Formation of Bois d Arc Energy

In July 2004, Bois d Arc Energy, LLC (Bois d Arc Energy) was formed by Comstock Offshore, LLC (Comstock Offshore), an indirect wholly-owned subsidiary of the Company and Bois d Arc Resources, (Bois d Arc Resources) Ltd., Bois d Arc Offshore, Ltd. and certain participants in their exploration activities (collectively, the Bois d Arc Participants) to replace a joint exploration venture established in 1997 by Comstock Offshore and Bois d Arc Resources to explore for oil and natural gas in the Gulf of Mexico. Under the joint exploration venture, Bois d Arc Resources was responsible for generating exploration prospects in the Gulf of Mexico utilizing 3-D seismic data and their extensive geological expertise in the region. Comstock Offshore advanced the funds for the acquisition of 3-D seismic data and leases. Comstock Offshore was reimbursed for all advanced costs and was entitled to a non-promoted working interest in each prospect generated. For each successful discovery well drilled pursuant to the joint exploration venture, Comstock issued to the two principals of Bois d Arc Resources warrants exercisable for the purchase of shares of Comstock's common stock.

In July 2004, each of the Bois d Arc Participants and Comstock Offshore contributed to Bois d Arc Energy substantially all of their Gulf of Mexico related assets and assigned their related liabilities, including certain debt, in exchange for equity interests in Bois d Arc Energy. The equity interests issued in exchange for the contributions were

determined by using a valuation of the properties contributed by the particular contributor relative to the value of the properties contributed by all contributors. Comstock Offshore contributed its interests in its Gulf of Mexico properties and assigned to Bois d Arc Energy \$83.2 million of related debt in exchange for an approximately 59.9% ownership interest in Bois d Arc Energy (29,935,761 LLC units out of 50,000,000 LLC units issued). The Bois d Arc Participants contributed their offshore oil and natural gas properties as well as ownership of Bois d Arc Offshore, Ltd., the operator of the properties, and assigned to Bois d Arc Energy \$28.2 million of related liabilities in exchange for an approximately

40.1% aggregate ownership interest in Bois d Arc Energy. Under the intrinsic method, compensation cost for stock options is measured as the excess, if any, of the fair value of the Company's common stock at the date of the grant over the amount an employee must pay to acquire the common stock. Effective January 1, 2004, the Company changed its method of accounting for employee stock-based compensation to the preferable fair value based method prescribed in Statement of Financial Accounting Standards
