NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS (Unaudited)

Except as otherwise indicated or unless the context otherwise requires, all references to LPS, we, the Company, or the registrant are to Lender Processing Services, Inc., a Delaware corporation that was incorporated in December 2007 as a wholly-owned subsidiary of FIS, and its subsidiaries; all references to FIS, the former parent, or the holding company are to Fidelity National Information Services, Inc., a Georgia corporation formerly known as Certegy Inc., and its subsidiaries, that owned all of LPS's shares until July 2, 2008; all references to former FIS are to Fidelity National Information Services, Inc., a Delaware corporation, and its subsidiaries, prior to the Certegy merger described below; all references to old FNF are to Fidelity National Financial, Inc., a Delaware corporation that owned a majority of FIS's shares through November 9, 2006; and all references to FNF are to Fidelity National Financial, Inc. (formerly known as Fidelity National Title Group, Inc.), formerly a subsidiary of old FNF but now a stand-alone company that remains a related entity from an accounting perspective.

(1) Basis of Presentation

The unaudited financial information included in this report includes the accounts of Lender Processing Services, Inc. and its subsidiaries and affiliates prepared in accordance with generally accepted accounting principles and the instructions to Form 10-Q and Article 10 of Regulation S-X. All adjustments considered necessary for a fair presentation have been included. This report should be read in conjunction with the Company's Form 10 that became effective on June 20, 2008. The preparation of these Consolidated and Combined Financial Statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated and combined financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Capitalization and Closing of Lender Processing Services, Inc. Spin-off Transaction and Issuance of Common Stock Shares

Our former parent, Fidelity National Information Services, Inc., is a Georgia corporation formerly known as Certegy Inc. In February 2006, Certegy Inc. merged with and into Fidelity National Information Services, Inc., a Delaware corporation, which we refer to as former FIS. Certegy Inc. survived the merger, which we refer to as the Certegy merger, to form our former parent. Following the Certegy merger, Certegy Inc. was renamed Fidelity National Information Services, Inc., which we refer to as FIS. Prior to the Certegy merger, former FIS was a majority-owned subsidiary of Fidelity National Financial, Inc., which we refer to as old FNF. Old FNF merged into our former parent in November 2006 as part of a reorganization, which included old FNF's spin-off of Fidelity National Title Group, Inc. Fidelity National Title Group, Inc. was renamed Fidelity National Financial, Inc. following this reorganization, and we refer to it as FNF. FNF is now a stand-alone company, but remains a related entity from an accounting perspective.

In October 2007, the board of directors of FIS approved a plan of restructuring pursuant to which FIS would spin off its lender processing services segment to its shareholders in a tax free distribution. Pursuant to this plan of restructuring, on June 16, 2008, FIS contributed to us all of its interest in the assets, liabilities, businesses and employees related to FIS's lender processing services operations in exchange for a certain number of shares of our common stock and \$1,585.0 million aggregate principal amount of our debt obligations, including our new senior notes and debt obligations under our new credit facility described in Note 5. On June 20, 2008, FIS received a private letter ruling from the Internal Revenue Service with respect to the tax-free nature of the plan of restructuring and distribution, and the Company's registration statement on Form 10 with respect to the distribution was declared effective by the Securities and Exchange Commission. The spin-off was tax-free to FIS and its shareholders, and the debt-for-debt exchange undertaken in connection with the spin-off was tax-free to FIS.

On July 2, 2008, FIS distributed to its shareholders a dividend of one-half share of our common stock, par value \$0.0001 per share, for each issued and outstanding share of FIS common stock held on June 24, 2008, which we refer to as the spin-off. The shares of the Company distributed to FIS shareholders on July 2, 2008 represented all of our issued and outstanding shares. Also on July 2, 2008, FIS exchanged 100% of our debt obligations for a like amount of

FIS's existing Tranche B Term Loans issued under its Credit Agreement dated as of January 18, 2007. Following this debt-for-debt exchange, the portion of the existing Tranche B Term Loans acquired by FIS was

8

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS (Unaudited) Continued

retired. On July 3, 2008, we commenced regular way trading on the New York Stock Exchange under the trading symbol LPS. Prior to the spin-off, we were a wholly-owned subsidiary of FIS.

Our principal executive offices are located at 601 Riverside Avenue, Jacksonville, Florida 32204 and our main telephone number is (904) 854-5100. We were incorporated in Delaware in December 2007.

Separation from FIS and Principles of Consolidation and Combination

Our historical financial statements include assets, liabilities, revenues and expenses directly attributable to our operations. Our historical financial statements also reflect allocations of certain corporate expenses from FIS. These expenses have been allocated to us on a basis that management considers to reflect most fairly or reasonably the utilization of the services provided to or the benefit obtained by our businesses. These expense allocations reflect an allocation to us of a portion of the compensation of certain senior officers and other personnel of FIS who are not our employees after the spin-off but who historically provided services to us. Certain of the amounts allocated to us reflect a portion of amounts charged to FIS under agreements entered into with FNF. Our historical financial statements also do not reflect the debt or interest expense we might have incurred if we had been a stand-alone entity. In addition, we will incur other expenses, not reflected in our historical financial statements, as a result of being a separate publicly traded company. As a result, our historical financial statements do not necessarily reflect what our financial position or results of operations would have been if we had operated as a stand-alone public entity during the periods covered, and may not be indicative of our future results of operations or financial position.

Prior to June 21, 2008, the historical financial statements of the Company were presented on a combined basis. Beginning June 21, 2008, after all the assets and liabilities of the lender processing services segment of FIS were formally contributed by FIS to LPS, the historical financial statements of the Company have been presented on a consolidated basis for financial reporting purposes. The accompanying Consolidated and Combined Financial Statements include those assets, liabilities, revenues and expenses directly attributable to LPS's operations and, prior to June 21, 2008, allocations of certain FIS corporate assets, liabilities, revenues and expenses to LPS.

The accompanying Consolidated and Combined Financial Statements were prepared in accordance with generally accepted accounting principles and all adjustments considered necessary for a fair presentation have been included. All significant intercompany accounts and transactions have been eliminated. Our investments in less than 50% owned affiliates are accounted for using the equity method of accounting.

Reporting Segments

We are a leading provider of integrated technology and outsourced services to the mortgage lending industry, with market-leading positions in mortgage processing and default management services in the U.S. We conduct our operations through two reporting segments, Technology, Data and Analytics and Loan Transaction Services.

Our Technology, Data and Analytics segment principally includes:

our mortgage processing services, which we conduct using our market-leading mortgage servicing platform and our team of experienced support personnel based primarily at our Jacksonville, Florida data center;

our Desktop application, a workflow system that assists our customers in managing business processes, which today is primarily used in connection with mortgage loan default management, but which has broader applications;

our other software and related service offerings, including our mortgage origination software, our real estate closing and title insurance production software and our middleware application which provides collaborative network connectivity among mortgage industry participants; and

our data and analytics businesses, the most significant of which are our alternative property valuations business, which provides a range of valuations other than traditional appraisals, our property records business, and our advanced analytic services, which assist our customers in their loan marketing or loss mitigation

efforts.

Table of Contents

**LENDER PROCESSING SERVICES, INC.
AND SUBSIDIARIES AND AFFILIATES**

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS (Unaudited) Continued

Our Loan Transaction Services segment offers a range of services used mainly in the production of a mortgage loan, which we refer to as our loan facilitation services, and in the management of mortgage loans that go into default, which we refer to as default management services.

Our loan facilitation services include:

settlement services, which consist of title agency services, in which we act as an agent for title insurers, closing services, in which we assist in the closing of real estate transactions, and lien recording and release services;

appraisal services, which consist of traditional appraisal and appraisal management services; and

other origination services, which consist of real estate tax services, which provide lenders with information about the tax status of a property, flood zone information, which assists lenders in determining whether a property is in a federally designated flood zone, and qualified exchange intermediary services for customers who seek to engage in qualified exchanges under Section 1031 of the Internal Revenue Code.

Our default management services include, among others:

foreclosure management services, including access to a nationwide network of independent attorneys, document preparation and recording and other services;

property inspection and preservation services, designed to preserve the value of properties securing defaulted loans; and

asset management services, providing disposition services for our customers' real estate owned properties through a network of independent real estate brokers, attorneys and other vendors to facilitate the transaction.

We also have a corporate segment that consists of the corporate overhead and other smaller operations that are not included in the other segments.

(2) Related Party Transactions

We have historically conducted business with FNF. We have various agreements with FNF under which we have provided title agency services, software development and other data services. Additionally, we have been allocated corporate costs from FIS and will continue to receive certain corporate services from FIS for a period of time. A summary of these agreements in effect through September 30, 2008 is as follows:

Agreements to provide title agency services. These agreements allow us to provide services to existing customers through loan facilitation transactions, primarily with large national lenders. The arrangement involves providing title agency services which result in the issuance of title policies on behalf of title insurance underwriters owned by FNF and its subsidiaries. Subject to certain early termination provisions for cause, each of these agreements may be terminated upon five years' prior written notice, which notice may not be given until after the fifth anniversary of the effective date of each agreement, which ranges from July 2004 through September 2006 (thus effectively resulting in a minimum ten year term and a rolling one-year term thereafter). Under these agreements, we earn commissions which, in aggregate, are equal to approximately 88% of the total title premium from title policies that we place with subsidiaries of FNF. We also perform similar functions in connection with trustee sale guarantees, a form of title insurance that subsidiaries of FNF issue as part of the foreclosure process on a defaulted loan.

Agreements to provide software development and services. These agreements govern the fee structure under which we are paid for providing software development and services to FNF which consist of developing software for use in the title operations of FNF.

**LENDER PROCESSING SERVICES, INC.
AND SUBSIDIARIES AND AFFILIATES**

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS (Unaudited) Continued

Arrangements to provide other data services. Under these arrangements, we are paid for providing other data services to FNF, which consist primarily of data services required by the title insurance operations.

A detail of related party items included in revenues for the three and nine months ended September 30, 2008 and 2007 is as follows (in millions):

	Three months ended		Nine months ended	
	September 30		September 30	
	2008	2007	2008	2007
Title agency commissions	\$ 56.8	\$ 34.7	\$ 123.6	\$ 103.0
Software development revenue	13.7	15.9	41.8	44.6
Other data related services	2.5	4.9	9.6	14.9
Total revenues	\$ 73.0	\$ 55.5	\$ 175.0	\$ 162.5

Title plant access and title production services. Under these agreements, we obtain access to FNF's title plants for real property located in various states, including access to their online databases, physical access to title records, use of space, image system use, and use of special software, as well as other title production services. For the title plant access, we pay monthly fees (subject to certain minimum charges) based on the number of title reports or products ordered and other services received. For the title production services, we pay for services based on the number of properties searched, subject to certain minimum use. The title plant access agreement has a term of 3 years beginning in November 2006 and is automatically renewable for successive 3 year terms unless either party gives 30 days prior written notice. The title production services agreement can be terminated by either party upon 30 days prior written notice.

