ADVANCED SEMICONDUCTOR ENGINEERING INC Form 6-K July 19, 2013

#### FORM 6-K

# SECURITIES AND EXCHANGE COMMISSION Washington, D.C. 20549

Report of Foreign Private Issuer

Pursuant to Rule 13a-16 or 15d-16 of the Securities Exchange Act of 1934

July 19, 2013

Commission File Number 001-16125

Advanced Semiconductor Engineering, Inc. (Exact name of Registrant as specified in its charter)

26 Chin Third Road
Nantze Export Processing Zone
Kaoshiung, Taiwan
Republic of China
(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

\_\_\_\_

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submitted to furnish a report or other document that the registrant foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's "home country"), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and, if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No X

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): Not applicable

Signatures	Si	na	tu	res
------------	----	----	----	-----

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Of

#### 2013 Annual Shareholders' Meeting

Of

# Advanced Semiconductor Engineering, Inc. (Translation)

1. Time: 10:00AM, Wednesday, June 26, 2013

- 2. Place: Zhuang Jing Auditorium, 600 Jiachang Rd., Nantz Processing Export Zone, Nantz District, Kaohsiung City
- 3.Total shares represented by shareholders and proxy present 6,096,792,934 shares(including exercised by Present:way of electronic transmission 2,578,251,685 shares) is 81.68% of total outstanding shares of ASE 7,463,933,195 shares (excluding the shareholders who had no voting right stipulated in Company Law)
- 4. Chairperson's Remarks: (To be omitted)
- 5. Status Reports
- (1) 2012 Business Report (See Attachment)
- (2) Report by supervisors on review of the 2012 financial statements. (See Attachment )
- (3) Report on total amount for endorsement, guarantee and amount of loans to third parties.
- (4) The effect of the first adoption of IFRS on unappropriated earnings and special surplus reserve report.
- (5) Report on the implementation of the privately offered foreign convertible corporate bonds passed in the 2012 shareholders meeting.
- (6) The Company amended the Proceedings of Board of directors Meetings. (See Attachment )
- 6. Matters for Ratification

Case 1 (proposed by the Board of Directors)

Proposal: 2012 final accounts for your recognition.

Explanation: 1. The Company's 2012 financial statements have been audited and attested

-1-

by Deloitte & Touche and reviewed by the Supervisors.

2. Please ratify the financial statements (see Attachment ) and the 2012 Business Report (see Attachment ).

Resolution: Voting results: Ratify 4,642,460,100 shares (including exercised by way of electronic transmission 1,537,846,591 shares); Oppose 34,008 shares (including exercised by way of electronic transmission 34,008 shares); Abstain from voting 1,040,371,086 shares (including exercised by way of electronic transmission 1,040,371,086 shares). Resolved, that the above proposal be and hereby was approved as proposed.

Case 2 (proposed by the Board of Directors)

Proposal: Please ratify the Company's 2012 proposal for earnings distribution.

Explanation 1. The Board of directors has drafted the Company's 2012 proposal for surplus distribution as shown in the table below in accordance with the applicable laws and the Company's Articles of Incorporation for your ratification.

Advanced Semiconductor Engineering, Inc. 2012 earnings distribution proposal

Item	Amount
Prior year retained earnings	6,756,011,846
Subtract: Unappropriated earnings recorded from cancelled treasury stocks	290,022,973
Add: Current year gross profit	13,091,359,427
Subtract: Provision for 10% statutory surplus reserve	1,309,135,943
Subtract: Provision for special surplus reserve	309,991,832
Current year earnings to be distributed	17,938,220,525
Items for distribution:	
Dividends (Note 1)	7,987,973,811
Current year retained earnings	9,950,246,714

#### Remarks:

NT\$228,000,000 to be distributed for Director and Supervisor remuneration NT\$1,147,223,000 to be distributed for employee bonuses, all in cash

President: Jason C.S. Chang Manager: Richard H.P. Chang Accountant Manager: Joseph Tung

NoteA total of NT\$7,987,973,811 is distributed as dividends, NT\$1.05 per 1:

-2-

share, all of which will be distributed in cash. The above distribution of dividends to shareholders and the cash and stock dividend distribution rates are calculated based on the number (7,607,594,106) of shares recorded in the Register of Shareholders as of March 28, 2013. Later, if the Company's ECB holders exercise the right of conversion, or new shares issued to employees against Employee Stock Option warrant, or new shares issued by the Company for a cash capital increase, or buyback of the Company's stocks, or transfer or cancellation of the Company's treasury stocks, which affect the cash distribution rate of the shareholders' bonus, requiring adjustment, the management will request the shareholders' meeting to authorize the board of directors to handle the situation and make adjustments accordingly.

NoteIn response to the introduction of an integrated income tax system, earnings of the most recent year 2: will be distributed this time.

2. Basis date for dividend distribution: The board of directors is authorized to set the date after it is passed at the shareholders meeting.

Resolution: Voting results: Ratify 4,642,271,819 shares (including exercised by way of electronic transmission 1,537,658,308 shares); Oppose 223,801 shares (including exercised by way of electronic transmission 223,801 shares); Abstain from voting 1,040,369,576 shares (including exercised by way of electronic transmission 1,040,369,576 shares). Resolved, that the above proposal be and hereby was approved as proposed.

