued 657,975 and 65,657,000 common shares, respectively.

4. SECURITIES TRANSACTIONS

Cost of purchases and proceeds from sales of investment securities (excluding short-term securities were) \$1,041,814,604 and \$694,884,072, respectively, for the year ended April 30, 2004.

During the year ended April 30, 2004, the Fund loaned securities to certain brokers. At April 30, 2004, the value of securities on loan and the value of collateral amounted to \$167,276,816 and \$170,918,463, respectively. During the year ended April 30, 2004, the Fund earned \$283,866 in income from securities lending which is included in interest income on the Statement of Operations.

NOTES TO FINANCIAL STATEMENTS continued

At April 30, 2004, the Fund had the following open interest rate swap agreements:

| Expiration | Notional Amount | Counterparty | Cash Flows Paid by the Fund | Cash Flows Received by the Fund | Unrealized Gain |
|------------|-----------------|---------------------------|-----------------------------|---------------------------------|-----------------|
| 7/02/2006 | \$150,000,000 | Merrill Lynch & Co., Inc. | Fixed - 1.95% | Floating - 1.09% | \$2,419,043 |
| 11/26/2006 | 105,000,000 | Merrill Lynch & Co., Inc. | Fixed - 2.79% | Floating - 1.09% | 495,199 |
| 7/02/2008 | 100,000,000 | J.P. Morgan Chase & Co. | Fixed - 2.737% | Floating - 1.09% | 3,423,590 |
| 11/26/2008 | 65,000,000 | Merrill Lynch & Co., Inc. | Fixed - 3.585% | Floating - 1.09% | 768,817 |

On April 30, 2004, the aggregate cost of securities for federal income tax purposes was \$1,605,495,383. The gross unrealized appreciation and depreciation on securities based on tax cost was \$502,844,209 and \$425,690,627, respectively, with a net unrealized appreciation of \$77,153,582.

5. AUCTION MARKET PREFERRED SHARES

The Fund has issued 19,600 shares of Auction Market Preferred Shares ("Preferred Shares") consisting of six series, each with a liquidation value of \$25,000 plus accumulated but unpaid dividends (whether or not earned or declared). Dividends on each series of Preferred Shares are cumulative at a rate, which is reset based on the result of an auction. The annualized dividend rate was 1.19% during the year ended April 30, 2004. The Fund will not declare, pay or set apart for payment any dividend to its common shareholders unless the Fund has declared and paid or contemporaneously declares and pays full cumulative dividends on each series of Preferred Shares through its most recent dividend payment date.

Each series of Preferred Shares is redeemable, in whole or in part, at the option of the Fund on any dividend payment date at \$25,000 per share plus any accumulated or unpaid dividends (whether or not earned or declared). Each series of Preferred Shares is also subject to mandatory redemption at \$25,000 per share plus any accumulated or unpaid dividends (whether or not earned or declared) if the requirement relating to the asset coverage with respect to the outstanding Preferred Shares would be less than 200%.

The holders of Preferred Shares have voting rights equal to the holders of the Fund's common shares and will vote together with holders of common shares as a single class. Holders of Preferred Shares, voting as a separate class, are entitled to elect two of the Fund's Trustees.

NOTES TO FINANCIAL STATEMENTS continued

6. DISTRIBUTIONS TO SHAREHOLDERS

As of April 30, 2004, the components of distributable earnings on a tax basis were as follows:

| Undistributed Ordinary Income | Undistributed Long-term Capital Gain | Unrealized Appreciation |
|--|---|------------------------------------|
| \$ 11,610,342 | \$ 3,784,047 | \$ 77,153,582 |

The differences between the components of distributable earnings on a tax basis and the amounts reflected in the Statement of Assets and Liabilities are primarily due to wash sales, premium amortization and interest rate swap payments. Additionally, short-term capital gains are considered ordinary income for income tax purposes.

The tax character of distributions paid for the years ended April 30, 2004 and April 30, 2003 was \$114,879,208 and \$9,090,401 of ordinary income, respectively.

7. EXPENSE REDUCTIONS

Through expense offset arrangements with the Fund's custodian, a portion of fund expenses has been reduced.