Agreements to provide administrative corporate support services to and from FIS and from FNF. Historically, FNF has provided to FIS certain administrative corporate support services relating to general management, statutory accounting, claims administration, and other administrative support services. Prior to the spin-off, as a part of FIS, we also received these administrative corporate support services from FNF. In connection with the spin-off, we entered into a separate agreement with FNF for the provision of certain of these administrative corporate support services by FNF. In addition, prior to the spin-off, FIS provided general management, accounting, treasury, payroll, human resources, internal audit, and other corporate administrative support services to us. In connection with the spin-off, we entered into corporate services agreements with FIS under which we receive from FIS, and we provide to FIS, certain transitional corporate support services. The pricing for all of these services, both from FNF and FIS, and to FIS, is on an at-cost basis. The term of the corporate services agreements is two years, subject to early termination because the services are no longer required by the party receiving the services or upon mutual agreement of the parties and subject to extension in certain circumstances. Management believes the methods used to allocate the amounts included in these financial statements for corporate services are reasonable.

Corporate aircraft use agreements. Historically the Company has had access to certain corporate aircraft owned by FNF and by FIS. In connection with the spin-off, the Company was added as a co-obligor of the aircraft lease obligations for the aircraft leased by FIS, and pursuant to an aircraft interchange agreement, LPS was included as an additional permitted user of corporate aircraft leased by FNF. FNF will also continue to be a permitted user of any aircraft leased by FIS or LPS. LPS was also added as a party to the aircraft cost sharing agreement that was previously between FNF and FIS. Under this agreement, the Company and FIS share the costs of one of FNF's aircraft that is used by all of the entities. The cost for use of each aircraft under the aircraft interchange agreement is calculated on the same basis and reflects the costs attributable to the time the aircraft is in use by the user. The aircraft interchange agreement is terminable by any party on 30 days prior notice. The costs under the aircraft cost sharing agreement are shared equally among FNF, FIS and the Company, and the agreement remains in effect so long as FNF has possession or use of the aircraft (or any replacement) but may be terminated at any time with the

consent of FNF, FIS and the Company.

Real estate management, real estate lease and equipment lease agreements. In connection with the spin-off and the transfer of the real property located at the Company's corporate headquarters campus from FIS to LPS, the Company entered into new leases with FNF and FIS, as tenants, as well as a new sublease with FNF, as landlord, for office space on the Company's headquarters corporate campus. The Company also entered into a new

Table of Contents

**LENDER PROCESSING SERVICES, INC.
AND SUBSIDIARIES AND AFFILIATES**

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS (Unaudited) Continued

property management agreement with FNF for an office building located on the corporate campus with the Company's headquarters. Included in the Company's expenses are amounts paid to FNF for the lease of certain equipment and the sublease of certain office space, furniture and furnishings at the Company's headquarters location. In addition, the Company's revenues include amounts paid by FNF and FIS for the lease of office space located at the Company's corporate headquarters and business operations as well as revenues for property management services for FNF for the office building located on the corporate campus with the Company's headquarters.

Licensing, cost sharing, business processing and other agreements. These agreements provide for the reimbursement of certain amounts from FNF and FIS related to various licensing and cost sharing agreements, as well as the payment of certain amounts by the Company to FNF or its subsidiaries in connection with our use of certain intellectual property or other assets of or services by FNF.

A detail of related party items included in expenses for the three and nine months ended September 30, 2008 and 2007 is as follows (in millions):

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2008	2007	2008	2007
Title plant information expense	\$ 1.9	\$ 1.6	\$ 6.6	\$ 4.2
Corporate services	3.5	9.3	31.1	29.1
Licensing, leasing and cost sharing agreements	(0.7)	(2.5)	(6.0)	(12.0)
Total expenses	\$ 4.7	\$ 8.4	\$ 31.7	\$ 21.3

We believe the amounts earned from or charged by FNF or FIS under each of the foregoing service arrangements are fair and reasonable. We believe that the approximately 88% aggregate commission rate on title insurance policies is consistent with the blended rate that would be available to a third party title agent given the amount and the geographic distribution of the business produced and the low risk of loss profile of the business placed. The software development services provided to FNF are priced within the range of prices we offer to third parties. These transactions between us and FIS and FNF are subject to periodic review for performance and pricing.

Other related party transactions:

Investment by FNF in Fidelity National Real Estate Solutions, Inc.

On December 31, 2006, FNF contributed \$52.5 million to Fidelity National Real Estate Solutions, Inc. (FNRES), an FIS subsidiary, for approximately 61% of the outstanding shares of FNRES. As a result, since December 31, 2006, FIS no longer consolidated FNRES, but recorded the remaining 39% interest as an equity investment. On June 16, 2008, FIS contributed its equity investment in FNRES to LPS in the spin-off (Note 1), which totaled \$26.7 million and \$30.5 million as of September 30, 2008 and December 31, 2007, respectively. LPS recorded equity losses (net of tax) from its investment in FNRES of \$1.5 million and \$0.8 million for the three months ended September 30, 2008 and 2007, respectively, and \$3.9 million and \$2.5 million for the nine months ended September 30, 2008 and 2007, respectively.

(3) Unaudited Pro Forma Net Earnings per Share

The basic weighted average shares and common stock equivalents are generally computed in accordance with Statement of Financial Accounting Standards (SFAS) No. 128, *Earnings per Share*, using the treasury stock method. However, due to the nature and timing of the spin-off, the number of outstanding shares issued in the capitalization of the Company were the only shares outstanding prior to the spin-off (Note 1). As such, management believes the resulting GAAP earnings per share basic and GAAP earnings per share diluted measures are not meaningful for the three and nine months ended September 30, 2008, and therefore, the calculation has been excluded from the

Edgar Filing: Lender Processing Services, Inc. - Form 10-Q

Consolidated and Combined Statements of Earnings and the Notes thereto.

Pro forma weighted average shares outstanding basic, for the three months ended September 30, 2008, is calculated using the number of shares issued by LPS on July 2, 2008, as if the shares had been issued on July 1,

12

Table of Contents

**LENDER PROCESSING SERVICES, INC.
AND SUBSIDIARIES AND AFFILIATES**

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS (Unaudited) Continued

2008. Pro forma weighted average shares outstanding diluted, for the three months ended September 30, 2008, is calculated using the same number of shares as the pro forma weighted average shares outstanding basic, plus common stock equivalents from stock awards. Pro forma weighted average shares outstanding basic, for the nine months ended September 30, 2008, is calculated using the same number of shares as the average of the number of shares used to calculate the pro forma weighted average shares outstanding basic for the three months ended March 31, June 30 and September 30, 2008. Pro forma weighted average shares outstanding diluted, for the nine months ended September 30, 2008, is calculated using the same number of shares as the average of the number of shares used to calculate the pro forma weighted average shares outstanding diluted for the three months ended March 31, June 30 and September 30, 2008.

The following table summarizes the pro forma earnings per share for the three and nine months ending September 30, 2008 (in thousands, except per share amounts):

	Three months ended September 30, 2008	Nine months ended September 30, 2008
Pro forma weighted average shares outstanding basic	94,667	95,551
Plus: Pro forma common stock equivalent shares	556	412
Pro forma weighted average shares outstanding diluted	95,223	95,963
Pro forma basic net earnings per share	\$ 0.54	\$ 1.85
Pro forma diluted net earnings per share	\$ 0.54	\$ 1.84

Options to purchase approximately 4.5 million shares of our common stock for the three months ended September 30, 2008 were not included in the computation of diluted earnings per share because they were antidilutive.

(4) Acquisitions

In May 2008, we acquired McDash Analytics, LLC for \$15.5 million (net of cash acquired) which resulted in the recognition of \$10.6 million of goodwill and \$4.4 million of other intangible assets and software.

In June 2007, we acquired Espiel, Inc. and Financial Systems Integrators, Inc. for \$43.3 million (net of cash acquired) which resulted in the recognition of \$32.4 million of goodwill and \$12.4 million of other intangible assets and software.

(5) Long-Term Debt

Long-term debt as of September 30, 2008 consisted of the following (in thousands):

	September 30, 2008
Term A Loan, secured, interest payable at LIBOR plus 2.50% (6.43% at September 30, 2008), quarterly principal amortization, maturing July 2013	\$ 665,000
Term B Loan, secured, interest payable at LIBOR plus 2.50% (6.43% at September 30, 2008), quarterly principal amortization, maturing July 2014	508,725
Revolving Loan, secured, interest payable at LIBOR plus 2.50% (Eurocurrency Borrowings), Fed-funds plus 2.50% (Swingline Borrowings) or Prime plus 1.50% (Base Rate Borrowings) (6.43%, 4.53% or 6.50%, respectively, at September 30, 2008), maturing July 2013. Total of

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS (Unaudited) Continued

On July 2, 2008, we entered into a Credit Agreement (the "Credit Agreement") among JPMorgan Chase Bank, N.A., as Administrative Agent, Swing Line Lender and Letters of Credit Issuer and various other lenders who are parties to the Credit Agreement. The Credit Agreement consists of: (i) a 5-year revolving credit facility in an aggregate principal amount outstanding at any time not to exceed \$140.0 million (with a \$25.0 million sub-facility for Letters of Credit); (ii) a Term A Loan in an initial aggregate principal amount of \$700.0 million; and (iii) a Term B Loan in an initial aggregate principal amount of \$510.0 million. Proceeds from disbursements under the 5-year revolving credit facility are to be used for general corporate purposes. Our debt obligations issued to FIS as described in Note 1 consisted of the Term A Loan, the Term B Loan and the Notes described below.

The loans under the Credit Agreement bear interest at a floating rate, which is an applicable margin plus, at our option, either (a) the Eurodollar (LIBOR) rate or (b) the higher of (i) the prime rate or (ii) the federal funds rate plus 0.5% (the higher of clauses (i) and (ii), the "ABR rate"). The annual margin on the Term A Loan and the revolving credit facility, for the first six months after issuance, is 2.5% in the case of LIBOR loans and 1.5% in the case of ABR rate loans, and thereafter a percentage per annum to be determined in accordance with a leverage ratio-based pricing grid; and on the Term B Loan is 2.5% in the case of LIBOR loans, and 1.5% in the case of ABR rate loans.