-3-

#### 7. Matters for Discussion

Case 1 (proposed by the Board of Directors)

Proposal: To discuss whether to consecutively or simultaneously select one of or combine cash capital increase by issuing common shares and GDR, domestic cash capital increase by issuing common shares, and privately offered foreign convertible corporate bonds.

Explanation: To finance future capacity expansion, provide for working capital increases, repay bank loans, or cope with other needs for funds in the longer term, the Company is urged to authorize the board of directors to consecutively or simultaneously select one of or combine issuing GDRs through cash capital increases, conducting domestic cash capital increases by issuing common shares, and privately offering foreign convertible corporate bonds according to articles of incorporation, relevant regulations and the following rules.

- 1. The principles to issue new common shares and GDR for capital increase in cash shall be as follows:
  - (1) This capital increase by issuing common shares and GDR shall not exceed 500 million shares with the board of directors authorized to decide how many shares to be issued depending on market circumstances.
  - (2) The price at which shares are issued via issuance of GDRs through cash capital increases shall not fall below 90% of the simple arithmetic mean of the share's closing price on the date the issue price is set and its closing price one, three or five days prior to the price-setting date after adjustment for any distribution of stock dividends (or cancelled shares for capital reduction) as per "Self-imposed Rules Governing Underwriters Assisting Companies in Issuing Securities" announced by Taiwan Securities Association. If relevant regulations change, the pricing method may be changed accordingly. As share prices often fluctuate substantially in a short time, the president is authorized to set the issue price by following international practices after consulting the underwriter and considering international capital markets' circumstances, domestic market prices, and the book building status. The GDR's issue price is decided based on the fair market price of the company's common stock. Original shareholders who did not participate in the offering, if for the purpose of maintaining shareholding structure, may purchase common stock in Taiwan's stock market at a price close to the GDR's issue

-4-

price without having to assume exchange and liquidity risks. In addition, shares issued via issuance of GDRs through cash capital increases will dilute the original shareholders' equity to a maximum of 6.57%, not a major impact on shareholders' rights and interests.

- (3) 10%~15% of common shares issued for this capital increase in cash shall, according to Article 267 of The Company Act, be reserved for subscription by company employees and the shareholders meeting will be requested to fully appropriated the remaining 85%~90% for open issuance as the securities for GDR as the original shareholders have waived their rights for subscription in accordance with Article 28-1 of the Securities Exchange Act. For the part that employees have not subscribed, the president is authorized to contact specific party for purchase or, depending on the market requirements, list as the original securities for participation in the issuance of GDR.
- (4) The funds raised by shares issued via issuance of GDRs through this cash capital increases shall be used to expanding the factories, purchase equipment, purchase materials overseas, make reinvestments, and/or repay bank loans. Implementation shall be completed within 2 years after the funds are raised. The project is expected to boost the Company's competitiveness, improve its efficiency, and have a positive impact on shareholders' rights and interests.
- (5) The board of directors is authorized to adjust, set, and administer the major contents of the cash capital increase by GDR issuance plan, which includes issuance rules, source of capital, plan items, estimated progress and estimated probable effect generated as well as other matters relevant to the issuance of GDR, according to market conditions. If a cash capital increase must be changed as ordered by the regulatory authority or required by circumstances, the board of directors is authorized to make corresponding changes.
- (6) In conjunction with the issuance method of common shares for this capital increase in cash and participation in GDR issuance, the president or his designated representative is authorized to represent the Company in signing all documents related to the participation in the issuance of GDR as well as handling all needed matters.
- 2. The principles for domestic cash capital increase by issuing common shares:
  - (1) The number of common shares issued for this domestic cash capital increase may not exceed 500 million shares.
  - (2) Face value of shares issued via cash capital increases is NT\$10 per share. The issue price shall be decided by the president after consulting the

underwriter as per "Self-imposed Rules Governing Underwriters Assisting Companies in Issuing Securities" announced by Taiwan Securities Association and market conditions at time of issue and filed with the regulatory authority.

(3) According to Article 28-1 of the Securities Exchange Act, the underwriting method for the publicly offered portion shall be decided by the board of directors as authorized between public subscription and book building.

#### A. If public subscription is selected:

Apart from the 10%~15% of the issued shares to be reserved for employee subscription at the actual issue price according to Article 267 of the Company Act, 10% of the newly issued shares will be publicly offered to comply with Article 28-1 of the Securities Exchange Act, while the remaining 75%~80% will be subscribed by the existing shareholders based on the shareholding percentages on the basis date. For an existing shareholder who holds less than enough shares to subscribe one new share, joint subscription with other shareholders or combined subscription by one person will be allowed; any existing shareholder who does not subscribe authorizes the president to subscribe at the issue price from the designated person.

#### B. If book building is selected:

Apart from the 10%~15% of the issued shares to be reserved for employee subscription at the actual issue price according to Article 267 of the Company Act, the remaining shares will be subject to Article 28-1 of the Securities Exchange Act, and the existing shareholders waive the right to subscribe before the shares all become publicly offered based on the book building method. In addition, if the Company's employees have not subscribed sufficiently and adequately or waived the right to subscribe, the chairman may contact specific party for purchase.