8. DEFERRED TRUSTEES' FEES

Each Trustee of the Fund may defer any or all compensation related to performance of their duties as Trustees. The Trustees' deferred balances are allocated to deferral accounts, which are included in the accrued expenses for the Fund. The investment performance of the deferral accounts are based on the investment performance of certain Evergreen funds. Any gains earned or losses incurred in the deferral accounts are reported in the Fund's Trustees' fees and expenses. At the election of the Trustees, the deferral account will be paid either in one lump sum or in quarterly installments for up to ten years.

9. CONCENTRATION OF RISK

The Fund may invest a substantial portion of its assets in an industry or sector and, therefore, may be more affected by changes in that industry or sector than would be a comparable mutual fund that is not heavily weighted in any industry or sector.

10. SUBSEQUENT DISTRIBUTIONS

On April 20, 2004, the Fund declared distributions from net investment income of \$0.1375 per share, payable on June 1, 2004 to shareholders of record on May 14, 2004. On May 20, 2004, the Fund declared distributions from net investment income of \$0.1375 per share, payable on July 1, 2004 to shareholders of record on June 15, 2004. These distributions are not reflected in the accompanying financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Trustees and Shareholders
Evergreen Income Advantage Fund

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of the Evergreen Income Advantage Fund, as of April 30, 2004, and the related statement of operations for the year then ended, and statement of changes in net assets and the financial highlights for each of the years or periods in the two-year period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2004 by correspondence with the custodian. As to securities purchased but not yet received, we performed other appropriate auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Evergreen Income Advantage Fund, as of April 30, 2004, the results of its operations, changes in its net assets and financial highlights for each of the years or periods described above in conformity with accounting principles generally accepted in the United States of America.

AUTOMATIC DIVIDEND REINVESTMENT PLAN (unaudited)

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan ("the Plan"). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by EquiServe Trust Company, N.A., as agent for shareholders in administering the Plan ("Plan Agent"), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as "dividends") payable either in shares or in cash, non-participants in the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common shares. The shares are acquired by the Plan Agent for the participant's account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund ("newly issued common shares") or (ii) by purchase of outstanding common shares on the open market (open-market purchases) on the American Stock Exchange or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions ("market premium"), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant's account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value or market premium ("market discount"), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open-market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010 or by calling 1-800-730-6001.

Audit and Non-Audit Services Pre-Approval Policy

I. Statement of Principles

Under the Sarbanes-Oxley Act of 2002 (the "Act"), the Audit Committee of the Board of Trustees/Directors is responsible for the appointment, compensation and oversight of the work of the independent auditor. As part of this responsibility, the Audit Committee is required to pre-approve the audit and non-audit services performed by the independent auditor in order to assure that they do not impair the auditor's independence from the Funds. To implement these provisions of the Act, the Securities and Exchange Commission (the "SEC") has issued rules specifying the types of services that an independent auditor may not provide to its audit client, as well as the audit committee's administration of the engagement of the independent auditor. Accordingly, the Audit Committee has adopted, and the Board of Trustees/Directors has ratified, the Audit and Non-Audit Services Pre Approval Policy (the "Policy"), which sets forth the procedures and the conditions pursuant to which services proposed to be performed by the independent auditor may be pre-approved.

The SEC's rules establish two different approaches to pre-approving services, which the SEC considers to be equally valid. Proposed services either: may be pre-approved without consideration of specific case-by-case services by the Audit Committee ("general pre-approval"); or require the specific pre-approval of the Audit Committee ("specified pre-approval"). The Audit Committee believes that the combination of these two approaches in this Policy will result in an effective and efficient procedure to pre-approve services performed by the independent auditor. As set forth in this Policy, unless a type of service has received general pre-approval, it will require specific pre-approval by the Audit Committee if it is to be provided by the independent auditor. Any proposed services exceeding pre-approved cost levels or budgeted amounts will also require specific pre-approval by the Audit Committee.

For both types of pre-approval, the Audit Committee will consider whether such services are consistent with the SEC's rules on auditor independence. The Audit Committee will also consider whether the independent auditor is best positioned to provide the most effective and efficient service, for reasons such as its familiarity with the Funds' business people, culture, accounting systems, risk profile and other factors, and whether the service might enhance the Funds' ability to manage or control risk or improve audit quality. All such factors will be considered as a whole, and no one factor should necessarily be determinative.

The Audit Committee is also mindful of the relationship between fees for audit and non-audit services in deciding whether to pre-approve any such services and may determine, for each fiscal year, the ratio between the total amount of fees for Audit, Audit-related and Tax services and the total amount of fees for certain permissible non-audit services classified as All Other services.

