Notes to Schedule of Investments

(A) Portfolio securities listed on recognized United States or foreign securities exchanges are valued at the last quoted sales price in the principal market where they are traded. Listed securities with no such sales price and unlisted securities are valued at the mean between the current bid and asked prices, if any, from brokers. Short-term investments having maturities of sixty days or less are valued at amortized cost (original purchase cost as adjusted for amortization of premium or accretion of discount) which when combined with accrued interest approximates market value. Securities for which market quotations are not readily available are valued at fair value in good faith by or at the direction of the Board of Directors and considering relevant factors, data and information including, if relevant, the market value of freely tradable securities of the same class in the principal market on which such securities are normally traded. Direct Investments are valued at fair value as determined by or at the direction of the Board of Directors based on financial and other information supplied by the Direct Investment Manager regarding each Direct Investment. Forward currency contracts are valued at the current cost of offsetting the contract. Equity linked securities are valued at fair value primarily based on the value(s) of the security (or securities) underlying, which normally follows the same methodology as the valuation of securities listed on recognized exchanges.

The Fund's investments in China companies involve certain risks not typically associated with investments in securities of U.S. companies or the U.S. Government, including risks relating to (1) social, economic and political uncertainty; (2) price volatility, lesser liquidity and smaller market capitalization of securities markets in which securities of China companies trade; (3) currency exchange fluctuations, currency blockage and higher rates of inflation; (4) controls on foreign investment and limitations on repatriation of invested capital and on the Fund's ability to exchange local currencies for U.S. dollars; (5) governmental involvement in and control over the economy; (6) risk of nationalization or expropriation of assets; (7) the nature of the smaller, less seasoned and newly organized China companies, particularly in China; and (8) the absence of uniform accounting, auditing and financial reporting standards, practices and disclosure requirements and less government supervision and regulation.

* Denotes non-income producing security.

^ Security is deemed worthless.

Illiquid security.

Affiliated issuer (see Note B).

@ The bond contains a feature or option to be converted into common stock.

- (1) A portion or all of the security is on loan. As of January 31, 2011, the market value of the securities loaned was \$61,468,896.
- (2) Security valued at fair value using methods determined in good faith by or at the direction of the Board of Directors.
- (3) Equity linked securities issued by Citigroup Global Markets Holdings.
- (4) Equity linked securities issued by Credit Lyonnais (CLSA).
- (5) Direct investments are generally restricted as to resale and do not have a readily available resale market. On the date of acquisition of each direct investment, there were no market quotations on similar securities, and such investments were therefore valued in good faith by the Board of Directors at fair market value. The securities continue to be valued in good faith by Board of Directors at fair market value as of January 31, 2011.
- (6) The Fund holds a put option which allows the Fund to sell the investment for a value at least equal to the purchase price under certain circumstances.
- (7) Repurchase agreement, dated 01/31/11, due 02/01/11 with repurchase proceeds of \$16,195,005 is collateralized by US Treasury Bill 2.50% due 04/30/15 with a market value of \$16,520,967.

144A Securities restricted for resale to Qualified Institutional Buyers. At January 31, 2011, these restricted securities amounted to \$96,386,796, which represented 12.44% of total net assets.

Fair Value Measurement

The fund has adopted fair valuation accounting standards which establish a definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion in changes in valuation techniques and related inputs during the period. These inputs are summarized in the three broad levels listed below:

Level 1 Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access at the measurement date;

Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active;

Level 3 Inputs that are unobservable.

The following is a summary of the inputs used as of January 31, 2011 in valuing the Fund's investments carried at value:

THE CHINA FUND, INC.
SCHEDULE OF INVESTMENTS (continued)
JANUARY 31, 2011 (Unaudited)

Direct Investments: The Fund may invest up to 25% of the net proceeds from its offering of its outstanding common stock in direct investments. Direct investments are generally restricted and do not have a readily available resale market. Because of the absence of any public trading market for these investments, the The Fund may take longer to liquidate these positions than would be the case for publicly traded securities. Although these securities may be resold in privately negotiated transactions, the prices on these sales could be less than those originally paid by the Fund. Issuers whose securities are not publicly traded may not be subject to public disclosure and other investor protections requirements applicable to publicly traded securities. The value of these securities at January 31, 2011 was \$53,428,082 or 6.9% of the Fund's net asset value. The table below details the acquisition date, cost, and value of the Fund's direct investments as determined by the Board of Directors of the Fund. The Fund does not have the right to demand that such securities be registered.