- (4) The rights and obligations associated with the new shares issued for the cash capital increase are identical to those associated with the existing shares.
- (5) The funds raised by common shares issued through this cash capital increases shall be used to expanding the factories, purchase equipment, purchase materials overseas, provide for working capital increase, make reinvestments, and/or repay bank loans. Implementation shall be completed within 2 years after the funds are raised. The project is expected to boost the Company's competitiveness, improve its efficiency,

and have a positive impact on shareholders' rights and interests.

- (6) The board of directors is authorized to adjust, set, and administer the major contents of the cash capital increase plan, which includes issuance rules, source of capital, plan items, estimated progress and estimated probable effect generated as well as other matters relevant to the issuance of GDR, according to market conditions. If a cash capital increase must be changed as ordered by the regulatory authority or required by circumstances, the board of directors is authorized to make corresponding changes.
- (7) Once the plan for cash capital increase in cash is filed with the competent regulatory authority, the president will be authorized to set the base date, payment period, and ex-rights date for new share issue.
- 3. The principles to privately issue foreign convertible corporate bonds:
  - (1) This private offering of foreign convertible corporate bonds is subject to a maximum of NT\$15 billion or the equivalent in foreign currencies. Please see Attachment—for the tentative issue and conversion rules for this private offering of foreign convertible corporate bonds, which will be handled by the board of directors authorized by the shareholders meeting based on the Company's needs for funds or financial market circumstances.
  - (2) Basis and reasonableness of private offering price:

The issue price for the private offering of foreign convertible corporate bonds is set to be not lower than 80% of the formula price referred to in the Directions for Public Companies Conducting Private Placements of Securities. For the actual issue price, the shareholders meeting will be requested to grant the board of directors the authority to set the price according to the law and not below the range approved by the shareholders meeting and depending on current market and company circumstances. The price for this private offering of foreign convertible corporate bonds is set according to the regulations and in consideration of the strict restrictions for transfer timing, recipient, and quantity of the privately offered securities. In addition, the shares converted from the corporate bonds may not be publicly listed for three years of the delivery. The price for this private offering of foreign convertible corporate bonds is deemed to be reasonable under the terms and factors such as weaker liquidity.

(3) Selection method and purpose for designated persons, necessity, and expected benefits:

The offeree selection procedure shall follow the rules under Article 43-6

of the Securities and Exchange Act and the previous order (91) Tai-Cai-Zheng-1 No. 0910003455 on June 13, 2002 from the Securities and Futures Commission of the Ministry of Finance. The purpose for selecting offerees is to introduce strategic investors. A strategic investor refers to an individual or corporate entity that, for the purpose of increasing the Company's profits, assists the Company to enhance technology, improve quality, increase efficiency, and expand market through vertical or horizontal industrial integration or collaboration in product or market development. The selection of offerees shall be decided by the board of directors as authorized by the shareholders meeting. The purpose, necessity, and expected benefits are to meet the demands of the Company's operations by having private offering investors provide the Company with assistance in enhancing technology, improving quality, reducing costs, increasing efficiency, and expanding the market in order to strengthen the Company's competitiveness and improve operational efficiency and long term development.

(4) The necessity, use of funds, and expected benefits:

#### A. Reasons against a public offering:

The choice of a private offering is in support of the Company's future business development and plans to introduce strategic investors and in consideration of the time sensitiveness, convenience, issue costs and shareholder stability provided by a private offering. In addition, privately offered securities are restricted from free transfers under the Securities and Exchange Act, and the rule will ensure a long term partnership between the Company and its strategic investors.

#### B. Maximum amount of private offering:

This private offering of foreign convertible corporate bonds is subject to a maximum of NT\$15 billion or the equivalent in foreign currencies. However, the actual amount of the private offering shall be determined according to the applicable regulations and financial market circumstances at the time. When a convertible corporate bond holder obtains common shares of the Company by exercising the conversion right, the number of shares is calculated based on the conversion price at the time of conversion.

#### C. Use of funds and expected benefits:

This private offering of foreign convertible corporate bonds may be made by the board of directors as authorized by the

shareholders meeting within one year of the passing of the resolution. The raised capital is expected to be used for one or more purposes of capital expenditure, providing for working capital increases, repaying bank loans, and reinvestments. In addition, it is expected that the fund will be completely used within three years after the private offering is completed. The expected benefits include a positive impact on shareholder rights and one or more of strengthened position in the industry, enhanced long term competitiveness, improved financial structure, and savings in interest expenses. However, the actual private offering and the schedule for the use of funds shall depend on the Company's needs for funds, regulations, and financial market circumstances.

(5) Rights and obligations associated with converting corporate bonds to common shares

The rights and obligations associated with the common shares converted from this private offering of foreign convertible corporate bonds are identical to those associated with the existing common shares of the Company. However, the listing and resale of such common shares shall be subject to the rules under the Securities and Exchange Act. Private offerings of foreign convertible corporate bonds shall be conducted in compliance with the letter from the Financial Supervisory Commission of the Executive Yuan, Jin-Guan-Zheng-1 No. 09700513881 on October 21, 2008.

