EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This compensation discussion and analysis describes the material elements of the Company's compensation programs as they relate to our executive officers who are listed in the compensation tables appearing elsewhere in this proxy statement. This compensation discussion and analysis focuses on the information contained in the following tables and related footnotes, but also describes other arrangements and actions taken since the end of fiscal 2008 to the extent such discussion enhances the understanding of our executive compensation for fiscal 2008. Throughout this proxy statement, the individuals who served as the Company's Chief Executive Officer and Chief Financial Officer during fiscal 2008, as well as the other individuals included in the Summary Compensation Table, are referred to as the named executive officers.

Overview of Compensation Committee Role and Responsibilities

The Compensation Committee of the Board of Directors oversees our compensation plans and policies, reviews and approves all decisions concerning the Chief Executive Officer and Chief Financial Officer's compensation, which may further be approved by the Board, and administers our stock option and equity plans, including reviewing and approving stock option grants and equity awards under the plans. The Compensation Committee's membership is determined by the Board and is composed entirely of independent directors.

Management plays a role in the compensation-setting process. The most significant aspects of management's role are to evaluate employee performance and recommend salary levels and equity compensation awards. Our Chief Executive Officer often makes recommendations to the Compensation Committee and the Board concerning compensation for other executive officers. Our Chief Executive Officer is a member of the Board but does not participate in Board decisions regarding any aspect of his own compensation. The Compensation Committee can retain independent advisors or consultants and has done so in the past.

Compensation Committee Process

The Compensation Committee reviews executive compensation upon the signing of an employment agreement, an increase in responsibilities or other factors. With respect to equity compensation awarded to other employees, the Compensation Committee or the Board grants stock options, often after receiving a recommendation from our CEO. The Compensation Committee also evaluates proposals for incentive and performance equity awards, and other compensation, and is currently studying peer groups to assess criteria for such plans.

Compensation Philosophy

The Compensation Committee emphasizes the important link between the Company's performance, which ultimately affects stockholder value, and the compensation of its executives. Therefore, the primary goal of the Company's executive compensation policy is to try to align the interests of the executive officers with the interests of the stockholders. In order to achieve this goal, the Company attempts to (i) offer compensation opportunities that attract and retain executives whose abilities and skills are critical to the long-term success of the Company and reward them for their efforts in ensuring the success of the Company, (ii) align the Company's compensation programs with the Company's long-term business strategies and objectives, and (iii) provide variable compensation opportunities that are directly linked to the Company's performance and stockholder value, including an equity stake in the Company. Our named executive officers' compensation utilizes two primary components—base salary and long-term equity compensation—to achieve these goals. Additionally, the Compensation Committee may award discretionary bonuses to certain executives based on the individual's contribution to the achievement of the Company's strategic objectives.

Table of Contents*Setting Executive Compensation*

We fix executive base compensation at a level we believe enables us to hire and retain individuals in a competitive environment and to reward satisfactory individual performance and a satisfactory level of contribution to our overall business goals. We also take into account the compensation that is paid by companies that we believe to be our competitors and by other companies with which we believe we generally compete for executives. In 2004 the Compensation Committee retained Pearl Meyer & Partners (PM&P) to assess the Company's compensation programs for executive officers, the executive pay strategy and to identify possible revisions to our executive compensation programs. More recently, the Compensation Committee retained Frederic W. Cook & Co., Inc. to review director compensation and executive compensation, and has been working with them to assess incentive compensation reviews. The Compensation Committee reviewed a comprehensive comparison of the compensation and equity incentives paid to the Company's Chief Financial Officer with that paid to similarly situated executives in the peer group. The peer group companies included in the fiscal 2008 assessment include Aastrom Biosciences, CardioTech, Cell Therapeutics, Cerus, CryoLife, Cytori, Dendreon, Endocare, Geron, Immunomedics, LifeCell and Stemcells Inc. In adjusting salaries, the Compensation Committee has historically set base salary at the midpoint range. Based on the executives experience and level of responsibility, salary may be set above or below the midpoint range. The Compensation Committee has not adopted any formal or informal policies or guidelines for allocating compensation between the components of base salary, long term equity compensation or discretionary bonuses. Also, there are no formal or informal policies regarding allocation between long-term and currently paid out compensation or between cash and non-cash compensation. This is due to the need to tailor each executive officer's compensation to attract and retain that executive officer. Further, the Compensation Committee periodically reviews peer group compensation.

