ITEM 2. ACQUISITION OR DISPOSITION OF ASSETS.

On July 11, 2003, Natural Resource Partners L.P. (NYSE: NRP) closed its previously announced acquisition of approximately 78 million tons of proven coal reserves and an overriding royalty interest on additional coal from subsidiaries of PinnOak Resources, LLC for \$58 million. NRP will lease these reserves back to other subsidiaries of PinnOak Resources that will mine the reserves and pay royalties to NRP. The overriding royalty interest will be paid to NRP on third party coal mined and processed by PinnOak Resources through its preparation plants on these properties, which is anticipated to be at least 36 million tons.

The transaction was initially funded through the Partnership's existing credit facility. On September 19, 2003, \$50 million of the borrowings will be converted to long term debt in connection with the Partnership's commitment to issue additional senior notes as described in its press release dated June 20, 2003.

The properties consist of coal reserves at two separate mine complexes: the Pinnacle mine in Pineville, West Virginia and the Oak Grove mine near Birmingham, Alabama. PinnOak Resources produces low volatile metallurgical coal

Edgar Filing: NATURAL RESOURCE PARTNERS LP - Form 8-K

from these longwall mines and has onsite preparation plants. Over 85% of the current production is under contract for use primarily by the steel industry both domestically and abroad, including approximately 35% contracted to United States Steel Corporation and a similar amount slated for export.

PinnOak Resources, LLC is jointly owned by Benjamin M. Statler L.L.C. and Questor Partners Funds, a private equity group. PinnOak Resources was formed for the purpose of acquiring these assets and mines from United States Steel.

NRP has filed the press release announcing the acquisition as Exhibit 99.1 to this Form 8-K.

ITEM 7. FINANCIAL STATEMENTS AND EXHIBITS.