- (6) The private offering plan includes primarily the issue and conversion rules, actual private offering price, private offering terms, plan items, amounts, scheduled progress and expected benefits, and other matters potentially related to the issue plan. The shareholders meeting will be requested to authorize the board of directors to make adjustments at its full discretion according to the Company's financial needs, financial market circumstances, and relevant regulations. The shareholders meeting will also be requested to authorize the board of directors to make modification or correction at its full discretion in response to future changes in regulations, orders from competent authorities, or changes in market circumstances, business assessments, or objective environmental conditions.
- (7) In order to complete the private offering of foreign convertible corporate bonds, the shareholders meeting will also be requested to authorize the chairman of the board of directors or a designated person

-9-

to represent the Company in signing all relevant contracts and documents and complete all subsequent procedures for the Company.

(8) For matters that are not covered herein, the shareholders meeting will be requested to authorize the board of directors to, in accordance with law, proceed at its discretion.

Resolution: Voting results: Ratify 4,313,248,265 shares (including exercised by way of electronic transmission 1,413,475,527 shares); Oppose 115,458,706 shares (including exercised by way of electronic transmission 115,458,706 shares); Abstain from voting 1,049,317,452 shares (including exercised by way of electronic transmission 1,049,317,452 shares). Resolved, that the above proposal be and hereby was approved as proposed.

Case 2 (proposed by the Board of Directors)

Proposal: Please discuss the revised version of the Procedures for Lending Funds to Other Parties.

Explanation: 1. In response to the amendment of the Regulations Governing Loaning of Funds and Making of Endorsements/Guarantees by Public Companies released by the Financial Supervisory Commission on July 6, 2012, the Company's board of directors approved the amendment of the Company's Procedures for Lending Funds to Other Parties on September 27, 2012.

2. Your approval of a comparison of the Procedures for Lending Funds to Other Parties before and after revisions as shown in Attachment is requested.

Resolution: Voting results: Ratify 4,435,059,936 shares (including exercised by way of electronic transmission 1,535,287,198 shares); Oppose 65,318 shares (including exercised by way of electronic transmission 65,318 shares); Abstain from voting 1,042,899,169 shares (including exercised by way of electronic transmission 1,042,899,169 shares). Resolved, that the above proposal be and hereby was approved as proposed.

Case 3 (proposed by the Board of Directors)

Proposal: Please discuss the revised version of the Procedures of Making of Endorsement and Guarantees.

Explanation: 1. In response to the amendment of the Regulations Governing Loaning of Funds and Making of Endorsements/Guarantees by Public Companies

-10-

released by the Financial Supervisory Commission on July 6, 2012, the Company's board of directors approved the amendment of the Company's Procedures of Making of Endorsement and Guarantees on September 27, 2012.

2. Your approval of a comparison of the Procedures of Making of Endorsement and Guarantees before and after revisions as shown in Attachment is requested.

Resolution: Voting results: Ratify 4,435,070,119 shares (including exercised by way of electronic transmission 1,535,297,381 shares); Oppose 55,134 shares (including exercised by way of electronic transmission 55,134 shares); Abstain from voting 1,042,899,170 shares (including exercised by way of electronic transmission 1,042,899,170 shares). Resolved, that the above proposal be and hereby was approved as proposed.

Case 4 (proposed by the Board of Directors)

Proposal: Please discuss the revised version of the Company's Articles of Incorporation.

Explanation: 1. In order to accommodate the Company's operating requirements and to comply with Article 26 of the Corporate Governance Best-Practice Principles for TWSE/GTSM Listed Companies as required by the Financial Supervisory Commission, the dividend distribution method for a special surplus reserve reversal is specified in the Articles of Incorporation. Moreover, in response to the accounting principles to be adopted in 2015 after the IFRS implementation and in consideration of the average percentage of remunerations to the directors and supervisors in the industry and market trends, the Company's board of directors approved the amendment of the Company's Articles of Incorporation on April 8, 2013.

2. Your approval of a comparison of articles of incorporation before and after revisions as shown in Attachment is requested.

Resolution: Voting results: Ratify 4,433,413,603 shares (including exercised by way of electronic transmission 1,533,640,865 shares); Oppose 4,044,134 shares (including exercised by way of electronic transmission 4,044,134 shares); Abstain from voting 1,040,566,686 shares (including exercised by way of electronic transmission 1,040,566,686 shares). Resolved, that the above proposal be and hereby was approved as proposed.

-11-

- 10. Extempore Motions: None
- 11. Meeting Ended: Wednesday, June 26, 2013 at 11:20 a.m.