In addition to the scheduled principal payments, the Term Loans are (with certain exceptions) subject to mandatory prepayment upon issuances of debt, casualty and condemnation events, and sales of assets, as well as from up to 50% of excess cash flow (as defined in the Credit Agreement) in excess of an agreed threshold commencing with the cash flow for the year ended December 31, 2009. Voluntary prepayments of the loans are generally permitted at any time without fee upon proper notice and subject to a minimum dollar requirement. However, optional prepayments of the Term B Loan in the first year after issuance made with the proceeds of certain loans having an interest spread lower than the Term B Loan are required to be made at 101% of the principal amount repaid. Commitment reductions of the revolving credit facility are also permitted at any time without fee upon proper notice. The revolving credit facility has no scheduled principal payments, but it will be due and payable in full on July 2, 2013.

The obligations under the Credit Agreement are jointly and severally, unconditionally guaranteed by certain of our domestic subsidiaries. Additionally, the Company and such subsidiary guarantors pledged substantially all our respective assets as collateral security for the obligations under the Credit Agreement and our respective guarantees.

The Credit Agreement contains customary affirmative, negative and financial covenants including, among other things, limits on the creation of liens, limits on the incurrence of indebtedness, restrictions on investments and dispositions, limits on the payment of dividends and other restricted payments, a minimum interest coverage ratio and a maximum leverage ratio. Upon an event of default, the administrative agent can accelerate the maturity of the loan. Events of default include events customary for such an agreement, including failure to pay principal and interest in a timely manner and breach of covenants. These events of default include a cross-default provision that permits the lenders to declare the Credit Agreement in default if (i) we fail to make any payment after the applicable grace period under any indebtedness with a principal amount in excess of a specified amount or (ii) we fail to perform any other term under any such indebtedness, as a result of which the holders thereof may cause it to become due and payable prior to its maturity.

On July 2, 2008, we issued senior notes (the "Notes") in an aggregate principal amount of \$375.0 million. The Notes were issued pursuant to an Indenture dated July 2, 2008 (the "Indenture") among the Company, the guarantors party thereto and U.S. Bank Corporate Trust Services, as Trustee.

The Notes were also subject to a Registration Rights Agreement dated July 2, 2008 (the "Registration Rights Agreement") among the Company, the guarantors parties thereto, and J.P. Morgan Securities Inc., Banc of America Securities LLC and Wachovia Capital Markets, LLC, as representatives of the several initial purchasers. The Notes were initially unregistered under the Securities Act of 1933, but on October 15, 2008 were exchanged for registered notes pursuant to the Registration Statement filed on Form S-4 that became effective on September 10, 2008.

The Notes bear interest at a rate of 8.125% per annum. Interest payments are due semi-annually each January 1 and July 1, with the first interest payment due on January 1, 2009. The maturity date of the Notes is July 1, 2016.

Table of Contents

**LENDER PROCESSING SERVICES, INC.
AND SUBSIDIARIES AND AFFILIATES**

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS (Unaudited) Continued

The Notes are our general unsecured obligations. Accordingly, they rank equally in right of payment with all of our existing and future unsecured senior debt; senior in right of payment to all of our future subordinated debt; effectively subordinated to our existing and future secured debt to the extent of the assets securing such debt, including all borrowings under our credit facilities; and effectively subordinated to all of the liabilities of our non-guarantor subsidiaries, including trade payables and preferred stock.

The Notes are guaranteed by each existing and future domestic subsidiary that is a guarantor under our credit facilities. The guarantees are general unsecured obligations of the guarantors. Accordingly, they rank equally in right of payment with all existing and future unsecured senior debt of our guarantors; senior in right of payment with all existing and future subordinated debt of such guarantors; and effectively subordinated to such guarantors' existing and future secured debt to the extent of the assets securing such debt, including the guarantees by the guarantors of obligations under our credit facilities.

LPS has no independent assets or operations, our subsidiaries' guarantees are full and unconditional and joint and several, and our subsidiaries, other than subsidiary guarantors, are minor. There are no significant restrictions on the ability of LPS or any of the subsidiary guarantors to obtain funds from any of our subsidiaries by dividend or loan.

We may redeem some or all of the Notes on or after July 1, 2011, at the redemption prices described in the Indenture, plus accrued and unpaid interest. Upon the occurrence of a change of control, unless we have exercised our right to redeem all of the Notes as described above, each holder may require us to repurchase such holder's Notes, in whole or in part, at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest to the purchase date.

The Indenture contains customary events of default, including a cross default provision that, with respect to any other debt of the Company or any of our restricted subsidiaries having an outstanding principal amount equal to or more than a specified amount in the aggregate for all such debt, occurs upon (i) an event of default that results in such debt being due and payable prior to its scheduled maturity or (ii) failure to make a principal payment. Upon the occurrence of an event of default (other than a bankruptcy default with respect to the Company), the trustee or holders of at least 25% of the Notes then outstanding may accelerate the Notes by giving us appropriate notice. If, however, a bankruptcy default occurs with respect to the Company, then the principal of and accrued interest on the Notes then outstanding will accelerate immediately without any declaration or other act on the part of the trustee or any holder.

Interest Rate Swaps

On July 10, 2008, the Company entered into the following 2-year amortizing interest rate swap transaction converting a portion of our interest rate exposure on our floating rate debt from variable to fixed:

Amortization Period	Notional Amount (in millions)	Bank Pays Variable Rate of(1)	LPS pays Fixed Rate of(2)
July 31, 2008 to December 31, 2008	\$ 420.0	1 Month LIBOR	3.275%
December 31, 2008 to March 31, 2009	\$ 400.0	1 Month LIBOR	3.275%
March 31, 2009 to June 30, 2009	\$ 385.0	1 Month LIBOR	3.275%
June 30, 2009 to September 30, 2009	\$ 365.0	1 Month LIBOR	3.275%
September 30, 2009 to December 31, 2009	\$ 345.0	LIBOR	3.275%
December 31, 2009 to March 31, 2010	\$ 330.0		3.275%

March 31, 2010 to June 30, 2010	\$ 310.0	1 Month LIBOR	3.275%
June 30, 2010 to July 31, 2010	\$ 290.0	1 Month LIBOR	3.275%

(1) 3.93% as of
September 30,
2008.

(2) In addition to
the fixed rate
paid under the
swaps, we pay
an applicable
margin to our
bank lenders on
the Term A
Loan, Term B
Loan and
Revolving Loan
equal to 2.50%
as of
September 30,
2008.

**LENDER PROCESSING SERVICES, INC.
AND SUBSIDIARIES AND AFFILIATES**

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS (Unaudited) Continued

Subsequent to quarter end, on October 6, 2008, the Company entered into an additional interest rate swap transaction converting a portion of our interest rate exposure on our floating rate debt from variable to fixed. Under the agreement, the Company receives a one month LIBOR rate of interest in exchange for paying a fixed rate of 2.78% until December 31, 2010 on \$350 million of notional principal amount.

We have designated these interest rate swaps as cash flow hedges in accordance with SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*. The estimated fair value of these cash flow hedges results in a liability of \$0.2 million as of September 30, 2008, which is included in the accompanying consolidated balance sheets in other noncurrent liabilities and as a component of accumulated other comprehensive earnings, net of deferred taxes. A portion of the amount included in accumulated other comprehensive earnings will be reclassified into interest expense as a yield adjustment as interest payments are made on the Term Loans. In accordance with the provisions of SFAS No. 157, *Fair Value Measurements*, the inputs used to determine the estimated fair value of our interest rate swaps are Level 2-type measurements.

It is our policy to execute such instruments with credit-worthy banks and not to enter into derivative financial instruments for speculative purposes.

Principal maturities at September 30, 2008 for the next five years and thereafter are as follows (in thousands):

2008	\$ 1,280
2009	145,100
2010	145,100
2011	145,100
2012	145,100
Thereafter	967,050
Total	\$ 1,548,730

(6) Income Taxes

During 2007, we adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). As a result of the adoption of FIN 48, we had no change to reserves for uncertain tax positions. Interest and penalties on accrued but unpaid taxes are classified in the consolidated and combined financial statements as income tax expense. There were no unrecognized tax benefits for any period presented.

(7) Commitments and Contingencies***Litigation***

In the ordinary course of business, we are involved in various pending and threatened litigation matters related to our operations, some of which include claims for punitive or exemplary damages. We believe that no actions, other than the matters listed below, depart from customary litigation incidental to our business. As background to the disclosure below, please note the following:

These matters raise difficult and complicated factual and legal issues and are subject to many uncertainties and complexities.

In these matters, plaintiffs seek a variety of remedies including equitable relief in the form of injunctive and other remedies and monetary relief in the form of compensatory damages. In some cases, the monetary damages sought include punitive or treble damages. None of the cases described below includes a specific statement as to the dollar amount of damages demanded. Instead, each of the cases includes a demand in an amount to be proved at trial.

For the reasons specified above, it is not possible to make meaningful estimates of the amount or range of loss that could result from these matters at this time. We review these matters on an ongoing basis and follow the provisions of SFAS No. 5, *Accounting for Contingencies*, when making accrual and disclosure decisions.

**LENDER PROCESSING SERVICES, INC.
AND SUBSIDIARIES AND AFFILIATES**

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS (Unaudited) Continued

When assessing reasonably possible and probable outcomes, we base our decision on our assessment of the ultimate outcome following all appeals.

We intend to vigorously defend each of these matters, and we do not believe that the ultimate disposition of these lawsuits will have a material adverse impact on our financial position.

National Title Insurance of New York, Inc. Litigation

One of our subsidiaries, National Title Insurance of New York, Inc., has been named in twelve putative class action lawsuits. The complaints in these lawsuits are substantially similar and allege that the title insurance underwriters named as defendants, including National Title Insurance of New York, Inc., engaged in illegal price fixing as well as market allocation and division that resulted in higher title insurance prices for consumers. The complaints seek treble damages in an amount to be proved at trial and an injunction against the defendants from engaging in any anti-competitive practices under the Sherman Antitrust Act and various state statutes. A motion was filed before the Multidistrict Litigation Panel to consolidate and/or coordinate these actions in the United States District Court in the Southern District of New York. However, that motion was denied. The cases are generally being consolidated before one district court judge in each state and scheduled for the filing of consolidated complaints and motion practice.

Harris, Ernest and Mattie v. FIS Foreclosure Solutions, Inc.

