QUORUM AND REQUIRED VOTE

The presence, either in person or by properly executed proxy, of the holders of a majority of the outstanding shares of Common Stock of the Company is necessary to constitute a quorum for the purpose of acting on the matters referred to in the Notice of Annual Meeting accompanying this Proxy Statement and any other proposals which may properly come before the Meeting. In the tabulation of votes, proxies marked "abstain" will be counted for the purposes of determining the presence of a quorum and for calculating the number of shares represented at the Meeting but will not be counted as

either affirmative votes or negative votes. So-called broker "non-votes" (i.e., shares held by brokers, fiduciaries or other nominees which are not permitted to vote due to the absence of instructions from beneficial owners) will be deemed to be abstentions and counted solely for quorum purposes.

PROXIES

A stockholder who has given a proxy may revoke it by voting in person at the Meeting, by giving written notice of revocation to the Secretary of the Company or by giving a later dated proxy at any time before voting.

On the matters coming before the Meeting as to which a choice has been specified by a stockholder by means of the ballot on the proxy, the shares will be voted accordingly. If no choice is so specified, the shares will be voted (i) FOR the election of the nominees for director listed in this Proxy Statement and (ii) FOR the selection of KPMG LLP as the Company's independent auditors, all as referred to in Items 1 and 2, respectively, in the Notice of Annual Meeting of Stockholders and as described in this Proxy Statement.

The form of proxy accompanying this Proxy Statement confers discretionary authority upon the named proxyholders with respect to amendments or variations to the matters identified in the accompanying Notice of Meeting and with respect to any other matters which may properly come before the Meeting. As of the date of this Proxy Statement, management of the Company knows of no such amendment or variation or of any matters expected to come before the Meeting which are not referred to in the accompanying Notice of Annual Meeting.

SUBSTITUTED PROXIES

The persons named in the accompanying form of proxy have been selected by the Company's management to act as proxies. A STOCKHOLDER DESIRING TO APPOINT SOME OTHER PERSON (WHO NEED NOT BE A STOCKHOLDER) TO REPRESENT HIM AT THE MEETING MAY DO SO, EITHER BY: (a) striking out the printed names and inserting the desired person's name in the blank space directly above the names so stricken or (b) by completing another proper form of proxy.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee (the "Committee") is composed entirely of non-employee directors. The Committee's principal functions are to establish base salary levels, to determine and measure achievement of corporate and individual goals for the named executive officers and other executive officers on an annual basis, and to select the participants, measure achievement of objectives and determine awards under the 1997 Plan. In addition, the Committee reviews any proposed changes to any benefit plans of the Company such as deferred compensation plans and 401(k) Savings Plans. The Committee's recommendations are subject to the approval of the Board of Directors.

The Committee's goal is to establish a motivational compensation plan for executives that will enable the Company to attract and retain those individuals deemed most qualified to improve and enhance its future performance. The Company currently has three basic elements in the compensation for its executive officers. These elements are (a) base salary compensation, (b) annual incentive compensation and (c) long-term incentive compensation. These elements of compensation recognize both individual and corporate performance. Annual incentive compensation provides awards for performance over a shorter period, while long-term incentive compensation optimizes rewards for performance over a longer term based upon achievement of cumulative earnings. In addition, stock option grants result in a reward when the market value appreciates in relation to the option price.

10

In 1997, the Company retained KPMG LLP to establish the base criteria and performance parameters for all aspects of compensation for each executive officer. On an annual basis, the Committee conducts an evaluation to update the data and establish the objectives for the next year within the guidelines recommended by KPMG LLP in their initial study.

The latest evaluation, performed in December 2000 to set objectives for fiscal 2001, included a review of compensation policies of companies similar to the Company in size, industry and geographic location. To the greatest extent possible, the survey included some of the companies with which the Company competes for talented executives.

The following is a discussion of each element of compensation:

BASE SALARY COMPENSATION

The base salary for all executive officers is reviewed annually, and the Committee's review process continues throughout the year. This review includes an analysis of past and expected future performance of the executive officers, as well as the responsibilities and qualifications of the executive officers individually and the performance of the Company in comparison with companies similar to the Company. The Committee's compensation policy is to generally set base salary at or below median.

ANNUAL INCENTIVE COMPENSATION

The Annual Incentive Plan (the "Incentive Plan") recognizes the performance of the named executive officers, other executive officers and key managers who

Edgar Filing: TIDEL TECHNOLOGIES INC - Form DEF 14A

contribute to the Company's success. These participants have the greatest impact on the profitability of the Company. In general, the participants with the most significant responsibility have a significant portion of their cash compensation tied to the Incentive Plan. The performance criteria, which are described in more detail below, reflect a combination of corporate operating profit and specific individual goals and objectives.