# Advanced Semiconductor Engineering, Inc. Business Report

The weakening trend of 2011 persisted in the global economy, and the European debt crisis has spread to European countries including Spain and Italy in 2012. The economic recovery in the United States had also slowed down in 2012, while the Chinese economy cooled down to the lowest point in recent years. All of the elements above had a severe impact on the global economy. Taiwan cannot separate itself from the global economy, and its economic performance sustained a significant impact. When combined with the various policy reforms last year, the conditions in Taiwan have become more challenging, and the overall economy has cooled down in terms of both imports and exports. According to the World Semiconductor Trade Statistics (WSTS), the global semiconductor sales fell by 2.7% in 2012. According to the report from the IEK ITIS Project, the semiconductor industry in Taiwan produced an output of NT\$1,634.2 billion in 2012, a growth of 4.6% compared to 2011. In spite of excellent growth in the IC packaging and testing industry from smartphones and tablets, the weak PC sales evened out the performance of the industry as a whole. The output of the packaging industry amounted to NT\$272 billion, a growth of 0.9% compared to 2011. The output of the testing industry amounted to NT\$121.5 billion, a growth of 0.6% compared to 2011. In the face of the harsh, challenging conditions, the Company will exercise caution in meeting the changes in the macro environment. The following is our report on the company's operation for the past year:

"2012 Operating Results"

#### 1. Implementation results for the 2012 business plan

The Company's combined revenues for 2012 were NT\$194 billion, an increase of NT\$8.6 billion and a growth of 4.7% compared to 2011. For semiconductor packaging and testing services, the Company's combined revenue in 2012 was NT\$130 billion, a growth of 1.9%. The revenue from advanced packaging services reached US\$246 million with a quarterly growth of 25% in 2012 Q4; and US\$834 million for the entire year with an annual growth of 27%. The Company's revenue from copper wire bonding was US\$500 million in 2012, and copper wire bonding accounted for 60% of the total revenue as of Q4, far exceeding the industry average of 20%. In spite of the US\$600 million dollar decrease in gold wire bonding revenue, the change in revenue was primarily caused by the larger shift from gold to copper. Therefore, even if the sales volume had remained unchanged, the revenue would have fallen anyway. In addition, the gold price was weak in 2012, leading to lower costs and positive benefits for the Company's profitability.

2. Budget performance

No financial forecast was disclosed in 2012.

#### 3. Analysis of financial accounts and profitability

As of the end of 2012, the Company's paid-in capital was NT\$75,941,496 thousands and shareholders' equity NT\$109,514,885 thousands, accounting for 58% of total assets of NT\$189,000,561 thousands. Its long-term funds are 252% of fixed assets and current ratio 42%. This year's ratios are slightly lower than those in the preceding year,

-13-

but the Company's financial structure and ability to repay debts are relatively sound. This year's operating profit was NT\$10,732,774 thousands, a decrease of NT\$126,358 thousands compared to 2011. Under the overall unfavorable economic conditions, the Company strived for a stable position in the semiconductor packaging and testing services. This year's after-tax net profit rose to NT\$13,091,359 thousands, a 4.6% decrease compared to the previous year. The Company's overall operational performance, compared to the conservative approach in the main areas of business, was satisfactory.

4. R&D Overview

As cloud computing emerges and smart mobile devices such as cell phones and tablets become more popular, the demands of advanced semiconductor chip packaging and testing markets are now a growing trend. The Company continues with the three focuses of product development: Advanced packaging, advanced copper wire bonding and low-pin-count packaging drove the Company's successes and global competitive advantages to be applied in the advanced technologies including 28-nanometer advanced packaging, flip-chip assembly, wafer copper pillar bumps, and 3D packaging. New technologies successfully developed by the Company in 2012 developed are categorized as follows: (1) Flip-chip assembly is extended to 28 nano copper process / nano copper process of wafers with an ultra-low dielectric coefficient with tin and lead-free flip-chip assembly FCBGA / FCCSP and other applications and new mass production. (2) Wire-bond assembly is extended to 28 nano copper / gold wire-bond assembly of wafers with an ultra-low dielectric coefficient and other applications and new mass production, 18 µm copper wire bond assembly. (3) For 3D packaging, 300mm 28 nm 3D stacked flip chip packaging with through silicon vias, RF wireless Wi-Fi + BT + GPS+ FM system module solutions, and integrated microelectromechanical systems. (4) For wafer assembly, tin-silver electroplated lead-free bumps and 40 µm Pitch Cu Pillar Bump. (5) Faced with the eco-friendly product development trends around the world, the Company has adopted a green design strategy, which is built on the basis of eco-friendly packaged products and supported by eco-design in order to begin with product design and introduction of new technology and combine specification considerations such as low pollution, low energy consumption, and water conservation and other environmentally friendly elements as well as operational safety. It is hoped that the products' potential impact on the environment may be considered and the risks be reduced as soon as possible.

"Outline of 2013 Business Plan"

- . Operating policy
- (1) Providing customers with a first-class service (2) creating long-term, stable profits for the Company and customers (3) working with partner firms to jointly create a prosperous future (4) being as flexible as possible in its business dealings.
- 2. Projects sales volume and references
  In light of current industry dynamics, future market demand and ASE's capacity, the projected sales volume for 2013 is as follows:

Item Project Sales
Assembly Approx. 13 billion chips
Test Approx. 1.9 billion chips