A putative class action was filed on January 16, 2008 as an adversary proceeding in the Bankruptcy Court in the Southern District of Texas. The complaint alleges that LPS engaged in unlawful attorney fee-splitting practices in its default management business. The complaint seeks declaratory and equitable relief reversing all attorneys' fees charged to debtors in bankruptcy court and disgorging any such fees we collected. We filed a Motion to Dismiss, and the Bankruptcy Court dismissed three of the six counts contained in the complaint. We also filed a Motion to Withdraw the Reference and remove the case to federal district court as the appropriate forum for the resolution of the allegations contained in the complaint. The Bankruptcy Court recommended removal to the U.S. District Court for the Southern District of Texas, and the U.S. District Court accepted that recommendation in April 2008.

Off-Balance Sheet Arrangements

We do not have any material off-balance sheet arrangements other than operating leases and the escrow and Section 1031 tax deferred exchange arrangements described below.

Escrow Arrangements

In conducting our title agency, closing and section 1031 tax deferred exchange operations, we routinely hold customers' assets in escrow and investment accounts, pending completion of real estate and exchange transactions. Certain of these amounts are maintained in segregated accounts and have not been included in the accompanying consolidated and combined balance sheets. As an incentive for holding deposits at certain banks, we have ongoing programs for realizing economic benefits through favorable arrangements with these banks.

We conduct our section 1031 tax deferred exchange operations through our subsidiary Investment Property Exchange Services, Inc. (IPEX). Pursuant to IPEX's customary contractual arrangements with its customers, IPEX provides qualified intermediary services for 1031 tax deferred exchanges of property on behalf of its customer, and then holds the proceeds from the sale transaction until such time as the customer instructs IPEX to use the principal balance from the sale transaction in connection with the acquisition of a replacement property. These arrangements generally last for a period of six months or less. LPS guarantees the performance of IPEX's obligations with respect to these arrangements, including IPEX's proper application of a customer's principal balance in the acquisition of a replacement property. As of September 30, 2008, IPEX's customers' balances were held in investment accounts that were largely invested in short-term, high grade investments that minimize the risk to its customers' principal balances. None of the investments in the portfolio included auction rate securities or equities. However, as a result of recent illiquidity in the securities marketplace, certain investments maintained on behalf of our customers have experienced declines in market value. As of September 30, 2008, the aggregate market value of all investments held in escrow in our title agency, closing and IPEX operations totaled \$892.7 million while our contingent liability to our customers totaled

Table of Contents

**LENDER PROCESSING SERVICES, INC.
AND SUBSIDIARIES AND AFFILIATES**

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS (Unaudited) Continued

\$932.4 million. We believe that such declines in value are largely temporary in nature and there will be sufficient liquidity to complete our section 1031 tax deferred exchange obligations as they become payable. In accordance with the provisions of SFAS 157, the inputs used to determine the estimated fair value of the investments are Level 1-type measurements.

(8) Stock Option Plans

Historically, our employees have participated in FIS's, FNF's and old FNF's stock incentive plans that provide for the granting of incentive and nonqualified stock options, restricted stock and other stock-based incentive awards to officers and key employees. Since November 9, 2006, all options and awards held by our employees were issuable in the common stock of FIS. Prior to November 9, 2006, certain awards held by our employees were issuable in both old FNF and FIS common stock. On November 9, 2006, as part of the closing of the merger between FIS and old FNF, FIS assumed certain options and restricted stock grants that the Company's employees and directors held under various old FNF stock-based compensation plans and all these awards were converted into awards issuable in FIS common stock.

We provided for stock compensation expense of \$5.8 million and \$3.6 million for the three month periods and \$14.9 million and \$10.8 million for the nine month periods ended September 30, 2008 and 2007, respectively, which is included in selling, general and administrative expenses in the accompanying consolidated and combined statements of earnings.

On July 2, 2008, in connection with the spin-off, all FIS options and FIS restricted stock awards held by our employees prior to the spin-off were converted into options and awards issuable in our common stock, authorized by a new stock option plan. We measured the fair value of the awards using a Black-Scholes model with appropriate assumptions both before and after the date of the spin-off.

On August 13, 2008, we granted 351,750 shares of restricted stock with a weighted average grant date fair value of \$34.58 per share. Also, on that date, we granted options to purchase 1,682,500 shares of common stock with a weighted average exercise price of \$34.58 per share and a weighted average fair value of \$8.55 per share. The following assumptions were used for this stock option grant: the risk free interest rate was 3.2%, the volatility factor for the expected market price of the common stock was 25%, the expected dividend yield was 1.1% and weighted average expected life was 5 years.

The exercise price and number of shares subject to each FIS option and FIS restricted stock award were adjusted to reflect the differences in FIS's and our common stock prices. As of September 30, 2008, our employees held approximately 6.8 million outstanding LPS options, which have an average exercise price of \$31.12 per share and a weighted average remaining contractual life of 5.9 years. Of the options, approximately 1.9 million were exercisable as of September 30, 2008 at an average exercise price of \$22.67 per share with a weighted average remaining contractual life of 5.3 years. As of September 30, 2008, our employees held approximately 0.5 million outstanding LPS restricted stock awards.

Table of Contents

Except as otherwise indicated or unless the context otherwise requires, all references to LPS, we, the Company, or the registrant are to Lender Processing Services, Inc., a Delaware corporation that was incorporated in December 2007 as a wholly-owned subsidiary of FIS, and its subsidiaries; all references to FIS, the former parent, or the holding company are to Fidelity National Information Services, Inc., a Georgia corporation formerly known as Certegy Inc., and its subsidiaries, that owned all of LPS's shares until July 2, 2008; all references to former FIS are to Fidelity National Information Services, Inc., a Delaware corporation, and its subsidiaries, prior to the Certegy merger described below; all references to old FNF are to Fidelity National Financial, Inc., a Delaware corporation that owned a majority of FIS's shares through November 9, 2006; and all references to FNF are to Fidelity National Financial, Inc. (formerly known as Fidelity National Title Group, Inc.), formerly a subsidiary of old FNF but now a stand-alone company that remains a related entity from an accounting perspective.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with Item 1: Consolidated and Combined Financial Statements (Unaudited) and the Notes thereto included elsewhere in this report. The discussion below contains forward-looking statements that involve a number of risks and uncertainties. Those forward-looking statements include all statements that are not historical facts, including statements about our beliefs and expectations. Forward-looking statements are based on management's beliefs, as well as assumptions made by and information currently available to management. Because such statements are based on expectations as to future economic performance and are not statements of historical fact, actual results may differ materially from those projected. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise. The risks and uncertainties to which forward-looking statements are subject include, but are not limited to: changes in general economic, business and political conditions, including changes in the financial markets; the effects of our substantial leverage on our ability to make acquisitions and invest in our business; the elimination of existing and potential customers as a result of failures and consolidations in the banking and financial services industries; changes to the laws, rules and regulations that regulate our businesses as a result of the current economic and financial environment; the impact of adverse changes in the level of real estate activity on demand for certain of our services; our ability to adapt our services to changes in technology or the marketplace; risks associated with protecting information security and privacy; the impact of any potential defects, development delays, installation difficulties or system failures on our business and reputation; risks associated with our spin-off from FIS, including those relating to our new stand-alone public company status and limitations on our strategic and operating flexibility as a result of the tax-free nature of the spin-off; and other risks and uncertainties detailed in Item 1A: Risk Factors of Part II of this report and in the Statement Regarding Forward-Looking Information, Risk Factors, and other sections of the Company's Form 10 and other filings with the Securities and Exchange Commission.

Overview

We are a leading provider of integrated technology and outsourced services to the mortgage lending industry, with market-leading positions in mortgage processing and default management services in the U.S. We have two reporting segments, Technology, Data and Analytics and Loan Transaction Services, which produced approximately 29% and 71%, respectively, of our revenues for the three months ended September 30, 2008, and 30% and 70%, respectively, of our revenues for the nine months ended September 30, 2008. A large number of financial institutions use our services, including 39 of the 50 largest banks in the U.S. based on 2007 rankings. Our technology solutions include our mortgage processing system, which processes over 50% of all U.S. residential mortgage loans by dollar volume. Our outsourced services include our default management services, which are used by mortgage lenders and servicers to reduce the expense of managing defaulted loans, and our loan facilitation services, which support most aspects of the closing of mortgage loan transactions to national lenders and loan servicers. Our integrated solutions create a strong value proposition for our customers across the life cycle of a mortgage. We believe that we will continue to benefit from the opportunity to cross-sell services across our broad customer base.

Table of Contents

Our Technology, Data and Analytics segment principally includes:

our mortgage processing services, which we conduct using our market-leading mortgage servicing platform and our team of experienced support personnel based primarily at our Jacksonville, Florida data center;

our Desktop application, a workflow system that assists our customers in managing business processes, which today is primarily used in connection with mortgage loan default management, but which has broader applications;

our other software and related service offerings, including our mortgage origination software, our real estate closing and title insurance production software and our middleware application which provides collaborative network connectivity among mortgage industry participants; and

our data and analytics businesses, the most significant of which are our alternative property valuations business, which provides a range of valuations other than traditional appraisals, our property records business, and our advanced analytic services, which assist our customers in their loan marketing or loss mitigation efforts.

Our Loan Transaction Services segment offers a range of services used mainly in the production of a mortgage loan, which we refer to as our loan facilitation services, and in the management of mortgage loans that go into default, which we refer to as default management services.

Our loan facilitation services include:

settlement services, which consist of title agency services, in which we act as an agent for title insurers, closing services, in which we assist in the closing of real estate transactions, and lien recording and release services;

appraisal services, which consist of traditional appraisal and appraisal management services; and

other origination services, which consist of real estate tax services, which provide lenders with information about the tax status of a property, flood zone information, which assists lenders in determining whether a property is in a federally designated flood zone, and qualified exchange intermediary services for customers who seek to engage in qualified exchanges under Section 1031 of the Internal Revenue Code.

Our default management services include, among others:

foreclosure management services, including access to a nationwide network of independent attorneys, document preparation and recording and other services;

property inspection and preservation services, designed to preserve the value of properties securing defaulted loans; and

asset management services, providing disposition services for our customers' real estate owned properties through a network of independent real estate brokers, attorneys and other vendors to facilitate the transaction.

Corporate overhead costs and other operations that are not included in our operating segments are included in Corporate and Other.

On June 20, 2008, FIS received a private letter ruling from the Internal Revenue Service with respect to the tax-free nature of the plan of restructuring and distribution, and the Company's registration statement on Form 10 with respect to the distribution was declared effective by the Securities and Exchange Commission. The spin-off was tax-free to FIS and its shareholders, and the debt-for-debt exchange undertaken in connection with the spin-off was tax-free to FIS.

