Rates - TEP's 2004 Rate Review

As previously reported, on June 1, 2004, Tucson Electric Power Company (TEP) filed general rate case information with the Arizona Corporation Commission

Edgar Filing: UNISOURCE ENERGY CORP - Form 8-K

(ACC) as required by the 1999 Settlement Agreement. TEP's filing uses a historical test year ended December 31, 2003 and establishes, based on TEP's standard offer service, that TEP is experiencing a revenue deficiency of \$111 million. TEP's filing does not propose any change in retail rates, and under the terms of the Settlement Agreement, no rate case filed by TEP through 2008 may result in a net rate increase but the Settlement Agreement does stipulate that rates could be decreased.

On June 24, 2005, intervenor testimony in TEP's 2004 rate review was due and several intervenors filed their respective testimony. None of the intervenor testimony filed and received by the company to date proposes to increase or decrease TEP rates; all of the intervenors are recommending that TEP rates remain unchanged. The company has received and reviewed testimony from the following intervenors: the ACC Staff, Residential Utility Consumer Office, Arizonans for Electric Choice and Competition, Phelps Dodge Mining Company and ASARCO, Inc. and Southwest Energy Efficiency Project and Western Resource Advocates.

The ACC administrative law judge has scheduled a procedural conference on July 6, 2005 to evaluate the need for a hearing in the 2004 rate review. The hearing is currently scheduled to begin in September 2005.

Despite the company's position that it has a revenue deficiency and the intervenor testimony recommending no change in rates, the ACC could conclude during this 2004 rate review process that the company should decrease rates; any such determination would be strongly opposed by TEP.