At the beginning of each year, the Committee establishes annual performance goals for the Company which are based on Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA"). The performance goals include threshold and maximum amounts for achievement. The Committee established the threshold level for 2001 at levels that required the Company to exceed by 14 percent the EBITDA achieved in 2000 before any payout could occur and with the maximum amount at 52 percent over 2000. No Incentive Plan compensation is paid if the Company does not achieve at least the threshold amount of its EBITDA goal. In 2001, the Company did not achieve the minimum threshold of its performance goals due to the material adverse effect on sales and earnings as a result of the termination of business with the Company's former largest customer, Credit Card Center ("CCC"), and related losses incurred in connection with the collection of receivables from CCC. Accordingly, no executive officers received compensation under the Incentive Plan for the fiscal year ended September 30, 2001.

LONG-TERM INCENTIVE COMPENSATION

The Committee believes that stock options provide an essential competitive component in the executive compensation program. Also, the Committee believes that stock options align the interests of the named executive officers and other executive officers with those of the Company's shareholders since no benefit inures to the executive officers unless stock price appreciation occurs over a period of years. Due to aforementioned difficulties incurred as a result of the termination of business with CCC, the Company did not grant any awards to any of the Company's executive officers under any long-term incentive plans during the fiscal year ended September 30, 2001.

CHIEF EXECUTIVE OFFICER COMPENSATION

James T. Rash, who currently continues to serve as Chairman of the Board of the Company, also served as Chief Executive Officer and Chief Financial Officer throughout 2001. Mr. Rash typically participates in all three elements of compensation previously discussed. The criteria used in setting Mr. Rash's total compensation plan include his longevity with the Company, his experience, the financial performance of the Company and increases in the market capitalization of the Company.

ITEM 2: RATIFICATION OF SELECTION OF INDEPENDENT AUDITORS

The Board of Directors has selected KPMG LLP to serve as the Company's independent auditors. KPMG LLP has served as the Company's independent auditors since October 1991. While it is not required to do so, the Board of Directors is submitting the selection of that firm as the Company's independent auditors for the fiscal year ending September 30, 2002 to stockholders for ratification in order to ascertain the stockholders views. Such ratification of the selection of KPMG LLP will require the affirmative vote of the holders of a majority of the shares of Common Stock of the Company entitled to vote thereon and represented at the Meeting. The Board of Directors will reconsider its selection should the stockholder votes evidence disapproval.

AUDIT FEES

The following schedule summarizes fees billed to the Company by KPMG LLP for calendar year 2001 services:

All other fees (1).....	80,979

Total.....	\$ 224,513
	=====

(1) Includes tax planning and compliance fees totaling \$55,479 and non-financial statement advisory and regulatory services totaling \$25,500.

Representatives of KPMG LLP are expected to be present at the Meeting and available to respond to appropriate questions. Such representatives will have the opportunity to make a statement if they desire to do so.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR RATIFICATION OF THE SELECTION OF KPMG LLP.

All of the members of the Audit Committee are independent (as independence is defined in Rule 4200(a)(15) of the National Association of Securities Dealers' listing standards). During fiscal 2001, the Committee met one time.

In discharging its responsibility for oversight of the audit process, the Audit Committee obtained from the independent auditors, KPMG LLP, a formal written statement describing any relationships between the auditors and the Company that might bear on the auditors' independence consistent with the Independent Standards Board Standard No. 1, "Independence Discussions with Audit Committees," and discussed with the auditors any relationships that might impact the auditors' objectivity and Independence and satisfied itself as to the auditors' independence.

The Committee discussed and reviewed with the independent auditors the communications required by generally accepted auditing standards, including those described in Statement on Auditing Standards No. 61, as amended, "Communication with Audit Committees" and discussed and reviewed the results of the independent auditors' examination of the financial statements for the year ended September 30, 2001.

The Committee reviewed the audited financial statements of the Company as of and for the fiscal year ended September 30, 2001, with management and the independent auditors. Management has the responsibility for preparation of the Company's financial statements and the independent auditors have the responsibility for examination of those statements.

Based upon the above-mentioned review and discussions with management and the independent auditors, the Committee recommended to the Board that the Company's audited financial statements be included in its Annual Report on Form 10-K for the fiscal year ended September 30, 2001, for filing with the Securities and Exchange Commission.