Table of Contents

On July 2, 2008, FIS distributed to its shareholders a dividend of one-half share of our common stock, par value \$0.0001 per share, for each issued and outstanding share of FIS common stock held on June 24, 2008, which we refer to as the spin-off. The shares of the Company distributed to FIS shareholders on July 2, 2008 represented all of our issued and outstanding shares. Also on July 2, 2008, FIS exchanged 100% of our debt obligations for a like amount of FIS's existing Tranche B Term Loans issued under its Credit Agreement dated as of January 18, 2007. Following this debt-for-debt exchange, the portion of the existing Tranche B Term Loans acquired by FIS was retired. On July 3, 2008, we commenced regular way trading on the New York Stock Exchange under the trading symbol LPS. Prior to the spin-off, we were a wholly-owned subsidiary of FIS.

Recent Trends and Developments

Present economic conditions, as well as changes in financial markets, have affected and may continue to affect our results of operations. As a result of the weakening economy and, specifically, the declining housing market, mortgage origination rates around the country have decreased, while default rates have increased. These changes have contributed to a significant continued growth of our default services, partially offset by a decline in our loan origination services. Additionally, in part as a result of the rising mortgage delinquency and default rates, many banks and financial institutions are experiencing negative operating results, which, in some cases, has led to the failure and or consolidation of certain banks and financial institutions. Such failures and consolidations of banks and financial institutions, as well as the effects of legislation that has been or may be enacted in response to current conditions, may have an additional effect on our future results of operations.

Critical Accounting Policies

There have been no significant changes to our critical accounting policies since our Form 10 became effective on June 20, 2008.

Transactions with Related Parties

We have historically conducted business with FIS and its subsidiaries, FNF and its subsidiaries, and other related parties. See Note 2 to the Notes to Consolidated and Combined Financial Statements for a detailed description of all related party transactions.

Factors Affecting Comparability

The Consolidated and Combined Financial Statements included in this report that present our financial condition and operating results reflect the following significant transactions:

On July 2, 2008, we borrowed \$1,235.7 million under bank credit facilities, including \$25.7 million on a revolving credit facility. We also issued senior notes in an aggregate principal amount of \$375.0 million. Prior to July 2, 2008 we had no debt on the balance sheet and an insignificant amount of interest expense on the income statement.

As a result of the above transactions, the results of operations in the periods covered by the Consolidated and Combined Financial Statements may not be directly comparable.

Table of Contents**Comparisons of three and nine months ended September 30, 2008 and 2007****Consolidated Results of Operations Unaudited**

The following tables reflect certain amounts included in operating income in our consolidated and combined statements of earnings, the relative percentage of those amounts to total revenues, and the change in those amounts from the comparable prior year period.

Three months ended September 30, (in millions)	2008	2007	% of Revenue		Variance

Gross margin	36.0%	37.0%				
Selling, general and administrative expenses	178.7	160.6	12.9%	12.8%	(18.1)	-11.3%
Operating income	\$ 319.8	\$ 302.8	23.1%	24.2%	\$ 17.0	5.6%
Operating margin	23.1%	24.2%				

Processing and Services Revenues

Processing and services revenues increased \$47.2 million, or 11.1%, during the third quarter of 2008, and \$133.9 million, or 10.7%, during the first nine months of 2008. These increases were primarily driven by growth in Default Services as a result of continued growth in foreclosure volumes, partially offset by a decline in Loan Facilitation Services due to ongoing weakness in the housing market and the resulting impact on our loan origination services.

Cost of Revenues

Cost of revenues increased \$40.4 million, or 15.4%, during the third quarter of 2008, and \$98.8 million, or 12.5%, during the first nine months of 2008. Cost of revenues as a percentage of processing and services revenues increased from 61.5% during the third quarter of 2007 to 63.9% in the same period of 2008, and from 63.0% during the first nine months of 2007 to 64.0% in the same period of 2008. These increases are primarily due to a change in revenue mix resulting from growth in several of our default management services businesses, which have a higher cost of

revenue associated with their operations, combined with revenue declines from our higher margin Loan Facilitation Services, loan origination software sales, and data and analytic services. Additionally, the third quarter of 2007 includes an adjustment to reduce incentive compensation based on results for that period.

Gross Margin

Gross profit as a percentage of processing and services revenues (gross margin) declined from 38.5% during the third quarter of 2007 to 36.1% in the 2008 period, and from 37.0% during the first nine months of 2007 to 36.0% in the same period of 2008, as a result of the factors described above.

Table of Contents*Selling, General and Administrative Expenses*

Selling, general and administrative expenses increased \$8.2 million, or 15.9%, during the third quarter of 2008, and \$18.1 million, or 11.3%, during the first nine months of 2008. Selling, general and administrative expenses as a percentage of processing and services revenues was relatively consistent year over year. The increase in selling, general and administrative expenses during the first nine months of 2008 is primarily due to restructuring and spin-off related charges totaling \$5.5 million incurred prior to the spin-off transaction, as well as incremental public company costs and an increase in stock compensation and other incentive related costs.

Operating Income

Operating income decreased \$1.4 million, or 1.2%, during the third quarter of 2008 and increased \$17.0 million, or 5.6%, during the first nine months of 2008. Operating income as a percentage of processing and services revenues (operating margin) declined from 26.4% during the third quarter of 2007 to 23.5% in the 2008 period, and from 24.2% during the first nine months of 2007 to 23.1% in the 2008 period, as a result of the factors described above.

Segment Results of Operations Technology, Data and Analytics Unaudited

Three months ended September 30, (in millions)	2008	2007	% of Revenue		Variance

Operating margin	33.0%	32.2%				

Processing and Services Revenues

Processing and services revenues decreased nominally during the third quarter of 2008, and \$7.7 million, or 1.8%, during the first nine months of 2008 when compared to the prior year period. The decrease during the first nine months of 2008 was primarily driven by decreases in revenues in our loan origination software sales and data and

analytics services, partially offset by continued growth in our Desktop application.

Table of Contents

Cost of Revenues

Cost of revenues decreased \$4.4 million, or 5.6%, during the third quarter of 2008, and \$9.2 million, or 3.9%, during the first nine months of 2008 when compared to the prior year period. Cost of revenues as a percentage of processing and services revenues decreased from 56.1% during the third quarter of 2007 to 53.2% in the third quarter of 2008 and from 56.3% during the first nine months of 2007 to 55.1% in the 2008 period. These decreases are primarily due to a change in revenue mix resulting from growth in data access and loan activities in our mortgage processing operation, which carry a higher marginal contribution, as well as continued growth in our Desktop services. The impact of these changes was partially offset by revenue declines from our higher margin loan origination software sales and data and analytic services. Additionally, the third quarter of 2007 includes an adjustment to reduce incentive compensation based on results for that period.

Gross Margin

Gross margin increased from 43.9% during the third quarter of 2007 to 46.8% in the third quarter of 2008, and from 43.7% during the first nine months of 2007 to 44.9% in the same period in 2008, as a result of the factors described above.

Selling, General and Administrative Expenses

Selling, general and administrative expenses of \$15.8 million and \$49.5 million during the three and nine months ended September 30, 2008, respectively, were relatively flat to comparable balances in the prior year periods.

Operating Income

Operating income increased \$4.1 million, or 9.1%, during the third quarter of 2008, and \$1.1 million, or 0.8%, during the first nine months of 2008 when compared to the prior year periods. Operating margin increased from 32.3% during the third quarter of 2007 to 35.4% in the third quarter of 2008, and from 32.2% during the first nine months of 2007 to 33.0% in the same period of 2008, as a result of the factors described above.

Operating margin	23.0%	23.3%				

Processing and Services Revenues

Processing and services revenues increased \$46.1 million, or 15.9%, during the third quarter of 2008, and \$147.8 million, or 17.8%, during the first nine months of 2008 when compared to the prior year periods. The increase during the three and nine months ended September 30, 2008 was primarily driven by growth of 97.1% and 85.3%, respectively, in our default management services due to strong market growth as well as continued market share gains. These increases were partially offset by declines in our loan facilitation services, which includes our front-end loan origination related services, due to ongoing weakness in the housing market. The most significant declines in our loan facilitation services included appraisal, tax, settlement and our 1031 property exchange services.

Cost of Revenues

Cost of revenues increased \$45.2 million, or 24.5%, during the third quarter of 2008, and \$112.8 million, or 20.4%, during the first nine months of 2008 when compared to the prior year periods. Cost of revenues as a percentage of processing and services revenues increased from 63.8% during the third quarter of 2007 to 68.5% in the 2008 period, and from 66.7% during the first nine months of 2007 to 68.2% in the 2008 period. The increases during 2008 are primarily due to the growth in several of our default management services operations, including field services and asset management solutions, which have a higher cost of revenue associated with their operations.

Gross Margin

Gross margin decreased from 36.2% during the third quarter of 2007 to 31.5% in the 2008 period, and from 33.3% during the first nine months of 2007 to 31.8% in the same period of 2008. The decline in gross margin is mainly due to a change in revenue mix as the year-over-year declines in origination and refinance related revenues, which traditionally carry a higher margin contribution, were offset by significant growth in certain of our lower margin default management services operations.

Table of Contents

Selling, General and Administrative Expenses

Selling, general and administrative expenses decreased \$0.1 million, or 0.4%, during the third quarter of 2008, and increased \$3.1 million, or 3.7%, during the first nine months of 2008 when compared to the prior year periods. However, selling, general and administrative expenses as a percentage of processing and services revenues decreased from 9.8% during the third quarter of 2007 to 8.4% in the same period of 2008, and from 10.0% during the first nine months of 2007 to 8.8% in the 2008 period. The decrease in selling, general and administrative expenses as a percentage of processing and services revenues is primarily due to significant growth in our default management services and the resulting leverage of our overhead infrastructure.

Operating Income

Operating income increased \$1.0 million, or 1.3%, during the third quarter of 2008, and \$31.9 million, or 16.5%, during the first nine months of 2008 when compared to the prior year periods. Operating margin decreased from 26.4% during the third quarter of 2007 to 23.0% in the third quarter of 2008, and from 23.3% during the first nine months of 2007 to 23.0% in the 2008 period, due to the factors described above.