The appendices to this Policy describe the Audit, Audit-related, Tax and All Other services that have the general pre-approval of the Audit Committee. The term of any general pre-approval is 12 months from the date of pre-approval, unless the Audit Committee considers a different period and states otherwise. The Audit Committee will annually review and pre-approve the services that may be provided by the independent auditor without obtaining specific pre-approval from the Audit Committee. The Audit Committee will add or subtract to the list of general pre-approved services from time to time, based on subsequent determinations.

The purpose of this Policy is to set forth the procedures by which the Audit Committee intends to fulfill its responsibilities. It does not delegate the Audit Committee's responsibilities to pre-approve services performed by the independent auditor to management.

The independent auditor has reviewed this Policy and believes that implementation of the policy will not adversely affect the auditor's independence.

II. Delegation

As provided in the Act and the SEC's rules, the Audit Committee may delegate either type of pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions of the Audit Committee at its next scheduled meeting.

III. Audit Services

The annual Audit services engagement terms and fees will be subject to the specific pre-approval of the Audit Committee. Audit services include the annual financial statement audit and other procedures required to be performed by the independent auditor to be able to form an opinion on the Funds' financial statements. These other procedures include information systems and procedural reviews and testing performed in order to understand and place reliance on the systems of internal control, and consultations relating to the audit. Audit services also include the attestation engagement for the independent auditor's report on management's report on internal controls for financial reporting. The Audit Committee will monitor the Audit services engagement as necessary, but no less than on a quarterly basis, and will also approve, if necessary, any changes in terms, conditions and fees resulting from changes in audit scope, Fund service providers or other items.

Edgar Filing: EVERGREEN INCOME ADVANTAGE FUND - Form N-CSR

In addition to the annual Audit services engagement approved by the Audit Committee, the Audit Committee may grant general pre-approval to other Audit services, which are those services that only the independent auditor reasonably can provide. Other Audit services may include services associated with SEC registration statements, periodic reports and other documents filed with the SEC or other documents issued in connection with mergers or acquisitions.

The Audit Committee has pre-approved the Audit services in Appendix A. All other audit services not listed in Appendix A must be specifically pre-approved by the Audit Committee.

IV. Audit-related Services

Audit -related services are assurance and related services that are reasonably related to the performance of the audit or review of the Funds' financial statements or that are traditionally performed by the independent auditor. Because the Audit Committee believes that the provision of Audit-related services does not impair the independence of the auditor and is consistent with SEC's rules on auditor independence, the Audit Committee may grant general pre-approval to Audit-related services. Audit-related services include, among others, due diligence services pertaining to potential business acquisitions/dispositions; accounting consultations related to accounting, financial reporting or disclosure matters not classified as "Audit services"; assistance with understanding and implementing new accounting and financial reporting guidance from rulemaking authorities; agreed-upon or expanded audit procedures related to accounting records required to respond to or comply with financial, accounting or regulatory reporting matters; and assistance with internal control reporting requirements.

The Audit Committee has pre-approved the Audit-related services in Appendix B. All other Audit-related services not listed in appendix B must be specifically pre-approved by the Audit Committee.

V. Tax Services

The Audit Committee believes that the independent auditor can provide Tax services to the Funds such as tax compliance, tax planning and tax advice without impairing the auditor's independence, and the SEC has stated that the independent auditor may provide such services. Hence, the Audit Committee believes it may grant general pre-approval to those Tax services that have historically been provided by the auditor, that the Audit Committee has reviewed and believes would not impair the independence of the auditor, and that are consistent with the SEC's rules on auditor independence. The Audit Committee will not permit the retention of the independent auditor in connection with a transaction initially recommended by the independent auditor, the sole business purpose of which may be tax avoidance and the tax treatment of which may not be supported in the Internal Revenue Code and related regulations. The Audit Committee will consult with the Director of Fund Administration, the Vice President of Tax Services or outside counsel to determine that the tax planning and reporting positions are consistent with this policy.

Pursuant to the preceding paragraph, the Audit Committee has pre-approved the Tax services in Appendix C. All Tax services involving large and complex transactions not listed in Appendix C must be specifically pre-approved by the Audit Committee, including: tax services proposed to be provide by the independent auditor to any executive officer or director of the Funds, in his or her individual capacity, where such services are paid for by the Funds or the investment advisor.

