News Release

November 17, 2005

US GAAP accounts □ six-month period ended September 30, 2005

Pursuant to the listing of its American Depositary Shares (ADSs) on the New York Stock Exchange (NYSE), ICICI Bank Limited (NYSE: IBN) annually publishes US GAAP financial statements. As part of the process for its proposed ADS offering, ICICI Bank has prepared US GAAP accounts for the six-month period ended September 30, 2005 (H1-2006). These condensed consolidated financial statements have been reviewed by KPMG.

The net income as per US GAAP for H1-2006 was Rs. 773 crore (US\$ 176 million) compared to a net income of Rs. 278 crore (US\$ 63 million) for the six-month period ended September 30, 2004 (H1-2005). ICICI Bank's stockholders' equity at September 30, 2005 as per US GAAP was Rs. 13,112 crore (US\$ 2.98 billion).

As stated in the Bank's earlier press releases dated April 25, 2003, June 28, 2003, May 22, 2004, March 11, 2005 and April 30, 2005, there are significant differences in the basis of accounting between US GAAP and Indian GAAP. In the merger of erstwhile ICICI Limited (ICICI) with ICICI Bank, the Bank was the legal acquirer. Under Indian GAAP, the Bank is the accounting acquirer. Under US GAAP, ICICI is deemed to have acquired ICICI Bank. Therefore, the financial statements under US GAAP and Indian GAAP for the Bank are not comparable and these differences are expected to continue in future years. ICICI's assets were fair valued while accounting for the merger under Indian GAAP. The primary impact of the fair valuation was the creation of additional provisions against ICICI's loan and investment portfolio, reflected in the Indian GAAP balance sheet at March 31, 2002. Under US GAAP, ICICI Bank's assets were fair valued while accounting for the merger. There is also a difference in the basis of computation of

Edgar Filing: ICICI BANK LTD - Form 6-K

provision for restructured loans under US GAAP, which discounts expected cash flows at contracted interest rates, unlike Indian GAAP, under which current interest rates are used.

The ADS offering is part of the Bank's proposed capital raising exercise comprising a public issue of shares in India and the ADS offering in the United States. While the registration statement filed by the Bank with the United States Securities and Exchange Commission seeks to register up to 118.4 million equity shares as an enabling measure, the final sizes of the Indian offering and the ADS offering respectively will be determined prior to the filing of the Bank's red herring prospectus with the Registrar of Companies in India, and will take into account foreign ownership restrictions and regulatory approvals.