Base Salary

The Company provides executive officers and other employees with base salary to compensate them for services rendered during the fiscal year. Subject to the provisions contained in employment agreements with executive officers concerning base salary amounts, base salaries of the executive officers are established based upon compensation data of comparable companies in our market, the executive's job responsibilities, level of experience, individual performance and contribution to the business. We believe it is important for the Company to provide adequate fixed compensation to highly qualified executives in our competitive industry. In making base salary decisions, the Compensation Committee uses its discretion and judgment based upon personal knowledge of industry practice but does not apply any specific formula to determine the base salaries for the executive officers.

Chief Executive Officer. In April 2007, the Company and Mr. Philip H. Coelho, Chairman and Chief Executive Officer of the Company, entered into a new three year employment agreement to further the Company's strategic goal for succession planning. Under the agreement, (i) Mr. Coelho agreed to remain as Chief Executive Officer of the Company until his replacement is identified and retained, at which time he will serve as the Chief Technology Architect of the Company; and (ii) he will continue to serve as Chairman of the Board, at the Board's discretion, for a period of three years. The agreement provided for an annual base salary of \$360,000, which was his base salary level for fiscal 2006 and which the Company believes is competitive with other similar companies. The Compensation Committee retained Frederic W. Cook & Company to evaluate and opine on the proposal and terms. Effective July 30, 2007, Dr. William R. Osgood was appointed CEO and Mr. Coelho resigned as CEO. Thereafter, as part of final succession, Mr. Coelho and the Board of Directors converted his employment agreement to a consulting agreement with Mr. Coelho's newly formed company PHC Medical, Inc. Further details of that agreement are contained in the section Related Party Transactions.

Table of Contents

Based on his new title and responsibilities, the Board of Directors increased Dr. Osgood's annual base salary to \$345,000. Subsequently, in April 2008, and based in large part on the housing economy in California and Colorado, being Dr. Osgood's prior residence, the Compensation Committee further granted Dr. Osgood reimbursement for living expenses in an amount equal to one-half of his costs to maintain the second residence in Colorado which had been listed but not sold. To further incentivize Dr. Osgood's permanent relocation, the Compensation Committee authorized additional expense reimbursement equal to the costs of maintaining the second house for a one year period, which amount could also be applied to a reduced purchase price in order to facilitate a faster sale. In total, Dr. Osgood was reimbursed \$177,000 in additional relocation expenses, of which \$19,000 was paid in fiscal 2007, \$85,000 was paid in our fiscal year 2008, and \$73,000 was paid in fiscal 2009.

Chief Executive Officer. In August 2007, the Company entered into an employment agreement with William Osgood whereby Dr. Osgood agreed to serve as Chief Executive Officer. The agreement provided a base salary rate of at least \$345,000 per year, subject to annual increases as may be determined. The Compensation Committee did not adjust Dr. Osgood's base salary through fiscal 2008. The Compensation Committee did not adjust Dr. Osgood's base salary through fiscal 2008.

Chief Financial Officer. In May 2008, at the conclusion of the existing employment agreement, the Company entered into an employment agreement with Mr. Matthew Plavan whereby Mr. Plavan agreed to serve as Chief Financial Officer. The agreement provided for a base salary rate of at least \$275,000 per year, subject to annual increases as may be determined.

Vice President, Research & Development and Scientific Affairs. In March 2006, the Company entered into an employment agreement with Dr. John Chapman whereby Dr. Chapman agreed to serve as Vice President, Scientific Affairs. On August 22, 2007, Dr. Chapman was appointed Vice President, Research and Development and Scientific Affairs and his annual base salary was increased to \$215,000 per year, subject to annual increases as may be determined.

Vice President of Marketing. In September 2007, Mr. John Groat joined the Company as Vice President of Marketing with an annual base salary of \$175,000, subject to adjustment from time to time.