VI. All Other Services

The Audit Committee believes, based on the SEC's rules prohibiting the independent auditor from providing specific non-audit services, that other types of non-audit services are permitted. Accordingly, the Audit Committee believes it may grant general pre-approval to those permissible non-audit services classified as All Other services that it believes are routine and recurring services, would not impair the independence of the auditor and are consistent with the SEC's rules on auditor independence.

The Audit Committee has pre-approved the All Other services in appendix D. Permissible All Other services not listed in Appendix D must be specifically pre-approved by the Audit Committee.

A list of the SEC's prohibited non-audit services is attached to this policy as Exhibit 1. The SEC's rules and relevant guidance should be consulted to determine the precise definitions of these services and the applicability of exceptions to certain of the prohibitions.

VII. Pre-Approval Fee Levels or Budgeted Amounts

Pre-approval fee levels or budgeted amounts for all services to be provided by the independent auditor will be established annually by the Audit Committee. Any proposed services exceeding these levels or amounts will require specific pre-approval by the Audit Committee. The Audit Committee is mindful of the overall relationship of fees for audit and non-audit services in determining whether to pre-approve any such services. For each fiscal year, the Audit Committee may determine to ratio between the total amount of fees for Audit, Audit-related and Tax services, and the total amount of fees for services classified as All Other services.

VIII. Procedures

Edgar Filing: EVERGREEN INCOME ADVANTAGE FUND - Form N-CSR

All requests or applications for services to be provided by the independent auditor that do not require specific approval by the Audit Committee will be submitted to the Director of Fund Administration or Assistant Director of Fund Administration and must include a detailed description of the services to be rendered. The Director/Assistant Director of Fund Administration will determine whether such services are included within the list of services that have received the general pre-approval of the Audit Committee. The Audit Committee will be informed on a quarterly basis (or more frequent if requested by the audit committee) of any such services rendered by the independent auditor.

Request or applications to provide services that require specific approval by the Audit Committee will be submitted to the Audit Committee by both the independent auditor and the Director/Assistant Director of Fund Administration, and must include a joint statement as to whether, in their view, the request or application is consistent with the SEC's rules on auditor independence.

The Audit Committee has designated the Chief Compliance Officer to monitor the performance of all services provided by the independent auditor and to determine whether such services are in compliance with this policy. The Chief Compliance Officer will report to the Audit Committee on a periodic basis on the results of its monitoring. Both the Chief Compliance Officer and management will immediately report to the chairman of the Audit Committee any breach of this policy that comes to the attention of the Chief Compliance Officer or any member of management.

The Audit Committee will also review the internal auditor's annual internal audit plan to determine that the plan provides for the monitoring of the independent auditor's services.

IX. Additional Requirements

The Audit Committee has determined to take additional measures on an annual basis to meet its responsibility to oversee the work of the independent auditor and to assure the auditor's independence from the Funds, such as reviewing a formal written statement from the independent auditor delineating all relationships between the independent auditor and the Funds, the Funds' investment advisor and related parties of the investment advisor, consistent with Independence Standards Board Standard No. 1, and discussing with the independent auditor its methods and procedures for ensuring independence.

Proxy Voting Policy and Procedures

Evergreen Investment Management Company, LLC - June 16, 2003

Statement of Principles

Evergreen Investment Management Company, LLC (EIMCO) recognizes it has a fiduciary duty to vote proxies on behalf of clients who have delegated such responsibility to EIMCO, and that in all cases proxies should be voted in a manner reasonably believed to be in the clients' best interest.

Corporate Governance Committee

EIMCO has established a corporate governance committee (Committee), which is a sub-committee of EIMCO's Investment Policy Committee. The Committee is responsible for approving EIMCO's proxy voting policies and procedures, for overseeing the proxy voting process, and for reviewing proxy voting on a regular basis. The Committee will meet quarterly to review reports of all proxies voted for the prior period and to conduct other business as required.

Conflicts of Interest

EIMCO recognizes that under certain circumstances it may have a conflict of interest in voting proxies on behalf of its clients. Such circumstances may include, but are not limited to, situations where EIMCO or one or more of its affiliates has a client or customer relationship with the issuer of the security that is the subject of the proxy vote.

In most cases, structural and informational barriers within EIMCO and Wachovia Corporation will prevent EIMCO from becoming aware of the relationship giving rise to the potential conflict of interest. In such circumstances, EIMCO will vote the proxy according to its standard guidelines and procedures described above.