-14-

#### Important production and sales policies

The Company's capital expenditures continued to rise in 2012 to allow production capacity and technology to reach the intended levels earlier than expected. As the 28 nm production becomes more mature, the wafer outsourcing services continued to progress toward the 20 nm production while the demand for advanced packaging remained strong. In addition, the copper wire bonding process capability stayed in a leading position, and the Company's long term commitment to technology can be expected to come to fruition. 2013 will be the year in which copper wire bonding's growth base period will exceed that of gold wire bonding. It is expected that the wire bonding revenue will grow in 2013 without being subject to the interference of price changes in gold and copper wire bonding products. As the global economy lost momentum, the demand turned to the age of miniscule profit, which led to changes in the structure of the industry. Integrated device manufacturers (IDMs) would keep releasing relatively mid- and low end packaging and testing orders in order to increase operational efficiency. The Company has the most comprehensive production capacity in this aspect and the closest relationship with IDMs, and so has the best opportunity to reap the benefits. The Company remains optimistic about the outlook of the packaging and testing industry and the growth in the demand of IDM outsourcing packaging and testing and copper process. The Company has been investing a lot of effort in IDMs for years, and IDM clients currently accounts for close to 40% of its revenue. The Company is confident about raising the revenue contribution from IDMs and staying more competitive than the other companies. Meanwhile, the competitive gap between the Company and its competitors will continue to be widened for the copper process.

#### "Development Strategy"

3.

Looking forward to the semiconductor industry in 2013, market instability will remain high, but the demand for advanced production capacity will stay unreduced. In terms of the macroeconomy, though the semiconductor industry's performance fell below expectations in the last two years, Japan and the United States have started to show improvement, and so the risk of Europe and China deteriorating has temporarily been alleviated. As long as there is no major changes in the world, Gartner has proposed that the annual output of the semiconductor industry in 2013 can be expected to reach the target of 4.5%. From a broad perspective, economic conditions and the cycle nature of the packaging and testing industry have always had an impact on the Company's net profit. However, the Company's global strategies of extending the reach of its sales, combining production capacity and products, and entering new markets and helping clients promote sales have proven suitable long term development tactics for the Company's continuing success. It is obvious that the semiconductor industry is sitting at the top of a wave of global technological transformation, and the Company faces opportunities in the transformation process. The Company continued to expand its business and achieved nearly 5% in revenue growth in 2012 compared to the same period last year, reaching yet another record high. The Company is committed to its promises to the shareholders, clients, partners, and employees, which have laid a solid foundation for the Company's growth, especially in the age of mobile communication and business optimization.

-15-

"Impacts of Competition, Legislation and Operating Environment"

Under the current conditions, the worries over the fiscal cliff in the United States continued from last year and the global economy will remain uncertain in 2013. There seems to be no solution for the European debt crisis any time soon. The economic outlook in China is unclear and the major countries around the world will adopt quantitative easing to stimulate their economies, which will indirectly cause uncontrollable hot money flows and inflationary pressure. We cannot afford not to be conservative about the economic performance in 2013. However, after the adjustment period in which demand decreases and inventory increases over the last two years, it is believed that the semiconductor industry will start to grow again in the next few years. The demand for smartphones and tablets in the emerging markets will grow rapidly, which in turn will drive the semiconductor industry forward. We look forward to a stronger relationship of trust and cooperation between the employees and shareholders of the Company in meeting the challenges in the coming year together and sharing the fruit of success.

# Table of Comparison of Proceedings of Board of Directors Meetings Original Provisions Provisions

#### Article 3:

The board of directors meeting shall be convened at least once every quarter.

Board of directors meetings shall be notified to directors and supervisors seven days in advance with the reason indicated. In an emergency, a board of directors meeting may be called at any time.

Items under Paragraph 1, Article 12 of these proceedings shall be listed in the reasons for convening a meeting, except in the case of an emergency or with just cause, and the items may not be raised in the form of an extempore motion.

#### Article 8:

When a board of directors meeting is called, the Finance Department shall have the relevant information ready at hand for the reference of the attending directors. Members of the management team who are not directors may be notified to attend a board of directors meeting depending on the agenda. CPAs, lawyers, or other professionals may be invited to attend a board of directors meeting if necessary.

The chairperson shall announce that the meeting begins when it is time to begin and at least half of the directors are present. If half or more of the directors are not present when it is time to begin a meeting, the chairperson may postpone the meeting. A meeting may be postponed twice. If after two postponements the number of directors present is still insufficient, the chairman may reconvene the meeting by following the procedure under Paragraph 2, Article 3.

#### Article 3:

The board of directors meeting shall be convened at least once every quarter.

Board of directors meetings shall be notified to directors and supervisors seven days in advance with the reason indicated. In an emergency, a board of directors meeting may be called at any time.

According to the Company's Articles of Incorporation, notifications of board of directors meetings may be in writing or via email or fax.

Items under Paragraph 1, Article 12 of these proceedings shall be listed in the reasons for convening a meeting, except in the case of an emergency or with just cause, and the items may not be raised in the form of an extempore motion.

#### Article 8:

When a board of directors meeting is called, the Finance Department shall have the relevant information ready at hand

for the reference of the attending directors.

Members of the relevant departments or subsidiaries may be notified to attend a board of directors meeting depending on the agenda. CPAs, lawyers, or other professionals may be invited to attend a board of directors meeting if necessary, but shall excuse themselves from the discussion and voting process. The chairperson shall announce that the meeting begins when it is time to begin and at least half of the directors are present. If half or more of the directors are not present when it is time to begin a meeting, the chairperson may postpone the meeting. A meeting may be postponed twice. If after two postponements the number of directors present is still insufficient, the chairman may reconvene the meeting by following the procedure under Paragraph 2, Article 3.

