RIVERVIEW BANCORP REPORTS RECORD FIRST QUARTER PROFITS OF \$2.8 MILLION,  
OR \$0.25 PER DILUTED SHARE

-----

Vancouver, WA - July 17, 2007 - Riverview Bancorp, Inc. (NASDAQ GSM: RVSB) today reported excellent core deposit growth and continued excellent credit quality for the first fiscal quarter of 2008 ended June 30, 2007. We have 525,000 shares remaining to be purchased under the current Repurchase Plan announced June 21, 2007."

### OPERATING RESULTS

In the first fiscal quarter of 2008, net interest income decreased 2% to \$8.8 million compared to \$9.0 million in the first fiscal quarter a year earlier reflecting the impact of the increase in funding costs. Non-interest income increased 9% to \$2.3 million for the quarter, compared to \$2.1 million a year ago, primarily due to fees and service charges which increased 7% to \$1.4 million from the year ago period, and fee income from Riverview Asset Management Corp., which increased 26% to \$548,000 for the quarter.

For the first quarter of fiscal 2008, the net interest margin was 4.83% compared to 4.95% in the previous linked quarter and 5.23% in the first fiscal quarter a year ago. "As the yield curve remains a challenge for us as well as the entire banking industry, we expect our margin to continue to be under pressure during the second half of the calendar year," said Ron Wyseske, President and COO.

Non-interest expenses were \$6.8 million in the first quarter of fiscal 2008, in line with expenses in the first quarter of fiscal 2007. The efficiency ratio increased 10 basis points to 60.93% for the first quarter, compared to 60.83% in the first quarter a year ago. "Last year we increased our infrastructure to accommodate expanding our franchise in Southwest Washington and into Oregon," said Wyseske.

### BALANCE SHEET GROWTH

Riverview increased its total assets 5% to \$832 million at the end of June 2007, compared to \$793 million a year ago. Total deposits increased 14% to \$692 million at the end of June 2007 compared to \$607 million at the end of June 2006. Core deposits, defined as all deposits excluding certificates of deposit, increased 25% over the past year to \$511 million, and represents 74% of total deposits. "Although we are in a very competitive market for deposit gathering, we have been very successful at growing core deposits to fund our loan growth," Wyseske said. "Non-interest checking balances represent 12% of total deposits and interest checking balances represent 23% of total deposits."

"The economy in Southwest Washington and Portland, Oregon generates strong demand for business loans, but we are seeing indications that the pace of growth may be moderating," Wyseske said. "We have been tightening our lending standards; and our goal is to maintain excellent credit quality while keeping our loan portfolio well diversified." Net loans increased slightly to \$663 million at June 30, 2007, compared to \$659 million a year ago. Commercial and construction loans account for 89% of the total loan portfolio, similar to last year. The following table breaks out loans by category:

### CREDIT QUALITY AND PERFORMANCE MEASURES

Riverview does not make sub-prime residential real estate loans. Therefore, it has not been affected by the increasing level of delinquencies and defaults that have occurred recently nationwide.

Riverview's 2008 fiscal first quarter return on average assets improved to 1.39%, compared to 1.36% for the first quarter of fiscal 2007. Return on average equity was 11.16% for the quarter, compared to 11.18% for the same quarter last year.