Segment Results of Operations Corporate and Other

The Corporate and Other segment consists of corporate overhead costs that are not included in the other segments as well as certain smaller operations. Net expenses for this segment increased from \$9.2 million during the third quarter of 2007 to \$15.6 million in the third quarter of 2008, and from \$26.9 million during the first nine months of 2007 to \$42.9 million in the same period in 2008. The increase in net corporate expenses for both the three and nine months ended September 30, 2008 is primarily due to spin-off related costs incurred in 2008 as well as higher incentive and stock related compensation costs. Stock related compensation costs were \$5.8 million and \$3.6 million for the three months ended September 30, 2008 and 2007, respectively, and \$14.9 million and \$10.8 million for the nine months ended September 30, 2008 and 2007, respectively.

Liquidity and Capital Resources

Cash Requirements

Our cash requirements include cost of revenues, selling, general and administrative expenses, income taxes, debt service payments, capital expenditures, systems development expenditures, stockholder dividends, and business acquisitions. Our principal sources of funds are cash generated by operations and borrowings.

At September 30, 2008, we had cash on hand of \$49.4 million and debt, including current portion, of \$1,548.7 million. We expect that cash flows from operations over the next twelve months will be sufficient to fund our operating cash requirements and pay principal and interest on our outstanding debt absent any unusual circumstances such as acquisitions or adverse changes in the business environment.

We intend to pay quarterly cash dividends to our stockholders of \$0.10 per share, although the payment of dividends is at the discretion of our Board and subject to any limits in our debt or other agreements and the requirements of state and federal law.

Capital Expenditures

Our principal capital expenditures are for computer software (purchased and internally developed) and additions to property and equipment. We spent approximately \$38.3 million and \$34.5 million on capital expenditures during the nine months ended September 30, 2008 and 2007, respectively, primarily on equipment, purchased software and internally developed software.

Financing

On July 2, 2008, we entered into a Credit Agreement (the "Credit Agreement") among JPMorgan Chase Bank, N.A., as Administrative Agent, Swing Line Lender and Letters of Credit Issuer and various other lenders who are parties to the Credit Agreement. The Credit Agreement consists of: (i) a 5-year revolving credit facility in an

Table of Contents

aggregate principal amount outstanding at any time not to exceed \$140.0 million (with a \$25.0 million sub-facility for Letters of Credit) under which no borrowings are outstanding at September 30, 2008; (ii) a Term A Loan in an initial aggregate principal amount of \$700.0 million under which \$665.0 million is outstanding at September 30, 2008; and (iii) a Term B Loan in an initial aggregate principal amount of \$510.0 million under which \$508.7 million is outstanding at September 30, 2008. Proceeds from disbursements under the 5-year revolving credit facility are to be used for general corporate purposes.

The loans under the Credit Agreement bear interest at a floating rate, which is an applicable margin plus, at our option, either (a) the Eurodollar (LIBOR) rate or (b) the higher of (i) the prime rate or (ii) the federal funds rate plus 0.5% (the higher of clauses (i) and (ii), the ABR rate). The annual margin on the Term A Loan and the revolving credit facility, for the first six months after issuance, is 2.5% in the case of LIBOR loans and 1.5% in the case of ABR rate loans, and thereafter a percentage per annum to be determined in accordance with a leverage ratio-based pricing grid; and on the Term B Loan is 2.5% in the case of LIBOR loans, and 1.5% in the case of ABR rate loans.

In addition to the scheduled principal payments, the Term Loans are (with certain exceptions) subject to mandatory prepayment upon issuances of debt, casualty and condemnation events, and sales of assets, as well as from up to 50% of excess cash flow (as defined in the Credit Agreement) in excess of an agreed threshold commencing with the cash flow for the year ended December 31, 2009. Voluntary prepayments of the loans are generally permitted at any time without fee upon proper notice and subject to a minimum dollar requirement. However, optional prepayments of the Term B Loan in the first year after issuance made with the proceeds of certain loans having an interest spread lower than the Term B Loan are required to be made at 101% of the principal amount repaid. Commitment reductions of the revolving credit facility are also permitted at any time without fee upon proper notice. The revolving credit facility has no scheduled principal payments, but it will be due and payable in full on July 2, 2013.

The obligations under the Credit Agreement are jointly and severally, unconditionally guaranteed by certain of our domestic subsidiaries. Additionally, the Company and such subsidiary guarantors pledged substantially all our respective assets as collateral security for the obligations under the Credit Agreement and our respective guarantees.

The Credit Agreement contains customary affirmative, negative and financial covenants including, among other things, limits on the creation of liens, limits on the incurrence of indebtedness, restrictions on investments and dispositions, limits on the payment of dividends and other restricted payments, a minimum interest coverage ratio and a maximum leverage ratio. Upon an event of default, the administrative agent can accelerate the maturity of the loan. Events of default include events customary for such an agreement, including failure to pay principal and interest in a timely manner and breach of covenants. These events of default include a cross-default provision that permits the lenders to declare the Credit Agreement in default if (i) we fail to make any payment after the applicable grace period under any indebtedness with a principal amount in excess of a specified amount or (ii) we fail to perform any other term under any such indebtedness, as a result of which the holders thereof may cause it to become due and payable prior to its maturity.

On July 2, 2008, we issued senior notes (the Notes) in an aggregate principal amount of \$375.0 million. The Notes were issued pursuant to an Indenture dated July 2, 2008 (the Indenture) among the Company, the guarantors party thereto and U.S. Bank Corporate Trust Services, as Trustee.

The Notes bear interest at a rate of 8.125% per annum. Interest payments are due semi-annually each January 1 and July 1, with the first interest payment due on January 1, 2009. The maturity date of the Notes is July 1, 2016.

The Notes are our general unsecured obligations. Accordingly, they rank equally in right of payment with all of our existing and future unsecured senior debt; senior in right of payment to all of our future subordinated debt; effectively subordinated to our existing and future secured debt to the extent of the assets securing such debt, including all borrowings under our credit facilities; and effectively subordinated to all of the liabilities of our non-guarantor subsidiaries, including trade payables and preferred stock.

The Notes are guaranteed by each existing and future domestic subsidiary that is a guarantor under our credit facilities. The guarantees are general unsecured obligations of the guarantors. Accordingly, they rank equally in right of payment with all existing and future unsecured senior debt of our guarantors; senior in right of payment with

Table of Contents

all existing and future subordinated debt of such guarantors; and effectively subordinated to such guarantors existing and future secured debt to the extent of the assets securing such debt, including the guarantees by the guarantors of obligations under our credit facilities.

LPS has no independent assets or operations, our subsidiaries' guarantees are full and unconditional and joint and several, and our subsidiaries, other than subsidiary guarantors, are minor. There are no significant restrictions on the ability of LPS or any of the subsidiary guarantors to obtain funds from any of our subsidiaries by dividend or loan.

We may redeem some or all of the Notes on or after July 1, 2011, at the redemption prices described in the Indenture, plus accrued and unpaid interest. Upon the occurrence of a change of control, unless we have exercised our right to redeem all of the Notes as described above, each holder may require us to repurchase such holder's Notes, in whole or in part, at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest to the purchase date.

The Indenture contains customary events of default, including a cross default provision that, with respect to any other debt of the Company or any of our restricted subsidiaries having an outstanding principal amount equal to or more than a specified amount in the aggregate for all such debt, occurs upon (i) an event of default that results in such debt being due and payable prior to its scheduled maturity or (ii) failure to make a principal payment. Upon the occurrence of an event of default (other than a bankruptcy default with respect to the Company), the trustee or holders of at least 25% of the Notes then outstanding may accelerate the Notes by giving us appropriate notice. If, however, a bankruptcy default occurs with respect to the Company, then the principal of and accrued interest on the Notes then outstanding will accelerate immediately without any declaration or other act on the part of the trustee or any holder.

Interest Rate Swaps

On July 10, 2008, the Company entered into the following 2-year amortizing interest rate swap transaction converting a portion of our interest rate exposure on our floating rate debt from variable to fixed:

Amortization Period	Notional Amount (in millions)	Bank Pays Variable Rate of(1)	LPS pays Fixed Rate of(2)
July 31, 2008 to December 31, 2008	\$ 420.0	1 Month LIBOR	3.275%
December 31, 2008 to March 31, 2009	\$ 400.0	1 Month LIBOR	3.275%
March 31, 2009 to June 30, 2009	\$ 385.0	1 Month LIBOR	3.275%
June 30, 2009 to September 30, 2009	\$ 365.0	1 Month LIBOR	3.275%
September 30, 2009 to December 31, 2009	\$ 345.0	1 Month LIBOR	3.275%
December 31, 2009 to March 31, 2010	\$ 330.0	1 Month LIBOR	3.275%
March 31, 2010 to June 30, 2010	\$ 310.0	1 Month LIBOR	3.275%
June 30, 2010 to July 31, 2010	\$ 290.0	1 Month LIBOR	3.275%

(1) 3.93% as of
September 30,
2008.

(2)

In addition to the fixed rate paid under the swaps, we pay an applicable margin to our bank lenders on the Term A Loan, Term B Loan and Revolving Loan equal to 2.50% as of September 30, 2008.

Subsequent to quarter end, on October 6, 2008, the Company entered into an additional interest rate swap transaction converting a portion of our interest rate exposure on our floating rate debt from variable to fixed. Under the agreement, the Company receives a one month LIBOR rate of interest in exchange for paying a fixed rate of 2.78% until December 31, 2010 on \$350 million of notional principal amount.

We have designated these interest rate swaps as cash flow hedges in accordance with SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*. The estimated fair value of these cash flow hedges results in a liability of \$0.2 million as of September 30, 2008, which is included in the accompanying consolidated balance sheets in other noncurrent liabilities and as a component of accumulated other comprehensive earnings, net of deferred taxes. A portion of the amount included in accumulated other comprehensive earnings will be reclassified into interest expense as a yield adjustment as interest payments are made on the Term Loans. In accordance with the

Table of Contents

provisions of SFAS No. 157, *Fair Value Measurements* (SFAS 157), the inputs used to determine the estimated fair value of our interest rate swaps are Level 2-type measurements.

It is our policy to execute such instruments with credit-worthy banks and not to enter into derivative financial instruments for speculative purposes.

Contractual Obligations

Our long-term contractual obligations generally include our operating lease payments on certain of our property and equipment. As of September 30, 2008, our required annual payments relating to these contractual obligations were as follows (in thousands):

	2008	2009	2010	2011	2012	Thereafter	Total
Long-term debt	\$ 1,280	\$ 145,100	\$ 145,100	\$ 145,100	\$ 145,100	\$ 967,050	\$ 1,548,730
Interest on long-term debt	18,108	97,533	89,436	85,243	75,922	172,566	538,808
Operating lease payments	5,285	19,277	11,474	7,465	5,274	401	49,176
Deferred compensation (1)						20,228	20,228
Total	\$ 24,673	\$ 261,910	\$ 246,010	\$ 237,808	\$ 226,296	\$ 1,160,245	\$ 2,156,942

(1) Deferred compensation is presented as payable after 2012 because of the uncertain timing of the payables.