If persons involved in proxy voting on behalf of EIMCO becomes aware of a potential conflict of interest, the Committee shall consult with EIMCO's Legal Department and consider whether to implement special procedures with respect to the voting of that proxy, including whether an independent third party should be retained to vote the proxy.

Share Blocking

EIMCO does not vote global proxies, with share blocking restrictions, requiring shares to be prohibited from sale.

Proxy Voting Guideline Summary

- I. The Board of Directors
- II. Proxy Contests
- III. Auditors
- IV. Proxy Contest Defenses
- V. Tender Offer Defenses
- VI. Miscellaneous Governance Provisions
- VII. Capital Structure
- VIII. Executive and Director Compensation
- IX. State of Incorporation
- X. Mergers and Corporate Restructurings
- XI. Mutual Fund Proxies
- XII. Social and Environmental Issues

I. The Board of Directors

Voting on Director Nominees in Uncontested Elections

Votes on director nominees should be made on a **case-by-case** basis, examining the following factors: composition of the board and key board committees, attendance at board meetings, corporate governance provisions and takeover activity, long-term company performance relative to a market index, directors' investment in the company, whether the chairman is also serving as CEO, and whether a retired CEO sits on the board. However, there are some actions by directors that should result in votes being withheld. These instances include directors who:

- Attend less than 75 percent of the board and committee meetings without a valid excuse
- Implement or renew a dead-hand or modified dead-hand poison pill
- Ignore a shareholder proposal that is approved by a majority of the shares outstanding
- Ignore a shareholder proposal that is approved by a majority of the votes cast for two consecutive years
- Have failed to act on takeover offers where the majority of the shareholders have tendered their shares
- Are inside directors and sit on the audit, compensation, or nominating committees
- Are inside directors and the full board serves as the audit, compensation, or nominating committee or the company does not have one of these committees

In addition, directors who enacted egregious corporate governance policies or failed to replace management as appropriate would be subject to recommendations to withhold votes.

Separating Chairman and CEO

Vote on a **case-by-case** basis on shareholder proposals requiring that the positions of chairman and CEO be held separately.

Proposals Seeking a Majority of Independent Directors

Shareholder proposals asking that a majority of directors be independent should be evaluated on a **case-by-case** basis. Vote for shareholder proposals asking that board audit, compensation, and/or nominating committees be composed exclusively of independent directors.

Stock Ownership Requirements

Vote **against** shareholder proposals requiring directors to own a minimum amount of company stock in order to qualify as a director or to remain on the board.

Term of Office

Vote against shareholder proposals to limit the tenure of outside directors.

Age Limits

Vote **against** shareholder proposals to impose a mandatory retirement age for outside directors.

Director and Officer Indemnification and Liability Protection

Proposals on director and officer indemnification and liability protection should be evaluated on a **case-by-case** basis, using Delaware law as the standard. Vote **against** proposals to eliminate entirely directors' and officers' liability for monetary damages for violating the duty of care. Vote **against** indemnification proposals that would expand coverage beyond just legal expenses to acts, such as negligence, that are more serious violations of fiduciary obligation than mere carelessness. Vote **for** only those proposals providing such expanded coverage in cases when a director's or officer's legal defense was unsuccessful if: (1) the director was found to have acted in good faith and in a manner that he reasonably believed was in the best interests of the company, and (2) only if the director's legal expenses would be covered.

Charitable Contributions

Vote against proposals regarding charitable contributions.

II. Proxy Contests

Voting for Director Nominees in Contested Elections

Votes in a contested election of directors must be evaluated on a **case-by-case** basis, considering the following factors: long-term financial performance of the target company relative to its industry; management's track record; background to the proxy contest; qualifications of director nominees (both slates); evaluation of what each side is offering shareholders as well as the likelihood that the proposed objectives and goals can be met; and stock ownership positions.

Reimburse Proxy Solicitation Expenses

Voting to reimburse proxy solicitation expenses should be analyzed on a **case-by-case** basis. In cases where Evergreen recommends in favor of the dissidents, we also recommend voting **for** reimbursing proxy solicitation expenses.

III. Auditors

Ratifying Auditors

Vote **for** proposals to ratify auditors, unless: an auditor has a financial interest in or association with the company, and is therefore not independent; or there is reason to believe that the independent auditor has rendered an opinion, which is neither accurate nor indicative of the company's financial position.