Vice President of Sales. Upon her promotion to Vice President of Sales in August 2007, Ms. Sandra LaCava Wilson's base salary was increased to \$150,000 per year.

Vice President, Emerging Stem Cell Therapy. In February 2007, the Company entered into an employment agreement with Mr. Dan Segal whereby Mr. Segal agreed to serve as Vice President of Sales and Marketing with an annual base salary of \$190,000. In August 2007, Mr. Segal was appointed Vice President, Emerging Stem Cell Therapy with no adjustments to his annual base salary. Effective March 31, 2008 Mr. Segal resigned his position.

Long-term Equity Compensation

The Compensation Committee provides the Company's executive officers with long-term equity compensation in the form of stock option grants or restricted stock grants under the Company's 2006 Equity Incentive Plan (the "Equity Plan"). The ability to provide equity incentives, through the granting of stock options and other equity-based compensation, gives the Compensation Committee the ability to create a combination of cash and stock-based incentive compensation programs to promote high performance and achievement of corporate goals by executives and employees. The Compensation Committee believes that stock based compensation provides the Company's executive officers with the opportunity to maintain an equity interest in the Company and to share in the appreciation of the value of the Company's common stock, thereby motivating the executive to maximize long-term stockholder value. It is the Company's practice to grant options or restricted stock from time to time to executive

Table of Contents

officers at the fair market value of the Company's common stock on the date of grant. The option grants also place what can be a significant element of compensation at risk, because stock options have value for the executive only if the market price of the Company's stock increases above the fair market value on the grant date and the executive remains in the Company's employ for the period required for the shares to vest. The Compensation Committee considers each grant subjectively, considering factors such as the individual performance of the executive officer, the anticipated contribution of the executive officer to the attainment of the Company's long-term strategic performance goals and the need to retain key employees. The number of stock options or restricted stock shares granted to other executives in prior years and the total number of shares available for issuance under the Equity Plans are also taken into consideration.

Stock options typically have been granted to executive officers when the executive first joins the Company, in connection with a significant change in responsibilities, in response to changes in industry practices and, occasionally, to achieve equity within a peer group. The Compensation Committee may, however, grant additional stock options to executives and employees for other reasons. Awards of equity-based compensation are not routinely made but may occur throughout the year. Stock options granted to the named executive officers have vesting schedules ranging from nine months to five years. Generally, we do not time the granting of our options or awards with any favorable or unfavorable news released by the Company, except that on occasion, the Compensation Committee times the grant to occur after information concerning the Company is publicly released. We do not have any program, plan or practice that requires us to grant equity-based awards on specified dates, other than for outside directors, as described elsewhere under the heading "Director Compensation". Although the Company has historically only issued stock options and restricted shares, it may in the future grant stock appreciation rights, or other equity-based compensation as permitted in the Equity Plans and as determined appropriate by the Compensation Committee.

In connection with his appointment in December 2006 as General Manager of Operations, on January 3, 2007, the Company granted a stock option to Dr. William Osgood to purchase up to 150,000 shares. The option vests in three equal annual installments on October 3, 2007, 2008 and 2009. In determining the amount of the grant, the Compensation Committee took into account Dr. Osgood's experience, position and the number of options granted to other officers. At the July 27, 2007 meeting the Board of Directors reviewed Dr. Osgood's employment agreement and granted the restricted stock award. The terms were clarified as 30,000 shares would be eligible for award in fiscal 2008 and 50,000 in fiscal 2009 subject to the Company meeting the revenue and profit goals in the Company's business plan. In connection with his appointment to CEO, on August 1, 2007, the Compensation Committee granted a stock option to Dr. Osgood to purchase up to 320,000 shares. The option vests over three years, 1/3 each year, based on meeting annual performance objectives as approved by the Compensation Committee. The performance objectives established for the first one-third tranch of options (vesting date of August 1, 2008) were based on meeting the Company's budget, resolving certain quality and supply issues, analyzing certain product lines of the Company and performing various strategic assessments.