Off-Balance Sheet Arrangements

We do not have any material off-balance sheet arrangements other than operating leases and the escrow and Section 1031 tax deferred exchange arrangements described below.

Escrow Arrangements

In conducting our title agency, closing and section 1031 tax deferred exchange operations, we routinely hold customers' assets in escrow and investment accounts, pending completion of real estate and exchange transactions. Certain of these amounts are maintained in segregated accounts and have not been included in the accompanying consolidated and combined balance sheets. As an incentive for holding deposits at certain banks, we have ongoing programs for realizing economic benefits through favorable arrangements with these banks.

We conduct our section 1031 tax deferred exchange operations through our subsidiary Investment Property Exchange Services, Inc. (IPEX). Pursuant to IPEX's customary contractual arrangements with its customers, IPEX provides qualified intermediary services for 1031 tax deferred exchanges of property on behalf of its customer, and then holds the proceeds from the sale transaction until such time as the customer instructs IPEX to use the principal balance from the sale transaction in connection with the acquisition of a replacement property. These arrangements generally last for a period of six months or less. LPS guarantees the performance of IPEX's obligations with respect to these arrangements, including IPEX's proper application of a customer's principal balance in the acquisition of a replacement property. As of September 30, 2008, IPEX's customers' balances were held in investment accounts that were largely invested in short-term, high grade investments that minimize the risk to its customers' principal balances. None of the investments in the portfolio included auction rate securities or equities. However, as a result of recent illiquidity in the securities marketplace, certain investments maintained on behalf of our customers have experienced

declines in market value. As of September 30, 2008, the aggregate market value of all investments held in escrow in our title agency, closing and IPEX operations totaled \$892.7 million while our contingent liability to our customers totaled \$932.4 million. We believe that such declines in value are largely temporary in nature and there will be sufficient liquidity to complete our section 1031 tax deferred exchange obligations as they become payable. In accordance with the provisions of SFAS 157, the inputs used to determine the estimated fair value of the investments are Level 1-type measurements.

Recent Accounting Pronouncements

In June 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) Emerging Issues Task Force 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities*, which will become effective for periods beginning on or after December 15, 2008, and will

Table of Contents

be applied retrospectively. Under the FSP, unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents are participating securities and, therefore, are included in computing earnings per share (EPS) pursuant to the two-class method. The two-class method determines earnings per share for each class of common stock and participating securities according to dividends or dividend equivalents and their respective participation rights in undistributed earnings. Management has determined that the adoption of the FSP will not materially affect the Company's statements of financial condition or operations.

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS 162). SFAS 162 identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles in the United States. SFAS 162 is effective 60 days following the Securities and Exchange Commission's approval of the Public Company Accounting Oversight Board's amendments to AU Section 411, *The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles*. Management has determined that the adoption of SFAS 162 will not materially affect the Company's statements of financial condition or operations.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities—an amendment of FASB Statement No. 133*. (SFAS 161). SFAS 161 expands the current disclosure requirements of SFAS 133 such that entities must now provide enhanced disclosures on a quarterly basis regarding how and why the entity uses derivatives; how derivatives and related hedged items are accounted for under SFAS 133 and how derivatives and related hedged items affect an entity's financial position, performance and cash flows. Pursuant to the transition provisions of the statement, the Company will adopt SFAS 161 in fiscal year 2009 and will present the required disclosures in the prescribed format on a prospective basis. This statement will not impact the Company's financial results as it is disclosure-only in nature.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements—an amendment of ARB No. 51* (SFAS 160), requiring noncontrolling interests (sometimes called minority interests) to be presented as a component of equity on the balance sheet. SFAS 160 also requires that the amount of net income attributable to the parent and to the noncontrolling interests be clearly identified and presented on the face of the consolidated statement of income. This statement eliminates the need to apply purchase accounting when a parent company acquires a noncontrolling ownership interest in a subsidiary and requires that, upon deconsolidation of a subsidiary, a parent company recognize a gain or loss in net income after which any retained noncontrolling interest will be reported at fair value. SFAS 160 requires expanded disclosures in the consolidated financial statements that identify and distinguish between the interests of the parent's owners and the interest of the noncontrolling owners of subsidiaries. SFAS 160 is effective for periods beginning on or after December 15, 2008 and will be applied prospectively except for the presentation and disclosure requirements, which will be applied retrospectively for all periods presented. Management has determined that the adoption of SFAS 160 will not materially affect the Company's statements of financial condition or operations.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), *Business Combinations* (SFAS 141R), requiring an acquirer in a business combination to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at their fair values at the acquisition date, with limited exceptions. The costs of the acquisition and any related restructuring costs will be expensed separately. Assets and liabilities arising from contingencies in a business combination are to be recognized at their fair value at the acquisition date and adjusted prospectively as new information becomes available. When the fair value of assets acquired exceeds the fair value of consideration transferred plus any noncontrolling interest in the acquiree, the excess will be recognized as a gain. Under SFAS 141R, all business combinations will be accounted for prospectively by applying the acquisition method, including combinations among mutual entities and combinations by contract alone. SFAS 141R is effective for periods beginning on or after December 15, 2008, and will apply to business combinations occurring after the effective date.

In September 2006, the FASB issued SFAS 157, which defines fair value, establishes guidelines for measuring fair value and expands disclosures regarding fair value measurements. SFAS 157 does not require any new fair value measurements but rather eliminates inconsistencies in guidance found in various prior accounting pronouncements

Edgar Filing: Lender Processing Services, Inc. - Form 10-Q

and is effective for fiscal years beginning after November 15, 2007. In February 2008, the FASB issued FSP No. FAS 157-2, *Effective Date of FASB Statement No. 157*, which delays the effective date of SFAS 157

32

Table of Contents

for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually), until fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. These nonfinancial items include assets and liabilities, such as reporting units measured at fair value in a goodwill impairment test and nonfinancial assets acquired and liabilities assumed in a business combination. Effective January 1, 2008, we adopted SFAS 157 for financial assets and liabilities recognized at fair value on a recurring basis. The partial adoption of SFAS 157 for financial assets and liabilities did not have a material impact on the Company's statements of financial condition, results of operations or cash flows.

Item 3. Quantitative and Qualitative Disclosure About Market Risks

In the normal course of business, we are routinely subject to a variety of risks, including those described in Part II, Item 1A, Risk Factors, below and in the sections titled Risk Factors and Statement Regarding Forward-Looking Information in our Form 10 and our other filings with the Securities and Exchange Commission. For example, we are exposed to the risk that decreased lending and real estate activity, which depend in part on the level of interest rates, may reduce demand for certain of our services and adversely affect our results of operations.

The risks related to our business also include certain market risks that may affect our debt and other financial instruments. In particular, we face the market risks associated with interest rate movements on our outstanding debt. We expect to regularly assess market risks and to establish policies and business practices to protect against the adverse effects of these exposures.

We are a highly leveraged company, with approximately \$1,548.7 million in long-term debt outstanding as of September 30, 2008. The Company has entered into interest rate swap transactions which converted a portion of the interest rate exposure on our floating rate debt from variable to fixed. Of the remaining variable rate debt not covered by the swap arrangements, we estimate that a one percent increase in the LIBOR rate would increase our annual interest expense by approximately \$4.4 million.

Item 4T. Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined in Rule 13a-15(e) under the Exchange Act. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures are effective to provide reasonable assurance of timely alerts to material information required to be included in our periodic SEC reports.

There were no changes in our internal control over financial reporting that occurred during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II: OTHER INFORMATION

Item 1. Legal Proceedings

In the ordinary course of business, we are involved in various pending and threatened litigation matters related to our operations, some of which include claims for punitive or exemplary damages. We believe that no actions, other than the matters listed below, depart from customary litigation incidental to our business. As background to the disclosure below, please note the following:

These matters raise difficult and complicated factual and legal issues and are subject to many uncertainties and complexities.

In these matters, plaintiffs seek a variety of remedies including equitable relief in the form of injunctive and other remedies and monetary relief in the form of compensatory damages. In some cases, the monetary damages sought include punitive or treble damages. None of the cases described below includes a specific

Table of Contents

statement as to the dollar amount of damages demanded. Instead, each of the cases includes a demand in an amount to be proved at trial.

For the reasons specified above, it is not possible to make meaningful estimates of the amount or range of loss that could result from these matters at this time. We review these matters on an ongoing basis and follow the provisions of Statement of Financial Accounting Standards No. 5, *Accounting for Contingencies*, when making accrual and disclosure decisions. When assessing reasonably possible and probable outcomes, we base our decision on our assessment of the ultimate outcome following all appeals.

We intend to vigorously defend each of these matters, and we do not believe that the ultimate disposition of these lawsuits will have a material adverse impact on our financial position.

National Title Insurance of New York, Inc. Litigation

One of our subsidiaries, National Title Insurance of New York, Inc., has been named in twelve putative class action lawsuits: *Barton v. National Title Insurance of New York, Inc. et al.*, filed in the U.S. District Court for the Northern District of California on March 10, 2008; *Gentilcore v. National Title Insurance of New York, Inc. et al.*, filed in the U.S. District Court for the Northern District of California on March 11, 2008; *Martinez v. National Title Insurance of New York, Inc. et al.*, filed in the U.S. District Court for the Southern District of California on March 18, 2008; *Swick v. National Title Insurance of New York, Inc. et al.*, filed in the U.S. District Court for the District of New Jersey on March 19, 2008; *Davis v. National Title Insurance of New York, Inc. et al.*, filed in the U.S. District Court for the Central District of California, Western Division, on March 20, 2008; *Pepe v. National Title Insurance of New York, Inc. et al.*, filed in the U.S. District Court for the District of New Jersey on March 21, 2008; *Kornbluth v. National Title Insurance of New York, Inc. et al.*, filed in the U.S. District Court for the District of New Jersey on March 24, 2008; *Lamb v. National Title Insurance of New York, Inc. et al.*, filed in the U.S. District Court for the District of New Jersey on March 24, 2008; *Blackwell v. National Title Insurance of New York, Inc. et al.*, filed in the U.S. District Court for the Northern District of California on April 11, 2008; *Magana v. National Title Insurance of New York, Inc. et al.*, filed in the U.S. District Court for the Central District of California on June 4, 2008; *Moynahan v. National Title Insurance of New York, Inc. et al.*, filed in the U.S. District Court for the Central District of California on June 10, 2008; and *Romero v. National Title Insurance of New York, Inc. et al.*, filed in the U.S. District Court for the Northern District of California on July 14, 2008. The complaints in these lawsuits are substantially similar and allege that the title insurance underwriters named as defendants, including National Title Insurance of New York, Inc., engaged in illegal price fixing as well as market allocation and division that resulted in higher title insurance prices for consumers. The complaints seek treble damages in an amount to be proved at trial and an injunction against the defendants from engaging in any anti-competitive practices under the Sherman Antitrust Act and various state statutes. A motion was filed before the Multidistrict Litigation Panel to consolidate and/or coordinate these actions in the United States District Court in the Southern District of New York. However, that motion was denied. The cases are generally being consolidated before one district court judge in each state and scheduled for the filing of consolidated complaints and motion practice.