#### **Original Provisions**

#### Article 12:

The following items shall be submitted to the board of directors for discussion:

- 1. The Company's business plans.
- 2. Annual and semiannual financial statements.
- 3. Implementation or amendment of internal control mechanisms in accordance with Article 14-1 of the Securities and Exchange Act.
- 4. Implementation or amendment of guidelines for major financial operations including asset acquisition and disposal, trading derivatives, lending funds to other parties, and making of endorsement and guarantees for other parties.
- 5. Making offers, issuances, or private offers of securities with rights to shares.
- 6. Appointment and discharge of financial, accounting, or internal audit supervisors.
- 7. Decisions that require a resolution of the shareholders meeting or the board of directors according to Article 14-3 of the Securities and Exchange Act, other laws or the articles of incorporation or other important matters specified by the competent authorities.

#### Provisions after Revision

#### Article 12:

The following items shall be submitted to the board of directors for discussion:

- 1. The Company's business plans.
- 2. Annual financial statements.
- 3. Implementation or amendment of internal control mechanisms in accordance with Article 14-1 of the Securities and Exchange Act.
- 4. Implementation or amendment of guidelines for major financial operations including asset acquisition and disposal, trading derivatives, lending funds to other parties, and making of endorsement and guarantees for other parties.
- 5. Making offers, issuances, or private offers of securities with rights to shares.
- 6. Appointment and discharge of financial, accounting, or internal audit supervisors.
- 7. Donations to stakeholders and material donations to nonstakeholders. However, charity donations as emergency relief after major natural disasters may be submitted to the next board of directors for recognition.
- 8. Decisions that require a resolution of the shareholders meeting or the board of directors according to Article 14-3 of the Securities and Exchange Act, other laws or the articles of incorporation or other important matters specified by the competent authorities.

The stakeholders under Item 7 refer to the stakeholders specified in the Guidelines Governing the Preparation of Financial Reports by Securities Issuers. Material donations to nonstakeholders refer to a single donation or an annual sum to a single recipient of NT\$100 million or above or of 1% of the net operating revenue or 5% of the paid-in capital indicated in the latest audited financial statements.

The annual sum referred to in the preceding paragraph is based on the year preceding the date of the current board of directors meeting, and the amount previously approved by a board of directors meeting resolution

#### **Original Provisions**

Regarding matters that require a resolution of the board of directors according to Article 14-3 of the Securities and Exchange Act, independent directors shall attend the meetings in person or appoint other independent directors to attend on their behalf. Any objection or reservation expressed by an independent director shall be recorded in the meeting minutes of the board meeting. Any objection or reservation expressed by an independent director who is unable to attend the meeting in person shall be made in writing and in advance, except with just cause, and recorded in the meeting minutes of a board of directors meeting.

#### Article 15:

With respect to matters of which a director or the corporate entity represented by the director is a stakeholder, which may be in conflict with the Company's interest, the director may make comments and answer questions, but may not join the discussion and voting process. In addition, the director shall excuse himself from the discussion and voting process and may not exercise the voting right on the behalf of another director.

A resolution of the Company's board of directors subject to any director who may not exercise the voting right as specified in the preceding paragraph shall be handled according to the rules under Paragraph 2, Article 180 of the Company Act as specified under Paragraph 2, Article 206 of the same act.

#### Article 16:

All meetings of the board of directors shall be recorded in All meetings of the board of directors shall be recorded in the meeting minutes, which shall include detailed accounts of the following items:

- The number (or year), time and location of a meeting.
- 2. The name of the chairman.
- Director attendance, including the names and number of the directors who are attending, on leave, and absent.
- The names and titles of those present. 4.
- The name of the person recording the meeting.

#### Provisions after Revision

may be exempted from the calculation.

Regarding matters that require a resolution of the board of directors according to Article 14-3 of the Securities and Exchange Act, independent directors shall attend the meetings in person or appoint other independent directors to attend on their behalf. Any objection or reservation expressed by an independent director shall be recorded in the meeting minutes of the board of directors meeting. Any objection or reservation expressed by an independent director who is unable to attend the meeting in person shall be made in writing and in advance, except with just cause, and recorded in the meeting minutes of a board of directors meeting.

#### Article 15:

With respect to matters of which a director or the corporate entity represented by the director is a stakeholder, which may be in conflict with the Company's interest, the director shall make comments and answer questions during the discussion in thecurrent board of directions meeting, but may not join the discussion and voting process. In addition, the director shall excuse himself from the discussion and voting process and may not exercise the voting right on the behalf another director.

A resolution of the Company's board of directors subject to any director who may not exercise the voting right as specified in the preceding paragraph shall be handled according to the rules under Paragraph 2, Article 180 of the Company Act as specified under Paragraph 3, Article 206 of the same act.

#### Article 16:

the meeting minutes, which shall include detailed accounts of the following items:

- The number (or year), time and location of a meeting.
- 2. The name of the chairman.
- Director attendance, including the names and number of the directors who are attending, on leave, and absent.
- 4. The names and titles of those present.
- The name of the person recording the meeting.