In connection with the increase in his job responsibilities, on April 26, 2007, the Compensation Committee approved an award of 10,000 shares of restricted common stock to Matthew Plavan, our Chief Financial Officer, one-half vesting immediately and the remainder on the first anniversary of the grant date. On August 10, 2007, the Compensation Committee granted a stock option to Mr. Plavan to purchase up to 175,000 shares. The option vests in three equal annual installments on August 10, 2008, 2009 and 2010. In determining the amount of the grant, the Compensation Committee took into account Mr. Plavan's performance over the prior year, his level of responsibilities and the number of options granted to other officers. Effective May 31, 2008, concurrent with signing his new employment agreement, the Compensation Committee granted a stock option to Mr. Plavan to purchase up to 100,000 shares. The option vests in three equal annual installments on May 31, 2009, 2010 and 2011. In determining the amount of the grant, the Compensation Committee took into account Mr. Plavan's performance over the term of his prior contract and the number of options granted to other officers.

Table of Contents

On August 10, 2007, the Compensation Committee granted a stock option to Dr. John Chapman to purchase up to 80,000 shares. The option vests in three equal annual installments on August 10, 2008, 2009 and 2010. In determining the amount of the grant, the Compensation Committee took into account Dr. Chapman's performance over the prior year, his promotion to vice president and the number of options granted to other officers.

On September 13, 2007, the Compensation Committee granted a stock option to Mr. John Groat to purchase up to 50,000 shares. The option vests in three equal annual installments on September 13, 2008, 2009 and 2010. In determining the amount of the grant, the Compensation Committee took into account the recommendation from the CEO and the number of options granted to other officers.

On August 10, 2007, the Compensation Committee granted a stock option to Ms. Sandra LaCava Wilson to purchase up to 48,000 shares. The option vests in three equal annual installments on August 10, 2008, 2009 and 2010. In determining the amount of the grant, the Compensation Committee took into account the recommendation from the CEO, Ms. LaCava Wilson's performance over the prior year and the number of options granted to other officers.

Bonuses

The bonus component of executive compensation is designed to reflect the Compensation Committee's belief that a portion of the compensation of each executive officer should be contingent upon the performance of the Company, as well as the individual contribution of each executive officer. The bonus is intended to motivate and reward executive officers by allowing the executive officers to directly benefit from the success of the Company. We have not historically paid any automatic or guaranteed bonuses to our executive officers. However, we have from time to time paid signing, retention or other bonuses to particular executive officers. All executive employment contracts provide generally for a discretionary bonus of up to 35% of the executive's base salary, which is to be determined by the Compensation Committee based on individual performance criteria and Company achievement of profitability during the year.

The Compensation Committee did not establish any specific cash bonus plans for the named executive officers with respect to the fiscal 2008 year, and did not pay any cash bonuses to any named executive officers with respect to the fiscal 2008 year in light of the Company's performance and lack of profitability during 2008.

As Vice President of Sales, Ms. LaCava Wilson was eligible for a sales commission program, which was established in August 2007 by the former Vice President of Sales and Marketing and approved by the CEO. The commissions were paid out quarterly based on a certain percentage of sales revenue per each product line.

401(k) Plan

The Company maintains a retirement savings plan, or 401(k) Plan, for the benefit of our executives and employees. Our 401(k) Plan is intended to qualify as a defined contribution arrangement under the Internal Revenue Code (Code). Participants may elect to defer a percentage of their eligible pretax earnings each year or contribute a fixed amount per pay period up to the maximum contribution permitted by the Code. All participants' plan accounts are 100% vested at all times. All assets of our 401(k) plan are currently invested, subject to participant-directed elections, in a variety of mutual funds chosen from time to time by the Plan Administrator. Distribution of a participant's vested interest generally occurs upon termination of employment, including by reason of retirement, death or disability. Historically, we have not made matching contributions to the 401(k) Plan.