Harris, Ernest and Mattie v. FIS Foreclosure Solutions, Inc.

A putative class action was filed on January 16, 2008 as an adversary proceeding in the Bankruptcy Court in the Southern District of Texas. The complaint alleges that LPS engaged in unlawful attorney fee-splitting practices in its default management business. The complaint seeks declaratory and equitable relief reversing all attorneys' fees charged to debtors in bankruptcy court and disgorging any such fees we collected. We filed a Motion to Dismiss, and the Bankruptcy Court dismissed three of the six counts contained in the complaint. We also filed a Motion to Withdraw the Reference and remove the case to federal district court as the appropriate forum for the resolution of the allegations contained in the complaint. The Bankruptcy Court recommended removal to the U.S. District Court for the Southern District of Texas, and the U.S. District Court accepted that recommendation in April 2008.

Item 1A. Risk Factors

In addition to the normal risks of business, we are subject to significant risks and uncertainties, including those listed below and elsewhere in this report and others described in the sections titled "Statement Regarding Forward-Looking Information" and "Risk Factors" in our Form 10 and other filings with the Securities and Exchange

Table of Contents

Commission, which are incorporated herein by reference. Any of the risks described herein could result in a significant adverse effect on our results of operation and financial condition.

Consolidations and failures in the banking and financial services industry could adversely affect our revenues by eliminating some of our existing and potential customers and making us more dependent on a more limited number of customers.

There has been and continues to be substantial merger, acquisition and consolidation activity in the banking and financial services industry. As a result of the rising mortgage delinquency and default rates, many banks and financial institutions are experiencing negative operating results, including many of our customers. In some cases, these negative operating results have led to the failure and/or consolidation of certain banks and financial institutions, including: the merger of Bank of America and Countrywide Financial Corporation (Countrywide); the failure of IndyMac; the proposed acquisition of Merrill Lynch by Bank of America; the acquisition of Washington Mutual's assets and deposits by JPMorgan Chase; and the proposed acquisition of Wachovia by Wells Fargo.

Failures, mergers and consolidations of banks and financial institutions reduce the number of our customers and potential customers, which could adversely affect our revenues even if these events do not reduce the aggregate activities of the consolidated entities. Further, if our customers fail and/or merge with or are acquired by other entities that are not our customers, or that use fewer of our services, they may discontinue or reduce their use of our services. It is also possible that the larger banks or financial institutions resulting from mergers or consolidations would have greater leverage in negotiating terms with us or could decide to perform in-house some or all of the services which we currently provide or could provide. Any of these developments could have a material adverse effect on our business and results of operations.

The recent merger of Bank of America and Countrywide is an example of such a consolidation. Prior to the merger, each of these two entities used some of the services we provide while obtaining others from third parties or from internal resources. Since the closing of the merger, Bank of America has informed us that it continues to lean toward phasing out the mortgage processing and some of the appraisal services we provide to it and instead obtaining these services internally. These services together generated approximately 4% of our revenues in 2007. If this decision becomes final, we anticipate that a mortgage processing conversion would occur sometime in 2010. In the meantime, the amount of revenue that we have received from the combined company since the merger has increased and we continue to discuss other revenue opportunities that may offset a phase-out of the mortgage processing and appraisal services. It is also possible that Bank of America could decide to continue to use our mortgage processing and/or appraisal services or continue to expand its relationship with us with respect to other services we offer, although no assurance can be given in this regard.

Washington Mutual and JPMorgan Chase also use some of the services we provide, as do Wachovia and Wells Fargo. In addition, Merrill Lynch, which is also being acquired by Bank of America, uses certain of our services. It is possible that, as a result of one consolidating institution providing internally or obtaining from a different provider certain services which the other consolidating institution obtains from us, they may discontinue using certain of our services or may begin using some of our services they had not previously used as a result of these transactions. However, it is too soon to predict the impact that these consolidations may have on the types, amounts and pricing of services we will provide to these institutions in the future,

Table of Contents

Efforts by the government, financial institutions and other parties to address the troubled mortgage market and the current economic and financial environment could affect us.

Several new pieces of legislation have been recently enacted to address the struggling mortgage market and the current economic and financial environment, including the Foreclosure Prevention Act of 2008, a piece of wide-ranging legislation aimed at assisting the troubled housing market, and the Emergency Economic Stabilization Act of 2008, which provides broad discretion to the Secretary of the Department of the Treasury to implement a program for the purchase of up to \$700 billion in troubled assets from banks and financial institutions (TARP). It is too early to predict the impact that this new legislation may have on our business or results of operations.

It is possible that state and/or federal authorities may take additional action to address the current economic situation. For example, various federal and state initiatives have been proposed concerning foreclosure relief, although we cannot predict the final form that any such legislation or other relief may take, when it may become effective or the impact it may have on our business.

There is also increasing pressure on lenders and loan servicers to implement loan modification programs to help existing borrowers to avoid foreclosure. The Federal National Mortgage Association, which we refer to as Fannie Mae, and the Federal Home Loan Mortgage Corporation, which we refer to as Freddie Mac, government-sponsored organizations that are tasked with working with financial institutions to provide liquidity to the mortgage market, have both recently been placed into conservatorship. Also, as a result of TARP, the federal government has taken an equity ownership interest in a number of banks and financial institutions, and may invest in additional institutions in the future. These situations may place additional pressure on those institutions to adopt these loan modification programs or other policies advocated by the federal government. We are unable to predict the extent to which banks and financial institutions may implement these policies, the form such policies may take or the impact they may have on our business and results of operations.

The sharp rise in home foreclosures experienced over the last couple of years has also resulted in investigations and lawsuits against various parties commenced by various governmental authorities and third parties. It has also resulted in governmental review of aspects of the mortgage lending business, which may lead to greater regulation in areas such as appraisals, default management, loan closings and regulatory reporting. Such actions and proceedings could have adverse consequences that could affect our business.

For example, in 2007, the New York Attorney General, or NYAG, began conducting an inquiry into various practices in the mortgage market, including a review of the possibility that conflicts of interest have in some cases affected the accuracy of property appraisals. In March 2008, the NYAG announced a resolution of a portion of this inquiry with respect to Fannie Mae and Freddie Mac. Fannie Mae and Freddie Mac each committed to adopt a new Home Valuation Code of Conduct that establishes requirements governing appraiser selection, compensation, conflicts of interest and corporate independence, among other matters. Among other things, the Code of Conduct prohibits the purchase of home mortgage loans by Fannie Mae and Freddie Mac if the associated appraisal is performed by an appraiser that is employed by the lender, a real estate settlement services provider or a subsidiary of a real estate settlement services provider. Although we provide real estate settlement services, we do not employ appraisers. Instead, we manage the activities of thousands of appraisers who all work as independent contractors. However, Freddie Mac issued a bulletin indicating that the prohibition in the Code of Conduct applies to independent contractor appraisers as well as employees.

The NYAG, Fannie Mae, Freddie Mac and the Office of Federal Housing Enterprise Oversight (the principal regulator of Fannie Mae and Freddie Mac) are currently reviewing the public comments on the Code of Conduct, and are expected to clarify their collective intent and finalize the Code of Conduct prior to December 31, 2008, with implementation to occur in 2009. If the Code of Conduct is ultimately revised or interpreted by the parties thereto in a manner that is adverse to our appraisal operations, we will consider multiple options, which could include:

(1) possible court challenges to the legality of the Code of Conduct, on state or federal grounds; (2) restructuring our appraisal operations so that we can comply with the Code, which might include some form of joint operations with a third party; or (3) selling our appraisal business. At this time, we are unable to predict the ultimate effect of the Code of Conduct on our business or results of operations.

Table of Contents

Low levels of lending and real estate activity reduces demand for certain of our services and may adversely affect our results of operations.

Real estate sales are affected by a number of factors, including mortgage interest rates, the availability of funds to finance purchases, the level of home prices and general economic conditions. The volume of refinancing transactions in particular and mortgage originations in general declined in 2005, 2006 and 2007 from 2004 levels, resulting in reduction of revenues in some of our businesses. In 2008, the sharply rising mortgage delinquency and default rates has caused negative operating results at a number of banks and financial institutions and, as a result, has significantly reduced the level of lending activity. The current Mortgage Bankers Association forecast is for approximately \$1.9 trillion of mortgage originations in 2008 compared to \$2.3 trillion in 2007. These trends appear likely to continue. Our revenues in future periods will continue to be subject to these and other factors which are beyond our control and, as a result, are likely to fluctuate.

Further, in the event that levels of home ownership were to decline or other factors were to reduce the aggregate number of U.S. mortgage loans, our revenues from mortgage processing could be adversely affected.

If we were to lose any of our largest customers, our results of operations could be significantly affected.

A small number of customers have accounted for a significant portion of our revenues, and we expect that a limited number of customers will continue to represent a significant portion of our revenues for the foreseeable future. In 2007, our three largest customers accounted for approximately 25% of our aggregate revenue and approximately 23% and 26% of the revenue of our Technology, Data and Analytics and Loan Transaction Services segments, respectively. In addition, our fourth largest customer in 2007, which represented 3.5% of our aggregate revenue, was Countrywide, which recently merged with Bank of America, which is one of our three largest customers. The assets and deposits of Washington Mutual, which was also one of our three largest customers in 2007, were recently acquired by JPMorgan Chase, which is also a significant customer of ours. In addition, Wachovia, which is one of our significant customers, is being acquired by Wells Fargo, which was one of our three largest customers in 2007. Our relationships with these and other large customers are important to our future operating results, and deterioration in any of those relationships, as a result of changes following a merger, consolidation or otherwise, could significantly reduce our revenues.