IV. Proxy Contest Defenses

Board Structure: Staggered vs. Annual Elections

Vote **against** proposals to classify the board.

Vote **for** proposals to repeal classified boards and to elect all directors annually.

Shareholder Ability to Remove Directors

Vote **against** proposals that provide that directors may be removed only for cause.

Vote **for** proposals to restore shareholder ability to remove directors with or without cause.

Vote **against** proposals that provide that only continuing directors may elect replacements to fill board vacancies.

Vote **for** proposals that permit shareholders to elect directors to fill board vacancies.

Cumulative Voting

Vote **against** proposals to eliminate cumulative voting.

Vote proposals to restore or permit cumulative voting on a **case-by-case** basis relative to the company's other governance provisions.

Shareholder Ability to Call Special Meetings

Vote **against** proposals to restrict or prohibit shareholder ability to call special meetings.

Vote **for** proposals that remove restrictions on the right of shareholders to act independently of management.

Shareholder Ability to Act by Written Consent

Vote **against** proposals to restrict or prohibit shareholder ability to take action by written consent.

Vote **for** proposals to allow or make easier shareholder action by written consent.

Shareholder Ability to Alter the Size of the Board

Vote **for** proposals that seek to fix the size of the board.

Vote **against** proposals that give management the ability to alter the size of the board without shareholder approval.

V. Tender Offer Defenses

Poison Pills

Vote for shareholder proposals that ask a company to submit its poison pill for shareholder ratification.

Review on a **case-by-case** basis shareholder proposals to redeem a company's poison pill.

Review on a **case-by-case** basis management proposals to ratify a poison pill.

Fair Price Provisions

Vote proposals to adopt fair price provisions on a **case-by-case** basis, evaluating factors such as the vote required to approve the proposed acquisition, the vote required to repeal the fair price provision, and the mechanism for determining the fair price.

Generally, vote **against** fair price provisions with shareholder vote requirements greater than a majority of disinterested shares.

Greenmail

Vote **for** proposals to adopt antigreenmail charter or bylaw amendments or otherwise restrict a company's ability to make greenmail payments.

Review on a **case-by-case** basis antigreenmail proposals when they are bundled with other charter or bylaw amendments.

Pale Greenmail

Review on a **case-by-case** basis restructuring plans that involve the payment of pale greenmail.

Unequal Voting Rights

Vote **against** dual-class exchange offers.

Vote **against** dual-class recapitalizations.

Supermajority Shareholder Vote Requirement to Amend the Charter or Bylaws

Vote **against** management proposals to require a supermajority shareholder vote to approve charter and bylaw amendments.

Vote **for** shareholder proposals to lower supermajority shareholder vote requirements for charter and bylaw amendments.

Supermajority Shareholder Vote Requirement to Approve Mergers

Vote **against** management proposals to require a supermajority shareholder vote to approve mergers and other significant business combinations.

Vote **for** shareholder proposals to lower supermajority shareholder vote requirements for mergers and other significant business combinations.

White Squire Placements

Vote **for** shareholder proposals to require approval of blank check preferred stock Issues for other than general corporate purposes.

VI. Miscellaneous Governance Provisions

Confidential Voting

Vote **for** shareholder proposals that request companies to adopt confidential voting, use independent tabulators, and use independent inspectors of election as long as the proposals include clauses for proxy contests as follows: In the case of a contested election, management should be permitted to request that the dissident group honor its confidential voting policy. If the dissidents agree, the policy remains in place. If the dissidents do not agree, the confidential voting policy is waived.

Vote **for** management proposals to adopt confidential voting.

Equal Access

Vote **for** shareholder proposals that would allow significant company shareholders equal access to management's proxy material in order to evaluate and propose voting recommendations on proxy proposals and director nominees, and in order to nominate their own candidates to the board.

Bundled Proposals

Review on a case-by-case basis bundled or "conditioned" proxy proposals. In the case of items that are conditioned upon each other, examine the benefits and costs of the packaged items. In instances when the joint effect of the conditioned items is not in shareholders' best interests, vote against the proposals. If the combined effect is positive, support such proposals.

Shareholder Advisory Committees

Review on a **case-by-case** basis proposals to establish a shareholder advisory committee.

VII. Capital Structure

Common Stock Authorization

Review proposals to increase the number of shares of common stock authorized for issue on a case-by-case basis.

Vote against proposals to increase the number of authorized shares of the class of stock that has superior voting rights in companies that have dual-class capitalization structures.

