Item 7.01 Regulation FD Disclosure.

Schlumberger Limited (Schlumberger or the Company) currently reports its results on the basis of two business segments, Oilfield Services and WesternGeco, and by geographical areas within Oilfield Services. As a result of the recent acquisitions of Smith International, Inc. (Smith) and Geoservices, Schlumberger previously announced that Schlumberger will change its primary reporting to product group segments (the Groups), effective with the first quarter of 2011. The Company will also continue to report its results on a geographical basis.

The Groups are as follows:

Reservoir Characterization Group: This group will consist of the principal Technologies involved in the finding and defining of hydrocarbon deposits. These include WesternGeco, Wireline, Well Testing, Schlumberger Information Services, and Data & Consulting Services.

Drilling Group: This group will be comprised of Bits & Advanced Technologies, M-I SWACO, Geoservices, Drilling & Measurements, PathFinder, Drilling Tools & Remedial Services, Dynamic Pressure Management and IPM well construction projects.

Reservoir Production Group: Includes Well Services, Completions and Artificial Lift Technologies together with Subsea and Water and Carbon Services activities, and the production activities of IPM.

The Groups will collectively be referred to as Oilfield Services. Additionally, Schlumberger will also report the distribution business acquired in the Smith transaction as a separate segment.

The above changes will be reflected in the consolidated financial statements and segment reporting beginning in fiscal year 2011, starting with the Form 10-Q for the three months ended March 31, 2011. To provide an additional perspective on these changes, Schlumberger has prepared and furnishes as Exhibit 99.1 to this Form 8-K unaudited pro forma historical consolidated financial information (Pro Forma Information) on the basis of the new reporting structure, giving effect to the acquisitions of Smith and Geoservices as if they had occurred on January 1, 2008.

The Pro Forma Information is based on the historical consolidated statements of income of Schlumberger, Smith and Geoservices. The Pro Forma Information has been adjusted to reflect pro forma events that are directly attributable to the transactions and factually supportable. As such, the Pro Forma Information does not reflect any cost savings, operating synergies or revenue enhancements that the combined companies may achieve as a result of the transactions, the costs to integrate the operations of Schlumberger, Smith and Geoservices, or the costs necessary to achieve these cost savings, operating synergies and revenue enhancements.

The Pro Forma Information has been presented for informational purposes only and is not necessarily indicative of what the combined companies' results of operations would have been had the transactions actually been completed as of January 1, 2008. In addition, the Pro Forma Information does not purport to project the future operating results of the combined companies.

Item 9.01 Financial Statements and Exhibits.