Severance and Change in Control Agreements

The Company has entered into employment agreements with Dr. Osgood, our CEO, Mr. Plavan, our CFO, and Dr. Chapman, our Vice President of Scientific and Clinical Affairs. These agreements include provisions for severance payments in certain circumstances. Except for those named, the Company has moved away from employment agreements in general. Following our fiscal year end, and in review of executive compensation in general, the Compensation Committee evaluated change in control provisions, and granted similar change of control provisions to all named executive officers. The Compensation Committee considers these agreements to provide the named executive officers with the ability to make appropriate, informed decisions on strategy and direction of the Company that may adversely impact their particular positions, but nevertheless are appropriate for the Company and its shareholders. Our Compensation Committee believes that companies should provide reasonable severance benefits to employees, recognizing that it may be difficult for them to find comparable employment within a short period of time and that severance arrangements may be necessary to attract highly qualified officers in a competitive hiring environment. Additional information concerning the terms of the Company's employment, severance and change in control arrangements appears elsewhere in this proxy statement under the headings, "Employment Agreements" and "Potential Payments Upon a Change in Control".

Under the employment agreements, in general, in the event the executive is terminated without cause the executive is entitled to twelve months of base salary. Additionally, under Mr. Plavan's employment agreement, if his contract is not renewed, he will receive monthly severance for up to twelve months or until employed elsewhere, whichever comes first.

Under the employment agreements and the change in control agreements granted to other executives, in the event the executive is terminated as a result of a change in control, the executive is entitled to a lump-sum payment equal to two or three years of base salary.

Perquisites and Other Personal Benefits

The Company's executive officers participate in the Company's other benefit plans on the same terms as other employees. These plans include medical, dental, life and disability insurance. Relocation benefits also are reimbursed and are individually negotiated when they occur. The Company reimburses each executive officer for all reasonable business and other expenses incurred by them in connection with the performance of their duties and obligations under their employment agreements. The Company does not provide named executive officers with any significant perquisites or other personal benefits.

Accounting and Tax Considerations

Effective July 1, 2005, we adopted the fair value recognition provisions of FASB Statement No. 123R, "Share-Based Payment", or SFAS No. 123R. Under SFAS No. 123R, we are required to estimate and record an expense for each award of equity compensation over the vesting period of the award. Compensation expense and tax considerations relating to the expense of stock options under FAS 123R are one of the many factors considered in the determination of stock option awards. With respect to equity compensation awards, any gain recognized by employees from the exercise of nonqualified options with an exercise price equal to the fair market value of the shares on the date of grant should be deductible. In addition, if we grant restricted stock that is not subject to performance vesting, they may not be fully deductible by us at the time the award is otherwise taxable to employees.

Table of Contents

Section 162(m) of the Code limits the Company to a deduction for federal income tax purposes of up to \$1 million of compensation paid to certain named executive officers in a taxable year. Compensation above \$1 million may be deducted if it is performance-based compensation. To maintain flexibility in compensating executive officers in a manner designed to promote varying corporate goals and due to the Company's substantial net operating loss carry forwards, the Compensation Committee has not adopted a policy requiring all compensation to be deductible. The Compensation Committee intends to continue to evaluate the effects of the compensation limits of Section 162(m) and to grant compensation awards in the future in a manner consistent with the best interests of the Company and its shareholders.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis section with management and recommends that the Compensation Discussion and Analysis section be included in this proxy statement and included or incorporated by reference in the Company's Annual Report on Form 10-K.

(1) The exercise price of the options is equal to the closing market price of the common stock on the grant date.

(2) The option award shown vests one third August 1, 2008, one third August 1, 2009 and one third August 1, 2010, based on meeting annual performance objectives as

On October 26, 2007, the Board of Directors approved the Company's budget. As such, October 26, 2007 is considered to be the original measurement date for the first tranch of options, computing to a fair value of \$101,000. At the April 10, 2008 Compensation Committee meeting, the Committee

modified the first tranch of options by assigning a percentage and weighting to each of the performance conditions established versus an all or none basis with a resulting fair value of \$40,000 for the first tranch of options.

Nominations to the Board of Directors

Our directors take a critical role in guiding our strategic direction and oversee the management of the Company. Board candidates are considered based upon various criteria, such as their broad-based business and professional skills and experiences, a global business and social perspective, concern for the long-term interests of the stockholders and personal integrity and judgment. In addition, directors must have time available to devote to Board activities and to enhance their knowledge of the medical device industry. Accordingly, we seek to attract and retain highly qualified directors who have sufficient time to attend to their substantial duties and responsibilities to the Company.