Stock Distributions: Splits and Dividends

Vote for management proposals to increase common share authorization for a stock split, provided that the increase in authorized shares would not result in an excessive number of shares available for issuance given a company's industry and performance in terms of shareholder returns.

Reverse Stock Splits

Vote for management proposals to implement a reverse stock split when the number of shares will be proportionately reduced to avoid delisting.

Review on a case-by-case basis on proposals to implement a reverse stock split that do not proportionately reduce the number of shares authorized for Issue.

Preferred Stock

Vote against proposals authorizing the creation of new classes of preferred stock with unspecified voting, conversion, dividend distribution, and other rights ("blank check" preferred stock).

Vote for proposals to create blank check preferred stock in cases when the company expressly states that the stock will not be used as a takeover defense.

Vote for proposals to authorize preferred stock in cases where the company specifies the voting, dividend, conversion, and other rights of such stock and the terms of the preferred stock appear reasonable.

Vote case-by-case on proposals to increase the number of blank check preferred shares after analyzing the number of preferred shares available for Issue given a company's industry and performance in terms of shareholder returns.

Shareholder Proposals Regarding Blank Check Preferred Stock

Vote for shareholder proposals to have blank check preferred stock placements, other than those shares issued for the purpose of raising capital or making acquisitions in the normal course of business, submitted for shareholder ratification.

Adjustments to Par Value of Common Stock

Vote for management proposals to reduce the par value of common stock.

Preemptive Rights

Review on a case-by-case basis shareholder proposals that seek preemptive rights. In evaluating proposals on preemptive rights, consider the size of a company and the characteristics of its shareholder base.

Debt Restructurings

Review on a case-by-case basis proposals to increase common and/or preferred shares and to Issue shares as part of a debt restructuring plan. Consider the following Issues: Dilution - How much will ownership interest of existing shareholders be reduced, and how extreme will dilution to any future earnings be? Change in Control - Will the transaction result in a change in control of the company?

Bankruptcy - Generally, approve proposals that facilitate debt restructurings unless there are clear signs of self-dealing or other abuses.

Share Repurchase Programs

Vote for management proposals to institute open-market share repurchase plans in which all shareholders may participate on equal terms.

Tracking Stock

Votes on the creation of tracking stock are determined on a case-by-case basis, weighing the strategic value of the transaction against such factors as:

- Adverse governance changes
- Excessive increases in authorized capital stock
- Unfair method of distribution
- Diminution of voting rights
- Adverse conversion features
- Negative impact on stock option plans
- Other alternatives such as spinoff

VIII. Executive and Director Compensation

Votes with respect to compensation plans should be determined on a case-by-case basis. Our new methodology for reviewing compensation plans primarily focuses on the transfer of shareholder wealth (the dollar cost of pay plans to shareholders instead of simply focusing on voting power dilution). Using the expanded compensation data disclosed under the SEC's new rules, Evergreen will value every award type. Evergreen will include in its analyses an estimated dollar cost for the proposed plan and all continuing plans.

This cost, dilution to shareholders' equity, will also be expressed as a percentage figure for the transfer of shareholder wealth, and will be considered along with dilution to voting power. Once Evergreen determines the estimated cost of the plan, we compare it to a company-specific dilution cap.

Our model determines a company-specific allowable pool of shareholder wealth that may be transferred from the company to executives, adjusted for (1) long-term corporate performance (on an absolute basis and relative to a standard industry peer group and an appropriate market index), (2) cash compensation, and (3) categorization of the company as emerging, growth, or mature. These adjustments are pegged to market capitalization. Evergreen will continue to examine other features of proposed pay plans such as administration, payment terms, plan duration, and whether the administering committee is permitted to reprice underwater stock options without shareholder approval.

Management Proposals Seeking Approval to Reprice Options

Vote on management proposals seeking approval to reprice options on a case-by-case basis.

Director Compensation

Votes on stock-based plans for directors are made on a case-by-case basis.

Employee Stock Purchase Plans

Votes on employee stock purchase plans should be made on a case-by-case basis.

OBRA-Related Compensation Proposals:

- **Amendments that Place a Cap on Annual Grants or Amend Administrative Features**

Vote for plans that simply amend shareholder-approved plans to include administrative features or place a cap on the annual grants any one participant may receive to comply with the provisions of Section 162(m) of OBRA.

