PRESS RELEASE

TELECOM ITALIA: AGREEMENT REACHED WITH TELE2 FOR THE SALE OF BBNED

*Rome, 16 July 2010*

Telecom Italia announces that it has reached an agreement with Tele2 for the sale of BBNed.

BBNed is a provider of fixed line telecommunication services in the Netherlands, active in the retail, business and wholesale segments. BBNed operates on the business market with its brand Bbeyond and on the consumer market with its brands Alice and InterNLnet.

Tele2 will pay in cash 50 million euro (SEK 475 million) on a cash and debt free basis. Completion is expected following approval from Competition authorities in the Netherlands.

The disposal of BBNed, which is consistent with the intention of Telecom Italia of refocusing on its core markets, will be substantially neutral at the P&L consolidated level.

Morgan Stanley acted as exclusive financial advisor to Telecom Italia in this transaction.

Cautionary Statement for Purposes of the "Safe Harbor" Provisions of the United States Private Securities Litigation Reform Act of 1995.

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward - looking statements. The press release included in this Form 6-K contains certain forward -looking statements. Forward-looking statements are statements that are not historical facts and can be identified by the use of forward-looking terminology such as "believes," "may," "is expected to," "will," "will continue," "should," "seeks" or "anticipates" or similar expressions or the negative thereof or other comparable terminology, or by the forward- looking nature of discussions of strategy, plans or intentions.

Actual results may differ materially from those projected or implied in the forward-looking statements. Such forward-looking information is based on certain key assumptions which we believe to be reasonable but forward-looking information by its nature involves risks and uncertainties, which are outside our control, that could significantly affect expected results.

The following important factors could cause our actual results to differ materially from those projected or implied in any forward-looking statements:

1. the continuing impact of increased competition in a liberalized market, including competition from established

domestic competitors and global and regional alliances formed by other telecommunications operators in our core Italian domestic fixed-line and wireless markets;

2. our ability to restructure our organizational model from one based on technology (fixed and mobile) to one based on customer segments (consumers, SOHOs, SMEs, Corporates) in order to focus on customers and their needs in utilizing our products and services;

3. our ability to utilize our relationship with Telefónica to attain synergies primarily in areas such as network, IT, purchasing, sales activities in Germany and international mobile roaming;

4. our ability to introduce new services to stimulate increased usage of our fixed and wireless networks to offset declines in the traditional fixed-line voice business due to the continuing impact of regulatory required price reductions, market share loss, pricing pressures generally and shifts in usage patterns;

5. our ability to successfully implement our internet and broadband strategy both in Italy and abroad;

6. our ability to successfully achieve our debt reduction targets;

7. the impact of regulatory decisions and changes in the regulatory environment in Italy and other countries in which we operate;

8. the impact of economic development generally on our international business and on our foreign investments and capital expenditures;

9. our services are technology-intensive and the development of new technologies could render such services non-competitive;

10. the impact of political and economic developments in Italy and other countries in which we operate;

11. the impact of fluctuations in currency exchange and interest rates;

12. our ability to successfully implement our strategy over the 2010-2012 period;

13. our ability to build up our business in adjacent markets (pay-TV and IT services) and in international markets (particularly Brazil in mobile telecommunications and Europe-Germany-in BroadBand), due to our specialist and technical resources;

14. our ability to achieve the expected return on the investments and capital expenditures we have made and continue to make in Brazil on mobile and in Europe on BroadBand;

15. the amount and timing of any future impairment charges for our licenses, goodwill or other assets; and 16. the outcome of litigation, disputes and investigations in which we are involved or may become involved.

The foregoing factors should not be construed as exhaustive. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof. We undertake no obligation to release publicly the result of any revisions to these forward-looking statements which may be made to reflect events or circumstances after the date hereof, including, without limitation, changes in our business or acquisition strategy or planned capital expenditures, or to reflect the occurrence of unanticipated events.
