Item 2.03. Creation of a Direct Financial Obligation under an Off-Balance Sheet Arrangement of a Registrant

From time to time in the ordinary course of business, Sotheby's Holdings, Inc. or one of its subsidiaries (collectively, the "Company") will guarantee to a consignor a minimum price in connection with the sale of property at auction. The Company must perform under its guarantee only in the event that the property sells for less than the minimum price and, therefore, the Company must pay the difference between the sale price at auction and the amount of the guarantee. If the property does not sell, the amount of the guarantee must be paid, but the Company has the right to recover such amount through the future sale of the property. Generally, the Company is entitled to a share of the excess proceeds if the property under guarantee sells above a minimum price. In addition, the Company is obligated under the terms of certain guarantees to loan a portion of the guaranteed amount prior to the auction. The Company has not had an aggregate loss on its auction guarantees in any year during the last ten years.

As of September 2, 2004, the Company had outstanding auction guarantees totaling approximately \$93.3 million, the property relating to which has a mid-estimate sales price of approximately \$112.8 million. Included in these outstanding auction guarantees is a guarantee entered into on August 27, 2004 for \$65 million, the property relating to which has a mid-estimate sales price of \$79.2 million.
