Report of Independent Registered Public Accounting Firm

To the Plan Administrator and Committee  
Rocky Mountain Chocolate Factory, Inc. 401(k) Plan  
Durango, Colorado

We have audited the accompanying statements of net assets available for benefits of Rocky Mountain Chocolate Factory, Inc. 401(k) Plan (the Plan ) as of February 29 or 28, 2004 and 2003, and the related statement of changes in net assets available for benefits for the year ended February 29, 2004. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform our audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of February 29 or 28, 2004 and 2003, and the changes in net assets available for benefits for the year ended February 29, 2004 in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held At End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the basic 2004 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

ROCKY MOUNTAIN CHOCOLATE FACTORY, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1 DESCRIPTION OF PLAN

General

Rocky Mountain Chocolate Factory, Inc. 401(k) Plan (the Plan ) became effective June 1, 1994. The following description provides only general information and participants should refer to the Plan document for more complete information.

The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan covers all eligible employees of Rocky Mountain Chocolate Factory, Inc. (the Company).

The Board of Directors of Rocky Mountain Chocolate Factory, Inc. (the Company ) administers the Plan. Wells Fargo Retirement Plan Services, Inc. ( Wells ) serves as trustee, manages Plan assets, and maintains the Plan s records. The Plan offers participants a variety of investment options, including mutual funds and Company stock. Individual accounts are invested in the various investment options at the direction of the participants.

Eligibility

An employee becomes eligible to participate in the Plan as of March 1, June 1, September 1 or December 1 subsequent to the employee completing 1,000 hours of service during a twelve consecutive month period beginning on the date of hire and having attained age 21.

Contributions

Participants may elect to contribute a portion of compensation up to the Plan limits. A participant s contribution made by salary deferral, which results in a reduction of taxable income to the participant, was limited by the Plan to \$12,000 for fiscal 2004 in accordance with the Internal Revenue Code. If an eligible participant is 50 years of age or older, they may contribute up to \$14,000. Participants may also add rollover contributions from other qualified plans.

The Plan provides for Company matching contributions equal to 25% of the participant contributions up to 6% of each employee s annual compensation. Total matching contributions were \$31,036 for the year ended February 29, 2004. Also, the Company may make discretionary contributions to the Plan. During fiscal 2004, the Company made a discretionary contribution of \$31,121 to the Plan. The Company makes its matching and discretionary contributions in a lump sum payment subsequent to the fiscal year end. These contributions are allocated directly to participants accounts.

Participants Accounts

Each participant s account is credited with the participant s contribution and an allocation of the Company s contribution and Plan earnings. Participants who are subject to limitations on individual contributions, due to their level of pay in relation to that of the other participants, share in Company contributions to the extent of their contribution. Allocations are based upon Plan earnings and account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant s account.

## **Table of Contents**

### Vesting

Participants are 100% vested in their salary deferrals at all times and can withdraw their voluntary contributions from the Plan upon termination of employment. A participant becomes 100% vested in employer contributions after three years of continued service or upon the participant's death, disability or attaining normal retirement age, and become 33% vested after year one, 67% vested after year two, and 100% vested after year three.

### Forfeitures

Forfeitures of nonvested balances for terminated employees are used to reduce future Company contributions. During 2004 and 2003, forfeited nonvested balances used to reduce Company contributions were \$84 and \$0, respectively.

### Payment of Benefits

In the case of death, disability or retirement, benefits become payable as soon as administratively feasible. The Plan provides three payment options associated with the distribution of benefits: 1) lump-sum, 2) transfer of benefits to another qualified retirement plan and 3) periodic installments as defined in the Plan agreement. Upon termination for causes other than death, disability or retirement, participants may receive payment of their vested account in a lump sum payment or by rolling over the account. Amounts allocated to terminated participants for which benefit payments have not yet been paid as of February 29 or 28, 2004 and 2003 totaled \$0 and \$5,365 respectively. The Plan also allows for payment of benefits for financial hardship. A hardship distribution may be made to satisfy certain immediate and heavy financial needs that a participant may have. Benefit payments are recorded by the plan when paid.

### Administrative Expenses

The Company provides, at no cost to the Plan, certain administrative, accounting and legal services to the Plan and also pays the cost of certain outside services for the Plan. All transaction costs and certain plan administrative expenses are paid for by the Plan.

### Participant Loans

Participants may obtain loans in amounts up to the lesser of 50% of their vested balance or \$50,000 for a period not to exceed 5 years unless the proceeds are used to acquire the participant's principal residence. Loans used to acquire real estate that serves as the participant's primary residence may, subject to the Administrator's determination, be repaid over a period longer than five years. The loans bear interest at a rate determined at the inception of the loan. Interest rates ranged from 5.00% to 10.00% on outstanding loans at February 29, 2004. Loan principal and interest are repaid bi-weekly through payroll deductions.

## NOTE 2 SUMMARY OF ACCOUNTING POLICIES

The financial statements of the Plan have been prepared in conformity with accounting principles generally accepted in the United States of America and in accordance with the Plan agreement. A summary of the significant accounting policies applied in the preparation of the accompanying financial statements follows.

**Table of Contents**

## Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

## Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## Investments

The Plan's investments are stated at fair value as determined by the custodian based upon quoted market prices. Loans to participants are valued at the amortized principal amount, which approximates fair value. The Plan presents in the statement of changes in net assets available for benefits the net appreciation or depreciation in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation or depreciation of investments.

## Risk and Uncertainties

The Plan provides for various investments. Investments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
