Comments on Sales Performance

Gross sales
reached R\$ 2.7
billion in the 3rd
quarter

In the 3rd quarter of 2002, gross sales of Companhia Brasileira de Distribuicao totaled R\$ 2,724.2 million and net sales R\$ 2,307.5 million, representing a growth of, respectively, 25.1% and 25.3% in comparison to the same period of last year.

In the first 9 months of the year, the Company registered gross sales of R\$ 7,749.9 million and net sales of R\$ 6,564.7 million, representing growth rates of 14.3% and 14.6%, respectively.

Annualizing the sales of the stores acquired from the chains Se Supermercados and Comprebem, i.e., considering these stores' sales since the beginning of the year, the growth rates would have been 21.9% for the gross sales and 22.1% for the net sales in the first nine months of 2002.

Same stores sales
grew 5.2%

Even with the turmoil verified in the political and economic scenario and the resulting downturn in the consumers' confidence level, CBD registered a same store sales growth of 5.2% in the 3rd quarter, accumulating 2.2% in the year.

In the quarter, same stores sales of food

products increased 4.7%, while non-food products registered an increase of 8.0%. In the year, these accumulated performances were of 3.0% and -0.3%, respectively.

All the Divisions presented positive performance in the quarter and we highlight the two-digit growth registered by the Barateiro Division, the excellent performance of the Extra hypermarkets and the success of the anniversary of the Pao de Acucar Division in August.

Comments on the Results

Gross margin
of 29.0% in the
quarter

CBD's gross profit increased 26.7% in the quarter, reaching R\$ 668.9 million, which represented a gross margin of 29.0%, above the 28.7% registered in the same period of the previous year. In the first nine months of 2002, the gross profit increased 17.2%, reaching the amount of R\$ 1,868.7 million and a margin of 28.5% (27.8% in the same period of 2001).

This margin increase was due to efficiency gains, from which we can highlight the shrinkage reduction, from 1.6% to 1.3%; to an improvement in category management; and to better negotiations with our suppliers, reflecting scale gains obtained in the last few years and the restructuring of CBD's commercial area in 2001.

In the quarter, the operating expenses increased 25.9%, totaling R\$ 477.5 million or 20.7% of the net sales (20.6% in the 3rd quarter of 2001). In the first 9 months, the operating expenses added R\$ 1,328.0 million, equivalent to 20.2% of the net sales in the period.

Non-recurring
expenses of R\$ 8.7
million

We note that the third quarter was marked by the integration of the Se Supermercados chain (acquired on June 30, 2002), which generated extraordinary expenses in the amount of R\$ 8.7 million. These non-recurring items arose mainly from the recognition of pre-operating expenses previously deferred by Se, severance payments and from the termination of technology and consulting contracts of the acquired chain.

If we exclude the extraordinary expenses, the total operating expenses grew 23.6% in the quarter and 15.1% in the first nine months, respectively 20.3% and 20.1% of the net sales.

EBITDA margin,
without
extraordinary
expenses, reached
8.7%

The third quarter EBITDA amounted to R\$ 191.4 million, representing a growth of 28.7% and a 8.3% margin. In the first 9 months, the EBITDA reached R\$ 540.7 million, which represented a growth of 20.4% and a 8.2% margin. If we do not consider the non-recurring expenses with Se, CBD's EBITDA registered a growth of 34.5% in the quarter and 20.5% in the first nine months, with

margins of 8.7% and 8.4%, respectively.

CBD does not have
exposure to
currency variations

In the third quarter of the year, the financial income amounted to R\$ 132.4 million, growing 26.6%, mainly due to a cash position, superior to that of the same period of 2001. The financial expenses of the quarter totaled R\$ 170.4 million, above the R\$ 113.1 million registered in the 3rd quarter of 2001, due to the increase in the cost of short-term loan funding, assumption of debts of Se at the end of the 2nd quarter to the amount of R\$ 124.4 million, as well as to non-recurring expenses of R\$ 18.8 million which originated from the Se's financial cleansing.

It is worth mentioning that CBD does not have exposure to the effects of the currency variations, as since 1999 the Company has had a rule of adopting swap mechanisms for CDI (Interbank rate) in its debt in foreign currency. The expense with currency variation, of R\$ 4.5 million in the quarter and of R\$ 13.4 million in the first nine months, refers to the amortization of part of the currency loss deferred in the 1st quarter of 1999.

The financial result was negative in R\$ 42.5 million in the quarter and in R\$ 60.2 million in the 9 months, against, respectively, R\$ 13.0 million and R\$ 30.3 million in the same periods of 2001.

Net Income of R\$ 142.6
million in the
year (accumulated)

The net income of the quarter was R\$ 36.2 million, 13.5% below the result calculated for the same period of 2001. Excluding the extraordinary expenses with Se, CBD's net profit was of R\$ 63.7 million, representing a growth of 52.2% compared to the 3rd quarter of 2001.

In the first 9 months, CBD's net income reached R\$ 142.6 million (R\$ 135 million in the same period of 2001), or R\$ 170.1 million excluding the extraordinary items (growth of 26.0% over the first nine months of 2001).

Improvements in
the working capital
management

Again, CBD presented improvements in the management of the working capital, reflecting the ripening of the investments made in the distribution's centralization and the positive effects of the organizational restructuring which occurred in the Company

in 2001, through which the Commercial Area focused more on the negotiations with suppliers and with CBD's Business Units being responsible by the category management.

Inventory turnover of the quarter was 37.5 days and average payment terms with suppliers reached 42.7 days, against 39.6 and 38.0 days, respectively, in the same period of 2001.

The investments totaled R\$ 158.3 million in the 3rd quarter

In the 3rd quarter of 2002, the investments made by CBD, excluding acquisitions, totaled R\$ 158.3 million, against R\$ 138.9 million in the same period of 2001. In the first nine months of 2002, the investments accumulated R\$ 467.1 million (R\$ 369.3 million in the same period of 2001). It is worth mentioning that the Company anticipated some investments scheduled for 2003, directed mainly to store remodeling, technology, acquisition of land and distribution.

The main highlights of the quarter were:

- (i) the opening of 2 new Extra stores (1 in Brasilia and the other in Goiania) and 1 Pao de Acucar store in Curitiba;
- (ii) the construction of 2 hypermarkets Extra (Jaguare and Freguesia do O) that are due be opened in the beginning of December and of 7 supermarkets (6 Barateiro and 1 Pao de Acucar);
- (iii) the remodeling of 13 stores of the Pao de Acucar Division (including the full reconstruction of the first Pao de Acucar store, in Sao Paulo, reopened on October 15); 18 Barateiro stores and 4 Extra stores;
- (iv) integration and refurbishment of the stores acquired from Se chain and of the stores reintegrated from Comprebem chain;
- (v) the acquisition of strategic plots of land;
- (vi) the opening of a new distribution center in Recife;
- (vii) Investments in information technology,

database and software.