Table of Contents

The Board of Directors has a Governance and Nominating Committee. The Board believes given the diverse skills and experience required to grow the Company that the input of all members is important for considering the qualifications of individuals to serve as directors. In fiscal 2007, the Governance & Nominating Committee retained DHR International, Inc. to identify potential Board of Director candidates. The Governance and Nominating Committee recommends a slate of directors for election at the annual meeting. In accordance with Nasdaq rules, the slate of nominees is approved by a majority of the independent directors. Dr. Huckel, Mr. McEnany, Dr. Myers and Ms. Olson, each members of the Governance and Nominating Committee, are independent as defined in the NASD listing standards.

In carrying out its responsibilities, the Board will consider candidates suggested by stockholders. If a stockholder wishes to formally place a candidate's name in nomination, however, he or she must do so in accordance with the provisions of the Company's Bylaws. Suggestions for candidates to be evaluated by the Nominating Committee must be sent to Assistant Corporate Secretary, 2711 Citrus Road, Rancho Cordova, California 95742.

In fiscal 2008, the Board of Directors met nine (9) times, the Audit Committee met five (5) times, the Compensation Committee met seven (7) times, the Governance and Nominating Committee met nine (9) times and the Strategic Assessments Committee met one (1) time. All Directors attended the 2007 annual meeting of stockholders. The Board requires all Directors to attend the annual stockholder meeting unless there is an emergency.

Stockholders may send communications to the Board by mail to the Chairman of the Board, ThermoGenesis Corp., 2711 Citrus Road, Rancho Cordova, California 95742.

In accordance with Statements on Auditing Standards (SAS) No. 61 (codification of Statements on Auditing Standards, AU§ 380), as amended by SAS 89 and SAS 90, and Rule 2-07, Communications with Audit Committees, of Regulation S-X, the audit committee had discussions with management and the independent auditors regarding the acceptability and the quality of the accounting principles used in the reports. These discussions included the clarity of the disclosures made therein, the underlying estimates and assumptions used in the financial reporting, and the reasonableness of the significant judgments and management decisions made in developing the financial statements. In addition, the Audit Committee has discussed with the independent auditors their independence from the Company and its management and the independent auditors provided the written disclosures and the letter required by Independence Standards Board Standard No. 1 and considered the compatibility of non-audit services with the auditors' independence.

The Audit Committee has also met and discussed with the Company's management, and its independent auditors, issues related to the overall scope and objectives of the audits conducted, the internal controls used by the Company and the selection of the Company's independent auditors. In addition, the Audit Committee discussed with the independent auditors, with and without management present, the specific results of audit investigations and examinations and the auditors' judgments regarding any and all of the above issues.

Certain Relationships and Related Party Transactions

In August 2007, Mr. Coelho, our former CEO, transitioned to a newly created position as Chief Technology Architect under his then current employment agreement. In May 2008, as part of succession and operational control by Dr. Osgood, our new CEO, we asked Mr. Coelho to change his status from that of an employee to a consultant, and we converted his employment agreement to a consulting agreement with his newly formed company PHC Medical, Inc. The essential terms of the consulting agreement provided for the same compensation that Mr. Coelho received under the terms of his employment agreement except that there is no change of control provision for additional compensation. Upon entering into the consulting arrangement the employment agreement was terminated by mutual consent. Mr. Coelho was still a director of the Company at the time of the change in relationship, and our independent directors, with the concurrence of the Governance and Nominating Committee, reviewed and approved the terms of the arrangement. Pursuant to the terms of the consulting agreement, the Company continues to retain exclusive rights for intellectual property created by Mr. Coelho, and retains his services in connection with ongoing development. The consulting agreement ends, by its terms, in May 2010. Mr. Coelho is responsible for his office, travel, assistants, and related expenses, which he must account for to the Company, and he receives \$43,648 monthly for all such services and expenses.
