Filed pursuant to Rule 433 | Registration Statement Nos. 333-162219 and 333-162219-01

RBS Exchange Traded Notes

RBS NASDAQ-100([R]) Trendpilot[] ETN (TNDQ)

The RBS NASDAQ-100([R]) Trendpilot[] Exchange Traded Notes ("RBS ETNs") are unsecured and senior obligations of The Royal Bank of Scotland plc ("RBS plc"), and are fully and unconditionally guaranteed by The Royal Bank of Scotland Group plc ("RBS Group"). Any payments on the RBS ETNs when they become due at maturity or upon early repurchase or redemption are dependent on the ability of RBS plc and RBS Group to pay, and are also subject to market risk.

The RBS ETNs track the RBS NASDAQ-100([R]) Trendpilot[] Index (USD) (the "Index"). The Index utilizes a systematic trend-following strategy to provide exposure to either the NASDAQ-100([R]) Total Return Index(SM) (the "Benchmark Index") or the yield on a hypothetical notional investment in 3-month U.S. Treasury bills as of the most recent weekly auction (the "Cash Rate"). The Index is designed to provide exposure to the Benchmark Index in positive trending markets and exposure to the Cash Rate in negative trending markets using an objective and transparent methodology.

RBS NASDAQ-100([R]) Trendpilot([]) Index Methodology

If the closing level of the Benchmark Index is at or above its historical 100-Index business day simple moving average for []ve consecutive Index business days

A positive trend is established:
The Index will track the Benchmark Index

If the closing level of the Benchmark Index is below its historical 100-Index business day simple moving average for []ve consecutive Index business days

A negative trend is established:
The Index will track the Cash Rate

If neither of the above conditions is satis[]ed, the trend of the Index will be the same as the trend of the Index on the immediately preceeding Index business day. The Index will implement any trend reversal at the open of trading on the second Index business day immediately following the Index business day on which the Index trend switches from positive to negative or from negative to positive, as the case may be.

Hypothetical Benchmark Index

Hypothetical 100-Index business day simple moving average

The RBS NASDAQ-100([R]) Trendpilot[] Index will alternate between tracking the Benchmark Index and the Cash Rate, depending on the performance of the Benchmark Index relative to its 100-Index business day simple moving average (as described above).

Edgar Filing: ROYAL BANK OF SCOTLAND GROUP PLC - Form FWP

(1) The table above does not reflect any Trendpilot Index performance. The Trendpilot Index performance is not the same as the NASDAQ-100 Total Return Index(SM) performance. The Trendpilot Index may underperform the NASDAQ-100 Total Return Index(SM) over various time periods, and may track the Cash Rate for extended periods of time in a low interest rate environment.

CERTAIN RISK CONSIDERATIONS: The RBS ETNs involve risks not associated with an investment in conventional debt securities, including a possible loss of some or all of your investment. The level of the Index must increase by an amount sufficient to offset the aggregate investor fee applicable to the RBS ETNs in order for you to receive at least the principal amount of your investment back at maturity or upon early repurchase or redemption. The Index may underperform the Benchmark Index, and is expected to perform poorly in volatile markets. Liquidity of the market for RBS ETNs may vary over time. The RBS ETNs are not principal protected and do not pay interest. Any payment on the RBS ETNs is subject to the ability of RBS plc, as the issuer, and RBS Group plc, as the guarantor, to pay their respective obligations when they become due. You should carefully consider whether the RBS ETNs are suited to your particular circumstances before you decide to purchase them. We urge you to consult with your investment, legal, accounting, tax and other advisors with respect to any investment in the RBS ETNs.

The RBS ETNs are not suitable for all investors. You should carefully read the relevant pricing supplement and prospectus, including the more detailed explanation of the risks involved in any investment in the RBS ETNs as described in the "Risk Factors" section of the pricing supplement, before investing.

IMPORTANT INFORMATION: The Royal Bank of Scotland plc (RBS plc) and The Royal Bank of Scotland Group plc (RBS Group) have filed a registration statement (including a prospectus) with the U.S. Securities and Exchange Commission (SEC) for the offering of RBS ETNs to which this communication relates. Before you invest in any RBS ETNs, you should read the prospectus in that registration statement and other documents that have been filed by RBS plc and RBS Group with the SEC for more complete information about RBS plc and RBS Group, and the offering. You may get these documents for free by visiting EDGAR on the SEC's web site at www.sec.gov. Alternatively, RBS plc, RBS Securities Inc. (RBSSI) or any dealer participating in the offering will arrange to send you the prospectus and the pricing supplement at no charge if you request it by calling 1-855-RBS-ETPS (toll-free).

NASDAQ, OMX, NASDAQ OMX, NASDAQ-100, NASDAQ-100 Index and NASDAQ-100 Total Return Index(SM) are registered trademarks and service marks of The NASDAQ OMX Group, Inc. and are licensed for use by RBS plc.

The Index is the property of RBS plc. RBS plc has contracted with The NASDAQ OMX Group, Inc. (which with its affiliates and subsidiaries is referred to as the "Corporations") to calculate and maintain the Index, either directly or through a third party. Currently, the Index is calculated and maintained by Standard & Poor's ("S&P") on behalf of The NASDAQ OMX Group, Inc. S&P and the Corporations shall have no liability for any errors or omissions in calculating the Index. The RBS ETNs, which are based on the Index, have not been passed on by the Corporations or S&P as to their legality or suitability and are not sponsored, endorsed, sold or promoted by the Corporations or S&P. THE CORPORATIONS AND S&P MAKE NO WARRANTIES AND BEAR NO LIABILITY WITH RESPECT TO THE RBS ETNS.

Cash rate on 12/31/11 was 0.025%	--	--

The table above presents the actual performance of the Index, the RBS ETNs and the NASDAQ-100([R]) Total Return Index(SM) (the Benchmark Index) over the specified periods. For information regarding performance of the Index, see pages PS-40 to PS-44 of the pricing supplement to the RBS ETNs [file with the U.S. Securities and Exchange Commission (SEC)]. Past performance does not guarantee future results.

(1) Includes the deduction of the annual investor fee, which accrues on a daily basis. The annual will be equal to (i) 1.00% per annum when the Index is tracking the Benchmark Index, and (ii) 0.5% per annum when the Index is tracking the Cash Rate. (2) Based on daily returns. Standard deviation is a measure of volatility and illustrates the extent of variation (whether higher or lower) that exists from a set of results. A low standard deviation indicates that the results tend to be very close to the mean (a low degree of volatility). In contrast, a high standard deviation indicates that the results are a large range of outcomes (a high degree of volatility).