#### **Original Provisions**

- 6. Items to report.
- 7. Matters for discussion: Resolutions and results of proposals, summary of comments, objections or reserved comments made by the directors, supervisors, experts, and other personnel on record or with written statements, and written comments submitted by independent directors according to Paragraph 2, Article 12.
- 8. Extemporary motions: The name of the proposing member, decision on the proposal and results, summary of comments, objections, or reserved comments made by the directors, supervisors, experts, and other personnel on record or with written statements.
- 9. Other necessary information to be kept on file. Resolutions of the board of directors, except in one of the following circumstances, shall be recorded in the meeting minutes as well as filed with the Market Observation Post System designated by the Financial Supervisory Commission of the Executive Yuan within two days of the board of directors meeting:
- (1)Any objection or reservation expressed by an independent director on record or with written statements.
- (2)Matters not approved by the Company's audit committee but approved by at least two thirds of the directors.

The board of directors's attendance sheet constitutes a part of the meeting minutes and shall be stored for the duration of the Company.

The meeting minutes shall be affixed with the signature or seal of the chairman and the person recording the meeting and distributed to the members of the directors and supervisors within twenty days after the close of the meeting. The meeting minutes shall also be classified as important documents to be stored for the duration of the Company.

The preparation and distribution of the meeting minutes in the first paragraph may be effected by means of electronic transmission.

#### Provisions after Revision

- 6. Items to report.
- 7. Matters for discussion: Resolutions and results of proposals,

summary of comments, names of directors in conflict of interest according to the first paragraph of the preceding article, description of the conflict, the reasons for absence or waived absence from the proceedings, the actual absence, objections or reserved comments made by the directors, supervisors, experts, and other personnel on record or with written statements, and written comments submitted by independent directors according to Paragraph 4, Article 12.

8. Extemporary motions: The name of the proposing member, decision on the proposal and results, summary of comments,

names of directors in conflict of interest according to the first paragraph of the preceding article, description of the conflict, the reasons for absence or waived absence from the proceedings, the actual absence, objections or reserved comments made on record or with written statements.

- 9. Other necessary information to be kept on file. Resolutions of the board of directors, except in one of the following circumstances,
- shall be recorded in the meeting minutes as well as filed with the Market Observation Post System designated by the Financial Supervisory Commission of the Executive Yuan within two days of the board of directors meeting.
- (1) Any objection or reservation expressed by an independent director on record or with written statements.
- (2) Matters not approved by the Company's audit committee but approved by at least two thirds of the directors.

The board of directors's attendance sheet constitutes a part of the meeting minutes, and shall be stored for the duration of the Company.

The meeting minutes shall be affixed with the signature or seal of the chairman and the person recording the meeting and distributed to the members of the directors and supervisors within twenty days after the close of the meeting. The meeting minutes shall also be classified as important documents to be stored for the duration of the Company.

Article 18:

The preparation and distribution of the meeting minutes in the first paragraph may be effected by means of electronic transmission.

Article 18:

Advanced Semiconductor Engineering, Inc.

Financial Statements for the Years Ended December 31, 2012 and 2011 and Independent Auditors' Report

-23-

#### INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders Advanced Semiconductor Engineering, Inc.

We have audited the accompanying balance sheets of Advanced Semiconductor Engineering, Inc. (the "Company") as of December 31, 2012 and 2011, and the related statements of income, changes in shareholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2012 and 2011, and the results of its operations and its cash flows for the years then ended, in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, the requirements of the Business Accounting Law and Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the Republic of China.

We have also audited the consolidated financial statements of the Company and its subsidiaries as of and for the years ended December 31, 2012 and 2011, and have issued an unqualified opinion.

/s/ Deloitte & Touche March 4, 2013

#### Notice to Readers

The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

Advanced Semiconductor Engineering, Inc. and Subsidiaries

Consolidated Financial Statements as of
December 31, 2011 and 2012 and for the
Years Ended December 31, 2010, 2011 and 2012 and
Report of Independent Registered Public Accounting Firm
REPORT OF INDEPENDENT REGISTERED PUBLIC
ACCOUNTING FIRM

-32-

The Board of Directors and Shareholders Advanced Semiconductor Engineering, Inc.

We have audited the accompanying consolidated balance sheets of Advanced Semiconductor Engineering, Inc. (a corporation incorporated under the laws of the Republic of China) and its subsidiaries (collectively, the "Company") as of December 31, 2011 and 2012, and the related consolidated statements of income, changes in shareholders' equity and cash flows for each of the three years in the period ended December 31, 2012, all expressed in New Taiwan dollars. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the auditing standards generally accepted in the Republic of China ("ROC") and the Standards of the Public Company Accounting Oversight Board (United States of America). Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company as of December 31, 2011 and 2012, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2012, in conformity with accounting principles generally accepted in the ROC.

Accounting principles generally accepted in the ROC differ in certain significant respects from accounting principles generally accepted in the United States of America. Information relating to the nature and effect of such differences is presented in Note 32 to the consolidated financial statements.

Our audits also comprehended the translation of New Taiwan dollar amounts into U.S. dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 2 to the consolidated financial statements. Such U.S. dollar amounts are presented solely for the convenience of the readers.

-33-

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States of America), the Company's internal control over financial reporting as of December 31, 2012, based on the criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated April 12, 2013 expressed an unqualified opinion on the Company's internal control over financial reporting.