- **Amendments to Added Performance-Based Goals**

Vote for amendments to add performance goals to existing compensation plans to comply with the provisions of Section 162(m) of OBRA.

- **Amendments to Increase Shares and Retain Tax Deductions Under OBRA**

Votes on amendments to existing plans to increase shares reserved and to qualify the plan for favorable tax treatment under the provisions of Section 162(m) should be evaluated on a case-by-case basis.

- **Approval of Cash or Cash-and-Stock Bonus Plans**

Vote for cash or cash-and-stock bonus plans to exempt the compensation from taxes under the provisions of Section 162(m) of OBRA.

Shareholder Proposals to Limit Executive and Director Pay

Generally, vote for shareholder proposals that seek additional disclosure of executive and director pay information.

Review on a case-by-case basis all other shareholder proposals that seek to limit executive and director pay.

Golden and Tin Parachutes

Vote for shareholder proposals to have golden and tin parachutes submitted for shareholder ratification.

Review on a case-by-case basis all proposals to ratify or cancel golden or tin parachutes.

Employee Stock Ownership Plans (ESOPs)

Vote for proposals that request shareholder approval in order to implement an ESOP or to increase authorized shares for existing ESOPs, except in cases when the number of shares allocated to the ESOP is "excessive" (i.e., generally greater than five percent of outstanding shares).

401(k) Employee Benefit Plans

Vote for proposals to implement a 401(k) savings plan for employees.

IX. State of Incorporation

Voting on State Takeover Statutes

Review on a case-by-case basis proposals to opt in or out of state takeover statutes (including control share acquisition statutes, control share cash-out statutes, freezeout provisions, fair price provisions, stakeholder laws, poison pill endorsements, severance pay and labor contract provisions, antigreenmail provisions, and disgorgement provisions).

Voting on Reincorporation Proposals

Proposals to change a company's state of incorporation should be examined on a case-by-case basis.

X. Mergers and Corporate Restructurings

Mergers and Acquisitions

Votes on mergers and acquisitions should be considered on a case-by-case basis, taking into account at least the following: anticipated financial and operating benefits; offer price (cost vs. premium); prospects of the combined companies; how the deal was negotiated; and changes in corporate governance and their impact on shareholder rights.

Corporate Restructuring

Votes on corporate restructuring proposals, including minority squeezeouts, leveraged buyouts, spinoffs, liquidations, and asset sales should be considered on a case-by-case basis.

Spinoffs

Votes on spinoffs should be considered on a case-by-case basis depending on the tax and regulatory advantages, planned use of sale proceeds, market focus, and managerial incentives.

Asset Sales

Votes on asset sales should be made on a case-by-case basis after considering the impact on the balance sheet/working capital, value received for the asset, and potential elimination of diseconomies.

Liquidations

Votes on liquidations should be made on a case-by-case basis after reviewing management's efforts to pursue other alternatives, appraisal value of assets, and the compensation plan for executives managing the liquidation.

Appraisal Rights

Vote for proposals to restore, or provide shareholders with, rights of appraisal.

Changing Corporate Name

Vote for changing the corporate name.

XI. Mutual Fund Proxies

Election of Directors

Vote the election of directors on a case-by-case basis, considering the following factors: board structure; director independence and qualifications; and compensation of directors within the fund and the family of funds attendance at board and committee meetings.

Votes should be withheld from directors who:

- Attend less than 75 percent of the board and committee meetings without a valid excuse for the absences. Valid reasons include illness or absence due to company business. Participation via telephone is acceptable. In addition, if the director missed only one meeting or one day's meetings, votes should not be withheld even if such absence dropped the director's attendance below 75 percent
- Ignore a shareholder proposal that is approved by a majority of shares outstanding
- Ignore a shareholder proposal that is approved by a majority of the votes cast for two consecutive years
- Are interested directors and sit on the audit or nominating committee
- Are interested directors and the full board serves as the audit or nominating committee or the company does not have one of these committees

Converting Closed-end Fund to Open-end Fund

Vote conversion proposals on a case-by-case basis, considering the following factors: past performance as a closed-end fund; market in which the fund invests; measures taken by the board to address the discount; and past shareholder activism, board activity, and votes on related proposals.

Proxy Contests

Vote proxy contests on a case-by-case basis, considering the following factors: past performance; market in which fund invests; and measures taken by the board to address the Issues past shareholder activism, board activity, and votes on related proposals.

Investment Advisory Agreements
